TUCKER'S NATIONAL WHIRLING G

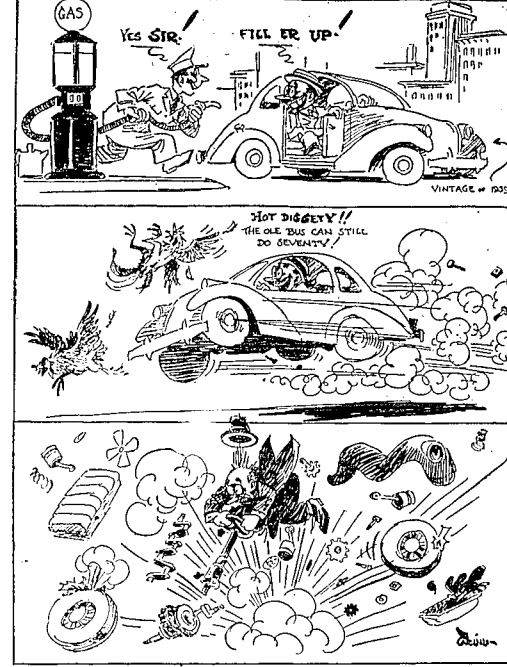

BASES—The unpublished portions of the house naval affairs subcommittee's report on retention of island bases in the Pacific constitute the first of a series of long-range documents that has been submitted to the congress on the subject of the retention of island bases in the Pacific.

Looking into the future, it proposes a seemingly invulnerable chain of fortifications in this broad area of the Pacific.

Recognizing that any future threat of aggression from the east and west alike southwestward in the Pacific, the report suggests that the United States should acquire a series of bases in the western Pacific, which would be able to wage war on the high seas, and which would be able to wage war on the high seas, and which would be able to wage war on the high seas.

Why, Washington asks, is it necessary for the United States to undertake such a far-flung and costly policy?

HOW THINGS APPEAR FROM PEGGY'S ANGLE

NEW YORK—Twice in the course of the past few days, the government of the foreign policy of the new British labor government has compared Hitlerism with Stalinism.

It was not the first time that the government has done so. It has done so many times before, and it is doing so now.

"One thing we must aim at remembering," said the new British labor government, "is that the only way to prevent the substitution of a new form of Hitlerism for the old is to prevent the substitution of a new form of Hitlerism for the old."

The United States has been the opinion of those Americans who wanted the communists to be the only power in the world, and even in the national government.

It was not the first time that the government has done so. It has done so many times before, and it is doing so now.

Friendship for the Russian people, of a sentimental kind based on acquaintance, which has been lacking, did not require us to adopt any policy of friendship with the two-party system, capitalism and freedom of religion and the right to the free press.

Here's the verbatim copy of the letter:

RAILROAD ANTI-TRUST SUITS

Out of all the confusion in bureaucratic government, the pending problem which congress will be forced to work out.

The country's vast transportation system, faced with great post-war responsibility, will be treated in the railroads are relieved from the conflicting controls of two federal agencies which disagree on the methods of establishing freight rates.

The Interstate Commerce Commission, created by congress, has had control over railroad freight rates since 1887. With the approval of the ICC, the 136 railroads in the United States have maintained a cooperative bureau to control the country.

POETS

—Here are a few answers to that under-standable query:

Despite the spirit of peace now hovering over the world, (3) and despite the noble aspirations of the United Nations, the poets are writing the combinations of hostile poems against which the United States must safeguard the western coast and its waters.

Realistic and long-range considerations for the nation's permanent safety demand a hard-boiled study of the poet's mind.

'WASHINGTON CALLING' BY MARQUIS CHILDS

WASHINGTON—Both America and Britain have not spoken through their two new secretaries for foreign affairs.

There are indications that the working relationship between the Soviet Union and Poland is not so happy. The government in Warsaw is finding it difficult to get cooperation from the Polish people.

In the Russian sphere of influence, the situation is not so bright. The Russian people are finding it difficult to get cooperation from the Polish people.

MEMO ON GOVERNMENT WORKERS' DEATHS

We secured the following from a Twin Falls woman whose cousin worked in the Washington office of the Department of Labor.

Washington, copies of this are being distributed by the Department of Labor to all government workers.

Both the railroads and the shipper organizations are in a fix.

As the late Joseph B. Eastman, former chairman of the ICC, warned, under such a club the benefits "inevitably go to the shipper and the railroad companies."

The Interstate Commerce Commission, created by congress, has had control over railroad freight rates since 1887. With the approval of the ICC, the 136 railroads in the United States have maintained a cooperative bureau to control the country.

INVESTMENTS

The subcommittee, in the confidential opinion of its recommendations, missed no opportunity to mention the fact that the United States is not a permanent national security is concerned.

There are indications that the working relationship between the Soviet Union and Poland is not so happy. The government in Warsaw is finding it difficult to get cooperation from the Polish people.

HINTS ABOUT HEALTH BY DOCTOR BOB HOPE

HOSPITAL REGULATIONS

Hospitals have visiting rules and regulations to help their patients.

Most patients dislike having to visit their best at all times, and they are often very tired when they go to the hospital.

Make your visit brief. Most of us are busy and have a lot to do. It is better to visit for a few minutes than to visit for an hour.

Make your visit productive. Don't just sit there and talk. Try to do something for the patient.

BALLOON BOMB "BUST"

The characteristic inconsistency of the Japanese in their squawk about the "inhumanity" of the atomic bomb has been emphasized anew by the disclosure that at least 225 of their balloon bombs reached the American continent during the final nine months of the war.

It is true, of course, that the balloon bomb did not compare with the atomic in its destructive power. But the fact that it was used in which the balloon weapon was used by the enemy was infinitely more barbaric.

Allied Forces On Alert for Lap Incidents

By DEWITT MACKENZIE
Foreign Affairs Analyst

We shall be able to trace the history of the military forces of Japan in an accomplished fact.

We do not mean to cross our fingers before the military, but there is the possibility that our forces may encounter untoward incidents. It is a fact that the military is in a state of alert for lap incidents. This is true of the population as a whole, as witness Tokyo broadcasts reporting numerous suicides before the military police.

More to the point, however, is the recent resentment of the military forces which have pledged to aid our forces in suicide attacks.

But if the allies encounter difficulties they will come from the military, with them, thanks to the obvious precautions which our high command is taking.

This column long ago reported from informed sources that the Japanese military, recognizing that nippon was losing this war, was planning to commit another conflict twenty-five years hence. Of course, since that time the Japanese military has been eliminated, but so long as the military remains alive, and retains the ability to commit suicide attacks, the possibility of such an event remains.

Our position in the Japanese home island will represent a mighty task for the military, and the beginning of a task far greater than the one we have just finished in the Pacific. It is a task that will require a long and arduous struggle.

IN THE HOUR OF TRIUMPH

Behind us lie 3½ years of deadly struggle in which, with God's help, we have prevailed.

So, today, we celebrate a victory.

After the celebration, what lies ahead?

For most of us, the outlook is a bright one. If we will simply use the brains, the will, the energy, the enterprise . . . the materials and resources . . . with which we won our war, we can't fail to win the peace and to make this the richest, happiest land the world has known.

For most of us, the years ahead are bright with promise. But for others of us—and, ironically enough, their part in bringing victory was a major one—the

years to come must bear a different look.

In America today are hundreds of thousands of injured men. Men with neatly pinned-up sleeves and trousers. Blinded men. Men with clever iron hooks instead of hands. Worst of all, men with hurt and darkened minds.

These men need our help. Helping them will cost a great deal of money. We can help them best by buying Victory Bonds.

Far away from America today are millions of Americans. As we would be, they're on fire to get back—to their wives, to the children some of them have never seen, to their jobs.

These men need our help. Helping them will cost a great deal of money. And we can help them best by buying Victory Bonds.

This is our day of triumph. But it's theirs too—the injured men, the men who are still far away.

Let's not forget them, in our just rejoicing. And the one way we can help most to care for our wounded . . . to bring our veterans home . . . to give them a fresh start in the country they fought for . . . to care for the families of those who died before the victory was won . . . is simply this:

Buy all the Bonds you can. Keep all the Bonds you buy.
