At 10 a. m. tomorrow (7 p. m. today, MWT), MacArthur will land with thousands of air-borne infantrymen at Atsugi airfield, 20 miles south of Tokyo, and 10,000 marines and bluejackets will swarm ashore from ships at Yokosuka itself.

The white-clad post-war render invasion, the greatest air and sea fleets ever gathered in the Pacific, were making last-minute preparations at bases 1,000 miles apart.

MacArthur and his headquarters staff flew from Manila to Okinawa and watched the seaward of the islands guarding the Yokosuka naval base in Tokyo bay at 6:15 a. m. tomorrow (3:15 p. m. today, MWT).

Members of MacArthur's staff and the United States Army and Navy will attend the ceremony at Atsugi airfield. MacArthur will sign the document as the supreme allied commander.

Adm. William F. (Bull) Halsey brought aboard the Missouri flag today to Tokyo bay with scores of other allied warships, transports and hospital ships today in preparation for tomorrow's landings.

But for These No Surrender Can Atone

Automobiles—America's automobile world has been amazed to discover that the British are shipping their own automobiles to the United States at the very moment when government customs and lack of money are preventing them from producing for almost eight months.

They have received no such orders from the United States, but so far they have received no satisfaction.

They cannot ascertain whether the treatment for these shipments from a country apparently devoted exclusively to manufacture of war equipment is not a matter of the levels or not, inasmuch as state funds are not available for the purchase of any of the cars.

At this time it is believed that the opening of the American market for the British cars is being held back by higher-ups of the former administration.

Moreover, manufacturers of the cheap car have already established dealer agencies in Mexico and they are making arrangements for a similar distribution within the next few months. With that in mind, they may be able to grab this field before their American competitors can.

The No. 1 question at Detroit and Washington is how British cars can be sold and turned out there. For the fact that these cars are already being sold in the United States, it is demonstrated that the foreign makers did not wait for the United States to open its doors.

By the way, manufacturers of the cheap car have already established dealer agencies in Mexico and they are making arrangements for a similar distribution within the next few months. With that in mind, they may be able to grab this field before their American competitors can.

The No. 1 question at Detroit and Washington is how British cars can be sold and turned out there. For the fact that these cars are already being sold in the United States, it is demonstrated that the foreign makers did not wait for the United States to open its doors.

PRICES—Detroit motor magazines are disturbed over this premature competition for several reasons. Although automobile makers have never made much headway in the United States, they will sell in this country for approximately \$300.

By contrast, even the lowest-priced American makes, which used to cost around \$1000, are now being retailed for \$1000 or \$1100. Higher labor costs are responsible for this difference in the bill. Three years ago the cost of a car was \$1000, but now it is \$1500. Automobile makers are already demanding a 30 per cent increase.

Moreover, several American industrialists, including Henry J. Kaiser, have proclaimed their intention of producing their new line of cars in England. They are turning out a car by mass volume methods that will cost less than \$1000.

Thus, every British motor car for the standard brand is an advertisement for the power product, adding other handouts to the economic advantages from which domestic producers already suffer.

RESENTMENT—Prospective loss of the Mexican and South American markets is another blow. Under the present tariff schedule, American-made automobiles are sold at a profit. It is expected that they would become lucrative customers.

But under the mysterious arrangement mentioned in the magazine, American exporters are being asked to accept a loss of \$1000 per car.

Most of it is now obsolete. They made the plans for trucks and trucks and half-tracks which were sold to the United States. So they receive their present plight.

REDEMPTION—The misapprehension of the redeployment of European fighting veterans to the Pacific and the United States is another cause for concern. It is expected that they will be sent to the Pacific and the United States. It is expected that they will be sent to the Pacific and the United States.

PLAN—But the threat of Japanese resistance and the prospectively unemployed, probably as favorable as congress can make it at this time. Congress seems awake to the importance and the urgency of the problem.

Thus, of course, does not guarantee that curative legislation may be as speedy as may be desired. But it does provide reason for hope that the national legislature will be diligent in providing whatever relief congress can provide.

NO SAUCE FOR THE GANDER—President William Green, who is a veteran labor leader, but he seems to have the wrong conception of his important role in the creation of a peaceful industrial atmosphere after the war.

He has rejected the proposed Ball-Burton-Match industrial relations act, not reasonably and categorically, but in a single blast of general denunciation. He has rejected the suggestion that labor and industry sit down with government to chart a course for preventing added difficulties in the difficult time of reconstruction.

FORCED TO TAKE REST—At the instance of his physician, Albert Lemon is obliged to take a temporary rest beginning immediately.

"Analyzing News in New York" will, therefore, be temporarily absent from the Times. News editorial page.

Views of Others—Just what kind of a surrender are we witnessing one of the most curious surrenders in the history of the world.

General MacArthur, in charge of the surrender, has been given four days to Japan to Manila before he is to be allowed to leave the island.

The type of transport to take for the trip after the surrender is not yet decided. It is believed that sufficient time to destroy valuable papers, his diary, taken from conquered countries, and otherwise to be destroyed in the United States.

Transportation taken differently than had been desired.

EDSON'S VIEWS ON DONGS IN WASHINGTON

WASHINGTON—Many new men are appearing in the ranks of the various departments of the government as a result of recent cabinet changes.

One of the first things they must do is to get acquainted with the various departments of the government. This is a task that is not easily accomplished.

At this stage of the game you are in a position to see the situation in the office. A tray with a few folders and a desk set is all that is needed to get started.

At \$1000 a year the "man" is a conference table like the water pitcher set for his assistant. This is the option to have the files running down from the other side of your desk or at the other side of the desk.

A man doesn't become an official until he gets a secretary. If his salary is \$1000, his secretary usually has a desk in his office. There's no rug on the floor, filing cabinets are not in the office, and his wife and kids are permitted on the desk but not on the walls. You have to make at least \$120 before you can have anything but bureau pictures hanging on the wall.

The man moves up. He's getting around \$6000 a year now. This is a green rug, a green rug for the office.

WASHINGTON—Many new men are appearing in the ranks of the various departments of the government as a result of recent cabinet changes.

One of the first things they must do is to get acquainted with the various departments of the government. This is a task that is not easily accomplished.

At this stage of the game you are in a position to see the situation in the office. A tray with a few folders and a desk set is all that is needed to get started.

At \$1000 a year the "man" is a conference table like the water pitcher set for his assistant. This is the option to have the files running down from the other side of your desk or at the other side of the desk.

A man doesn't become an official until he gets a secretary. If his salary is \$1000, his secretary usually has a desk in his office. There's no rug on the floor, filing cabinets are not in the office, and his wife and kids are permitted on the desk but not on the walls. You have to make at least \$120 before you can have anything but bureau pictures hanging on the wall.

Mining Ban Out but No Town Booms

DENVER, Aug. 29 (AP)—The lifting of the wartime ban on gold mining has not brought any real boom to the mine towns.

Many operators are handicapped by lack of equipment and manpower; others have exhausted their capital trying to keep the mines in operation during the shutdown ordered in October, 1942.

There has been little resumption of activity in California, Nevada or Colorado since the government ban was lifted July 1. Only in the Black Hills of South Dakota, at the famous old Homestake mine in Lead, is there anything like a boom.

The four states of California, Nevada, Colorado and Idaho are the chief gold producing states of the U. S. In 1944, the value of their output was estimated at \$270,010,210, almost half of the nation's total.

The gold mining ban, which was an attempt to get miners into the strategic war industries, had a mixed record. It led head hunters to the town but some of the miners were booted out. But today the lights in South Dakota's gold fields are bright again and production is above 600 tons of ore daily.

In Colorado, at such famous camps as Cripple Creek, Central City, there has been little resumption of gold operations. At Robert H. Palmer, secretary of the state metal mining fund, some prospects are being developed and preliminary work is under way in other areas. Miners want an upward revision of the \$20-a-ounce gold price.

Here in California many mines are still closed. Some of the mines pumped out, much retreating will be done.

Some Colorado mines have been maintained by repair crews, but most have been closed.

Both Colorado and California operators complain of the lack of equipment. Throughout the U. S. is sent machinery to South America, south Africa, Canada and Russia.

In Nevada, where the consensus is that the labor shortage will not warrant early resumption of mining, a movement has been inaugurated to get the government to supervise intelligent prospecting for returning veterans. The plan, which would stress knowledge of the state, would enlist the aid of the state bureau of mines, mining schools, the vocational department of the education system. Military installations are already studying the problem in mining.

Despite this movement there is a certain apathy in Nevada because miners object that their industry is so controlled by the government that they can't keep the products, which instead must be turned over to the government. The government's policy is the fact that there is a vast surplus of capacity in the state looking for investment.

Yank Goes to Market

The intention of this Joe was to do a little watch-trading at Berlin's black market in the Thiergarten. But there were two blondes, and fraternizing seemed more attractive than black marketing, so the illegal trading in the background is ignored.

Importation Of Jamaicans Sought Here

Twelve members of the Twin Falls County Farm Labor Sponsorship association, meeting last night in the county agent's office in the court house, went on record as favoring the importation of Jamaican labor from California "to ease some of the present labor shortage in an effort to get the crops harvested."

The association, headed by R. Bollingbrook, Bull, chairman of the committee.

The purpose of the meeting was to determine how many of the Jamaican laborers should be ordered, Bollingbrook said. The committee members voted to "order" 250 of the workers.

Bollingbrook, at the start of the meeting, told other committee members that "no more Mexican nationals are available for harvest work in the county."

"The Bonanza Canning company can supply 50 of the Mexicans from Montana soon after Sept. 1," Bollingbrook said, speaking for the company.

This offer was accepted by the members present, who also went on record as recommending an eight-hour day instead of war labor in connection with potato digging, the day work will start at 8 a. m. on the first of October.

Besides Bollingbrook, those present included Dave Thomson, Harry Hillman and Carl Lesher, all of the Twin Falls county farm labor sponsorships. Also in attendance were Albert McGee, and Edw. H. Minard, Twin Falls, and Harold Harvey, Bull. Also in attendance were Albert McGee, and Edw. H. Minard, Twin Falls, and Harold Harvey, Bull.

Higher Pay, Shorter Hours Demanded by Lewis, Green

WASHINGTON, Aug. 29 (AP)—Higher wages and shorter hours were urged by labor leaders John L. Lewis and William L. Green today. They joined secretary of Commerce Wallace in endorsing so-called full employment legislation before a Senate banking subcommittee.

Opposition was sounded, however, by Ira Mosler, president of the National Association of Manufacturers. He called the legislation "unworkable." It was opposed also by other business spokesmen.

Lewis, president of the United Mine Workers, said the problem of providing employment opportunities in coming years of rapid scientific advance was inevitably associated with the number of hours of work.

He offered an amendment to the Wagner-Murray bill that would make it a specific government responsibility to adopt policies from time to time "looking to the adjustment and shortening of the hours of labor."

LDS Convention Held at Burley

BOISE, Aug. 29—The Minkidola stake LDS primary convention was held at the Rupert Lodge labor hall, Aug. 28, under the direction of the two general board members, Mrs. Dixie Lloyd, Salt Lake City, and Mrs. Thelma Harrison, Ogden.

The morning session was attended by primary stake board members and Davis Green, stake president, and Leslie Harper, high councilman. A noon lunch was served by the Rupert High school and Higham ward primary presidences. Autumn ward decorated the rooms and tables.

The afternoon program, attended by ward primary workers throughout the stake, included prelude mu-

Trial List of War Criminals To Be Announced in Few Days

LONDON, Aug. 29 (AP)—The list of Germany's 26 to 40 arch-war criminals who will go on mass trial at Nuremberg after Sept. 1 will be made public in a few days, a responsible American source said today.

The group of Nazi party big-wigs, high-ranking military chiefs and former diplomats will face the four-power international tribunal just as soon as preparations can be made.

"A list of those to be tried will be released in London, Berlin, Paris, Moscow and Washington for simultaneous publication," it was said. The list represents weeks of extensive investigation and selection.

More than 30 of the potential defendants and key witnesses, among them those charged as Reichsmarschall Hermann Goering and former

Contest to Pick Name of Boeing Extended to 15th

The contest, announced by the Zimmerly airlines to name the first Boeing plane to operate on scheduled passenger routes in Idaho has been extended to Sept. 15, when names will be selected simultaneously for the three Boeing routes to use by the company. It was announced yesterday by company officials.

Contestants who have previously sent in suggestions are eligible to submit two more names and the contest remains open to all residents of the state.

The three judges, who will select of the winning personnel, will not give consideration to Indian names.

The three winning contestants will be guests of the airline for a flight from the scheduled landing nearest their home to the next station and return. The names may be left with the station masters in the communities where the airline has local offices or may be mailed to Zimmerly airlines headquarters at Lewiston.

The company maintains a ticket office here in the Rogerson hotel lobby.

Soldiers Fight Rattlesnakes in Texas Hurricane

VICTORIA, Tex., Aug. 29 (AP)—It was rattlesnake country, not hurricane—that had soldiers on Matamoros Island worried here today. Hundreds of rattlesnakes left their own habitat and made for that of the military. It is estimated that an officer left to guard government property—when high winds shifted away with 45—50 rattlesnakes, then appearing as a ammunition dump.

26 members. Special quest was John D. Smith, who is in the military service. Members were urged to attend the meeting. A Potomac boat social is scheduled for Sept. 1.

2 More Bucking Horses Succumb

BOISE, Aug. 29 (AP)—Two more bucking horses died at the western Idaho fair yesterday of what Dr. A. P. Schneider has diagnosed as botulism.

Seven of a string of approximately 100 horses died yesterday but Dr. Schneider, director of the state bureau of animal industry, reported no other animals appeared ill today. The disease is such, however, that death often occurs before the symptoms appear, the veterinarian said.

Grange Urges Army Help in Labor Crisis

JEROME, Aug. 29—Appleton Grange favors army furloughs for farm youths as a means of alleviating the harvest labor shortage.

At its meeting the Grange instructed its secretary to write to congressmen urging them to seek the furloughs.

In discussion of prisoner of war labor, it was brought out that many such laborers are not workable here because of the distance of the camp from the locality. The employer would have to travel too great a distance in transporting the prisoner of war laborers back and forth daily.

The time situation was a problem discussed and the resolutions committee was asked to write to the state senator of the drawback suffered by the community because of the war time. It was reported that President Truman had said recently he would ask congress to abolish war time labor laws. Standard time will soon be resumed.

Members discussed plans for booster night and it was decided that each is to bring a friend for the occasion, which will be an open meeting Sept. 6. There will be a program.

A letter from the state Grange Master E. T. Taylor, Coeur d'Alene, was read reminding the Grange that Sept. 29 is the end of the Grange fiscal year. All dues should be paid up to date. Master Matt Kulm appointed as reinstatement committee Mrs. A. J. Dykstra, Mrs. Phil Hill and Mrs. Albert Lanester.

Following the business meeting, a musical game was played and winners were Mrs. O. F. Einschlauber, Mrs. Charles Sipes, J. C. Newberry and Mrs. John Parkinson. All winners were asked to sing two selections.

Mrs. John Parkinson was a guest. There were 27 present. Serving were Mr. and Mrs. W. S. Jackson, Mr. and Mrs. John Hosa and Mr. and Mrs. Martin Bailey.

SEED CROP HIGH

BOISE, Aug. 29—The U. S. department of agriculture today forecast Idaho's 1940 crop of Alaska above seed at 37,000 bushels, about 3,000 bushels more than produced last year. The seed acreage is estimated at 8,000 acres compared with an estimated 7,500 acres harvested in 1939.

Winder said the association had not asked for a price cut, and had no prediction of when one might be made. The price problem did not arise until after cutbacks in military orders, he added, because the army had been taking the bulk of American wool.

Price Slash Only Way to Get Wool Sold, Winder Declares

DENVER, Aug. 29—"It looks like that is the only way to get our wool sold," Norman Winder, Crater, Colo., president of the National Wool Growers association, said today of a Boston prediction that the price of American wool will be cut 15 to 20 per cent.

Boston wool trading circles declared yesterday the cut was necessary to regain for American growers a market which has fallen largely into foreign hands, and said government action could be expected soon.

"We have received no direct word from the commission, credit corporation, but a price cut would seem

to be the final solution," Winder said in Denver.

"Wool is held at 18 to 20 cents above the import price, and a reduction will be necessary if we are to compete with the foreign product. Otherwise our wool will pile up in warehouses."

Winder said the association had not asked for a price cut, and had no prediction of when one might be made. The price problem did not arise until after cutbacks in military orders, he added, because the army had been taking the bulk of American wool.

Hearings to Open On Jobless Funds

WASHINGTON, Aug. 29—The house ways and means committee Tuesday to open hearings Thursday on President Truman's proposal to liberalize unemployment payment benefits.

Representative Knutson, R., Minn., senior committee Republican, who had headed an effort to have the tax initiation group take up first measure, withheld a motion to shelve the jobless legislation temporarily.

He decided against his plan, he explained, after he learned that the governors of some 15 states would be in Washington later this week to give their opinions of Mr. Truman's proposal that unemployment benefit payments be boosted to a maximum of \$25 for 26 weeks.

Grange Arranges Booster Meeting

JEROME, Aug. 29—State Grange deputy John De Montfaucon, co-ordinated colored slides showing the fourth degree ritualistic work of the Grange, for members and guests of the Pleasant Plains organization this week. Deputy De Montfaucon spoke upon the bill to create what is known as the OVA. During the business session, the labor situation was discussed.

Booster night will be observed the evening of Sept. 26. This will be an open meeting and a potluck dinner will be served. All members of the seven 4-H clubs and club leaders are invited to attend as well as any other interested persons.

The faculty of the Pleasant Plains school was again received into the Grange organization. Grange women met at the recreation rooms of the school house this week while they completed a quilt which will be donated to Russian relief. Mrs. Bertha Block and Mrs. Leon Akitt were commended for their efforts in helping to complete the quilt. They assembled the blocks

which had been donated by members of the Grange and purchased other material which went into the making of the quilt.

Serving refreshments were Mrs. and Mrs. Robert Freshour and Mr. and Mrs. Ray Fyke.

Confroversy exists as to whether the first gasoline filling station was established about 1900, at Vancouver, B. C., at Houston or at Dallas, Tex.

Ever Eat Spareribs? Chili Recipe Superb

By GAYNOR MADDOX. Spareribs are not very hard to get. And you'll find them easy to cook with this unusual recipe.

Three pounds spareribs, 1/2 teaspoon salt, 2 teaspoons pepper, 1/2 cup flour, 1 cup instant onions, 2 1/2 cups water or juice drained from canned tomato, 1/2 cup vinegar, 2 tablespoons brown sugar, 1/2 cup ketchup, 1/2 cup catsup, 1/2 cup tomato paste, 1 medium head cabbage, 6 peeled raw tomatoes or 2 cups of drained canned tomatoes.

Have breast bones cracked to make carving easier. Wipe spareribs with damp cloth. Sprinkle both sides with part of the salt and pepper and rub with flour. Place ribs in the bottom of the 1-quart braising pan. Sprinkle with salt and pepper. Cover with onions and top with the remaining spareribs. Combine water or tomato juice, vinegar and seasonings, and pour over the ribs. Bake in a moderate oven (350 degrees) for 2 1/2 hours.

SUGGESTED MENU. BREAKFAST: Orange juice, toast, coffee, cereal, fried eggs, bacon, ham or hotlinks, toasted muffins, butter or fortified margarine, coffee, milk.

Mrs. Billie May Coleman, 58, Cascade resident, succumbed at her home of her daughter, Mrs. Nettie A. Combs, 528 Jefferson, Twin Falls at 4:30 a. m. Wednesday, Mrs. Coleman came to Twin Falls from Cascade July 28.

Born Aug. 28, 1886, in Marshalltown, Iowa, she was a member of the Methodist church at Cascade, 58 was a life member of the Christian Womanhood of Missions and was city librarian for over nine years.

An Idaho pioneer, Mrs. Coleman crossed the plains to Boise in 1893 year before Idaho became a state. She would have been married 10 years this September.

Allied POWs Will Receive Medical Care

WASHINGTON, Aug. 28 (AP)—The board that fills in the blank pages in the book of war began to write today. It began to write "bearing the title 'USO Houston'."

An American officer, Lieut.-Col. Nixon Smith, of the office of strategic services, was responsible for bringing to America the first report of the Japanese soldiers who were held and her crew of more than 100 since the disappearance without trace in the last Feb. 22, 1942.

Smith told reporters that some 300 members of the Houston's crew were alive in a Japanese prisoner of war camp in Thailand. He said he received his information from five Houston survivors who escaped from the camp a few days ago, and all of whom were in good health.

Back From Shadows of Death, 300 Houston Survivors Alive

(The Post said Mrs. Mrs. J. L. Rogers, wife of the chairman of the American commerce commission, heard through the International Red Cross in a message dated July 27, when a card arrived from another crew member who was in "good health" at Thailand camp.)

The Washington Post said today that six of the Houston's men were reported here to have been prisoners of war for 18 months. The Houston crew was last seen in Japan as recently as June 7 of this year.

(In the last card Rogers listed the four men as C. D. Smith, Memphis, Tenn.; John Stiver, Monroe, Colo.; Hul Hamilton of Honolulu and the Houston crew member who was reported as being with him, the Post quoted Mrs. Rogers as saying.)

KOPPEL'S JUNK HOUSE

162 SECOND AVENUE SOUTH TWIN FALLS, IDAHO

THROUGH JAPANESE EYES

BY OTTO D. ZOLICHUS
The picture collapsed completely when the war began.

THE TIDES OF WAR
Perhaps no war in history has ever started with greater misconceptions on both sides about the nature and strength of the enemy than the war in the Pacific. But the war in history has never seen greater changes in the balance of power, and in strategy and tactics. There is no doubt of our victory for the United Nations and seal the doom of Japan.

The Japanese... Today Japanese air and naval power is being spent from the Pacific and the stage is being laid for Japan's final defeat.

"Japan chose Dec. 8 because it had to go to war on account of the oil situation and because, had Japan failed to wait hereof of this date, she would have had to wait another month because of the moon and moon effects."

Gold "Cure" Good Advice On Transport

By HAL ROYLE

WITH LEVIN'S "GOLD FLEET," OFF JAPAN 57—a navy pharmacist, aboard this big attack transport steaming toward a landing on the land of the rising sun, has solved the problem of how to cure common head cold—but has little faith that mankind ever will adopt his remedy.

"I told the pharmacist's mate, Leo Chack, Edmond, N. Y., that I had picked up the "Gold Fleets" and he said:

"I know the only way to cure it. You have to go four things: Quit drinking, quit smoking, quit thinking about women, and go to bed at dark every night.

"But you'll never cure it. I can't get people to do all four of those things. I've had a cold out here for years!"

Housewives would enjoy the novel technique of the U. S. navy's "Gold Fleets" if Frank Zittling, Walnut Creek, Calif., stopped swabbing down decks long enough to tell them about it.

"In civilian life you call them just good old-fashioned moxa, but in the navy we call them avia bits."

"When they get dirty, you just bundle them up in a plastic cover, tie a line and put a couple of half hitches and bring them over the side."

"Sea water does the rest. It rounds them clean in 10 minutes." The sailors say the sea certainly is a handy thing to have around the ship.

Most men were highly hopeful that the trip to Japan would be highly rewarding in souvenirs. Most of them desire Japanese plaid, casual suits and Japanese invasion money.

"I don't want any of that junk though," said Yeoman 2/E E. L. Woods, Long Beach, Calif.

"I've got a couple of these avia bits—well mounded and with lots of laurel on them."

He was told that even if he found her, he would have to keep her in a glass cage. Captain Williams there would be "positively no fraternizing."

Edwin F. Woodie, above, president of the Covachea Bar association of over 500 Cleveland, O., attorneys, evacuated the U. S. army, court-martial system and asked for congressional investigation. Reporting on a long study, the association charged courts rely on "amateurs" and "the same select group of brass facts accusers, prosecutors and judges."

Evacuees Now Back on West Coast 12,000

LOS ANGELES, Aug. 29 (AP)— Approximately 12,000 persons of Japanese descent have returned to the west coast from war relocation authority camps, the Dickstein subcommittee on immigration was told today.

Ed Marks, WRA representative who gave the group this figure, said that they had come to California. He added that the relocation center at Tule Lake, Calif., slated to be the last of the camps to close, still has more than 17,000 inhabitants.

Opposition to the return of the evacuees, he said, is dying out.

Feathered Wolf Arrives in U. S.

NEW YORK, Aug. 29 (AP)—"Raffie," a dark brown mynah bird, which whistles at pretty girls and says "hello, darling," arrived at La Guardia field today aboard an airplane clipper from Bermuda.

Mrs. Garveth Wells, wife of the explorer-author, who brought the bird, said it had entertained servicemen in Bermuda and had helped sell \$15,000,000 in U. S. war bonds.

At the airport, it sang a few bars of "America," and talked and whistled. Mrs. Wells said "Raffie" sang the same song with the words of "God Save the King" for British audiences.

The bird, allied to the starlings and a bit smaller than a parrot, was found in the Malayan jungles in 1940, Mrs. Wells said.
