### Conscientious-Objector Ayres Back With Beliefs Modified

SAN FRANCISCO, Oct. 25 (AP)—Sgt. Lew Ayres, whose most famous movie role was that of a soldier but who entered World War II as a conscientious objector, came back from the Pacific war zone today with "some modification in my views."  
"The man who portrayed a German private in "All Quiet on the Western Front"—picture based on World War I—said seeing Americans in action made him see things in a different light.  
He even thinks conscription "might not be a bad idea."  
The service certainly made all of us more appreciative of one another and returned our personal selfishness.

### TB Disease Curbed With Latest Drug

MUNCIE, Ind., Oct. 25 (AP)—Hope that the new drug, streptomycin, would save the life of 17-month-old Gayle Harvey was strengthened today by an encouraging laboratory report.

Attending physicians and the baby's widowed mother, Jean Harvey, were cheered by an indication that the tubercular meningitis infection attacking the infant's brain was being subsided.  
Dr. Lall Montgomery, chief of the hall hospital laboratory staff, said that the trend of daily tests of the three victims' spinal fluid since the first injection of the improved drug a week ago was toward gradual reduction of superfluous cells.

Attention of the medical world remained centered on the case as Gayle, in the critical stage of the usually fatal disease, continued to hold her own. She had not coughed, however, from the coma in which she lapsed recently.

Streptomycin, an earth mold derivative, has been found useful in treating various other types of tuberculosis but its successful use in halting the ravages of tubercular meningitis was undergoing its first test here.

Admittedly bewildered, Sergeant Ayres said he was undecided as to his future but wants to do "something to teach men to understand one another, to love each other as brothers."  
Back from 22 months' overseas duty which included service in New Guinea, Leyte and Luzon in the Philippines, Ayres was not sure he would enter the military, as he once contemplated.

Thin and tanned, Ayres said he didn't know if he would return to pictures.  
"There are some pictures being made now, though," he went on, "some documentary and educational films which have almost a spiritual quality. I might go into some of those." He has no offers from Hollywood studios.

Despite his altered views, Ayres never carried a weapon during his army service. An army captain who had been in New Guinea with him said Ayres had been refused from staff sergeant to sergeant for refusing to carry arms.

### Prices on Cattle Stronger at Sale

Prices on all classes of cattle were a little stronger this week at the Twin Falls Livestock Commission company auction. Tom Callan, co-owner, said late yesterday, reporting a sale of 2,000 head.

Frank Crockett, Harrison, sold the top truck load of yearling steers for \$12.75 per hundredweight. Another truck load of steers, owned by O. A. Payne, Carey, brought \$13.00.

Wednesday's sale began at 1 p. m. instead of 10 a. m., as it has the past few weeks. Callan announced that the sale next week would also begin at 1 p. m.

Two-year-old steers brought \$13 to \$14.50 per hundredweight; yearlings, \$11.50 to \$13.20; common steers, \$8 to \$11; good cows, \$10 to \$11.50; fair cows, \$7 to \$10.50; feeder cows, \$5 to \$7.50; good heifers, \$11 to \$13.20; fair heifers, \$7 to \$10.50; feeder heifers, \$4 to \$7.25.

There were more good quality bulls sold Wednesday than in previous weeks. Callan said. He listed bull prices, as \$2.50 to \$12, and wals, \$10.50 to \$13.20.

In the first five months of 1945 an average of 32 automobiles broke down daily en route across the San Francisco-Oakland bay bridge.

### Prophet

WESTON, Mass. (AP)—The atomic bomb was predicted in the Regis college "class prophecy" of 1942 by a student who admitted she didn't know an electron from a test tube.

Tracing of two classmates, prophetess Eleanor Dever said, "They helped to invent an atom-like explosive so powerful that one explosion would wreck a city."

### Faith Gains Millions; Has No Churches

LOS ANGELES, Oct. 25 (AP)—Arthur S. Bell, "voice" of Mankind United, today defended his Christ Church of the Golden Rule as a "living church," which holds property interests by deed.

Attorney general deputies seeking to remove Bell from control of the \$3,000,000 religious organization said they found it owned several business enterprises, but no church.

Deputy Charles Linn charged that Bell kept no church records and used church money for personal activities.

"We have located everything except a church, a prayerbook or an office," Linn said. "We have found records, restaurants, laundries, hamburger bakeries, chairs, hotels and numerous other enterprises running on a large scale, and a threat by Bell to convert all the property into cash."

Superior Judge Henry M. Witka took under submission the stipulation to remove Bell as trustee of the church and appoint a receiver.

"This is a living church, no matter in what form it appears," Bell told the court.

### He Didn't Croon These Down, Either

Bing Crosby (do you have to be told he's the one at the right?) and John Bateman, Rupert, stop for the second day of pleasant hunting, warbled through the lobby, obligingly posed for pictures and made himself at home in the dimly kitchen.

### Bing Crosby in Affable Mood Warbles Through Hotel Lobby

Park hotel employees and guests were entertained Wednesday night when Bing Crosby, in from his second day of pleasant hunting, warbled through the lobby, obligingly posed for pictures and made himself at home in the dimly kitchen.

After greeted with the query as to his day's success, the crooner, dressed casually in jeans and khaki shirt, replied: "Good. I always do good." Bullied, termed by his famous owner as a "swell dog," he went with the hunting party Wednesday.

Ralph Smith, member of the Crosby party said that the dog is "only a pup, but learning."

The party of 12 had a late phrasal dinner in one of the hotel's private dining rooms. Mrs. Cleo Klein, co-proprietor, said when Crosby ordered steaks on the previous night he wanted them "well done—no fat, very well done."

Pausing in the kitchen, en route to the dining room, he was harassed with requests for songs and autographs. Crosby chatted about Mrs. Pat O'Brien, wife of the screen star, whom he termed a "wonderful person," and remarked that he had gone on hand tours all over the country ever since 1941.

"I saw in your paper where you had Mrs. Pat O'Brien speak" at the crooner chuckled. "I cut it out and wrote 'Pat, why don't you listen and see if I like it.'"

Faced with a corridor of autograph hunters, Crosby wrote: "I do not endorse this check" on the back of a blank check handed him by Mrs. Floyd Penfield, Twin Falls.

Waite said that Tuesday night someone else paid the bill for the singer's party, so he had asked them that the Wednesday night bill be given him. The waitresses were warning each other not to take anyone else's money for the bill.

Accompanying Crosby were Mr. Steve Nevark, the first seven months and Mrs. Jack Berger, Mr. and Mrs. O. J. McNeil.

### Hearing Monday On Club Permits

The county commissioners are to meet Monday at 2 p. m. in their courtroom office to consider applications of three clubs for licenses to hold dances.

Petitioners are the Hill Social club, route three, Hunt, Kimberly Social club, highway 30 near Kimberly, and the Canyon lodge, highway 23 near the rim to rim bridge.

On Nov. 2 at 2 p. m. the commissioners will pose on the application of the N. club, one-quarter mile west of the county hospital.

It is expected that Sheriff W. W. Lowery will be present in testimony on the club's fitness for county approval, according to County Attorney Everett M. Swevel. Lowery must pay a \$10 license fee and post a \$500 bond.

### 16 Inductees Go Into Army Ranks

Fourteen registrants of Twin Falls county draft board No. 1 left here by train Thursday morning for Ft. Douglas and induction in the armed services.

Another registrant was scheduled to join the group at Burley and still another at Salt Lake City. One other inductee who was scheduled to have gone with the group was reported to have joined the navy Wednesday.

This board's call for inductees for October was for 22 men.

Before leaving the registrants were presented with certificates, signed by Mayor A. Bert Sweet and members of the council, acknowledging their service to their country.

The certificates were presented by Joe Koehler.

Nevark, N. J., reported a 44 per cent decrease in auto traffic last week during the first seven months of 1945.

### 27 Women to Captain War Fund Groups

Names of 27 women captains in the city Victory loan drive were announced last night by Mrs. O. G. McNeil, county chairman of the women's division, war finance committee.

As in other drives, the rural workers will work with the men or in place of them if they are busy, she added. A house to house canvass of the city will be made by the women and they will have charge of any booths that may seem necessary.

Jerome Balfour will appear to enroll the baby bond booth and will be assisted by Mrs. A. Davidson as co-chairman.

This booth will be ready for work in the city on Monday at 10 a. m. The women workers will meet Friday at 3 p. m. in the Idaho power company auditorium to receive material for the campaign. Mrs. McNeil said.

### Jerome Schools' Harvest Vacation Extended 7 Days

JEROME, Oct. 25—(Suppl. M. V.)—Oils of Jerome schools today were announced that the harvest vacation period had been necessarily extended another week. Classes will resume in schools of Independent District No. 1 on Nov. 5.

Members of the board met today evening to discuss whether or not the vacation time should be extended. They were advised that a great part of the crops are still to be harvested.

At the same time, the Jerome USFS office here directed the need for many more potato pickers. It was pointed out that at least 300 more pickers could be used.

One day this week, there were 10 farmers who came into the office and were obliged to leave without any pickers whatsoever.

### "Feeder" Air Lines Rapped

WASHINGTON, Oct. 25 (AP)—Representatives of two western trunk air lines took turns here in throwing cold water on the optimism of companies that want to operate local or "feeder" air services.

In arguments before the civil aeronautics board, John T. Smith, attorney for United Airlines, and Hugh W. Darling, attorney for Western Airlines, said they doubted that proposed local routes would be of any public benefit in California.

They were almost equally doubtful as to the prospects of success for the short-haul air carriers in other parts of the west.

Loch expressed belief that, where possible, expanded air service for smaller communities should be provided by trunk line operators, rather than through establishment of an independent feeder.

Is there any reason for us to feel optimistic about little towns paying their own way with an independent feeder? Smith asked.

Smith replied that any action by the board in extending local service in a blanket way would be treading on "dangerous ground."

"It will have to be done on a selective basis and doesn't have to be done all at once," he said.

Darling told the board that certification of feeder lines is to operate.

### Carloading in Idaho Declines

BOISE, Oct. 25 (AP)—Idaho carloading, in August declined 8.4 per cent to 17,229 from the same month in 1944, the state public utilities commission reported today.

General commodities dropped from 1,368 to 1,055 for the August period. Wheat shipments advanced to 112 to 1200 while two newcomers, plywood and ore and concentrates, gained 872 to 245, respectively.

Ships were down 139 to 38 sherry, 415 to 1,758, lumber, 292 to 2,217, logs, poles and posts, 645 to 5,022 and fuel wood, 272 to 160.

### Labor Chief Renews Plea On Wage Lid

WASHINGTON, Oct. 25 (AP)—Labor Secretary Schwelbrenbach Wednesday renewed a plea to congress to raise the minimum national wage immediately from 40 to 45 cents an hour.

In the midst of government efforts to solve labor troubles he urged the capital hill to place the proposal before the house labor committee. These were his three main points:

1. That 55 cents an hour "is necessary at this time in justice to that large group of low paid wage earners who have never received sufficient income to maintain an American standard of living."

2. The new minimum, which would be ultimately to 75 cents an hour under legislation now being considered by the committee, "should prove beneficial not only to the low paid workers but also to other economic groups" by increasing purchasing power and expanding production.

3. It also should "assist our system of free competitive enterprise in working out its true functions. We will not secure the most efficient production of goods and services by permitting competitors to outbid each other in wage-cutting."

Schwelbrenbach said extension of the minimum wage law to classes of workers not now covered, including agricultural workers, is good "as an ultimate objective." But, he added, such expansion would present great problems of administration at this time.

### Former Prisoner Of War Returns

KIMBERLY, Oct. 25.—(Trib) Kenneth Rathbun, son of Mrs. Pearl Rathbun, who was a prisoner of war in Japan since the fall of Guam, arrived home recently. His mother, accompanied by Mr. and Mrs. Leo Harris, Ketchum, and Louise Rathbun, met Chief Rademan Rathbun at San Diego, Calif. The family resided in La Mesa, Hollywood and Los Angeles.

COM. Louis Bell, also a former

### No Frost at Unity To Harm Potatoes

UNITY, Oct. 25.—In spite of freezing temperatures, there has been very little field frost in the potato fields and the harvest is expected to be completed by this week-end.

Beet growers are waiting for the release of prisoners from the potato harvest so that they may obtain half of them for the beet fields.

### Thomas Asks Plans Speeded

WASHINGTON, Oct. 25 (AP)—Sen. John Thomas, R., Ida., urged Gov. Charles C. Gomer today to hasten plans for the state's highway maintenance and construction program because of the "unemployment

problem that demobilization and reconversion will cause during the coming year."

The senator invited the governor and state highway commissioner to Washington to discuss the plan with the congressional delegation and officials of the public roads administration.

The senator observed in the letter, written at his home where he is convalescing from an illness that has restricted his activity for several months, that congress by concurrent resolution on Oct. 27 removed the war-time restrictions on

the federal aid construction program.

"Under an act of Dec. 20, 1944, congress now is obliged to vote an appropriation which will make \$4,546,250 in federal funds available to Idaho for federal aid, farm-to-market, minor-roads and other urban roads during the three years ending June 30, 1948," Thomas continued.

The \$4,546,250 would represent 63 per cent of the cost of the state's program. The additional 37 per cent would come from the state highway fund.

### Four Juveniles Put on Paroles

The case against four Twin Falls county youths, ranging in age from 12 to 14, charged with breaking into a school and church in Buhl, was continued for one year by Probate Judge C. A. Bailey, before whom the hearing was held yesterday afternoon.

"The youths have been paroled to their parents," Judge Bailey said. "There was no great damage done,

merely a scattering around of books, pencils and other papers." Juvenile Officer John Brown said the boys rifled desks in the school and took a considerable quantity of pencils, pens, erasers and other "schoolroom equipment."

**MOTHER INSISTS I MARRY**  
XIII

I had taken it for granted that mother would have no objection to my returning to Buena Vista for the next season but discovered that she had never sent a formal acceptance of my contract. The situation was so embarrassing to her that I was obliged to get her to discuss the matter at all. It was generally unhelpful and upon several occasions mentioned this to mother and kept trying to please her, although she did not seem to like anything I did with a wedding breakfast at the Palace hotel, given by Leslie's father-in-law, Col. James Strickland, whom I had never met before and who seemed very unimpressive about the whole thing. He and my mother did not get on at all well together. I thought he was a rather old man, though inclined to be tactful. At last he had behaved as though he were doing us a favor and told me some long and complicated story about some officers having to leave their regiment if they married chaste girls, which drove her to the verge of tears, for I was not a chaste girl.

It was all most unpleasant. When we arrived at the church, mother suddenly felt she had no right to give her consent as she had not been consulted. This unfortunately had occurred to her a bit late in the day, but she had no choice. Everything was settled, she did not want to sign the register, but she was the only one who could sign for her. She was very angry and I was making her life miserable and off her hands.

When I had arrived in England in October, I had met a gentleman named Capt. Leslie Strickland at the house of some mutual friends. As a matter of fact, he had shown a very definite interest in mother from the start, but he liked her, which was a bond of sympathy with me. He had been married to a woman of people, and she became friends. He had taken me to a few times in Hyde Park and had wanted me to visit some relatives of his, to hunt with the Woodland. Psychology is a marvelous peck in the midlands with two horses a day and timber-jumping. He had been most disappointed when we went away for Christmas, and after we returned I occasionally ran into him one day on Bond Street. The mild "affair" started all over again.

I had several boy friends in the office, including a middleman who had given me a turquoise ring in the form of a forget-me-not, but mother disliked all of them and made a scene when anybody called me unrespectable. Captain Strickland, whom she described as "a serious man," was only 30, but to my 15 years this description made him appear almost senile. I knew therefore that mother approved of him, so when he asked me to marry him, I accepted.

I had never given much thought to love, but I liked him and thought it would be the most practical thing to do, since there seemed to be no other way out for me.

What upset me more than anything else was my father's reaction to the news. He was furious with mother and wrote her that he could not come over to England for the moment, but that I was far too

young to be married and must wait several years before she could step. Mother disagreed and felt it was the best thing I could do. One January morning, I walked out of the hotel and quietly got married at a registry office. Leslie had given me a ring and he was having to get my parents' consent when he applied for the license. A few days after the civil ceremony, mother arranged a church wedding at the Brompton Oratory, the Catholic church in the Brompton district, with a wedding breakfast at the Palace hotel, given by Leslie's father-in-law, Col. James Strickland, whom I had never met before and who seemed very unimpressive about the whole thing. He and my mother did not get on at all well together. I thought he was a rather old man, though inclined to be tactful. ### Plane Brings Back Ashes of 1,091 POW's

BY YEN HADLAND  
EN ROUTE FROM TOKYO TO MANILA, Oct. 23 (AP) — The 14 wooden boxes were stacked neatly in the center aisle of the plane. They were each down firmly against the bumpy weather. Some were the size of orange crates. Others were larger and smaller.

We 30 passengers, mostly headed elsewhere, were aligned along the walls in the back of the plane. The plane was a C-54 transport. We were flying over the sea. The side of each box. Each bore a quarter-master address and a notice "No passengers allowed to touch." "No you know those boxes are No. 1 priority out of Tokyo, and that when we get to Manila, where more planes are available, they will have a No. 1 priority all the way to the States," asked a crewmember.

"I bet some of these passengers would be as contented if they knew what is in them. It's listed on the manifest as ashes of 1,091 former prisoners of war. That's right, with the glasses in charge of this."

A bit reluctantly, 2nd Lieut. Roy Carter, Port Haron, Mich., talked about the boxes. He said they contain 15 to 80 pounds each — containing earth and a few dried flowers. Most of the 1,091 were Americans. Most of the remainder were Dutch. There were seven Italians and one Norwegian.

Carter said:

"Most of them were fellows captured at the end of the war in the Philippines. But India and Malaya were also included. There were some 20-30 fliers who died within the last year. There were the Japanese who were taken from Japan to the United States. I am informed. But it is just the beginning. All these men were on shelves in just one temple at Okinawa. There were others all over Japan."

Taking information from tags and other records, the crewmember revealed the name of each victim. In Japan—and the United States— he gave the date and the name of the soldier who was killed. Carter said the Japanese cremated the bodies and kept the ashes in a temple where a Buddhist priest prayed over them daily.

The ashes of the Americans will be kept in a cemetery at Manila until the next summer. Then they will be shipped to their homes. The ashes of British prisoners remain in Japan at the request of the British.

### President's 'Communications Center' on Wheels

When the President travels by train he keeps in instantaneous touch with whatever may be going on, and the photo above explains how he does it. Shown is the interior of a former Pullman car converted into a communications center for the chief executive. Equipment includes generators, telephones, and a two-way phone for direct communication with the White House.

### Legion Plans Place in New World Peace

CAREY, Oct. 25.—The place of the American Legion in the coming world of peace was stressed in talks by national and state Legion officials at the 4th district convention of the Legion and its auxiliary at the Carey high school. Approximately 150 members representing 10 towns of the district were present.

Featured speakers included James B. Bunker, national finance committee; Lucien Baum, auxiliary department president for Idaho, and J. Dudley Swan, department commander for Idaho.

The meeting began with a banquet given by members of the Carey Legion. The speakers were: Mr. Bunker, Mr. J. Dudley Swan, auxiliary department commander for Idaho, and Mr. Wainwright Carter, and served by center table of Carey high school. Clifford Kirkland, chairman of the Carey post, was master of ceremonies.

Don Patterson, of the Carey post, gave a talk and several vocal numbers were rendered by a girls chorus consisting of Lorraine Phillips, Bonnie Yearwood, Fred Carter, Deloris Sparks and Beva Patterson. An accordion solo was given by Judy Tyler.

Mrs. Joe Huston, of the Carey Legion, was in charge of the banquet arrangements and was assisted by Mr. Harold Harris and Mrs. E. J. Gardner.

Members from Haserum, Glenora, Carey, Jerome, Gooding, Blaine, Bluffield, Richman, Idaho, Fairfield and Carey were present.

### British Accused of Removing Americans From UNRRA Units

NEW YORK, Oct. 25 (AP) — John Bremer, former United Nations relief and rehabilitation administration official in Stuttgart, Germany, said he and six members of his displaced persons team were relieved of duty Aug. 6 by a British superior "without hearing, charges or investigation."

He described his removal to what he termed his refusal to let UNRRA operations be used "as an instrument of British foreign policy."

"The American army commander in the area, Col. Charles Jackson, and the chief Russian translation officer in the American zone, Col. Vasek Galt, interceded for him, Beecher said, but obtained no explanation."

"We found," Beecher said in an oral statement, "that UNRRA was largely controlled by British forces of the most ungenerous stamp."

He said A. T. Berman-Finkel, the UNRRA area director, was responsible for his removal and described him as "a British foreign office operative for 20 years."

UNRRA headquarters in Washington, however, denied categorically that the British "or any other member government" dominated most operations in Europe, and expressed surprise that Beecher had made the charge.

Beecher said in his statement that the British officials in UNRRA were the "old school" type, with large numbers of them drawn from the British army, and colonial service personnel.

Although supposedly international civil servants," he added, "they went by former military titles. In some cases they even tried to make us salute them."

Beecher said the London office of

### Solons Seek U. S. Action On Palestine

WASHINGTON, Oct. 25 (AP) — Four congressmen demanded today that the United States take "immediate and effective action" to secure free Palestine immigration.

In a statement Sen. Charles McNary, D., N. Y., and Bernard W. Bregman, R., Calif., declared that America "cannot afford to be a party to brutal, unprovoked acts of faith and violation of solemn international obligations."

The four legislators are sponsors of a joint resolution setting forth these wishes, which passed under consideration in the senate foreign relations committee.

Members of an unofficial delegation to the United Nations to present that attitude to the British prime minister.

The delegation also will include Philadelphia newspaper publisher J. David Stern and former Sen. Guy W. Anderson, Iowa, head of the American League for a Free Palestine.

### Filipino Press in U. S. Must Be Free To Print News

NEW YORK, Oct. 25 (AP) — The American post-war objective for unrestricted flow of news and information over the world must carry with it the right to print, Claude A. Jeger, assistant general manager of the Associated Press, said at a meeting of the East and West associations at Torr Hill.

If the flow of information is to achieve world understanding, he said, "the press throughout the world must be free to publish what it has to say. It will get to be toward our objective just to be able to send American news correspondents around the world and to obtain from the unrestricted transmission facilities to the United States."

"It may be argued," he continued, "that we have no right to try to dictate internal conditions in other countries. But how can there be any freedom from fear in any country where the people are denied the right to know? How can any people have governments of their own choosing?"

He said the right to print is the keystone of a free society, because the printed word is the day to day and year to year record of human rational thinking and progress is based on it.

Referring to the Potsdam agreement, which said a free press in Germany would be protected, and the action of General MacArthur in directing removal of government news bureaus in Japan, Jeger said much progress had been done.

More than 2 million pounds of cellophane was imported from Belgium in 1932.

### Elmer the Elk Dead but Mate Not Interested

SAGINAW, Mich., Oct. 25 (AP) — Elmer the Elk, 700-pound prize of the Saginaw zoo, a dead today but his loss was not mourned by his mate, Ebie, the indirect cause of his death.

Ebie stood idly by, munching hay at the other end of the pen, as Elmer suffered a broken neck yesterday in a fatal struggle with a truck driver. Ebie's mate, Elmer, had led him to the rescue of Chief Zooleker John H. Pierce.

Squarred by Ebie, who had brought him to keep him company, Elmer attacked Pierce in his second outbreak around the world, and was brought in recent weeks. The truck driver was leading deer in an adjacent pen when the bull elk charged, knocked down a wire fence and began to trample and gore him.

George Arndt, a passing truck driver, leaped into the pen and diverted the beasts' animal attention to himself. Grabbing Elmer by the antlers, he held him until the four officers arrived and held the substitute him.

A fortnight ago the bull elk claimed his five-foot race of antlers against the wire mesh and the sharp pronged fence and injured a passer-by.

### Yamashita's Trial Grief To Newsmen

By KENNETH L. DIXON  
MANILA, Oct. 23 (AP)—The war crime trial of Lt. Gen. Tomoyuki Yamashita, scheduled to open here Oct. 25, is working itself into a newspaperman's nightmare.

There is no prearranged regulations governing the hearing, before an American military commission. There is no pattern, there is no precedent. The rules will be written as the trial progresses.

Yamashita is being tried for his life on a charge that, as commander of Japanese troops in the Philippines, he is criminally responsible for atrocities committed by soldiers under his command. So far as can be learned, there is no American covering such a charge.

There have been few similar cases. Quilley Lord How Henry Peltan Laval? Those were pure treason trials during the war and ample precedent to guide them.

Then how about Lüneburg trials of concentration camp personnel? Or the trial which resulted in hanging the German firm, an American citizen? No good. Those people are tried or were tried for political participation in past events. There are thousands of atrocities charged to Yamashita's army—but none to his.

Not like Nuremberg

What of the Nuremberg trials of last year? In the first place, they haven't been held. Secondly, they merely concerned the German general's pending trial will be officers he is accused of falling to give.

After the first American general returns from Manila, the decision will be reversed by Gen. Arthur H. Somersworth.

Will defense counsel attempt to take the case to the American supreme court? Probably not, but will they get away with it? The prosecution doesn't know. The defense doesn't say.

In the first place, it is admitted by all concerned that this is a precedent-setting national legal experiment without precedent, it becomes a good precedent to look to the future.

Will the procedure followed for Yamashita set an international precedent and be cited in future trials of war criminals? Will British courts, Australian courts, French courts and Chinese courts point to the rulings of this commission as a precedent to follow in their decisions of other commissions?

Or since the trial will be merely an American precedent and only be followed in United States army courts and military courts while other allied tribunals try other common war criminals under separate national laws or rules? Nobody around here knows.

The proceedings simply must start from scratch and scramble like mad to keep pace with such unprecedented news and its terrific headlines for the men. But it is likely to terminate in a few weeks with little pain in the neck for Yamashita.

### AFL Demands Standby Band On FM Music

NEW YORK, Oct. 23 (AP)—The National Broadcasting company said Wednesday it had been notified by the American Federation of Musicians (AFM) that effective Sunday a double number of musicians must be hired whenever a "live" musical program on a regular radio station is duplicated on an FM station.

Stoney Elgas, manager of NBC's press department, said the notice here the request of the union's president, James C. Petrillo, and that he understood other owners of FM stations had received similar notices.

"Petillo demands, if put into effect, will retard development of FM radio," declared Elgas. "It means that FM stations will have to resort entirely to phonograph records, and consequently when the factories begin heavy output of FM sets the public will not be so anxious to buy them."

Elgas said there were relatively few FM receivers in use, "not enough to warrant any charge to advertisers for putting their programs on FM transmitters."

Petrillo could not be reached immediately for comment, but some members of the union said its position on the matter is the result of technology should be accompanied by concurrent progress in employment opportunities.

### Send Lewis to Brazil, LDS Leader Says

SALT LAKE CITY, Oct. 23 (AP)—A lend-lease arrangement under which John L. Lewis of the United Mine Workers, would go to Brazil was proposed today by W. W. Beegmiller, former speaker of the Utah house of representatives and 1937 Republican gubernatorial candidate.

They really need John L. down in Brazil because the workers there are absolutely at the mercy of the capitalists," Beegmiller told the Salt Lake Optimist club.

Beegmiller recently returned from Brazil where he presided over mission activities for the Latter Day Saints (Mormon) church.

"If anyone doesn't believe in organized labor, he just needs to live in Brazil for two or three years, and he will change his ideas," the speaker said.

As an example he said the Sao Paulo Power company, owned by British interests and managed by Americans, paid \$60 per month for an executive position, while living costs are even higher in Brazil than in the United States.

"The capitalists are living off the fat of the land," he added.

### Fabulous Diamond Mart Sets By 10-Cent Bowery Flophouse

At Canal Street and the Bowery, the "el" casts its shadows over the most fabulous diamond mart in the world.

By JEAN GEORGE  
NEA Staff Writer  
NEW YORK, Oct. 23 (AP)—Down on the Bowery, just across the street from the Bowery Hotel, the most fabulous business in the world goes on in the windows of buying and selling diamonds.

In the windows of the diamond mart, a variety of stones as big as walnuts glitter temptingly. Be it rubies, blood red and glowing emeralds, opals, sapphires, topaz and the jewels of kings.

Behind the windows, ragged men sleep on the sidewalk. Dirty street urinals run up and down the street of the rumbly old Avenue 13, playing "Al Capone and the Old Women" in their trash barrels for the toll and selling International Trade.

Here, amid abject poverty, is the greatest diamond market in the world. Merchants from France, China, India, Mexico and all 48 states journey across sea and land to buy and sell the diamonds that eventually find their way to the conspicuous corner at Canal street and the Bowery.

Each merchant rents a stall in the large room at the amazingly low price of \$1 a day. To him come refugees with their family jewels, pawn brokers with diamonds, pawn brokers with diamonds, pawn brokers with diamonds.

There are many diamonds. Enticed on the back are the words "To Pawn with Love, Charles." At the time it is written on the wall of the store. Now it is rapidly tossed from hand to hand. The bracelet is now someone's bread and butter.

Never Robbed

Surrounded by an armload of precious gems, Felix Borer calls a ham sandwich and drinks a cup of coffee. A sign over his booth reads:

"The eleventh commandment—Thou shalt not steal."

The rich and the poor come in, some to buy, some to sell. Before a bargain is struck, the merchant runs out into the daylight with a jeweler's loop and the diamond.

There on the street, among the cabs with truck drivers and rough looking Bowery drunks, they look for imperfections the layman.

In the 70 years that the diamond

# COULD CHEVRON SUPREME BE USED IN AIRPLANE ENGINES?

Some aircraft might run very well on Chevron Supreme Gasoline, but it isn't designed for their motors. Any engine runs best on fuel "tailored" to its needs. So, even though Chevron Supreme is a highway version of Chevron Aviation Gasoline, it's very carefully adapted to cars.

From aviation fuel Chevron Supreme gets ingredients that give it a world of high-octane power. But gas for your car must do a number of jobs. That's why we "balanced" Chevron Supreme Gasoline with other ingredients to give you fast starts, quick warm-up, smoother acceleration.

It's next best to flying when you drive on...

# Free Speech Endangered, Solons State

WASHINGTON, Oct. 25 (AP)—The house heard a series of speakers assert that American freedom of speech, press and radio is in danger of being stifled.

Several members said an attempt is being made to "influence and intimidate" radio news anchors.

Rep. Celler, D. N. Y.; Dr. Lacy, D. Wash.; Patterson, D. Calif.; and others criticized the house committee on un-American activities, chiefly because it has requested scripts of several radio commentators "for study."

Rep. Hamilton, D. Wis., and Coffee, D. Wash., joined in condemnation of the committee, but also attacked the National Association of Manufacturers. They declared the NAM is "dominating the air waves" by buying a great deal of time for radio programs. They said it is having the commentators review its views, although they are presented as "impartial" analysis.

Spurred debate developed for a few minutes when Rep. Rankin, D. Miss., took issue with the speakers. Rankin, a member of the committee under attack, told the house:

"I am not attempting to annoy anyone. We are just trying to keep the flag flying over a free government. We are not trying to do anything for those people. You have the same right, at any time all these minorities stopped attacking the white majority in this country.

"As for this report to establish our committee, it doesn't stand any more chance of success than an elephant would in being from a horizontal bar by his eyebrow."

"The committee is going to investigate Cecil B. DeMille, Joseph P. Kamp, Raymond Gram Swenson, John and others. It is also investigating Rupert Hughes, Upton Sinclair, Hans Kellernborn and Bill Gunther, whom he described as 'reactionaries.'"

**LANDS TROOPS IN JAPAN**  
ON THE USS SAIGUS (Delayed) George E. Eissner, private, 1st Air Force, 7th Div., serving on this transport ship, has just landed occupation troops on Japan.

The Saigus, commissioned last February, traveled more than 25,000 miles in carrying troops to invasion fronts and casualties to rear bases.

Unlike an LST, she does not run up on the beach to discharge her cargo. A stern ramp lowers to permit amphibious tanks or "ducks" to be driven down and, from davits, her battery of landing craft may be launched.

**HELPED FINISH JOB**  
ON THE USS AUBURN—EM 3/c George E. Eissner, private, 1st Air Force, 7th Div., served on this ship as she helped finish the job started at Iwo Jima and Okinawa by assisting in the occupation of Japan.

The Auburn had some narrow escapes from suicide planes at Okinawa, but escaped undamaged.

**REES KOREA LIBERATED**  
ON THE USS MINNEAPOLIS IN THE PACIFIC—LTJG Levon A. Weigball, 21, served on this cruiser from the time she was commissioned as part of a task force of more than 50 ships she steamed into Japan, Korea, on Sept. 8, to help occupy and liberate the country from the Japanese.

About 15,000 American soldiers and soldiers steamed ashore to occupy the capital city of Keijo, 23 miles away, to the cheers of the natives.

Thousands of American prisoners of war, many listed missing, were assembled, identified and headed for home.

**HELPS OCCUPATION**  
ABOARD USS BRADPOD—S 1/c Vigil W. Worcester, route 1, Twin Falls, Ida., was on board this Pacific fleet destroyer, when she dropped anchor in Koshigawa Wan, Kure, near the Japanese airfield of Kanoya, to accept surrender and to liberate the island.

Kanoya airfield was the home port of many of the kamikazes that caused much damage at Okinawa.

The Bradpod was on the picket line when she took part in engagements at Tarawa, Kwajalein, the Marshalla, Truk, the Marianas, Saipan, Tinian, and Iwo Jima and Okinawa.

**BACK TO STATES**  
ON THE USS SARGENT—DE 3/c Delbert Fred Gillespie, route one, Rupert, Ida., serving on this escort aircraft carrier, is en route to a west coast port.

The Sargent guided the fleet in the Pacific and was part in the Leyte campaign and then saw action at Luzon and Okinawa. She was at Tokyo Bay for the signing of the surrender terms, furnishing air cover for landing of the first occupation troops to go ashore at Yokohama.

**ONE OF FIRST**  
WITH THE 7TH INFANTRY—SGT. Ronald E. Mullins of person, 165th Infantry regiment, is returning with the occupying force of the 7th Infantry division, the first AGP unit to travel by air into Japan to occupy it.

The son of Mr. and Mrs. Leo P. Mullins, 439 Third avenue west, Twin Falls, Ida., he was one of the first American dropouts to land on the enemy homeland to clear the island of Japanese.

Mullins saw action with the 27th on Makin and Okinawa before taking off for Iwo Jima. He was awarded the combat infantryman's badge.

SGT. Mullins was employed by J. C. Penney company, Berkeley, Calif., manager of the men's clothing department. A veteran of 24 months overseas, he entered the army Oct. 26, 1942.

**ON ATTACK TRANSPORT**  
THE USS BAKER—Herbert C. Newman, acting pay clerk, Idaho, 1st Air Force, 7th Div., transport, which climaxed her career of landing assault troops on Iwo Jima, Saipan, Tinian, and Okinawa by the 27th Infantry division, on Sept. 19, 1943, carried more than 50,000 pounds of supplies and equipment to the battle fronts with only 100 gallons of fuel.

SGT. Newman was awarded the combat infantryman's badge.

**ON THE USS SAIGUS (Delayed)**  
Private, 1st Air Force, 7th Div., serving on this transport ship, has just landed occupation troops on Japan.

# Probe Asked Of Statement By President

WASHINGTON, Oct. 25 (AP)—Rep. Hoffman, R. Mich., proposed in a resolution the creation of a house committee to ascertain the truth of a report that President Truman made a remark reflecting on the character of the late Wendell Willkie.

The resolution referred to the rules committee, said there was published in the Sept. 27 issue of the Spokane Daily Chronicle, in the column under Drew Pearson's name, the following statement referring to a visit by one Poland to the President:

"Mr. President, Poland opened up, 'you've seen Dewey, Hoover and Landon, but I guess I'm the first Willie Republican to drop in and pay my respects.'"

"Truman said he was delighted to see Poland and confided that he had a lot of respect for the late Wendell Willkie."

"I remember that how Willkie always used to refer to Tom Dewey, Poland continued. He used to call him that little mismatched son of a bitch."

"Well, that about describes him," replied Truman, smiling broadly.

Hoffman's resolution said such alleged statements of the President of the United States, if made, reflect upon his character as an individual and question his fitness to hold the high office of the presidency.

Since his resolution the house committee of three would make such recommendations as it deems desirable.

# Fraternization With Japs on Isle Disclosed

TACOMA, Wash., Oct. 25 (AP)—Fraternization between Japanese and American troops on Iwo Jima had appeared to be hitting an unusual pace when a mercy plane landed there October 9 to remove an injured sailor, according to a report written by T/SGT. Robert E. Somers from Balpan for the Tacoma News Tribune.

Somers, former Tacoma newspaperman, is on the staff of the Pacific edition of the Stars and Stripes. Upon arriving at Marcus the crew of the mercy plane were amazed to find many unguarded Japanese things in the field.

"Science Marine MPs were present, but not guarding anyone, crew members said, as the field to watch the take-off of the first U. S. plane to land at the little isle since the war ended were a Jap colonel and

A Jap war admiral, who mingled with U. S. army and navy personnel, trading cigarettes with them and even sleeping over officers on the back.

Somers quoted Lieut. Alger Black, 24, Walnut, Ill., pilot of the mercy flight, as saying: "There were twice as many Japs at the field as Americans. The Japs were not guarded and it looked as if they had won this war and owned the island. The Jap officers saw us off, smoking and patting everyone on the back. One Jap had his own side and command car."

This News makes my whole Life BRIGHTER!

**Dreft IS BACK!**

"Now I can again enjoy the WASHING MIRACLES no soap could ever give me!"

**WORKS WONDERS FOR Silks, Woolens, Dishes**

The big news millions of women have been waiting for is here! DREFT IS BACK! Yes, Dreft, the amazing Suds Discovery that performs washing miracles no soap could ever do! Makes your dishes shine without wiping... Washes stockings sheer-looking, love-it... Keeps your nice new woolens softer, fluffier than even the most expensive soap flakes could. And look...

- Leaves no greasy film on silk or woolens
- Gives 5 times more suds than soap in dishes
- Gives faster suds
- Leaves glasses sparkling
- No soapy deposit to harshen woolens
- Reds fade even in tie water

**Dishes SHINE WITHOUT WIPING!**

IT'S TRUE!... No soap ever made can perform the dishwashing miracle that Dreft can! It makes dishes positively gleam without wiping. For Dreft leaves no streaks or cloudiness the way all soaps do. Gets even glasses so clean they sparkle—without touching a towel to them!

**Stockings LOOK SHEER AS NEW!**

DREFT leaves no soap film to heavy-up and cloud their beauty. And colors stay fresh far longer than with any soap. There's no soap-fading ever! No wonder stockings look lovelier—here as new!

# Let's Honor the Men of Your Navy--It's 1945 Navy Day Saturday

**KILLED IN ACTION** is the official description that closes this coast guardman's record, but, more than that, he is a symbol of all those who died at their posts in the service of their country. He is a symbol of the courage, the strength and the daring that make our navy the greatest in the world.

**INVASION FIREWORKS** streak through the half-light off Borneo and send up great pathballs of smoke as navy rocket-firing craft carry Australian infantrymen to the beach near Tarakan, May 1, 1945. The scene was similar at each of the many landings that comprised stepping stones to Tokyo.

**COFFE FIRST**, the comforts of cleanliness later for these marines, wear from two days and two nights of fighting. They stormed onto Engeb Island from coast guard-manned landing craft, to sweep it away from the Japs in six hours, then went on to wipe out the nips on Enboko.

### ROTC INSTRUCTOR

**MOSCOW, Oct. 25 (AP)—** Lieut. (jg) J. S. Dunn of Toledo, Utah, has been appointed instructor in the naval ROTC unit at University of Idaho, officials said today. Dunn recently returned from two years of sea duty.

### SEARS SHELL SERVICE

**COMMUNION** service on a Pacific tale is observed by navy seaboys in a canvas chapel by candlelight, with sandbags for prayer benches.

**OVERBOARD** by rope and net, scramble crew and soldiers aboard the USS President Coolidge when it struck a mine and sank off the Solomons in 1942.

★ **"Just the thing for Skipper!"** said Doctor ★

So right away I put Skipper on Borden's Evaporated Milk. You should see how sturdy he is! And now, you know, Borden's is even more wonderful for babies... because it has three times as much Vitamin D as before! Each reconstituted quart provides a full day's supply... 400 units! So it's easier than ever to see that Skipper gets all the Vitamin D he needs to develop good strong teeth and bones. **Borden's Evaporated Milk** bears the seal of acceptance of the American Medical Association, Council on Foods and Nutrition.

**And, boy! What Borden's does for custards!**

With Borden's handy, I thought I'd try it for custards. And an I glad I did! My custards turned out so smooth... so tender... so delicate, I'll never use anything else! Borden's blends beautifully with other ingredients... doesn't separate in cooking! Why don't you try Borden's in your cooking and baking?

**"HERE'S A CUSTARD YOUR FAMILY WILL LOVE!"**

### BAKED HONEY CUSTARD

- 4 cup Borden's Evaporated Milk
  - 1/2 cup honey
  - 1/2 teaspoon salt
  - 1/4 teaspoon cinnamon
  - 1 egg, slightly beaten
- Soak Borden's Evaporated Milk and water. Combine eggs, honey, salt, and cinnamon. Add hot milk mixture slowly, mixing well. Pour into custard cups and place in pan of hot water. Bake in moderate oven (350° F.) hot water. Bake in custard cups out clean (about 50-60 minutes depending on size of custard cups). Serve warm or cold. Make 4 to 6 cups custards.

**Now 400 Units of Vitamin D Per Reconstituted Quart**

**LANT LITERS** for badly wounded crewman of the carrier USS Franklin are administered by navy Chaplain Joseph O'Callahan, in one of the most dramatic pictures of the war. The Franklin amazingly lived through days of explosions and fire, as did the crewman pictured above.

## 5th District Legionnaires Meet Friday

**BUHL, Oct. 25**—Both national and state American Legion officials will be speakers here Friday night at the convention of the fifth district. The meeting will be the first of the

year for the district. H. Dudley Swan, Twin Falls, state commander; Jimmy Haags, Pocatello, national committeeman; Mrs. Oliver Baum, Ashton, state auxiliary department commander; and B. F. (Bud) Moe, Boise, department adjutant, will be among the speakers. A special talk will also be made by Col. Weisler Benton, Buhl, a veteran of both World wars.

J. J. Van Every, Rupert, fifth district commander, will preside. The climax of the meeting will be the annual banquet at which the LDS ladies of Buhl will serve. Posts at Rupert, Paul, Burley, Hazelton, Eden, Kimberly, Twin Falls, Filer and Buhl are included in the fifth district and all are expected to be represented. State motor vehicles tax rates amounted to \$1,126,570,000 in 1944, a 1.8 per cent increase over the previous year.

# Who gets the money Union Oil makes?

**1.** Arithmetic sometimes makes more sense than headlines. The following figures are a matter of public record - checked and verified by Uncle Sam's tax men. If you have two minutes to spare we think you'll find them rather interesting.

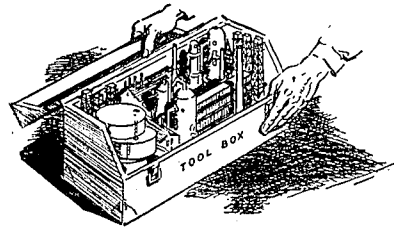

**2.** Last year Union Oil Company took in 127½ million dollars in round figures. This was from all sales of its products and services. 91 million dollars of this was promptly paid out for things - rent, materials, transportation, equipment, depreciation, interest, and taxes.

**3.** This left 36½ million dollars to be divided among people - the employees and the owners. Of this sum 27½ million dollars went to the employees in wages, salaries and employee benefits. 4½ million went to the owners in dividends. 4½ million was left in the business.

**4.** In other words the employees got 75% of what money there was to distribute, the owners 13% and the business 12%. This doesn't mean that the owners got 13% on their investment. They got 13% of the dollars left over after the company's expenses were met.

**5.** On the capital invested in the company the owners received just 1.2% in dividends. For that 3.2% they have financed all the oil wells, service stations, equipment, etc., with which the employees work - \$43,525 worth of "tools" for each employea.

**6.** It also happens that the 4½ million was divided among 32,000 Union Oil stockholders, whereas the 27½ million was divided among less than 9,000 employees. Consequently, the employees got an average of \$3,108 apiece - \$259 per month.
