## Crash Kills Two U. of I. Basketball Squad Members; Three Others Hurt

WENDELL, Dec. 21—Two University of Idaho basketball squad members were killed and three others injured, two probably seriously, shortly after noon today when the panel truck in which they were riding crashed head-on into a heavy truck loaded with concrete pipe. The accident occurred on highway 25 about one mile south of here.

Those dead were Walter C. Thomas, Idaho Falls, driver of the panel truck and team manager, and Ronnie White, Lewiston, one of the Vandal players.

The injured were George Weitz, Caldwell; Warren Shephard, St. Maries, and Bob Fuller, Nampa.

All three were taken to St. Valentine's hospital at Wendell, but Shephard, who was seriously injured, was released a short time later. The extent of the injuries of the other two has not been determined.

The game, however, will probably be canceled.

Charles T. Gates, Wendell, manager of the team, said the crash was "a terrible one."

The basketball team had played the Simpson, Decatur at Rupert last night and the men were returning to Boise where the university was to play Boise Junior college tonight.

The crash occurred in Twin Falls on a curve on the snow-covered, slippery highway.

## 100,000 GIs Left On Coast

SAN FRANCISCO, Dec. 21 (UP)—Delay in transporting homeward-bound servicemen from Pacific coast ports is due, in part, to delay in construction of 1,200 new government troop sleepers, railroad officials charged today.

C. E. Peterson, vice-president in charge of the Southern Pacific railroad's passenger traffic, said the sleepers were to have been ready for service by Dec. 1, but that only 150 had been delivered.

Peterson said delivery of the new cars was held up by strike conditions in "a mid-western manufacturing plant."

SAN FRANCISCO, Dec. 21 (UP)—"It's the same old story," said Cpl. A. M. Halzman of Long Island, N. Y., "Hurry in, hurry out."

Halzman was one of nearly 100,000 veterans from the Pacific who today appeared likely to be stranded at west coast ports on Christmas day because of lack of transportation.

More than 120,000 veterans were straggled at the ports and ships were scheduled to dump an additional 100,000 more on tomorrow.

Halzman said he had been in the service for 12 years and was a member of the American Legion.

## Boy, 9, Dies As 3rd Victim of Jerome Crash

JEROME, Dec. 21—A heavy beat truck, either stalled or parked on a main highway, claimed its third victim early today as nine-year-old Robert Duenkel, student in the fourth grade at Jerome's Lincoln school, died of injuries sustained at 7 p. m. Thursday in a crash which instantly killed his father, Adolph Duenkel, 36, and his uncle, Alfred Duenkel, 38, both of Jerome.

The driver of the truck was identified today by R. Harding, state policeman, as Jack Jensen, Dayton, Ind., son-in-law of A. A. Shaw, who resided at 303 N. Main, and one mile north of Jerome. Harding said Jensen told him that his wife, who was with him when the crash occurred, was killed outright when their car, driven by Alfred Duenkel, smashed into the back of the truck.

Harding said the truck was stalled on a curve on the highway, and that the investigating officers had left.

## It's True: Elementary Teacher Earns Less Than Garbage Man

Twin Falls, Idaho, schools pay teachers less than \$9 a week, while garbage men are paid more than \$10 a week, according to a study made by the state's survey of school conditions.

Many Idaho elementary teachers, 22 of them in the state making less than \$100 a month for full time, make nowhere near the wages paid to garbage men.

These figures from the Idaho education association, matched with figures from various employment offices and labor unions.

John I. Hillman, executive secretary of the education association told this reporter, "A salary of \$100 a year. High school teachers get an average of \$1,824.83."

Hillman said there was little doubt as to why Idaho again this year faces a critical teacher shortage of 65 per cent of all elementary schools.

## Tire Rationing Ends but Shortage Will Continue

WASHINGTON, Dec. 21 (AP)—Tires come off the ration list Jan. 1 but it may still be some time before there will be enough to allow all motorists to get a complete new set.

The end of rationing, OPA and the civilian production administration said total production next year is expected to be about 60,000,000 passenger car tires, that's 13,000,000 more than ever produced in the United States.

Several days ago the 60-year-old rationing board was pronounced out of danger from injuries suffered in an automobile accident.

The Friday morning bulletin for the first time failed to give details of the accident.

Meigsberg, an old university town, was one of the thousands of places which suffered from rationing.

By an ironic twist, Patton had gone unscathed through all his adventures of war.

## Former Mayor Succumbs at Vet Hospital

Military tribute will be paid at funeral services for "Uncle Joe" K. C. "That much was announced today after definite funeral details were still pending for Ernest Ralph (Uncle Joe) Koehler, 69-year-old former Twin Falls mayor who died at 7 p. m. Thursday at the veterans hospital in Boise.

The man who gave more of his time and money for others than probably any resident of Idaho—and who came up with the motion picture industry from the days of silent films to the present—was killed in a heart attack.

## Polio Spread Among Babies Seen Possible

CHICAGO, Dec. 21.—Evidence that infantile paralysis is contagious among children 18 months to three years old and often mildly active long before medical detection was reported today by the American Medical Association.

A study indicated that files do not spread the disease.

Separate investigations conducted at Buffalo, N. Y., and Chicago, traced definite patterns of poliomyelitis and showed that an epidemic may start months before any paralysis cases are recognized, an article in the AMA Journal reported.

Researchers at the University of Buffalo School of Medicine were Helen E. Underwood, Grace E. Dale, and Mrs. Martha L. Smith and Edward M. Bridge.

They based their studies on the origin of a Buffalo poliomyelitis epidemic in 1944 and wrote that evidence "points to the conclusion that the disease was prevalent in the initial community long before the first case of paralysis was recognized."

Drs. Albert E. Casey, Birmingham, Ala., and William I. Fitchett of Chicago, made studies under the direction of Chicago Public Health Commissioner Herman N. Burchette to reach similar conclusions, the Journal reported.

With a cocktail beside her  
Of gin, rum and cider,  
Awaiting for Santa to come.

There isn't any one on them but they are the smallest ones made. I really think it awful late to ask for

# Forty Solons Show up for UNO Parleys

By FREDERICK OTTMAN  
WASHINGTON, Feb. 21.—"I make the point of order," cried Rep. Roy O. Woodruff of Michigan, "that there is no order in the house."  
"Bungled," he went on, "the speaker's gavel; the new adjourned lawmakers resumed their debate on the United Nations organization, and Rep. John M. Robinson of Kentucky looked over the rows of empty black seats."  
"I am disappointed," he said, "and I am grieved that less than 50 of our 435 members are on the floor when we are working on the very peace of the world for generations to come."  
That's what the gentleman from Kentucky said, but he was a Kentucky gentleman. In his mind, my county of congressmen shows there were 19 Republicans in the chamber and 21 Democrats. Five of the Republicans were strolling the aisles and two were reading yesterday's Congressional Record. Two pairs of Democrats were holding animated conversation and seven more were hidden behind their newspapers, reading about the blizzard. Or:

32 Paying Attention  
One dozen Republicans were paying attention. So were 10 Democrats. Some more of the boys and girls strolled in later and the proceedings turned into a yawn-snooze.

Almost everybody, with the exception of Miss Jeanette of Illinois (whom we'll get to in a minute) had some complaints about the session, but intended to stay for the idea, anyhow. In a way, still, a blue shirt, a white shirt, and gold cuffs, Mrs. Clara Booth of Connecticut said peace on earth would have a better chance if the boys got going on a disarmament conference.

"I hope the secretary of state who flew at the peril of his life through a snowstorm without even an overcoat, accomplished something over in Russia," said Rep. John Jennings, Jr. of Tennessee. Speakers kept making speeches and the black-clad Miss Sumner, who has been retiring lately and looks better for it, kept trying to interrupt them, without much luck.

Rep. A. L. Miller of Nebraska mentioned the Prince of Peace at Christmas time and Rep. Clara Booth of Michigan retorted:

"We're all against sin so far as I know, but if Christ and his followers could bring permanent peace in 2,000 years, then I haven't much to create in the next few weeks."  
More speeches and more attempted remarks by Miss Sumner were the subject around to the wags of the U. S. delegates. Rep. Bob Bloom of New York said they'd get \$10,000 a year each, unless they were congressmen, who would collect \$10,000 a year. Finally Miss Sumner said that was enough. She got 10.

"The same old war mongers are maneuvering at prince of peace at Christmas time," she shifted into the microphone. The pitch of her voice went higher and the coffee-spilled loud-speaker near the ceiling vibrated as she continued.

"This new world plutocrat will set up headquarters in Hollywood or some less appropriate place. We have so many people here in high office who have been with an adulterous love for some foreign governments that... we have joined the chain of death on the European and Asiatic battlefields."  
Miss Sumner took a final, deep breath and cried: "Mr. Speaker, I do not feel that I can sit here and participate in this shameful roll call."

She went out. So did the microphone. The electrician said he guessed he'd have to install a new one.

## Three War Veterans Address Rotarians

BUHL, Dec. 21.—Lieut. Helen Marie Little, Little Miss and Capt. Robert McCuskey, Buhl residents home from foreign duty, told of their experiences at the meeting of the Buhl Rotary club this week. Lieut. Helen Marie served with the nurse corps in Italy and the European areas, and Lieut. Little Marie was stationed for about two years at a base hospital at Guadalcanal. Capt. Robert McCuskey, who just received his discharge at Vancouver, served with the 10th engineers for almost three years in the south Pacific, coming home from Okinawa. He also served in the Alaskan and Alaskan areas.

Next meeting will be an evening meeting at which the Rotarians will have their gift exchange.

Harry Barry Alms had no money

This has been the busiest December we have ever had at the lumber yard. But things are slowing down a little right now. The mill workers are on strike. The rough pine is down from the mill. Most other lumber is in short supply. The mill is in the strike now. And with the lumber strike on the coast, it has really made lumber scarce.

The lumber strike is settled but I got a letter from one of the big mills saying that they would have to make their annual repair before they could start up again. That will be about the first of the year. Then some mills have orders ahead for 3 or 4 months and if you are not up in the "king row" with your orders, you will have a tough time getting lumber.

We still have a good stock of dimension lumber, and a few boards of the old width and length, but the old standard of 12x12s are sold out. We have a nice stock of clear pine that is nearly dry. When it has dried a little more we will plan it for finish lumber.

Our stock of insulating board is going down, but we have promise for a car of Old Bond, and a car of sheet rock and rock lath for January. A car of No-Buck siding was shipped December 22nd and should be here right after Christmas.

Our friend on the coast who has been shipping us that good fir flooring has told he would be in production by the first of January and would ship us a car of flooring right away. We are also promised a car of oak flooring early in January.

This shipment of ply-wood is going out fast. The nascent is gone, but we have some 3/4" marine ply-wood and a limited quantity of 3/8" ply-wood that is not waterproofed. We will still find some one-inch boards in the yard, but we have sold some orders that we are trying to deliver, and it is he we will have some boards for sale after that. But it would be an unhappy Christmas for some one if we did not supply what has been paid for—12m at least.

We will be closed Monday and Tuesday, December 24th and 25th, along with the other lumber yards of Twin Falls.

Here is wishing each of you from all of us at the Harry Barry Alms Company, a Very Merry Christmas.

"On the road to the Hospital."

But you are okay as long as you are on the road.

# Briefs to Be Filed in Tax Dispute Case

Plaintiff's briefs to this case were filed in district court Friday to the Twin Falls housing authority. The county, American County, George A. Childs and Mrs. Rose J. Wilson, county treasurer and ex-officio tax collector, defendants, in the plaintiff's suit to exempt Pioneer and Washington courts housing projects from payment of county property taxes.

Plaintiff's briefs were filed at the morning hearing. The county seeks to collect taxes of \$17,024. An order was previously issued, temporarily restraining the defendants from trying to collect the taxes. The authority, a quasi-municipal corporation, claimed in its complaint that the taxes would be detrimental to agreements made between the authority, city and private citizens.

The plaintiff asked that Childs and Mrs. Wilson be restrained from collecting taxes on the property of the federal government. In 1940, the complaint said, the authority agreed with the city that no taxes would be levied on the project. On condition that tax exemptions continue, the plaintiff agreed in 1940 with the federal housing authority for the purchase of the federal project of \$325,000 for the plaintiff's bonds and an annual cash payment to aid the project. This was done by the government body. Private individuals have \$50,000 of the local authority's bonds. County Attorney H. M. Greeley was in court Friday with E. P. Duvall, attorney for the plaintiff.

County's brief, representing the defendant, said after court adjourned that it was not the county's intention to impose hardship on the housing project. But the county wished to collect the taxes on the project, which it is now housing authority. This is a new question in the state and one of great importance, Greeley said.

**A wonderful bird is the pelican**

There is a well-known little verse about the pelican and his gift for gobbling up more than he can swallow.

A parallel is the UAW-CIO demand for higher wages from General Motors.

For General Motors' wages are already high.

In fact, in the last peacetime year, the income of the average GM worker fell in the top third of all incomes in the United States.

We believe in high wages! But we also believe that when wages are already high, the question arises whether further cost reductions that management can bring about may not well be used to lower prices or improve products.

Lowering prices or improving products benefits everybody. Customers get more for their money. The company's business grows. And the growing business is able to employ more and more people.

Wider employment serves the national welfare—and should be a primary objective of all of us.

Unfortunately, many people are too apt to place their own interests above the national welfare.

## Victors Must Suffer With Nazi Losers

By LOUIS F. KEMBLE  
United Press Staff Correspondent

A picture of life in liberated Europe this winter is not pleasant for Americans to contemplate. The victors are suffering along with the vanquished.

The prospect of famine, disease, and death from lack of heat in large sections of the continent has been fully reported, both officially and by newspaper correspondents.

Sometimes a personal letter, written from the heart and not for publication, gives a better understanding of the reaction of the war sufferers than official reports. Such a letter is at hand, received by

Elmer Bartlett and Hans Robertson, the English concert pianists now living in Holland, from a pair of friends in Holland.

Conditions in the Netherlands are not as bad as in some sections of

central and eastern Europe, but the letter speaks eloquently of the hardships endured even in that western country, so much closer to outside sources of supply than the transportationless regions of the interior. At the same time, it breathes a spirit of hope and confidence in the future. Its author is Mrs. John Breek, writing on behalf of herself and her husband, a prominent figure in the musical life in Holland. Extracts, quoted by permission, follow:

"There is food now, but not enough. There is no gas to cook with, no telephone and no means of transportation. But it is a paradise compared to the time the Nazis were here.

"Our poor country has suffered all sorts of abuse. First, the oppression, the building, plundering, mass enslavement and deportation; the battlefield bombardments, the inundations and last but not least the famine, from which thousands and

thousands died in the western provinces.

"Our shops are empty and closed. There is not a thing to be had—no clothes, no shoes. We still wear our old rags from 1939.

"We will be grateful for anything you can send us. It seems so beggarly, but you can never realize what our country has come to when you contrast it with the rich little country it was only five years ago."

## Ashby Named U-P President

NEW YORK, Dec. 21—George P. Ashby, a railroad man since he was 20 and in the service of the Union Pacific railroad company for 34 years, has been elected president of the Union Pacific. He will succeed William M. Jeffers, president since Oct. 1, 1937, on Mr. Jeffers' retirement Feb. 1, 1946.

Mr. Jeffers will continue as a member of the board of directors.

Announcement of Ashby's election was made by F. W. Charnick, chairman of the executive committee, following a meeting of the board of directors.

Mr. Ashby was born Sept. 3, 1885, at Mt. Airy, N. C. He entered railroad service in January, 1900, and became associated with the Union Pacific in its engineering department in 1911. He served in various departments in the Union Pacific from 1911 to 1934 when he was made assistant to the executive vice president. He became assistant to the president in 1937. He was elected
