## POT SHOTS

**DISCOVERY**  
Frances Lindemer went downtown the other day. She roamed around downtown, stopping at the bank and sundry other places.  
She dropped in at an apparel store to do a bit of shopping.  
And when she got in front of those full length mirrors, she discovered she was wearing hubby's topcoat.

**SKINNY, TRA LA**  
One day my friend said to me, "You're missing half your life if you don't ski."  
Now, me, I don't want to miss a thing.  
And, besides, her voice had a convincing ring.

So I spend the money she had taught me to hoard.  
And bought me some boots and then turned-up leather shoes.  
Yeah, of course, I bought the works—  
Boots, goggles and a couple of plaid shirts.

Now I'm all set so I grabbed that tow.  
And sailed through the air and hit it in the snow.  
Somebody yelled, "You silly dope, Why don't you stay on the practice slope?"

By now I'm so mad I can hardly see!  
One time you, I'm gonna ski.  
So I climb to the top of that dam, gum hill—  
Never once thought of taking a spill.

Half way down, where I'm cutting the breeze!  
But wait, what? I do? Here come some more lines.  
As they dug me out someone said, "Wouldn't it be nice to have a ride?"

But they didn't know that more was to come.  
For me, as a skier, so got dem dumb.  
When I told Dr. Hoss I broke it, sking.  
He said, "Stick to golf and simple living."

**REPUBLICAN**  
"How come," we asked a post-office employee, "you guys take a holiday on Washington's birthday but didn't on Lincoln's?"  
"Oh," said he, "Lincoln was a Republican."

**ELEPHANTS**  
Dear Papa:  
We think need any zoo here in Twin Falls to see elephants.  
I can hear 'em walking around in the apartment just above mine.

## Buyers Attend Community Implement Sale

"A bigger crowd than ever before," as reported by Carl Weaver, chairman of yesterday's implement sale, at the Williams tractor lot, 222 Third street south bought heavily every piece put up for sale by J. Hollenbeck, who acted as auctioneer. At a late hour yesterday, it was estimated that more than 2,000 people attending the sale had purchased more than 2,500 items at prices expected to exceed \$14,000, staff photo-narrating.

## Present Need For Red Cross Fund Stressed

The need for Red Cross funds has been augmented by the war and now includes assistance to men who in the service. In hospitals and to injured veterans, Col. H. G. Lauterbach told workers who will participate in the Red Cross fund campaign March 1 to 9, Wednesday afternoon at the Idaho Power auditorium.

Lauterbach is campaign chairman for the Twin Falls chapter.

He explained the activities of the Red Cross during the war and the importance of his own experience, as a colonel in Pacific combat.

He added that returning service men who say the Red Cross helped for supplies are misinformed. He explained that the only time charges were made for supplies was at camps, rest, restaurants and bathing places.

"In these cases all the supplies are furnished by the army," he said.

The Red Cross was directed by the army to operate these places.

## Dairy Farmer Seeks Higher Living Level

WASHINGTON, Feb. 21 (AP)—A dairy farmer asked congress today for prices high enough to let him "give the fat cat and the Scents, and let him go spunk."

Mr. H. H. Burdick, of Idaho, said he and other dairy producers from the west, central and eastern parts of the country told the house special food committee that their children were leaving the farms and not coming back because present prices don't give them a decent standard of living.

The dairyman said they had to have more money for their milk if they are to stay in business. The committee, which is studying the butter shortage in particular, and the dairy situation in general, is expected to report to the house.

Henry Haug, director of the dairy cooperative association of Portland, Ore., said he couldn't see hard work on his farm run at wages as high as \$12.5 a month.

"My wife and my brother's wife told the committee, 'are taking pains helping out in the barn but I'm here because we can't get help. The boys and girls are leaving the farm, and unless we can get them equal standards with other places they won't come back. We've got to offer them more the way of life.'"

Chairman Stephen P. Dwyer, of Michigan, said Mr. Haug, if anybody ever talked my language better, he's talking it.

Henry Rathsbaum, president of the Dairyman's Cooperative League of Washington of New York, also a dairy farmer, was the one who wanted prices high enough for his kids to go "spunk."

"The way it is now," he said, "we can't even afford to let them have the car."

"I'm saying this to you," Rathsbaum added, "if you don't do something there's not going to be any milk or milk products."

"If the only way to the anti-American way of cutting down and refusing to work, then the farmers of America can do it too."

### Wrights Return With Their Son, Navy Vet

TWIN FALLS, Feb. 21 — Mr. and Mrs. Roy L. Wright, accompanied by their son, a navy veteran, returned here after the parents drove the veteran home from Bremerton, Wash. where he was recently discharged.

The couple, who were on an automobile trip along the Pacific coast, were accompanied by their son and daughter-in-law, Mr. and Mrs. Leon J. Wright, Piler.

The parents met another son, Glenn A. Wright, and his family in their Bremerton home. While returning here, the elder Wrights visited their daughter, Mrs. Zelma Davis, Boise.

### SEVENTY YEARS AGO

In 1871 THE SUN LIFE OF CANADA issued its first policy from a small office in Montreal. In 1895—an important date in the Company's history—the organization was incorporated in the United States where, from coast to coast, it now maintains a highly efficient branch office and agency service. The Company's growth is significant proof of wide public acceptance. Through three quarters of a century, during which there has been altered the earth, and mighty inventions and discoveries have altered man's destiny, the Sun Life of Canada has met successive opportunities, expanding as life and industry took on new shapes and aspects. In 1895—at the end of the first twenty-five years of operation—the assurance in force amounted to \$35 million. At the end of fifty years—in 1920—this amount had risen to \$488 million. Today, after seventy-five years of public service, the Sun Life of Canada holds a leading place among life assurance companies with well over one million policyholders, and assurance in force of \$3,390,372,327. The Company's financial strength and high standard of service are indeed worthy of the finest traditions of a great time-honored enterprise.

### Significant Changes

Mr. Hays, told the gathering that significant changes in the attitude of people toward education for children and the hundreds of thousands of children, who have gone through the summer monthly health examination, established for the purpose of getting children into the grade free from remedial defects, also showed that nothing could measure the change of the public's attitude toward the necessity of preserving the health of children.

In conclusion, Mrs. Hays again paid tribute to Mrs. Roy J. Evans, who was a member of the first PTA in Twin Falls. She pointed out that Mrs. Evans was also one of those who helped the organization after it had been named a World War I Victory Club. Mrs. Hays, concluded by reading lines from her original poem, "The Shining Road," as a special memorial to Mrs. Evans.

### HATS

Definitely Spring 1946

During her welcoming address, Mrs. F. C. Vandrey read the message of the "Shining Road" written by Mr. Harold J. Manderson, Pikeson, Astor PTA president.

A short offering was taken, directed by Mrs. Mae Wood.

### NEW TREATMENT CHASES PIN-WORMS

Millions have a dread in silence with the pin-worm. It has been a long time since you have had a good night's sleep. Today, thanks to a special medicine, you can get rid of them. The medicine is called "Pin-Worms" and it is the only medicine that will get rid of them. It is easy to remember: P-W for Pin-Worms!

### How To Relieve Bronchitis

Cremation relieves promptly because it goes right to the seat of the trouble to help loosen and expel phlegm, mucus, and old matter to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Cremation with the understanding you must take the way it milky along the cough or you are to lose your money back.

### SEVENTY YEARS AGO

In 1871 THE SUN LIFE OF CANADA issued its first policy from a small office in Montreal. In 1895—an important date in the Company's history—the organization was incorporated in the United States where, from coast to coast, it now maintains a highly efficient branch office and agency service. The Company's growth is significant proof of wide public acceptance. Through three quarters of a century, during which there has been altered the earth, and mighty inventions and discoveries have altered man's destiny, the Sun Life of Canada has met successive opportunities, expanding as life and industry took on new shapes and aspects. In 1895—at the end of the first twenty-five years of operation—the assurance in force amounted to \$35 million. At the end of fifty years—in 1920—this amount had risen to \$488 million. Today, after seventy-five years of public service, the Sun Life of Canada holds a leading place among life assurance companies with well over one million policyholders, and assurance in force of \$3,390,372,327. The Company's financial strength and high standard of service are indeed worthy of the finest traditions of a great time-honored enterprise.

### Unfinished Chests

We have just received a shipment of unfinished chests in three sizes. These chests have a two inch water-tight front and they are really well built and good looking. No paper in drawers. They are the best we have had since before the war and the price is lower than for the same time frames ones we have been getting.

See them at once for they won't last long.
