

Labor Scene for Latin Brightens As Strikes Drop

By The Associated Press

The nation's reconversion picture assumed the brightest hue since the end of January today as a new week opened with the number of strike-idle continuing a steady decline.

Settlement of a four-month-old machinists strike in San Francisco and a 63-day-old strike of Western Electric company employees in New York and New Jersey dropped the number of strike-idle in the nation to 757,000, less than half the peak of nearly 1,700,000 in late January.

New Cardinal Dies in Eire At Age of 83

DUBLIN, March 9 (AP)—Catholic Ireland mourned tonight for John Cardinal Glendon of St. Louis, who died of a heart ailment at his home in Dublin, Ireland, at the age of 83.

Worried From Trip

Cardinal Glendon died at 8:51 a. m. Monday from a heart ailment, which he had developed during his trip to the United States. He was 83 years old and had been in poor health for some time.

His body will be returned to Ireland for burial in the cathedral of St. Patrick in Dublin. He had been in the United States for several months, visiting various parts of the country.

Cardinal Glendon was born in Ireland and had been a member of the Irish hierarchy for many years. He was known for his strong faith and leadership.

Volcanic Island Appears in the Pacific

This volcanic island, about 25 miles south of Japan's Yakushima naval base, has reached a height of approximately 50 feet and a diameter of 200 yards, according to U. S. naval observers.

The island is the result of a volcanic eruption that began in late February. U. S. naval observers are charting and photographing the development of the new island.

The island is located in the Pacific Ocean, south of Japan's Yakushima naval base. It is a new volcanic island that has appeared in the water.

Cloud of Suspicion Lays Brag Parley of Big 3 Leaders

WASHINGTON, March 9 (AP)—A dark cloud of suspicion hung depressingly over international affairs today with a strong possibility that it will bring a new meeting soon of the big three chiefs of state to clear the air.

Immediate interest was focused upon whether the allies will attempt an over-all settlement of their controversies or continue to try piecemeal solutions.

In some diplomatic quarters here, the stand has been taken that the situation now is so serious that the present policy of lacking one problem at a time will serve only to aggravate the irritations.

But the question of another British-Russian-American conference to iron out current difficulties appeared to hinge immediately upon who will take the initiative for calling the convales.

President Truman acknowledged yesterday that he was not discounting the possibility of such a meeting, but indicated strongly his feeling that it should be Washington when and if it is held.

A number of disputes current at this time would produce a long agenda for such a meeting. Among them:

1. Italy: Here the difficulty centers chiefly about what should be done about the big pre-war Italian colonies. The United States and Britain have been urging Italy to give up her colonies.

2. Turkey: Russia informally has sought territorial concessions from Turkey in the Black Sea region. The United States and Britain have been urging Russia to give up its claims.

3. China: Here the difficulty centers chiefly about the big pre-war Chinese colonies. The United States and Britain have been urging China to give up her colonies.

4. Manchuria: The United States has entered a protest to Moscow based upon an official Chinese report that the Soviet Union is planning to occupy Manchuria.

5. Korea: Here the difficulty centers chiefly about the big pre-war Korean colonies. The United States and Britain have been urging Korea to give up her colonies.

6. Japan: Here the difficulty centers chiefly about the big pre-war Japanese colonies. The United States and Britain have been urging Japan to give up her colonies.

7. Germany: Here the difficulty centers chiefly about the big pre-war German colonies. The United States and Britain have been urging Germany to give up her colonies.

8. Poland: Here the difficulty centers chiefly about the big pre-war Polish colonies. The United States and Britain have been urging Poland to give up her colonies.

9. Czechoslovakia: Here the difficulty centers chiefly about the big pre-war Czechoslovakian colonies. The United States and Britain have been urging Czechoslovakia to give up her colonies.

10. Hungary: Here the difficulty centers chiefly about the big pre-war Hungarian colonies. The United States and Britain have been urging Hungary to give up her colonies.

11. Rumania: Here the difficulty centers chiefly about the big pre-war Rumanian colonies. The United States and Britain have been urging Rumania to give up her colonies.

12. Bulgaria: Here the difficulty centers chiefly about the big pre-war Bulgarian colonies. The United States and Britain have been urging Bulgaria to give up her colonies.

13. Greece: Here the difficulty centers chiefly about the big pre-war Greek colonies. The United States and Britain have been urging Greece to give up her colonies.

14. Turkey: Here the difficulty centers chiefly about the big pre-war Turkish colonies. The United States and Britain have been urging Turkey to give up her colonies.

15. China: Here the difficulty centers chiefly about the big pre-war Chinese colonies. The United States and Britain have been urging China to give up her colonies.

Reasons, Goal of New Bill on Hospital Outlined by Chairman

The hospital bill passed by the special session of the legislature yesterday was by a slim margin a new hospital act. It is the first time in the history of the state that a new hospital act has been passed.

Figure 2 is a line graph titled "Change in the number of cases of COVID-19 in the Republic of Serbia". The x-axis is labeled "Time" and represents days from March 1, 2020, to May 1, 2020. The y-axis represents the number of cases. The graph shows a sharp increase in cases starting around March 15, peaking in late March, and then a gradual decline through May.

Looney Moran Now Planning Trip to Moon

By ALICE MOSBY
HOLLYWOOD, March 9 (AP).—Professional screenwriter, Looney Moran, who has sold an option to an MGM picture, found a needle in a haystack and painted a cow purple, launched a project today to sell green cheese on the moon.

Moran said he is organizing the first rocket flight to the satellite. "I will be the first to spend a lost-1 hope-week-end on the moon," he announced with a flourish of his cigar.

Complete With Bar
Moran said at first he had planned to ask Astor Movie-Mogul Howard Hughes to build him a self-sufficiently-equipped rocket. Then Moran wants one complete with bar, refrigerated living suite, and, for atmosphere, a rocketeer from New York's Radio City chorus line.

However, a spokesman for Hughes and the picture-builder was too busy putting together his 750-passenger flying boat to monkey with rocket-chips.

"Moran's looney," the spokesman said.

Unperturbed, Moran now is counting around for a daring enterprise. Many already have drawn plans for space travel, he said.

"People think I'm a looney when I set out to sell an option to an MGM picture," he said. "I did, didn't I? And I'm now a looney when I set out to sell an option to a picture."

He did. Moran also succeeded in his campaign to show a purple cow to Cletus Burgess, who complained in a poem that he had never seen one. Jim painted the boogie and her through the Imperial Hotel lobby in New York.

Moran's Hollywood-to-heaven express will take off, if the city will let him, from the famed corner of Hollywood and Vine. Heralding the picture will be the first of a series of bank agent auto insurance advertisements.

Bank-Agent Auto Insurance Method Outlined
The bank and agent auto insurance plan involves all major insurance agencies in the United States and 1200 make the plan, explained her Friday night by A. F. Glickman, special agent for the Aetna Casualty and Surety Co., at the New York hotel.

Insurance agents and bankers from Twin Falls, Idaho, and Butte attended the dinner meeting. The plan, in its final stage, is sponsored by the National Association of Insurance Agents and the American Bankers Association.

A film depicting the plan's operation in three cities was shown by Glickman. He stated that agents furnish the insurance and the banks provide the money for car purchases under the plan.

Following the movie a general discussion was held. Arrangements for the affair were made by John B. Robertson, Twin Falls.

Daily Services
Exchanged services will be held daily at 8 p. m. at the First Presbyterian church here beginning Monday, Rev. E. J. McClimmon, pastor, announced Saturday.

Conducting the service will be the Rev. R. K. Mayfield of Oklahoma who has traveled for the past 26 years throughout the country as an evangelist.

Businesslike and efficient-looking is Wanda Ridgeway, of Rockford, Ill., when she's at her job as typist at nearby Camp Grant. But when she removes those cheaters, and dons a smart bathing suit . . . well, aren't 25; just 34, hips 25, thighs 23, and ankles 9 1/2.

Canada Asks 3 Years Estimated by Soviet To Replace Manchurian Plants

Editor's note: Spencer Davis, Associated Press correspondent, who was held incommunicado by Russian authorities two days each in Mukden and Changchun, tells here the extent to which Soviet forces stripped once industrially busy Manchuria; how they entered their demands; and how they justify their actions.

By SPENCER DAVIS
CHANGCHUN, March 9. (AP)—It will require at least three years to restore Manchuria's productive capacity they had hoped for before Japan's surrender. That, at least, Chinese sources here, the Russians' own estimate of the extent their taking of war booty has devastated factories, mills and mines.

This territory on which Japan expected fabulous energy to develop during her 14 years occupation was the Redland of the far east. Now its vast factories are idle. Its steel mills are silent. Its power plants are deserted. Its power plants, too, are idle.

Disheartened Chinese officials here to take over remnants of the once mighty industrial empire have watched trainloads of machinery roll toward the Chinese eastern railway toward the Soviet border. They have seen more trainloads to Vladivostok.

They bitterly recall that at war's end, Generalissimo Chiang Kai-shek sent a memorandum to Russian, the United States and British, which set forth that because of Japan's eight years of resistance in China she was entitled to all enemy property within Chinese territory.

Russia was the first to sign this agreement, they said, and Foreign

Minister Molotov's signature here to that agreement by Russia and Foreign Secretary Bevin.

But Russia has used a clause in the Sino-Soviet treaty which calls for close economic cooperation between the two countries and a reciprocal interpretation of what constitutes war booty to justify its action.

A strange agreement between the Japanese chart of the heavy industries corporation in Manchuria and the red army also was called to the attention of allied correspondents here.

After Paul Harkin, the Japanese recognized the industrial setup in Manchuria as a war booty and had 72 basic industries under control of Tokyo-based Takaraki, president of the heavy industry corporation.

We learned from the highest sources that Takaraki was taken prisoner by the red army and on Oct. 27, 1945, was obliged to sign documents turning over the 72 industries and 140 subsidiaries to the red army.

Takaraki was asked by the Russian to produce this agreement one month to Sept. 27, but he refused our informant said. The Japanese executive is reported still in Chinese custody, confined to his home.

Explosion of Star Not New, Expert Avers

By J. HUGH PRUETT
Astronomer, Extension Division, Oregon Higher Education System
The announcement from Yerkes observatory recently that the star T Carinae Betelgeuse had exploded violently into naked-eye brilliancy caused considerable excitement among news agencies and individuals. Some assumed this meant a spectacular, sparkling, easily visible star, provided one knew just where to look.

The great explosion took place approximately 1,000 years ago, but so distant is the star that only now we are observing the light waves.

To the unaided eye nothing exciting is occurring. Simply another little star has faded, the glittering millions already in the firmament.

Near Explosion
It is very near "Betelgeuse" in the Northern Cross and at its best was in brightness about like the dimmest star in the Big Dipper.

This star had a previous visible flare-up in 1845. Then it became somewhat brighter than at that time, but in a few months had faded beyond naked-eye visibility where it remained during the 50 years.

A few other cases are on record when a star has flared into unusual brilliance more than once. T Puppis performed this in 1808, 1862, 1920 and 1943. But of the great majority of so-called "new stars" which remain dimly visible for temporary stints, only one explosion each has been known.

No sudden Creation
A nova is not the sudden creation of a star from nothing, as is the case of the sky made previously to the outdoors usually reveal that a dim, insignificant star existed there already. The cause of the flare-up is uncertain.

It has been suggested that a wandering star may have made a grazing contact with it, or a planet may have splashed into it. Or perhaps the star itself, through a belated and because violent's blast, set off a shock wave tearing through our atmosphere.

But more likely it is an explosion within the star itself due to the sudden release of powerful atomic forces. Spectroscopic studies show that the star's surface is violently rising upward.

Stars to produce this phenomenon one month to Sept. 27, but he refused our informant said. The Japanese executive is reported still in Chinese custody, confined to his home.

Hill Only One Not Confused With Initials

J. E. Hill, the man without a first or middle name, said yesterday that he "got quite a kick" out of his anonymity, despite difficulty in filling out legal papers and life insurance policies.

In his magazine store, he explained: "By the time I came along there were so many relatives named John or Jim that the folks just gave me the initials J. E."

His parents are Mr. and Mrs. Mark E. Hill, Huson.

Taking a puff at his pipe while John, his brother, stood, dated under his desk, he said that most people knew him as Jay. Much of the mail he gets is addressed with that given name.

"When I want to take out an insurance policy or file a legal document, they want the full name, such as John Edward," he said. "I usually have to submit an explanation."

Jay has fun telling curious individuals that J. E. doesn't stand for anything. He recalled that some 10 years ago, Sherman Hill, former JCTF engineer and announcer, had begun to call him Jay instead of J. E. The magazine man likes the change.

"It's more explication," he said.

Final Rites Held For Mrs. Dennis
Last rites for Mrs. Lucile Dennis were held at 2:30 p. m. Friday at the Twin Falls mortuary chapel. The Rev. Mark C. Cronenberg officiated. Dues were given by Mrs. Lloyd Davies and Mrs. Ray Pike, accompanied by Mrs. Hugh Garner.

Citation Goes To Solon for Guerrilla Aid

WASHINGTON, March 9.—The new-its-can-be-told war story of how a member of congress directed and encouraged 30,000 Filipino guerrillas by radio from Washington was revealed today in a citation awarded him a Philippine medal.

Representative Stefan R. Neuf, received the Philippine military merit medal from Rios-Gen Carlos P. Romulo, representative of the commonwealth government, representing President Sergio Osmeña.

The citation described a new chapter in the extended Japanese defeat in the islands, a story that starts 42 years ago.

Born in Bohemia

Stefan, born in Bohemia, south of Omaha, was a telegraph operator in 1904, but when he was drafted for duty during the Philippine insurrection he became telegraph operator and was needed and inducted like him.

In two years of duty he became a fluent speaker of the Philippine language and later, as a member of congress and of the national Philippine volunteers during the civil troubles, made many names.

In 1935, as a member of the congressional delegation, he joined Manila for inauguration of the commonwealth government. He talked with old friends and had "sundried" trouble there.

He called many members of the old constitutional volunteers. The national volunteers also had 10,000 members and many were Stefan's old telegraph students.

He called them "Bateda Code."

"I told them then if they ever was any trouble in the Philippines, we would need them," he said. "I drew up a set of code words, and kept in touch with each other."

When the Japanese landed in December, 1941, Stefan advised the volunteers from Washington to organize guerrilla bands and stand up for word. Soon, by code and direct shortwave broadcasts, his messages of hope and encouragement were being beamed to the islands over seven wave lengths from San Francisco.

"There were 50,000 of those old volunteers in the guerrilla bands and I heard from them right along. We would get messages about Americans they had helped, and the fighting, and plenty of information about the Japs," Stefan said.

Koenig Will Head Gooding GOP Club

GOODING, March 9.—Harold Koenig, Gooding, was elected president of the newly-organized Young Republican club of Gooding county Friday night at Wendell.

Chauncey Willard, Wendell, was elected vice-president; Mrs. Robert Gunder, Inacorn, treasurer; and Mrs. Frank Stone, Gooding, secretary.

Mrs. Robert Browning, Gooding, was named publicity chairman; John Klaser, Wendell, will head the veterans committee; and Mr. Burrows, William Jackson and Mrs. John Ritchey will comprise the by-laws committee.

Approximately 50 attended the session in Wendell city hall. The next meeting will be Friday, March 22, at Hagaman.

Legion Chief to Visit Idaho

National Commander John Stille of the American Legion, shown above at a special meeting of the Idaho executive committee which backed him in his fight for better service for veterans from the veterans' administrator with visit in Idaho in August at the state convention at Lewiston. It was announced last night, shown behind Stille is H. Dudley Swain, Twin Falls, national vice-commander and World War II veteran to whom Stille passed the gavel before taking the floor. Swain presided over most proceedings of the special session.

Here's How Legion Started— Now It's Anniversary No. 28

The 28th anniversary of the American Legion comes March 15—but do you know how the veterans' service organization started?

It was a hot summer afternoon in 1918 at a bare hospital in Paris. A hapless aviator stopped under a tree to rest in the shade. His name was William Patterson.

As he rested, another soldier with a bleeding knee wound also stopped under the tree.

His name was Theodore Roosevelt, Jr., and he met a nurse named "The Girl."

"Expect to get back to your unit soon, sergeant?" Roosevelt asked. "I know your name, and so do I. I want to get this job over with. But what will we do when the Germans really are here?"

"Go home and start a veterans' association for the rest of the country," the sergeant replied.

Roosevelt remembered.

Patterson did not live to help start such an organization. He was killed in action. Roosevelt, however, kept the idea in the back of his head and an opportunity to put it into action arose after the war.

By January, 1919, U. S. troops in Europe were restless and wanted to go home and get some rest. In peacetime, Army authorities deflected 20 national guard and reserve officers to travel at Paris with a group of regular army officers to map plans to overcome the redoubt new among troops. They gathered on Feb. 15 and 16, 1919, for the session and drafted some recommendations to improve morale. That task done, they were dinner guests

Plant Release Seen As Meat Prices Raised

WASHINGTON, March 9.—The government expects soon to relax its control of more than 200 meat plants added in January as a result of labor disputes, the department of agriculture reported today.

Charles Armstrong, agent of the secretary of agriculture in operating the industry, said that he would be ready to turn back active plants to the owners "as soon as things are running smoothly." This will be in the "near future," he added.

The government took over the meat plants after both labor and packing house workers called strikes for higher wages. Since then wages increased and labor accepted prices for meat have been authorized by the government.

As a follow-up to OPA's announcement that meat of the increased meat prices will be sold, the agriculture department decided the meat plants to make an inventory of all meats on hand today.

A department statement said the inventory was necessary so that the government can regulate and windfall that the packers will gain from the meat once it is in the country and retailers.

The wholesale price index for OPA said, will average a cost 45 cents per 100 pounds of lamb and veal, about 50 cents for beef and 55 cents for pork.

New retail price ceilings are yet to be fixed. OPA has said, however, the public will have to pay about 15 per cent more a pound for meat to compensate for the 10 cents hourly wage hike granted to packing house workers.

GOP Meet Postponed

A meeting of the Idaho Young Republican club executive committee scheduled for this week-end was postponed until March 16 and 17.

Graydon Smith, president of the Twin Falls County Young Republican club, said a site for the state convention will be chosen at the meeting.

ed in action in France in the summer of 1945.

Idaho has had five national Legion officers. Leslie Allen, Oscar Warshaw was national vice-commander in 1924-25 and 1925-26 respectively. The Rev. C. G. Wood in 1923-24 and Rev. Paul De Forest in 1924-25 were national chaplains. H. Dudley Swain, 2nd, national vice-commander and Idaho department commander.

Many Services

Swain said last night that the Legion, as the university-regulated leader of veterans organizations, reflects a spectacular history of deed after deed and service after service.

"Every Legionnaire in Idaho and in the country should take tremendous pride in the knowledge he is a member of the first team," Commander Smith asserted. "We should be proud that the American Legion exists for what it can do—not for what it can't do."

Churchill Has Close Escape From Mishap

WASHINGTON, March 9 (AP)— Winston Churchill, a man who wore out his sinners but not his welcome—rolled into Washington with his party this morning after laughing off a narrow escape from an old-fashioned accident in the colonial town of Williamsburg.

A suddenly-frightened pair of grey horses bucked, reared and plunged yesterday, and almost ran away with an ancient, flimsy open coach in which Churchill and Gen. Dwight D. Eisenhower, U. S. army chief of staff, were seated.

Panicle effects of bearded and colonial-costumed Negro coachmen finally quieted the horses, then Churchill, putting a black day and apparently unperturbed, and Eisenhower, obviously worried about the British statesman's safety, climbed to the ground.

The near accident evidently was due to the bright flash of photographers' bulbs, and was aggravated by the excited screams of scores of spectators outside the stately reproduction of the mansion of the colonial governors here.

Apologetically, John D. Rockefeller, third, Churchill's host in the evening tour of the town, later told him that "I am afraid we've let you down."

He didn't say whether he meant that literally.

For Churchill, jauntily swinging his cane, was forced to trudge his way by foot to the next two stops on the literary while a milling, cheering crowd pressed around the party.

Not at all, old boy," Churchill told Rockefeller, "I didn't mind it. I am enjoying it."

He proved it later—and his ability to take it by attending a dinner party which Rockefeller gave to his honor.

Everywhere that Churchill went, there were cries of "we want Ike." Greeting and gracious, he waved back his spectators at the tribute, as did Churchill.

Scout Chief to Speak at Parley

In. Elbert K. Fretwell, chief Scout executive, Boy Scouts of America, will be the principal speaker at the annual conference of Jaymen March 27 in Pocatello, Frank L. Cook, Twin Falls, president of the Snake River area council, announced yesterday.

Scout leaders from Magic Valley, including Herbert B. West, executive, and Robert W. DeHoff, field executive for the Snake River area council, will attend the meeting.

Dr. Fretwell will speak on "Forward to Fundamentals" at the luncheon meeting opening the conference at the Lincoln hotel.

Dr. Sharp, regional Scout executive for the northwest, will speak on the state of the region.

Cook stated that all persons planning to attend the conference

Movie Stars Take Skiing the Hard Way

Ingrid Bergman, Gary Cooper and Clark Gable were snapped as they stopped to rest on the run down Ruud mountain. Unable to resist a visit to Sun Valley despite its occupancy by the stars, the stars took their skiing the hard way, packed their own skis and thoroughly enjoyed their brief vacation. Living in Ketchikan at the Ruud Mountain ski springs cabins, the stars met many old acquaintances in the Warner Brothers unit that was also quartered there. The small navy staff still stationed at Sun Valley also enjoyed a "personal appearance" by Cooper at the showing of "Saratoga Trunk" in the opera house. (Union Pacific photo for the Time-News by Lloyd Arnold staff engraving)

should contact him or the Boy Scout office here. This is the first time the chief Scout executive has been west since taking office, Cook said.

The cantaloupe was first grown in southern Asia.

Welders Face Busy Time in Tool Shortage

SPOKANE, Wash., March 9 (AP)—Blacksmithing and welding shops in the Pacific northwest appear to be in for another rash season of tool shortages to keep farmers and gardeners supplied with enough hand tools to carry on their normal chores.

Hardware dealers in the region report a continuing shortage of virtually all such tools. A major exception is shovels. They are plentiful.

Dealers attribute the condition in part to the steel strike and to sympathy strikes in tool-making industries. One company, described as the biggest producer in the field, has undergone a prolonged shutdown, considerably outstriking the steel strike, they said.

The short items include axes, hoes, hammers and lawn-mowers. Farmers will have difficulty in finding manure and law tools—later, if not now.

Home owners likely won't be able to find the specific type of lawn mowers they prefer but they can find substitutes. A variety of new sprinklers, developed by many different firms and individuals, will make up for any lack of output by major producers.

Dealers aren't agreed on how long the shortage of tools will continue but one large firm expressed the opinion that demand would likely outrun supplies throughout the growing season.

Local Firms Select War Surplus Goods

Two Twin Falls firms have purchased surplus property through the war assets corporation regional office at Salt Lake City, according to a semi-monthly report for the period, Feb. 16-28.

Develco Brothers, Inc., purchased 2,000 feet of wire, copper, two sets, vinyl polymer, covered for \$29, 2,000 feet of No. 14 AWG wire, for \$16, and 12 switches, electric, insulated copper wire, for \$47.10.

Gem Trailer company bought 13 mds of paper, weathering, asphalt, impregnated for \$17.31, the WAC reported.

The first national election returns broadcast by radio were those announcing the election of President Harding in 1920.

NEW DISCOVERY in a Hearing Aid

A big improvement has been made in a hearing aid now released by this company. It is a new hearing aid that does not require separate battery pack, battery wire, battery case or element to make it work. So small it fits in the hand. The tone is clear and powerful. So small that you can adjust it yourself to suit your hearing as your hearing changes. Accepted by the Council on Physical Medicine of the American Medical Association. The makers of DeLuxe, Dyna, 3118, 1450 W. 19th Street, Chicago 8, Ill., are so proud of their achievement that they will gladly send free descriptive booklet and explain how you may get a full demonstration of this remarkable hearing device in your own home without making a penny. Write them today. (Adv.)

Two Initiated at Moose Ceremony

Two new members, Harold Soper and Perry Deford, were initiated Friday night by a special ritual then, captained by Harold Halverson at a meeting of the Moose lodge.

Past Governor Jake Pope, presided at the session, and commended the ritual team. Following the meeting refreshments were served by the auxiliary.

The next meeting will be at 8:30 p. m. Friday, March 22, at the Moose hall. A special meeting has been called for 8:30 p. m. Wednesday at the hall.

Peter F. Niessen Dies From Stroke

Peter Frank Niessen, 68, died suddenly from a stroke at 8:15 p. m. Friday in his home, 543 Blue Lake boulevard, following an illness of several weeks.

Time and date of the funeral service are to be announced. They will be held in the Wente mortuary chapel, with the Rev. R. C. Mahly, pastor of Immanuel Lutheran church, officiating, and burial will be in Twin Falls cemetery.

Mr. Niessen was born Dec. 26, 1877, at Mountain Lake, Minn., and came to American Falls in 1912. He was a retired grocer man.

Preceding him in death were his wife, Mrs. Marie Niessen, who died Nov. 6, 1935; a son, Harry, who died in 1924, and three brothers. Survivors include his daughter, Mrs. Maxine Niemeler, Twin Falls; four sisters, Mrs. Elizabeth Harder, Mrs. Helen Dersken and Mrs. Kate Lowren, Mountain Lake, and Mrs. Anna Harter, Butterfield, Minn., and a nephew, John Harter, Mountain Lake.

Death Baffles Ogden Police; Clues Lacking

OGDEN, March 9 (AP)—Confused that Sheriff J. J. Barry, 48, of Ogden, was not the person who was murdered and buried to a crypt on Feb. 23 in an Ogden motel cabin, Ogden police today were left with an unidentified body on their hands, and with but a few scanty clues to unravel what apparently adds up to the most baffling murder case in this city's history.

The body which originally was identified as Sheridan Barney was discovered to be that of a man at least 20 years older and of different build than the man who was buried in the crypt. It was taken from a grave in Monroe, Utah, Thursday afternoon.

The examination order was authorized when Dr. W. Glen Garner, director of Ogden city laboratory, and Detective Captain Clifford K. Kreiser, agreed they were certain that there were several features of the charged body that did not agree with descriptions of the subject.

Discrepancy Noted

The principle discrepancy was noted when city officials received a dental chart from the body. This revealed that Barney had 16 teeth, while the charged body had 14 teeth.

When the body was returned Thursday Dr. Garner and others noted that there were evidences of gray hair and of gray tips of hair. Laboratory tests showed that the body was that of a man of middle age, of between 30 and 35 years of age, said Dr. Garner.

Ogden officials received further confirmation that the murdered person was not the sailor when his father, Ray F. Barney, agreed to view the remains in a Monroe morgue several hours after the body was taken from the grave.

"No, that's not my boy," Captain Kreiser said Mr. Barney indicated them.

Clues Noted

Identity of the body was first established as that of Sheridan Barney through an identification bracelet taken from the right wrist, and from a small identification card and a memo book which police salvaged from the burning Arcadia motel cabin.

At that time it was supposed that Barney had fallen asleep with a lighted cigarette in his hand, resulting in the fire. Later, evidence of fresh blood was noted on a sailor's uniform taken off the body, and Dr. Garner and police suspected foul play.

Large Funeral

Funeral services for Sheridan J. Barney were conducted in a Monroe chapel Tuesday afternoon, attended by one of the largest crowds in recent Sever County history. Captain Kreiser said Sever County Sheriff Clarence Smith told him.

The small community was shocked, Captain Kreiser said, as the news got about that Barney's grave had been opened, and that a group of Ogden officials had determined it was not Barney who had been slain. But who was the victim, and where is Barney? The Ogden detectives today are seeking the answer to these two mystifying questions.

Red Cross Poster Girl must carry on!

Poster Girl, Sevier, Ark. Red Cross hospital worker, examines two posters selected for 1946 Red Cross fund campaign. One (upper) made of her in New Orleans posing vicariously of life. Campbell Gordon Fife, Lancaster, Calif., and his hands are powder showing Fife at home examining first poster. March has been designated Red Cross month in Idaho by Gov. Arnold Williams. The Twin Falls chapter drive is more than half over. (SEA telephoto)

Legion National Total 2,350,000

American Legion national membership jumped 202,001 during February and now totals 2,350,000. It was announced here yesterday by H. Dudley Swain, national vice-commander and Idaho Department commander.

The Legion leader also announced that Idaho's rapid membership climb would top 13,000 early this week, with new veterans joining by the hundreds each week.

Five states have enrolled more than 100,000, and Pennsylvania has a total of 203,597 to lead the list. Other high-ranking states are Illinois, 102,000; New York, 147,775; California, 110,000; and Ohio, 104,241.

Fifty-eight out of the 56 American Legion departments including Idaho have attained new all-time high enrollments, Swain said.

HORSE SALE

Postponed from March 6 due to weather conditions, I will now sell the following horses at my ranch 3 1/2 miles South of Burley on the Oakley highway commencing at one o'clock, on

Wednesday, March 15

OPA Acts to Boost Scarce Clothes Items

WASHINGTON, March 9 (AP)—The government acted to spur production of shirts, shorts, dresses and other scarce clothing items today by authorizing higher prices for cotton textiles.

OPA disclosed the new policy in announcing more substantial price levels than the cotton industry had been promised. These increases will be reflected in higher retail prices for the garments named and for such other items as pajamas and work clothing.

New retail ceilings have not been set yet, but OPA said it expects the price of shirts and suit or dresses, for example, to advance from 10 to 15 cents. Shorts may go from eight to 10 cents more.

A few weeks ago, when OPA was outlining the current program to textile mill representatives, it figured the increase for shirts would be only about five to six cents.

The newly authorized retail price hike will be from two to three times that much, meaning because OPA has decided it announced last night that higher price for textiles should be based on the increased market price of raw cotton.

OPA said the action had been approved by Economic Stabilizer Chester Bowers as a means of encouraging increased production in view of the present critical shortage of clothing.

Initial reaction from industry sources, however, left some doubt as to the effectiveness of the move.

In Boston, President Russell T. Fisher of the National Cotton Manufacturers association, said it appeared that the increase given was "too small to accomplish their purpose."

On Mission

June and Josephine Melners, Burley sisters, will be among the few sister mission teams for the L.D.S. church. They will go to the Louisiana-Texas mission. (Photo by Melners-staff engraving)

Executer Named for Serviceman's Estate

Probate Judge C. A. Bailey yesterday granted letters of administration to Frank C. Lett, Twin Falls, in the estate of the late Mel T. Jester, serviceman, killed in England, Aug. 1, 1944.

Mrs. Marjane H. Baker, petitioner in the estate and now a class student at Seattle, requested that her father be named executor. The estate of her late husband.

Burley Sisters Go On L.D.S. Mission

BURLEY, March 9 (AP)—June and Josephine Melners, daughters of Mr. and Mrs. Carl W. Melners, Burley, Idaho, accepted a call to the L.D.S. Louisiana-Texas mission. They will leave for the mission home in Salt Lake City March 10.

A missionary testimonial for them will be held Tuesday, March 12, at 8 p. m. in the Burley stake tabernacle.

The program will include addresses by President J. D. Hogan, and Bishop Vern Carter and vocal numbers by Nona Jacobs and Lulu Mae Marchant and Gertrude Nelson and Gail Millward.

Both girls graduated from the Burley high school, attended business college in Boise and the U. S. A. C. in Logan, Utah, where they were affiliated with Lambda Delta Sigma. Josephine has been employed by the Stimplot Produce company while June helped her father in his photography studio in Burley.

Grange Master Urges Limited Ration Plan for Scarce Goods

WASHINGTON, March 9 (AP)—National Grange Master Albert B. Goss said today that we should return to a limited rationing program if necessary to assure a fair distribution of scarce goods.

The spokesman for the powerful farmers' group also told the House banking committee that price controls should be extended but that food subsidies should be dropped at once to prevent "truly disastrous" inflation.

Instead, he said, congress should adopt a five-point program designed to restrict OPA's powers and take other anti-inflation steps such as boosting income taxes. The rationing setup would be a part of this program.

Goss said OPA should invoke rationing in order to assure a fair distribution "when the supply of any commodity is unequal to the demand and it appears that such shortage may continue for 30 days or more."

On the other hand, he said, price controls should be dropped as soon as supply equals demand and there is "reasonable prospect" that the situation will continue.

"As far as foodstuffs are concerned," Goss said, "this decision should be made by the secretary of agriculture who is in the best position to know the facts."

The United States purchased the territory of Alaska from Russia in 1867 for \$7,200,000.

Electronics

Prompt, guaranteed, precision repairing of electronic equipment. Home and auto radios, phonograph combinations, sound systems for warehouses, farms, offices, etc.
