There's nothing more annoying than turning on the hot water tap and getting only lukewarm or cold water. That doesn't happen to users of electric water heaters, The thermostatic control keeps water hot in the tank at all times.

And that means an adequate supply for all the household tasks . . . PLUS baths and showers for all of the family. With an electric water heater, hot water is always available when you need it.

The automatic electric water heater is SAFE too. Never any danger of overheating. When a sufficient amount of water reaches the right temperature . . . off goes the heat, and that's ECONOMY as well as safety.

Plan to install an electric water heater as soon as It's available.

POTATO ADVERTISING PAYS

There's something significant in the fact nat Idaho has Minnesota's potato-growing

that Idaho has Minnesota's polato-growing industry worrish and industry worrish and the remembered, has enjoyed the distinction of being one of the country's leading notato-growing states but right now the Minnesola polatic growers and dealers find that Maho Ruscets are stealing that the state of the st

After fields potators developed in the read of comment. Allows any several years a bine with the country are consistent of the country—even along the Atlantic sea board.

Much at the defeate would pay several years and the potators when they go to the store there are first of the potators when they go to the store there are first on the same first of the same fir

of only in Minnesota, but in Various pairs of the country-even along the Atlantic season of the country-even along the Atlantic season which as the dealers preferred to sell patters produced in their own state, the clamer for Idaho Russets increased in Minnesota, Rinally, one chain grocery firm alone, operating 450 stores in Minnesota, Montana and North Dakota, placed an initial order for 500 certoads of Idaho polatoes. The Magic Yalley shipper who received that order sold this one garcers more than 1,200 carloads of Idaho polatoes this last sensor. Idaho polatioes this last sensor. Idaho polatoes this last sensor when the the demand for Idaho polatoes in recent years has been a result of the war. But these same growers have no good explanation for the demand for Idaho polatoes in recent years has been a result of the war. But these same growers have no good explanation for the demand for Idaho polatoes in recent years and themselves with unwanted surpluses during the same period.

We have had outstanding potatoes along, But it has taken advertising, dealer service work and emphasis on reconcined standards to put Idaho polatoes over the log standards to put Idaho polatoes over the log dealers and the polatoes are making in potato advertising, it is accomplishing wonders.

GOING TOO FAR AGAIN

Several business houses at Kellogg were being nicketed the other day because they failed to display posters supporting the CiO miners' wage demands.

Both men and women folined in the line carrying "unfair" placards while a sound truck urged citizens not to patronize the stores because "they are not in favor of the union's demand for a 30 per cent wage increase."

The union had declared previously that

The union had declared previously that stores which did not display the posters would be considered "unifat" to the union.

All this is another excellent demonstration of how the unions are soing too far in their attempts to stuff their demands down the publics throat.

It's just another by-product of government.

ERIKA'S CONTRIBUTION
The death of Field Markhal Werner von

possible influence on world history.
She was Blomberg's secretary, and he married her in 1938, Blomberg at the time was

BUTTER-KRUST Will Still Be"Tops"

The bakers of BUTTER-KRUST "Enriched" Bread are not much concerned about the government order requiring the use of darker flour. In fact they are glad to assist in the national effort to relieve suffering and hunger abroad. But our bakers know that they can produce a white bread that's "tops" in flavor, freshness, texture and food value, even with the darker flour.
