This picture was taken right after Mrs. Cook won the prize for being the best chef in the county. She gives Reddy Kilowatt most of the credit. She says that cooking on an electric range is so easy that all housewives can be prize chefs.

Electric cooking is automatic. Controlled temperatures and timing devices give uniform results, while you enjoy freedom from the kitchen. And your electric range is clean and cool.

If you are not already cooking electrically, look forward to better living soon.

More Operators to Speed Your Long Distance Calls

THIS YEAR the Bell System expects to train about 150,000 new telephone operators to help put through a recordbreaking volume of calls. That's more than the total number of operators in service in 1940.

Yet, for a while longer, there will still be delays on some Long Distance calls. That's because there's such a big job of catching up to be done — the job we're now working on with all possible speed.

When we've caught up we'll keep right on going to make the service even better.
