SUBSCRIPTION BATES BY CARRIER-PAYABLE IN ADVANCE BY MANS-PAYABLE IN ADVANCE

ONE OF OUR SCHOOL PROBLEMS

John M Broth, executive secretary of the labe is bluestion a sociation expressed some und love to our way of thinking when he offeresed the Schedmaster organization of he fouth district in Twin Kalls the other

day. One of our boar educational problems. Since the Booth pointed not be a conception that education is a local function. In fact if it is responsibility of the state, and the state's total effects of the state is children. The state is total education in the state's total education in the state of the state is children.

have heard a lot about state's rights in We have near a not about states rights in recent years. But how the property of the feet that if a state is to retain placed on the fact that if a state is to retain and protect such rights it must also late the full responsibility for those functions which is possible that the stablest government is a stempting to the stablest government is a stempting to the stablest possible for the stablest government is a stempting to the stablest possible for the stablest government is a stempting to the stablest government is a stempting to the stablest government in the module east and Mediterians.

take over.

Because nearly everyone is acreed we must have good schools, the protection of our state educational system against innoads by federal interference is a challenge we should be

eral interference is a challenge we should be willing to accept and is a simple of the solution of the benefits of the state's school system at the extense of the poor contine. Unless, some state-wide standard is provided to ence all children an opportunity to a good element, and any education, the state can expect the feet-all states are supportunity to a good element. ry education, the state can expect the fed-Athers is virtal government to inject itself into the pic-Stalm require

hat's the very argument some of the erninent spokesmen are using to substan-e a need for federal participation in our e school systems. If we want to run the of having our schools subsidized by the Mate school systems 4 we want to run the park of having our schools subsidized by the same government and subjected to the controls at that would be likely to follow, well and used the local school system from a such influence, we had better heed the warning expressed by Mr. Booth Our schools, as we all know, at least the backbone of our country, Nothing has a greater influence on the type of democracy a country may hape to keep intact. Let's never torset that for a moment.

"This is a subjected to the controls are the backbone of our country, Nothing has a greater influence on the type of democracy a country may hape to keep intact. Let's including the subject of the country of the subject of the country may have been a thorough solone over, but that will never be introduced to the system resis in the hands of wrangling politicities.

The people have been promised school surveys, the lecislatures have made repeated gestures along these lines, but little has been accomplished.

Not until we have a complete and impartial in unit we neve competent and impartial investigation by some competent and reliable inclividual or organization free from all political influence, can we hope to establish an efficient, state-wide school system that will make government intervention unnecessary.

ONE GENERAL COMMAND

ONE GENERAL COMMAND

Although there has been a lot of "pro" and
"con" propaganda stirred up as a result of
the proposed unification of our armed forces,
the remarks by Capt. At. Alban, made hefore the Rotary club Tuesday, brought the
whole issue into cluse focus,
Perhaps there are some locical reasons
why the army and may should be maintained as entirely separate units and commands,
as they have for the lest 150 years. But there
are dozens of reasons why it would seem
reflections to continue indefinitely supporting
three spatial emorrhesites.
The company of the continue indefinitely years
on years especially and the company
of the many dualicated article. The continue which the army, navy and air force would
have a common interest, instead of separate
research departments the findines of which
have a common interest, instead of separate
research departments the findines of which
are not shared by all branches of the armed
forces.
During the war, as it has been pointed out.

research departments the findines of which are not shared by all branches of the armed forces.

During the war, as it has been pointed out time and time again, one branch of the service might have a tremendous surplus of some warring commodity seriously needed by another the law at the commodity seriously needed by another the law at the commodity seriously needed by another the law at law at the law at the law at law at law at law at law at law a
