Underwriters OK Given to Jerome Firm

Jerome, May 25 — The only Magic Valley manufactured product approved by the Underwriters' Laboratories, Chicago, is made here in Jerome. The Volvo junior block made by Jerome Cinder Products company.

The approval, which lowers fire insurance rates on buildings constructed of the Volvo blocks, came following extensive tests at the Chicago laboratories maintained by the national board of fire underwriters, as fireproof is believed here to be the only such approved material among building blocks made in a number of international states as well as Idaho.

"Considerable" Exact amount of fire insurance economy made possible by the approval is not definite in all cases but rates will be lower, it is expected, company owners have been advised by the Idaho state insurance rating bureau at Boise.

A telegram from A. J. Striner of the Underwriters' Laboratories at Chicago, one of the owners, that the Volvo blocks may achieve "fireproofness" which is the top rating would mean four to eight hours of fire resistance. Only five blocks constructed in the United States have ever achieved this rating. It is estimated that the Volvo blocks will become the only building block in the United States to do so with an inch and one-quarter thick children's blocks ranking at the top used in an inch and one-half.

Inspection from the laboratories inspected the big plant here, checked all procedures, checking tested the blocks material and then selected 20 blocks from the production line at random. These were shipped to Chicago where two walls were built, 10 feet wide and 11 feet high, in use in the fire tests.

Temple Fire — Temperature on one side of the wall was sent to 1,000 degrees in five minutes by use of gas jets, then to 1,750 degrees in an hour, then to a terrific 2,500 between the first and third hours.

Tests results were based on the amount of heat transmitted to the other side of the wall.

The Jerome concern, owned by Jerome and Twin Falls men, is now producing 140,000 blocks a day. It has already shipped more than 20 carloads to seven Portland accounts. In addition to its shipments to Idaho and nearby states, the plant is running three shifts around the clock.

Own Its Source — The company owns its source of volcanic ash, located at the base of Mt. St. Helens, 40 acres of raw pumice in which it holds a claim on 500 acres and another 100 acres in the area. The firm is shipping no less than nine cars of raw pumice per week from its source properties, besides supplying its own plant. It is supplying the block manufacturing concern at Ogden.

Experiments are underway to perfect other than construction uses for the pumice material. One use being test is now being made at the University of Minnesota, which is testing the Jerome company's product for insulation value.

State Liable For Costs of T-B Hospital

BOISE, May 25.—(AP)—Idaho counties cannot participate in the cost of hospitalization for residents of their respective counties in the state tuberculosis hospital at Gooding. Frank Langley, attorney general, asserted today in an opinion addressed to L. J. Peterson, state director of the department of public health.

"I do not believe that you can require the various counties to participate in such costs," Langley declared.

Shane Setup

Prior to the 1946 special session of the legislature the department provided for the hospitalization of tuberculous patients under an amendment that specifically provided for the sharing of the costs of treatment in private hospitals between the state and the county. This system is being continued at the present time pending completion of the Gooding hospital program.

Langley said today, "there is nothing in the law establishing the state tuberculosis hospital at Gooding that authorizes or requires the state to share in the cost of the hospitalization." He added that the hospital is "a rather vague and indefinite regarding your duties, but in general terms you are authorized and empowered and directed to assume responsibility for the direction, operation and control of the hospitalization of tuberculous patients in said hospital."

No Authority

"In the absence of any authority in the law authorizing you to charge the counties for the hospitalization of patients therefrom, I do not believe that you would have power to make such a charge," Langley said.

The state department of public health was appropriated \$12,432 by the first extraordinary session of the 1946 legislature for the balance of the biennium ending June 30, 1947.

Seven Divorce Decrees Given

Seven decrees of divorce were issued by District Judge James W. Porter. Cruelty was charged in each complaint.

Robert D. Main was divorced from Vera Joyce Main. They married at Reno, Nev., Dec. 24, 1944.

Ruby Satterfield was awarded custody of a daughter, 1, in her action against Doyle G. Satterfield. They married at Twin Falls, Feb. 29, 1944.

Jean MacDonell was awarded custody of a daughter, eight months, and \$50 a month support in her suit against Harry MacDonell. They married Jan. 22, 1943, at McCleary, Fla.

New Bishops Ordained Today

Elder Stephen L. Richards, one of the council of 12 Apostles of the LDS church, today will ordain bishops of the newly-created fourth ward in Twin Falls. The new bishops are left to right: Mitchell W. Hunt, Jr., first ward; Gundy K. Hogan, second ward; Noah W. Arrington, third ward; and John C. Fredrickson, fourth ward. (Staff photo by Langley)

Time and Place of Meetings Set in LDS Four-Ward Plan

Meeting times and places for LDS church members under the new four-ward setup in Twin Falls were announced Saturday by Elmer Brown, stake president. The new meeting times were necessary because of the expansion to a four-ward basis and the availability of only two meeting places.

The first ward meetings will hold Sunday school services at 9:30 a. m. with the priesthood meeting immediately following. Sacrament meetings will be held at 5 p. m. Mutual and primary meetings will be held Tuesday evenings and women's Relief society meetings on Wednesdays.

The third and fourth wards will hold priesthood meetings at 11 a. m. and Sunday school services at noon. Sacrament services will be conducted at 7:30 Sunday. Mutual and primary meetings will be held Wednesday and women's Relief society meetings will be held Tuesday nights.

The first and third wards will meet in the present first ward LDS church. The new meeting times and places will be effective June 2, President Brown said.

Bishops of the new wards are today with Elder Stephen L. Richards, one of the council of 12 Apostles of the church, officiating. New bishops are Mitchell W. Hunt, Jr., first ward; Gundy K. Hogan, second ward; Noah W. Arrington, third ward; and John C. Fredrickson, fourth ward. Arrington and Fredrickson were bishops of the two wards before the expansion.

Conference Sessions

Elder Richards will address general sessions of the church at 10 a. m. and 2 p. m. today in the tabernacle. He will call upon other members of the church, including:

FIVE MAY SENTENCE

HALL, May 25.—Robert Eymon is serving a five day sentence in the Blaine county jail and will have to pay a fine of \$100.00 for driving while under the influence of intoxicating liquor. He was arrested by state policeman G. R. Hunt on highway 93 between Halley and Ketchikan. Eymon gave Wyoming as his residence.

Grand Coulee Plans Largest Of Generators

COULEE DAM, Wash., May 25.—The bureau of reclamation today called for bids for building "the largest generator ever planned by man," a 120,000-kilowatt giant to be installed in a powerhouse at Grand Coulee dam.

Driven by a 165,000-horsepower turbine, also described as the world's largest, the generator could turn out in one hour more energy than that produced by a locomotive pulling a 100-car freight train at 60 miles an hour from New York to Chicago and return, a bureau statement said.

Bids for the generator will be opened at the bureau's Denver office July 5. Bids for the turbine will be opened three next Tuesday.

When the new turbine-generator unit is placed in operation, three more of the 108,000-kilowatt generators have been added to those which have been in operation at the dam. Grand Coulee dam will have a rated capacity of 1,112,000 kilowatts or greater than the total installed capacity of all power plants in the entire states of Vermont, Maine, North and South Dakota, Delaware, Mississippi and Wyoming.

The big new generator will be in operation by November, 1946, under the present schedule of the bureau.

PORTLAND, Ore., May 25.—(AP)—A 5-cent-an-hour wage increase agreement, signed by union and employer representatives, ended a threatened strike of CIO International Woodworkers of America in that industry and leave only the pine contract unsettled.

The pay boost, retroactive to April 1, 1946, would put the workers' basic hourly minimum at \$1.10 an hour—7½ cents below the union's original demand. To become effective it will have to be ratified by individual employers and local unions.

James E. Padling, union president, and H. D. Weaver, operators' committee chairman, signed the agreement yesterday after nearly eight weeks of conferences. Union members in Oregon, Washington, northern California, Idaho and western Montana had authorized a strike should negotiations fail.

Livestock Is Big, and Vital, Area Business

By BOB LEIGHT
 Disestablishable—said \$12.50
 That, more or less, is the sound echoing each week in at least five livestock auction yards in Magic Valley, and it's a sound that is rolling up some \$600,000 annually for Magic Valley farmers and stockmen.

Cattle and other livestock sales, necessarily preceded by an extensive and ever-growing stock feeding industry on farms and ranches, are becoming a highly important as well as a stabilizing factor in the area's agricultural setup. With the by-product, fertilizer produced in stock growing, the livestock industry in south central Idaho is already in its modern-day revival far more important than in the palmy days of the past.

Busy stock auction grounds are now operating in Twin Falls (two of them), Burley, Jerome and Gooding. It is understood that at least one more is being contemplated, possibly others.

The auctioneer's chant may sound like blather, but it is the heart of the livestock business. The auctioneer's chant may sound like blather, but it is the heart of the livestock business. The auctioneer's chant may sound like blather, but it is the heart of the livestock business.

Auctioneer Oscar Kias' guttural rattling is audible and understandable. The same is true of the other auction yards in the area.

The same probably doesn't realize that on good days more than 1,000 head of cattle from bawling calves to trophies of the Durham steers pass through the auction ring. Definitely he doesn't realize all the action behind the scenes.

Major Industry

"This one company's weekly sale—without the impressive toll of the other two—is a major industry. A total of \$2,000,000 worth of livestock is changed hands in 1945 via the Twin Falls Commission company's yards. The auction, attractively located in Montana, Nevada, Oregon, Utah and Idaho and accessible by rail, road is brought in from Washington, according to Chris Cullen, one of the three brothers owning the commission house. Other owners are Tom Cullen and Bert Cullen.

The sale attracts buyers from Nampa, Caldwell, Idaho Falls and other Idaho cities and "there are always some California buyers here," Cullen asserted. He said that the sale has one of the main sources of California meat supply at the present time.

Comply With Ceiling

Cullen declared that although the cattle is sold for the "high dollar" bid in the auction ring, never has the price exceeded the OPA ceiling and the highest price received for cattle has been 40 cents short of the ceiling. The OPA ceiling price for grade AA steers is \$17 a hundredweight and \$16.00 for the top price ever paid here.

He explained that in a few cases where the seller has been a 4-H club, the cattle has sold as high as \$19 a hundredweight. Cullen explained that there is no OPA ceiling on such cattle and that the buyers have always cooperated with the 4-H club youth and have bid more than the cattle is worth as a favor to the youth.

"Whenever we have a 4-H club boy selling his cattle we always have them lead their cattle into the ring and the buyers always give them a 'big hand,'" Cullen said. "We also try to save some top grade cattle for 4-H youth to buy when we are reduced in advance."

45,000 Head in 1945

Cullen said that in 1945, 45,000 head of cattle went through the auction ring at the commission yards and that although some calves sold for as low as \$1.50 apiece each

As Cattle Are Corralled, Sold and Weighed

A few of the hundreds of head of cattle sold each Wednesday at the Twin Falls livestock commission auction sale are shown in the upper left picture romping through the chutes on their way to the auction ring. In the upper right picture, Auctioneer Oscar Kias at the microphone, appeals at his requests for bids on this large black bull. After the bull is released from the auction ring, he is herded to the scales where his weight is stamped on the sales ticket and sent back to the main office of the commission yard. The weighmaster is shown in the picture to the right adjusting the scales to stamp the ticket. (Photos by Bob Leight—staff engravings)

CAP Unit Will Get Army Ship

Four or five advanced training planes will be allotted the Idaho wing of the CAP and one of the AT-4s will be based in Twin Falls. It was announced at a meeting of the Twin Falls squadron of the civil air patrol at a meeting at the airport Friday night.

The planes will be used only for air corps reserve officers who belong to the CAP. It was stressed. Two tanks of the national CAP are helping in the placement of air force veterans and helping with CAP recruiting.

Members of local squadron were notified to stand alert during the period of the railroad strike. Commander George Taylor reported. Twenty planes and 24 pilots were ready to help in case the strike was not settled and were waiting notification from the Railway Express office here.

Buhl Will Start Young GOP Unit

BUHL, May 25—A Buhl chapter of the Young Republicans will be formed at a meeting at 8 p. m. Monday in the Buhl cafe. J. H. Thayer, secretary of the Republican central committee, said.

The county Young Republican organization is sponsoring the club. Other Young Republican clubs are expected to be organized in Filer, Kimberly and Murtaugh.

Draft Facing Strikers; Rail Walkout Ends

From Page One
He said that the government has selected an industry. It should provide for adjustments and content proceedings against union leaders, he said, deprive workers of their right to strike, and impose criminal penalties on union leaders who violate the proposed law. Finally, he said, it should provide for the drafting of those on strike against the government.

He'll Stay

THE REV. R. C. MUHLLY
... Will not accept call to the Zion Lutheran church in Oakland, Calif., but will remain here as pastor of Immanuel Lutheran church. (Staff engraving)

He said it should apply only in situations where the government has selected an industry. It should provide for adjustments and content proceedings against union leaders, he said, deprive workers of their right to strike, and impose criminal penalties on union leaders who violate the proposed law. Finally, he said, it should provide for the drafting of those on strike against the government.

"They are going to you to be drafted," Mr. Truman declared. "They are. I repeat that I recognize them as being a very real emergency and only in cases where workers are striking against the government."

Beyond these he suggested adoption of a "comprehensive" law which would be designed to reduce the number of work stoppages and "other acts of violence, sabotage and the whole population."

The right of workers to strike in non-emergency situations should be preserved, Mr. Truman asserted. But he asked congress to set up a special senate-house committee to study permanent, long-range legislation designed to reduce the number of strikes.

The house, under procedure that checked off debate at the end of 40 minutes and required a two-thirds majority for a proposed bill, approved the measure. The President promised he would not be less than as stringent as legislation passed by the house, argued about the Truman record on labor relations and committee approval of them. Mr. Truman, however, had been a personal victim in the calling off of the strike. It took tremendous effort to get the strike to end.

Last night he carried the case to the congress in a radio address. He put it up to congress. Each time he held out the threat of the use of troops if a strike did not cease.

County Will Act Monday on Pact For Road Weeds

Twin Falls county commissioners plan to enact Monday a resolution whereby the county's four highway districts will cooperate with the various weed control bureaus in the eradication of weeds along the right-of-way.

"We are preparing a resolution to be enacted Monday to carry out the policy that was adopted at the meeting Friday morning," said Dr. E. V. Molander and Kenyon Green, commissioners.

This policy was "to the effect that the county will use its weed department, and personnel to assist the highway districts to control the weeds along the roads, and highway districts to bear the expense and responsibility," they said.

Thirty farmers attended the session and heard statements by H. B. Stenberg, Shoshone, district engineer, the state highway department; Everett M. Sweeley, county attorney; and A. D. Shenna, director of the Twin Falls Highway district.

After his denunciation of the CVA proposal, the originators and supporters, the club went on record as opposing the advisory plan. Program chairman was E. B. Boffe. Guests were C. C. Merrill, Buhl; W. L. Williams, Burley; Roger Guernsey, Col. Dick King; Ray Stevens, Don Carriero, Harley Crispin and Harold Eide, all of Gooding.

Slayer of 27 In Paris Dies On Guillotine

PARIS, May 25 (AP)—Dr. Marcel Petiot, convicted of slaying 27 persons in the sensational "murders of the Rue La Sœur" during the German occupation, was beheaded by guillotine at La Santé prison early today.

The slight, 55-year-old physician, who allegedly collected money from his victims by promising to help them escape from Nazi-occupied Paris, said "gentlemen, I am yours," before mounting the block.

His lawyer, René Fievet, said Petiot was half smiling as he approached the guillotine.

At the foot of the block, he received religious rites: "To please my wife."

This ended one of the strangest criminal cases in France's history. Petiot had maintained at his trial that he was a leader of a mysterious resistance movement known as the "city boys," which executed collaborators. He denied that he murdered for profit or that his victims were Jews and others seeking to flee from the Germans.

Five Contests Loom on Lincoln County Ballots

SHOSHONE, May 25—Five contests for nominations in the primary election, June 11, will appear on the Lincoln county ballots while 22 other candidates are uncontested for their respective party nominations.

The contests included the battle between Harry Jones and C. W. Dill, Jr., for the Republican nomination for state representative; E. A. Cheney and Donald Sandy for the Republican nomination for commissioner for the Shoshone; Frank W. Dixie and G. Jennings for the Democratic nomination for state senator; and Charles Mock and Charles Claxton for sheriff on the Democratic ticket and Roy Dyer and R. H. Burro for the Democratic nomination for assessor.

Uncontested on the Republican ticket are: P. A. Manville, state senator; Clayton, sheriff; Ruth Kelly, county auditor; Myron Johnson, treasurer; Lucille Allen, county superintendent; Ross Hendrick, probate judge; Russell Thomas, commissioner of district; Myrtle Burnett, coroner; J. McElhannon, justice of peace; Thero Bruhn, W. F. Nelson, J. P. Christensen, W. P. Neider, precinct commissioners.

On the Democratic ballot: Mike Quinn, state representative; Charles Walters, county auditor; G. E. Byard, ex-probate judge; Howard E. Quinn, state representative; Walter Whitfield, district commissioner; F. W. Powell, Floyd Kinsla, Quintal Larson and J. E. Harmon, precinct commissioners.

Houses Planned On 4 Basements

Application for four building permits, covering the construction of 20 by 30 concrete and frame dwellings on the top of basements at city hall by C. W. Durkin.

Value of the four jobs is \$4,000. The four basements are on Quality street between Seventh avenue east and Eighth avenue.

PACES FELONY CHARGE

HAYLEY, May 25—Boyle law enforcement officers returned James Doolittle to that city this week where he will be tried on a felony charge. He was picked up at the Shivers ranch south of Bellevue by Sheriff L. E. Outas and Patrolman E. R. Harding.

GETS FEVER SHOTS

BURLLEY, May 25—One hundred and fifty Boy Scouts from Burley, Declo, Oakley and Albion received shots for spotted fever by Dr. R. J. Sutton and Mrs. La Prent. Anna, Cassia county health nurse, at the public health headquarters for Cassia county here.

Police Get a Hard Case to Crack

This tortoise, alias Tojo, was picked up by a local citizen and turned in to the Twin Falls police station, where he is being held on an open charge. The cops grunted (questioned) him, but couldn't get Tojo to stick his neck out, so it's not known whether he'll be charged with speeding or operating a shell game. Anyway, he was mugged for the files, and it was understood that Police Chief Howard Gillette planned to turn Tojo over to his Grand, for safekeeping. (Photo by John Brozman-staff engraving)

Moore Speaks At Graduation For 12th Year

FILER, May 25—"An Inevitable Decision" was the subject of the commencement address given Wednesday night at the Filer high school by the Rev. Brooks H. Moore, Idaho Falls. This is the 12th consecutive year that the pastor has addressed Filer graduates.

A questionnaire was presented by Arley Henderson. The invocation and benediction was delivered by the Rev. James W. Brown and the mixed chorus presented a number. Dignitaries were presented by Fred Williams, chairman of the board of education.

Citizenship awards were presented by Ruth Reichert and Duane Ramsey by Art Korte, president of the Filer Kiwanis club. Banquet was the salutational and Miss Reichert is valedictorian.

Other graduates include Hilda Ald, Betty Bardley, John Barlow, John Braddock, Tom Brade, Leo Gilmer, Peggy Flenner, Edson Hawkins, Eva June Huffman, George Jeter, Barbara Lottner, Leroy Lancaster, Allen Lee, Merlene Long, Earl Louisa, Margaret Malone, Betty Tucker, Betty Martin, William Michaelis, William Norlund, Claude Oliver, John Ortel, Dick Shelton and Gene Shaff.

Asks Authority

A petition for letters of administration of the estate of the late Pearl E. Newey was filed by the surviving husband, Robert M. Newey, in probate court Friday.

The estate is valued at \$4,500, including a lot on Filer avenue. Newey's attorney is S. P. Hamilton.

The hearing was set for 10 a. m. and June 4.

Property Decree

A decree establishing the right of succession of the surviving husband, Edwin A. Wilson, to community property in the estate of the late Lena G. Wilson, who died here Feb. 14, was recorded here Friday.

Under terms of the decree he was awarded a lot at Elgin, nine north and Third street, and 80 acres and a lot in Jerome county.

Quota System To Stabilize Sugar in U. S.

WASHINGTON, May 25 (AP)—A stabilization program for the sugar industry, to meet the possibility of future surpluses, was proposed today by Senators O'Mahoney, D. Wyo., and Johnson, D. Colo.

They submitted a bill that would guarantee slightly higher quotas if production overstates demand.

Quotas for anticipated national sugar consumption of 7,000,000 tons annually, production, if it catches up with demands, would be granted as follows:

Domestic best sugar, 1,647,250; domestic cane, 453,016; Hawaii, 982,557; Puerto Rico, 653,778; Virgin Islands, 9,839; Cuba, 2,045,000; Philippines, \$52,000, and others, 28,196.

The bill provides that if any production quota should be unable to fill its quota of sugar, the deficit would be granted among other countries.

Deficit Divided
In event of a Philippine deficit, it would be protected as follows: For the year 1947 and 1948: Domestic sugar areas, Puerto Rico and the Virgin Islands, 10 per cent; Cuba, 45 per cent; other foreign countries, 5 per cent. In 1949: Domestic areas, Puerto Rico and Virgin Islands, 20 per cent; Cuba, 75 per cent; and other countries five per cent.

For subsequent years: Domestic areas, Puerto Rico and the Virgin Islands, 35 per cent; Cuba 60 per cent, and other countries five per cent.

Business Brisk at Recorder's Office

A comparison between some 1945 and 1946 receipts showed yesterday that business is picking up for C. A. Bullis, county clerk-auditor-recorder.

The period studied was April 8 through May 18 for both years. Past and present figures are as follows: Total, \$1,643.85 and \$2,791.75; clerk, \$481.63 and \$659.40; auditor, \$572.00 and \$410.75; recorder, \$589.22 and \$721.60.

Bullis explained the great jump in auditor's receipts as owing to \$391 spent in primary candidates' fees this year. There was no election last year. If these fees are deducted, the 1946 auditor's figure is a bit lower than last year's.

TIMES-NEWS PUBLIC FORUM VOICE OF THE READER

Thumbnail Forum

WITH JOHN BROSNAN AND LORAYNE ORTON

THE QUESTION
What do you think of President Truman's action in settling the railroad strike?

THE WINNER
Mrs. Cecil Dodge, route two, wins the \$1 award for submitting the question chosen this week. Questions for the Thumbnail Forum may be submitted by mail, phone or in person up to noon on Saturdays.

THE PLACE
In front of the Twin Falls postoffice.

THE ANSWERS
Ray Robbins, member of a local insurance and real estate firm: "I was very pleased to see the President take action in the matter, but he could have done it much sooner."

THE ANSWERS
F. D. Babcock, construction superintendent: "He did the only thing possible under the circumstances."

A. E. Dicker, city electrical inspector: "I think he did very well. The railway union said that if given enough rope perhaps the striking group would 'hang themselves.'"

Doris Cornelison, high school girl: "I really laid down the law in his speech."

Norma Fuller, high school girl: "He did the only thing left to do." (Editor's note: Of these six persons, two designated their political affiliations as Independent, one Democrat and one Republican. The other two didn't have any or wouldn't specify.)

Dog Poisoner at Jerome May Kill Small Children

Editor, Times-News:
Saturday, May 4, was a sad day for some of our children here in Jerome since two dogs had been cruelly poisoned.

The method used was writers stuffed with a white powder and scattered over the Washington school lawn. But there could have been a greater tragedy because Saturday morning a two-year-old boy picked one up to eat it, but an older boy snatched it away from him and took it home. A number of the children have been found since then. All children are in danger. Why don't the officers here do something at least make an effort? The same thing happened here last year at the same place.

What do you think should be done with such a heinous scoundrel?

Wife of Convicted Man Says He Knew Nothing of Accident

Editor, Times-News:
Ray Taylor, resident of King Hill community for 25 years, convicted of manslaughter... let's find the facts.

This article is to acquaint those of the public who were not at the trial with facts brought out there at a conference with goods and previous newspaper accounts of the auto accident about one mile west of King Hill last September 23, when Forrest Woods' car was wrecked, resulting in the death of Mr. Woods and the slight injury of his companion, A. B. Casey, a night club worker and bartender of Pocatello.

What was what it that caused the accident Mr. Taylor is charged with.

The prosecution says it was a GREEN car and offered as evidence a fender guard off the wrecked car which had streaks of green paint on it. Taylor's car, a 1939 Chevrolet, is and always has been a blue car, a color which contains no green or combination of colors to make green.

Does the fact that Taylor happened to be along that section of the road at about the time of the accident make him the cause of it? There were five others there at approximately the same time, two of whom own a green car. In fact they were the only ones who were close to the Wood car when it wrecked.

Mr. Taylor met a car with blinding lights a considerable distance east of where the accident happened which was coming from the east at a terrific rate of speed down the center of the road, forcing him to the side of the road, nicked his left front fender and went on. Mr. Taylor pulled out on to the right shoulder of the road and stopped and looked back but the other car had passed on down the road out of sight.

While Taylor's car was stopped on the shoulder of the road another car coming from the west, passed him, later identified as the Percé Hall car. Mrs. Taylor, riding in the Hall car, testified he saw two cars come close together in the road ahead of them that he did not see and did not hear anything, that the car from the east swerved to the right and passed them, that he saw it wheel off on the gravel shoulder of the road and that it was throwing gravel on their car as it passed. This was just seconds before it went off the road. He also stated they did not stop. Why?

Mr. Casey who was riding in the Wood car testified that seeing the lights of the second car was the last he could remember before they went off the road and wrecked, that things happened so fast he did not know if they got past the second car or not.

About the charge that Taylor was driving while intoxicated, every witness who testified on that point, including the witnesses for the prosecution, testified that Taylor had had nothing to drink and was not intoxicated.

It has been several years since Taylor has helped start and finish many improvements in the community. They have two children and five grandchildren. One son is farming near his parents, the other son who is in Washington, was in the army over three years, was in communications, taught radio and electric, finished, operated school at Ft. Monmouth, N. J., and had charge of the Ft. Lewis radio station at the time of his medical discharge.

Mr. Taylor knew nothing of the accident at the time and is still convinced the car he met is the car which wrecked.

Club License Applicant Fires At Board and Petition Claims

Editor, Times-News:
Again I have been denied a license to operate a so-called legal non-profit locker club. Really there are no legal locker clubs. It is another way of getting around Idaho's prohibition laws. If the state can sell liquor to the public then they should have made arrangements for them to drink it very few people enjoy drinking alone or at home; clubs solve this.

This time I bought property that met the commission's requirements last time they denied me a license. The George Sigmund property location. Petitions against my club all of a sudden became important, but the Turf Club then, expensive money was granted a license after a petition of 1,150 signers was presented against the club. How could they deny me a license when only a few over 100 signers opposed them?

The commissioners at \$150 per month are no doubt sorry they got into this "hot spot" of controversy. I dare say their refusal to take the "bull by the horns" has given all this club trouble and put them on the proverbial "turf." Now they state they won't act on any club license application and be criticized for doing one thing or the other. They request a court order forcing them to issue a license, thus clearing them. This might be classed as "passing the buck."

(3) Added traffic by the real home (approximately one mile away). (2) More danger for children going to Hagerman school and quarter mile away.

(4) Added traffic to the already crowded street and the ball park (one and one-half miles away). Remember club traffic doesn't start until 10 p.m. or later.

Imagine using such a defense as this against my location, when they have such statistics as the "N" club within one-eighth mile of the hospital located on Highway 30 on a dangerous bridge and curve. The highway bridge has a surplus of cars that park in the main highway for hours, just off the rim-to-rim bridge.

My neighbors of a mile or more away have given me the impression

Club License Applicant Fires At Board and Petition Claims
Editor, Times-News:
That Elizabeth boulevard is a private road made only for the use of the rightous. We "wrongdoers" have no business using a public highway—well, that's all club-goers are drunkards. My statement drew a few gasps by saying, "I am sorry I enlisted in the army and certainly wouldn't enlist again if I knew I was coming back to the drinking situation I'm trying to open my club." I would have while the "ouch" was really soft. Now I admit, competition and welcome it."

I offered to abide by the court decision on the Williams case, but my opponents wouldn't accept the challenge. So now I have three choices: (1) go to court and try to obtain a court order; (2) operating "open house" to my friends without a license; (3) or heading an organization to close all clubs in the county—my own friends included. I want an effective manager that has the case to grind, call on me!

After attending the court listening to the arguments on the Williams case, I must admit it is a crime to cause people to pay money to have legal beverages distributed. Each side would cite the same code and use it in his argument. The only sensible thing heard was that a graced citizen by petition could cause the commissioners to investigate more completely and the findings should be the final decision.

All of my money is invested in what should be a business for me and when a man's back to the wall he has to fight and that I will. Yours for a "catch as catch can" bout.

Miner Points Out Accident Danger Asks Candidates' Stand on Liquor

Editor, Times-News:
In regard to the strike at the Triumph mine at Halsey April 12, I see that a lot of you people do not realize the facts of what the miners are striking for.

I wish to inform you that I am a miner myself and was hurt on Aug. 7, 1941, in the Triumph mine. The company, as usual, said it was the miner's fault, which I say it is. I would like to have some of the ones that say so prove it.

I was a farmer myself until 1931 and from then until 1936 was on the range. I am a veteran of World War I. Now I am a broken-down miner, so if you farmers could realize what a miner has to go through with, you could see things differently. J. H. CROWLEY (Halsey)

Blister Rust Control Help Not Adequate

MISSOULA, Mont., May 25 (AP)—Regional Forester P. D. Hanson said today that less than half of the quota of men for blister rust camps in Washington and Idaho pine forests has been filled and as a result control operations would be seriously handicapped unless more men show up at the camps now getting underway.

Hanson explained that the fight against blister rust is one in which the life of great areas of young white pine is at stake and said that congress has provided for an expanded program to make up for the wartime curtailment of the work.

To meet the emergency, the forest service has been authorized to reduce the minimum age for workers to 17 years.

Applications are being received by employment service offices and forest supervisors at Sandpoint, Coeur d'Alene, St. Maries and Grange, Ida.

Four Machines in Road Tangle—but Damage Is Minor

Enough cars were involved to have caused a serious accident, but only minor damage to two cars involved resulted from a collision about a mile west of Twin Falls Friday night.

Four vehicles were involved in the accident. A Buick sedan, a Ford coupe, a Buick sedan, and a Buick sedan.

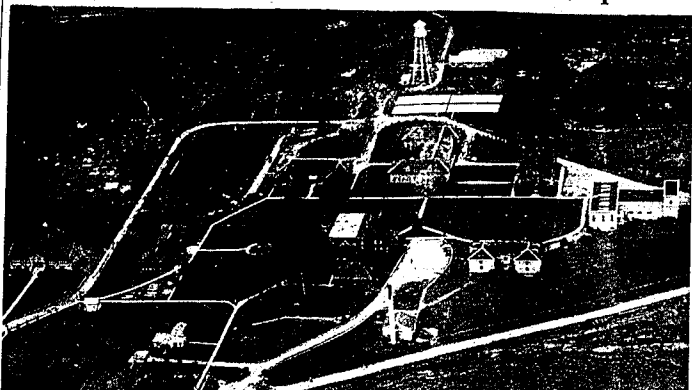

It all started when a machine pulled onto the highway from a side road just west of the town of Rock creek, about 10 miles west of Twin Falls.

Behind him was a machine driven by a man whose name was not given as a witness. When the Buick stopped, the car was struck from the rear by a vehicle operated by Wayne H. Blaine, 20, of Piler. Riding with Blaine were Kenneth Blaine, 17, and Stewart Piler.

No one was injured and all cars except one had left the scene without damage.

Deputy Sheriff D. C. Parrott reported that a sedan driven by Cecil C. Collins, Kimberly, was struck from the rear by a Buick sedan, and a Buick sedan, 2, Twin Falls, at an intersection three miles south of Twin Falls, center at 8:30 p. m. Friday. Damage was estimated at \$75.

Here's Air View of Albion State Normal School Campus

This view of the Albion State Normal school campus, known as "the friendly campus" is shown as it looks to a bird but to students who enroll for the summer school session beginning June 3 it will look a lot clearer and homier. (Staff engraving)

ALBION, May 25—The first of two summer school terms to be conducted at Albion State Normal school will begin June 3, President Raymond H. Snyder announced today. Registration for the 19-day post session will be July 13.

Remodeling Done At Airline Office

Completion of the renovation of the Empire Airlines office at the municipal airport and a change in office hours at the ticket office in the Rector hotel lobby were announced Saturday by Ted Fischer, ticket agent.

Fischer said that because of the railroad strike reservations on planes leaving Twin Falls had been filed for the next seven days. He said that space may be obtained from Pocatello and Idaho Falls.

The reservation desk in the hotel lobby started June 1 will be open from 9 a. m. to noon, 1:30 p. m. to 3:30 p. m. and 4:30 p. m. to 6 p. m. After these hours information can be obtained from the hotel desk or the Radio cab office, Fischer said.

Because of the increased travel on Empire Airlines, Fischer urged travelers seeking reservations to get their requests five or six days in advance.

Fischer said that the airport office had been equipped with waiting rooms, rest rooms and a drinking fountain.
