ABOARD U.S.S. APOLACIAN, July 2 (P)—Firefighting crews worked on into the night in atom-blasted Bikini lagoon today, dousing lingering pockets of flame through the target fleet—five of whose 73 vessels already had been sunk.

The second test, tentatively scheduled within three or four weeks, may take a far greater toll than indicated in an interview with Navy Secretary Forrestal radioed from the flagship Mt. McKinley. He expressed surprise at the "relatively unimportant" damage inflicted upon the heavier ships by Monday's air attack, but noted that such ships are "difficult to sink unless they sustain underwater damage."

The second atomic blast is to be set off under water, with the sea transmitting a terrific force to the hulls of the test fleet.

Fully Manned Planes Pierce Atomic Cloud

KWAIJALEIN, July 2 (P)—Two B-29 Superfortresses on Kwai Jalein airstrip today under heavy guard—the "hostile" aircraft in the Pacific.

The two planes were placed out of bounds of the atomic cloud with full crews on board. Both aircraft were in the air when they landed after their atomic flight, it was thought. The first B-29, which was destroyed, was the 20th aircraft to be destroyed in the "washed down."

Search Cloud Planes Find Atomic Bomb

The planes left Kwaijalein at 8:30 o'clock last night on a dramatic assignment: to find the atomic bomb cloud in the middle of the lagoon. They were to fly through it to collect samples in precipitation canisters.

One B-29 was commanded by Maj. Claude R. Gathright, 27, Val Alto, Tex. The second plane was commanded by Maj. Allen B. Rowlett, 30, Val Alto, Tex.

B-29's plans found the cloud quickly at 25,000 feet 13 hours after the atomic attack. The planes entered the atomic storm.

Heavy Air of Tension Hits Chinese Area

NANKING, July 2 (AP)—Suspense with the possibilities of a fused atomic bomb hung over China today.

Through failure to reach an agreement for ending the country's civil strife, an aggressive act now by either the government or the communists could be the spark to set off a full scale conflict.

The government extended its orders against military action after the 15-day formal truce expired at noon Sunday, but this still left wide the way for possible resumption of civil war.

Most observers were of the opinion that this ominous situation could not long endure.

North China was the nation's powder keg. Both sides agreed that settlement of problems in Manchuria was simple compared to the complexities for reaching an agreement covering disputed north China points.

The problems involve the government demand that the communists evacuate certain areas of Shantung, north Kiangsu, Jehol, and Chahar provinces. The communists agreed to certain evacuations providing that the local governments they established remain in control of those areas.

It was explained that Rupert residents are now garbed "western style" and that Jake Wall and Bruce Rogers have roped persons on the street without the proper rodeo dress.

Application of weed-killing chemical at Twin Falls municipal golf course means golfers won't have to spend so much time trying to distinguish between dandelions and golf balls. Speaking of the big boom at Buhl, have you heard of the big boom at the Twin Falls municipal golf course?

If not, we'll enlighten you by saying that the biggest boom to golfers of late was Monday night's action by the Twin Falls city commissioners entering contracting with the Bacon Tree-killers company to spray the course for dandelions, as well as other weeds.

For the cultivation of non-golfers, it is the dandelions that have been ruffling the tempers of golfers trying to find round golf balls. As for the circular dandelions, as for golfers, no further explanation is necessary, as it may stir dark memories of ball hunting.

Although the golf course project is the first, it is only one phase of a program to have all trees and vegetation of the city sprayed for both weeds and insects. According to O. H. Coleman, parks commissioner, spraying of trees at the city park is scheduled for July 5, with special emphasis on eradicating the elm bark beetle.

Spraying of the 60-acre golf course, including weeds along ditches, entails about 1,000 gallons of 2-4-D solution, which is death on dandelions and other noxious weeds, according to Ralph Bacon, who supervised the work.

Three spraying machines were used—two 24-foot boom type sprayers and one truck-mounted tank providing 600 pounds pressure for two handlings. The chemical used

5-State Meet Seeks School For Farragut

SPOKANE, July 2 (AP)—Representatives from five states Monday authorized the appointment of a committee to do everything possible immediately to convert the Farragut, Ida., naval center into an educational institution.

Reeled discussion preceded the action of a resolution asking that the present "freeze" order postponing dismantling of the huge center be continued until Oct. 1. The same day meeting ended immediately after the resolution was approved.

The resolution would the representatives from Idaho, Washington, Oregon, Montana and Wyoming recognized "the need for more educational facilities for veterans of the northwest" and the adaptability of the facilities at Farragut to such an institution. It included no specific instructions to the committee on what plan of operation should be recommended.

At one point in the discussion, Harry Wood of Boise, Veterans of Foreign Wars representative, declared that the University of Idaho board of regents was "literally reeling" their responsibilities to the veterans. He urged that a special session of the Idaho legislature be called to provide funds to set up a veterans' university at the center.

Julius W. F. McManis of Coeur d'Alene, Ida., president of the board, said that Idaho was unable to finance the project alone and suggested that other western states join in setting up a non-profit corporation to operate the center as an "overflow" university.

There are about 250,000 more American families now than in 1940, the census bureau estimates.

Russians Cut Prices—Only For Luxuries

By JAMES D. WHITE
SAN FRANCISCO, July 2 (AP)—As the third atom bomb went off, Soviet Russia loosed an economic bomb which may or may not have been intended as such.

Cutting prices nationally on industrially manufactured goods by 40 per cent is news anywhere, and it may have been suspected in Moscow that it would be particularly noteworthy in this country where price controls have ended officially with the CPA.

As a matter of fact the Russians have been talking about cutting prices for some time, and the Russian people no doubt will consider that Kremlin promises are being made good.

Prime Question
An important question is: How much have Russian prices been cut in relation to the buying power of the average man?

According to recent reports from Moscow correspondents, real buying power in a large measure is determined not so much by how much money a Russian has to spend, but by how many ration points he has. Ration allotments vary according to the consumer's position in the work each man does. A scientist is treated in the same bracket with the highest officials.

You buy rationed goods—for points and money—in stores where prices are kept low. The average man has been able to live on the ration points he had to spend—not too well, but he could live.

Luxuries Held High
If he had any money left over he could spend it in special commercial stores where goods were not rationed but where prices were very high—beyond the reach of many.

It is in these special stores—where prices are high but no ration points are required—that prices on manufactured goods have been slashed an average of 40 per cent.

This means those able to afford luxuries and extras can afford them, and that those who haven't been able to afford them now can get some of their extra money.

Farmers to Air Prices for 2,4-D

A county-wide meeting of Twin Falls county farmers will be held at 8:30 p. m. Wednesday at the district courtroom. It was announced by John C. Gimes, county noxious weed control bureau supervisor.

He said the purpose of the session will be to discuss the price of the 2,4-D weed killer, county handles, and the meeting may result in lower prices of 2,4-D for the farmers.

The present county-wide price is \$4.70 a gallon for the 50 per cent solution, 40 per cent solution, and no prices have been announced for the new 33 per cent solution, or 60 per cent powder the county will sell.

Critics urged all directors and officials of the county weed districts, and all other farmers interested in 2,4-D and weed control, to attend the meeting.

On the Networks

NEW YORK, July 2 (AP)—Only one conclusion can be drawn from the broadcast of the fatal atom bomb: The last full day of the war was over.

The boom—sound effect to have been supplied by the blast—last night's program, it was downward but by atmospheric conditions, the program was not as good as American networks. To most listeners the broadcast was no different than the last day of the war.

Solon Tosses Payment Plan To President

WASHINGTON, July 2 (AP)—The tough political question of some \$100,000,000 in proposed terminal leave payments for 140,000 war veterans, passed at President Truman today by Sen. Edwin C. Johnson, D. Colo.

Johnson instructed clerks of the senate military committee to obtain an immediate report on the terminal pay bill from the budget bureau, the White House's fiscal spokesman.

Previously the budget bureau had informed congress that the terminal pay plan was "not in accord with the program of the President."

The house ignored the veto to pass the bill by an overwhelming 319 to 0 vote to give all wartime enlisted personnel the same terminal leave pay granted officers.

"Let's get the President's views on the measure as it now is revised," said Johnson, active chairman of the military committee.

The senate resolution would eliminate cash payments for accumulated leave for both men and officers after Sept. 1. It would require that leave, accumulated at the rate of 2 1/2 days a month, be used up during the current year or lost, with a limit of 30 days upon accrued leave.

Prolet Limitation
This limitation drew protests from both the war and navy departments at a hearing today.

Rep. Clegg, R. Pa., army deputy personnel chief, said the senate provision would be a "discrimination" against military personnel.

He said that over a period of years a civil service worker can pile up "working days" which amounts to as much as 135 calendar days, while army department foreign service workers can accumulate up to 180 days leave.

Oscar Everson Will Head Weed District
Oscar Everson was elected chairman and Edin Noli secretary at the organization of county weed districts No. 9 Monday night at Alvord east of Coeur d'Alene.

Directors were elected from each of five zones in the district. They were Everson, 1; E. H. Penber, 2; Oscar Noli, 3; Frank Chandler, 4, and Bill Kerner, 5.

Thirty-two members attended. Everson acted as temporary chairman and Leonard Lett as temporary secretary at the start of the session.

It'll Soon Be Rodeo Time Again!

With the Twin Falls rodeo just around the corner, members of the sponsoring Frontier Riding Club, Inc., and Twin Falls county sheriff's mounted posse are busy putting final polish on their steeds and also on their riding skills. These club members are shown here in action as they rested after a workout. At top, Lois Sheehy (foreground) and Ruth Van Engelen are taking the hurdle, while Mrs. Creath Barnard (background) is the same rider on the C. R. Nelson ranch near the Snake river canyon rim. Vets Told to Go Directly to Bank
Veterans wanting to obtain GI loan should go directly to a bank, savings and loan association or other lending agency, Warren C. (Dick) Norman, veterans administration contract representative, advised Monday.

He stressed that they should not go to the VA office, but that it does not make the loan but guarantees to the bank a certain portion of the loan. Processing of the loan through the veterans administration is handled by the lending agency.

Human advised veterans not to rush into any venture but to have definite plans formulated. He also reminded veterans that they must submit the official discharge or separation papers to the lending agency at the time of applying for a loan in order to establish credit.

High Turnout Expected for This Weekend

NEW YORK, July 2 (AP)—The first practicing independence day in five long years is expected to skyrocket pleasure travel this week-end to record proportions as travel-hungry Americans set out overland, in the air and on the sea in quest of recreation.

Bert E. White, vice-president of the American Express company, said resort hotels from coast to coast are displaying "no vacancy" signs but countless requests for accommodations were pouring in.

Capacity Bookings
Most of the major airlines, reporting capacity bookings for weeks ahead, were forced to turn down thousands seeking to get away over the holiday period.

Railroads say the Pullman situation is not too good for long hauls. Accommodations for short runs, however, are a little better because of the increased number of cars on the road since the lifting of gasoline and the rationing.

No Record
The American Automobile association said Fourth of July week-end motorists, deprived of millions of war-scrapped cars this year, will exceed in numbers the record independence day weekend of 1941, when 30,000 took to the road.

However, the AAA predicted 21,000,000 of the nation's estimated 25,000,000 motor vehicles will jam the highways, traveling farther and over a longer period.

The National State Council, Chicago, estimated that motorists will chalk up more than 4,000,000,000 miles over the four-day holiday week-end.

Plaintiffs Given Judgment in Case
Judgment was filed Monday in a civil suit instituted in district court here Oct. 9, 1939. The judgment was entered by District Judge James W. Porter.

The judgment favored the plaintiffs, Otto Krueger, Perry C. White and Walter Norris in their suit against the defendant, William Wecker.

The plaintiffs were given access to the right-of-way canal ditch on Weekends, 40 acres one mile northwest of Kimberly. Title also was quieted to the property of the plaintiffs and defendants.

Chapman to Keynote Convention of Demos
BOISE, July 2 (AP)—The Democratic state platform convention will be held in Boise July 23 instead of July 23 as originally scheduled, executive secretary J. A. Keeler said today.

Keeler said the convention date was set back to July 29 because of a shortage of hotel accommodations on the original date.

Marshall Chapman, Twin Falls attorney who has been prominent in Idaho Democratic affairs for many years, will deliver the keynote address, State Chairman D. L. (Dave) Bush announced.

Keeler said the convention date was set back to July 29 because of a shortage of hotel accommodations on the original date.

Acreage Less, More Farms in Local County

WASHINGTON, July 2 (AP)—Twin Falls county has moved a trend contrary to most of the nation by reporting a reduction in farm acreage, but an increase in the number of farms, in the five year period between 1940 and 1945.

The United States census bureau said a survey showed 2,947 farms containing a total of 362,442 acres in 1945, compared with 2,717 farms of 370,033 acres in 1940. The average size of the farms decreased from 122.2 acres to 123.7 acres.

The national trend since 1940 has been toward fewer farms but more acreage.

Crops produced generally increased in the five year period. Exceptions included production of sugar beets, down from 134,181 to 78,283 tons; apples, 30,354 and 13,087 bushels; peaches, 23,101 and 19,241 bushels; and 104,874 bushels, and corn, 152,722 and only 10,882 bushels.

Production of milk increased from 9,353,577 to 12,312,258 gallons; spring wheat from 94,534 to 1,159,225 bushels; field beans from 85,592 to 1,128,537 100-pound bags; and

peas from 28,065 to 17,112 100-pound bags, and potatoes from 2,300,513 to 2,628,172 100-pound bags.

The number of hogs declined from 15,613 to 8,498 but most other livestock increased.

First Potatoes
GLENN HENRY, July 2 (AP)—The first carload of Idaho potatoes for the 1946 season left here today for out-of-state consumption.

They were shipped by the Greater produce company and were dug in the potato fields nearby, sorted, washed, loaded and shipped within 24 hours.
