## 300 Chinese Troops Kill Four Marines in Ambush Attack on Truck Convoy

By TOM MASTERSON PEIPING, July 30 (P)—Three hundred Chinese, some wearing the bluish green uniforms of communists, killed at least four U. S. marines and wounded 19 others with automatic weapons, rifes and grenades during a violent four-hour attack on a truck convoy of 100 leathermecks, eyewitnesses related today. A search is being made for other marines, believed to be still missing. ### GROWING GOVERNMENT

Though Negross voted for the first time in Georgia's Democratic primary, the unhappy instance of "minority rule" still prevails. ## A STATEMENT FROM SAFEWAY **REGARDING THE NEW OPA BILL**

At Chevron Gas Stations

We have tried to keep you informed on what Safeway would do about food prices if there were no OPA Price Controls. Now that OPA has been revived, we want you to know about our position under the new bill.

Few consumers realized the enormous task required of the merchant in complying with the hundreds of technical details of OPA regulations.

There are many provisions in the new OPA bill which make it even more complicated than the old law and which may result in a lot of confusion among producers, consumers, merchants and OPA administrators.

Safeway is proud of its  $4\frac{1}{2}$  year record in living up to the letter and spirit of price control from January 1942 to June 1946, and Safeway will make every effort to comply with the new law. However, if we make some mistakes, we believe you will understand that they are not intentional and that all Safeway people are doing their utmost to comply and at the same time procure and deliver to our customers the maximum amount of food at the lowest possible prices.

## MEAT, POULTRY, BUTTER AND EGGS

Meat, Poultry, Butter, Eggs and other dairy products are the principal items in our stores which continue without price control but are subject to possible recontrol after August 21st.

We believe Congress made a wise decision in providing for a continued free market for these commodities. From our knowledge and experience with meat and dairy products, we believe that consumers and producers alike will be benefited in the long run if meat and dairy products are not recontrolled. A free market is the only way to assure a continuation of adequate non-black market supplies at non-black market prices.
