CHICAGO, Sept. 4 (AP)—Seventeen-year-old William Heirens, a "jeep-rooter" sexual perversion, today pleaded guilty to the murders of Suzanne Brown, Mrs. Josephine Rose and Miss Frances Brown.

The swarthy, bushy-haired university sophomore stood quietly, showed no emotion as the clerk read the long list of 26 burglary, assault and robbery charges against him. To each he pleaded guilty.

When the clerk announced the indictment accusing him of the brutal murder of Suzanne Degan, Heirens turned his hands, his lips quivered and he responded haltingly:

"Guilty."

# Bean Boost to Swell Income of Producers

Magic Valley bean growers will receive substantially higher prices for their white and red bean crops, now in process of harvesting, under Tuesday's agriculture department directive ordering OPA to increase ceiling prices on the 1946 crop.

The increase will amount to many thousands of dollars on the extensive bean crop grown in this area.

Growers will receive approximately \$120 net above their 1945 net receipts per hundredweight on white beans; about \$20 more per hundredweight on red beans.

**Very Cheery News**  
James H. Shields, Idaho bean dealer who is Idaho member of the bean advisory committee of the OPA and the national and marketing administration, said last night that the boost in bean prices "is very cheery news" to growers.

Shields, who attended the PMA-OPA bean hearing at Washington two weeks ago, was advised of the price increase in a telegram yesterday from D. E. McCarry, acting chief of the bean section, PMA. The wire said:

"Acting secretary of agriculture has officially filed new price recommendations on Idaho beans, raising the ceiling on white beans from 50 per hundred over 1946 prices to 60 per hundred over 1946. Idaho beans were increased 10 cents."

This actually means, it was explained by Shields and Broadhead, that the grower will not approximately \$100 per hundred on Great (Continued on Page 2, Column 4)

# Yugoslavia Warned U.S. Expects Indemnity Pay For 5 Airplanes, 2 Planes

WASHINGTON, Sept. 4 (AP)—The United States handed Yugoslavia a blank bill for damages for a sharp notice that it expects Marshal Tito's government to pay the full amount when it is written in.

If Tito agrees, this country stands ready to write "final" to the incidents in which two unarmed American transport officials were forced down by Yugoslav fighters at a cost of five American lives.

Should Tito refuse, the United States might have to draft off its 13 day old threat to take the case before the United Nations security council.

Most American officials concerned with the matter appeared to believe Tito would agree to indemnity terms, following his recent expression of regret over the incidents and assurances that they would not recur.

But no one was willing to predict for the record the Yugoslav premier's reaction.

## Writer Finds Arms Sources In Palestine

By CARTER L. DAVIDSON

JERUSALEM, Sept. 4 (AP)—Arms for the military organizations of the Arabs of Palestine are pouring into the hands of willing warriors these days from over the border, out of hiding and through the black market.

Complete evidence of all three sources of arms and ammunition for burgeoning military movements is visible in the Arab quarters of the big Palestine cities and in small Arab villages.

Supply Not Impressive  
Supplies now in the hands of three separate military organizations—Najala, Fuluwah and Jawahlah (Arabic words for helpers, youth and scouts, respectively), are not impressive.

But supply streams are deepening fast.

At present Najala's 5,000 men are about half armed. Fuluwah's estimated 12,000 about a third. Jawahlah, the Moslem brotherhood's military branch, possesses weapons not learned, but they are believed to be comparatively few.

What guns there are in the hands of the Arabs are far from the quality and quantity the British army has been finding in the caches of the Jewish underground. They are mostly revolvers, a few rifles and fewer machineguns. And they are less than half as efficient, some dating back to the days when the Turkish army occupied Palestine.

During World War I, the British army occupied Palestine.

Principal Source  
The principal source of supply appears to be Arab tribesmen living just over the Palestine border in Transjordan, Syria and Lebanon.

Arab sources have been active in the past week of their own purchases in tribal villages, such places as the Jebel Druze and the towns of Transjordan, where private ownership of guns without license is legal.

The second important source is the hiding places of guns stored by Arabs in isolated villages. They are after the 1938 uprising. Hundreds of revolvers and rifles are seeing the light of day again after being buried when peace was restored following the four-year rebellion.

The Arabs and fastest increasing source of supply is the black market to which British military officers and men stationed in Palestine contribute.

## And Now It's Triplet Calves!

Magie Valley is always full of surprises, but even the Times-News research department was startled to learn that triplet calves had arrived near Jerome. Investigating, the department found it to be a fact, and here they are. Now slightly more than a week old, the calves couldn't figure out what all the excitement was about and are here giving the photographer the once over. Their proud owner is Roby Church, who lives a mile south and a mile west of Jerome. Mother of the three small huffers is an American strain Shorthorn. She's not particularly impressed by what happened. (Photo by John Brown—staff engraving)

## No. 1 Legion Award Given To Post Here

At a general membership meeting last night, Larry Laughridge, commander, officially accepted the James Harris memorial trophy, awarded the local American Legion post at the last state convention.

The trophy, presented by U. M. Terry, past commander, is awarded a post each year by the state department for outstanding civic achievement.

The trophy was awarded the Twin Falls post for the many civic activities in which the post membership participated under the guidance of Terry. Among the achievements listed in the accompanying commendation was mention of the veterans' housing project.

Twin Falls was the first town in the United States to receive government emergency housing through the government.

Max Brown and Terry reported on the state convention.

Robbins elected senior vice-commander at a special election to fill out the unexpired term of Ed Benoit who is attending college in New York.

The post voted to disband the Boy Scout troop following the resignation of Bill Nelson, Scoutmaster. The reason forwarded for the disbandment was that the sons

of the World War I veterans are for the most part too old to be Scouts and sons of the veterans of the last war are still too young.

The post went on record as favoring an increase of \$100 over the present \$200 maximum for veterans on-the-job training. The post is supporting a resolution passed at the state convention, which would raise the total income limit to \$300.

Favor Supervisor  
Following a report on the youth recreation council, made by Robbins, the post passed a resolution to support the council's plan to hire a trained recreation supervisor and instituting a planned recreation program.

Passed also was a resolution to obtain a definite estimate on the cost of rebuilding the Legion hall. The proposed improvements are an added ceiling, larger bandstand and the installation of a snack and beer bar. The membership voted that a snack bar should be installed.
