Navy Patrol Plane Flies Non-Stop From Australia to Ohio for Distance Record

COLUMBUS, Ohio, Oct. 1 (AP)—The Transient Turtle, navy patrol bomber, landed at Port Columbus at 12:22 p. m. (EST) today, completing a record-breaking non-stop flight of 11,237 miles from Perth, Australia. The flightman elapsed time was 55 hours and 18 minutes. The twin-engine Lockheed Neptune P-3V, carrying a crew of four men and a baby kangaroo, thereby exceeded by 3,221 miles the non-stop mark of 7,916 miles set last November by the army's B-24 "Dream Boat."

Flying on instruments, the Transient Turtle roared over northern

Ohio early today. The ship commander reported to the Ogden radio tower that the two-engine navy plane had been flying on instruments ever since it passed over the coast of California last night.

The plane flew at 12,000 feet in "pretty rough weather," the Ogden tower operator reported. The operator said there was a low ceiling over the whole western area.

On hand to greet the long-distance flier here were members of the Columbus naval air station plus delegations of navy officials who flew here from Washington and

Chicago, headed by Adm. Richard W. Ewen, commanding officer of the naval air reserve training station at Glenview, Ill.

The flier, headed by Comdr. Thomas D. Davies of Cleveland, presented the pilot of the Transient Turtle from checking its fuel supply but he radioed the Salt Lake City tower that he had a "reasonable amount."

Seven Get Prison Terms, Three Acquitted in Trial By War Crimes Tribunal

NUERNBERG, Oct. 1 (AP)—The international war crimes tribunal today decreed death on the gallows for 12 leaders of the Adolf Hitler gang, sentenced seven to prison, and—with Russia dissenting—acquitted three defendants. The court, after sentencing to death Hermann Goering, Joachim von Ribbentrop and 10 other Nazi henchmen, announced that Russia might get custody of Fritzsche, whom they arrested in Berlin and delivered to Nuernberg for trial.

Judges of Britain, the United States and France joined in the majority opinion, which now will be carried out by the allied control council, representing all four allies.

Legal officials of the American military government said that if any of the three Nazi leaders acquitted were returned to the U. S. zone of occupation they probably would be tried by German courts under the zone's denazification law.

Blase Gunman Admits Three Police Deaths

MOUNTAIN HOME, Oct. 1 (AP)—A 23-year-old gunman who claims a 90.5 average in hitting target buildings, admitted today he shot and killed three police officers in Seattle, Mo., and Tulsa, Okla., Sheriff Robert Love said today. Love said the gunman, who is known as Victor Everhardt, was quoted by Love as saying "I'll wait until I get back to Tulsa, Mo., but they'll never take me back to Oklahoma."

Everhardt, who was arrested in Twin Falls at the climax Sunday of a 100-mile non-stop automobile chase, after he robbed two banks and kidnapped Donald Smith, Mountain Home railroad station agent, before stealing the latter's car.

Love said Everhardt made these statements during questioning.

The 20 Colt revolver found in the man's pocket was taken by Everhardt from Night Marshal J. R. Wallace after he was shot by the police during a service station robbery last Sept. 1.

Everhardt used the revolver in an exchange of shots with Tulsa police officers last Sept. 12, patrolman B. R. Cornac was slain and patrolman Ben Johnson was fatally wounded in the shooting.

The slayings occurred in company with James Neely, who was jointly charged with Everhardt in a murder warrant at Tulsa, but Everhardt accepts the responsibility for the slayings. Neely is in custody in Tulsa.

Love said throughout the brief questioning, Everhardt frequently referred to his past marksmanship and "was quite proud of a 90.5 average in hitting buildings."

Tulsa officers notified Love today that they had obtained extradition for the slayer.

Shopper, Given Gun and Shells, Stages Holdup

BOISE, Oct. 1 (AP)—A pawnshop window-shopper who wanted to look at a gun, then wanted to look at some bullets, then he placed the place up was nabbed by police two blocks from the establishment.

The man walked up to Store Manager Herman Zukerman yesterday and inquired.

"Can you show me some automatic pistols in the window?"

"Sure," said Zukerman automatically.

"Give me shells for this automatic," asked the man.

"Sure," replied Zukerman, giving him three shells.

Shells inserted, the man swung the gun around and said:

"This is a holdup, give me some money."

Zukerman instructed a clerk to hand over \$25.

Patrolman Rex Walters overtook the man from the store and took him to the police station where further action is pending.

Police Chief George Haskin said a driver's license in the man's possession was issued to Donald Williams, 31, Las Vegas, Nev.

4 Locker Clubs Shut Doors at City Order

When operators of four Twin Falls locker clubs decided to deny under the claim made by Police Chief Howard Gillette that liquor had been sold "by the drink" in their establishments, city commissioners last night ordered revocation of their locker club licenses and forfeiture of their individual \$2,000 bonds.

Within half an hour after this action was taken, informed officers visited the locker clubs and picked up the city locker club licenses. Although the proceedings were of a civil nature, the result was closure of the clubs, as operation without the licenses would be illegal. Locker clubs affected were the Club Madrid at the Perrine hotel, the Log Tavern, the Derby lounge at the Park hotel and the Kluge-Kluge, Monday night's action by the council followed a hearing called by the city.

At the hearing, Gillette presented the club operators, by purchase of federal liquor stamps, had provided proper face evidence of intent to sell liquor and that, in doing so, were violating both state liquor laws and city ordinance 663 governing licensing of locker clubs.

The chief also asserted that "it is common knowledge that these clubs are selling liquor by the drink." At that time, the hearing was called for last night to provide the operators an opportunity to show cause why their licenses should not be revoked and their bonds forfeited.

Explains Purpose

City Attorney J. R. Blanford opened the session by a brief review of the matter and the purpose of the hearing.

Attorney W. L. Dunn, who indicated that he was representing John Grisham, operator of the Club Madrid and the Log Tavern, took the floor to question the nature of the proceedings, saying, "What are they to answer to?"

Attorney Blanford replied that they were to answer to the contention that they had been selling liquor over the bar.

He to the court said, "If the council has made up its mind to revoke some licenses, that's what they're going to do."

Free Men of Nuernberg Want Rest, Oblivion, Lebensraum

NUERNBERG, Oct. 1 (AP)—The three free men of Nuernberg, Hjalmar Schacht, Hans Fritzsche and Franz von Papen, today expressed their desire that they want "rest, oblivion and plenty of space."

The trio met with correspondents shortly after being given their freedom from the Nuernberg prison camp. Schacht, his hands locked behind his back, his head bowed and a rather dazed expression on his face, walked into the Nuernberg press room, a free man for the first time in 10 years.

He said that his one desire now was to be reunited with his wife and two children. He expressed hope that he would "never see the press again."

Von Papen was equally eager to leave the spotlight, and Fritzsche had little to say.

Asked where he would be tonight, he snapped, "That's what I would like to know."

Those acquitted were von Papen, the old gray diplomat who led in the Reichstag, announced that the German finance wizard, and Fritzsche, deputy propaganda minister for Paul Joseph Goebbels, a suicide.

Grand Adm. Karl Doenitz, who surrendered Germany, and was further in the last days of the war, received a ten year sentence.

Doenitz, a former youth leader, and Albert Speer, German munitions minister, both were sentenced to ten years in prison.

Constantin von Neurath, former German foreign minister and later "protector of Bohemia and Moravia," was given 15 years.

Lord Justice Geoffrey Lawrence, presiding judge, announced that the Soviet member of the tribunal "desires to record his dissent" from the decision in the case of Schacht, Fritzsche and von Papen.

Blast of TNT Minor Against Test of Bomb

By MURRAY M. MOER

ARCO, Oct. 1 (AP)—A half million pounds of TNT—enough to fire a broadsword by 800 of the navy's heaviest guns—was exploded today with a "bang" that scared faint when compared with this summer's A-bomb blast at Bikini, attended by this writer.

The explosion was set off to determine if the present standards of testing ammunition are safe. Apparently they are because 1,500,000 pounds of additional powder within 400 feet of test "island D" did not go off.

The test charge, in a concrete, steel and earth magazine at the navy's Arco proving ground, was about 1,500 feet broad at the base and had ascended through the natural clouds to about 3,000 feet. It seemed to mushroom slightly at the top, somewhat like the atomic bomb's unique cloud.

Within one minute after the charge was fired, the cloud was about 1,500 feet broad at the base and had ascended through the natural clouds to about 3,000 feet. It seemed to mushroom slightly at the top, somewhat like the atomic bomb's unique cloud.

Spud Shipments Hit 6,860 Cars

IDAHO FALLS, Oct. 1 (AP)—Some 6,860 freight cars of potatoes already have been shipped from this season, Jerry W. Orr, representative of the production and marketing administration, said today.

Of the total, 2,275 carloads of spuds have gone this season from eastern Idaho, 1,400 from the Rupert-Ruhl area, and 3,181 from all other districts.

Power Rate at Minidoka Cut

BURLEY, Oct. 1 (AP)—A 15 per cent reduction in power rates for the Minidoka project was announced by Sub-B. R. Maxson upon receipt of word from Acting Secretary of the Interior Warren W. Gardner that new rate reduction would be approved by the interior department and is effective immediately.

The interior rate schedule for contractors purchasing electric energy was listed by Maxson as follows:

Demand charge, per month, 90 cents per kilowatt and billing demand, energy charge, per month, on the first 200 kilowatt hours, one-half cent per kilowatt hour and one quarter cent for the remainder energy used.

This rate applies to all energy sold on the project, the superintendent stated, exclusive of power used by the Burley Irrigation district for pumping at its first, second and third lift pumping plants.

Only one rate will be charged and the same rate applied to energy used for heating in the project.

Heat distributors will no longer be required to submit bills for heating over separate circuits.

Idahoan Killed in Colorado Fracas

DENVER, Oct. 1 (AP)—A marine veteran of the south Pacific was held today in the city of Denver in the fatal shooting of a 25-year-old physician and educator in the cocktail lounge of the historic Brown Palace hotel.

Detective Sgt. Charles J. Burns said today the victim was Donald Smith, 23-year-old Grand Junction, Colo., city policeman. The dead physician was Dr. James Mullen of Pocatello, Ida., who arrived here yesterday to join the University of Colorado faculty.

Dr. Mullen, son of Mr. and Mrs. William J. Mullen of Pocatello, was to have begun duties as radio therapist at the University of Colorado medical school today. He was sitting alone a short distance down the bar from the dispatch.

Probers Seek Delay Causes In Home Plan

WASHINGTON, Oct. 1 (AP)—Senate war investigating committee today is digging into reasons for the delays and hindrances to new home construction.

Senator Ferguson, R. Mich., told reporters today that he and Chairman Kilgore, D. W. Va., had reached an understanding on the home building investigation, and that they already are doing "spade work" preliminary to formal hearings later.

"What we have got to do is find out what are the bottlenecks and what can be done to break them," Ferguson added.

The housing situation is the country's most serious problem.

One of the committee's candidates for reelection, left for West Virginia immediately after the committee completed its scrutiny of the Canal project yesterday.

This hearing was held primarily to learn why the joint chiefs of staff recommended in October, 1943, that the \$135,000,000 project for development of an oil field in northern Canada should be completed, although high civilian officials wanted to drop it. The reason given at the time was projected military operations which had to be kept secret.

FLASHES OF LIFE

By Associated Press

MEATLESS CHICAGO, Oct. 1 (AP)—The current meat shortage is a lively topic among the 2,000 members of the American Meat Institute at their annual meeting here.

Tonight for the first time in 41 years there will be no meat served at the institute's annual banquet. The meat men will eat turkey.

SUPPORT

CHICAGO, Oct. 1 (AP)—An automobile crashed into the basement of Cornelia Ippel's home in suburban Harvey and it broke the gas main, the water main, smashed the furnace, damaged the sewer, moved the house's foundation out of line and provided the only pro that kept the house from toppling.

Ippel said the car can be removed to raise the house and build a new foundation.

Meat Dearth Brings Threat of Seizures

WASHINGTON, Oct. 1 (AP)—The worsening meat shortage brought an official threat today of government seizure of all market-bound livestock.

That unprecedented step was described by Secretary of Agriculture Clinton F. Anderson as "a very real danger that day by day becomes more of a possibility."

Anderson's assertion to a group of New Mexico cattlemen coincided with his formal announcement through the agriculture department here that meat must remain on the government's list of scarce farm products.

At the same time Anderson erased from the list—and from price control—all canned fruits, juices, mince, sausages and corn, along with fresh and frozen salmon, oat cereals and rum.

What lingering hopes the meat industry might still have had that the way might be cleared for lifting OPA ceilings in a bid to farmers to spread their stock in market apparently were dashed by the announcement here.

And Anderson made the point more emphatic in his Albuquerque address yesterday by declaring that any new decontrol period would simply lead to "feast and then famine."

Pleading for "cooperation in trying to bring meat back to the American people," at legitimate prices, the secretary asked the executive branch of the New Mexico Cattlemen's association "what do you have to suggest?"

It was not immediately clear here whether the requisitioning that Anderson mentioned as "a very real danger" would be signed to channel more meat into the channels or merely to assure the armed services and hospitals of a greater supply.

Anderson held out still another warning to the stockmen—that the new stamping fight against livestock which has contracted to handle the imports Argentine beef into this country might be reopened by public demand.

Robber Pair Eludes South Idaho Search

Although Magic Valley law enforcement officers joined in southern Idaho search for two young gunmen late Monday night and early Tuesday morning, the pair apparently temporarily eluded authorities.

Throughout this section there was road blocks in an effort to trap the two men who were later fleeing in a stolen car taken after they had bound and robbed a farm couple, Mr. and Mrs. O. C. Christensen, five miles west of American Falls.

At 8:40 p. m. Monday, local officers received a call from the Rupert sheriff's office that the robbers were heading this way, and shortly afterwards a car believed to be the stolen machine, a 1937 blue Chevrolet sedan, was reported seen at a Hazleton filling station.

Later the numbers of the car, which carries two plates, are Idaho 2P-52 and Washington A-3878.

One of the "young men" described as 15 or 16 years of age, light complexion, extremely light blond hair and under 5 feet, nine inches tall.

The other is 22 years old, dark, weighs 150 pounds, is five feet, eight inches tall, and was wearing a light jacket and service button.

Both were described as "armed and dangerous."

At Rupert they stole a Zenith sedan, Philco table radio, two suitcases, four double blankets, two single blankets and a pair of cowboy boots.

Klan-Bund Links Shown by Probes

WASHINGTON, Oct. 1 (AP)—The justice department said today it has uncovered evidence establishing links between the Ku Klux Klan and the American Bund from 1937 to 1941.

An official who has read the evidence said it "definitively proves that the two organizations collaborated to promote racial and religious discrimination prior to the war."

Just when the bond election for the new Twin Falls county general hospital will be held depends upon how soon the Edward L. Burton company, Salt Lake bonding firm which has contracted to handle the details, can make arrangements.

Kenyon Green, county commissioner, said that the election will be held at the Monday afternoon meeting of the commissioners, Green said that the election for the bond vote has been "tentatively set" for November 5, along with the general election.

Fur Show

Glorious luxuriant furs for all seasons from the Hudson Bay fur company in Salt Lake City, shown through the courtesy of Mrs. C. H. Hinton, president of the Twentieth Century Club, which opened the winter season of the Twentieth Century Club.

The parade was presented Monday afternoon in the Venetian room of the Elks lodge and was under the direction of C. D. Creel, general manager of the Hudson Bay Fur company of Salt Lake City.

There were \$50,000 in furs, displayed at the show which was highlighted by the modeling of a natural wild Labrador mink valued at \$5,700. The fur was modeled by Mrs. John Wells and was displayed over a gown of black jersey with gold piping around the penum and accented by a gold belt.

Mr. Stanley Phillips, president of the club, officiated at the opening session.

Prior to the program Creel presented an address on the "Life of Your Fur." He traced the fur from the traps through the processing stages to the coat. He pointed out that honesty and integrity were necessary to insure the satisfaction among customers.

He told the women that they should know their fur in choosing a coat. "Give your coat the utmost care as this generally insures the life of the fur," Creel stated.

Mrs. C. Vern Yates was chairman of the program for the afternoon.

The meeting also honored the president and received general guest day. Encores were presented the next president.

Edith Corley, Roper, was the vocalist and Max Lloyd provided a violin number. Mrs. Nellie T. Olson accompanied the musicians.

Leguineche to Speak Oct. 9
Felix Leguineche, Democratic nominee for congress, will address a public meeting in Twin Falls Oct. 9. Leguineche, Twin Falls county Democratic chairman, announced Monday.
Leguineche will spend most of the week in Magic Valley and also will speak during the afternoon of Oct. 9 at Castleton and Piler.
Democratic state chairman, Dan Cavanagh, Twin Falls, said that he party will place strong emphasis on its program for betterment of the schools through making available available teachers salaries and for school equipment and buildings.
Proof that the Republican platform plank on education and teachers salaries is mere lip service can be seen in the continued record of Republican dominated legislatures, Cavanagh said.
"In the 1939 session Dr. C. A. Robins, now Republican candidate for governor and then a leader in the Republican dominated state senate, voted for House bill 417—an act which robbed the school districts of Idaho of one to two million dollars a year in revenues."
"The bill set aside the 1935 law passed by the Democratic legislature, which placed the school tax on the state income fund, mine license tax, liquor fund and beer tax into the public school income fund. The practice had been to appropriate from the general fund to the school fund in addition to these special taxes."
"Thus all of this special tax money was lost to the schools and only the general fund appropriation remained. The effect of this Republican measure was to cut school funds one to two million dollars every biennium."
"The vote in the state senate was 17 Republicans and one Democrat for this school fund cutting bill and 8 Democrats and no Republicans against it. Dr. Robins was recorded as voting for the bill. Thus his proposition that he favors increased funds for schools are not borne out by the record."

Magic Valley's farm labor situation is "getting tighter," E. J. Macintosh, County Agent Jack P. Smith and O. J. Bellwood, assistant farm labor supervisor, declared Monday as beet harvesting got underway.
Macintosh said that possibly 80 Mexicans would arrive from Oregon Wednesday to help alleviate the shortage.
The Piler labor camp at the Twin Falls county fair grounds opened Saturday and all men are out working today, Macintosh said. A total of 80 Mexicans are stationed at the camp.
Burley received 148 Mexican laborers Saturday but Macintosh Monday received a phone call from Cassia County Agent Glen Boddy that "it isn't enough."
Macintosh said that all Mexicans at the labor camps are working Monday.
