His first hour was spent with Mr. Truman came in seven hours from the cold and snow of Kansas City into the warm sun and sunshine of Mexico.

The airport was transformed for the visit. Casas Aleman presented the President with an inscribed gold medal and parchment.

Mr. Truman was the first man to see the plane. He was met near the bottom of the steps by U. S. Ambassador Walter B. Reuther, who talked a few minutes with President Aleman and Foreign Secretary Jaime Torres Bodet.

Worst Winter Storm Rushes Through East

A furious winter snowstorm swept through northeastern states into Canada today.

It left at least 15 persons dead in the United States and 10 in Canada.

The storm—worst of the winter—buried villages and hamlets under snow, and in some cases, crippled electric power in numerous cities and towns, closed both urban and rural schools.

It was a little better in the West, where it brought rain and snow to shipping in the Atlantic.

It was a little better in the West, where it brought rain and snow to shipping in the Atlantic.

New England, upper New York state and lower Canada were hardest hit. The storm swept on from the north, and out of all electric power. On the coast, it was buried under 27 inches of snow.

Southern Vermont and Western Massachusetts had 22 to 30 inches of snow. Upper New York had 15 to 30 inches and the Canadian capital had 20 inches.

The storm was the worst since 1918, when it killed 100,000 people in the United States and 100,000 in Canada.

Transportation almost was at a standstill. Hundreds of automobiles were stalled and abandoned in snow.

Flights left several cities and the New York City airport was closed. The New York City airport was closed.

Senate Passes Bill to Outlaw Secondary Boycott in Disputes

BOISE, March 3 (U.P.)—A bill to outlaw the secondary boycott was passed 32 to 6 without debate today as the state senate tackled labor legislation—the major obstacle facing the 20th legislature as it heads for adjournment Thursday.

The measure, which goes to the house for action, provides misdemeanor penalties for anyone who attempts "to coerce or inflict damage upon" anyone who is not a direct party to a labor dispute. The law specifically prohibits the secondary boycott "by withholding patronage, labor, or other beneficial business intercourse, picketing, refusing to handle, install, use or work on particular materials, equipment or supplies."

Sen. Frank W. Harris, R., Caribou, chairman of the senate labor committee that sponsored the measure, declared "I understand it correctly. I am feeling nothing unfair or unjust in outlawing conditions of that kind."

Harris explained the secondary boycott works this way: "Assuming that I own a restaurant. I go patronize another restaurant that is involved in a dispute. Then the union that was involved in the labor dispute would take action against me either by striking, picketing or withholding patronage."

The senate also passed 31 to 6 a measure that redefines the term "labor dispute" in state law. Harris said the law defines it as "any dispute existing when 'one or more employees' are involved."

House 146 said Sen. Nellie Cline Stevenson, D., Bannock, "we haven't the words to express our gratitude."

"It is a pleasure to sign this bill," replied the governor, "because I believe we will accomplish something for the good of southeast Idaho and for the composing of a long standing difference of opinion."

Death for Draft Law on March 3 Recommended in Presidential Message

WASHINGTON, March 3 (U.P.)—The war department announced today it will discharge 100,000 non-volunteer men from the army by the end of June. Notice was sent to all domestic and overseas conscripts to start demobilization machinery in motion.

WASHINGTON, March 3 (U.P.)—President Truman today recommended that congress let the draft law expire on March 31.

In a message to the legislators, Mr. Truman advised that the war and navy departments will request re-enactment of a selective service law if they are unable to keep the army at a strength of 1,070,000 men.

He requested that the service be authorized to hire from funds already appropriated the necessary civilian help to offset any shortage of enlisted men if strength falls below the required level.

The White House dispatched the message to congress today. The President himself was flying to Mexico City for a three-day good will visit.

Next spring, congress extended the draft law until March 31 of this year and raised pay scales of enlisted men. The idea then was to see whether the armed services could get all the men they needed as volunteers.

The White House said the law need not be extended if a short term one so far as general future military manpower policy is concerned.

President Truman has repeatedly said that he wants some form of universal training law enacted eventually. He now has a commission of education and public health studying the question of what system would be best for this country.

Court Again Delays Miners' Case Ruling

WASHINGTON, March 3 (U.P.)—The supreme court today granted a government request that it rule on constitutionality of the Loea act, sometimes called the "anti-union" law, but again delayed a ruling upon the government's contempt case against John L. Lewis and the United Mine Workers.

The next opinion day of the court is Monday, March 10. The court could hand down its decision then or at any later date.

Expectancy of a decision today had been heightened by the two-week recess preceding the opinion session following the time for the preparation of rulings.

The government appealed the Loea act to the high tribunal from a decision by U. S. District Judge Walter J. La Bay in Chicago that the act is unconstitutional. James Bevel, president of the American Federation of Labor (AFL), had contested the law.

Appeal Taken Over
The supreme court was asked to take the case direct from Judge La Bay's court, thus bypassing the two-week recess preceding the opinion session following the time for the preparation of rulings.

Stan Musial Signs to Become Highest Paid Player in Cardinal Club's History

ST. PETERSBURG, Fla., March 3 (AP)—Stan Musial has ended his long campaign and will stay with the St. Louis Cardinals, probably at the highest salary in the club's history. His salary is a secret but the club's compromise reportedly is the highest in the history of the St. Louis Cardinals, probably at the highest salary in the club's history.

Back in the gas house gang days, a source who can't possibly be wrong says Stan now will get more than \$25,000 for one year's work. Musial, who won the league batting crown in 1946 with a .353 average, has been working on a long-term salary deal based on a \$14,000 prewar level. So far he has failed to realize his ambition of becoming the highest paid man in the National league, but he has doubled his 1946 pay.

The only unsigned Cardinals remaining are outfielders Harry Walker and Ed Duvall and pitcher Johnny Grodzicki and Murry Dickson.
