## Taft Asks Survey Of War Chance in Aiding 2 Nations

WASHINGTON, March 15 (AP)—Senator Taft, R., O., called today for an official size-up on whether Russia may declare war if the United States gives financial and military aid to Greece and Turkey.

## Second Paper Of Reds Raps Truman Plans

MOSCOW, March 15 (AP)—Pravda, Communist party newspaper, made a second bitter Soviet attack on President Truman's Greek-Turkish policy today, declaring it not only a "policy of peace and security and 'renders values' United States declarations of faithfulness to the United Nations.

Now that the two chief newspapers in Soviet Russia have lashed out at the administration, it remained for official Soviet leaders to give their reaction. None has yet said publicly what Secretary Marshall's policy means to them.

But it was expected that Joseph Stalin would receive United States Secretary of State George Marshall's policy with some concern. It is known, can be seen from such a meeting may be held.

Pravda made an apparent reference to the fact that the leaders of American policy could do worse than ponder over the fact that the United States is attempting to realize any plans for world domination, are inevitably doomed to failure.

It was evident that the Russians believed that the secretary of state helped formulate the Truman policy.

## Idaho Set to Start Making Car Licenses

BOISE, March 15 (AP)—Idaho will start today making car licenses and road sign manufacturing business.

The department of law enforcement is today in the 1947 license plates due last year.

## Contest's Winner Awarded \$17,590

HOLLYWOOD, Calif., March 15 (AP)—Mrs. William H. McCormick, Lockhaven, Pa., housewife tonight won \$17,590 in a radio contest after she answered a broadcast telephone call and identified "Mrs. Huah" as Clara Wood, one-time actress.

## Former Official Held In Paraguay Revolt

ASUNCION, Paraguay, March 15 (AP)—A former official of the Paraguayan government was arrested here today in connection with the revolt in the eight day old Communist uprising which the government charged was headed by a former official of the Paraguayan government.

## Brings Top Bid at Bull Sale Here

This purebred Hereford range bull, Kingman's Lad 39th, brought the highest price offered during Saturday's annual spring bull sale of Idaho Cattlemen's association in Twin Falls. A. D. Pierce, Malms, at right, paid \$700 for the bull, consigned by W. A. Nielson, Tremonton, Utah, standing back of the animal. (Staff photo—engraving)

## Rent Control Question Put On 'Cool' List

WASHINGTON, March 15 (AP)—Senate Republican leaders said privately today that the question of continuing rent controls probably will be allowed to cool the rest of this month.

## Farm Agency To Ask Voice In Irrigation

WASHINGTON, March 15 (AP)—The agricultural department may seek a showdown next week on its demands for a voice in determining the feasibility of larger reclamation projects.

## Reds Control Union, Chief Tells Solons

WASHINGTON, March 15 (AP)—Timothy Murray, president of the American Newspaper Guild, testified today before the House subcommittee on the "virtual control" of the New York and Los Angeles local unions.

## Los Angeles Cops Nab 72 Suspects With Roadblocks

LOS ANGELES, March 15 (AP)—Police officers today set up 11 unannounced roadblocks established at seven main intersections last night had netted 72 suspects and weapons as authorities continued their determined drive to stop the Los Angeles news strike.

## Margaret Truman Ready for Debut Set for Tonight

DETROIT, March 15 (AP)—Margaret Truman arrived at the Metropolitan airport in a Pennsylvania Central Airlines plane late today for her debut here tomorrow night.

## Chiang Declares Armed Rebellion

HANKOW, China, March 15 (AP)—Chiang Kai-shek charged today the Chinese communists today with armed rebellion which he said the government must quell by force.

## Organize Cut for German Population Proposed by France

MOSCOW, March 15 (AP)—France proposed tonight a startling modern day exodus of Germans from their devastated homelands in order to lower the German war potential, Secretary Marshall said the plan struck at the heart of the German problem.

## U.S. Officials To Confer on Gooding Stop

Sam Kellogg, Salt Lake City division manager for United Air Lines, left Saturday night for Chicago to make arrangements for the use of the Gooding airport as a landing site for a TWA stopover.

## Idaho Alumni Vote Support To New Coach

BOISE, March 15 (AP)—M. F. O'Neil Howell will have a free hand in the football program of the University of Idaho as far as the Idaho Alumni association is concerned.

## Officials See Price Decline By Next Fall

WASHINGTON, March 15 (AP)—Commerce department officials expect more price declines in the post-OPA rice-like cotton goods which have soared highest since the war.

## Price of Gas Boosted Here By Half Cent

Magic Valley motorists today are paying one-half cent more for gasoline as a result of the 25-cent per barrel boost in the price of oil.

## Market Workers Set for Walkouts

NEW YORK, March 15 (AP)—The AFL-United Mine Workers of America today 30-day notices of contract termination would be sent to the New York stock exchange as the preliminary move in a strike by 2,000 union members.

## 4 Bodies Found In Plane Wreck

PARIS, March 15 (AP)—Four bodies were recovered today from the wreckage of a four-engine transport plane which crashed in the French Alps 35 miles south of Grenoble.

The plane, bound from Nice to Paris, struck a cliff near the top of a 4,000-foot Mt. Moschella, splintered into a wreckage that was scattered hundreds of tons of snow.

### Protection of Salmon Asked In Water Plan

WASHINGTON, March 15 (UP)—Representative Jackson, D. Wash., said today he favors opposition to the reclamation bureau plan of federal development of the Columbia basin as a unit unless sufficient funds are allocated to Salmon propagation to insure continued runs in the river.

The reclamation bureau's program would treat the basin's construction program as a unit and allocate power revenues from basin projects to aid in paying for irrigation developments.

The fishery industry along the river has frequently protested that the overall plan for a series of dams along the Columbia river would injure the salmon runs and Jackson today a reporter he would insist the industry be protected.

"I think enough money should be allocated out of power revenues to provide for extensive research into the fishery situation," Jackson said in a statement.

Dams Hurt Salmon  
"There should be enough of this money to provide for artificial propagation of salmon in hatcheries should be provided for expansion both up and down the river to the fish. There is no doubt that the salmon runs have decreased since the construction of Bonneville dam and construction of additional dams along the river will increase this decline.

"Many of the old spawning streams that have been closed to the river now are closed to them.

"I favor construction of dams for power production but if they are constructed a ample revenue should be allocated from the power income to provide the assistance needed by the salmon industry along the river."

### W. Stuart Booth Retires to West

Announcement has been received here from the Christian Science board of directors of the Mother church, the First Church of Christ, Scientist, Boston, that W. Stuart Booth, GSB, for eight years a member of the board, has asked to be retired to Denver, Colo., and the retirement has been granted.

The request was to enable him to return to the west and resume class teachings and devote more time to the study and practice of Christian Science. Nearly 13 years ago he became associate editor of the Christian Science Journal, Sentinel and Herald. Three years later, he became a trustee of the Christian Science Publishing society and four years after that became a member of the Christian Science board of directors.

Alfred Pittman, GSB, a native of St. Joseph, Mo., succeeds him on the board. Hudson C. Burr, CS, succeeds him as publisher's agent.

### Asks Divorce

BURLEY, March 15—Jia Kondrack filed suit in district court here for divorce from Edward Kondrack on grounds of cruelty. The couple was married at Burley, Nov. 22, 1944. The plaintiff asks custody of two minor children.

### Sorry, Boys, It's Strictly Business

Although the vehicle in foreground looks like a boy's dream of something in which to slip around the neighborhood, it's really a custom-built welding outfit. It's owner, R. A. Goans, is shown at the wheel, following completion of the machine by Paul L. Roberts at his welding shop. Two barrels at rear hold 400 gallons of weed killer, while the small tank at top also contains chemical of a different type. It is powered by a 10 horsepower, one cylinder motor, has a model T rear end and front axle, wheelchair wheels, a regular automobile transmission and a home-made clutch. Small size of the outfit is indicated by its comparison with standard automobile in background. (Staff photo-enslaving)

### Recital Offering Goes to Hospital

GOODING, March 15—A silver recital received at the Borstad club recital will go to the Gooding hospital fund for the purchase of a recliner. Mrs. James Alastra, club president, announced. Willetta Warberg, 14-year-old Twin Falls pianist, played at the recital.

The offering included a tap dance number was presented by Patty Farmer, Donna Alastra, Janice Wilms and Helen Kendrick. Mr. and Mrs. Harvey Woods sang a duet, accompanied by Mrs. Ted Mason. A social hour with refreshments was held in the chapel. Hostesses group included Mrs. Otto Joslin, Mrs. J. H. Wrenn, Mrs. Harriet Bright, Mrs. Harold Brown, Mrs. D. H. Sulphur, Mrs. A. E. Thompson and Mrs. Blayne Glendon. Prizing at the punch bowls were Bernice Lou Russell and Etta Rhea Cabbage, state school students, who also distributed programs for the recital.

Drive headquarters in the sales room of Idaho Power company was discontinued Saturday. Future turn-ins will be made at the Red Cross office in the city library.

### Coupons to Aid In Final Phase Of Funds Drive

"Those who have not been collected by American Red Cross workers may mail their contributions accompanied by coupons from the Sunday and Monday issues of the Times-News," Dr. Gordon R. Tobin, 1947 fund drive chairman, announced Saturday.

He said the coupon was intended for the use of those desiring to purchase a membership, but who had not yet been contacted. The campaign lacked only \$1,500 of equalizing the drive quota of \$1,075 Saturday afternoon, Jack Carson, publicity chairman, announced. Turn-ins Saturday brought the total to \$8,575.

Deadline for the reporting of all workers was set for Tuesday by Dr. Tobin. He explained the final auditing of returns would be completed Monday.

### Classes Offered On Office Work

Arrangements have been completed for classes in commercial subjects, such as shorthand and typing, at Filer high school, and persons desiring to attend should get in touch with the veterans' administration office in Twin Falls, according to E. R. Glenn, Boise, a representative of the state board for vocational education.

Attendance of 10 or more persons must be assured before the classes can be started by the state board of vocational education and Filer high school, and for this reason those who are interested are urged to indicate their intentions to provide an estimate of the number that will attend.

### Legion Marks Its Founding At Gatherings

Twin Falls American Legion post will join the state and national Legion in observance of the 29th anniversary of that organization with a "birthday party" Tuesday evening arranged by the auxiliary, Mrs. Alex G. Erickson, president, announced Saturday.

Activities will open at 8:30 p. m. at the Legion hall with a grand march, led by W. W. Prantz, master of ceremonies, and the program will include dancing to the six-piece Rhythm Airs orchestra of Bob Duncan, card play and door prizes. A spring motif will prevail in decorations.

Throughout the state, 20,000 Legionnaires join with some three million of their fellow veterans of the nation in observing the national anniversary Saturday.

State Commander William J. Galloway, World War II veteran, and Adjutant Samuel H. Vance, World War I veteran, led the celebration at Boise Saturday.

The anniversary recalls the founding of the Legion in Paris, France, at a historic caucus March 15, 1910. Theodore Roosevelt, jr., who was killed in action in Normandy in World War II, contributed enthusiasm, hard work and inspiration to founding of the Legion, and the name, American Legion, was suggested by Maurice K. Gordon, then an army major and now a country lawyer in Kentucky.

Commenting on growth of the Legion since that time, Galloway pointed out at Boise Saturday that the Legion will far surpass this year the record enrollment of 3,232,559 in 1946. The Legion is chartering new posts at the rate of 50 a week and now has 10,053 posts.

"We have three major objectives today," he observed. They are to secure the peace and safety of the nation, assure the proper care of war disabled, widows and orphans and to work for jobs and homes for all. Idaho has had five national officers, the most recent being Dudley Swain, who was a national vice-commander last year. Other national vice-commanders were Oscar Wortwinkle and the late Les Alberts. The Rev. Irvin C. Wood of Boise and the Rev. Paul E. F. Mortimer of Caldwell are former national chaplains.

### Masonic Leaders Confer Degrees At Session Here

At an assembly dedicated to the late William Wallin, Pocatello, who was grand master of council No. 7 royal and select masters when it was chartered 10 years ago, the organization conferred the royal and select masters degrees at a meeting Friday afternoon in the Masonic temple here.

Friday evening, the super-excellent master degree was conferred, followed a dinner served by ladies of the local order of the Beauxarts.

Official guests at the assemblies were three officials of the grand council of royal and select masters of Idaho, Raymond V. Swanson, Pocatello, most illustrious grand master; A. Edward Prince, Boise, illustrious grand conductor; and A. D. Bobler, Twin Falls, illustrious grand sentinel. Three past most illustrious grand masters were present. They were Arthur E. Hawk, Boise; and Dr. R. A. Parrott and Ray Slayter, Twin Falls.

About 80 royal and select masters from Buhl, Filer, Kimberly, Paul, Rupert and Burley attended the assemblies.

### RETURNS TO IDAHO

UNITY, March 15—Mrs. Sarah Elquist has returned home from Grantsville, Utah, where she was caring for an invalid brother.

### RETURNING HOME

UNITY, March 15—Mrs. Thelma Jackson has returned to Salt Lake City after visiting here with her parents, Mr. and Mrs. Ira Frost.

# TUCKER'S NATIONAL WHIRLIGIG POT SHOTS

**STRIKE**—The supreme court's crackdown on John L. Lewis and the United Mine Workers' strike has led to a new sort of anti-strike law designed to prevent paralysis of activities essential to the nation's life at time of peace.

The Smith-Connelly act, which has been passed by the Senate and is now in the hands of the House, is a direct result of the decision, key members of house and senate suspect that the tribunal itself suggested this kind of crack-down on the strike.

The Smith-Connelly act, which has been passed by the Senate and is now in the hands of the House, is a direct result of the decision, key members of house and senate suspect that the tribunal itself suggested this kind of crack-down on the strike.

**SECURITY**—The legislative committee scheme to embody a parallel to the Smith-Connelly act in the labor legislation with which they are now struggling. They realize that liberal labor and possibly the administration will oppose such "backing" of unions. But they believe that public opinion would support such a move.

**UNMATCHED NYLONS**—Three unmatched nylon stockings were found recently by Mrs. John Rockstead, Edna, who recently and met Elmer (Speed) Rush and his wife, Lucille.

**SYMPATHY**—The gentle veteran's administration are not very solicitous about one another's troubles.

**IMPROVING**—The Pot Shots are recommended as a useful psychological approach, but in this case it worked.

**BOB HOPE**—Federal authorities have disposed of the equipment from Tony Corneo's contented gambling ship at sea.

**QUEEN OF FLOWERS**—A departure from custom that gets our applause is the method adopted by the American Carnation Society to choose a carnation queen for the national flower show here.

**BELL BOTTOMS STILL**—The navy's decision to retain its historic uniform after some experimentation with a new one probably will be met with a shrug by the sailors.

**WONDERS NEVER CEASE**—That day's budget of news is enough to convince that we are living in a wonderful time. In the future, a Chicago dispatch to this newspaper says, the automobile will open its doors by pushing a button on the dash. Those who used to boast of their agility after declaring they could snap the light bulb and in a beat get it back in the dark will soon be able to do so after the re-fabricated switches with timers are popularized. An atomic-driven airplane will travel at speeds "nearly dreamed of" when it has its own mechanical wings, says an earlier prediction, and travel to work like an albatross.

**COBBLE**—It may be that we have to lead money to Greece, runs the clockwork comment on capital hill, that the Russians are not. But I can't think of the fact that the recommendation comes from Paul Porter, our special ambassador in the present crisis, and the honorable man who has been in the cabinet here with Wallace's AAA and he ended up with OPA. Now he's in Greece! Bo, more money!

# HOW THINGS APPEAR FROM PEGLER'S ANGLE

The worst of a flood is not the mighty power of the surge, but the silent, secret rise of the backwaters which suddenly trap people on the ground.

Now the British empire is in a re-capturing of bankruptcy and American who said it was a "no-no" in the United States.

Some entering young man came up to Speed and asked: "Who are you pulling for tonight?" Paul, Troikus, Glenn Ferry, Heyburn, Hazelton or Shoshone?"

It seems that Speed has coached St. Paul, Hazelton, Acrouit and Shoshone; Lucille's home town is Glenn Ferry and their little girl goes to school at Heyburn.

**UNMATCHED NYLONS**—Three unmatched nylon stockings were found recently by Mrs. John Rockstead, Edna, who recently and met Elmer (Speed) Rush and his wife, Lucille.

**SYMPATHY**—The gentle veteran's administration are not very solicitous about one another's troubles.

**IMPROVING**—The Pot Shots are recommended as a useful psychological approach, but in this case it worked.

**BOB HOPE**—Federal authorities have disposed of the equipment from Tony Corneo's contented gambling ship at sea.

**QUEEN OF FLOWERS**—A departure from custom that gets our applause is the method adopted by the American Carnation Society to choose a carnation queen for the national flower show here.

**BELL BOTTOMS STILL**—The navy's decision to retain its historic uniform after some experimentation with a new one probably will be met with a shrug by the sailors.

**WONDERS NEVER CEASE**—That day's budget of news is enough to convince that we are living in a wonderful time. In the future, a Chicago dispatch to this newspaper says, the automobile will open its doors by pushing a button on the dash. Those who used to boast of their agility after declaring they could snap the light bulb and in a beat get it back in the dark will soon be able to do so after the re-fabricated switches with timers are popularized. An atomic-driven airplane will travel at speeds "nearly dreamed of" when it has its own mechanical wings, says an earlier prediction, and travel to work like an albatross.

## JOB FOR POLITICAL MISSIONARIES

Americans are going to have to "do some pretty fancy missionary work," thinks Dr. Frederick Osborn, if they intend to sell the world on their way of life or even hang onto it themselves.

Dr. Osborn, a social scientist, says that only 600,000,000 of the world's population share a tradition of self-government and freedom. The rest, who outnumber them by an even billion, are of "alien cultures in which life is held very cheap and in which the individual and his right to the pursuit of happiness are negligible."

With the first group is barely holding its own, the second is growing. Dr. Osborn believes it will increase by 400,000,000 in the next 25 years. Thus, he concludes that the "American way" is in danger of being swamped.

This is a variation on a familiar theme. Well-meaning and ill-meaning people have warned of the threat to democracy or, in the naive case, to "European culture" by the barbarians. But Doctor Osborn's warning doesn't seem either evil or academic. His conclusions may be as broad as his figures are round, but they're worth thinking about.

Perhaps Doctor Osborn would be easier to understand if he spoke in terms of governments rather than of persons, since many millions are unconscious or indifferent to the choice between the two cultures. And he might also include the need of missionary work in the economic as well as the political field.

Some countries which still have a political tradition of freedom and self-government seem in imminent danger of turning to an "alien" economy to survive. Our "pretty fancy missionary work" might well start with them, if we intend trying it.

A logical first step would be to see that none of the present 600,000,000 converts become backsliders. It would be fine to see the governments of India, Indonesia and China on the side of the democratic angle, once they are founded or reorganized. But it's probably more important to keep Greece and Italy and France on the democratic side night now.

Such a job will take a new type of American thinking. It will call for strength, wisdom and dollars—especially dollars.

## BIG STEP FORWARD

It is too early yet for over-optimism. There still is a chance for hobbies to slip into a promising horse. But it is distinctly encouraging that the United Nations economic and social council has set up a special commission to handle European reconstruction on a unified, continent-wide basis.

There are at least three very pleasing things about this action, taken only a few months after the proposal first was made in London.

First, because unified, continent-wide planning and execution are the only ways that the highly integrated continent can be put back on its feet and helped to repair the war's devastation.

Second, because this is really the first time that the vicious and over-widening chasm between Soviet eastern Europe and the non-Soviet western nations has appeared likely to be bridged by any specific co-operative activity.

Third, because Russia, after opposing the plan in its original form, has accepted a version that was merely weakened and not completely perverted.

From the viewpoint of cold logic, undoubtedly it would be more efficient if the power systems of the continent could be unified, restrictive economic barriers could be removed, if labor surpluses from one section—or even from one country—could be moved wherever labor shortages existed.

But on second thought there are practical objections, human nature being what it is. There almost certainly would be outraged objections if a United Nations commission were to attempt, willy-nilly, to unify our power system and tie it up with those of Canada and Mexico and the rest of this hemisphere.

And the heavens would be blasted by our revolt if a British-Russian-Chinese-Czech-Dutch-Chilean commission were to start ordering New York's unemployed clothing workers to South Carolina cotton mills.

Over here on our side of the pond we sometimes forget the centuries of bitter wars that have devastated almost every important country in Europe. We have seldom had other nations try to boss us around, so we have little conception of the intense nationalism that sustains life here.

The birth struggles of United Nations co-operation have sometimes been torturing to watch. But here, in many ways, is the most promising thing that has yet come out of that flogging and often cantankerous body.

### Federal Acts Get Blame in Grain Boosts

CHICAGO, March 15 (AP)—A commodity exchange official charged that "unpredictable government actions" are causing the wide fluctuations in grain futures prices today and over the past few weeks.

He blamed speculation and asked that it be stopped.

The report, sent yesterday to the nation's three major grain exchanges in Chicago, Kansas City and Minneapolis, was brought out by Walter Scott of Kansas City, president of the National Association of Commodity Exchanges and Allied Trades, Inc.

Policies blamed

"The high prices that are ruling today are directly due to government policies and activities that have brought about conditions that the entire grain trade views with concern and alarm," Scott declared in a statement.

Scott said widespread competition has developed for meager grain supplies because "the advanced nations in November of the completion of relief purchases; the backing away of prices, the re-entry of speculators in grain futures, and the commodity credit corporation in the market at above-market prices; the announcement of the government's government activities in absorbing the offers of grain to be sold as they became available in competition with the trade."

Here Margie Asked

The commodity exchange authority in Washington asked that speculative futures be restricted to not more than 25 percent of the cash value of grain futures contracts purchased.

Secretary of Agriculture Anderson has said that he believed speculation was "talking loudly" in grain prices and that "corrective measures" are needed to avoid "speculative excesses."

### Home (and Lunchtime) on the Range

### Wells, Springs Termed Unsafe As Source of Drinking Water

Highly vulnerable to contamination because of geological structure and irrigation, wells, cisterns and springs throughout Magic Valley are unsafe for providing drinking water in an unusually large percentage of cases, a report released Saturday by the south central Idaho health unit disclosed.

During the irrigation season—June through September—samples tested from wells within the district revealed 48 per cent of samples sent in for analysis were of an unsafe nature. Cisterns were 83 per cent unsafe, and 50 per cent of the springs were unsafe.

Three sources of water provide rural needs, health unit officials said that persons desiring to try the safest of their drinking water conferred with the unit, sanitation section on steps that may be taken to safeguard the water supply, the report reads.

Analysis of samples of water sent in to the health unit present a picture to be seriously considered. The situation in this area is unique because of two factors. First, the ground structure is such that contamination can travel great distances underground. The lava formation allows sewage to travel underground much as it does in a sewage main in the city. Pockets and channels occur underground, through which waste material may flow without purification. Purification occurs only when water and sewage are subjected to chemical treatment, such as treatment with chlorine, is aerated, mixed with oxygen or is filtered through a depth of sand or porous soil or gravel. Water will not purify itself unless one or more of these three factors occur. None of these factors can operate in a sewage main or through a lava formation.

"Another factor which increases the hazards of contamination of wells, springs and cisterns and transportation of harmful bacteria great distances is our irrigation system and the manner in which some people dispose of their sewage. Both are means of introducing contamination into ground waters and underground streams which we tap when we drill wells.

Irrigation water can seep underground where lava formations occur on the surface or where the ground level is so shallow that purification will not take place. Another means in which it can occur is through

### 20 Second Grade Students Named For Honor Roll

JANSEN, March 15—Twenty second grade students of Hansen school made the honor roll of Hansen independent school district for the period ending recently. Edward L. Kane announced. Fifty students were on the honor roll for all classes.

Students honored were:

First grade: Mary Frances Butner, Bonnie Lemke, Jimmy Mulder, Roy Ben Davis, Bob DeWitt, Robert Welch, Barbara Mowbray, Robert Wright, Glen Ross, Karen Colner, Jo McFarland, Barbara McFarland, Harold Walker, Judy Mersbach, Carol Peterson, Marvin Ness, Blain, Sue, John, Wendell Hunt, Lonnie Guss Miller, James De Fort, Betty Stohansen, Third grade: Everett Hally, Arlin Lyle, James De Fort, Betty Stohansen, Dorothy Sharp, Fourth grade: Hugh Hill, William Walker, fifth grade: Clark, Bonnell, Felt, Jennifer, Diane Kane, Cherie Paulson, Virginia Johnston, sixth grade: Barbara Klata, Charlotte Peterson, seventh grade: Larry McFadden, Rick Peterson, eighth grade: Della York, Lorraine Moubille, Warren Walker.

The manner in which a water system is installed may allow contamination to occur. In the well protected by sealing of the casing at the top is the casing grouted into the hole. In the shallow well, the casing is grouted to prevent ground water traveling down the pipe. In a cement pillar form provided so that water leakage from the pump will be diverted away from the casing. In the pump adjusted as there is no possibility of flooding the pump house and allowing surface water to enter the casing. Is the casing and pump constructed after its installation? These factors can readily affect the safety of the drinking water even though the source of water is of a safe quality.

No Legislation

"Idaho laws do not prevent a man from putting down a sewer well or contaminating a surface supply. These are much needed legislation. However, even if we did have these laws we would still have the source of contamination from the irrigation system. No irrigation water is safe to drink without being treated. Those who have cisterns should filter and chlorinate the water before use. Wells should be tested and properly protected. The health unit has the bottles and instructions for sampling and testing your water. It also has information on the proper structure for the well and will be glad to advise you.

"The health unit is interested in these matters for several reasons. Prevention of epidemics is important. The health of the communities and individuals is its reason for existence. We do know that safe water is of primary importance in a healthy community. It is our position that a great number of attacks of spring fever, diarrheas and other ailments are caused by drinking nothing more nor less than a bacterial infection introduced in drinking

### Area Session In Twin Falls Hears Bishop

Bishop Bruce R. Baxter will bring an annual area conference and achievement to Twin Falls, Idaho, when he comes here Wednesday, March 19, to address the annual Bishop's dinner gathering at the Methodist church.

Registration from throughout Magic Valley, as well as from far away as Idaho Falls is expected at the gathering, according to Hugh Nelson, club president.

Bishop Baxter, who has been bishop of the Portland area Methodist churches since 1940, and is now a member of the Board of Williamette university, Salem, Ore. For 10 years he was dean of the school of religion and assistant to the president at the University of Southern California. In 1931, Bishop Baxter was delegate to the Methodist ecumenical conference, London; and in 1940 he was delegate to the Methodist general conference of the church official has made a trip around the world, has made two visits to the Holy Land, and has, in the near east, one trip to the south islands and a journey to South and Central America.

A few of his many other activities include a former directorship of the Methodist general conference, from 1939 to 1940 of the Oregon Association of Independent colleges, trusteeship of Williamette university, Pacific School of Religion, Berkeley, Calif.; College of Pagan Sound, Tacoma, Wash.; and Hill School of Theology, Denver university. He also holds seven degrees.

Trustmaster at the church gathering here will be L. J. Schroyer, and Dr. Orin Fuller will lead community singing. Program director is Kent Talbot.

### City Vote Lists Close March 29

Registration of voters for the city election April 1 will close March 29. Mrs. John Leiser, city clerk, announced Saturday. Her office hours are from 9 a. m. to 5 p. m. daily, except Sunday, and will be open two additional hours, March 29, to allow the voters to register.

Requirements for registration include U. S. citizenship, minimum age of 21, and residence in Idaho which three months must be in Twin Falls.

### Hearing Set on Writ Sought in Child's Custody

In an unusual action, Mrs. Donette Coombes, Buhl, filed a petition in district court Friday asking for a writ of habeas corpus to regain custody of her 14-year-old son from her divorced husband, Marion Coombes, Buhl.

Upon the basis of the petition, District Judge James W. Porter issued a writ of habeas corpus Friday commanding Coombes to bring the boy before the court at 10 a. m. March 21.

Mrs. Coombes' petition alleges her son, Don, is "restrained of his liberty and is unlawfully held" at a small cabin near Buhl by "one purported to be Marion Coombes, the father of said boy." Her petition states Coombes "enticed, persuaded and induced the child to become subject to his control and restraint."

District court records show that custody of the lad was awarded to her on Sept. 17, 1942, the time of her divorce from Coombes. Her petition alleges Coombes violated the court decree by taking the youth unlawfully deprived her of the custody of her son.

Representing Mrs. Coombes in the action is C. R. Reeves, Buhl attorney.

**BOISEAN VISITS**  
JEROME, March 15—Mrs. Bert Coug, Boise, is here visiting with her parents, Mr. and Mrs. George Ballew.

### Resident Seeks Divorce Decree

A half share in \$170,000 worth of community property was asked by Daphne Sweet in a divorce action filed yesterday in district court against Bert Sweet, Jr.

She filed a \$100,000 residence at 1044 Poston avenue, \$100 in household furnishings, \$1,000 in cash, and two lots at the corner of Poplar avenue and Maurice street as comprising their joint property. She estimated the lots at a value of \$3,000, and said she had been cruelly treated and requested a cause of order to prevent her husband from threatening to molest her during the pendency of the suit.

"The defendant has threatened and is now threatening to do plaintiff bodily injury and only on March 14 called at her home and intimidated and harassed her," Mrs. Sweet stated in her affidavit.

Mrs. Sweet asked for \$100 per month support money while her divorce action is pending and for exclusive use of their Poplar avenue home. Suit money in the amount of \$25 and \$500 for her attorney's fees were requested also.

The couple was married Feb. 12, 1944 at San Diego. They have no children. W. L. Dunn is attorney for Mrs. Sweet.

### Release Suspect

The Twin Falls county sheriff's office has released a suspect who was arrested Friday afternoon because he fitted the description of the man who held up the Johnson Service station at Hollister Thursday night.

Although the owner, Mrs. Mary Johnson, thought at first that she recognized the suspect, she later changed her mind, and he was released. The hold-up man, at gun's point, had forced her to open the grocery store and service station cash register. Seeing that it contained only \$2 he fled without taking anything.

### Traffic Tickets Issued at Blaze

RUPERT, March 15—Four tickets for "following behind the fire engine" were issued in Rupert recently as the aftermath of a truck fire at 709 Fourth street south.

The truck caught fire when a match was ignited near a faulty gas tank.

C. E. Jackson of the city police said many motorists were warned that they should not park within 300 feet of the fire.

### "Safety" Davis to Plan Rupert Trip

RUPERT, March 15—O. H. Davis, safety representative of the J. R. Simplex company, will be in Rupert this coming week to carry out a safety campaign in the schools.

Davis will show pictures, lecture and organize school safety patrols while here. Mrs. Clara Hansen, county superintendent of schools, and Ronald Hawkes, sheriff, will accompany him and are sponsoring his visit.

### Skating Still Good Despite Warmth

Skating conditions at the Magic Mountain ski area were reported to be "very good" Saturday night by Bonnie Baird, publicist and chairman of the Magic Mountain ski club. The area is covered by eight inches of new snow, the ski runs were opened Saturday by the Twin Falls highway district.

Old lifts will be in operation Sunday, and the bus chartered by the ski club will leave at 9 a. m. Sunday from in front of the Sporter store.

### Deafened Now Hear With Tiny Single Unit

Science has now made it possible for the deaf to hear a full range of sounds. It is a hearing device so small that it fits in the hand and enables thousands to enjoy sermons, music and friendly companionship. Accepted by the Council on Physical Medicine of the American Medical Association, the device does not require separate battery pack, battery wire, case or garment to bulge or weigh you down. The same is clear and powerful. So made that you can adjust it yourself to suit your hearing, as your hearing changes. The makers of Beldone, Dept. 1233, 1450 W. 19th St., Chicago, 8, Ill., are so proud of their achievement that they will gladly send free descriptive booklet and explain how you can get it's big demonstration of this remarkable hearing device in your own home without taking a penny. Write Beldone today—Adv.

### Handbag of Missing Black Blending Patent

### Deafened Now Hear With Tiny Single Unit

Science has now made it possible for the deaf to hear a full range of sounds. It is a hearing device so small that it fits in the hand and enables thousands to enjoy sermons, music and friendly companionship. Accepted by the Council on Physical Medicine of the American Medical Association, the device does not require separate battery pack, battery wire, case or garment to bulge or weigh you down. The same is clear and powerful. So made that you can adjust it yourself to suit your hearing, as your hearing changes. The makers of Beldone, Dept. 1233, 1450 W. 19th St., Chicago, 8, Ill., are so proud of their achievement that they will gladly send free descriptive booklet and explain how you can get it's big demonstration of this remarkable hearing device in your own home without taking a penny. Write Beldone today—Adv.

### Customary Rush Marks Tax Filing

With the deadline for submission of state income tax returns approaching at midnight Saturday, forms were still being withdrawn from the county auditor's office Saturday morning.

Harry Garrett, field auditor of the state income tax department, here the past week to assist in preparing returns, said taxpayers seeking his aid had dwindled Friday and Saturday. He has been operating in the courthouse lobby.

Garrett described the last-week rush as "normal" in comparison with previous years.

### Introducing... OUR NEW FURNITURE

**MANAGER**  
Mr. John Miller

Mr. John Miller is now connecting with us as our manager and buyer of our enlarged new and used furniture department.

Mr. Miller is well versed in all phases of the furniture business and is well known by many of you, having been connected with one of the larger furniture stores in Twin Falls for the past ten years.

He invites all his friends and customers to call on him here in his new position where he promises to serve you with the same friendly courteous service as before.

Come in. Look over our new enlarged furniture store. See the many new pieces we have in store for you.

### PONTIAC A fine car made finer

There's a purpose back of Pontiac!

When you buy a Pontiac you get a car that is deliberately designed and built to give you the greatest type of value for your money.

First of all, it is designed to give you fine performance—performance that will give you a thrill every time you take the wheel. This applies to the engine, to the car's roominess and comfort, to its roadability and handling ease. Yet—Pontiac is also designed to give you economy—to operate inexpensively—to be easy on service—and to last a long, long time. In short, Pontiac is designed to give complete satisfaction—at extremely low cost.

This is always true of Pontiac. So regardless of when you expect to get your new car—make it a Pontiac. It's a wonderful value.

THE SOONER YOU PLACE YOUR ORDER for a new Pontiac, the earlier you'll get it. So place your order now for January delivery.

### Court Severs Four Couples With Decrees

Granted by District Judge James W. Porter on Friday were four divorces, three of them severing the bonds of wartime marriages. The fourth was a case the judge had taken under advisement previously.

Richard McKee was given a divorce from Catherine McKee, whom he married Oct. 21, 1944, in Corbe, England. She was given custody of their daughter, Rose McKee, who was ordered to pay \$20 per month for the child's support. A property settlement previously agreed upon was approved.

According to court records, Mrs. McKee came to the United States from England shortly after McKee was discharged from the armed forces. However, she returned to England before rejoining McKee.

A divorce was given Gladys W. Wooten from Elmer B. Wooten, whom she married Oct. 15, 1941, at Elio, Nev. Wooten, who is believed to be in military service, defaulted. The decree was granted on grounds of cruelty.

Warren Moffat was granted a divorce from Mary E. Moffat, who he faulted, on grounds of desertion and extreme cruelty. They were married Aug. 10, 1943, in Cerro, Colorado, by Iowa. Court records show he was in military service from 1941 to 1946, and that the last time he saw her was on a furlough on Thanksgiving day, 1943.

A marriage of long standing was dissolved when a divorce was granted Nora Mae Livingston from Guy Livingston, who defaulted. They were married Oct. 15, 1941, at Iberis, Mo. They have five children, of whom two have attained their majorities. Custody of the three minor children was given Mrs. Livingston, and two Twin Falls city lots were awarded her.

### Filer Infant Dies At Hospital Here

The infant son of Mr. and Mrs. Dell Vincent died at the Twin Falls county general hospital at 5:30 p. m. Friday a day after he was born.

He is survived by his parents; paternal grandparents, Mr. and Mrs. O. E. Vincent, Filer; maternal grandparents, Mr. and Mrs. Charles, Larry, Dominic and Jerry, all of Filer; and three sisters, Mrs. Joseph Taylor, and Patricia and Delma Vincent, all of Filer.

Gravestone services will be held at 10 a. m. Tuesday at Filer I.O.O.F. cemetery, The Rev. H. J. Reynolds will officiate. Burial will be under direction of the Reynolds funeral home.

### Hearing Set for Theft at Gooding

GOODING, March 15 — Preliminary hearing has been set for 10 a. m. Monday for Keith Savage, 27, who is charged with grand larceny. He will appear before Probate Judge H. D. Jackson.

Savage was returned from Pine-dale, Wyo., recently by Sheriff Russell Cecil.

Savage was charged with stealing a truck loaded with plaster last June, according to a complaint signed by Francis Brechman, manager of the Gooding office of the Howe-Payette Lumber company. The truck belonged to the lumber company.

### Funeral Held for Thomas Graham

Funeral services for Thomas H. Graham were held at 2:30 p. m. Saturday at the Reynolds funeral home chapel with the Rev. H. J. Reynolds officiating. Music was furnished by the funeral home.

Funerals were held for Edgar H. Olmstead, E. J. Dittler, A. L. Shockley, Merrill Porter, Noah Nichols and P. E. Strain. Burial was in the Sunset Memorial park.

### NAVY MAN GRADUATED

JEROME, March 15 — E. V. Howard Johnson, son of Earl Johnson, has been graduated from the electronics materiel school at the naval training center, Great Lakes, Ill.

### Board to Select Homesteaders

The tough job of deciding just what requirements for homesteading new Minidoka project lands fall to this group—the local examining board that will review the thousands of applications expected in the near future. Members from left to right are Roy S. Gordon, Mayor; Henry Hehnshov, Hasselton; Ole W. Paul, Rupert; and S. R. Marsan, Burley, project superintendent for the Bureau of Reclamation. Edward G. Gooding, Shoshone, also a member of the board, is absent from the picture. (U. S. Bureau of Reclamation photo-staff engraving)

### Lurid Career of Mable Comes To End With Cattle Sale Here

By JOHN BROSNAN The mystery of Mable the Mannequin can now be told. The actress, who led a life of crime, was arrested in the office of the Twin Falls Livestock Commission company. Stopping to investigate her person through the venetian blinds covering the window and in the room saw the figure of a woman slumped over a desk with her head on the floor.

On the morning sunlight seeping through the venetian blinds revealed the scene that Officer Benham had seen. The first thing that the reporter saw after he glanced back from the grim faces of the officers was a thin blue trail of smoke floating from a partly burned cigarette held in the hand of a woman.

On the table in front of her was a bottle, about a third full and nearby was a glass from which the contents had been drained. Although her clothing was in disarray, her blond hair was in a neat coiffure, and she remained motionless. The first thing that the reporter saw after he glanced back from the grim faces of the officers was a thin blue trail of smoke floating from a partly burned cigarette held in the hand of a woman.

It was easy to see why anyone was here who thought you should know go relieved upon finding it was just a gag as a prelude to the annual bull sale held Saturday at the commission company. Mable, in a mannequin used to display clothing in store windows, and the cop and the newspaperman scanning modes was just a dress rehearsal for the bull sale when numerous cattle buyers and sellers by one ruse or another were called to the inner office to

come suddenly upon Mable, much to their embarrassment. To add color to some of the entries, the girls working at the commission company office would scream about the time a cattleman opened the door, with hair-raising results.

### Tractor Payment Suit Hearing Set

SHOSHONE, March 15 — A civil trial asking \$223 and eight per cent interest from Nov. 27, 1942, will be heard in the district court at Shoshone Thursday.

Minnie Hartwell, former owner of the Gooding Harrowed company charges the amount is due her for full payment of a tractor sold to Roy Knigge. She also asks \$100 attorney fees.

### Automobile Dealers Choose Jerome Man

JEROME, March 15 — Wilson Churchman was nominated as the Idaho State Automobile Dealers association district representative at a convention in Twin Falls recently. The state meeting will be held at Boise March 24 and 25.

Bill Spaeth has served as the district director for the past several years.

### Children Put Grow-ups to Shame in Fire

ELIZABETH, Colo., March 15 (UP)—Grow-up folks in Elizabeth acted a bit sheepish today.

The sleepy little town had an explosion and a fire yesterday and just about thought the world was coming to an end. The school children did the most to put out the fire.

A welding tank exploded in a garage. The garage burst into flames and terror swept the town. People began to run to the outside. Harold Hurdley, 17, standing across the street, said it was "just like the atomic bomb."

Declared "Emergency" Mrs. Ruth Bohlander, operator at the telephone switchboard, a black and a half away, plugged in emergency calls to Denver, 35 miles away, to halt a dozen neighboring communities.

"We need help in a hurry or the whole town will go up in flames," she cried. "I can feel the heat from here and the flames are getting closer."

Her call brought: 1. Firemen and emergency squads from near-by towns rushing at desperate speed over snow-slushy roads. 2. Star newspaper reporters and photographers racing from Denver. 3. Scores of long-distant phone calls from New York and California from worried relatives of Elizabeth residents.

Sparked Brigade The fire? Well, school children parked a bucket brigade which put it out before it spread beyond the garage. They waded into an icy lake and filled cream cans with water. The cans of water, Sheriff Roy Brown said, were passed along faster than the adult fire fighters could use them.

The Denver Red Cross, alerted to care for the dead and injured, was notified that the garage was destroyed, but that the two mechanics inside at the time of the blast had escaped injury. Total damage was estimated at \$25,000. When newspapermen and firemen arrived, they had to ask where the fire was. It was out.

### Low Gear Pace Marks Building Operation Here

Building permit applications for the past week lagged to \$14,375 from the \$32,075 submitted the previous week at the city hall.

The two-week total for February of \$45,450 followed the 1947 trend of considerably less building activity than in 1946. January applications for construction were less than 30 per cent of those of the year before. February's permits are less than half of those in 1946.

A new brick front and a cinder block addition of 70 feet to the length of St. Regis pool hall is planned by A. D. Wilson. His estimate of probable cost was not included with his application.

Orel O. Thuston will add a 10 by 12 addition to his residence at 437 Pifer avenue if his application is approved. The extra space will be used for a back porch and bathroom. His cost estimate was \$200.

Permit to move a 28 by 48 two-family dwelling and an 18 by 30 garage was requested by E. A. Moon. The stove and frame buildings will be moved from 440 Second avenue west to the 300 block of Eighth avenue east.

### ALL CARS HAVE WHEELS BUT IN THE LOW-PRICED FIELD

### Only PLYMOUTH has Safety-Rim Wheels

### PLYMOUTH

### has Safety-Rim Wheels

Ordinary rim wheels depend on air pressure alone to hold tires in place. Plymouth Safety-Rim Wheels with standard factory-equipped tires give you proved protection at all times. In case of tire failure, patented retaining humps on the rim to hold the tire straight and tight on the tire so you can slow to a straight, safe stop.

Ask yourself this: Is it wise to buy any new car that doesn't give you this great safety feature? In the low-priced field only Plymouth has it—and it's only one of the basic advantages and 52 new refinements you get in the new Plymouth.

Of 21 quality features found in most high-priced cars, low-priced Plymouth has 20. Neither of the other two leading low-priced cars has half as many. See the proof in the new Quality Chart at your Plymouth dealer's.

### Robins Signs 31 Bills Into New Statutes

BOISE, March 15 (AP)—Gov. C. A. Robins published the gubernatorial pen for an extra long stretch yesterday, signing 31 measures passed by the recent legislature. Including appropriations of \$7,750,023.

Other measures approved during a busy year for the governor included established minimum salaries for teachers, authorized new salary scales for county commissioners and prosecuting attorneys and doubled the present state tax on beer.

So far, Robins has considered 218 bills passed along to him by the legislature. These included 218 approved and two vetoed.

Appropriations legislation okayed included \$5,883,793 mainly for upper level educational institutions, \$1,000,000 for operation of state agencies and \$169,200 in miscellaneous expenditures.

Of the appropriations okayed by the governor, the University of Idaho got \$2,025,315 for general educational purposes.

Allocations to other institutions included: Southern Idaho State University at Albion, \$25,120; state school for the deaf and blind at Gooding, \$27,745.

The teachers' legislation provides basic minimum salaries ranging from \$1,500 for those with less than two years of accredited college training and \$1,800 for those with five or more years of college. Under the new law, the average on the brew is raised from five to 10 cents a gallon.

Other bills signed would:

- Authorize county commissioners to lease unused property for war memorials.
- Authorize the state board of education in cooperation with the newly created board of prison commissioners to provide a course of education for prisoners at the Idaho state prison.
- Appropriate \$10,000 to the Lava Hot Springs foundation.
- Appropriate \$100,000 to the Idaho state prison for purchase of license plate manufacturing equipment and other improvements.

### Getting a Ticket—With a Smile

There's no law against parking your horse in a parking space downtown. If you put the customary coin in the meter, that's why A. A. Meeks of Twin Falls was startled when Patrolman A. A. Spence handed him a ticket. He was so relieved when he found out it was a ticket to the annual Police's ball that he forked over the money without a murmur. The horse is Meeks' Golden Seth, a palomino. The ball is scheduled for March 26 at the Radio Rondevo in Twin Falls. (Staff photo—engraving)

### Autos Output Climbing; '48 Model Talked

DETROIT, March 15 (AP)—Things have been moving faster for several weeks in the production division of the industry barring developments at present unforeseen, they soon will begin to move faster on the front end of the industry.

Particularly, a lot of 1948 model planning may crystallize within the next few weeks. It is several of current type models up as is now indicated. Despite the recurring complaint of material shortages, the assembly plants will achieve year war output levels before mid year.

Still Behind

Although the automobile makers still are far behind their backlog of unfulfilled orders, they are making good reasons why new models may be expected from many manufacturers in October and November this year instead of next January and February. Among them are:

1. At current production levels the car makers are making money.
2. By next October they will have been making their present models for two years with only "face-lift" changes.
3. Competition may require new models by the year's end.

The car industry undoubtedly could go through the present year and sell all the vehicles it might produce without significant design changes. But once output catches up with demand it will need a lot of new and different features on the market.

New Ford Rumored

Automotive circles here are saying rumors concerning the next new model passenger cars. One is that the 1948 Ford, bearing no resemblance to any Ford hereofore made, will be introduced in October.

Another is that Willy-Overland's conventionally styled passenger car will not appear this year and will undergo a lot of design changes before it is placed on the assembly lines.

### Nampa Educator Addresses Youth For Christ Rally

Young people filled the second floor auditorium of the Twin Falls YOCF hall Saturday night to attend the first Youth for Christ rally in this region. Stan Adair, Boise, supervisor of the Inter-denominational movement for the Boise valley, presided and led the singing.

In a brief speech, Adair said the Youth for Christ movement is active in 43 nations, with 2,500 chapters in the United States alone. In a quiz on Bible topics, the boys' team defeated the girls' team.

Prof. A. J. Pinkster, instructor at the Northwest Nazarene college at Nampa, was the principal speaker. In a brief speech, Adair said the Youth for Christ movement is active in 43 nations, with 2,500 chapters in the United States alone. In a quiz on Bible topics, the boys' team defeated the girls' team.

Two violin solos were played by Geraldine McDonald, accompanied by Caldonia Hann. The young men's quartet of the East Mountain church of Pler presented special music.

The Rev. W. T. Armstrong, Kimberly, is chairman of the Magic Valley Youth for Christ movement.

### Isaac J. Larson Passes at Burley

BURLEY, March 15—Isaac Jacob Larson, 69, Burley rancher, died at 7 p. m. Saturday at the Cottage hospital following a short illness.

Mr. Larson was born Sept. 27, 1877, at Salem, Utah, and was married to Della Jane Stone Dec. 9, 1901, in the Salt Lake City temple. They moved to Blackfoot in 1913 where he was counselor to the LDS bishop for 15 years, before moving to Acquia, where he was LDS bishop. He moved to Springdale, near Burley, in 1940.

While at Acquia he was a member of the Rupert school board for 10 years.

He is survived by his wife; four daughters, Mrs. Hazel Barrow, Blackfoot; Mrs. Clara Rydman, Rupert; Mrs. Ruth Quarstrom, Burley; Mrs. Madge May, Rupert; three sons, Melvin Larson, Burley; Reed Larson, Acquia, and Wayne Larson, Burley; 27 grandchildren, and one sister, Mrs. J. O. Stone, Salt Lake City.

The body is at the Payne mortuary pending funeral arrangements.

Wright, Hazelton, and Mrs. H. H. Sallis, Los Angeles. Burial will be in Twin Falls cemetery.

Episcopate will be in the funeral service. Burial will be in Twin Falls cemetery.

### Hit-Run Accident Here Is Reported To City's Officers

A minor hit-run accident was reported to Twin Falls police at 5:10 p. m. Saturday by Wallace Steerlin, Edin. He said that as his 1935 Buick sedan was parked in the 100 block of Second avenue south, three girls backed their car out from the curb and hit his car, damaging its right rear fender. He said they failed to stop to take care of the matter.

A farm truck driven by Mrs. W. L. White, route 2, collided with a sedan driven by James Ash at 3:45 p. m. Friday afternoon in the 600 block of Main avenue east. Mrs. White had made a right hand turn from Division street onto Main avenue just as Ash was backing his car from a parking space. The farm truck was not damaged. Investigating officers said, but the right rear fender of the sedan was slightly bent.

M. B. Swanson told police at 3:45 p. m. Friday his car had been involved in a collision at the intersection of Second avenue east and Fourth street with a car driven by Calvin Dickel. He said damages had been settled between them.

Paul Krett, 153 Austin street, reported at 4:15 p. m. Friday his car and one driven by P. B. Fleming had collided on Fourth avenue south. Damages had been settled with the other driver, Krett said.

### Cold Hits East; California Bakes

CHICAGO, March 15 (AP)—Cold and occasional snow flurries ended a mild spell in the Midwest today while southern California baked in a heat wave.

Temperatures in the Midwest were well below normal and subzero readings were recorded in Montana and North Dakota. Below normal temperatures prevailed over most of the eastern half of the nation.

A slight warming trend was forecast for the Midwest starting Monday.

In Los Angeles, the mercury reached 87 yesterday, sending thousands to the beaches. The weather bureau said for north of San Francisco was holding temperatures down in that region.

### Uneasy Over Aid

LONDON, March 15 (AP)—Two British newspapers, one conservative and one labor, expressed uneasiness at President Truman's speech today and said Britain should try to mediate the differences between Russia and the United States.

"Our first reaction to President Truman's speech on Wednesday was one of uneasiness. Our second thoughts are no happier," said the Daily Herald, organ of the Labor party.

ARRESTED FOR DRINKING Jack Gotti was arrested by Twin Falls police late Saturday night for drunkenness in a local rooming house.

### France in Break With Bulgarians

PARIS, March 15 (AP)—France severed commercial relations with Bulgaria today in the most serious breach with another power since the liberation and gave two Bulgarian newspapers 48 hours notice to leave the country.

The action was taken in retaliation for the expulsion of a woman reporter for the French press agency in Sofia, after incidents stemming from the recent action of the Bulgarian government in reconstituting its currency.

### Boost Reported In Farm Income

WASHINGTON, March 15 (AP)—The agriculture department reported today that farm income for 1946 was two and a half months of this year has been running about 25 per cent above the same period last year.

For 1947 as a whole, both prices received by farmers and total cash receipts will probably average about the same as in 1946, the department said.

Farm production expenses on the other hand are showing further increases and farmers' net income for the year may be down a little, the agency said.

Cash receipts for farm marketing in 1946 are now estimated at \$23,820,000. Farm operating net income is estimated at \$15,144,000,000.

The department said farmers are getting more from cash sales than at this time last year, but much less from government subsidies.

### Petitions Ruled Not Sufficient to Kill Beer Permit

BOISE, March 15 (AP)—Idaho's county commissioners were informed today that they lack authority to revoke a beer license solely upon the petition of residents in the area.

An attorney general's opinion held in effect, that commissioners must have grounds outlined in state statutes before revoking a license, despite the fact a majority of residents of an area may have requested such action.

This opinion was addressed to the Carbon county commissioners, as was another dealing with county commissioners' powers.

Aslan, attorney General Robert B. Holden ruled that a six year lease made by county commissioners from a county hospital would be invalid unless it had been approved by a majority of the qualified electors in the county.

In a third ruling, it was held that both partially and totally disabled veterans are eligible for certain tax exemptions.

### Solons to Probe Postmaster Jobs

WASHINGTON, March 15 (AP)—Senate Republicans voted today to look into 63 pending postmaster appointments by President Truman to see whether the appointees were chosen on merit or because they were Democrats.

Senator Taft, R. O. chairman of the senate Republican policy committee, told reporters that it voted "general approval" of a resolution to investigate appointment methods.

Not one of the postmaster appointments sent to the senate by the President since congress met in January has gone on serving and drawing pay, but new appointees have not been able to take office.

Varied Social

Pre-Nuptial Shower
Virginia Fisher was honored recently at a bridal shower given by her friends, Mrs. E. M. Dossert, Mrs. Earl Macky, Mrs. A. E. Gray, Mrs. Frank Black and Mrs. Edna Jones.

The gifts were presented the bride-elect and refreshments were served by the hostesses.

Miss Fisher, who is the daughter of Mr. and Mrs. M. T. Fisher, Clifton, Colo., formerly of Twin Falls, will become the bride of John Neasey, son of Mr. and Mrs. N. B. Neasey, Twin Falls, on March 22 at the Christian church. Both the bride-elect and bridegroom-elect are members at the Northwest Christian college in Eugene. Neasey is studying for the ministry there.

The Twin Falls chapter of the American War Mothers met in the Legion hall recently with Mrs. Roy Garber, president, officiating. Members voted to donate \$50 to the piano in the Veterans hospital in Boise; \$15 for the birthday project and \$25 to the Red Cross.

Group singing was accompanied by Mrs. Edwin Koch. Refreshments were served by Mr. and Mrs. Louis Roberts, Mrs. Carl Bush, Mrs. Natalie Halley and Mrs. Lola Halley.

Immanuel League
The Immanuel league of the Immanuel Lutheran church met recently in the church basement to discuss landscaping of the new school grounds.

The bride attended the University of Nebraska school of agriculture in Curtis, Neb. The bridegroom graduated from the high school.

Following the ceremony the couple left on a wedding trip to Boise. They will make their home on the ranch in the Lucerne district near Bull.

Lenora-Hand Club
Mrs. Alice Poe presented a paper on gardening at a meeting Friday of the Lenora-Hand club when the group gathered at the home of Mrs. J. A. Howell. Mrs. Leona Strain was in charge of the business meeting.

A songfest was featured. Guests were Mrs. Clyde Ramsey and Mrs. Callie Chase, California.

The hostess was assisted in serving refreshments by Mrs. A. D. Welt and Mrs. Perry Young.

Bickel Study Group
Mrs. R. J. Hayes discussed "The Business of Being a Parent" at a meeting of the Bickel study group Friday afternoon. The speaker pointed out that there was a challenge today in being a parent and added that the wisest vocation is in parenthood.

A round-table discussion followed the latest room music meeting was held. Plans for Easter were made. Members will meet again on April 15. Hostesses were Mrs. Howard Rodger, Mrs. Leonard Hamnell and Mrs. Clarence Webb.

A weekly talk for the broom will insure a clean sweep and make it last longer.

MRS. ARVIL F. HANSHAW (Staff engraving)

Wedding vows were exchanged by Marilyn L. Black, daughter of Mr. and Mrs. William Black, Cotham, Neb., and Arvil F. Hanshew, son of Mrs. Georgia Hanshew, Bull. The couple was married at the Christian church parsonage in Bull by the Rev. Cecil Bevier at 2:30 p. m. March 8.

For her wedding the bride was in an aqua club girdle suit with black accessories. Her corsage was of gardenias and pink rosebuds. She was attended by her sister, Mrs. Frank Pearson, who was in aqua girdle with a corsage of abutilon pink carnations. Paul Hanshew, brother of the bridegroom, was the best man.

The bridegroom's mother wore a dress of royal blue velvet with a corsage of orchid stocks.

The bride attended the University of Nebraska school of agriculture in Curtis, Neb. The bridegroom graduated from the high school.

Following the ceremony the couple left on a wedding trip to Boise. They will make their home on the ranch in the Lucerne district near Bull.

A weekly talk for the broom will insure a clean sweep and make it last longer.

DARLENE HENDERSON (Staff engraving)

Mrs. and Mrs. R. L. Henderson, 323 Sixth street, Idaho Falls, have announced the engagement of their daughter, Darlene, to Kenneth H. Latham, son of Mr. and Mrs. Fred Latham, sr., 189 Fillmore street, Twin Falls.

The couple will receive vows in June at the home of the bride's parents. Later they will take a wedding trip to Denver.

Miss Henderson graduated from the Idaho Falls high school in 1945. While in high school she was president of the Pep club and member of the Theatricals and Dance club.

Following her graduation she attended the University of Idaho where she was affiliated with Sigma Lambda Delta Sigma and Psi Beta Phi.

Latham served four years in the army air force following his graduation from the Twin Falls high school. He is now attending the University of Idaho in Moscow where he is affiliated with Sigma Alpha Epsilon fraternity.

Following their marriage, the couple will spend the summer in Twin Falls. Later they will make their home in Moscow where Latham will complete his education in engineering.

Speaker Honored
The Twin Falls Duwiness and Professional Women's club entertained at a dinner in honor of Mrs. David G. Simms at the Park hotel recently. Mrs. Simms lectured in Twin Falls. Her lecture was sponsored by the BFW club.

# Life in MAGIC VALLEY

By INEZ PUCKETT  
He who fights and runs away  
May live to fight another day;  
But he who is in the skin  
Can never rise and fight again.

One of the most friendly places on the north side is Nelson's drug store in Gooding. Those folks really believe in "service with a smile" and even in wartime were thoughtful of their customers' needs. Gooding is an attractive town with streets and progress and a modern boat or barge, yet she is one of the most advanced towns on the north side of the river.

"It is fun to wander her main street and greet her business people. On a bland day a rancher's wife can sit on the veranda of the inn and watch the passing parade."

The town of Gooding was founded in 1887. This is a good while ago. The original name was

Toponka, but was later switched to Gooding in honor of Frank H. Gooding, founder of the town. The site was on his sheep ranch.

Gooding folks were on their toes educationally as early as 1877 when they already had a school. By 1900 they had an independent school district organized. In 1937 they spent \$80,000 for a junior high school. The state school for the deaf and blind has been running over there since 1910.

Your face has a good and a bad side. Actors and movie stars try to turn their best sides toward the camera and audience. Do you know which is your best side? The late John Barrymore, whose petite media ladies swoon, agreed that his left profile was perfection. "My right side," he always said, "looks like a fried egg."

All side views of Barrymore show his left profile.

"The 'Kilroy Was Here' madness still goes on all over the U. S. and in Europe that famous scrawl appears on walls, sidewalks and even the sides of cars. The thing has become a huge, worldwide gag. On a Boise sidewalk a citizen found chalked 'Kilroy fell down here' and a block down the street, 'Kilroy got up here.'"

In a case in Oklahoma was awarded, 'Kilroy was thrown out of here!'

How did the Kilroy business start? According to Martin Carmichael, discharged vet of Granite Knoll, Ida., he and a friend canoeed down the Salmon river in 1923. Near Pendleton they came upon an abandoned cabin with the roof caved in. On a log near the rafters was scrawled "Kilroy was born here." This indicates that the famous gag began right here in our Idaho.

(The San Quentin News recently carried a filler line saying "Kilroy was here fool!" That had gone around.)

Crawford P. Thrasher, former superintendent of schools at Prullman, had an unpublished masters thesis titled, "Kilroy in America and its literature." What became of this, we wonder? It should have made a fascinating manuscript. It's about time I'd go over her list due in the literary arts. We have had a number of outstanding writers in the Gem state, beginning with Thomas Williamson and Ezra Pound, and coming down to Vardis Fisher, who still abides in our midst. Idaho prints enough scrawling material for a regiment of scribblers. Our towns, our scrubby frontiers, are teeming with stories yet to be told.

"Walking a mile each day is one of the delights of winter. Come snow, come blizz, it's fun to don the velvet trichies, the light boots and fur hat, and start. The dogs rush ahead in rapture, each trying to outdo the other in capers. Sometimes the sky is full of mashed-potato-fluff clouds, sometimes it's lowering. The ranch houses look remote in an isolated world. Smoke curls from Strick-

land's chimneys. Down toward Martin's dog bark. If it's early afternoon, Mr. Eaton, our genial mail carrier, is apt to dash past in his red cap. Sometimes the school bus lurches up and emits our ranch kids. Franny, Beverly, and Barbara ride the bus to Orchard Valley school now, where they are under the expert educational regime of Mrs. Barkan.

Sometimes a neighboring ranch appears out of nowhere and stops to say hello, or discuss Orange meeting minutes. The rural world about one is calm and drawn within itself. "There is nothing like a daily walk to make you feel alive. The sun and wind beat at you, your drooped dog frisks about you, and above it's Idaho's incredible skies. The earth, animals and weather are the companions in a world gone crazy with incoherence and fear."

One of the old Perrine hotel lobby girls has picked up hard luck. Fred Thrasher has been wearing his arm in a sling for some time now and his mishap was mighty serious. Mr. Thrasher says he was helping load sheep, and slipped on some ice while trying to get a lamb out of some wire. He broke his arm in more than a half dozen places. We can imagine the consoling comments the poor fellow received from his wailing cronies in the Perrine lobby. "Glad to say to the injury is coming along when they," he told us.

"High standards of living begin above the collar, and not below the belt!" — Channing Pollock said that.

## Rayne Reigns

... of Boise, selected as state American Legion queen to reign over the Legion-sponsored Western state track and championships at Sun Valley March 23 and 30 is shown above at the open air valley swimming pool. (Staff engraving)

## Greeks Ready To Cooperate On U. S. Plan

WASHINGTON, March 15 (AP)—The White House announced today that President Truman has received messages from Greek government officials assuring they will cooperate unreservedly in United States efforts to restore peace and security there.

"Happier Era"  
Eben Ayers, assistant press secretary, said the "warm and appreciative" messages came from the Greek prime minister and the leader of the parliamentary opposition.

Mr. Truman is in Florida on a long week-end rest. The White House statement said he voiced the hope that "these evidences of good will mark the beginning of a happier era for Greece," helped by the proposed \$400,000,000 in loans to Greece and her neighbor Turkey.

"It is also my profound hope that those Greeks who have taken up arms against their government will accept with confidence the amnesty which the Greek government is extending to all except those guilty of crimes against the common law," Mr. Truman's statement said.

Mr. Truman's message to congress asking economic and military assistance for the Greek government, has revived the hopes of all.

Prime Minister Maximos, in his message to congress, said he would accept with confidence the amnesty which the Greek government is extending to all except those guilty of crimes against the common law, Mr. Truman's statement said.

## 'CARE' Parcels Carry Blankets, Sewing Material

Packages containing two blankets and sewing materials may be sent through the CARE program to France, Belgium and the Netherlands for \$10.

Deliveries will be made through CARE, a cooperative of American relief agencies. Application blanks may be obtained from Mrs. Helen Bailey, executive secretary of the Twin Falls chapter of the American Red Cross. Her office is in the city library.

Mrs. Bailey said the blanket deliveries were patterned after the "CARE" food packages Twin Falls residents have been sending since last fall.

"We are getting reports that food packages sent in November are arriving," she said.

The blankets are those manufactured for the U. S. army and are already stockpiled in Europe in "CARE" warehouses in the countries designated as eligible for receipt.

Needles, thread, buttons and pins have been included with each package to enable the recipient to convert the material into clothing.

Although the blanket parcels may be sent to only three countries at this time, San Francisco ARC headquarters indicated authorization could be expanded to include others.
