

Denver, May 5 (AP)—Representatives of the telephone workers and the telephone companies today have agreed to a settlement of the strike. The settlement was made after a long session of negotiations. The telephone workers will return to work on Monday, May 6, and the telephone companies will agree to a wage increase of 10 percent.

U.S. Arming of Greeks for War on Guerrillas Termed Tragic Mistake by Stassen

WASHINGTON, May 5 (AP)—Harold E. Stassen, although saying he favors the \$400,000,000 Greek-Turkish aid program, declared today it would be a "tragic" mistake for the United States to arm an all-out offensive against guerrilla opponents of the present Greek government.

At a news conference where he discussed the program, the former Minnesota governor also termed the general doctrine back of President Truman's policy a negative one.

He said he endorses the aid program in the form approved by the senate but hopes that military expenditures will not be such as to bring about a full scale civil war in Greece.

Instead, Stassen said, the United States should concentrate on attempting to build a stable and prosperous regime in the valleys of Greece which by its very prosperity would weaken the appeal of communism to the mountain guerrillas.

A reporter asked Stassen if he opposes the "global implications" of President Truman's proposal to support "free peoples" wherever they are threatened from within and without by communism.

"I recognize the fallacy of a negative policy of simply being against something," Stassen replied. "I am in favor of a positive, constructive approach to the economic and political problems of the people of the world."

"Then you consider the Truman doctrine a negative one?" a reporter asked.

"Yes," Stassen replied. "Capitol Hill reaction to Stassen's reports on what Stalin told him was generally along the line that this country would like to see decided bearing out his words."

"I do not want to be cynical," Senator Hatch, D., N. Mex., told a reporter. "I do want action. I do want cooperation on many fronts—including the United Nations—to be demonstrated by deeds and actions before we can place full reliance in mere words."

Talk Seen as Big Boost for Stassen Hope

WASHINGTON, May 5 (AP)—Stassen's talk today was seen as a big boost for his hope of becoming a presidential candidate in 1952.

Stassen told Stassen in his interview that the alternative to cooperation among the world powers was war. He said that the United States was anxious to cooperate with the United States and he predicted agreement on international control and respect of atomic energy operations.

Atomic Energy Control Seen
Stassen believes use of atomic energy for war is forbidden. "Things are leading up to it," he told the young man from Minnesota.

Stassen made the transcript of their interview public over the week-end. He will follow-up with a European journey to look into the home Journal and will supplement those with a renewal of his country-wide speaking campaign.

But this time Stassen will appear before the public as a first hand expert on international affairs. His European journey took him into the major capitals. Wherever he went Stassen was received by the top figures with whom he wanted to talk.

Stassen remains a long shot in the presidential betting books, but he evidently intends to improve his position.

The bulletin went to all American and allied personnel working on war crime cases.

U.S. Opposes Compromises Of Jew Talks

UNITED NATIONS HALL, FLUSHING, N. Y., May 5 (AP)—Five nations offered compromises today to guarantee Jewish representation in the United Nations debate on Palestine, but the United States announced it opposed all the plans.

Yugoslavia, speaking for the Soviet bloc presented the first compromise to the U. N. general assembly. It was a resolution which would direct the political committee to hear the arguments of Jewish agency spokesmen and "other representatives" of the Jewish population of Palestine.

U. S. Holds Out
The United States, however, was holding out for its original resolution, which would moderate the original demand that the Jews be allowed to speak before the entire assembly in plenary session.

However, American spokesmen said that the U. S. delegation would be guided by events on the assembly floor today, so a softening of the American attitude might be expected if there was sufficient sentiment among other delegates for the compromise.

But the American attitude was in sharp contrast with the Russian position, which was to demand that the Jews be allowed to speak before the entire assembly in plenary session.

Soldiers Hunt Freed Jew, Arab Prisoners

ACRE, Palestine, May 5 (AP)—Mounted troops of the Transjordan frontier force joined red-bellied British airborne units today in scouring northern Palestine for 227 Jewish and Arabs liberated from Acre prison yesterday in a mass delivery engineered by the Jewish underground.

The hunt was reported centering in the mountains around the ancient Jewish town of Safad, northwest of Galilee—where by coincidence are buried the bodies of four Jewish extremists' whose execution

two weeks ago signaled a new reign of violence in the land.

Unofficial information indicated that 16 persons—including members of the underground band which blacked a two-year hold in the wall of the ancient citadel—had been killed.

Five killed in Break
A total of 251 of the 353 inmates of the old gray-walled prison north of Haifa participated in the dash for freedom, but five-four Jews and one Arab were killed before they could make good their escape.

Nineteen-eight of them wounded—were captured within a few hours. Twenty-three others were wounded in the exchange of gunfire that accompanied the break.

At least nine of the underground fighters were reported captured or injured.

Troops of the sixth airborne division, moving with lightning speed, cordoned off at least a dozen predominantly Jewish settlements in the immediate vicinity of Acre during the night and began an inch-by-inch comb-out at dawn in a hunt for fugitives.

Greatest Manhunt
The manhunt, greatest in the history of Palestine, resulted from a historic Arab-Israeli truce on the sea of Galilee and north into the Golan Heights, at the headwaters of the Jordan River.

Authoritative sources reported, meanwhile, that an investigation into the circumstances surrounding the delivery had been launched.

A number of the fugitives—both Jews and Arabs—were serving life terms.

Southwestern Bell Offer Hikes Hope Of Phone Accord

WASHINGTON, May 5 (AP)—Hope for a break in the telephone strike was kindled today with announcement by the Southwestern Bell telephone company that it would make a cash wage-increase offer if its negotiations are returned to St. Louis.

Simultaneously, Henry Mayer, attorney for five unions affiliated with the National Federation of Telephone Workers, said in New York there might be settlement of the coast-to-coast tieup "by nightfall."

Mayer said he based his hopes on negotiations here between the American Telephone and Telegraph company's long-line division and the American Union of Telephone Workers, affiliated with NFTW.

A meeting of the NFTW policy committee this afternoon and the "intensive drive by government officials" today "both point to an imminent nationwide settlement," Mayer reported.

The attorney said he planned his comment on a statement by ATT long line division that it would review immediately the government's "aid package" weekly wage increase.

First Step Made
The Southwestern company's proposal was the first move of that kind. Bell system said to make a dollar-and-cents offer in response to the NTFW's nationwide 60-day demand. It has insisted on arbitration.

Assistant Secretary of Labor John W. Gibson told reporters the government would make no effort to block the transfer of negotiations to St. Louis, the company's headquarters city, if the parties could work out something agreeable to both sides.

Signed by President
The Southwestern company's statement was signed by C. C. Campbell, president. He noted that the company came to Washington at the labor department's request on April 26, but that it was understood that a cash-wage offer would not be made in Washington.

In the light of developments during the past week, we have told the labor department and the union that if negotiations are returned to St. Louis where all necessary men and personnel are located, we will develop and make a cash-wage offer in the region, he spokesman said.

Summary Long Awaited
The long-awaited summary from the big five committee, made public over the week-end after 15 months of secret meetings, showed Russia opposing more than a third of the general principles laid down by the international force.

The top problems which the council must now try to solve were: Russia says there is nothing in the U. N. charter requiring any country to make bases available for use by a U. N. force. The others say that the bases should be potential force without providing bases from which it could operate.

Demands Withdrawn
Russia demands that all foreign troops be withdrawn from the U. N. zone, that the U. N. be withdrawn to "their own territories" and that the U. N. be withdrawn to "their own territories" and that the U. N. be withdrawn to "their own territories."

Two hundred thirteen Negro prisoners headed the order first and six hours later the remaining 814 men involved also surrendered.

Death Claims Area Pioneer At Age of 85

Andrew Rogers, 85, pioneer of southern Idaho, died at his home, 219 Seventh avenue north, at 6:30 a. m. Monday.

Mr. Rogers, retired, was born April 2, 1862, at Langhorne, Scotland. With his father, two brothers and two sisters, he came to America in 1882 and settled in Iowa, coming to Idaho in 1890. For a long time he was in the sheep business at Three Creek, retiring in 1919 and since that time has made his home in Twin Falls. He had been a member of the Presbyterian church all his life.

Surviving are his widow, Mrs. Millicent Rogers, and one nephew, Andrew D. Rogers, Twin Falls. One brother, Robert Rogers, also a south Idaho pioneer, preceded him in death.

Funeral services will be held at 2:30 p. m. Wednesday at the White, military chapel with the Rev. Donald B. Blackstone, Presbyterian minister, officiating. Burial will be in the local cemetery. The family requests that no flowers be sent.

CONDEMN LAND POCAHELLO, MAY 5 (AP)—The Union Pacific railroad company today had filed condemnation proceedings against the city of Pocatello for 4 1/2 acres of land in the park golf course. The land will be used for an estimated \$20,000 switchyard extension program.

The minister said there was a risk the communists, out of the cabinet, would use the power of 6,000,000 members of the COT (labor union federation) to oppose government policies.

First No-Raid Government
This marked the first time France has had a government without the extremists left in it since the liberation. The cabinet members were the first to be named.

The cabinet members, who asked that the United States hold the line to the success or failure of the experiment to govern with the labor-dominated communists in opposition, were named by the French government.

He expressed belief the United States by sending food and financial help to the Hamad government could maintain its claim in the ranks of French workers.

Seven Medical Problems Still Baffle Science

CHICAGO, May 5 (U.P.)—A spokesman for the American Medical Association, on its 100th anniversary, today pointed out seven medical problems which science still must solve.

Dr. Morris B. Fathin, editor of the AMA Journal, listed these seven problems as the most important ones facing the medical profession:

1. Cancer—More people die from it than any other single disease.
2. Cancer—One in every eight persons is likely to become a cancer victim.
3. Virus diseases—including infantile paralysis and the common cold.
4. Atomic radiation and its effect on human beings and human tissue.
5. High altitude and speed effects on pilots.
6. Degenerative diseases of the nervous system.
7. Psychiatric problems arising from the high-speed, high-tension environment.

Fathin said the prospects for solving the problems was "good." He said the progress of medical science in the last 50 years was "greater than at any of the previous history of man."

Because of the increasing speed of the evolution of medical knowledge it is possible that we make more progress in the next 50 years than the last 50 years," he predicted.
