WASHINGTON, May 12 (AP)—Dean Acheson resigned today as undersecretary of state and President Truman appointed Robert A. Lovett to replace him June 30.

Lovett, a New York banker, is a former assistant secretary of war.

In disclosing the changes, the White House made public a letter in which Mr. Truman wrote Acheson of his "great regret" that "I can not again ask you to put aside your desire to return to private life."

Acheson has long sought to resign and return to private life.

## Marshall Still Calls Merger 'Plan Needed'

WASHINGTON, May 12 (AP)—Secretary of State Marshall, while asking to be relieved of further tasking of the state department, nevertheless holds to his belief as a soldier that army unification is "essential."

Chairman C. R. S. Dink released a letter containing Marshall's views today as the senate armed services committee headed for a showdown on the hotly disputed merger issue.

Shying from any public forecast of committee sentiment, Dink said that he expects the pending bill to be cleared to the senate floor for consideration.

One committee member, however, who asked not to be named, predicted that "not more than three or four members who have been listening to conflicting testimony for eight weeks would oppose the unification plan."

Not on "Must" List  
But even if that happens the prospect for final congressional action on the bill is not bright. The House committee still is in the midst of its own hearings, and the two major legislative marks down as "must" at the last meeting of the committee.

## 19,000,000 Under Arms; Survey Tells

NEW YORK, May 12 (AP)—National defense officials here today said that the United States has almost 19,000,000 men under arms and are spending perhaps \$100,000,000,000 on armaments that they did on the eve of war in 1918.

The survey was written by Hanson W. Baldwin, the Times' military writer, and was based on a survey conducted by him and Times correspondents in many countries.

Baldwin said that about 40 nations are spending at least \$2,000,000,000 a year on armaments.

"The Times survey placed the United States sixth in armaments strength, as follows: China, 5,750,000 (nationalist and communist); Russia, 5,500,000; Great Britain, 1,200,000; India, 1,000,000; Turkey, 675,000; and United States, 670,000. But the story added:

"The United States has so tremendous a lead in sea power that not even Britain is a close second. The shipyards of the world are turning out relatively few new naval vessels."

Baldwin placed Russia's defense funds for this year at \$700,000,000, which would equal \$13,000,000 at the official rate of exchange.

The budget being discussed in congress includes \$11,250,000,000 for arms," the writer added.

## Congressional Battle Predicted When Sugar Quota Revision Goes to Debate

WASHINGTON, May 12 (AP)—New sugar quota legislation introduced by Agriculture Secretary Anderson is not likely to get consideration until next year.

The measure, which would increase the sugar quota from 1,000,000 to 1,200,000 tons, is expected to be introduced in the next session of congress.

Chairman Milliken, R. Colo., of the senate foreign relations committee, which would have to consider the measure, said today that he expects the measure to be introduced in the next session of congress.

Under the law, the secretary estimates that the sugar quota will be increased from 1,000,000 to 1,200,000 tons.

Anderson suggested, in a letter to

## Resigns Post Seen in 4 Industries

WASHINGTON, May 12 (AP)—Four industries still are potential trouble spots on the labor-management front:

1. Coal.
2. Maritime.
3. Railroads.
4. Construction.

CIO factory workers have won wage increases without striking. The telephone still is about stable. These developments were good news for America. But there may be some bad news around a couple of corners.

The situation in each of the possible trouble spots is this:

Coal—A strike is expected for July 1. That is when the government must restore the bituminous coal mines to private operators. And John L. Lewis and his union have been in contact with the government on the terms of a contract.

Maritime—The contracts of the CIO maritime union will expire June 15. The biggest unions involved are Joe Curran's National Maritime Union on the east coast, and Harry Bridges' longshoremen on the west coast.

Railroads—The rail unions have won wage increases without striking. The telephone still is about stable. These developments were good news for America. But there may be some bad news around a couple of corners.

Construction—Local wage disputes in the building trades are cropping up. The CIO construction union is unwilling to sit down with northern operators and Lewis to write a single contract.

## High Tribunal Okays Freight Rate Changes

WASHINGTON, May 12 (AP)—The supreme court today upheld an interstate commerce commission order raising railroad freight rates 10 percent in the north and east and lowering them 10 percent in the south and as far west as the Rockies.

The commission ordered the changes after officials of southern states complained that higher rates in their region gave northern manufacturers competitive advantages.

Affected are so-called class rates. These apply principally to manufacturers.

Justice Douglas wrote the court's opinion, which was 5-4.

Justice Brandeis wrote the dissenting opinion, which was 4-1.

NEW YORK, May 12 (AP)—The coast-to-coast telephone strike entered its sixth week today with an estimated 185,000 members of unions affiliated with the National Federation of Telephone Workers still on strike.

Their refusal to cross picket lines of still striking unions kept many thousands away from their jobs, but in San Francisco the CIO American Communications association, declaring the NPTW strike "has been broken," announced that its 12,000 members in northern California and Nevada would return to work.

At St. Louis, the Southwestern Bell Telephone company announced the latest demand of the Southwestern Telephone Workers union (Ind) was "not acceptable."

### Bridge, Van Damaged as Vehicle Sways

Both the bridge and a heavy van took a beating Sunday afternoon when the big tractor-drawn vehicle swung both sides of a steel bridge across the canal two miles east of Murtha, according to investigating sheriff's officials.

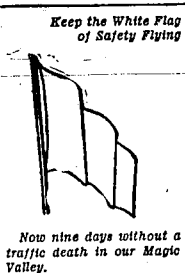

The van was attached to a tractor driven by John Harding, 41, Burley, and the vehicle was owned by Harding and A. G. Ramsey. He told officers that the tandem wheels on the van became loose and caused it to sway against the right side of the bridge near where it enters the highway toward Burley on U. S. highway 30. After smashing into the structure and tearing away the guard rail and damaging the top of the van, it swayed to the south side and struck the second panel of the guard rail, tearing it loose from the bridge frame. The vehicle then traveled on safely through to the highway on the other side.

Time of the accident was about 4:40 p. m.

At 12:45 p. m. Sunday, a ton and a half built truck carrying a three-ton load left the highway and overturned after knocking out a telephone pole half a mile north of Filer on U. S. highway 30, sheriff's officials reported. The machine, driven by Ronald Fairchild, 31, Burley, went out of control after it struck the rear of a sedan driven by Mrs. Edgar D. Vincent, route 1, Burley, went out of control and struck a left turn. Mrs. Vincent said officers that she believed she signaled for the turn.

Damage to the sedan was estimated at \$100, that to the truck at \$500.

Sheriff's office has also received a report of an accident involving three cars Saturday afternoon. This occurred when a brake on a ton and a half truck driven by S. B. Hale, route 1, Castleford, failed to hold and he crashed into unoccupied passenger car owned by Raymond Walker, and Earl Meyer of Buhl.

"Locally you might be able to stop it temporarily, but it would resume the process and the rain would continue," he said, smiling again.

"We are serious about this," Representative Stefan continued. "When they hear that scientists are producing snow storms at will, naturally they are interested."

"And naturally we are interested," he roared. "And just so we are not trying to be humorous about it, it is a very serious thing with us. The head weather man's smile disappeared. He said he'd do his best to do something more than talk about the weather."

area to produce all the sugar it can or desires to produce and allocation of the remaining needed amount to foreign producers, including Cuba.

Representative Dawson, R. Utah, said Cuba is not a possession of this country and certainly has profited by her sales of sugar to the United States. He said he will advocate this domestic areas, including the possessions, be given an opportunity to produce all they can.

Most new reclamation projects will add some beet acreage to the present total and their feasibility is based on their prospective income, said Representative Hill, R., Colo.

He added:

"I am not in favor of controlled acreage and any increase for Cuba should be predicated on assurance that no restrictions will be placed upon domestic production."

There have been no restrictions on production since 1942 because of a shortage of supplies to meet the world's needs. None is anticipated before 1949, Anderson said.

### Movies Need Homely Girls, Official Avers

HOLLYWOOD, May 12 (AP)—A top director said today that what the movie industry needed was homely girls.

Hollywood is the only city in the country, Irving Rapper said, where all the girls are beautiful. It's great, he said, but it's unnatural.

"When I want extras for a street scene," he explained, "the only girls I can hire are shapely and graceful. You can't tell me there's a street in the country where you don't see some woman who looks like."

**No Talent Surplus**

He had the same trouble picking extras for a nightclub scene when he made "Voice of the Turtle" at Warner brothers.

"All the girls were beautiful," he said. "I told the casting office: 'This has got to stop. There's no nightclub in the world that has all beautiful customers.'"

"In real life a girl doesn't have to be a beauty to get into a nightclub. Sometimes she gets a date because of her personality."

There's never a surplus of talent in Hollywood, Rapper said, with or without beauty. But if the stream of beauty continues, he foresees a sad fate for the movies.

"It's painful to see all those girls pouring into Hollywood, when 90 per cent of them or more will be woefully disappointed in a film career," he said.

"They don't realize it, but they're depriving the rest of the country of beauty that would be much more keenly appreciated in New Bedford or Des Moines."

### Wallace Sets First Lecture Of U. S. Tour

MINNEAPOLIS, May 12 (AP)—Henry A. Wallace, who long has found an audience among Minnesotans, was here today on the first stop of a stumping tour to carry his "light for peace" to the nation.

The former vice-president who was ousted from his cabinet post by President Truman, was expected to attract upwards of 10,000 persons to the municipal auditorium.

He was the guest of the Democratic-Father-Labor party, heir to the third party that in the late 1930's buried Minnesota Republicans and Democrats alike under a avalanche of votes. It was in behalf of that party that Wallace spoke before an estimated 12,000 persons last October in the DFL's luckless election campaign.

Co-sponsors were a number of state labor groups, both AFL and CIO, and the independent voters of Minnesota. And although interest in Wallace's first major speech since his return to this country was high, sponsors were giving the event strong publicity.

Dr. Theodore Jorgenson, the DFL candidate for the senate seat won by former Governor Edward J. Thye, has praised Wallace's speeches abroad.

"I have not heard what might be called an American gospel preached in Europe by anyone except Henry Wallace," he said.

This was accepted as a pointed reference to Minnesota's Harold E. Stassen, the only announced Republican presidential aspirant, who returned to his home Thursday from a trip abroad in which he purposely "missed" Wallace's Stockholm address.

### War Widows Told Of VA Regulation

War widows who are receiving pensions from the veterans administration and who re-marry today were warned by W. G. Ruppman, veterans administration contact representative, to return all checks sent them after their re-marriage.

"Federal law prohibits widows of World War I and World War II veterans from receiving pensions after they have married again, and violators of the law are punishable by severe penalties," Ruppman stated.

"Many re-marriages of widows of veterans are occurring every month without notification being given to the proper authorities to stop such pensions. Notification should be given to the disbursing office, advising of the marriage, the date thereof, and requesting discontinuance of such pension," said Ruppman.

Veterans or their dependents who are receiving compensation from the VA are also warned they should keep the VA informed of their current address, as government checks cannot be forwarded.

### Ruth Judd in Third Escape From Asylum

PHOENIX, Ariz., May 12 (AP)—Winnie Ruth Judd, who killed two women and shipped their dismembered bodies to Los Angeles in a trunk in 1931, escaped early today from the state hospital for the insane, Dr. John A. Larson, superintendent, announced.

It was her third escape since she was saved from execution by being adjudged insane.

Her escape from a second floor cell-room was discovered by an attendant at 12:30 a. m. She was last seen at 9 p. m.

Dr. Larson used the word "contingency" in explaining escape of the 48-year-old murderer.

He said she was believed to have used a key which opened two doors, one on the second floor—whilst allowing her to descend a stairway—and another on the ground level.

A gate on the north side of the hospital grounds was found open, Dr. Larson said.

Officers immediately were sent to bus stations, the airport and railroad station as a widespread search for the "tiger woman" got under way.

However, it was considered possible that an automobile might have been waiting outside the grounds for the red-haired former nurse.

Deputy Sheriff Buck Stockton took two bloodhounds to the hospital grounds but they failed to pick up her trail.

Dr. Larson said Mrs. Judd had been "very unhappy" since he moved her from the infirmary 10 days ago.

**Removes the "goo"**

**Improves the go!**

Here's premium-plus lubrication

Sure there's more go when you remove the "goo." There's nothing to stick rings or interfere with free valve action and smooth, powerful piston strokes. Get rid of engine deposits—sludge, varnish, carbon, and soot—and you have a sweeter running engine ... a better lubricated, longer lasting engine.

Removing the "goo" is the basic idea in motor oils — it's the Permalube idea. For Permalube contains a patented ingredient which not only cleans up engine deposits already present but prevents new ones from forming. There is definitely more go when the "goo" drains out.

"I never saw oil drain out so dirty!" "Good! That shows Permalube's been taking out the 'goo'!"

When you wash your hands, the basin water gets dirty. But your hands get clean! Same way when you use Permalube Motor Oil. The oil gets dirty. But the engine gets clean. The dirt is carried out of the engine when you drain out the oil.

Change to Permalube for premium-plus lubrication

# Four Games at Jaycee Park This Week to Pick Entrants in High School Diamond Tourney

The four teams—two A and two B—which will play in the district high school baseball tournament to open at Jaycee park a week from Tuesday will be decided in games this week.

On Wednesday afternoon, Aecqua, champion of the Mini-Camela sub-district, will oppose Castelford, the south side sub-district winner at Jaycee park. The winner in this game will enter the district tournament along with Shoshone, the north side champion, which last week defeated Kaysville, the King's Hill sub-district titleholder. Shoshone and the winner of the

Castelford game will not meet in a post-tournament game to decide the district B champion. The coaches will allow the teams to play at the end of the tournament to decide the winner. However, they will play a coin to decide which enters the tournament as the winner and which the runner-up. In the tournament, the champion and runner-up will enter the

state tournament to be played at Lewiston May 20-21.

**CLEVELAND TEAM WINS**  
LOS ANGELES, May 12 (AP)—Cleveland won its second American bowling congress team championship when the 2,023 total of the Eddie and Earl Lind team stood up under the final attack by 72 teams in the national league classic last night.

Y Old Sport Scrivener's grapevine from South Bend, Ind., brings the information that the Magic Valley may have a representative on Notre Dame's Fighting Irish, the national football favorites, in a couple of years hence.

Steve Lyle Ferguson, whom Coach Hank Powers of the Twin Falls Bruins is not a bit backward in processing his all-time gridiron great.

Lyle—a freshman who won't be eligible for varsity competition until 1948—was selected from among the hundreds of gridiron candidates by Coach Frank Leahy to oppose the graduates in 1947 varsity team scrimmages recently, and he really showed plenty of promise. In fact, the grapevine says that Lyle got away for 50 yards against next fall's prospective national champions.

The ex-Bruin found the going plenty rough, as all Notre Dame do, and came out with plenty of scars.

It's one of the nation's greatest honors to become a member of a Notre Dame squad and if Lyle makes it he'll be gaining plenty of prestige for football in the Magic Valley.

AND THAT'S THAT FOR NOW, except: The old grapevine also licked off this information: Another ex-Bruin, the popular Jimmy Russell, took a five-under-par 31 in a Texas tournament the other day.

Puerto Rico literally means rich coast.

The deadlocked leaders have won nine each and lost three. They're followed by Boise at 4-8, Pocatello at 3-5 and Ogden at 2-10.

Tonight's probable pitchers: Pocatello (Griggs) 1-0 at Ogden.

**SHUT OUT**, leading money winner of 1942, is in at Lexington, Ky. The Greenlee Stable chestnut son of Equinox is bringing a \$1,000 fee in stud and his book is full for this year.

40,903, 7-3 and 6-4. The Cardinals emerged with a win and a tie in their doubleheader in Pittsburgh, winning the first in 10 innings, 10-6, and tying the second, 3-3, with the game called at the end of seven innings by the 7 p. m. Pennsylvania curfew law.

## DEMARET: Select the Club Which Permits Natural Stroke

By JIMMY DEMARET  
Master of the Masters  
No one can tell you what club to use.

The trait of selecting the right weapon is acquired by practice and experience.

The golfer, the elements and the standing of the match must be taken into consideration.

Never select a stick which requires you to baby a shot or force you to press.

Pick an implement which permits you to use your natural Jimmy Demaret stroke.

Coming up to a hole in a wind I might take a five iron and push the ball into the wind. I might use another club on the same hole when there is no wind.

All do not obtain the same distance. There are traps, water hazards and other things to consider, so there are individual problems. One might use a three iron where another might play a five.

Time and again I've seen players who go around in from 85 to 100 handicap themselves by picking the wrong club.

It is bad golf even if they make a good shot. And say a golfer who goes around in 85 chooses the wrong club five times and makes as many poor shots. You can see what it does to his score.

But if a golfer realizes his capabilities, he should know how to select his club.

**LOCKE HOUSTON WINNER**  
HOUSTON, Tex., May 12 (AP)—Bobby Locke, golf champion of South Africa and touted by Sam Snead as a coming great of the game, made his bow look good as a prophet to those who watched him win the \$10,000 Houston open yesterday with an 11-under-par 277.

## Gordon's Play Giving Indians Pennant Hopes

By JOE REICHLER  
Associated Press Sports Writer  
What a difference a player makes.

A month ago anyone brash enough to pick the Cleveland Indians to win the American league pennant would have been labeled a "nut" and rushed to the nearest psychopathic ward.

Today that thought is wandering through the minds of many fans—and they don't all live in Cleveland.

And oddly enough, their biggest reason is not Bobby Feller, baseball's No. 1 right-hander. The guy is the former Yankee star second baseman, Joe Gordon.

Performing like a thoroughbred at second base and teaming perfectly with Lou Boudreau in the field, Gordon has set a terrific pace with his new club. At the moment, the Indians are batting well over .300, is leading the league in home runs and trails Boston's Bobby Doerr in the important run-batted-in department.

The 32-year-old Oregonian hammered out two home runs and a single yesterday and drove in four runs to lead the Indians to an overwhelming 16-1 victory over the Browns. The triumph enabled the tribe to take over the runner-up spot only a game and a half behind the front-running Tigers, who swept a doubleheader, from the White Sox, 10-0 and 6-1, before 45,755 fans in Chicago.

The defending champion Sox gladdened a crowd of 32,211 hometown rooters by nocking out the Yankees, 8-7. The Athletics divided a pair with Washington, winning the opener, 4-0, and dropping the nightcap, 2-1.

The Cubs took the National league lead by one full game from the Braves by whipping the Reds in Cincinnati twice, 6-3 and 4-3, a turnout of 51,840 saw the hometown Giants hold the Braves to a split as the Polo grounders won the first, 4-1, and lost the second, 11-3.

The Phils handed the Dodgers a severe jolt by thumping them twice before a record 51,146 park crowd of

## Softballers to Organize Play

The meeting was called by Russ Wells, district commissioner.

## Sarlo Reports Ogden to Get New Players

OGDEN, May 12 (AP)—Jim Robertson, right-handed pitcher, and Bobby Carrson, infielder, are en route from Columbia of the South Atlantic league to join the Ogden Reds, business manager Johnny Sarlo reports.

Carrson is subject to recall by the Syracuse club of the International league.

"We have several players in mind to bolster the present Ogden club, and naturally we hope to get back into the thick of the pennant race in the Pioneer league."

## Backstop Rushes to Aid Injured Danielson

Oaks Bady, a husky 20-year-old who finished up last season after his discharge from the navy with Sacramento in the Pacific Coast league and who was with Wenatchee in the Western International this spring, no sooner had landed here Sunday than President Maury Doerr rushed him to Idaho Falls to plug the hole made in the Cowboy catching staff by the injury to little Hal Danielson in Friday night's game.

Danielson reinjured the thumb on his right hand and Chuck Balsani had to be brought in from the outfield to relieve him.

Sady not only will assist Danielson but will serve as a general utility man for Manager Earl Bolyard's team.

A general rainstorm washed out all three games last night and left Salt Lake City, the Cowboys and the Idaho Falls locked in their three-cornered tie for first place.

The class C loop clubs will make another try at it tonight with the same pairings, the Reds against the Boise Pilots, the Cowboys against the Ruseetts and the Pocatello Cardinals against the Ogden Reds at Ogden.

The deadlocked leaders have won nine each and lost three. They're followed by Boise at 4-8, Pocatello at 3-5 and Ogden at 2-10.

Tonight's probable pitchers: Pocatello (Griggs) 1-0 at Ogden.

## A CHALLENGE TO THE CLASS OF '47

Your country needs you now. The future of a free America may rest on your decision.

There is no Draft today to put you in the Army. Yours is the first class since 1940 that faces a free choice. But with that freedom, as with every freedom, goes responsibility.

The nation has put the maintenance of a strong, alert, defensive force squarely up to you. This is the only country in the world that dares to raise and maintain a million-man Army by voluntary enlistment, in the American tradition. The duty of keeping our Army ready for emergencies is shared by every citizen—for never before, in peacetime, has the need for it been greater.

Our freedom, our ideals, the safety of our homes and families, depend on a world peace backed by

firmness and justice. It's your Army now—yours to keep strong.

Joining the Army as a volunteer may mean some sacrifice to you. On the other hand, you have much to gain from the experience. Sound physical condition, training in leadership, world travel and adventure, the comradeship of a fine group of young men, a job with a real future at better pay than you can get in most civilian work—all these make the Army an excellent career for young men who can measure up to its high standards. And in addition you will be entitled to educational benefits under the GI Bill of Rights, if you enlist before Congress officially terminates the war.

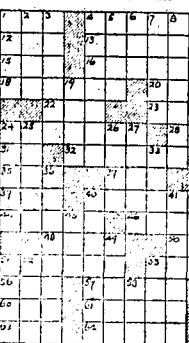

Before making your decision, get the full story of this career opportunity at your nearest U. S. Army Recruiting Station.

# Long Debate, But Wool Bill Awaits Action

WASHINGTON, May 12 (AP)—After weeks of hearings and argument, the fate of the wool bill still hangs in the balance.

It is up to the house committee to decide what action shall be taken.

Congressmen from the wool growing states still hope the measure—intended to provide support for the wool growing industry—can be brought before the house for action.

They say they believe it will pass if it does not come on the floor. It already has won senate approval.

The rules committee is the final barrier that any controversial legislation must clear before it can win consideration by the house. If the committee says "no," the "no" sticks, unless a majority of house members sign a petition to override the decision.

The senate bill provided for support of the domestic wool market at the 1946 price level. The house agriculture committee amended this to provide that the secretary may impose import fees if the domestic market is in danger of being "impairing" by imports. The fee also would apply as a "floor tax" on foreign wool already stored when ever it might be released from warehouses for sale.

Representatives Barrett, R., Wyo., and Granger, D., Utah, two leaders in the house fight for the legislation, told a reporter that wool growers are ready to drop the section providing for fixing of fees by the secretary of agriculture and the "floor tax."

Both said that much of the opposition to the bill originated with the Boston wool trade. Last week, Representative Lane, D., Mass., asserted in a statement that the wool bill, if passed, would "give spur to the inflationary menace."

**The tire you missed the most is here again!**

All during and since the war, you have asked when there would again be a tire as fine as the Royal Master.

At last the Royal Master itself is here again! And it is as fine—and even finer—than the Master made before the war.

It brings back the same extra mileage that kept so many of you going all through the war. Its tread is extra tough and extra deep—its original safety features can be renewed to give you up to 50% more anti-skid mileage.

It brings once more the all natural rubber De-skidded tread that made you always so much safer. And De-skidding still means tread action that cuts right through slippery road film the instant you touch your brakes. Sharp tread edges grip dry pavement... stop you 4 to 223 feet quicker.

The smooth-rolling rides you found so restful—the fleet, flowing beauty of design—these, too, are back with today's Royal Master. And now, new, tougher cords are built into the Royal Master—making you safer than ever before from the danger of blowouts.
