Western Electric Workers Return To Picket Lines

WASHINGTON, May 19 (AP)—Striking installations workers of the Western Electric company today re-established their picket lines, forcing curtailment of telephone service again in some areas.

In New Jersey, the Bell telephone company reported several main exchanges were "heavily picketed." Service was placed on an emergency basis at points where operators refused to cross the picket lines.

Some curtailment also was reported in Illinois, but in New York other workers ignored the pickets and went to their jobs.

In Salt Lake City, operators remained away from their jobs again despite a settlement of their wage dispute with the company, the girls declining to pass the western electric picket lines. Local telephone calls were not disrupted, however, because the service operates on a dial system.

The Association of Communication Employees, who numbered 20,000 members, sent the pickets back to their jobs pending the outcome of negotiations here for a new settlement. The lines were withdrawn temporarily last week.

Conference fails
An 18-hour negotiating conference failed to beat the 11 a. m. (local time) deadline set by ACEW for restoration of the lines.

It remained to be seen, however, how effective the action would be in crippling local non-dial and long distance service.

The picket lines—some of them disbanded for a week or more—were ordered restored by a union representing 20,000 installation workers of the Western Electric company.

Strikes in seventh week
The ACEW is one of the few unions still at odds with the Bell system as the strike enters its seventh week.

John Murray, a labor department consultant, announced only this: "At 4:30 p. m. the company submitted a wage proposal. The conference recessed at 3 a. m. until 2:30 p. m. today, at which time the union will on a reply to the company's offer."

No Cooperation, No Aid, Idahoan Urges for Soviet

WASHINGTON, May 19 (AP)—A letter to all Idahoans, signed by a husband and wife, urged that no aid be given to the Soviet Union, that country shows a definite spirit of cooperation was urged today by Rep. John Sanborn, R., Ida.

Sanborn argued that along with helping other peoples to reach communism, it should make a stronger effort to overcome communism in this country.

He referred to the Truman administration's foreign policy as "strongly suggesting a desire to create an emergency."

"It is on 'emergencies' that the new deal has lived for the past 15 years," Sanborn said in an interview. The Idaho congressman also proposed a study of the home capacity for foreign aid.

"Few people know that Greece has received \$100,000,000 in aid, various kinds since the war, to say nothing of what assistance the British may have provided."

"It is a pity we must find some better method of aiding the needy people of other nations than by financing their governments."

Debut Cancelled by Truman's Daughter

PITTSBURGH, May 19 (AP)—Margaret Truman said today that against the wishes of her aged and ailing grandmother—"who wanted me to go with it"—she cancelled her concert stage debut scheduled here for tomorrow night.

The President's daughter, arriving here from New York, decided to switch from train to plane to rush to Mrs. Truman's bedside at Grandview, Mo.

'Admirals Are Sloppy Eaters,' Othman Concludes After Finger-Bowls Hearing

By FREDERICK C. OTHMAN
WASHINGTON, May 19 (AP)—Careful study of the evidence bore me to conclude that admirals are sloppy eaters. At breakfast they eat from a tray, at lunch they eat from a tray, at dinner they eat from a tray. This is the way the navy eats. This is the way the navy eats. This is the way the navy eats.

The gold-plated gentlemen with the silver-plated spoons never learned to do so. They never learned to do so. They never learned to do so.

Tax Cut Period Near, Congress Told by Snyder

WASHINGTON, May 19 (AP)—Secretary of Treasury Snyder told congress today that "a period of tax reduction is approaching." But he made no recommendations as to what taxes should be cut or when.

Snyder further told the house ways and means committee that congress should "consider" how to reduce taxes at some later—undetermined—time.

The 5,000-word prepared statement by the treasury head made no mention of the \$4,000,000,000 tax reduction bill passed overwhelmingly by the house despite administration opposition. The bill is now awaiting senate action. Nor did Snyder's statement say whether President Truman might veto this tax cut bill if it reaches him.

Snyder was the first witness as the committee began hearings on a general revision of the entire tax setup.

He did not elaborate on his reference to an approaching period of tax reduction, saying: "I am not sure."

Near Payroll Levels
"We are nearing lower percentage levels of government expenditures and continuing high levels of national income and production. A period of tax reduction is approaching."

Snyder's statement contained thumbnail sketches of 20 levels which have been under treasury study, but made no recommendations concerning them.

"It is highly unlikely that the fiscal and economic situation will warrant enactment of all the unduly desirable revisions at the same time," he said.

Many Tax Subjects
Tax subjects on which the treasury head commented included personal income taxes and the splitting of family income; corporate income taxes; taxation of dividends; tax-exempt organizations such as co-operatives, excise, estate and gift taxes and social security laws.

Snyder said of individual income tax rates: "The rates must be re-examined to determine their effects on incentives to work and invest and their effects on living standards and purchasing power. Revision of the rates could be coordinated with other changes in the income tax such as personal exemptions and the treatment of family incomes."

He said that the treasury department is studying the effects of the LBS first ward, turned in his LBS on camping to win "A" ribbons. Kwanza's troops' wolf patrol, the army today banned private shipments of American cigarettes and tobacco to Germany effective Monday, May 28.

The action does not affect the supply made available through army post exchanges, which the army said is sufficient to meet the normal individual needs of GIs and civilian workers.

'Drink' Licensing Appears Assured In Larger Towns

By The Associated Press
The licensing of liquor by the drink establishments in major Idaho cities after July 1 seemed certain today as "dry" failed to file petitions demanding local option elections as provided by the new state law.

In the absence of a negative vote by city residents, local councils are empowered to license establishments selling alcoholic drinks across the bar in conformance with a law adopted by the last legislature.

The serving of liquor drinks has been illegal in the state the past 60 days. Prior to adoption of the new law, drinks were served in so-called locker clubs where patrons brought their own bottles.

Today was the deadline for filing petitions for elections prior to July 1, 1946. An election must be called if 20 per cent of the residents sign petitions asking the question.

Truman Asks Congress for Disability Bill
WASHINGTON, May 19 (AP)—President Truman asked congress today to give immediate attention to enactment of a federal health and disability insurance program.

In a special message to the legislature, Mr. Truman declared such legislation is crucial to our national welfare.

Under the terms of program he asks, a worker unable to work because of injury or illness would receive government payments.

Mr. Truman told congress: "Three Basic Needs
Of the four basic needs to the security of working people and their families—unemployment, old age, death and sickness—we have provided some insurance protection against them."

Protection against the fourth—sickness—is the major missing element in the national social insurance program.

Mr. Truman's message asked, in addition: "Expand Programs
1. Adequate public health services, including an expanded maternal and child health program.

2. Funds for research and medical education.

3. More hospitals, and doctors, especially in sparsely settled areas. The total health program which I have proposed is crucial to our national welfare," he said. The heart of that program is national health insurance.

Card's Flag Chances Close to Hopeless After They Lose Twin Bill to Phillies

NEW YORK, May 19 (AP)—Only a miracle can save the Cardinals now. That was what the bold-faced headline on the wall said today about the once proud and jumpy world champion Red Birds. It is early in the season and the feeling prevails that the club will snap out of it, but there are those who are considering the possibility of their plight.

They face teams in a strengthened league which no longer are terrorized by the power and pitching that brought the Cards four pennants in the last five years. Pitching was at fault in the first game and hitting in the second yesterday as the Cards blew a double header to the Phils at St. Louis, 6-3 and 10-1 in 12 innings. Murry Dickson dropped his sixth straight game in the opener in which Philadelphia made 18 hits. Howie Schultz and Del Ennis getting three each. George Skovronski homered for St. Louis. Ken Keltnerberger outbatted Al Bralle in the second game battle of lefthanders, winning when Schultz singled, went to second on a wild pitch and scored on Ennis Verone's single.

The Athletics made it a big day for Philadelphia and a very sad one for St. Louis by knocking off the Cardinals in the opener. The White Sox also utilized late rallies to win 4 to 3 and 3 to 2 in two games. The Cardinals' two-run double gave pitcher Earl Barrett victory in the fourth game on the strength of a ninth in the first game, while the White Sox scored the tying run in ninth on Luke Appling's single and the clincher on Murrell Jones' long fly as Oval Grove pitched the second triumph.

Best-Ball Event Here In Semi-Final Round

The field in the best-ball tournament at the Twin Falls municipal links was finally reduced to the semi-final Sunday in all five flights when the matches postponed a week because of rain were played. Arnold Johnson's play was outstanding. He hung up birdies on his first and third hole and on the fourth his ball stuck on the rim of the cup for what would have been another.

Marlow's Single in 9th Wins for Waddies

Manager Earl Bolyard put his faith in a teen-ager, 19-year-old Frank Logue, Bremerton, Wash., right-hander, as the Cowboys prepared to battle the Salt Lake City Bees in the final game of the four game series at 4:15 tonight and hoped that the outcome would see his Wranglers again in the Pioneer League leadership.

What a Thriller!

Salt Lake City 4, Twin Falls 3. The game was a thriller from start to finish. In the fourth inning, Chuck Beale's one-bagger to left, his theft of second and Dan's single over second produced the run that gave the Cowboys the lead until the fifth when Collins' single, his theft and Schrick's one-base blow gave the Bees a tying run.
