No More Foreign Aid Projects Are Seen by Marshall

WASHINGTON, May 20 (AP)—Secretary Marshall said today he does not foresee any further appropriations for such purposes as the \$400,000,000 Greek-Turkish and the \$350,000,000 foreign relief programs.

The secretary told a news conference, however, that he is not prepared to say what may be required in the future.

Marshall added that while the state department does not plan any further requests for foreign funds, the war department soon will ask more money for expenses in the overseas zones, including \$78,000,000 for Korea.

House Passes Cut for 1948 Naval Budget

WASHINGTON, May 20 (AP)—The house passed today a bill to cut \$4,469,781,100 from the 1948 naval appropriation bill over Democratic protests. It means a forced reduction of \$2,000 in the strength of the navy and marine corps.

Passage was by voice vote.

The sum is about 11 per cent under the amount President Truman asked for the navy for the 12 months beginning July 1.

The cuts were made by the house appropriations committee.

Texas Leads Fight

Rep. Albert Thomas, D., Tex., led an unsuccessful fight to restore the amounts cut off.

Thomas argued that if the cuts are made the navy will be reduced to the blue-jacket force by 70,000 and the marines by 12,000.

In a prepared speech at the house started debate on the \$4,469,781,100 bill. Thomas said the navy gave him that information.

Proposed cuts in pay and subsistence items, he contended, will cause a reduction of 70,000 in the average enlisted strength of the navy during the coming year and 12,000 in the marine corps.

Force "Inefficient"

The effect will be a force "entirely inefficient to carry out the navy operating force plan," Thomas said, adding:

"During these troubled times I deplore the wisdom of such a move."

Senate Given Bill to Cease Sugar Ration

WASHINGTON, May 20 (AP)—Senators McCarthy, R., Wis., and E. A. Tamm, D., Md., today introduced a bill to end the sugar rationing program.

The bill would allow the government to continue to ration sugar for a limited period, but it would require the government to phase out the rationing program by the end of 1948.

Nations Hurt Most by Japan To Get Biggest Spoils Share

WASHINGTON, May 20 (AP)—The nations which suffered most at the hands of Japan and who have the most to fear from her will get the biggest share of Japanese reparations, the United Nations commission indicated today.

The 11-nation commission, which is studying the Japanese reparations problem, said it would recommend that the reparations be divided into two parts. One part would be paid to the nations which suffered most from Japanese aggression, and the other part would be paid to the nations which were allies of the United States.

The commission said that the nations which suffered most from Japanese aggression were China, the Philippines, and the United Kingdom. These three nations would receive the largest share of the reparations.

The commission also said that the nations which were allies of the United States would receive a smaller share of the reparations.

Only holder remaining from the old OPA set is sugar rationing which is now under the S. & D. department of agriculture. Present plans in Washington, D. C., provide for the demise of sugar rationing in October.

Six Local Option Votes Assured in Valley; Bid For Jerome Ballot Fails

Local option elections on the question of liquor by the drink appeared to be a certainty Tuesday afternoon in several Magic Valley cities, with the filing of petitions calling for such elections in Rupert, Jerome, Gooding, Wendell, Paul, Shoshone, and Twin Falls. Only in Jerome, however, did the petitions fail to carry the names of the necessary 20 per cent of the registered voters.

The civic spotlight at Monday night's city commissioner's meeting switched to a stack of petitions requesting an election be called on whether liquor will be sold by the drink in Twin Falls.

Submitted at 4:20 p. m. Monday, the petitions culminated a movement started May 1 by a citizen's committee headed by C. C. Dudley to obtain 2,500 signatures deemed the necessary 20 per cent of registered voters required to call for balloting on the liquor issue. The council will reconvene at 7:30 p. m. Friday, giving the city clerk's office the required five days to check sufficiency of the petitions.

'Please' Goes In Commands Of UMT Unit

PORT KNOX, Ky., May 20 (AP)—Two military vehicles burst to a halt on a rutted Kentucky hill road on the outskirts of a "Jap" village. A universal military training service platoon of teen-agers had a nearby platoon under attack. A young captain left the platoon, marched stiffly to one of the vehicles and received brief instructions from a superior officer in the car. He turned toward the platoon he was leading.

"Front and Center—Please!" Private McCarran and the platoon front and center on the hillside, he shouted.

He paused, then added quickly, "Please."

That "please" is typical of the new relationship of officer to enlisted man in the experimental universal training unit. The enlisted man is treated with respect.

Instructors and recruits alike believe this should be applied to the whole army.

Finish Next Month

The first group of 640 trainees will go out next month and a new group begins. The army is attempting to put over the idea that all 18-year-olds should have six months in military training plus six months in the regular or reserve.

Congressional action on the proposal is awaiting a report by a presidential committee.

The principal changes outlined by officers are a new respect for individual soldier status, stronger moral guidance by the chaplain and more recreational facilities.

Otherwise it's the same old army, they said.

TUCKER'S NATIONAL WHIRLIGIG
ENTIRE—Informed Britishers at Washington resent continued American editorial suggestions that the empire is breaking up, despite domestic difficulties that may yet upset the Atlee-Bevin ministry, the proposed grant of independence to India and Egypt, and the request that the United States assume London's historic burdens in Greece and Turkey.
Here and at 10 Downing street, the attitude is that "There will always be an England."
Embassy officials concede that Kingpin's romantic idea of empire is undergoing a surgical operation—a sort of "Caesarian" thing, you know, old chap," as explains a witty spokesman at the castle-like structure on upper Massachusetts avenue which houses his majesty's diplomatic delegation.
But he maintains that the reorganized empire will emerge as a more solid, stronger and tighter unit than ever before, alongside the United States.
TREND—"Don't worry, old boy," adds the British yeoman previously mentioned in a rather condescending tone. "If you Yanks get in a jam again, like in 1917 and 1941, we'll be there!"
That remark, expressed in the British reaction to premature allegations about the downfall of the empire on which, before World War II and daylight saving time, the sun never set.
President Truman and Secretary Marshall are not unaware of this new and strange trend in England's postwar expansion. It assumes considerable importance to them, and to our people, in view of the current clash between the western powers and Russia for control of Europe, and possibly the world.
FUTURE—"What England now seeks, according to this theory, is to withdraw from such remote, restless and unprofitable lands as India, Egypt and China, and to base any future of world wealth, strength, reconstruction, and peace on a firm basis in the United States, South and Central Africa, Canada and the other dominions.
This new foreign program, which was symbolized and publicized by the royal family's recent unprecedented tour of south Africa, will begeth to any Anglo-American alliance complete control of both the Atlantic and Pacific waters, as even a cursory glance at a world map will show.
CITADEL—In the Pacific the two nations will join forces, as the royal family's recent tour of the South and Central Africa, Canada and the other dominions. The Anglo-American household will have such strong points, according to tentative diplomatic and military plans, as Greenland, Canada, Newfoundland, the United States, Bermuda, Nassau and Panama.
When the U. S. and the U. K. compose its difficulties with the Argentinians, who whom our British cousins are now extraordinarily friendly, the Atlantic defense will embrace the western hemisphere from the north to the south, forming a powerful barrier against the time in trying to break through that defensive bulwark.
TRADE—Britishers admit that they suffer some loss of prestige and income from the loss of India, Egypt, China and possibly Palestine. But, with hard, shrewd, Anglo-Saxon common sense, they recognize that changed conditions have lowered the historic and material value of these possessions.
The time was when two out of every five Englishmen earned their daily bread on the basis of imports from India and Egypt, mainly cotton. Lancashire mills transformed into industrial material from India and Egypt dominated the world trade in this commodity. The sale and shipment of these goods were a main source of British income.
England can no longer compete in international trade in this and other fields. Despite her lower production costs, other countries, especially the U. S., can produce goods more cheaply and more efficiently and more effectively.
HAND—"This reorganization of the British empire, together with its close tie-in with the American economic and military scheme, should have great significance for the foreign ministers meet again next November."
It will give the Marshall-Bevin poker players a more powerful hand than when they sat across the green table from Stalin, Molotov and Gromyko a few weeks ago.

THE MUNCH MIND
Sen. Claude Pepper found new proof for his contention that the Truman doctrine is a "political maneuver" in his speech at Princeton university last week. Russia is not leaning toward war, he said, "for she needs peace more than any other nation in the world despite expansionism."
So what would Senator Pepper do—counter-attack the expansionism at the price of peace? Does he not think that Russia would still need peace even if her expansionism by force of military and political pressure were curbed? Does it not strike him odd that a nation so war-ravaged is not devoting herself solely to domestic rehabilitation?
And what of the victims of expansionism? The senator is a champion of democracy, the rights and dignity of the common man. Has he no word to say about rigged elections, secret police, and other unsavory accompaniments of Russian expansionism? Or does he dismiss all this as propaganda?
When he condemns a counter-move against aggression and speaks of peace "despite expansionism," we hear echoes of the Munich conference. The situation is substantially the same today. Appeasement did not work in 1938, and it will not work now.
IT BREAKS OUR HEART
It isn't the atom, foreign relations, labor, or prices that get a congressman down, says Rep. Fred Bradley of Michigan. It isn't debate, committee work, constituents' demands, or the study of new legislation. No, it's the endless round of winning and dining after hours that kills 'em.
Mr. Bradley paints a pitiful picture of daily invitations to cocktail parties and dinners—and several on Sunday. Most of them he must turn down for his health's sake. Even so, he says, "the strain put on physically and mentally is hardly imaginable to the folks back home."
How true. And it must be particularly hard to imagine for veterans who were called upon to risk their lives day after day in combat. They only had to fight one war, and some of them went voluntarily. But Mr. Bradley, whose devotion to public duty makes him headless of the deadly risks, is now serving his fifth term in congress—of his own free will.
"I don't know how he stands it. Boy, another crying towel."

It is a class in "The Art of Living" and "The Art of Learning" and "The Art of Living and Learning." HOW DO YOU RATE?
"How do you rate with your woman's club," asks Alice Hart, WA staff writer, who goes on to enumerate many of the pitfalls to be avoided in order to be a successful club woman and an asset to the organization to which one belongs.

One fault they cite is hypersensitivity. This shows up as pride that is too easily hurt. The woman with this falling usually takes criticism of her club work as personal criticism. She becomes progressive action. Members may hesitate to make suggestions for fear of hurting her sensitive feelings.

The member who sulks when her pet scheme is defeated is equally burdensome to her organization. The important thing to learn, say our knowing clubwomen, is the need to abide by the majority's decision. The member who monopolizes a meeting is another woman who hinders the progress of her club. This member, according to the veteran usually wastes time with her long-winded presentation of her own ideas; is intolerant of others' suggestions.

Another common fault, they point out, is that of ducking committee service. A worse fault, however, is that of accepting a task and failing to see it through.

BETTER THAN PILLS FOR CONSTIPATION
Finds Famous Breakfast Cereal Most Helpful of All

Have you given up hope of being "regular" again? Then read this sincere, unclouded letter:

"I am a registered nurse and I know what a problem constipation is for patients deprived of their usual physical activities. Where pills brought temporary relief, eating KELLOGG'S ALL-BRAN regularly actually prevented further trouble. My patients are now regular. Your product is a great boon to our modern age." Miss Katherine B. Walsh, Twin Falls, Newington, Conn.

Yes, eating ALL-BRAN regularly often brings lasting relief from constipation due to lack of bulk in the diet. For best results, eat it for breakfast every day, and drink plenty of water. Try KELLOGG'S ALL-BRAN for 10 days! If by the end of this time you are not completely satisfied, send the empty carton to the Kellogg Company, Battle Creek, Michigan, and get double your money back!

ALL-BRAN is not a purgative but a wholesome food made from the vital outer layers of whole wheat. Eat daily either as a cereal or in muffins. Ask your grocer for KELLOGG'S ALL-BRAN.

WENDOVER, Utah, May 20 (AP)—A Chevrolet motorcade today became the fifth victim of a terrific two-car crash 24 miles east of here yesterday which wiped out an entire Minnesota family homeward bound from the Pacific coast.

Lido Deri, 32, Redwood City, Calif., succumbed early today to multiple injuries suffered when the west-bound car in which he was riding swerved into the Minnesota sedan on a lonely stretch of highway near the famed Nevada salt flats.

Mr. and Mrs. George A. Lahti of Buaswood Lake, Minn., and their two daughters, Georgina, 3, and Helen Lahti, 6, were killed instantly in the daylight collision. The girl cooker spaniel also was killed. Rod Gorlin, 23, Redwood City, suffered shock, cuts and bruises and was under treatment at the hospital of the Wendover army airbase.

Utah highway patrol officers said it appeared that the coupe in which Gorlin and Deri were riding had blown a tire and careened into the side of the Lahti machine. Both vehicles were demolished.

Russia Block Seen in Iran Tribal Moves

TEHRAN, Iran, May 20 (AP)—A powerful Persian tribesman, a constant threat to government forces until a few weeks ago, have laid down their arms to run for parliament in a move which diplomatic sources believe is designed to block the Soviet bid for north Iranian oil.

A member of the Ghaibat group, whose nomadic migrations cover almost two-thirds of the nation, told the Associated Press that the Ghaibat, Bakhtiari, Shakkaki Kurds and minor allied tribes have "agreed" upon a parliamentary program in which the "priorities" is defeat of the proposed Russian oil concession.

Observers estimate tribesmen will occupy at least 25 seats in the 108-deputy legislative body now being elected.

Oppose Exploitation

A tribal block supported by a scant dozen nationalists opposed to foreign exploitation, parliamentarians say, could halt all consideration of the Russian agreement reached while Soviet troops occupied northern Iran.

Emergence of the tribes as a political factor followed negotiations between Prime Minister Ahmed Qavam and individual chiefs, during which the tribesmen agreed to disarm—a government prerequisite for holding elections in tribal areas.

Agreed Last Year

Agreement for establishment of a parliament approved of a Russian-controlled Russo-Iranian company to exploit northern oil reserves was reached a year ago when Qavam visited Moscow to appeal for removal of Soviet troops from Iranian soil.

Russian evacuation was completed after Iran's appeal was heard by the United Nations security council.
