

WASHINGTON, July 30 (P)— Jesse Jones testified today that the late President Roosevelt ordered that work continue on a \$20,000,000 flying boat ordered during the war from Howard Hughes.

England to Slash Occupation Army To Combat Crisis

LONDON, July 30 (P)—A socialist source said Prime Minister Attlee told labor legislators today that Britain would slash her military commitments in Germany, Italy and Greece almost immediately because of the nation's looming economic crisis. Attlee won a virtual vote of confidence from labor members of parliament after explaining to them the "broad lines" of his plan for meeting the crisis.

The socialist source, who is connected closely with labor members of parliament, said Attlee promised quick and complete troop withdrawals from the Venezia Giulia sector of northeast Italy and from Greece, and substantial reductions in the British occupation forces in Germany.

Left wing labor party members have been demanding reductions in the armed forces, which totaled 1,297,500 men July 1.

Ask Mine Extension
A well-known source said Attlee also had decided to ask parliament on a five-day week in the recently nationalized coal pits, to work an extra hour a day to increase production of Britain's coal, the mainstay of the British economy.

After Attlee told the labor M.P.s of plans for troop reductions, the socialist source said there were cries of "What about Palestine?"

No Reply Given
The socialist source said Attlee did not reply. It is estimated 100,000 British soldiers are in that mandate.

Foreign Secretary Ernest Bevin, whose strength in international consultations would be affected by any drastic cut in British forces, was said by the socialist source to have said he would not discuss the matter.

The socialist source said the best weapon against communists in the world, he said, is exposure. He said some producers already are "jittery" for fear the committee will disclose some of their high-paid stars as box office travelers and thus kill their box office appeal.

To Identify "Reds"
Nixon, a member of the committee, said it will identify by name those persons in Hollywood who are tied in with communist activities. It now has a group of special investigators at work on the best collecting evidence for the hearings.

Top People Are Reds
Nixon said the investigations would disclose that some of the "top people" in Hollywood are engaged in communist activities.

"Some of the bigger stars involved in the war were packer packs than they are active communists," he said. "We want to get at the real people behind this."

Some of the committee members have been increasingly concerned with pro-communist lines and sequences which have been "slipped into" some motion pictures.

Labor Supply For Harvest Discouraging

JEROME, July 30 (P)—A discouraging outlook for the farm labor supply in this area was expressed today by Bandy, Twin Falls, president of the Central District Labor association, after a meeting at Jerome last night.

About 60 farm labor sponsoring association representatives from Jerome, Bandy, and Jerome counties attended the session, which was conducted by state officials. B. K. Peterson, state supervisor of the farm labor program, and Ray Peterson, Boise, met with the group.

A similar meeting is being held at Idaho Falls tonight.

Bandy said about 100 new beet harvesting machines would be operational in the county this fall, but the farm labor supply still would be critical. Also discussed at the meeting was the problem of fall labor especially in the harvesting of transient laborers.

Bandy remarked that the labor picture "doesn't look too good."

Early Actions For Palisades Project Plans Given Okay

IDAHO FALLS, July 30 (P)—The Snake River Water Users Protective union in a meeting here yesterday, agreed that plans are being prepared for the Palisades reservoir on the south fork of the river must be approved in order that the project be made for adequate appropriation.

Reclamation appropriations for Idaho for the fiscal year total \$20,700,000, and include the Boise project, the Palisades, and the Anderson ranch. Leasing of unincorporated lands for the Palisades project is \$600,750.

W. H. Haring of Washington, D. C., representative of the Snake River Development committee, told delegates he thought \$4,000,000 should be allocated to the Palisades project.

One of the main problems still to be worked out in the recommendations are submitted is the displacement of unincorporated lands in the 1,700,000 acre foot American Falls reservoir.

PULL OUT OF WEREKRAK
HILL, Wis., July 30 (P)—This British report today began pulling itself out of the rule spread by an ammonium nitrate explosion and fire Monday which killed 18 persons and injured more than 400.

Boost For Supply Of Meat Foretold
WASHINGTON, July 30 (P)—A house agriculture subcommittee in a formal report, today predicted a 15 per cent increase in meat supplies during the fall and winter.

It said the increase in meat supplies should result in lower prices to the consumer "unless the policy of allowing the export of meat abroad is continued."

"Should the export program be continued on the same scale as during the past several months (the pounds of meat produced) the prospect for lower meat prices may not be realized," the subcommittee said.

Traffic Courtesy?

Drivers making right or left turns at intersections should yield the right of way to pedestrians. This photo made at the Main-Shoshone intersection is typical of the many times daily when drivers force their way across pedestrian crosswalks. This delays pedestrians, who are then frequently caught in the middle of the street by a change in lights and have to sprint the rest of the way to escape traffic from the right and left. Courteous Auto-Driving Needed to Bring Safety

(Editor's Note: This is one of a group of articles in the interests of traffic safety, as brought to the fore by the campaign to be conducted by the Twin Falls Safety council and law enforcement agencies, starting Friday.)

TRAFFIC COURTESY
In final analysis, safe driving and courteous driving are synonymous. Unfortunately, many well-mannered persons become bores as soon as they get behind the wheels of powerful cars. Also unfortunately, law enforcement has had to step in and demand courtesy that should come naturally.

Courtesy, in turn, desires from the desire to accord the same treatment to others as one would wish to receive from them. The most common relationship we have with the bond is completely lost is that between the driver and the pedestrian.

The average driver, removed from behind the long hood of his automobile and placed on his two feet, becomes a stern critic of other drivers who seem intent on making life miserable for him every time he crosses the street. Take the case of a pedestrian crossing the street. The driver, seeing the pedestrian, becomes a superior being who takes the attitude that it's up to the pedestrian to get out of the way.

Frequently, pedestrians are in the wrong, but right or wrong, they generally take the philosophical attitude that it's better to lose the argument than to become part of the pavement. Drivers, conversely, ride through on the theory that might makes right.

Both drivers and pedestrians would do well to familiarize themselves with the following:

2 Sergeants Hanged, Jewish Group States

The Irgun Zvai Leumi, Jewish underground agency, asserted today it had hanged two kidnapped British sergeants in reprisal for the execution of three of its members. An extensive search by Welsh gaurds, Palestine police and a group of reporters for two hours along the coastal plains disclosed no trace of the bodies.

Police, the military and Jewish sources all said they had no clue as to the whereabouts of the sergeants. An Irgun "communique" had asserted that the bodies would be found within two and a half miles of Natanya, where the hostages were kidnapped July 12.

Meanwhile 12 Jews who were put ashore from a convoy arriving at Port-Bomb, France, yesterday from Palestine were reported to be held by the British to have agreed to return to the transports if the British should decide to take the 4,500 immigrants to Cyprus.

Mostly from Poland
The Jews, nearly all from Poland, were turned back from Palestine after the British intercepted their vessel, Exodus 1947, upon reaching France, from which they sailed July 10, they refused to land.

Authoritative London sources said the British hoped to reach a decision today and that no one in the foreign or colonial offices yet knew where the Jews would be taken after every possible move without resort to compulsion, had been used to make them land in France.

No Confirmation
Official government sources in Palestine were not immediately able to confirm that the British sergeant had been slain.

The underground Jewish organization asserted the British were tried by a "military court" and convicted on charges of "illegal entry into Palestine, being members of an illegal British criminal terrorist organization known as the British occupation force in Palestine, which is for the deportation of Jewish citizens from their home land."

RADIO MEN MEET
BALT LAKE CITY, July 30 (P)—Representatives of radio stations from Idaho, Montana, Nevada and Wyoming met here today with officials of agriculture service and department of agriculture agencies. Particular emphasis was given to the general problems and relationships of radio stations with other agencies represented.

30 B-29's Fitted To Haul A-Bombs
WASHINGTON, July 30 (P)—The United States had at least 30 B-29 bombers fitted to carry atomic bombs when the war ended, officials here today said.

Marlin, Baltimore aircraft manufacturer, made the statement during testimony to the senate war investigating committee. The subject was brought up incidentally at the committee's hearing on aircraft contracts awarded to Henry J. Kaiser and Howard Hughes.

Marlin said the company contracted to build the B-29 Superfortress, which had to be fitted with special bomb-bay doors, he said.

Traffic Safety Drive Is Termed Permanent

Bad news for careless drivers came Wednesday in the form of a joint statement by Mayor H. G. Lauterbach and O. W. Lindemore, chairman of the local safety council, that the campaign against traffic violators, starting Friday, will not be a short-term proposition.

"This will be a year-around drive," the officials declared. "There will be no relaxing of efforts after a few weeks, and, if anything, it will become more intense, if necessary, to curb careless and reckless driving."

City, county and state law enforcement and judiciary are cooperating with the Twin Falls branch of the Idaho chapter, National Safety council, in conducting the drive to remove hazards created by improper driving. In conjunction with this drive, the Times-News is providing a series of informative articles to assist drivers in familiarizing themselves with traffic regulations and to create a keener sense of awareness of the problem among the general public.

Charge of 'Blackmail' Rejected by Probers

WASHINGTON, July 30 (P)—Planemaker Howard Hughes accused the senate investigating committee of "blackmail" today and Sen. Homer Ferguson, R., Mich., denied the charge by saying the committee "does not function that way." Ferguson is chairman of a subcommittee investigating \$400,000,000 in wartime contracts awarded to Hughes.

The full committee is headed by Sen. Owen Brewster, R., Me. Hughes charged from Los Angeles that Brewster was using the inquiry as a "blackmail weapon" and had offered to call it off if Hughes would merge his Trans-World airlines with Pan-American airlines.

Ferguson, who has favored the Pan-American plan to force a merger of all U. S. overseas airlines, would not comment directly on Hughes' charges.

But Ferguson told a reporter: "I know the committee never have called the investigation off. I've been in this all along and there has been no intimation or request or suggestion that it ever be called off."

Hughes and the committee engaged in their second transatlantic exchange of the week at the U. S. senate subcommittee in the U. S. senate.

One of the contracts under investigation was an \$18,000,000 award to Hughes and Kaiser to build mammoth flying boats for the U. S. Navy.

But plan-maker Kaiser, who was in the U. S. senate, said he was not interested in building 500 Marx flying boats, after Kaiser withdrew from the project—but it has not yet been decided.

The Mars is a giant four-engine boat built by Martin for the navy. Kaiser in 1942 was interested in building 500 Marx flying boats.

Children Found
Earlier developments in the case include the filing of charges of second degree burglary against two sisters-in-law, their subsequent arrest, and the finding of their 12 children at their unheated home with little to eat and little to wear.

At that time one of the fathers was in the state penitentiary and the other father suddenly disappeared.

As a result 12 children were committed to the Boise institution by Judge Hamilton. The 12th child was released to his parents after a hearing by District Judge T. T. Bailey.

Girl Restored
The ages of the children ranged from 6 months to about 8 years. Late in June the 6-month-old girl was restored to her mother by an order signed by District Judge T. T. Bailey.

In his order Tuesday, Judge Bailey wrote that it appeared to him from the petition filed by Mr. and Mrs. Walters that Judge Hamilton had refused to cause to be restored to her.

'Saucers' Return To Magic Valley
CASTLEFORD, July 30 (P)—The "flying discs" have returned to Magic Valley after a lapse of more than a year.

Dwight Brown reported Wednesday that he had seen one of the elusive and mysterious "discs" about two miles west of Castleford. He said the "disc" sounded like an outboard motor and was headed toward the town of Castleford.

Brown observed the "disc" at about 7:10 a. m. Wednesday.

Truman Hacks Away at Pile Of Bills on Return to Capital

WASHINGTON, July 30 (P)—President Truman worked rapidly at his desk today for legislation passed by congress in its final days before adjournment, signing many bills and giving his approval to numerous government appropriation measures.

Mr. Truman took up the task immediately upon his return yesterday from Missouri, where he attended the funeral services for his mother, Mrs. Martha Truman.

President Truman vetoed a measure designed to give the interstate commerce commission power to regulate the use of securities by the Pullman (sleeping-car) company, of Chicago, and by the Pullman (sleeping-car) company, of Chicago.

U. S. Takes Swift Move On Balkans

LAKE SUCCESS, July 30 (P)—The United States moved swiftly today to cope with the stalemated Balkan problem following Russia's veto of an American proposal for United Nations action to settle the dispute between Greece and her northern neighbors. Herschel H. Johnson, U. S. deputy delegate on the security council, hurried to Washington for a series of conferences with Secretary of State Marshall and other state department officials.

Before leaving for the Washington talks Johnson obtained a postponement of a security council session scheduled for 3 p. m. (EDT) today. Soviet Deputy Foreign Minister Andrei A. Gromyko was to have given at that time his reasons for vetoing the U. S. proposal for an 11-nation border commission designed to bring peace to the Balkans. He also was to have explained a Russian proposal on the Balkans.

The council is now scheduled to meet tomorrow at 3 p. m. (EDT) to hear Gromyko.

No Hint Given
Neither Johnson nor any member of the American delegation here would give a hint as to what action was contemplated, but there were these possibilities within the framework of the United Nations:

1. The U. S. could charge Yugoslavia, Bulgaria and Albania with a breach of the peace, a threat to the peace or any act of aggression. Under the U. N. charter the security council then could institute sanctions or use military force, if necessary.

Joint Action Possible
2. The U. S. could call for consultation among the five major powers to bring about a joint action on behalf of the organization. It might be necessary for the purpose of maintaining international peace and security. Unable to use the veto here, all Russia could do would be to turn down the suggestion.

Actual Work Start Delayed
Stenberg indicated contractors had been delaying the start of road work until they could maintain the "hot plant" in constant operation. The "hot plant" is being set up east of the Twin Falls highway district yards.

Stenberg said that the entire road would be resurfaced in some areas but that in other sections of the highway "patch work" would be done. He explained that the "road" is being set up east of the Twin Falls highway district yards.

Writer Given Sentence for Treason Acts

BOSTON, July 30 (AP)—Douglas Chandler, 38-year-old former Baltimore writer, today was sentenced to life imprisonment and fined \$10,000 for treason in serving as a radio mouthpiece during the war.

Federal Judge Francis J. W. Ford imposed the sentence after Chandler himself made an almost-belligerent statement to the court dismissing as ridiculous his counsel's plea that he was insane and repeating that he still held to the opinions he expressed in his broadcasts for the Nazis.

Chandler in a soft-voiced voice that trembled with emotion at times said that he was not convicted for what he had done but "for my beliefs."

"If it be treason to say what you believe it is right to say then, in the words of Patrick Henry 'make the most of it'."

The tall, gray-haired defendant who has been quoted in testimony as fanatic in his belief that the Jews are out to conquer the world told the court:

No Clemency Asked

"I do not ask for clemency. If I must die because I dared to speak the truth as I see it, then let me die. If I die for my beliefs they will not die with me, and there may be a rebirth of freedom of speech."

Chandler addressed the court after the special Government Prosecutor Oscar R. Ewing had demanded the death penalty as a warning to any potential traitor and had argued that "any lesser penalty will encourage the commission of similar crimes in the future."

Judge Orders County Court Acts in Case

(From Page One)

filed in his court an earlier petition of the Walters to set aside a probate court order of June 19 which committed Carolyn Faye Martin, a child, to the Children's Home Finding and Aid society and which provided that an order for permanent adoption of the child could not be made for six months.

Porter's Finding

Judge Porter wrote that it appeared to him that the probate judge refused to cause to be issued notices to the children directed to Bruce Martin and Winona Martin, parents of the child, and to the Boise institution, as required by law; failed to give notice of a hearing on the petition; refused to hold a hearing; and refused to make a full and complete determination of the earlier petition.

It further appears to the district court, Judge Porter wrote in his order, that the probate judge has not been diligent in having Judge Hamilton perform those duties, that an alternative writ should issue and that Mr. and Mrs. Walters have no plain, speedy or adequate remedy.

Writ Required

The district court order issues the clerk of the court to cause a writ commanding Judge Hamilton immediately to file the earlier petition, issue notices and citations to the parents and to the institution, to hold the hearing, and to make a full and complete determination of the petition within 30 days, or to show cause to Judge Porter as to why he has not done so.

The Walters petition first cites points of law involved and then continues with a number of allegations concerning the case.

The petition charges that Judge Hamilton "arbitrarily refused" the filing of the Walters' first petition on July 8 refused to set time for a hearing and refused to issue notice and citation, and that on July 26 the probate court entered an order committing the child to the Children's Home Finding and Aid society.

The Walters' petition was presented by Attorney Marshall Chapman and Lawrence B. Quinn.

Gooding's Water Supply All Right

GOODING, July 30.—Gooding water supply for the summer is all right, according to H. B. Post, sanitarian at the south central Idaho health unit, said in commenting on rumors of impure water in Gooding.

The sanitarian said water reports for July had shown nothing wrong with the water. Archie Bladwell, state inspector with the health department, was in Gooding recently taking water sample tests, but his report has not yet been received from Boise, Post said.

Approval Urged For Saving Aids

Operators who have carried out conservation practices between May 23 and July 21 without prior approval of their county agricultural conservation committee should request this approval by Aug. 15, Burt Jensen, Twin Falls county ACA chairman, advised Wednesday.

The official explained that county committee approval was suspended temporarily, pending decision by congress as to continuance of the conservation program.

Courtesy and Safe Driving Go Together

(From Page One)

selves with that portion of the city's traffic regulations covering street intersections. It is here that they must often come face to face with the outcome depending upon observance of the law or fast footwork.

The law requires the driver of a vehicle intending to make a right hand turn at an intersection to approach the intersection on the right hand side of the street, and before turning to signal as required by state law. Right hand turns may be made against a red light traffic signal, with the provision that the vehicle is in the outside traffic lane, that it come to a complete stop and that the driver call "GIVE THE RIGHT OF WAY TO VEHICLES AND PEDESTRIANS TRAVELING IN THE INTERSECTION."

It is a frequent occurrence to see a car pushing through pedestrians who are in the process of using the cross-walk either directly in front of the car or to the right of the car. As long as a right or left hand turn, as making as the pedestrians are walking with the green light.

A driver who makes a right turn against the red light makes a right turn with the green light, and in so doing interferes with other traffic or pedestrians is not only subject to arrest but would also be liable in event of an accident.

By city law, "The driver of a vehicle intending to turn to the left shall approach such intersection in the lane of traffic to the right of and nearest to the middle line of the street and in turning shall pass beyond the center of the intersection, passing as close as practicable to the right before turning to the left."

As closely related to courtesy is the question of right of way.

Ordinarily, vehicles entering an intersection at approximately the same time shall give the right of way to vehicles on their right. The driver of any vehicle traveling at an unlawful speed automatically forfeits any right of way he might otherwise have.

When approaching, but not having entered an intersection, shall yield the right of way to a vehicle within such intersection and turning right across the left across the line of travel, provided the driver turning left has given a plainly visible signal.

Pedestrians are required by law to cross any street, except at the intersections, and vehicles are to yield the right of way to pedestrians crossing at the intersections.

Also a vehicle entering a through street shall give the right of way to a vehicle already in the street.

It might be added that when there is a question as to who is right or who is wrong, many accidents could be avoided by using common sense and courtesy, even at the expense of losing a few seconds.

Youth Hurt When 'Bike' Hits Auto

Wayne Miller, 16, of 325 Heyburn west sustained a minor cut on his forehead when the bicycle he was riding struck a parked pick-up truck at 11:47 p. m. Tuesday, according to the report received by Twin Falls city police.

The youth was taken to his home by Jim Husby, owner of the truck, with the water. Two cars were damaged but no one was injured in a collision between two cars at the intersection of Sixth avenue east and Fourth street east, investigated by Twin Falls police at 6:08 p. m. Tuesday.

Drivers of the cars were Robert D. Hillenborg, 1425 Fifth avenue east, and Melvin A. Pullmer, 1350 Seventh avenue east. The radiator and left headlight of the Hillenborg sedan were broken, and the right side of the Pullmer sedan was damaged.

Two divorce actions were filed Tuesday in district court. Extreme cruelty was charged in each case.

Loren Anderson seeks a divorce from Thelma Anderson, to whom he was married in Twin Falls on Sept. 19, 1946. They have no children and no property. His complaint states they met in Australia, that he paid for her transportation from there to Filer, and that she returned to Australia in March. He is represented by Rayborn and Rayborn.

Ruth Lee Peterson filed suit for divorce from Henry Peterson, to whom she was married in Helena, Mont. on Aug. 17, 1946. They have no children and no property. She charges that his actions were such that she left their home on Jan. 18, 1947. Her attorney is J. H. Blanford.

Western Garb Is "Must" for Gooding Fair

GOODING, July 29—Premium lists for Gooding county fair will be printed and mailed out to county residents by Friday, according to Leland G. Burges, chairman of the fair board.

Mayor J. Wesley Miller has issued a proclamation that all residents of the city, beginning Saturday, shall wear western garb to promote publicity for the "bigger and better" fair. Members of the Gooding Lions club and the Rotary club have voted to sponsor the wearing of special western dress and will conduct the kangaroo contest in which violation of the proclamation will be fined \$1.

Caravan planned. Plans being made by the rodeo and fair board include a caravan of 50 cars to travel through Magic Valley communities on Aug. 12 to promote the rodeo and fair.

The three-day rodeo and free fair beginning Aug. 14 will award \$2,750 in prizes and \$2,000 in rodeo prizes. A fireworks display is costing \$1,000. J. A. Sorenson's rodeo will perform each day at 8 p.m. under the newly installed, 4000 foot grandstand will seat more than 4,000 spectators. All exhibits and entrance to the fair grounds will be free.

Divisions Listed. The purchased livestock show will include cattle, horses, hogs, sheep and poultry. The women's division exhibits will include canning, flower show, needlework and other crafts. There will be commercial exhibits, fireworks each night and the Gooding county 4-H club exhibits of livestock, home making and agriculture. Highlight of the three-day event will be the annual 4-H calf scramble, sponsored by Gooding county businessmen.

The Gooding county rodeo will include such features as bareback riding, calf roping, saddle bronc riding, bulldogging and Brahms bull riding. The \$2,000 in prizes has been approved by the Rodeo Cowboy Association of America. There will be five major events for each evening with added attractions including giant fireworks display each evening. The American United carnival will set up at the fairgrounds on Aug. 11.

Award Money Allocated. Cash and ribbon awards will be given for 12 divisions this year it was noted. Award money totaling approximately \$2,000 has been set up as follows: Cattle, \$681; swine, \$306; poultry, \$72; sheep, \$72; horses, \$47; commercially raised vegetables and grains, \$45; honey, \$12; display booths, \$100; flowers, \$10; canning, \$100; needle and fancy work, \$200; individual garden display, \$10.

Judging will be conducted by ex-

Pre-School Clinic Planned at Paul

PAUL, July 30—A pre-school clinic for youngsters of Paul, Lincoln and Mosier districts will be held from 8 a. m. to noon at the Paul school, Mrs. Pearl Taylor, county nurse, reported today.

All youngsters who are entering school for the first time this year are requested to attend the clinic, which is sponsored by the Parent-Teacher association. Four doctors will assist in the examinations.

Premium lists will be mailed to every Gooding county post office box holder.

Superintendent in charge of the various divisions are as follows: Cattle, V. W. Carson, Eliza; dairy cattle, Al Smith, Gooding; beef cattle, Jay Farmer, Gooding; hogs, Earl France, Gooding; horses, A. H. Butler, Eliza; sheep, John Kornher, Jr., Gooding; honey, Douglas Bradshaw, Wendell; poultry, Vern Elinger, Gooding; agriculture and horticulture, R. M. Oanning, Wendell; home canning, Barbara Brick, Wendell; needlework, Mrs. Robert Brattford, Hagerman.

The 4-H division of the fair will be under the direction of County Agent Robert E. Higgins and his assistant, Frank Jacobs. Sale of livestock which were donated by Gooding businessmen at last year's fair will be held.

Zipper Tester Enjoys Open And Shut Job

CHICAGO, July 30 (AP)—G. R. Holgate claimed today that he has outwitted more slippers than Gypsy Rose Lee.

Holgate, a serious, mild-mannered scientist, is a laboratory expert for a clothing manufacturer. His job is to find out how long the chaps, slacks, buttons and slippers that go into his company's products will hold up.

Holgate said he figures a zipper ought to slip and unslip 2,800 times—that's 4,000 slips—to be fit for use. "It would take me about 14 hours of steady slipping to test a zipper by hand," he said.

So Holgate invented the zipper unslipper. He took a gadget he'd been using to test cloth for its resistance to rubbing, rejiggered it a bit and adapted it to zippers.

The new machine opens and closes a zipper about 90 times a minute, he said. "I can give a zipper the equivalent of more than three years normal wear in 22 minutes," he said.

Holgate said he planned additional slipper experiments to test their resistance to laundry and dry cleaning, but he was forced to postpone them a few days.

"I put the date in my brief case," he said, "and the zipper jammed."

A Statement To Our Customers About Resale PRICES of PRODUCTS

Built by International Harvester Company

Here at Harvester we are concerned over the fact that a growing number of our products are appearing on the resale market at greatly inflated prices.

As manufacturers, we try to produce at the lowest possible cost. We cannot set the prices at which our products—tractors, motor trucks, farm implements, refrigeration, and industrial power equipment—are sold. We can and do suggest list prices which the great majority of our dealers adopt as their retail prices.

\$20,000,000 Price Reduction

Our basic price policy was publicly stated in March, 1947, when we announced price reductions at the rate of approximately \$20,000,000 per year on our products. At that time, Fowler McCormick, Chairman of the Board, said: "ANY PRICE IS TOO HIGH IF IT CAN BE REDUCED."

Practically all of our dealers cooperated with this policy and passed on the savings to their customers.

The objective of the price reductions was to make it possible for customers to buy our products, which they need so badly, at lower prices. Naturally, this purpose is defeated when our products are sold by anybody at inflated prices.

IH Production at All-Time Peak

Inflated prices are caused by

the difference between supply and demand. To increase supply, we now have the greatest number of employees in history on our payrolls—almost 90,000 in the United States, as against about 60,000 prewar. Large new plants are getting into production in Louisville, Evansville, and Melrose Park. A fourth will soon be in operation in Memphis. The men and women now employed are turning out the greatest quantities of IH products of all kinds that we have ever made. These are also the finest products we have ever made, and recognition of that fact is an important contributing factor to the demand for them.

Distribution to Dealers

But even record-breaking production is not sufficient to give you a dealer—and other IH dealers—enough products to meet today's demand. We have tried to make the fairest possible geographical allocation of our products so that every dealer would get a fair share, and we know that dealers, in most cases, have tried earnestly to make the fairest possible distribution to their customers.

But we also know that many of our products—far too many—are being resold at inflated prices. The public criticism and resentment of these resales are of real concern to us, as we know they must be to our dealers, because such reactions en-

danger the good will of both the dealer and the Company in any community.

Distribution to Customers

Experience shows that many IH new products are being resold by users who decide they can continue to make out with their old equipment after they have had an inflated offer for their new equipment. To eliminate this, many dealers are taking measures to be sure that equipment purchased is for their customers' own use and is not to be resold.

Nearly all IH dealers, we believe, are now using the basis of **FRESH NEED** as their primary guide for the sale of scarce products. The customer whose need is real and urgent is not likely to resell.

What Price Should You Pay?

While it may take a little more time to get delivery, we urge our customers to consider all of the factors mentioned here, before paying more than the list price for any IH product. Any IH dealer or branch can furnish the suggested list price for any IH product.

We know that the overwhelming majority of IH dealers are as much opposed to inflated prices as we are. In the public interest, we have already asked their cooperation—and are now asking the cooperation of customers—in correcting this situation.

Figure 1 is a line graph illustrating the percentage of the total sample for various age groups across different years. The x-axis represents the years from 1970 to 2000, and the y-axis represents the percentage of the total sample, ranging from 0 to 100. The age groups are: 0-14, 15-24, 25-34, 35-44, 45-54, 55-64, 65-74, and 75+. The graph shows a general trend of decreasing percentages for younger age groups and increasing percentages for older age groups over time.

Hollister and Filer Schools Merger Aired

FILER, July 30—Representatives of school districts served by rural high school districts at Filer and Hollister, respectively, met Tuesday night at the Filer high school to consider the possibility of merging the two districts.

Under the new school system reorganization law, rural high school districts as such are dissolved and have to form another type of district.

Selected chairman of the committee was E. M. Rayborn, Filer. He will be assisted by E. J. Farrar, Hollister, as secretary. Rayborn appointed several committees to study the reorganization possibilities, prepare maps, and have other information ready for a meeting to be held Aug. 20, at the Filer high school.

Appointed as a boundaries committee were Clinton Dougherty, Elmer Homer Bean, Maroon, and Emory Kaibflehch of the Washington school, Filer.

A school units committee, to study the location of grade schools, includes Paul Schnell, Rogerson; Lester McGregor, Berger; Merl Allison, Filer; Harold Lancaster, Poplar Hill, and Kaibflehch.

Appointed as an equalization committee to appraise buildings and work for a fair apportionment of funds, were A. E. Kunkle, Amsterdam; Frank Monahan, Poplar Hill; and Thomas Burkhin, Maroon.

Grade school districts included in the area served by the Filer rural high school include Maroon, Filer, Washington school at Filer, Poplar Hill, and Elmwood.

Districts served by the Hollister rural high school include Rogerson, Amsterdam and Berger.
