

LAKE SUCCESS, N. Y., July 31 (UP)—Greece formally charged Albania, Bulgaria and Yugoslavia today with waging undeclared war against her and called on the United Nations security council to use force if necessary to end the aggression.

VOL. 80, NO. 107

Hike Seen In Supply For Meat

WASHINGTON, July 31 (UP)—Housewives were advised today that steaks and pork chops will be more plentiful this fall, but that the family food bill as a whole probably will be just about as steep as it is now. That big "break" in food prices that was supposed to start about this time is not even around the corner, agriculture department experts said.

Last February the bureau of agricultural economics forecast a probable drop of 15 to 25 per cent in food prices during the last six months of 1947. But a lot of things have happened since then.

Decline Unlikely

The same agency now says a decline in food prices is unlikely in the foreseeable future. Here is its price outlook for the fall:

Wheat—Much more change, although some slight decline is possible during the period of heavy rainfall in the later fall and early winter.

Corn—More change and better—only seasonally.

Flour—Not much change.

Stock crops and fruits—Seasonal decline.

Corn—Will stay high.

Little Seasonal Change

Agriculture experts don't expect seasonal changes to have much effect on prices so long as demand remains high. They pointed out that the period of relative abundance of supplies followed by a period of relative scarcity, serving to level off prices.

How to Save Time

If you're tired of living and want to end the whole worrisome process, here's a good way to do it. This photo, made at the Main-Shoshone intersection, shows one of the many "jaywalkers" who daily disregard pedestrian cross-walks at intersections and cross in the middle of the block, delaying traffic and staining injury or death. (Staff photo—bravely)

Maximum Penalties High For Traffic Violations

(Editor's Note: For the benefit of the driving public, this information on penalties for three serious violations is offered in conjunction with the current safety campaign.)

THE PENALTIES

Three of the most common and most dangerous traffic violations are speeding, driving through stop signs and driving while intoxicated. Too often, drivers are not aware of the penalties that can be invoked against them unless the violation has been committed. By then the damage has been done and all that remains is for the courts to exact the penalties.

Failure to observe a stop sign may be interpreted as reckless driving. This offense carries a minimum fine of \$45 and a maximum fine of \$300, or not less than five days nor more than 90 days in the county jail. At the discretion of the court, both the fine and imprisonment may be invoked.

For a second offense, the jail term is not less than 10 days nor more than six months, or the fine may be set at not less than \$50 nor more than \$300.

Heavy penalties are provided for drunken driving. Under state law the courts may sentence those guilty of driving while intoxicated to not less than 30 days nor more than six months in jail, or a fine may be set at not less than \$100 nor more than \$500.

Fairfield Fire Levels Grain Storage

FAIRFIELD, N. Y., July 31 (UP)—A grain elevator at Fairfield, N. Y., was destroyed today by a fire that leveled the structure and destroyed the grain stored in it.

The fire broke out at about 3 p. m. Wednesday. The grain elevator was valued in excess of \$50,000.

Twenty volunteer firemen and neighboring ranchers were able to stop the fire from spreading to adjacent buildings.

The fire was caused by a short circuit in a line of power lines.

Man Plans Appeal On Treason Case

BOSTON, July 31 (UP)—Douglas Chandler, 54-year-old former Baltimore newsmen, was reported today to be planning an appeal to the Supreme Court after being sentenced to life imprisonment and fined \$10,000 for broadcasting anti-American propaganda in Germany during World War II.

War Against Soil Erosion Starts Again

CHICAGO, July 31 (AP)—America's greatest natural resource—her fertile soil—has been wasting away rapidly, but the war against erosion once again is well under way after suffering a five-year lapse in many areas.

It is estimated more than 1,000,000,000 acres of the nation's 1,700,000,000 acres of crops, grass, and timber already show erosion damage. The main causes of erosion have been water, wind, and man himself through plowing and cutting of timber, over-cropping and over-grazing.

222,000,000 Acres Lost

Of the resulting scared land through the nation, Clinton F. Anderson, secretary of agriculture, estimated 222,000,000 acres have been ruined or almost hopelessly damaged. He adds there are "only 400,000,000 acres of good cropland remaining," and estimated the annual cost of erosion at about \$4,000,000,000.

But since World War II, an Associated Press survey shows, land owners and government soil conservationists have stepped up a striving to plug the vast leakage of wealth. The war department, too, has joined up.

Piners Movement

As for the water erosion-phase, campaigns are built around a piners movement of flood control dams and channel deepening on the main streams and a water-holding operation in the development of entire watersheds on the tributaries.

During recent floods in Illinois, Iowa and Missouri, said a regional conservator, enough topsoil washed away to cover 325,000 acres to a six-inch depth and the damage cost was estimated at \$300,000,000, including \$283,000,000 for soil loss and \$15,500,000 for crop loss.

Gus Lesnevich Trips Mauriello

BROOKLYN, N. Y., July 31 (AP)—Light-heavyweight champion Gus Lesnevich, the exception to the rule that the armed forces "look something" out of all fighters, banged out a 10-round upset decision victory over Tami Mauriello, the round man from the Bronx, in Ebels field, last night. Lesnevich, weighed 178½, Mauriello 197.

The blood better from Cliffside, N. J., never once complained as Tami got away with damaging "hitting-and-holding" tactics time after time, and still took the play from the start.

Twice he staggered Mauriello—once in the second with right hands and again in the sixth with hooks—and in the seventh he buckled Tami's knees with a right cross that all but floored the bigger man.

The decision was unanimous in Lesnevich's favor.

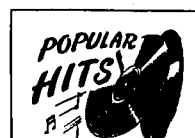

Music Class at Gooding Started

GOODING, July 31—Music instruction under direction of Donald Stroh, Gooding high school music director, has begun at the high school band room. All persons interested in private lessons are invited to attend. Band members of last year, freshmen this year and college students home for summer vacation are invited to attend.

All instruction will be free and the program is being sponsored by the city and the Gooding Independent school district. Stroh has been attending summer school at the University of Idaho. He is particularly interested in securing additional clarinet, cornet, trumpet, baritone, trombone and bass horn players. Following about a week of practice the band will present weekly concerts for the public.

Rent Ceilings 'Lift' Goes to State Boards

WASHINGTON, July 31 (AP)—The federal rent control office, with a wary eye on congress, has decided against further action on its own to lift ceilings from any of the 614 areas remaining under control.

Future policy, an agency official told a reporter privately today, will be for the federal office to check the demand question to the local advisory boards authorized under the new rent law enacted last month.

Boards Given Voice

Although the law provides that Housing Expediter Frank R. Crews, who administers rent regulations, may lift ceilings if conditions warrant, it also gives the local boards a strong voice in their own areas.

Another official said information which "might lead to decontrol of some fringe sections of several areas" is being gathered and will be submitted when the boards are ready to begin their studies.

Congress when it returns in January will have to decide shortly whether it wants to extend controls beyond Feb. 29, the new expiration date.

Up to Governors

Control officials said it is up to the various governors "to decide how quickly the boards will begin functioning."

Only nine governors have submitted lists of boards and areas under control in only two states—Georgia and Wyoming—have been approved. Other recommendations received were from North Carolina, Oregon, New Jersey, New Hampshire, South Dakota, Indiana and Alabama, rent control officials said.

Rails Charged in Shipping of Mats

WASHINGTON, July 31 (AP)—Attorney General Clark in a new complaint today accused more than 900 railroads of collecting "unjust and unreasonable" rates on wartime shipments of steel airplane landing mats.

The action was filed with the interstate commerce commission. The government is asking reparation for alleged overcharges on the landing mats made from eastern shipping points to Pacific coast points between Jan. 1, 1942 and June 30, 1946.

The justice department announcement said "thousands of carloads" of landing mats were involved. The petition to ICG states the exact amount of money sought to be recovered is "not presently ascertainable."

The complaint is another in a series which Clark has made before the ICG concerning wartime freight charges.

Castleford Forms New Riding Group

CATTLEFORD, July 31 (AP)—The newly formed Castleford riding club, the "Range Riders," will hold a moonlight ride tonight, President Harold Williams has announced.

At a recent meeting officers were elected and the name of the club selected. A ride was held last Sunday when the group had barbecued hamburgers and watermelons.

Other newly elected officers are Elbert Allred, vice president; Mrs. Mary Brown, secretary; and Mrs. Gene Reed, treasurer. Plans were discussed for the formation of a drill team with Gene Reed as captain and Harry Brown and O. D. Clark, co-captains. Mrs. Bill Bledsoe was put in charge of the chuck wagon.

Traffic Fines

One \$15 fine, two for \$2 and 11 fines of \$1 each have been paid in Twin Falls city traffic court.

Harold A. Boyd paid the \$15 fine for driving on the wrong side of the road; and Harold Call and Bruce Coughley paid \$2 each for parking in alley.

Those fined \$1 each for overtime parking were: R. W. Shaw, Clarence E. Minnerly, T. E. Eddy, Dorothy Allen, Dorothy Day, H. Dietrich, Mrs. George D. Roberts, Harold Buley, Mrs. Ruth Gould, Bob Wetherbee and Mrs. M. Wainwright.

En Route Home

HONOLULU, July 31 (AP)—Idaho's lieutenant-governor, Donald S. Whitehead of Boise, was en route to the mainland today after a visit to Hawaii as guest of the navy.

Whitehead and Gov. James L. McConaughy of Connecticut, Gov. Ernest Ormeling of Alaska and Gov. Jesus T. Pinerio of Puerto Rico left Hawaii for San Francisco in a naval air transport plane last night.

Divorce Granted Mrs. Hammond in Decree by Judge

Nancy M. Hammond was granted a divorce from Howard L. Hammond, a local seed company owner, in a decree signed Wednesday by District Judge James W. Porter, who approved a property settlement agreement made by the Hammonds on June 27. Her former name, Nancy M. Ogden, was restored.

The case was heard in court between June 9 and 12, after which Judge Porter ordered attorneys to submit briefs. On Wednesday, Hammond's attorney, Frank L. Stephan, filed a motion, which was granted, to withdraw Hammond's cross-complaint and answer, and continuing to his default. Evidence presented for him was taken out of the record.

Judge Porter decreed that money and property awarded the former Mrs. Hammond now and under a previous court order be a full settlement for all her claims for temporary and permanent alimony, suit money and attorney's fees. The decree exempted her from community property income tax returns up to July 1.

Under the previous court order, she was granted \$750 initial attorney's fees, \$500 suit money, and \$350 per month temporary alimony. Under the property settlement agreement, he is to pay her \$15,000 for their house and furnishings at 380 Buchanan street, pay \$2,500 to her attorneys, James R. Bothwell and Graydon W. Smith, give her 44 shares of investment stock.

She is to give him seed company real estate here and in Salt Lake City, \$1,000 in savings bonds, her rights to stock in the seed company, her rights to \$52,500 worth of insurance on his life of which she was beneficiary to \$1,000 in two policies.

She is to receive no permanent alimony.

Phone Rate Boost Briefs Due Friday

HOUSTON, July 31 (AP)—Briefs in a case involving rate increases granted the Mountain States Telephone and Telegraph company must be filed by Friday with the Idaho public utilities commission, Secretary William D. Fox announced.

A rehearing on the increase previously granted was held May 27-29. The Idaho Falls Chamber of Commerce protested the increase and asked for the rehearing.

The commission is expected to announce a decision shortly after the briefs are filed, Fox said.

Your Daughter's Future

may well depend upon the cultural and educational advantages you provide for her from childhood to maturity. The Rowland Hall School for Girls has been privileged to enroll girls from the Intermountain West's leading families since 1880. We offer a limited enrollment and classes. Rowland Hall can give your daughter the educational requirements from first to twelfth grades, and also special emphasis with personal supervision in music, languages, dancing, drama, art, sports and other cultural achievements so vital to your daughter's future.

Enrolled in Salt Lake's fashionable North bench residential district, there are a limited number of openings available for boarding pupils from 8th to 12th grades in the home of Rowland Hall. You are invited to write for descriptive brochure, mailed to you entirely without obligation.

Officer Tells of Germany's Plight In Post-War Era

JEROME, July 31 (AP)—Experiences in Germany during the past three and one-half years were told to the Jerome Rotary club Tuesday by Lieut.-Col. Kenneth Keenan, who is spending a leave in Twin Falls prior to returning to Germany.

He explained the flourishing black market and the industrial plight of the Germans.

Committee for the year were announced by W. W. Weigle, president. Named to the aims and objects committee were Weigle, Hoeman, Guy Stanton, Parker Pillsbury, R. W. Williamson, W. B. Churchman and Dr. L. V. Rubel.

Other named to committees were Frank Rattig, John Wiley, A. W. Tingwall, Joel Tilus and Eldon Thompson, club service; Murray Jensen, Graham Ward, Churchman, and Low Pratt, classification and membership; Kenneth Walker, Bert Puller, Ralph Shawyer and Lloyd Young, fellowship; Guy Simons, sergeant at arms; William McKnight, Stanley Slater, John Hoeman and Dave L'Herrion, rotary and public information; Earl Williams, Bert Ellis, H. A. Streed and K. Hamilton, attendance.

Bob Peterson, Dr. R. C. Matson, Clark Heiss and C. J. Marshall, community service; Sharon Albertson, Charles Fleener, W. B. Churchman and Al Robinson, boys work and youth service; L. H. Van Riper, Ernie Smith, R. Freeman, Ernest Craig and Dr. L. V. Rubel, rural-urban; Charles Welteroth, Dr. Charles Small, Ed McCleery and Walter Olds, crippled children; Lester A. Frazier, Harry Carburn, William

Regional Parleys On Schools Start

BOISE, July 31 (AP)—Regional meetings of county boards of education and county school reorganization committees are underway today at Lewiston and Friday at Coeur d'Alene.

The Lewiston meeting will attract groups from Clearwater, Ida., Lewis, Latah and Nez Perce counties. Representatives from Benewah, Bonner, Boundary, Kootenai and Shoshone counties will gather at Coeur d'Alene.

Subsequent regional meetings will be held at Challis on Aug. 4, Idaho Falls on Aug. 5, Pocatello on Aug. 6 and Twin Falls on Aug. 7.

Speath and Virgil Cross, music and song; August Vogler, Henry Tingle, Tadd Nelson and Lawson Miller, vocational service; Joe Shirley, William Orevig, Al Woodhead and Bud Reed, international service.

He's "Mr." Now
LOS ANGELES, July 31 (AP)—Gen. H. H. (Hap) Arnold tried to buy a war surplus tractor today but got a "maybe" answer to his order.

The war assets administration said the wartime commander of the army air forces, now living on a California ranch, would have to take his chances 50-50 with a civilian in a drawing for the tractor.

**Castleford Man
Injured in Fall**

CATTLEFORD, July 31—Albert Hodges, Castleford farmer, is recovering from a slight brain concussion, broken ribs and severely lacerated ear received when he fell from a load of hay recently.

He was taken to a Buhl physician for treatment and is now convalescing at his home north of Castleford.

Smart Editor Thwarts Try Of Racketeer

WASHINGTON, July 31 (AP)—A newspaperman who has been accused by officials of racketeering has thwarted an attempt to make a killing in the "numbers" game by rigging published figures on the treasury's cash balance yesterday.

Each day, the treasury issues a statement of its financial condition. This statement, besides its value to persons interested in government finance, is eagerly awaited by numbers players because the figures show the pay-off lines on the numbers showing the cash balance.

A few minutes after the statement was issued, a man called news services, which had just transmitted the figures on their wires. Identifying himself as a member of the "treasury public relations department," he said there had been a misprint in the treasury figures; that the cash balance should be \$3,032,704,583.59 instead of \$3,032,704,583.59.

Some news organizations sent out corrections on the basis of the telephone call, but Gardner L. Bridge, an Associated Press editor, decided to check up. He called Charles Molony, AP staff man assigned to the treasury.

No Such Name
Molony, on investigating, was informed by treasury officials that there was no employee in the department with the name the mysterious caller used.

The AP stood on its official figure and the other news organizations quickly changed back to it.

If the attempt had been successful it could have been a gambler's dream. Many thousands of dollars conceivably could have been won, particularly if tickets had been bought in many cities.

Expert for Polio Arrives in Boise

BOISE, July 31 (AP)—Dr. A. C. Gilliam, Ann Arbor, Mich., epidemiologist, has arrived here to study the recent southwest Idaho outbreak of infantile paralysis.

Dr. Gilliam will collect specimens to be given extensive laboratory study.

He is an associate of Dr. Thomas Francis, professor of epidemiology at Michigan university and considered one of the nation's leading polio research experts.

Tourney Opens

The men's softball championship tournament, from which will come four teams to play in next week's district event, will open at 8:30 p. m. today at Harrison park. In the first game, the IOOF meets the Cerrillos. Other games will show the Tower cafe against the Sterlings, and the Beangrowers against the Orange Transportation.

Crews Strengthen Blaze Fight Lines

MCCALL, July 31 (AP)—Crews today were strengthening fire lines which have been drawn around some 1,800 acres of smoldering timber land and grassland in the central Idaho primitive area.

Dispatcher Harold Vassar of the Payette national forest reported the fire situation as "looking good" as winds died down yesterday for the first time in several days. A 150-man crew was on duty at the 1,200 acre grass and timber fire at Mackay bar, some 55 air miles east of Riggins. Another 300 encircled a 600 acre fire over heavy timber on Sheep mountain 85 miles east of here.

Vassar said crews have halted the spread of both blazes and should be able to control them unless heavy winds spread the flames.

Pioneer Publisher at Emmett Dies, Age 83

EMMETT, July 31 (AP)—Edward Skinner, 83, publisher of the Emmett Index for 30 years and past president of the Idaho Editorial association, died yesterday.

Skinner was born Sept. 21, 1863, in England and came to the United States in 1872. He was in the printing trade for several years in Kansas and Nebraska before coming to Idaho in 1894.

He actively published the Index from 1904 until 1934 and until about two years ago had served as editorial writer for the weekly publication.

English Army Slash Pointed U.S. Reminder

BY DEWITT MACKENZIE
AP Foreign Affairs Analyst

Britain's drastic decision to reduce its global military commitments, in a further effort to overcome the economic crisis gripping the country, is a potent reminder that the United States is the last of the great democratic powers still capable of fully manning a war-machine and that this can be a mighty lone voice world.

Under Heavy Fire
He has been under heavy fire, not only from his conservative opposition but from many of his own followers.

The prime minister defended his position with determination. The result was that he won a virtual vote of confidence from the caucus.

The prime minister is reported not only to have promised to cut down military commitments in Greece, but that he will call on Britain's coal miners to work an extra hour daily in order to get the production which is so badly needed to stimulate badly lagging industry.

So Mr. Attlee's government would seem to have weathered a nasty hurricane. The storm signals aren't down yet, though, and won't be until there is marked improvement in the economic situation.

Heyburn Girl Given Red Cross Citation

HEYBURN, July 31—Bernice Stowell, daughter of Mr. and Mrs. L. J. Stowell, Heyburn, has received a commendation for her service as director of the American Red Cross staff with the first infantry regiment in Korea.

Miss Stowell also served two years with the Red Cross in England and Germany before going to Korea. She is a graduate of the University of Idaho and attended the Utah State Agricultural college at Logan, Utah.

Italy and Germany, but to reduce the number of men under arms and send them back into the ranks of labor to meet the demand for workers. Thus he got over one of the high hurdles.

Extra Work Asked
But that wasn't his only promise. It said that he will call on Britain's coal miners to work an extra hour daily in order to get the production which is so badly needed to stimulate badly lagging industry.

So Mr. Attlee's government would seem to have weathered a nasty hurricane. The storm signals aren't down yet, though, and won't be until there is marked improvement in the economic situation.

Valley's Lodges To Picnic Sunday

GOODING, July 31—The annual picnic of Wood River Valley Odd Fellows, Rebekahs, Theta Rho, and Junior Odd Fellows, will be held at the picnic grounds above Swan Junction, Sunday, George Subank, assisted by Robert Bryan and Swan Jernig, represented the Gooding lodge on the association committee. Alonzo Price, Ketchum, is the general chairman.

Members of the Buhl, Piler and Twin Falls lodges also have been invited to attend the picnic. Families will provide their basket lunches and the association will provide lemonade and coffee. Lunch will be held at 1 p. m., to be followed by a program and competitive events.

Robins Reneges

BOISE, July 31 (AP)—Gov. C. A. Robins was unable to join other state officials in a 40-mile rubber raft trip down the Clearwater river because, he said, "opposing state business" prevented his leaving the capital.

The officials are traveling down the north Idaho stream to study state timber holdings.

To get "Something for Nothing"

The railroads have received 44 "rules" demands from the leaders of the operating unions... representing engineers, firemen, conductors, trainmen and switchmen. They say they are seeking only changes in working conditions—NOT a wage increase.

More Money For Less Work

But what kind of rules are being asked for? Twenty-eight of them would compel railroads to pay more money for the same, or less work! 7 would require additional and unnecessary men to do the same work; the rest would bring about changes in operating practices at increased cost.

For Instance:

The Union leaders demand additional train and engine crews on Diesel-powered trains—one full crew for every power unit in the locomotive. A freight train hauled by a 4-unit Diesel would have to carry 4 engineers, 4 firemen, 4 conductors, and at least 8 brakemen, or a total of 20 men instead of 6.

"Made Work"—Sheer Waste

The Union leaders demand that full-length freight trains be cut to about half their length, even though such trains are most efficient for low-cost service to you. This rule would call for twice as many locomotives, would double the number of trains, and make accidents more likely.

Additional equipment, yards, and other facilities required to take care of these short trains would cost hundreds of millions. What the Union leaders really want is to make more jobs.

The Union leaders demand that when a crew in one class of service perform incidental service of another class, they will be paid not less than a day's pay for each class, even though all service

is performed as a part of the same day's work. The crew would get at least two days' pay for one day's work.

The Union leaders demand that the present basic day for passenger conductors and trainmen be reduced from 150 to 100 miles, which would have the effect of increasing their pay 50%. Such a run often takes only two or three hours!

You Can't Afford This Waste

Demands like these are against the interests of the whole American people, who depend on railroad service for nearly everything they eat, wear and use.

These rules would cost a BILLION DOLLARS annually—a gigantic waste which neither the railroads nor the country can afford.

Railroad workers are good citizens and good employees, with pride in their calling. Their record during the war was outstanding. We do not believe they fully understand the "featherbed" rules which the Union leaders are demanding. We do not believe they understand the harmful results which these rules would have to the railroad industry, to the millions of men and women dependent on railroads for their livelihood, and to the shipping and consuming public.

The great strength of America is in production—an honest day's work for an honest day's pay.

For only through greater production can we hope to stop the steady upward surge of living costs.

Surely, if ever there was a time in our history when we needed to work; not waste, this is it.

Official Rules Women 'May' Work in Bars

BOISE, July 31 (AP)—The attorney general's office has ruled that women may work in retail liquor-by-the-drink establishments as long as they do not perform duties of a bartender as outlined by the Idaho legislation.

In another decision, the attorney general's office held that bars serve beer on Sunday and holidays as long as they do not sell mixed drinks.

The opinions were written by Assistant Attorney General Robert Holden in answer to a query from D. A. Kramer, Weiser city clerk.

Recent Idaho legislation prohibits the hiring of women as bartenders and the sale of mixed drinks on Sunday and holidays.

The new Idaho liquor law defines the word "bartender" as any person, agent, servant, employee, licensee or in any other capacity who pours, mixes, prepares, serves or delivers any liquor by the drink upon any licensed premises. Bartenders are required to obtain state permits and bonds.

Although the common accepted meaning of the word "bartender" would mean any person who worked in and around a bar where drinks were served, Holden said the legislature specifically interpreted the word as it would be used in connection with the operation of retail liquor by the drink establishments.

Holden said a female cannot qualify for a bartender's permit, but "there are no restrictions . . . to prevent women from working upon licensed premises for the sale of delivery of beer, food and other commodities providing they shall at no time perform the duties of a bartender" as defined by the legislature.

Holden also ruled women may take orders for drinks and transmit them to bartenders for filling and serving. The state law prohibits the sale of mixed drinks on Sunday, Memorial day, Thanksgiving, Christmas, days of primary and general elections and on any other day between 1 a. m. and 10 a. m.

No Provision. "There is no provision," Holden asserted, "to make it mandatory . . . that such premises close for other business during those hours."

The state law does not prohibit the sale of beer on Sundays and holidays except between the hours of 1 a. m. and 7 a. m.

This opinion relates solely to the law on the question, Holden said, "and would not apply in communities where local authorities by ordinance have further limited the hours of sale of liquor or beer."

LEAVES FOR COAST. KING HILL, July 31.—Mr. and Mrs. Will C. Smith have gone to Portland, Ore., and other Pacific coast cities for an extended vacation.

Brothers Talk 'Old Times'

James Maher, Nampa, talks over old times with his brother, E. H. Maher, Twin Falls, James, left, helped produce the first edition of the Twin Falls Times. (Photo by Olive May Cook—staff engraving)

Former Resident Recalls How T-N Cut of Falls Originated

By OLIVE MAY COOK

Design for the cut of Twin Falls which is still used in the masthead of the Times-News was made by a tramp printer-reporter, according to James Maher who helped set type for the first edition of the Twin Falls Times early in 1903.

During a recent visit to Twin Falls, Maher, who now resides in Nampa, recalled that O. H. Barber established the Twin Falls Times, printing it in a building located across Main avenue from the present location of the postoffice.

Maher couldn't recall the name of the printer-reporter who designed the cut of Twin Falls. But he said, "That fellow could really turn out the work and on some suggestions made to him he worked out the design for the cut which is still used in the masthead of the paper."

Maher worked on the Times for about five months, then entered the employ of the old Perrine and Burton Mercantile company which did business in a building on the property where the Twin Falls Bank and Trust company is now located.

His brother, E. H. Maher, co-owner of the Maher and Mortson news agency and book store, Twin Falls, also was identified with early activities in Twin Falls. He first was employed in bringing poles and equipment here for the installation of the first telegraph office in Twin Falls and was one of the first volunteer firemen.

E. H. later helped lumber from Twin Falls to Buhl for construction work in Buhl. In 1906 he went to work for the Oregon Short Line railroad, working in the freight department until 1930 when he quit to go into business for himself.

When asked if he remembered any humorous stories from the early days in Twin Falls, E. H. replied that "it wasn't very funny at the time. It was mostly pretty tough hard work."

Mrs. James Maher chimed in to say that most of her recollections were of "approaching dust clouds and watching horses plod around through dust and/or mud up to their knees."

Her husband did better with a "true story, something that actually happened."

"It was when the first Buick automobile was received here," C. E. Lind, he said, "He started chugging up Shoshone street in it and frightened a horse. The runaway

came tearing up Shoshone street and turned in the alley back of the store (Perrine and Burton) and then ran through the back door of the barber shop. Jumped over the guy who was in the chair and then went on out the front window."

I think I can vouch for him on that one because I recall hearing the story before and was in Twin Falls at the time it happened.

About that time, Mrs. E. H. Maher dug out a box of early-day anaphrodisiacs and when I left the four of them were "going to town" on events in the "good old days."

Russ Balkans Veto Poses 2 Big Problems

By J. M. ROBERTS, Jr.
AP Foreign Affairs Analyst

The Russian veto of the United Nations efforts to halt the menace of war in the Balkans—a war which would bring the entire flimsy structure of general peace—brings western diplomats face to face with two urgent problems.

One is the very practical matter of doing something about the Greek situation.

The other is to find the right type of blood for a U. N. transfusion.

Russ Show Hand

Within a period of a few weeks Russia has shown clearly, at Paris with regard to economics and at Lake Success with regard to politics, that no considerations will be permitted to interfere with her own political aims. She has cast aside the last pretense of international cooperation.

What point is there, then, in maintaining a fiction at Lake Success, where the other nations might be making at least some progress if it were not for the Russians?

Keep Doors Open

The American answer is that every door must be kept open, every avenue explored.

That is why no action outside the U. N. was taken in the Greek case pending the consultations in Washington. The western nations could set up a commission in Greece on their own. That would be like what they did economically when Russia refused to cooperate with the Marshall proposal. But instead, since this involves the vital principle of general peace enforcement, the U. S. is trying to find some means of making the U. N. effective. Although that organization now appears helpless, there are still those who think that, if artificial respiration will work for the moment, it can yet be put on its feet.

ON INSPECTION TOUR
GLENNIS FERRY, July 31.—W. B. Groome, Postoffice, superintendent of the Idaho division of the Union Pacific railroad company, and A. Bybee, Nampa, assistant superintendent, have been in Glennis Ferry the past week on a general inspection tour.

came tearing up Shoshone street and turned in the alley back of the store (Perrine and Burton) and then ran through the back door of the barber shop. Jumped over the guy who was in the chair and then went on out the front window."

I think I can vouch for him on that one because I recall hearing the story before and was in Twin Falls at the time it happened.

About that time, Mrs. E. H. Maher dug out a box of early-day anaphrodisiacs and when I left the four of them were "going to town" on events in the "good old days."

Capitalist Worry About Labor, Steel

PHILADELPHIA, July 31 (AP)—More star Betty Grable—Mrs. Harry James in private life—made more money last year than her boss.

The 35-year-old St. Louis-born actress was paid \$220,533 in 1946 by 20th Century-Fox film, the corporation's annual report to the securities and exchange commission disclosed today.

Mrs. Grable's income topped the \$200,000 gross remuneration the firm reported it paid its president, Spyros P. Skouras, once a bus boy in St. Louis. Darryl F. Zanuck, vice-president in charge of production for the film company, was paid \$200,000, the report showed.

Steel Outlook Poor

But labor in the motorcar industry is not happy about the new Taft-Hartley law and has made it clear that it intends wherever possible to seek contracts by which it may escape some of the law's provisions. The outlook for an early return in the flow of sheet steel and other materials required in the car assembly plants is just about as uncertain as it has been at any time this year.

Some of the less optimistic among the automobile industry experts foresee the possibility of considerable labor difficulty, especially in supplier plants throughout the remainder of the year.

Interruption Blocks Planning

Any prolonged interruption to the industry's supply of parts and equipment easily could upset all the planning that has been done so far with respect to winding up 1947 model output and switching to 1948 production.

New model planning to date has given rise to the expectation that most of the smaller volume car makers would be ready to change over some time in November or early December. The industry's "big three" of General Motors, Ford and Chrysler may not complete the switch-over to new model output until well into the new year.

Applicants for the position are requested to obtain more information from the Kimberly postoffice.

Auto Makers Worry About Labor, Steel

By DAVID J. WILKIE
AP Automotive Editor

DETROIT, July 31 (AP)—The nation's automobile industry this week will assemble the 2,000,000th passenger car of its 1947 run.

That figure is just a little short of the total for all of 1946 and for renewed uncertainty regarding labor and materials it would warrant considerable optimism in industry circles.

Steel Outlook Poor

But labor in the motorcar industry is not happy about the new Taft-Hartley law and has made it clear that it intends wherever possible to seek contracts by which it may escape some of the law's provisions. The outlook for an early return in the flow of sheet steel and other materials required in the car assembly plants is just about as uncertain as it has been at any time this year.

Some of the less optimistic among the automobile industry experts foresee the possibility of considerable labor difficulty, especially in supplier plants throughout the remainder of the year.

Interruption Blocks Planning

Any prolonged interruption to the industry's supply of parts and equipment easily could upset all the planning that has been done so far with respect to winding up 1947 model output and switching to 1948 production.

New model planning to date has given rise to the expectation that most of the smaller volume car makers would be ready to change over some time in November or early December. The industry's "big three" of General Motors, Ford and Chrysler may not complete the switch-over to new model output until well into the new year.

Man Breaks Left Leg Second Time

DETROIT, July 31 (AP)—Mr. and Mrs. Frank Strain were visiting in Vancouver, Wash.

Strain suffered a fractured leg last March, and was recovering nicely when he fell Sunday and broke his leg again—this time in a different place.

He had gone to Twin Falls park, and with the aid of crutches, was climbing stairs from the Snake river to the picnic grounds when he accidentally threw his weight on the wrong foot, stumbled, and fell over backward, landing in the water below.

Strain was taken to the Twin Falls county general hospital where his condition is reported as "good."

AIR POWER IS PEACE POWER!

HELP BUILD AMERICA'S AIR POWER ON AIR FORCE DAY, AUGUST 1st

No one today questions the fact that the whole future of the United States may rest in the very clouds over your head. The security of this country demands strong, well-trained, well-equipped Air Forces, superior to any in the world.

And the new, reorganized Air Forces give thousands of eligible young men an opportunity to take an active part in building America's Air Power . . . on the ground as well as in the sky.

You may, for example, enlist in the Air Forces for three years. If you have a specialty which will qualify you, you may also be able to enlist in a grade at higher pay.

If you have had Air Forces experience, you may join the Air Reserve and continue your military aviation training outside of business hours.

Or you may join the Air National Guard and perhaps become eligible for advanced technical training at special Air National Guard schools.

Think it over. If there are Air Force Day exhibits in your locality, be sure to visit them on August 1st. If no demonstrations are to be held nearby, get a copy of the new Air Forces pamphlet, "Know Your Air Forces," at your U. S. Army Recruiting Station.

NOW—THE WORLD'S GREATEST OPPORTUNITY FOR A CAREER IN AVIATION

Today the Army Air Forces offer high school graduates an unprecedented opportunity to get the finest aviation schooling on earth—and select your school or course before you enlist.

The AAF Career Plan is unlike anything ever offered before. It permits selected high school graduates to apply and qualify for AAF specialized courses of their own choice. Simply go to your U. S. Army Recruiting Station, explain the kind of aviation training you want and you will receive an application blank and a complete list of available courses.

When you are selected to attend the course of your choice, you enlist in the Army Air Forces for 3, 4 or 5 years. After your basic training period you are guaranteed the education you have selected to make you a specialist in the type of work you have chosen.

Get a list of all the schools and courses open to you under the AAF Aviation Career Plan at your nearest U. S. Army Recruiting Station.

Fine Tobacco is what counts in a cigarette

LUCKY STRIKE presents THE MAN WHO KNOWS—THE TOBACCO AUCTIONEER!

"I was born on a tobacco farm and I've sold tobacco at auctions for over 19 years. In all that time I've seen the makers of Lucky Strike buy fine, good-tastin' tobacco . . . tobacco that's got quality, real quality."

John L. Cummins

J. L. Cummins, Independent tobacco auctioneer of Cynthiana, Kentucky, has been a Lucky Strike smoker for 22 years. So remember . . .

Grain Improved Vending Devices Being Built To Lure Coin-in-Slot 'Impulse Buyers'

By DOUGLAS LARSEN, WASHINGTON, (NEA)—Are you the "impulse buyer" type? If not, watch out. There's a move on foot to turn you into one. It's all going to be done with automatic vending machines. The department of commerce defines impulse buying as a purchase made on the spur of the moment. Something catches your eye, and bingos, you buy it without thinking. It's what you come home from the store with that wasn't on your shopping list.

Coin vending machines tend to inspire impulse buying, commerce experts claim. And then the machine makes it simple to follow that impulse. Just a coin in the slot, and you're done. This has inspired many manufacturers to plan to sell their products through vending machines. Vending machines which can handle all sizes of merchandise, built-in change mechanisms for price-range, and coin-operated delivery systems, are being developed. In 1944 it accounted for an estimated \$100,000,000 worth of chewing gum, \$200,000,000 worth of candy, \$70,000,000 worth of cigarettes, and in the next year the vending machine manufacturers hope, this selling method will be a \$300,000,000 business.

The new products dispensed by vending machines include insurance policies, books, frozen foods, and sandwiches, fruit juice, popcorn, ice cream, and laundry machines. And shoe shining machines with coin attachments are also in use. On the horizon are machines to sell all kinds of delicatessen foods, sun glasses, fresh fish, phonograph records, and many other things. The limit, the department of commerce says, is only the imagination of the manufacturers of such machines, as to what their machines can be made to sell.

The department of commerce estimates that over 3,500,000 vending machines are operating in the U. S. today, valued at about \$100,000,000. The department estimates that by 1950, the service system used by grocery stores will be in use.

Oldtime Iron Mine, Famed In '76, Opens
RINGWOOD, N. J., July 31 (UP)—The Ringwood mines which produced the famous "Old Iron" brand of iron ore, after being closed for 20 years, are reopening today. The mines, which were operated by the Ringwood Iron Mining Co., were closed in 1926 due to a lack of demand for the ore. The mines are now being reopened by the Ringwood Iron Mining Co., which has acquired the rights to the mines from the Ringwood Iron Mining Co. The mines are expected to produce about 1,000,000 tons of iron ore per year.

Potatoes—Onions
Nicked in the slot brings a shine on the potato in the slot. It's for men's shoes only, but prices again show that the model would get a shine on her open toes.

Judgment Delayed For Disturbance
Judgment was deferred until a later date in the case of Lee Edward, 40, Rochester, charged with disturbing the peace. The case was heard in the Municipal Court today. The judge ruled that the defendant's behavior was a disturbance of the peace, and the judgment was deferred until a later date.

Truman Approves 'Gift of Airfields'
WASHINGTON, July 31 (UP)—A bill to permit the gift of surplus airfield property to the public, known as the "Gift of Airfields" bill, was approved by President Truman today. The bill authorizes the transfer of surplus airfield property to the public for use as parks, playgrounds, or other recreational areas.

Teachers Warned On Health Check
Teachers of Twin Falls schools were reminded by the county superintendent today that health certificates are required under state law before they can return to work. The county superintendent emphasized the importance of maintaining high health standards for the teaching staff.

Power Development Movie Show Lions
A movie show featuring the development of power in the Snake River valley was shown to the Twin Falls Lions club Wednesday night. The show highlighted the progress of power projects in the region and the impact they would have on the local economy.

Three Californians Injured In Accident
Three Californians were injured in an automobile accident near the town of Glendale, California, today. The accident occurred on a busy highway, and the injured parties are being treated at a local hospital. The cause of the accident is still under investigation.

80 Die Each Day In Car Accidents
CHICAGO, July 31 (UP)—Traffic accidents in the United States killed an average of 80 persons a day from Jan. 1 to July 1, figures released today by the National Safety Council. The council's report highlights the need for improved traffic safety measures to reduce the number of fatalities on the roads.

Penalty High For Violation Of Car Rules

(From Page One)
Fines of \$100 to \$300 or impose both the jail term and the fine.
A second offense within a year's time is punishable by sentence to the state penitentiary for from two to five years at hard labor.

Speeding can bring a maximum fine of \$300 and six months in jail under state law.
If violators in any of these cases are brought before a city, rather than state court, the maximum penalty is \$100.

The terms, "driving while intoxicated" and "failure to observe a stop sign," are both self-explanatory.

More factors are involved in speeding, however, and here is some information that will assist drivers in avoiding this violation.
State law provides that any person driving a vehicle on the highway shall drive in a careful and prudent speed not greater than is reasonable and proper, having due regard to the traffic, surface and width of the highway and other conditions then existing, and no person shall drive any vehicle upon a highway at such a speed as to endanger the life, limb or property of any person.

Under certain conditions, definite low speeds are specified. These include: 15 miles per hour when approaching within 50 feet of a grade crossing of any stream, electric or street railway when the driver's view is obstructed; 15 miles per hour when passing a school during recess or while children are going to or leaving school; 15 miles per hour when approaching within 50 feet and traversing an intersection of highways when the driver's view is obstructed; 15 miles per hour when going around curves or traversing a grade upon a highway when the driver's view is obstructed within a distance of 100 feet along the highway; 20 miles per hour on any highway in a business district where traffic on this highway is controlled at intersections by traffic officers or stop-and-go signals; 15 miles per hour on all other highways in a business district; and 20 miles per hour in a residence district.

Army Taking Men For Europe Duty

New war department orders now make it possible for a limited quota of men to enlist or re-enlist for service with the army in the European theater after a 14-month shutdown in enlistment for that zone.

Lieut. G. P. Orlan, Twin Falls recruiting officer, announced Thursday.

Former regulations allowed only men with certain critical occupational specialties to enter the army for service in that theater. The new regulations are designed to allow vacancies to be filled without unnecessary delay.

American Falls Threatened by Elevator Blaze

AMERICAN FALLS, July 31.—Fire caused about \$10,000 damage to the Farmers' Elevator owned by the Power County Grain Growers association and ruined between 12 and 15 tons of oats stored above the barley steam-rolling room where the blaze apparently started from an overheated motor. Machinery in the steam-rolling room was burned to the floor.

The blaze was discovered about 8:30 p. m. Wednesday and was brought under control by the American Falls fire department aided by two fire trucks dispatched from the army airbase at Pocatello.

Sherriff Bill Hochman said that disaster would have resulted if there had been a high wind to spread the blaze to a gasoline bulk plant on one side of the elevator and five other elevators on the other side.

Been Conducting Four Years

At 8 years old Ferruccio Burce directs the Rome royal opera symphony in Beethoven's First Symphony as he makes his official debut in the Italian capital after conducting more than 40 concerts in various Italian cities. He's the great grandson of the Italian composer Vincenzo Bellini, and conducted his first concert when only 4 years old.

21 Youths Return From Conference

Twenty-one Presbyterian youth people have returned from a conference camp near Sun Valley, which was conducted by the Rev. and Mrs. Donald B. Blackstone and Mr. and Mrs. Clarence Wagner.

Attending the conference were Marlene Monroe, Carolyn Clark, Rae Salisbury, Joanne Stafford, Ann McMillan, Maurine De Witt, Joyce Billington, Janet Gillespie, Nancy Shipley, Doris Ann Weaver, Dick Irwin, Dwayne Harder, Arnold Johnson, Patty Plinn, Sherie Fox, Edith Gillespie, Doris Shearer, Virginia Bracken, Joyce Pettygrove, Marilyn Chaney and Charlotte Wagner.

State Head Tells Grange's History

CASTLEFORD, July 31.—The history of the Grange was outlined by John Demond, state Grange executive, at a meeting of the Castleford group. He also outlined plans of the state convention to be held in Twin Falls next December.

Cub Scouts Receive Castleford Awards

CASTLEFORD, July 31.—Castleford Cub Scouts netted \$18 profit at their recent ice cream social, at which several Cubbing awards were presented.

Receiving awards were Paul Gillespie and Danny Alexander, bobcat pins; Bobby Conrad and Jimmy Wray, gold and silver arrow points; Norman Quigley and David Kinyon, silver arrow points; Gary Ringert, gold arrow pointer; Tommy McCain and Van Reed, webelo badge; David Kinyon, lion award and lion gold arrow points.

A shortage of vitamin A in the diet weakens eyesight and increases night blindness.
