## 'Average' Income Here Reported at \$4,174 After Tax

(Special to the Times-News)  
NEW YORK, Aug. 16 (AP)—Twin Falls families had more money available for spending during the past year than did the average family elsewhere in the United States, according to Sales Management's 1947 survey of buying power.

The figures show that the average Twin Falls family had a net income after taxes, of \$4,174, compared to the average of \$3,640 earned by families in other communities in the country, to the \$3,296 received per family in the mountain states and to the \$3,435 net income of Idaho families.

## Group Begins Plan to Name Perrine Span

A chairman and executive committee were appointed Friday night to arrange for raising funds to place memorial markers honoring the late I. B. Perrine at both ends of the rim-to-rim bridge across Snake river. Herbert R. Grant was named chairman of the group meeting at the home of Mrs. A. J. Peavey. Mrs. Peavey was named secretary.

Addition T. Smith, former congressman from Idaho, was delegated by Chairman Grant to call on Gov. C. A. Robins to determine the legal procedure, necessary to name the bridge after Mr. Perrine.

Drive Delayed  
A drive for funds to raise the monuments will not be launched, the group decided, until an estimate has been received on various types of monuments and one of them has been selected by the executive committee, composed of representatives from surrounding communities.

Grant named the following persons to the executive committee to act as sub-chairmen in their individual communities: H. C. Gierster, Mayor; G. L. Lauterbach, G. T. Hamilton and P. L. Lawrence, Twin Falls; Edgar Morrison, Mullan; Mayor R. B. Bradshaw, Wendell; John S. Hagerman, Hagerman; Julius Schmitt, Gooding; A. T. McMahon, Shoshone; Earl Ramsey, Piler; Charles W. Barlow, H. K. Belmont and H. E. Gundelfinger, Hazelton; Guy P. Sturgeon, Eden; Peter Link, Hansen; E. J. Clavin, Hooton; J. W. Kimbrey, J. H. Barker and James H. Shields, Buhl; Charles Marshall, Sam Tingswall and Joe Shirley, Jerome, and former Congressman Smith.

Also discussed by the group was an exchange point with regard to the bridge as part of the memorial.

Arch Opposed  
An arch at either end of the bridge was discussed, through the aid of many members of the group as being a hazard to high vehicles and as exorbitant in price.

Memorial plaque was an appropriate memorial was the most favored suggestion. The plaque would be set in a stone shaft at the bridge end.

Mrs. John Graham was named to write the text for the plaque and to obtain from local business dealers estimates of cost.

Chairman Grant told the group he would check county records to determine owners of bridge and property.

Attending the meeting were Grant, Mayor and Mrs. Lauterbach, Mr. and Mrs. Gierster, C. L. Krierer, Mrs. Graham, former Congressman Smith and Mrs. Peavey.

## Marshall Plan 'Too Narrow,' Pepper Avers

WASHINGTON, Aug. 16 (AP)—Senator Pepper, D., Fla., today criticized the Marshall plan for Europe "too narrow" and proposed that it be broadened to take in every nation in the world that needs help.

The senator, who reported that he had discussed his foreign policy views with President Truman in a White House visit earlier, told a news conference he doesn't believe we should exclude economic aid to those political areas we don't like.

His GOP Action  
In an accompanying formal statement, Pepper asserted that the Republican-dominated Congress "has made reaction in domestic policy the most potent force shaping our foreign policy."

In an arrangement of the nation's international program, he declared that "we have laid down insupportable conditions for economic aid, conditions which are soving the trust even among those nations who do not aid."

"Exploded" Foreign Policies  
In response to questions he said that he and President Truman had gone over foreign policies "in an exploratory way."

Pepper said that he had predicted against Mr. Truman's proposal to extend \$400,000,000 in economic aid and money aid to Greece and Turkey in the last session of Congress and has criticized the administration's attitude toward Russia.

Pepper said that he had predicted that the administration would not support Mr. Truman's proposal to extend \$400,000,000 in economic aid and money aid to Greece and Turkey in the last session of Congress and has criticized the administration's attitude toward Russia.

## Doubling up on Canning Project

Among the hundreds of LDS church members now donating their time and energies toward achieving the goal of 50,000 acres of produce for the needy are these youth. Cloyd (left) and Clyde Owens, sons of Mr. and Mrs. E. Owens, with a group of Buhl young people, they helped pick apricots donated to the church by the owner of the trees. The brimming boxes were then transferred to the canning kitchen and welfare center in South Park for canning and added to the growing stockpile of the Twin Falls stake. (Staff photo—enlarging)

## LDS Church Members Tackle Their Big Welfare Program With "Play" Attitude

By JOHN BROSAN  
If you happened to be at the right place at the right time early one of these summer mornings, you would see a remarkable sight. A group of people of all ages and from all walks of life wearing work clothes busily pull red table beets in a field near Twin Falls. This is not a scene from a movie, but a real life scene at the LDS welfare center in South Park. That evening, another group of church members will can the beets. When 50 bushels of the beets are ready for the storehouse—less than 24 hours after they left the

## U. N. Banking Agency Plans Receive Okay

LAKE SUCCESS, Aug. 16 (AP)—The United Nations Economic and Social Council tonight gave its approval to a draft agreement linking the International Bank for Reconstruction and Development with the U. N. as a specialized agency.

Despite Soviet charges that the agreement violated the U. N. charter, the council approved by a vote of 12 to 3 an American proposal to accept the agreement and to recommend its approval by the general assembly.

Only Russia, White Russia and Norway voted against the U. N. resolution. Czechoslovakia and New Zealand abstained.

The fight over the bank developed at the council's meeting to invite the U. N. to its four-week session. As a result of the long debate, the delegates were forced to go into a night session beginning at 7:30 p. m. (EST).

This morning the Netherlands demanded that the council reconsider a previous decision to invite the International Republic to send a representative to the forthcoming world trade conference.

The council voted 12 to 3 to offer a lengthy wrangle to uphold a ruling of Council President Jan Pajumek, Czechoslovakia, that the council should not re-open the question. The U. S., Britain, France and Canada voted with the Netherlands. Russia and China headed the majority list.

The Jewish Hagana defense militia on the Tel Aviv side and the Arab side, which is organized on the Jaffa side, today announced that they had agreed to a truce.

The only fatal incidents of the day in the troubled areas were Jews and Arabs who were at each other's throats in the Jaffa area. The Jaffa side was under order from their respective leaders to enforce the peace—but to be alert for attacks from the other side.

## 'Free Greek' Rule Started, Proclaims Guerrillas' Leader

ATHENS, Aug. 16 (AP)—Gen. Markos Vafiades, Greek guerrilla leader, proclaimed by radio broadcast the organization of a military government in "free Greece" and the government today seized published copies of the proclamation as soon as they appeared. At the same time Greek third army headquarters in Salonika announced intensified guerrilla activity at a dozen points, ranging from western Thrace to western Macedonia, during the past 48 hours. Use by the guerrillas of heavy mortars not even available to government forces was reported.

## New Education Board Names Mrs. Stradley

Mrs. Doris Stradley was appointed county superintendent of public instruction under the county board of education plan when that board met Saturday at the court house.

Besides being the elected county superintendent of public instruction, an office abolished by the county board of education act, Mrs. Stradley was given the appointment and will act as secretary and administrative officer.

Appointment of Mrs. Stradley was recommended to the board by County Attorney Everett M. Sweeley in a letter to the board Thursday.

Basic of the Sweeley recommendation is to avoid legal questions that might otherwise be presented. The new county board of education law does not clearly state if the elected and acting county superintendent shall act in that capacity, the county attorney pointed out.

Two other recommendations made by Sweeley were carried out by the board of education, Mrs. Stradley announced.

The July appointment of school members prepared and filed by Mrs. Stradley was adopted by the board as its action on the questions as to sufficiency of the appointments.

Mrs. Stradley was designated as secretary and administrative officer to counteract all orders for warrants to be drawn on school funds, to facilitate payment of school expenses.

The board of education certified a resolution to turn the calendar back a few months.

Last May, the Twin Falls stake, consisting of the four Twin Falls wards and those at Mullan, Kimberly, Piler, Buhl and Castleford, received a staggering assignment. But it was made to look easy.

This task is to provide, without expense, 50,000 cans of produce. The assignment dovetails into a far-reaching program of relief.

## GOP Official Levels Blast At CIO List

WASHINGTON, Aug. 16 (AP)—GOP Chairman Charles McNary said in a new CIO voting guide is another "attempt at dictatorship" while Senator Charles McNary, R., Ky., said the Republican controlled House would be the people in order to manufacture 1948 campaign ammunition.

Reps predicted the CIO "may" record for the session just ended, before the House voted on the same degree of success attained by the 1946 model.

Refers to CIO List  
He referred to publishing in the CIO News last week-end of "right" and "wrong" votes of senators and "attempts to guide union members in voting for certain candidates in next year's election." McNary said it constituted part of a campaign of misrepresentation of the record of the Republican controlled House.

In his own appraisal of that record, McNary said that in domestic affairs the House had been "painted a sorry picture of partnership of subservience to special interests and the needs of the mass of the people."

Parting Blast  
Barkley said a parting blast in a full and final session of the official record for the session just ended.

The same issue carried a scathing evaluation of congressional accomplishments by Senator Taft, R., Ohio, chairman of the Senate Republican policy committee, and house majority leader Hallett, R., Ind.

## New Districts Get Approval Of Committee

Boundaries for five trustee districts "each of the class A" school districts of Twin Falls county were approved Friday night by the county school reorganization committee of six members as its first official act since its formation in June.

The meeting was called to redistrict the two districts, said Chairman Lee Leichter. Both had applied for redistricting and had submitted maps showing the location of the five trustee districts within each school district.

Provided in Law  
Under laws passed by the 1947 legislature, five trustee districts are to be established in each class "A" school district, and one trustee district in each class "B" school district. Six trustees were elected at large from the entire school district.

## Bean Experts Finish Parley By Plot Tours

Federal, state and commercial bean experts are returning to their homes today, following completion of the 1947-48 bean conference conducted in this area since last Thursday morning.

Climax of the event was a gathering Saturday night at the Buhl mill where the delegates were entertained by the Chamber of Commerce and that community.

This session following a morning session of the bean conference in the Buhl mill Friday afternoon, the 100 conferees visited the Jerome and Hazelton sections.

First on the morning's agenda was a visit to the new, seven million bushel Clover, with special emphasis on two University of Idaho Great Northern varieties—No. 23 and 21—which are resistant to new and old type mosaic and curly top.

Next the group visited a 50-acre field near Buhl where beans were highly infected with mosaic. From there they went to the Rudolph Zach farm west of Buhl to view a crop of disease-resistant U. of I. 24's. This was followed by the U. of I. plant pathologist at the university.

At the close of the conference, Scott's Bluff, was selected as the site for next year's session.

Meanwhile, law enforcement agencies are working to locate the stolen airplane.

# Horse Events Sponsored by Business Men

Officials of the Frontier Riding club announced Saturday that merchants of Twin Falls made possible the fourth annual Magic Valley Horse show.

When the entry lists closed Saturday and the catalogs went to the printers, 140 horses had been entered to compete for the cash awards. Manager W. W. Lowery also has announced that horsemen and women who wish to assist in preparing the arena grounds for the show and to put up portable stalls received from Utah are asked to meet at 9 a. m. today at the riding arena.

The three-night performance opens Thursday under the area of Frontier field.

Prize money of \$5,000 has been offered to winning exhibitors. This has been contributed by almost two score Twin Falls businessmen whose firms have sponsored the various classes to be shown.

C. R. Nelson, general chairman, announced the following businessmen whose firms have sponsored the events listed:

The Bob Reese Motor company contributed the \$25 prize money for class number one, a jumper class.

Bertie E. Campbell provided the trophy for the winner of the pony class. Van Engelen's contributed \$105 for class three, junior line class.

The J. E. White Insurance agency provided trophies for the winners of the halter class under one year old.

Miles J. Browning contributed \$75 for winners of the women's English pleasure class. The Independent Meat market gave \$105 for the bridled stock horse event.

Prices totaling \$105 were given by the Union Motor company for the five-gaited women's class. The Stock Growers Commission company provided \$75 for the prizes in the western pleasure men's class. The Tennessee walking horse class, in which \$105 is offered in prize, is sponsored by the Park hotel.

Barnard Auto company is sponsoring the three-gaited open class with \$105 in prizes. The Sportsman has offered \$55 in the matched western pairs class, and the J. C. Penney company is providing the \$105 for the five-gaited open class—final event of the first night's show.

Friday night events will be sponsored by the following:

The Frank Judd Auto Parts company will provide the \$55 in prizes for the open hunters class. Royal Bakery will offer the trophy to the winner of the children's saddle horse class. Van Engelen's has given \$105 for the winners of the fine harness open.

McVey's will donate the trophies for all winners in the halter class of colts one year old and under two. ## Campers Asked to Watch Fires In Camping Grounds in Forest

Editor, Times-News: Enclosed is an open letter to all campers who use the facilities of the Sawtooth national forest. During this past week-end, you and some of your friends had the pleasure of visiting a national forest campground. We hope your short stay there was restful and pleasant.

The ranger called us this morning and reported that when you left your campground, you left two large fires burning. These were in the campground, but not in regular campfire places. Apparently you did not realize that such action is prohibited by the Idaho state fire law and by the national forest regulations. It also is in complete disregard of the public good.

These campgrounds in our forests and on our lakes and streams are visited each year by many thousands of people. Each one of them has to use care in protecting the area from fire if it is to remain in condition for others to enjoy. Each person is responsible for seeing that his fire is dead out before he leaves it.

Fortunately, our guard saw your fires and put them out before they had done any serious damage. Another time we may not be so fortunate. And we still have those two blackened spots that should not be there. If very many campers left fires as you did, it would not be long before the whole area would be charred and completely useless as a campground.

When you go into a forested area again, please take a new look at it. Try to visualize the area as an important watershed, a place for recreation area, and as a storehouse of natural resources. Then remember that fire is one of the worst enemies of the forest. A little carelessness with fire easily can destroy values which it is impossible for us to replace during our lifetime.

We hope you will return to the Sawtooth national forest for another visit. And when you do, please

## He Worries Over High Living Cost With Low Wages

Editor, Times-News: The past several months, I have done some traveling while shearing sheep. I had an enjoyable trip and have learned many things. When I came home to my lifetime work, which is all I know, I received the going wage of 85 cents an hour.

While I was traveling, I observed that it cost about \$1 a person in order to sleep. Well, if I work on the farm for 85 cents an hour for eight hours, I will receive \$6.80. Now if I look for a place to sleep in Twin Falls with my family of eight, figuring \$1 per person, I would be already \$8.00 in the red.

What I would like to know is why I was paid \$1 an hour in 1943 and 1944 for the same kind of work and didn't go broke as some people suppose. So how do our fathers expect a man to feed his family with things so completely unbalanced?

## Rename Streets, But Not Number Plan, He Urges

Editor, Times-News: The agitation over renaming Twin Falls streets reminds me of a similar agitation in Tucson, Ariz., early in the century when an attempt was made to rename streets after sentimental Spanish names. The campaign waxed hot until some one suggested that it would be okay to name the streets anything to suit their fancy, just as they retained the present street numbers so the public could find its way around without carrying a city map or asking other people to find out where they were.

That was the last heard about renaming streets. Twin Falls is one city where anyone who has learned the system of streets and avenue numbering can find any house number without a map. That is true of the addition on the north side where the streets are named after Presidents.

But outside those districts, one must either have a map or ask someone who knows the system. So go ahead and name the streets and avenues anything that tickles your fancy, but if you want your friends to find the place where you live, you'd better hang onto those street and avenue numbers. It's that simple.

## Coverage of Ram Sale Appreciated

Editor, Times-News: We wish to express to you in behalf of purchased breeders not only of Twin Falls county and our chairman, Robert S. Blackstock, but the industry as a whole for the very fine coverage your newspaper gave prior to and following the recent state ram sale at Piler.

Without doubt, Idaho is one of the most outstanding producers of purebred sheep in the west as the records substantiate that claim. We would like to have two extra copies of your paper of Aug. 7, which carried the report of our ram sale.

## Needed Reading, He Declares of Safety Articles

Editor, Times-News: Let us talk about something we can do something about. Those traffic safety articles carried in the Times-News recently, along with the article in the current Saturday Evening Post, "License to Kill," should be necessary reading for anyone asking for a highway hunting license, sometimes called a driver's license.

When I recently got my license renewed, no questions were asked. It was presumed that I had a dollar. This I did have and I got a license.

No one can drive a car many minutes without either himself forgetting proper rules and courtesy or seeing discourtesy and broken rules by other cars. I do not say by other persons, because at the moment the discourtesy thing is done, of a traffic rule broken, there is not a person driving the other car. A nut is at the wheel.

People make turns without a signal, or in making a right-hand turn, they swing far to the left so as to get the proper body swing so necessary in graceful driving. Drivers' examinations would remind us all what is actually expected of us.

## 350 Pea Pickers Needed at Victor

A total of 350 pea pickers are needed at Victor, Idaho, to begin work Aug. 22, according to A. J. Meeks, manager of the Twin Falls office of the Idaho state employment service.

Meeks said a call for the workers had been received and that the job pays 50 cents a bushel. About three or four weeks of work is available. Tent houses and electricity are provided the workers but they are requested to bring their own bedding and utensils.

Further information on the peapicking job can be obtained at the Idaho state employment office.

## The Flying Disc

It had to come sooner or later, as herewith is a new hat style inspired by the flying disc that reportedly soared through Snake river canyon last week. This number, modeled by Mrs. Fred Miller, Twin Falls, embodies the essential characteristics of the flying saucer, including the jet at side trailing fumes of spun glass. The rolled brim corresponds to the piping that a witness said surrounded the lower edge of the flying disc. This hat style has the advantage of being something that can be worn either in the afternoon or the evening, or preferably left at home for the children to sail around the back yard. ## Easterner Buys Half Interest in Pocatello Paper

POCATELLO, Aug. 16 (AP)—Purchase of one-half interest in the Pocatello Tribune-Journal company by Col. M. Preston Goodfellow of Brooklyn, N. Y., was announced today by the company management.

Colonel Goodfellow has purchased the interest owned by William S. Cady, who will continue with the firm as national advertising manager and in an advisory capacity. Through the sale, Colonel Goodfellow becomes a partner of Nicholas Ifft and his sister, Catherine Ifft Kirchhof, Denver, in the newspaper which has been published in this city since 1892, when it was founded by G. N. Ifft, who died suddenly of a heart attack here Friday.

Colonel Goodfellow has been in newspaper work since 1907 and is former president and publisher of the Brooklyn, N. Y., Eagle. He sold his interest in that paper in 1938.

## Welfare Plan Of Church Is 'Play Source'

(From Page One)

Stung system to assist in relief in England and other foreign countries, as well as to replenish LDS storehouses in the United States. These storehouses supply the worthy, needy of the church.

Decided upon by national headquarters, these assignments are based on natural resources of the region, state, ward and individual. For example, California may be called upon to provide canned fruit. The northwest may be assigned fish and lumber, and the Twin Falls stake is asked to provide a variety of canned produce, should the need be for wheat, or perhaps honey, the assignment goes to the Fairfield vicinity in Camas county where these are more abundant.

So it is that each church member has the opportunity to contribute to the welfare program by what he or she has immediately at hand. In turn, when circumstances cause a member to call upon the church for assistance, its resources are placed at his or her command. Objective of the present program is to remove eventually all worthy members of the Mormon church from state and county relief rolls.

Initial step in preparing to fulfill the obligation of 50,000 cans of produce was to build a state canning kitchen as part of the welfare center here. This was done by purchasing, with donated church funds, a building from the Hunt relocation center. This frame building provided the nucleus for a brick-walled and concrete-floored structure in which a state canning equipment was installed.

Eventual plans call for construction of another wing as a storage warehouse to hold immediately-needed state supplies. Surplus will be shipped to the regional storehouse at Burley.

When, through age, accident, illness or other causes, a worthy church member needs assistance, he can obtain an order from the bishop entitling him to whatever food, clothing or other necessities he may request.

These are issued by the warehouse. If an item is not in stock, the request is relayed to the regional warehouse at Burley. Should it not be available there, the order is transferred to the general welfare center at Salt Lake City. So fast as the church depends upon the organization down to the individual, the individual commands all of the church resources.

Some 10,000 cans of 50,000-can assignment have been completed. The produce has come from lands either donated to or rented by the church, has been raised and harvested by donated church labor. Members have also completed the canning. This is done in the building constructed by donated labor, and even the superintendent of the canning, who is trained in the canning technique, donates his services during the evenings.

Most of the produce now canned consists of peas, apricots, beans and beets, while that to be canned includes peaches, corn, tomatoes, plums and pears, as well as other fruits and vegetables.

To illustrate how the program works, a current project is picking and canning fruit from seven spruce trees. The owner was unable to sell the fruit unless it was picked, and he could not interest anyone in picking it. It would have spoiled on the trees, so he donated it to the church, even though he is a non-member, to contribute to the worthy cause. One ward has been assigned to pick the apricots, another ward to can them.

Then they will go onto the stockpile that is steadily mounting by the work of many hands and minds directed by one faith and toward one objective.

## Doing Their Part Toward Objective of 50,000 Cans of Food for Needy

One of the busiest spots in these parts on almost any evening is the canning kitchen and welfare center of the Twin Falls LDS stake where members are tackling the assignment to provide 50,000 cans of produce. Scene at top shows a group of young people packing the cans in boxes preparatory to storage and shipment; while at side Edgar Eldridge, route 4, Buhi adds another completed box to the growing stockpile. About 8,000 cans have now been finished. The project is an assignment from national headquarters at Salt Lake City to provide food for those in need abroad, as well as to replenish regional storehouses under the church's welfare program. (Staff photos-engravings)

## Castleford Men Set Program on Highway Safety

CASTLEFORD, Aug. 16—The Castleford Men's club will join the state-wide traffic safety campaign at 8:30 p. m. Monday when state traffic officers appear as speakers at its meeting in the Castleford Grange hall.

Guest speakers will be George Vaughn, director of highway safety from Boise, and R. O. Lewis, state commissioner of law enforcement. Lieut. A. E. Perkins, Twin Falls, indicated he may attend the meeting. Edie Platters, program chairman, said.

Besides the lectures, motion pictures on traffic safety will be shown by the state officers. Platters pointed out that the meeting should be of interest to the general public, and urged everyone to attend.

## Point System Is Scheduled For 4-H Fair

BURLEY, Aug. 16—Exhibits in the Cassia county 4-H fair to be held Thursday and Friday will be judged by points according to grade, County Agent Glenn Bodley has announced.

Chairman of the parade committee, announced that a large number of entries in the parade have been assured and indications were that it would be one of the largest in the history of the fair. He also announced that a \$50 prize would be awarded for the best float. Other parade prizes are \$25, second; \$15, third, and \$10, fourth. Prizes of \$25 each will be given for the best western costumes of men and women.

The Twin Falls county sheriff's posse will appear Aug. 20. The Cassia group will drill on the last two nights of the fair and the Minidoka county sheriff's mounted posse will ride on Aug. 21.

Mrs. H. V. Van Hook, assisted by Mrs. Wesley Sizemore, will be in charge of the flower exhibit. A total of \$200 has been allocated for premiums in this division. Exhibitors will not be allowed more than one entry in any one premium class. All entries in the floral show must be placed not later than noon Aug. 21, according to Mrs. Van Hook.

**Point System Set**

Bodley announced that points would be awarded as follows: A total of three points will be given a contestant for entering any project. Livestock, including beef, dairy, swine and sheep, and field crops will be given 10 points each for grade A, seven points for grade B, and five points for grade C.

Rural electrification and tractor maintenance—10 points for grade A, seven points for grade B, and five points for grade C.

Weeds, poultry, rabbits, miscellaneous—8 points for grade A, six points for grade B, and four points for grade C.

**Girls' Division**

In the girls' division, clothing, canning and frozen foods will be awarded 10 points for grade A, seven points for grade B, and five points for grade C.

Health, garden, and miscellaneous for girls—eight points for grade A, six points for grade B, and four points for grade C.

Special prizes of \$3 and \$1.50 will be given for teams on feeding and showing of livestock, dairy, beef and swine. For the livestock judging teams the prizes are \$15, \$10 and \$5.

**Trophies Set**

High individuals in home economics and livestock judging will be awarded trophies. For livestock demonstrations, prizes are \$15, \$10 and \$5 for the junior division (first and second year) and the senior division (third year and over) each will be \$10 and \$5.

Judges in the various events will be George Cook, Lincoln county agent, livestock; Jack P. Smith, Twin Falls county agent, dairy; Virgil Cross, Jerome county agent, crops; C. W. Dalgh, Minidoka county agent, horticulture; Florence

## Jerome's Legion Backs Retention Of Leased Water

JEROME, Aug. 16—The Jerome American Legion is on record favoring the retention of existing leased water rights for northside water users after hearing Charles Welteroth, secretary-manager of the North Side Canal company, accuse Michael Giroux, U. S. commissioner of reclamation, of partially in the fight over the use of American Falls water.

He specifically charged that Giroux used poor tact in meeting with Burley and Rupert Chambers of Commerce in closed session hearing only one side of the water user dispute. Welteroth said the Idaho Falls meeting was open to all water users and the Burley meeting was attended only by those parties interested in the development of the northside pumping extension at Rupert.

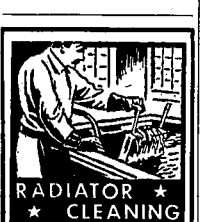

The Jerome Legion post went on record as being opposed to the use of Palisades water for the northside tract but urged retention of existing leased water rights.

The North Side Canal company for the past 17 years has leased surplus water from the American falls reservoir, which Rupert and Burley interests contend was earmarked for the development of the northside pumping extension.

## Thanks TO YOU FROM MOTOR-VU

Dear Patrons:

It is our sincere desire to thank you for the grand way in which you have welcomed MOTOR-VU OUTDOOR THEATRE in Magic Valley.

Your notes of comment and suggestion are truly gratifying, and we shall try to pay heed to every one of them.

Construction difficulties and material shortages prevented our completion of a fence high enough to block out the annoyance of the ball park lights in time for the grand opening, BUT HERE'S GOOD NEWS—we have been able to procure material enough to heighten our fences as originally planned so as to diminish the glare of the lights.

We appreciate your understanding patience and cooperation, and know you will be pleased to learn that our light glare problem will be remedied in a few days.

KEEP YOUR EYE ON YOUR MOTOR-VU—proposed to be one of the true beauty spots of Magic Valley. TREES . . . SHRUBS . . . FLOWERS . . . COLORED LIGHTS . . . AND PICNIC LAWNS will adorn the premises as soon as time and facilities will permit.

You'll be proud of your Motor-Vu Outdoor Theatre, the place to bring the entire family for fine movie entertainment in the convenient comfort and privacy of your automobile—and then there's the clean fresh Magic Valley breezes.

Sincerely yours,  
ROGER MARSH, Manager.

## Harry Barry Ain't Mad at Nobody

The past week has been one of concern at the Barry household. Charley and Ed have been a little bit concerned too. The occasion was getting our son, David, happily married. He exchanged vows Friday with Miss Emma Nelworth of Rexburg, Idaho, a girl whom he met at the College of Idaho. The event was at the Presbyterian church in Twin Falls with Reverend Donald Blackstone performing the ceremony.

Since this is over, we can get down to selling lumber again. Frank and Bob unloaded a car of one inch coast fir surfaced boards this week. This is the first car of one inch lumber that we have had from the coast since the war began. That item was always hard to get. The boys are now unloading a car of coast fir surfaced dimension, that we bought at a wholesale of a good price. We are passing it on saving to you. This car contains 2x4, 2x6, 2x8, 2x10 and 2x12's.

We got a car of mixed round cedar, and split cedar posts. All these posts are treated, and we can sell them at the price most yards would have to ask for untreated posts. Then we have untreated split cedar posts for less money.

A shipment of windows arrived the past week. Most of them are check rail windows, built very much on the plan of the alientine windows. There was some barn saah in the shipment also.

Charley Sharp was surprised with a visit from some of his Missouri friends that he had not seen for years. He used to go to school with them. They thought we had the most lumber they had seen in a yard for "yars and yars." One of my college classmates, whom I had not seen for 30 years, stopped off last Tuesday. Said this is the best country he has visited. He lives in Oklahoma and is still teaching school. We both started out as school teachers, but I broke away from it several years ago.

Nearly forgot to tell you we have plenty of nails, woven wire, shingles, cedar shakes, rough lumber, rattie siding, lap siding, fir flooring and composite roofing. We can supply the material for a complete house. Hope you are the same.
