Keep the White Flag of Safety Flying

U. S. Without Friend, Solon Says in Talk

(From Page One)
American motives, the senator said, if they show we would feel the same way.

"The U. S. has talked—and followed—Greece and Turkey into closing the Dardanelles to Russia by making it impossible for the port to have a year-round open waterway. We have backed coalition governments in all the occupied countries in spite of public reaction in those countries; we have through our 'combining controlled press' run only one side of the story to the American public and that side 'greatly exaggerated,' he added sarcastically, 'but they love us for that.'

He said that until Winston Churchill invented the 'iron curtain' there had not existed and that because of the invention it had become a reality.

He said that the "propaganda" spread in the country in regard to the Soviet threat is "not certain" at all after the war was over and the "heroes of Stalingrad" and "next day the 'villains from the Kremlin.'"

"It was started," he said, "in order that generals could stay generals, colonels could stay colonels and in order that the big business and General Motors and DuPont could continue to get big contracts that they became used to during the war years."

He added that Russia was so devaluated by the last war that they were in no condition to wage war, should be done, but his opinion a complete reversal in foreign policy should be made in his opinion. He said that he was not in favor of a bi-partisan foreign policy and he felt that the present administration should be done by the Democrats.

He repeated a statement made in an earlier address by saying that if Russia has an atomic bomb, they should drop it just to let us know that our scare work does not mean drop it on us but just as an experiment like our Bikini test.

affiliated unions eligible. They all were willing to comply except Lewis, who bucked the AFL, compliance and shut off recourse to the board even though a union affiliated with the AFL wanted it.

Members of the AFL council expressed the opinion today that the AFL officers would take care of the communists in order for the federal locals to use the board, because the council members are the only national officers the federal unions have.

An amendment to the constitution, stripping the title of vice president from 13 council members, including Lewis, would take care of the controversy.

On the other hand, a separate department could be established similar to the one for metal trades and the building and construction trades.

Vegetarian of 45 Years Tugs Beard, Says He's Happy Man

CHICAGO, Oct. 8 (AP)—John Maxwell tugged at his sparse white beard and said he guessed things had never been so good. It was meatless Tuesday in the world's biggest vegetarian cafeteria.

Maxwell is 84 years old, proprietor of the cafeteria, and a vegetarian of 45 years standing. He also is a happy man.

With meatiest days and poultry-less days under President Truman's new food program, Maxwell's business will be booming. About 500 people crowded into Maxwell's basement eating house on the first "meatless" Tuesday.

To partake of a bill of fare which features cauliflower, okra, spinach, green beans, carrot juice, and apple pie made with whole wheat crust. The vegetarian said the key to the world food crisis, Maxwell said over a glass of carrot juice.

"The trouble is," he said, "that the farmer spends four fifths of his time growing food for livestock and only one fifth raising food for human beings."

"If that situation were reversed there would be no shortage of food."

More vegetarians would mean more vegetable growers, and vegetable growers would mean fewer stock raisers, and in the end there would be food for everybody. That's the way Maxwell looks at it.

With nearly a half century of vegetable eating behind him, Maxwell figures that what is good enough for him ought to be good enough for anybody.

"I work 16 hours a day," he said. "And I don't even eat fish or poultry. As a matter of fact, I haven't tasted pork for 65 years."

Freight Rates Cost Boosted \$127,000,000

WASHINGTON, Oct. 8 (AP)—The interstate commerce commission has granted the nation's railroads freight and passenger rate increases that will cost the public about \$127,000,000 by the end of the year.

The commission authorized a country-wide emergency jump of 10 per cent in freight rates, effective on three days' notice.

Southern railroads also were permitted to raise passenger coach fares by 13.33 per cent and Pullman fares by 6.56 per cent on five days' notice.

Carriers in the northeast will get about \$37,700,000 out of the freight increase this year, the commission said. Southern railroads will get \$18,200,000 and western lines \$34,900,000. The increases apply to all commodities except coal, coke and iron ore, on which specific per ton raises were allowed.

"In our judgment that factor is outweighed by the necessity of keeping the carriers in the face of higher costs of operation, in a reasonably healthy condition . . . to take care of the demand of the public for adequate transportation."

NATIONAL REPRESENTATIVES... TWIN FALLS, IDAHO... 115 Main Street, Ste. 220, Twin Falls, Idaho

TOO MILD A PRESCRIPTION

There was something confusing, if not disconcerting, in the eloquent prescription for Europe's ills which came forth from the meeting of President Truman and congressional leaders.

It was if a doctor, called to see a patient approaching the crisis of pneumonia, had told him to drink and take an aspirin, and had promised to drop in next week to see how he was getting on.

Mr. Truman said, after the meeting, that no money for emergency aid would be available after Dec. 1. But he explained that it would be useless for him to call a special session of congress...

The president said that France and Italy were without enough food and fuel for the fall and winter and had no money to buy them. He also said that he was writing to the chairmen of the above committees...

Mr. Truman said that, unless aid for France and Italy was forthcoming quickly, there would be nothing in western Europe for the Marshall plan to reconstruct.

Mr. Vandenberg of the senate foreign relations committee, said his group could not meet before Nov. 1, because the state department would have nothing concrete before Nov. 1.

Mr. Vandenberg said that the question in emergency aid to Europe was one of element of human survival in a free society.

The congressional leaders were impressed by Mr. Truman with the choice of appropriating \$500,000,000 for emergency relief or seeing communists sweep Europe.

TUCKER'S NATIONAL WHIRLIGIG

OBEDIENT—Key Democrats have raised new objections to Sen. J. Edward McGrath, R. I., as a national leader in the political arena.

In short, they were responsible to the man in the white shirt, and they usually conducted themselves in that manner.

OBEDIENT—Senator McGrath, however, is an elected representative. He was elected by the people of his state to voice their needs in that constitutionally created body.

Even though elected as a Democrat, and by a good-but-majority last year, McGrath is supposed to represent the people of his state.

OBEDIENT—An national chairman, however, and politically obedient to President Truman's needs and wishes, he was in place.

POLITICAL—The McGrath appointment, in the opinion of good Democrats and sincere friends of President Truman, may be a mistake.

It tends to give the administration an excessively political flavor in a day when a people distracted by the war and the industrial and economic conditions...

VULNERABLE—These things may be no more than the contentions and concerns of hard practical politicians.

TOUR—The writer is setting forth on an exploratory tour through the far south and middle west, which will be both the political and journalistic fashion these days.

LET'S HAVE THE STORY—Almost everyone in Twin Falls senses that there must be something haywire about the new sewer system which the city is installing.

WHAT PART, IF ANY, THE SEWER PROGRAM MAY HAVE HAD IN THE RECENT CHANGE IN CITY ENGINEERS HAS NEVER BEEN FULLY EXPLAINED.

SOME CRITICS, WHO CLAIM TO BE IN THE KNOW, contend that much of the new sewer system will not be deep enough to permit of floor drains in newly-constructed homes in certain districts.

OTHER INSIST THAT THE JOB WAS NOT PROPERLY DESIGNED IN THE FIRST PLACE; THAT CERTAIN FEATURES OF THE LAYOUT MAY FALL TO WORK SATISFACTORILY.

LAST WEEK AND MAYOR LAUTERBACK ANSWERED certain questions regarding this new sewer system, but we don't feel his discussion of the issue went far enough.

WHEN THE CITY UNDERTOOK THIS JOB, IT WAS ONLY NATURAL FOR THE PEOPLE TO ASSUME THAT THE SPECIFICATIONS WOULD PROVIDE A SEWER SYSTEM AMPLY IN EVERY RESPECT.

SO THAT PROSPECTIVE BUILDERS WILL NOT BE HAVING REAL ESTATE AND PLANNING ANY HOMES UNDER FALSE IMPRESSIONS AS TO THE PROVISIONS OF THE SEWER SYSTEM, IT WOULD SEEM ONLY RIGHT THAT A COMPLETE REPORT SHOULD BE MADE NOW COVERING ALL DETAILS OF THE PROJECT.

THAT WOULD BE FUNNY—District Judge D. H. Stuphen has declared the Idaho slot machine law unconstitutional on the ground it violates the anti-lottery provision of the state constitution.

INDICATIONS ARE THAT THE JUDGE'S OPINION WILL EVENTUALLY BE CARRIED TO THE STATE SUPREME COURT.

WOULDN'T IT BE A JOKE ON OUR LAST LEGISLATURE IF ONE OF THE GREATEST ACHIEVEMENTS WAS FOUND TO BE UNCONSTITUTIONAL?

IT WAS SUCH AN ACHIEVEMENT! AND ONE OF THE VERY FEW.

TOO MANY MEN WORK HARD AND SAVE THEIR MONEY ONLY TO BEKIDNAPED AND HAVE THE TRICKLES WHICH MADE THEM OF THEM.

POT SHOTS

Dear Pot Shots: Sometimes you, Mrs. Fudgett gave a method for measuring hay. I don't doubt but what her method would give the same results as the government's method.

Dear Mr. Pot: The first thing that hit my eye when I unfolded my Sunday Times was that headline "Lions Brought Out \$444 From Rogers Hotel"

Dear Mr. Pot: Naps, no connection! Pot Shots' field agents report Senator Taylor wasn't in this area Saturday night.

Dear Mr. Pot: It was the first day of the food-saving campaign and I found myself eating lunch downtown. Among other things, a roll was served with the meal.

Dear Mr. Pot: "Well," I thought, "we're supposed to keep bread and apples; but as long as it's here, I might just as well eat it."

Dear Mr. Pot: I don't know how the boy and the barber made out because I couldn't take it any longer.

"WASHINGTON CALLING" BY MARQUIS CHILDS

ROME, Italy—Leaders of Italy's Communist party have claimed: membership up to 5,000,000 to make the party the largest in Europe.

He also uttered a warning. He said that if help came—no matter from what source—to put back those who had been in power before the republic, then his followers would meet force with force.

On the subject of the Catholic church, Di Vittorio was interesting. The church, he said, need not be an obstacle to progress. It depends on who heads the church and whether that individual goes along with the "big interests" or with the workers.

Here a man who is playing for keeps. He believes that the same fanatical force that carried him through jail calls four years of war in Spain and fighting with the partisans in Italy against the Germans will carry him to ultimate power.

These, of course, are Di Vittorio's figures. He brings them out with a lake-of-lava-if-it-should-please. The war assurance is inadequate. This is a force of nature; something inside the man that has carried him thus far and he expects it to carry him all the way.

The agricultural workers in the north were slaves, he said, nothing more than slaves before they were organized. There is no emotion in this comment. It is part of the driving force.

"We believe in legal methods," he said. "We want to avoid a civil war. There has been too much bloodshed. We shall not force a resort to arms. I myself, am a humanitarian."

In the deep voice coming out of his thin face, he had a surprising sound. It made me think of something, and suddenly I remembered what it was. It was, it was, that force of nature out of Africa displayed by the Ringling brothers in their circus, had suddenly beaten his chest and proclaimed himself a humanitarian.

Di Vittorio is typical of the far-left communists who are seeking to force the bonds of communism throughout all of Europe. He is big, with a shock of black hair. During the early days of fascism he was in and out of jail and then in exile.

'Small Effect' Seen in First Meatless Day

Government spokesmen predicted today that the first meatless Thursday would be more successful than the first "meatless" Thursdays because housewives and restaurants had two extra days to readjust their menus.

Most meat markets reported that they sold about as much meat as usual during the first meatless day under President Truman's food saving program.

Flenty on Menus
Restaurants and dining rooms had plenty of meat on the menu, but in many cases it was listed because they had large supplies on hand when the campaign was announced last Sunday.

Soviets Hold More Power In Campaign

By DEWITT MACKENZIE
AP Foreign Affairs Analyst
As communism intensifies its drive for world revolution, it has Russia holding the whip hand at the outset in the European struggle, in that the Moscovites and their allies possess the great bulk of the continent's current food resources, whereas the demoralized and war-torn western area are suffering grave privation, including actual hun-

gry. That's the way the game nature drops things up this year—good crops in the whole in eastern Europe, and the whole in eastern Europe, and had ones in most parts of the west. So fortune has handed the bolsheviks a mighty weapon with which to persuade, or to compel, distressed peoples to buckle under.

Do Most Anything
When folk are hungry, and especially when they see their children hungry, they will do most anything to secure food. Among the particularly hungry countries are Italy, Austria, Germany and France.

Italy's heaviest initial assault is expected to be made in Europe and in the case of Russia, there is no fear that the bolsheviks may resort to revolution. Here, that, strikes and riots are anticipated in an effort to achieve by force what can't be accomplished by negotiation. Britain, although badly hit by the economic depression, is rather outside the range of Moscow's big guns.

Asia Another Field
Another field of direct action will be Asia, especially in China and Korea. The big question of the moment in that area is whether the Chinese communists will get material Russian aid in their civil war with the Chinese national government.

As for Korea, the Soviet union already has established a base in the northern half of the country, thereby securing an invaluable military base. Reports from southern Korea, now occupied by American troops, say that the Russians are trying to precipitate a communist upheaval.

You Know How It Is, Girls

Biggest laugh of the American Legion auxiliary convention in Los Angeles was provided by the president herself, Mrs. Lilla Brannaman, who slipped off her diving shoes for a moment's relaxation. Her feet swelled and she couldn't get the shoes on in time to take her place at the microphone. Above, Mrs. Beatrice Trumbull, left, chairman, applies talcum to cover the situation. (NEA photo)

New Morsel to Round Out a 'Square Meal'—Square Eggs

By HARMAN W. NICHOLS
CHICAGO, Oct. 3 (AP)—American families soon will have a new morsel to round out a square meal—a square egg.

Cubed hen fruit, as a matter of fact, already is a reality. The idea was hatched by one David Adams, a Concord, Mass., inventor who tells all about it in the "Digest of New Inventions," published by the National Foundation for Science and Industry.

Actually, the square egg is a plastic "cube" which is designed to hold the contents of a single egg with its shell removed.

The hen's job ends when she lays the egg in the mold. Science takes over from there. Adams explained that his square job consists of two parts—the mold and the entire contents of an egg and the top clamps over airtight.

Breaking of the egg, packaging and sealing of the shells can be done by automatic machinery, Adams says. He is working closely with the U.S. Patent office, which has granted him a patent for his device.

GOP Leaders Map Strategy For '48 Drive

SALT LAKE CITY, Oct. 3 (AP)—Republican party leaders from all over the nation sat down today for a strategy meeting in the 1948 campaign but the big name presidential hopefuls were conspicuously absent. Those present were the party workers who will wage the campaign next year for the candidates nominated at the convention. The participants, such as Thomas E. Dewey, Robert A. Taft and Harold E. Stassen, were not present.

Party workers attending the second annual western regional GOP conference ranged from doorbell-ringing precinct captains to state chairmen. They will remain in session four days.

Leading the discussions will be Carroll Reece, national chairman of the party, and several of his top-drawers, including Walter E. Hope, New York, finance committee chairman, and Mrs. Robert MacAuliffe, assistant chairman of the committee.

Keynote of the conference, which is attracting Republican leaders from all 11 western states and four midwestern states of Nebraska, Kansas, and the Dakotas, will be organization.
