European Aid May Be Removed From State Bureau Rule

WASHINGTON, Nov. 7 (P)—The special house foreign economic committee was reported today to have tentatively approved a plan to take administration of foreign aid from the state department and put it under a special agency. The word was given to newsmen by committee members after a closed session of the 19-man group, headed by Representative Horner, R., Mass. Under the committee's plan, members of the independent agency would be named by the President, but be subject to senate confirmation.

Committee members also said they tentatively agreed to recommend financing of an emergency program through next June, with the understanding that the entire European economic situation will be reviewed in the meantime.

GOP's Abandon Plans For Tax Slash Action

WASHINGTON, Nov. 7 (P)—The Republican high command apparently abandoned today all plans for tax reduction legislation at the special session of congress convening Nov. 17.

Chairman Knutson, R., Minn., of the house ways and means committee, said after a conference with Speaker Martin, "I rather expect the \$4,000,000,000 tax reduction measure to go over until January."

Knutson's committee handles tax legislation and the Minnesota has been the leading advocate on tax legislation at the special session.

However, he emphasized to reporters that taxes will be the first matter of business when congress meets in January for the regular session.

Knutson said the measure, if it becomes law, would make the tax cuts effective as of Jan. 1, 1948.

Margin said yesterday it was his inclination to let the tax measure off until January in view of the limited time to deal with foreign aid and economic legislation at the special session.

It was because of Martin's statement Knutson arranged the conference with the speaker.

After it broke up with Knutson's announcement that he thought there would be no special session on taxes, Representative Hallack, Ind., the house Republican floor leader, reported:

"As far as I have contacted various people there appears to be no slacking in the Republican determination to bring about tax relief."

'Phantom Bandit' and Captors

Marshall Booth, 30, Jerome, identified by police as responsible for 13 area robberies, is shown here at center with Detective Richard Frazier, left, and Police Chief Howard W. Gillette, who participated in his capture Thursday night. He is wearing the three-quarter length paratrooper jacket familiar to his victims and holding the 18-gauge shotgun from which a blast slightly injured the officers when it struck the edge of a building sheltering them with brick chips and shot. Russ Parade Military Might on Anniversary

LONDON, Nov. 7 (P)—Russia paraded her military might through Moscow's Red square in commemoration of the bolshevik revolution's 30th anniversary today amid renewed cries that "warmongers" are calling for a campaign against the Soviet union and "making plans for a new imperialist war."

In a special broadcast beamed directly at the United States and Great Britain, the Moscow radio quoted Marshal Nikolai Bulganin, Soviet minister of the armed forces, as saying just before the parade began to

the accompaniment of martial music by massed bands, that:

"After the second world war essential changes have taken place in the international situation. As a result of the war, the system of capitalism has suffered a serious weakening. The forces of democracy (communism) and socialism have strengthened, but the forces of capitalism have weakened.

"Call for New Drive"
"The successes of the democratic camp (communists) give the warmongers no rest. Forgetting the lessons of the past, they are calling for a campaign against the Soviet union and making plans for a new imperialist war."

Bulganin was extravagant in his praise of Prime Minister Stalin who he declared was still on vacation at a Black Sea port, and of the armed forces of the USSR.

"The Soviet people and its armed forces, under the leadership of their leader and teacher of genius, Comrade Stalin, routed Hitlerite Germany and Imperialist Japan," he said from the tribune atop the tomb of Mikhail Lenin.

"This historically unprecedented victory proved that the Soviet army, equipped with the most advanced, Stalinist military science and supplied with the most modern military equipment, is a first class army of our time."

"The Soviet union, Bulganin continued, "will continue to pursue its consistent policy of struggle for the peace and security of the peoples."

Resident of Jerome Confesses Crimes; 3 Wounded in Battle

Magic Valley's "phantom bandit" who was wounded and captured in a gun duel with police Thursday night will be charged with armed robbery and possibly "attempted murder," according to Police Chief Howard W. Gillette. Gillette identified the bandit, Marshall Booth, 30, Jerome, as the man who successfully held up the Rogerson hotel 20 minutes before his capture and as the man who has committed 12 Magic Valley hold-ups since September 7.

Booth surrendered in a small parking area across the alley from the rear of the Perrine hotel after Booth and Police Officer Richard Frazier and at least one pedestrian had been wounded. Gillette, who has been identified as the officer who wounded Booth, was cut on the face when struck by chips blasted off a brick wall. He had been reported wounded.

No Weather?

Magic Valley weather for the next five days will be mild, or close to the weather bureau's forecast, over the prediction for southern Idaho which was overlooked in the forecast.

The forecast covers the period beginning Saturday and ending next Thursday. As recalled by the Associated Press here Friday, it said:

"Occasional rain central and north portions beginning and toward end of period. Temperatures slightly above normal."

However, it is presumed that Magic Valley is in the "central portion" of the forecast, and can expect "occasional rain" or snow.

Scout Paths Lead to Wholesome Environs

Typical of the wholesome activities in which Boy Scouts engage is this photo of a Scout, a Senior Scout and a Cub Scout engaged in nature study. Boys who spend their recreation hours in this manner are not getting into trouble, as Scout paths lead toward good citizenship, rather than the reform schools.

Scouting is one of the best ways to get boys out of the city and into the woods. It is a wholesome activity which leads to good citizenship.

Russ Boycott Said Proof of 'Two Worlds'

LARGE SUCCESS, Nov. 7 (P)—Russia's announced boycott of the United Nations "little assembly" was viewed by many delegates today as emphasizing the "real existence" of two worlds.

Mr. Hartley Shawcross, British member of the assembly, said that if there was any doubt as to the existence of two worlds, the Russian boycott was proof of it.

TUCKER'S NATIONAL WHIRLIGIG

CHICAGO—The American people are suffering from a postwar tedium that has left them in an almost unprecedented state of confusion and perplexity almost everywhere. But when the whirligig of the hour has drawn us to the end of a cross-country trip during which I have interviewed hundreds of farmers, city workers, business men, local leaders and housewives in some 30 states, a definite high content of good-will and signs of superficial prosperity everywhere, the people are again being drawn to their shoulders for portents of trouble. Their two greatest fears, as of the moment, are depression and a war—not tomorrow, perhaps, but in the near future. And they doubt whether the world's statesmen, at Washington or in the United Nations, have formulated a program to guard against these twin evils.

Do not want a "man on horseback" in the White House, they say. They have ambitions General Eisenhower and MacArthur may cherish. They seem to want a chief executive who, without advising them, will give them at least partial assurance of peace and prosperity "in our time."

But whether President Truman and his aides can give them that assurance. How he satisfies these yearnings may determine whether he will be a successful president or a mediocre one. Any Republican who has the answers to their bread-and-butter difficulties. As of today, they are somewhat indifferent to politics, politicians and their promises.

TRUMAN—Here are the questions which harass them, as well as their general attitude toward them:

Politics: President Truman is generally liked and admired as a modest, hard-working individual trying to do the best he can for his country. He has a certain genuine sympathy for him. In view of his man-killing assignment and the circumstances under which he was elected, many are skeptical. Byrnes, Morgenthau, Parley Republians. He will be a hard man to defeat, as Republicans admit. If domestic and foreign conditions improve even slightly.

No Republican has yet caught the popular fancy. No one has any candidate, avowed or otherwise, shown any signs of being a serious contender. Profoundly disapproving their fingers crossed, waiting for a sign of a winning hand, but figuring that it won't come until they reach the third ballot.

Political consensus seems to be that the next election will be decided, not so much by the records or personalities of the opposing nominees, as by the state of the nation and the world on Nov. 4, 1948.

COST—Prices: This is the all-important issue, and it probably will be in the 1948 campaign. Millions of white-collar workers, and other classes dependent on foreign conditions improve even slightly.

President Truman asked for nationwide abstinance. Nor are they interested in the question of whether the Democrats or Republicans are responsible for their plight. They do not remember—and do not care who built the OPA, but for the fact that this agency would mean increased production and lower prices.

They are not interested in the current, politico-economic debate on whether soaring prices are due to government purchases for foreign account, higher taxes on income, the weather, or a too plentiful supply of money. These questions have become academic. Their only concern is the terrific weight they feel on their backs. It is the effect which grips them, not the cause.

Unless President Truman can force prices down, or unless they fall from natural causes, the high cost of living will be the greatest threat to his reelection. He knows it.

REDUCTION—Taxes: Except for the well-to-do, who fear inflation may deplete their present holdings, the poor want a reduction in taxes. However, the question which perplexes them is whether to ask for additional appropriations for their sectional needs, whether it is reclamation, irrigation, agricultural machinery, and so on.

The people do have one conviction, however. They are firmly convinced that the cost of postwar government is too high. They are not in favor of a lowering of these burdens, they believe that their taxes can and should be cut at least 20 per cent. The war period has been a time of national sacrifice, the community program has strong support.

WAR—Russia: The American people are genuinely concerned over the possibility of conflict with the Soviet. They do not expect a military showdown in the foreseeable future, but the shadow falls across their hopes for peace and prosperity. The anxiety over this prospect is especially acute in the far west and along the Atlantic seaboard, less so in the middle west.

They never shared the previous administration's enthusiasm for Russia, never believed in her supposed "democratic" ideal, and Stalin's tactics since V-J day have confirmed their skepticism. They fully support the Truman administration in its recent anti-communist policy. They question, however, whether they are doing as good a job of world propaganda as the Kremlin is.

Paradoxically, there is deep concern over American assumption of heavy and possibly war-provoking responsibilities in such lands as Palestine, the middle east, Greece and the Orient. It is a throwback to the 1940-1941 question: "Do you want our boys to die for Kwajalein?"

PLAN—The Marshall plan: Although they favor aid to stricken peoples for humanitarian reasons, they would like to check the spread of communism. They shudder at the cost, the sacrifices and the impact on living standards over here. They oppose the plan on the point of cost, but they are in a period, favoring a small advance for one year and future aid to be contingent on how the first installment.

Washington's handling of the so-called "plan" has caused some uneasiness. They do not think it was proposed or developed in a statesmanlike or businesslike manner, even Secretary Marshall's Harvard "suggestion." But now that the U. S. is committed, Europe's hopes raised so high and Russia antagonized to the point of cold diplomacy, they believe it is somewhat fatalistic that we must go through with it, though not to the extent of bankrupting ourselves.

VIEWS OF OTHERS

ABOUT RUGGED IDAHO

Brookman rapidly, regarded as one of the most dangerous sections of the Snake river between and the Willing canyon, has been renamed by army engineers.

It is being built, rugged-slatted body of water proved to be too much for the engineers recently. They tried to navigate the treacherous rapids but the treacherous action of the water proved to be too much for the over-powered craft, carrying our men and luggage.

So the engineers decided to do it in shifts and an extra large sluiceway tried to buck the snarling waters. Each try proved to be futile. It was decided to build a dam, the water was held back and the sluiceway. When all of the men were safely on the other end and went back for the bulky luggage. The return trip was made in less than an hour since the engineers and residents of that area have been calling Brookman rapids "Sluiceway rapids."—Lewiston Tribune.

FINAL TEST

A man, answering an ad for a chauffeur's job, was being examined by the car owner. He was asked if he had traveled much in his car.

"Yes, sir," replied the prospective chauffeur.

"All right," said the car owner, handing him a road map. "Let me see you fold it."—Lewiston Tribune.

POT SHOTS

WRONG McGILLICUDDY

Dear Gent:

In your issue, Herb West will do a little looking before leaping. He was expecting a call from a friend named "McGill" who he glibly answered with, "McGill's a cuddy's Garage, Axel McGillicuddy speaking."

The caller turned out to be the teacher of his small daughter, Carolyn, who had been absent from school because of illness. The teacher was merely calling to find out about Carolyn when she ran into that barrage. —Eve Dropper

PUBLIC OPINION

We snatched this from the Magdo Valley editor while he was wading through a stack of correspondence.

The story made reference to Mrs. So-and-So, "public relations chairman of the local chapter of the Y. W. C. A. Sometimes just plain relatives are bad enough, so it seems something more than just a chairman would be needed to cope with "public relations."

FINE ARTS FAN

Dear Polio:

Some of Twin Falls' radio listeners are evidently more devoted to football than to such finer arts as music.

Other morning an announcer made an inquiry about an "andante movement," and soon afterward the phone rang with a fan saying, "I know what that is, Andante's a football player with Fordham."

HOW THINGS APPEAR FROM PEGLER'S ANGLE

WASHINGTON—Come, let us "Go Hollywood" in our nation's capital. Put yourself in my lucky place, if you can, on the same floor with the whole phalanx of some of the most glamorous celebrities of the world of make-believe, such as a stage actor, a film star, a comedian, a party nomination and a Communist.

The U. S. A. for 1947.

Hi-lych-hell. I forced them. When I said she was a certain party's nomination, I bet they thought I was kidding. Maybe I am "that certain party" myself.

But I must change the subject away from Miss June Haver or people will say we're in love and politics makes strange metaphors, so let us talk about glamorous, comical Danny Kaye, the comedian.

Danny Kaye is a fiftier in the commands of the home front against intolerance. He did not give exactly his all for freedom of speech during the war. He was waiting until the checks were down right here in freedom's citadel when "our brave boys" had stacked arms and the skulking forces of disunity would try to poison heppener against neighbor.

"That is how he happened to fly from the Hollywood shock troops for freedom to fight the Thomas committee on un-American activities to the dying ditch. He and Humphrey Bogart are the glamorous beauties."

Danny didn't give exactly his all during the war, but ever since then he has been more and more belittled against the mad-minded fanatics at home. He has been active in the sort of political parties called "progressive groups," he has been a bobby sover hoping to hear him discourse his unique and peculiar specialty which goes "sh-ab-ab-ab." Don't ask me how he hit it, but Gen. Genus blue-print inspiration?

Danny Kaye was born David Daniel Kowalsky in Brooklyn. During the war he did a movie called "Kid From Brooklyn" while 330,000 other kids from Brooklyn were in the war one way and another, the

Armed Bandit Seized After Fight in Alley

(From Page One)
The lobby, Johnson's wife, Faith, and his mother, Mrs. W. R. Johnson, both 512 Sixth avenue, opened the door to the alley. When he yelled to them they ducked into the entrance of Bunn's barber shop.

"As I was ranging police, I heard a shot in the street," Johnson said. Other guests in the lobby, according to Johnson, were Mrs. Ray Butler and Mrs. Mrs. Gene Holler. Holler is the night clerk who was once held up by a bandit.

The 25-year old Butler, who lives at 1333 Addison street, said, he was told to order Johnson out after Butler had turned off the deck light in the house of attracting attention.

Threatened by Gun
"Any more tricks like that, and this gun will go off," Butler quoted Bunn as saying.

Butler, his wife, Virginia, and Mrs. and Mrs. Holler followed the bandit into the alley, where the two men took up the chase with Officer Spence. They lost sight of him when he turned the corner at the Twin Falls Bank and Trust company building.

After the lobby, according to Mrs. Butler, were two men standing near the stairway of the hotel. She was unable to identify them.

Head Shot
Dick Parr, an employe at the R. and O. jewelry store, heard the gunshot while he was sitting in the Perrine with his wife, he said Friday morning. Dashing out, he and Kevan, the two men took up the chase with Officer Spence. They lost sight of him when he turned the corner at the Twin Falls Bank and Trust company building.

"As we ran, a lady said he went down the alley," according to Mrs. Butler, were two men standing near the stairway of the hotel. She was unable to identify them.

Parr said after a moment or two he faded out for an officer who kept watch on the alley. Parr said his wife also watched the alley. On Main avenue he contacted Spence, and shortly cars converged on the spot. Light sweeping the dark parts of the alley.

"I saw the bandit remained motionless, he picked up a hidden behind a truck while Gillette and Frazier stalked into the alley, alighted and searched for the police leader.

In the exchange of shots, a blast from the bandit's shot gun took chips out of the Linton Dean garage about head-high over Frazier who was stopped over. Frazier received two pellets in the head, and one in the leg.

Gillette fired a warning shot into the air and called for the bandit to come out of hiding. It was then that Bunn fired an blast from his shotgun. Spence, who had up with the other officers, fired his shot into the alley.

"It comes out," Parr said Booth yelled. The police stood the bandit up.

Truck Overturns, Three Other Car Accidents. Here

A pickup truck was overturned in one of four accidents reported by Twin Falls city police Thursday but only minor damage was done to all other vehicles involved.

Tired streets and weather were not blamed in any of the accidents, investigating officers reported. Claude Milligan, 18, Walnut, received a lacerated finger when the pickup which he was driving overturned after it collided with an automobile driven by John Knutson, also Twin Falls, at 5:15 p. m.

The mishap occurred at 5:15 when the two machines were involved in an intersection collision at Locust and Maple streets. The pickup turned completely around by the impact and overturned. It was described as badly damaged.

No damage was listed for the Knutson car.
At 9:20 a. m. Dean W. Pooler, Hansen, driving a truck, collided with a sedan operated by Wayne Murphy, route 2, Twin Falls, as they were on the highway at the bureau of entomology on Bliss Lakes boulevard. No one was injured and only minor damage was reported.

against the brick wall, searched him and handed him off to the police station where he was treated for some 12 wounds in the left leg where pellets from the shotgun had struck him.

Frazier was taken to the Twin Falls county general hospital for treatment of the two shallow wounds in his head. He was released about three hours later. Cargill, who was struck in the face by a partially-open pellet, did not require hospitalization.

Spence had been on special detail guarding hotels for the past two weeks. Gillette also assigned back Perry to the special guard detail. After Spence had fired at the bandit who ran down Main, Cargill said Gillette had ordered cabs to cruise the immediate vicinity to search for the man.

Parr said today that he and Kevan will make application for the \$200 reward offered last week by Gillette for information leading to the arrest and conviction of the lone bandit.

Gillette said Booth had been sentenced to an institution for the "criminally insane" some years ago. Booth informed police that his home was seven and one-quarter miles from Jerome where his family bought the property about 18 months ago, according to Gillette.

Booth who will be 31 on Nov. 24, is 5 feet 10 1/2 inches tall and weighs about 150 pounds. He said he was unmarried and had worked for about 18 months in the Boeing aircraft plant, Seattle, during the war.

At the time of his capture he was wearing a three-quarter length par-

Students' Blood Given Hailey Girl

SALT LAKE CITY, Nov. 7 (AP)—Beverly Godby, 12-year-old daughter of Mr. and Mrs. Wiley Godby, Hailey, Ida., was recovering in a Salt Lake City hospital today after receiving donations of blood from eight University of Utah students yesterday.

Beverly, reported desperately ill Wednesday with a lung disorder, was badly in need of three pints of blood, her physician reported. An appeal went to the university Red Cross blood bank committee, and volunteers immediately swamped Miss Joyce Omtredson, committee chairman.

Eight students supplied blood for the immediate transfusions and others are standing by for further donations, she reported.

Trooper's jacket over a grey sweater, blue jeans, and black boots. He said he wore the same outfit on previous occasions. Booth has grey-hazel eyes, brown hair, turning gray on the sides and a fair-ruddy complexion. He carried an .18-caliber Winchester shotgun, model 1827.

Booth did not serve in the armed forces, he said. Gillette said arraignment will not follow immediately as he wishes to make a thorough study of the matter, including an investigation of Booth's mental background.

Parley Discusses Erection of Mill In Blaine Region

HAILEY, Nov. 7.—A group of citizens from Hailey and vicinity interested in erection of a custom mill in Wood river valley, met at the Idaho Power company in Hailey to discuss plans for the project.

It was agreed that a custom mill would be beneficial to Wood river valley, as it would encourage the development of mining prospects throughout the country. Thousands of tons of low grade ore are being sold by prospectors unable to ship it.

Problems have to be worked out regarding complexities of this one, but those interested are confident it can be done. No definite location has been mentioned for the mill. Joe Paul, Frank Pluggoff, Clarence Bruckner and Arthur Ensign, Jr., were chosen as a committee to make further investigation of the project.

Annual Fete Held by Hailey Legion
HAILEY, Nov. 7.—The annual harvest party of the Blaine county post of the American Legion and auxiliary was held Tuesday at the Legion hall in Hailey.

Approximately 75 members and prospective members attended for a spaghetti dinner served by the officers. Comdr. Warren Stevens was toastmaster.

William New presented the auxiliary president, Mrs. Betty McDonald, with silver cigarette lighter and a silver service set on behalf of the Legion for her outstanding work. After the dinner, the evening was devoted to dancing and bridge. All members were asked to bring their contributions for the veterans' gift table to the C. G. All-Time Record High Is Equalled In Farm Prices

BOISE, Nov. 7 (AP)—The index of prices received by Idaho farmers for their principal commodities equalled the May, 1920, record high, bureau of agricultural economists said today.

The index reading on Oct. 10 was 241.50 points higher than last October and one point above the mid-September index. Primary factor for the increase was higher prices for grains, potatoes, dry beans, dry peas, red clover seed and eggs, they reported. Countering factor was lower prices for meat, butterfat, milk, chickens and alfalfa seed.

The survey said that white farmers were receiving high returns they were also paying high prices for commodities they purchased.

Time to Snoop, Says Dworshak

LONDON, Nov. 7 (AP)—Visiting United States senators expressed surprise today at being called "snoopers" by the liberal London Star.

"Since Uncle Sam has dumped \$18,000,000,000 into Europe since V-E day, it's time we did some snooping around," said Senator Dworshak, R., Ida.

"It was the first unpleasant criticism of our committee in Europe, except from the communist press," said Senator Bridges, R., N. H., chairman of a senate appropriations subcommittee. "This criticism came as a great surprise and is not the type of thing that improves good relations."

The Star expressed resentment that Bridges was interviewing typical Britons at random on London streets and said he was asking such questions as whether the people had lost the incentive for hard work, their views on limited rationing, socialization of industries and communism.
