GOPers Agree to Chart Own Anti-Inflation Plan; Stress Voluntary Action

WASHINGTON, Dec. 5 (AP)-The senate Republican policy committee decided today to attempt to work out with house members a GOP anti-inflation program which may call for voluntary allocation of scarce cost of living items. Chairman Tait, R., Or, told a news conference that a meeting of senate and house leaders will be held next week to de-termine whether "two or three" anti-inflation measures can be pushed to final passage in the special assiston of congress

PARALLEL VS. DIAGONAL PARKING

PARALLEL VS. DIAGONAL PARKING The Times-News does not profess to have snyone in its organization who qualifies as a traffic expect, but we have consulted a resonance authority whose opiniens should help the city to weigh the relative merits of parallel and disgonal parking. That authority is Eldon E. Beck, safety di-rector of the Idaho Power company, secretary of the Idaho Safety council, and wartime rafety director of the government's atomic project at Los Alamos, N. M. We asked Mr. Beck to give us his frank ipinion on parallel parking and other traffic orbitms, and are passing these opinions long to the city officials for their considera-ion.

on. First of all, and without reservation, he dorsed parallel parking for a number of asons which he set out as follows: (1) It would permit of one parking lane d two traveling lanes in each direction our two main strets. With these traveling

But the advantages of parallel parking far itweigh the disadvantages, according to s way of thinking. Parking space can be ovided clsewhere and drivers can be duc-

ated to leave their cars from the right nana adde. Viewing the traffic problem generally, Mr. Beck makes one specific recommenda-tion-acquiring of steep parking areas. The city, the merchants, or a combination of both, he advises, should acquire property for such purposes at the earliest opportunity. Some cities, he asys, have already found it impossible to acquire such property, as a re-sult of not looking far enough ahead in times past. Consequently they may never find any real solution to their parking problem. If the city is interested, Mr. Beck assured the Time-News, the Idaho Satety council will be glad to make a traffic survey of Twin Fails and submit its recommendations--with-out charge!

out charge! "He suggested the National Automobile a: is a solution to the city's traffic problem.

RUSHING IN FOR THE KILL

s motion machines and others are figuring t "takes" from the gross proceeds. This scramble is giving members of the last the legislature a big headache. It's going defeat the purpose of the legislation which relived the purpose of the legislation which

to defeat the purpose of the legislation which legalized sit machines, they argue, even though it's still a mystery as to what the pur-pose might have been in the first place. Adyone could have guessed that this slot machine business would develop into a real racket. It's aiready that, and the final blow-up will probably come during the next ses-sion of the general assembly. The idaho State Grange, meeting in Twin Falls for its annual convention, has aiready served notice that it will fight for repeal of the legislation which legalized the one-armed bandits last spring.

spring. Sensing that the goose that lays the golden eggs is facing certain doom, more and more. Idaho communities are rushing in for the kull while there is still an opportunity to make a do if easy tax money from the spinning Mineta.

And the hubbub has not been confined to this section of the state by any means. It seems that a lot of towns that thought they were doing all right with a "stiff" tax on these mechanical bandits have suddenly wakened to the fact that such license fees were penny ants. A few communities, it was discovered, had really activate gold by taking 50 per cent of the gross from the machines, in addition to a regular tax. Now other towns by the dozens are revising their tax schedules on slot machines. Some are setting up taxes as high as 32,500 for the big money machines and others are figuring out "lakes" from the gross proceeds.

residents are genuinely interested in the

WHAT to look for in a COMPLETE FARM CREDIT SERVICE

Thru an agreement with the EQUITABLE LIFE ASSURANCE SOCIETY the farm credit service of this bank now includes long term amortized loans on farms or ranches at 4% interest. This addition to our farm credit service has many advantages for the farmers of Magio Valley, including---

- 1. Prompt, friendly, confidential loan service with a minimum of red tane
- The advantage of dealing with local men who know you personally and understand your financial problems.
- Loan terms from 5 to 40 years fitted to your individual needs, with 4% interest.
- NO EXTRA CHARGES-no application, appra fees, no stock, and no commission. You pay only for recording and abstract or title insurance.
- The right to pay off your lean as fast as your farm carnings permit is guaranteed in your lean agreement under the FARM INCOME PRIVILEGE.
- Extra payments are held under the PREPAYMENT RE-SERVE PLAN to tide you over the lean years.
