

Breathing Aid Asked For China

WASHINGTON, Feb. 20 (UP)—Secy. of State George C. Marshall today asked congress to provide \$570,000,000 for China to give that country "breathing space" in which to take steps to stabilize economic conditions.

Marshall made it clear to the house foreign affairs committee, however, that the United States should not be put in the position of being charged with a direct responsibility for the conduct of the Chinese government and its political, economic and military affairs.

"Local Problem"
"In consideration of the program of assistance to China," Marshall said, "it should be recognized that the main part of the solution of China's problems is largely one for the Chinese themselves."

Marshall left off the administration case in behalf of Chinese assistance. He pointed out that the chief deterrent to solving China's economic problems is the civil war. He said it "has drained the Chinese government's initial \$570,000,000 of exchange resources, continued the destruction of property, and the economic disruption of economic life, and has prevented recovery."

"Terrible Destruction"
"The communists have brought about the terrible destruction to wreck the economy of China."

This is their announced purpose to force an economic collapse. Marshall said conditions were such in China now that it was possible to develop a "practical, effective, long-term, overall program for economic recovery."

But he said it was desirable that the United States give assistance to help "retard the rapid rate of economic deterioration."

Not Like ERP
He said the U. S. couldn't provide China now with the same sort of aid contemplated under the European recovery program. For instance, he said, to provide a currency stabilization fund would be the opinion of monetary experts, require large sums which would be "out of the question."

China's total population of 450,000,000 is the largest in the world. Marshall said the United States had to provide for the needs of its own people and for the needs of the world.

Minidoka Move Fails To Stop Jerome Vote

RUPERT, Feb. 20—Although Minidoka county, in a legal move against Jerome county, tried to prevent the latter from holding its school reorganization election Friday, the election was held according to schedule.

Crux of the move by Minidoka county was what is known as the 11-1 school district which, although situated in Jerome county, has been administered by Minidoka county for many years. There are no children in the district but the Union Pacific crosses it and pays approximately \$5,000 annually in school taxes.

A preliminary hearing on an injunction sought by Minidoka county to prevent Jerome county from holding its election was heard in Burley Thursday afternoon by District Judge James W. Porter, Twin Falls.

Agreement Made
By an agreement between the parties, though, it was stipulated that Jerome's election could be held. Jerome said it was in no way prejudiced by the move.

Minidoka county's school election originally was scheduled for several weeks ago. Since the plan includes the 11-1 district, however, the state reorganization committee canceled the election.

Minidoka county's action was brought in district court by H. A. Baker and S. J. Belwood, both of Rupert, attorneys for the Minidoka county reorganization committee.

The matter of Minidoka's reorganization was argued by the parties on Friday.

Truman Opens '48 Drive, Says Situation too Grave For 'Isolation President'

President Truman keynoted the Jefferson-Jackson anniversary celebration last night with a statement that world conditions are too grave to "put an isolationist in the White House." The President addressed two \$100-a-plate dinners in Washington while other Democratic party bigwigs spoke at similar gatherings throughout the country. In what was perhaps his thence was liberalism Mr. Truman made no specific mention of his controversial civil rights program which has stirred up hostility among southern Democrats.

However, the President's recommendations for anti-panic tax and anti-lynching legislation were denounced by Sen. Harry F. Byrd, D., Va., who said they "could very conceivably lead to dictatorship." Speaking at a Democratic dinner in Richmond, Va., Byrd nevertheless cautioned against a formal break now between northern and southern Democrats.

Hostility to the President's civil rights program brought an unusual display of protest at the Jefferson-Jackson dinner at Little Rock, Ark.

Following investigation by Byrd, the President's speech was delayed by 15 minutes. It was then delivered by Byrd, who said it was "a statement of the situation which is too grave for an isolationist president."

U.S. Voices Concern On 'Defiance of U.N.'

WASHINGTON, Feb. 20 (UP)—President Truman and Secy. of State George C. Marshall jointly proclaimed their concern today about the open defiance of United Nations decisions by some member nations.

The "disturbing character" of such defiance was stated in the President's annual report to congress on the United Nations and the U. S. role therein.

Neither the President nor Marshall, in their letters of transmittal with the 533-page report, named the offending nations. But they are:

The Arab states—They are accused by a special U. N. commission of refusing to play any role in putting into effect any plan for Palestine unless it is acceptable to both Jews and Arabs.

Argentina—She refused to withdraw her ambassador from France.

The President's report expressed his disappointment with the U. N. record for 1947 but said the United States should be proud of its role.

Marshall evaluated the year at "a record of progress." The report said the U. N. had made progress, some of which he said was made "despite the intransigence of a few member states."

Anti-Reds Quit Czech Cabinet As Rift Grows

PRAHA, Czechoslovakia, Feb. 20 (UP)—Members of three outspoken anti-communist parties resigned from Czechoslovakia's cabinet today in the growing rift against communist rule.

It was the first open break in coalition with a non-communist republic formed in April, 1945.

Leaders of the National Socialist party, the Czechoslovak People's party and the Catholic People's party quit the government of Communist Premier Klement Gottwald, a seven-party coalition.

The parties resigned in letters to President Benes. The president immediately called the cabinet leaders to a meeting. There was some possibility he might have been able to persuade them to accept the resignations.

Gottwald and his communist ministers said the cabinet was not a cabinet meeting called by Gottwald in an atmosphere of pre-emption.

Court Action Asked in Suit On Irrigation

(From Page One)
Schulter alleged no part of the water comes from the Kewan property. It is waste water which he used, he said, to irrigate his land, he declares.
Albert Miller, a farm laborer who worked six years for Schulter, stated that Kewan built a ditch which prevented the water from flowing onto the Schulter land. This was substantiated by Lester Schmitter, after Schulter filed his application with the commissioner. Kewan submitted a protest.

Australia Bride Tells of Customs 'Down Under'

GOODING, Feb. 20.—A GI bride from Australia was the guest speaker at the regular Gooding club meeting Tuesday.

Mrs. Robert Caldwell, Wendell, was introduced by Mrs. William A. Carter, program chairman. She gave an interesting picture of the national life in her native country, comparing it with the United States. She also discussed the government form of laws, and told of the schools, stating that Australia was the first to introduce kindergarten.

Mrs. Caldwell said that the government contributes \$50 to a married couple for the support of their first child and \$11.50 per week thereafter and offers substantial unemployment compensation and benefits. The basic wage in Australia is \$20 per week.

Comparison of customs in social behavior and clothing with our own brought out that school girls wear uniforms and no silk hose until of the age of young womanhood. Spring fashions, said Mrs. Caldwell, are shown in August. Christmas holidays usually are spent on the beach.

Of special interest was her description of the difference in sports from that of our own country. There is no trout fishing or hunting as we know it but river fishing, deep sea fishing and kangaroo hunting, which is done by following the animals in cars. The kangaroo is used for coats and hats, and sometimes the tail is used for soap.

She spoke briefly about the aborigines and the labor relations with them. There is freedom of speech and the only restriction on religious belief is that the government and governor-general are required to be of the Protestant faith.

Touching on the cost of living, a point of interest to her listeners, she said that she can send to her home for 12 large skeins of pure wool yarn for \$1, and English bone china for \$5.00. She said she has to pay \$5.00 for one piece can be purchased there for the same price on six pieces.

She said she is the mother of two small sons. Her husband is employed in a store in London. Her husband is employed in a store in London. Her husband is employed in a store in London.

No Basis for Peace Feeler Rumor Found

By DEWITT MACKENZIE
AP Foreign Affairs Analyst
Secretary of State Marshall says that so far as he knows there's nothing in reports that the Russians have been putting out peace feelers for Berlin for the settlement of the "cold war" with the U. S. A.

Mackenzie

Well, if the general doesn't know about them it's a safe bet there haven't been any, because he wouldn't be about the first man informed of any such momentary development. As a matter of fact it's hard to see what possible basis there could be for thinking Moscow was making peace overtures under Soviet domination.

Asa Shadow Extended
At the same time it has extended the influence over Manchuria and a great action of northern China, and just now has virtually annexed northern Korea. Meantime in other countries, not excluding the United States, Soviet agents and native adherents to the cult of the electric fist have been giving demonstrations of what communistic intensive organization can do, taking it the world around, the bolshevists would seem to have done fairly well for themselves—on paper. Why, then, should they suddenly see for peace?

Part of Long Plan
In answering this question we must remind ourselves again that the cold war wasn't of spontaneous origin. As this column has pointed out before, it is a part of bolshevism's 30-year-old program of world revolution for the establishment of communism. It is a project which never will cease until either (1) Communism succeeds in overrunning the world, or (2) the red advance is halted by a material barrier—like the Marshall plan, for example.

No, I don't believe Moscow is suing for peace. It might well be that the Soviet union will reach a point where, for a change, it will be willing to make a concession here and there.

Communism is out to destroy "capitalism" and establish totalitarianism everywhere—period.

From where I sit... by Joe Marsh

Free Ride for You—on the Freedom Train!

We had a real thrill in Our Town just the other day—when the Freedom Train stopped by!

You've heard about it, of course—an actual train that's touring the country to remind us again what true Democracy means. It carries such Americans as the Declaration of Independence, the Bill of Rights, and other immortal documents that guarantee every citizen his liberty.

A great idea! And from where I sit, we're all riding along with that Freedom Train—right now—by live.

AWOL Sailor Never Did Go 'Over the Hill'

SAN FRANCISCO, Feb. 20 (AP)—The navy put James Leroy Telfer in drydock today while it investigated his story of being AWOL two years without leaving the Treasure Island naval base.

Telfer, 31, Wichita, Kan., was listed as AWOL since Feb. 12, 1946, but he never really "went over the hill." He just changed his name and joined the baseball and bowling teams.

Telfer said he went AWOL because of dissatisfaction over a forthcoming assignment on the aircraft carrier Lexington. He changed his name to James Leroy Johnson, but kept his rank of water tender, 3/c.

He said he had no trouble at all living on the island. He played baseball and bowled and also managed a WAVES softball team.

Nobody recognized him because he didn't dare go to his regular mess hall and his old barracks. He earned money enough for chits at the ship's store by umpiring baseball games. He slept in abandoned barracks.

The only time he got "liberty" was when he went on the road with

the baseball and bowling teams. Otherwise he couldn't leave the island because he had no pass for James Leroy Johnson.

His only mistake was confiding his secret recently to friends. He told them the navy was wonderful if you didn't have to bother with the rule.

The navy charged him with desertion.

It wasn't long before security officers heard that James Leroy Johnson was the long-sought James Leroy Telfer and he was put into the brig.

Lad Is Double Hero; Rescues 3, Supports 13

PATTOCHQUE, N. Y., Feb. 20 (AP)—Robert McDowell, 15, became the town hero last Friday when he pulled three small boys out of Pattochque river. The townspeople have since found out that he's another kind of hero.

On the \$2.15 a week take-home pay Robert makes as a boat builder, they learned, he is the sole support of 13 people.

Robert's father, Harold, is ill. Also dependent on Robert's wages are his mother, six sisters and five brothers.

The youth was at work Friday when he heard the screams of two boys who had fallen into the ice-covered river. He pulled them out, and as he carried them to safety he was told another child was still in the water.

He died again and found the
