**JERUSALEM, March 1 (UPI)**—Great Britain formally charged the Jewish agency for Palestine today with indirect responsibility for recent violence which took a heavy toll of British lives in this country.

The British administration here lashed out at the Jewish agency after one of the bloodiest single days of the Jewish fighting of Palestine. Twenty-eight British soldiers, 23 Jews and an undetermined number of Arabs were killed.

The agency was accused of failing to live up to a promise to supply a "civil guard force" in Jewish areas from which British security forces were withdrawn.

The alleged failure, according to a long statement by the British, constituted a "breach of the understanding" which was made in 1946 as a result of a series of "agreements" between the British and the Jewish leadership.

Responsible quarters forecast that the statement, thought to have been drafted in consultation with the colonial office in London, heralded new and far reaching measures which would now become the British government's policy.

"The government stated on many occasions its intention to do as much as it could to maintain law and order without partiality towards either side in Palestine," the statement said.

A police officer in Jerusalem said that the Jewish agency had been "warned" that it must maintain law and order in the Jewish areas.

It referred to the Jerusalem bombing which killed 54 Jews on Feb. 22.

24 Jews in Mob  
Jerusalem, March 1 (UPI)—The British police today said that 24 Jews were killed in a mob attack on a Jewish area in Jerusalem.

British troops had been ordered to leave the area, and the mob, which was armed with stones and bricks, attacked the Jews.

# "Block War III," Vandenberg Pleads as ERP Debate Begins

**WASHINGTON, March 1 (UPI)**—Senate Pres. Arthur H. Vandenberg urged the senate today to approve the European recovery program and mass America's resources in a mighty effort to "halt World War III before it starts."

"It can be the turning point in history for 100 years to come," the Republican foreign policy leader told the senate in opening debate on the \$5,300,000,000 ERP bill.

"This legislation secures peace and stability for free men in a free world," he said. "It seeks them by economic rather than military means."

"Preserves Victory"  
"It is to preserve the victory which we won in World War II. It strives to help stop World War III before it starts."

In his opening and hard-hitting language, Vandenberg told the senate that the nation's fate was at stake and that it was a decision which might tip the scales between peace and war, prosperity and economic chaos.

As chairman of the senate foreign relations committee, he stoutly defended the concept of a 31-month self-help program for the 16 nations of western Europe along with a first-year expenditure of \$5,300,000,000.

Raps "Slashers"  
He struck out at those who would slash the program, saying they were "slashing" the difference between "success and still-born failure." He appealed for an appropriation that "at this time," he added:

"Premature weakening of our revenue system will involve serious consequences both for our domestic prosperity and for the peace of the world."

Testimony Prepared  
The treasury chief did not appear in person. His prepared testimony was submitted to the committee at the start of his hearings on the bill which the house passed a month ago.

The senate group appears likely to recommend a \$5,000,000,000 cut. Chairman Millikin, R. Colo., already has said Mr. Truman's plan has no chance in congress.

If the Republican bill becomes law, Vandenberg said, this government will not only be unable to pay off some of the public debt next year but will have to borrow money and to increase the debt.

U. S. Loans Seen To Franco Spain  
**LONDON, March 1 (UPI)**—Spanish republican sources declared today that the United States policy to be revised to permit private loans to Generalissimo Franco's anti-communist government of Spain.

These informants, who are opponents of Franco, declined to be quoted by name. But they said they had learned from underground sources that Spain soon will try to raise \$200,000,000 in the United States and that Franco is confident the money will be granted.

They said their information was that a banking mission would leave Washington in a few days and return within two weeks to arrange the credit with private United States banks. The mission would leave for Spain within two weeks to arrange the credit with private United States banks.

# Finn Conservative Party Urges Russ Pact Bid Rejection

**HELSINKI, March 1 (UPI)**—The Finnish Conservative party announced today that its members of parliament had decided tentatively to urge the government to reject Premier Josef Stalin's suggestion that Finland and Russia negotiate a military pact.

The conservative five decision was revealed shortly after Pres. Juho K. Paasikivi met with top government and military leaders to weigh the Soviet proposal.

The President, Premier Mauno Pekkala, Gen. Aarne Sihvo, commander-in-chief of the armed forces, and other chiefs conferred for two and a half hours on the answer to Stalin.

Council Salminen, conservative chairman and a government minister, announced at a press conference that the party had decided to urge the government to turn down the invitation to negotiate a military pact. It proposed to recommend, however, that the proposal to negotiate a friendship pact, also included in the proposal from Moscow, be accepted.

The conservatives have 25 of the 200 seats in the Finnish parliament, which must pass on the government's answer to Stalin.

Salminen said the conservatives thought Finland's peace treaty with Russia included enough military commitments for Finland to resist a military pact as neither necessary nor desirable.

Government quarters do not expect the crucial stage of the discussions on the Finnish reply to come before next weekend, Salminen said.

He said Paasikivi, in meetings with members of the parliamentary groups, asked certain formal questions, and requested the chairman of the group to inform the committee of the results of the discussions.

Paasikivi was understood to have recommended to the committee that Finland negotiate with Russia.

## Sunspots Go Into Decline As Peak Hit

WASHINGTON, March 1.—Sunspot activity has gone into a decline after several weeks of high activity, the bureau of standards reported today.

"For the past seven years, the bureau said, there should be considerably less sunspot-induced interference with worldwide radio communications."

Indications are that the peak of the present 11-year sunspot cycle actually was passed last June, the bureau said, adding:

"This peak was greater in the last year than ever before in recorded history."

From now on, the bureau continued, "the trend of sunspot activity and associated geomagnetic and ionospheric phenomena will be downward for roughly seven years."

While this will mean less electronic disruption of radio and some other communications, it will have a lasting effect on scientific research, the bureau said. The ionosphere will be less densely packed "so that it will not reflect the higher frequency waves back to earth."

In a few months communications on the shortwave amateur band will no longer be dependable for distances much greater than 75 miles, the bureau said.

Narrowing Band "The overall effect," the bureau said, "will be to limit radio communications into an ever-narrowing band of frequencies for worldwide communications."

From a band span whose upper limit is now around 30 megacycles, it will narrow down at sunspot minimum, to an upper limit of approximately 20 megacycles for constant to constant transmission.

The last sunspot minimum was in Feb. 1944. Last May 200 spots were observed, the largest number ever recorded in one month.

The three largest sunspot groups ever photographed appeared in February and July, 1946, and March-April, 1947.

### On the SPORT FRONT

With **YOSS**

(The Page One)

Ye Old Sport Scrivener asked a question the other day. It was: If Karl Tilton pilots his Glenna Ferry Pilot to the basketball title will he be the first Magic Valley coach to lead a school to both the football and cage championships?

That query was laid before the fans before the basketball tournament had been completed, but now it's out and the fans are waiting to see if it will be the first Magic Valley coach to lead a school to both the football and cage championships?

Between the time that question was asked and the tournament ended there came a letter from "A Hagerman," and because of YOSS' admiration for young Joe Martin as a coach, the pudgy one is printing it—even though the writer failed to back up his or her contention with a name.

The letter:

"Dear YOSS: Noticed in your paper where you wondered if Coach Karl Tilton would be the first to win two championships in one school year."

"If you will check your records you will find that Jack Martin, present coach of Hagerman, led with Glenna Ferry in football and won the basketball championship in 1945. Then the next year he won the class B championship in basketball, defeating Pauli. He then won the baseball crown by defeating Pauli at Jerome and then played Twin Falls two out of three games to determine which would go to the state. Of course, there was no 'what if' about it. He won from all class B eleven. His Pirates played Buhi the same year, defeating Buhi 14-12. Therefore, he took three titles in one year."

In "P. S." the writer adds: "Hagerman also went to the district as the runner-up from their sub-district in 1946."

Yes, sir, Jack was really in there pitching championships right and left and there's a warning to the other coaches in the area. He might be right there again next season, and he had this year. And THAT'S THAT FOR NOW, except: Are there any upsets in the offing in the class A district tournament?

### Clyde Rosa Again Wins All-Events In Elks Tourney

Clyde Rosa returned to Twin Falls today, champion of the all-events championship in the annual state tournament at Boise. Clyde cracked the maples for 1,004 an average of better than 17 for nine games.

Rosa also won the all-events in last year's Elks tournament. The all-events is emblematic of the all-around championship in the tenpin game and should entitle Rosa to a claim as the state's outstanding Elks bowler.

### Major League Clubs Launch Spring Drills

NEW YORK, March 1 (AP)—Sixteen big league clubs, camped in Arizona, Florida, California, and far-off Lathrop, inaugurated the spring training season today with only a few, scattered holdouts marring an otherwise "grand opening."

The more stubborn holdouts included shortstop Bob Thomson, shortstop Buddy Kerr and pitcher Ken Kinkle of the New York Giants; outfielder Harry Walker of the Philadelphia Phillies; first baseman George McQuinn of the Boston Braves; and pitcher Johnny Vander Meer of Cincinnati.

The St. Louis Browns, with six untested players, and the Chicago Cubs, with five, appeared to have the biggest athletic problems although both Browne and Braxton, official scorers, expressed confidence that the recruits would agree to terms shortly.

Brooklyn, with a penchant for doing things differently, was the only club training outside the continental limits of the United States. The Dodgers, who left La Guardia field by plane yesterday, will do their daily drills at Coney Island in the Dominican republic.

The Giants are quartered at Phoenix, Ariz., and the Indians, who will furnish the bulk of their spring opposition, at nearby Toledo, Ohio. General Manager Mel Ott announced that none of the holdouts would be permitted to work out until they agreed.

Four clubs are performing their pre-season chores in California. The rebuilt Browns are at San Bernardino, the Chicago Cubs at Los Angeles, Pittsburgh Pirates at Hollywood and Chicago White Sox at El Paso, Texas.

At El Paso, manager Bill Meyer cautioned his pitchers against bearing down too hard for the first few days because of the risk of sore arms.

Florida again ranked as the favorite spring site of major league clubs with nine teams training in the 'gator state.'

The Braves are at Bradenton, Cincinnati at Tampa, the Philadelphia Phillies at Clearwater, St. Louis Cardinals and New York Yankees at St. Petersburg, Red Sox at Sarasota, Washington at Orlando, Detroit at Lakeland and Philadelphia Athletics at West Palm Beach.

Outfielders Barney McCoy and Ernie Vale, two important cogs in the Athletics' offensive machine, agreed to terms late yesterday, thereby eliminating the last of Goliath.

### Russets Sign Player No. 5

POCAHONTO, March 1 (AP)—With the school season in individual clubs in the Magic Valley today were turning their attention to the signing of new players. Manager of the Pocahontas Cardinals was Roy Holland, business manager of the Cardinals announced today, LeBlanc, catcher, from New Iberia, La. He played last year in the class A western league. He will be present at the opening of the Cardinal training camp at Pullerton, Calif., April 5.

The Idaho Falls Huskies signed their fifth player for the 1948 season. Dr. Jimmy Dow, outfielder from the Spokane area of the Western International league in 1947. He was assigned to the Russets by the parent Brooklyn Dodger team.

BUGG-BYED DUO WINS

MIAMI, Fla., March 1 (AP)—Louise Suggs and Sam Boyd defeated Babe Didrikson Zaharias and Al Bealick, 2 and 1, in an exhibition golf match. Babe Ruth was the referee.

Joe Mack's holdout concerns.

At Bradenton, General Manager John Quinn of the Braves announced that infielder Bobby Burdette, acquired from the Cubs in a trade for Dick Culler last Saturday, had agreed to terms over the telephone. The husky southpaw hurler last talked salary with Gies in January despite the fact that he has been in Tampa about five months.

This season's spring opening, the latest in many years, was occasioned by the death of B. C. Chenier's edict that no club begin its conditioning period before March 1. The husky club began preliminary sessions either the second or third week in February.

7:30 p. m.—Pier vs. Jerome.  
9 p. m.—Burley vs. Twin Falls.

Wednesday the losers of the first two games will meet at 2 p.m. and the losers of games Nos. 3 and 4 at 3:30 p.m. while at 7:30 p.m., the victors of Tuesday's first two games will meet followed by a clash between the victors in the second pair of contests.

One game will be played at 3:30 Thursday afternoon and two in the evening. Friday there will be games at 7:30 and 9 p.m., while the championship battle is set for 7:30 p.m. Saturday.

Glenna Powers will be the official scorer and Ralph Edwards the timer. The district of control consists of Boyd, Lloyd, Ralph Villers and Earl Carlson, principals of the Buhi, Gooding and Burley high schools, respectively, while John D. Platt, Twin Falls principal, will be the tournament manager. Kenneth Strong, principal of the Gooding school, will be in charge of ticket inspection, while Ray Pike will supervise the business office.

The trouble was from Idaho's far flung network of high schools comes competition for the basketball title. Variety in the remainder of the tournament play extends and the class A school open the play-for-keeps series.

Two of the class A districts look like wave-line for the favored strong boys but competition will be of the steepest variety in the remainder. Five district class B meets are also on the bill.

Glenna Powers defeated the class B crown for the southern district Saturday by edging out Castleford, 29-27. Buhi team center, enter the regional tournament at Boise March 10 to 13.

**PLAY EXTENDED**

Championship play in two other B district fairs was extended until Monday night because of upsets. Worley and Rathdrum meet in Panhandle play and Middleton and Wilder mix for southwest laurels. Saturday night Worley topped Rathdrum 26-24 and Middleton manhandled previously undefeated Wilder, 40-23.

Coeur d'Alene in district one and Lewiston in district two are the only teams expected to have clear sailing in district A seasons. But even in these northern Idaho areas, balcony crowds have not diminished the possibility of upsets.

**How Meets Shape up**

Here's the way the other class A district meets shape up.

Southwest at Welser—Caldwell and Nampa, the Big Six conference strong teams, are expected to set the week-end and will hang going to apple Meridian, Boise, and Emmet.

Southeastern at Twin Falls—a three-team scrap with Rupert, Buhi and Burley in favorite roles.

Southeastern at Pocatello—Pocatello and Preston team as the teams to beat.

Northeastern at St. Anthony—Madison High of Rexburg seems fitted for the district crown but Shelley, Sugar-Salem, Idaho Falls and Burley are in the mix.

**Kramer Wins 6th Net Joust in Oup**

FRESNO, Calif., March 1 (AP)—Tennis star Jack Kramer, nursing a painfully ached knee and a bruised jaw, defeated Bobby Riggs 7-5 and 6-4, to go into a 2-1 lead in their professional tour.

After winning the first set easily, Kramer slipped and fell during the second set. He got up right away and finished the match, although he was forced to favor his injured leg for the rest of the game.

The remaining Gem state colleges have pegged basketball top except for Ricks college which participates in the northwest junior college tournament at Sacramento March 9-13.
