Czech Papers Get Orders to 'Copy' Soviet

PRAGUE, Oct. 26 (AP)—The communist government has ordered Czechoslovakia journalists to model their work after the Soviet press.

Information Minister Vlastek Kopecky told a two-day convention of newsmen that the "requirement of the bourgeois press has been sounded. More than 1,000 of the country's 1,400 newsmen elected by acclamation a single list of hand-picked candidates as their officers.

When the outgoing officers asked debate their report on past activities, including the press purge, delegates remained silent.

Eight-Page Resolution
An eight-page resolution adopted by acclamation pledged the newspapermen to "learn fervently from the example of the country of victorious socialism, the Soviet journalists."

One of the major points of the resolution was that Czechoslovakia's journalists take a special Marxist-retraining course within the next year.

Another provision stipulated that only uncompromising defenders of the present regime could "lead the people along the road to socialism through press and radio."

Sixes Battle News
Foreign editors agreed to stress news from Russia and the "struggle of the working people and progressive forces in the world against imperialist warmongers."

A ban on newspaper advertising on grounds of "moral necessity," a government plan to publish a newspaper devoted solely to advertisements.

A long-down of newspaper headlines to make them less sensational.

Regional Papers
Decentralization of the press and creation of a network of regional newspapers.

A specialized newspaper devoted to particular interests.

An exchange of newsmen with the Soviet bloc.

A merger of Slovak and Czech news agencies into a single nationwide organization.

Limitation of sports to a maximum of 12 per cent of space on weekdays.

More worker and peasant correspondents.

Police Check on 2 Minor Collisions
City police investigated two minor collisions Monday.

Howard Shout, route 2, and C. D. Neal, Filer, were drivers of machines involved in an accident on Shoshone street north at 3:10 p. m. According to officers, Neal was backing away from the curb and damaged the Shout machine slightly.

Harry Cohen, 322 Second avenue west, and Glen Simmons were drivers of machines involved in a collision in the 100 block of Main avenue west. Cohen was parking his vehicle. Simmons opened the door of his already parked automobile, damaging the rear door and fender of the Cohen machine, police said.

TUCKER'S NATIONAL WHIRLIGIG

WASHINGTON—Thomas E. Dewey may name his secretary of state within a few hours after his expected arrival in Washington on Tuesday in order to prevent Moscow from taking any confidence in the administration's policy, it is believed.

Stalin undoubtedly seeks to make immediate capital from a political upset in the United States, which has long since financed the anti-communist movement throughout the world. He will touch off a campaign of propaganda behind and outside the "iron curtain."

He has not permitted his official press to mention the possibility of reporting Dewey's pledge to "get tough" with the politicians, or his denunciations of the "reactionary" and "illeged codding of communists" at Washington. Therefore, he will deliberately and erroneously interpret a Dewey triumph as a repudiation of the Truman-Marshall policy.

TONGUE WITH WARTS

Dear Folks:

Now I know how a radio announcer feels at 7:45 p. m. on blue Monday.

One of the local commentators stood up manfully with a bad case of warts on the tongue and he pronounced "U. S. department of entomology" while giving the local weather report.

After three desperate attempts to say "entomology" the poor fellow gave up, settled for "according to the weather bureau."

HOW THINGS APPEAR FROM PEGLER'S ANGLE

NEW YORK—Samuel Novick, born in Vitebsk, Russia in 1897, arrived in the United States in 1916, aged 17, with a nice thing which was later transformed into a communist propagandist and journeyman lawyer who now by the name of William S. Gallmer.

This is the same Gallmer, now known as William S. Gallmer, who has been named as an exempt lecturer harassing loyal American boys on their duty to "democracy" who has been named as a candidate for President.

He is brazen and utterly shameless. Novick now seems reconciled to the status of a Quilting for the Moscow treasury.

Novick was firmly placed by Congressman John McDowell, Pennsylvania, at the end of the hearing on the death and treachery involving Arthur Adams. McDowell warned him of the penalties of perjury and of the wrath of infuriated Americans.

Novick began by admitting that he had some radio show. He was a Robert Stirling, the chief investigator, showed him Adams' picture. He believed it was Adams. Well, was it Adams, yes or no? He was pretty sure.

When he had first met Adams? Roughly 10 years ago (1938) when Adams walked in as a customer to buy some radio stuff. Novick introduced them. They just got talking and Adams became a regular customer.

Ever employ him? Nope, never.

"But," Stirling asked, "didn't you write a letter on Dec. 10, 1937, to the Immigration and Naturalization Service?"

"I believe I did. After I had known him about a year he came in one day and said he was a Canadian who would like to come to this country. Would I write a letter to the authorities saying I had known him, and I would recommend him?"

He first said he first met Adams in 1937. Now his memory begins to quiver. He might have met him as early as 1934.

Stirling then slammed Mr. Novick with the truth, right out of the immigration record, that he wrote the immigration service requesting assistance of his "Canadian representative, Arthur Adams," a skilled radio engineer, who had been employed by Novick for more than 10 years in Canada.

He told immigration that Adams was born in Canada, when he knew he had been born in Russia. This letter showed that Novick lied under oath when he swore, first, that he met Adams "roughly 10 years ago." Actually, according to the letter, he

"PLANNED CHAOS"

Our three defense departments are now wondering whether they can get by on the budget for fiscal 1950 that Mr. Truman has limited to \$15,000,000,000. They also seem uncertain how they will apportion the sums they get.

The confusion is not due to service rivalries. It reports on the budget discussions are correct. The principal trouble is that the defense does not know what sort of a war to prepare for, or when to prepare for it.

The world's war-lever chart has recently shown sharp rises and falls. The Berlin situation grows tense, and up it goes. A few quiet days, and the fever subsides.

All this is bound to produce uncertainty in the top military circles of the western nations. But the question—and it's one that doesn't seem to have a public discussion—is whether the uncertainty may not be part of the Russian strategy of economic, not political, war.

This is only a question, not a certainty. There is no doubt that the Soviet government is buying military arms and planes in millions more available, or that it is working in secrecy to perfect new and terrible weapons. The western countries cannot ignore these factors or fail to prepare defenses against them.

At the same time it is possible that all the Russian accusations and professed fears and provocative tactics are part of a long-range Soviet plot to gain a number of communist objectives with a minimum risk of conflict. Perhaps Mr. Vishinsky, with his screamin'g, thumping and apoplectic countenance, is only a "preventive" war. But the more we accuse the Americans of planning aggression the more the western world will think that we are arming furiously to protect ourselves or to strike the first blow.

That being the case, they—and particularly America—will arm more furiously in return. Money meant for the Marshall plan will be diverted to armaments for America and western Europe. Finally the Marshall plan will fail. And Europe, on the verge of financial, industrial and moral collapse, will be ripe for revolution and communism.

The above is just a guess. It may be wrong, but it is not impossible. And since it is wrong, it presents a problem which the heads of western governments have doubtless considered. That problem is how to build up a strong and safe defense and still not impoverish the free world by squandering vital goods and money on an unnecessarily big war machine.

One immediate way to tackle this problem, we believe, is for the representatives of free governments in Paris to stop trying to match Mr. Vishinsky in insult and vituperation, thus perhaps playing into his hands. Another is for the free governments to agree to strive even harder to counter Russian provocations with calmness as well as firmness.

Gets Treatment

KEMMERER, Oct. 26—Mrs. Martin Sharpe is still being treated for injuries sustained in a car accident near Pine. She received a fractured pelvis in the midship when the car in which she was riding skidded over an embankment. Her husband and other occupants of the car were injured slightly.

The most dangerous hour on roads is between 5 and 6 p. m., according to accident statistics.

GRACIOUS—Russia may make even more violent and dangerous moves on the basis of a Truman defeat. Moscow may accelerate and aggravate efforts to parallel the moves of Greece and Turkey through strikes and internal disorders.

However, if the political belt tells for Mr. Truman, the Russian position will be a generous and gracious loser. He may bring Governor Dewey personally on the foreign situation, and the Russian position will be a generous and gracious loser. He may bring Governor Dewey personally on the foreign situation, and the Russian position will be a generous and gracious loser.

BOB HOPE

Quick, Jeeves... my baggy pants and flappy shoes!

Yes, sir, on Oct. 23, the Friars Club, fraternity of show business, held its first west coast performance at the Philharmonic Auditorium here in Los Angeles.

Up until now it has allowed only members of show business to be present. It was different. And it was a pleasant surprise to see Bob Hope on the stage and not have the rest of the audience taking down your jokes in alderhand.

The cast of stars included Jonon, Benny, Jessel, Abbotts and Costello, the Rita bachelors, Tony Martin, Loui Hol, Keenan Wynn, George Burns, Ronald Reagan, Pat O'Brien, George Raft, Dan Dailey and Robert Preston. We tried to get Margaret O'Brien but women are barred.

All the comedians were trying to outdo each other in getting the best jokes from their writers. Some were paying more... others were still using whips.

Naturally, comedians are a tough audience because they've heard all the jokes. I told one last year and they all jumped up to welcome it back.

Of course, there was one man who wasn't here in person Saturday night, but whose spirit still reigns and to whom all of us in show business owe so much. Thank you, Joe Miller.

DEWEY'S WAR RECORD

President Truman, in a left-handed sort of way is trying to make it appear that he's above calling attention to the fact that Thomas E. Dewey's "lack of military service."

Not only has the President "instructed" Democratic campaigners to avoid any mention of Governor Dewey's war record, but Mrs. India Edwards, head of the women's division of the Democratic National committee, has gone so far as to say that because of his "innate decency," the President "didn't want to bring that up."

Bring what up?

When the United States got into the first World War Dewey was a 15-year-old farm boy in Michigan. About the time of Pearl Harbor, the New York governor was almost 40 years old. When the induction age in World War II was reduced to 38, Dewey, like hundreds of thousands of others, was considered too old for the service.

The two world wars were so timed that many men, through no fault of their own, were only by reason of their ages, never were qualified for military service.

So let's not allow any inferences or "innate decency" on the part of anyone to arouse any unwarranted suspicions as to Mr. Dewey's patriotism and loyalty.

VIEWS OF OTHERS

NATION AWHEEL

New light is thrown on the remarkable extent to which our economy is a "rolling" economy by the latest issue of the Automobile Manufacturers Association, which is second. The farmer, the AMA reveals, is a good friend of the automobile, with some 50 per cent of the nation's sporting automobiles ownership. Of the nation's livestock, 60 per cent are hauled by truck while 63 per cent of the milk, 41 per cent of fruits and vegetables, 67 per cent of the eggs and 91 per cent of the live poultry are received at important markets over the roads.

Registration for passenger cars gained most heavily on the Pacific coast and in the southern states in 1947. The states which registered the most were California and Pennsylvania. California leads the nation in passenger car registration, with just under 2,000,000. Pennsylvania is second, with 1,500,000. The states which registered the most were California and Pennsylvania. SMALL FRY WEIGHT LIFTERS

When other forms of exercise no longer hold interest we've seen toddlers take on the telephone instrument for a little weight lifting session. They can't do much damage to the telephone but they usually forget to replace the receiver. That means you can't receive any incoming calls and if you're on a party line the other telephones are put out of service as well. So if there are youngsters in the household, a word about being a good telephone user starts the small fry on the right path.—The Mountain States Telephone and Telegraph Co.

THE LAMP WITH THE COLLEGE DEGREE

SMART? This heat lamp is so versatile, it does a hundred jobs, and yet costs so very little.

In the home, on the farm, and at the office, the heat lamp performs and makes many tasks easier. And no special attachments or equipment are necessary.

Here are some things the heat lamp can do for you at home!

- Treat strains and injuries; relieve stress and other pain; dry stockings and small garments; dissolve grease in sink drain.
- Dry heat refrigerators; defrost hair and nail polish; dry fresh paint or glue; freeze frozen water pipes.

... and on the farm

- Check, pig and lamb brooder; drying newborn livestock; aid and keep permanent; protect animals from freezing; keep stock water trough from freezing; treat sick calves.
- Keeps water freezing from freezing; keeps motors start easier; keeps hands warm in milking house and when dressing poultry; treats animal wounds and strains.

Your electrical dealer can supply you with heat lamps. Keep them handy. You'll find they pay for themselves over and over again.

4,500 Attend Dedication of Rupert Plant

RUPERT, Oct. 26—A crowd of more than 4,500 persons attended the dedication ceremonies for the Jerome Co-operative Creamery's new plant near the Paul-Burley bridge Sunday.

The dedication address was given by Raymond Snyder, president of Southern Idaho College of Education, who talked on Americanism and pointed out how the creamery was a good illustration of what cooperation means in a democracy.

Other Speakers

Other talks were given by Albert Jagala, Buhl, president of the Jerome Co-operative Creamery; Joe Peters, mayor of Burley; A. G. DeMay, acting for Henry Brazzall, mayor of Rupert; Marvin E. Neumann and L. E. Evans, Los Angeles, president and general manager, respectively, of the Challenge Butter and Cream association; Henry C. DeWitt, president and general manager, respectively, of the Challenge Butter and Cream association; and Burdell Curtis, Burley.

The ceremony which opened with the raising of the national colors by Deco Boy Scout troop 27, was attended by Lester Hendrick, director of the bureau of dairying and dairy inspection for the state department of agriculture, and Henry C. DeWitt, president and general manager of the Challenge Cream and Butter association.

Reviews History

In addressing the crowd DeMay said: "On March 31, 1923—nearly 25 years ago—I had the honor to appear on the speaker's platform when the Rupert branch of the Jerome Co-operative was dedicated. This was the first step taken to develop in a broad way the co-op business on the Snake."

He told how Ben C. Edwards, then president of the Mini-Cassia Dairyman's association, was one of the speakers who gave a report on meager and inadequate buildings and the handicaps under which the association was born four years earlier in Burley.

Land Manager

DeMay spoke of the rise of the new co-operative following the fire which destroyed the plant in Burley and gave much of the credit for the success of this enterprise to the untiring devotion to an ideal by general manager, Roy D. Smith, Jerome.

Neumann and Evans told the crowd of the spread of the Challenge Butter and Cream association throughout the west during its development.

Inspect Plant

The crowd inspected the new plant which is equipped with stainless steel milk-handling equipment. According to C. W. Ross, Burley, public relations director for the Jerome Co-operative creamery, the plant is one of the finest and most modern of its kind.

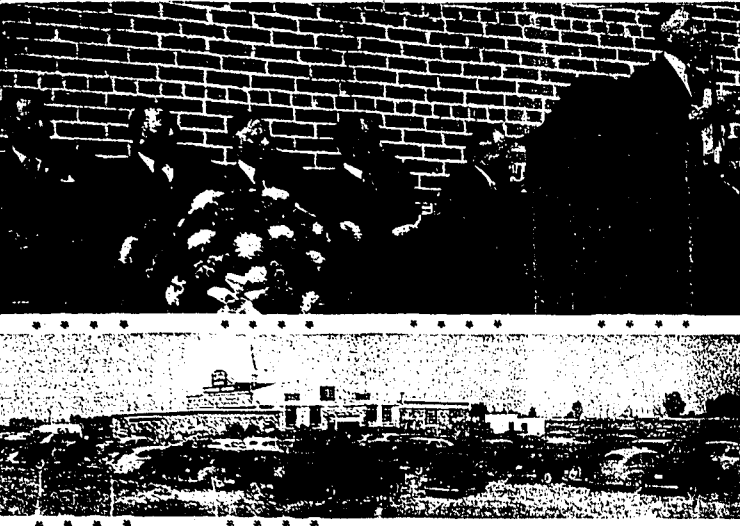

A great deal of interest was shown in the large trucks which were equipped with stainless steel tanks for the movement of the milk to the creamery.

Proud of Plant

The new plant will mean greater efficiency and satisfaction in the handling of milk produced in Minidoka and Cassia counties and the producers' members are proud of the new installation, according to the officials.

Ice cream, cheese, crackers, hot chocolate and coffee were served to all of the visitors. The Heyburn Boy Scout troop 27, directed by E. McIntyre, assisted in handling the parking of automobiles in the area for the ceremony.

Hunter in Hospital After Shot in Leg

BOISE, Oct. 26 (AP)—A Notus deer hunter is in the Boise veterans hospital after being shot in the leg by another hunter.

Sheriff Don Headrick said Ernest Matlock, 27, had been shot just after he clambered from a horse Sunday. The sheriff said the hunter firing the shot fled over a hill when Matlock dumped it to the ground.

The high-powered bullet dented four rifle bullets and broke another that Matlock had been carrying in his pocket.

AFL's Leader Hits Mexican Labor Imports

WASHINGTON, Oct. 26 (AP)—President William Green of the American Federation of Labor has secured farm labor employers and government officials of conspiring in importation of Mexican farm workers.

The labor leader demanded the disposition of a national action which entered the United States illegally, and prosecution of government employees and agricultural employers guilty of conspiring to violate the immigration law.

Green made his demand in a letter to Attorney General Clark, Secretary of State Marshall and Adm. William D. Leahy of the federal security agency.

Green's letter, which he made public, said reports from union representatives in El Paso, Tex., indicated that employers of agricultural labor in the United States deliberately inspired a movement on the part of Mexican citizens to come to the United States to seek employment on farms.

Alfred J. Sweeney, secretary of the United States Immigration and Naturalization Service and the U. S. employment service, said that many Mexican citizens crossing the border under false names and "documents" by immigration authorities and paroled to employment service offices in violation of the United States statutes against involuntary servitude.

Regret Expressed On Mexico Issue WASHINGTON, Oct. 26 (AP)—The United States has expressed "great regret" to Mexico over the manner in which hundreds of Mexican farm laborers crossed the border this month near El Paso, Tex.

Spain May Be Let Into U. N. By Back Door

By SIGMUND ARNE
AP Foreign Affairs Analyst

Before the current United Nations session ends in Paris there is an outside chance that the back door will be pushed open for Spain.

Three times since mid-1945 Gen. Franco's government has been declared unacceptable as a U. N. member. Then, to keep the allied world's disapproval, the U. S. government got out a pamphlet in March, 1946, publishing part of the United Nations correspondence with Adolf Hitler and Benito Mussolini.

It included several expressions of Franco's willingness to join the axis providing he got the guns and grain.

Within the past few weeks, however, a number of prominent Americans have come away from visits to Madrid with kind words for Franco.

What has started the trend to forgive and forget?

A state department official says "times have changed." He acknowledges that Spain now is eyed from the military standpoint. He says military men are thinking of Spain in the allied camp should the Russian-western cold war change to a hot one.

Led by Latin Americans
The current move in Paris is led by Latin Americans with Argentina as the prime mover. They would like to see Spain admitted at least to the U. N. as a non-aligned state.

President Truman "deliberately forgets that it took a big bloc of his own Democratic Congressmen to enact the Taft-Hartley law over his veto."

The official American view is described this way: (a) Nothing is gained by cutting Spain out of such arrangements of conferences as those which govern a good many of the world's air lines, radio channels, and the like; (b) The U. N. 1946 decision to pull ambassadors out of Madrid merely got Franco more support at home.

There is no talk of granting Spain a full U. N. membership. That would have to go through the security council, where Russia has a veto. And the Russians have supported more bitter anti-Spanish moves than any other nation.

Kimberly People Report Activities

KIMBERLY, Oct. 26—Mr. and Mrs. Dick Baker, Falls City, Ore., are spending a few weeks here visiting relatives.

Mr. and Mrs. John Steelsmith and daughter, Mrs. Joe Elliott, and children drove to Pine recently to visit Joe Elliott who is employed there by a road construction company.

Attending the funeral of Mrs. Marie Hurlantek were Mr. and Mrs. Charles Kolar, Lewiston, Mont.; Mr. and Mrs. Frank Sikory and son, Roy, Mendota, Wis.; Alfred Thielman, Moore, Mont.

Mrs. Otto Fowler has received word that her husband, Otto, is recovering following an operation on his spine at Swedish hospital, Spokane, Wash.

Marilyn Campbell, daughter of Mr. and Mrs. Colin Campbell, is reported in better condition in Boise where she has been treated for polio. A cast has been removed from her leg, but she is still using crutches.

Herbert Newman, who is stationed at Monterey, Calif., with the navy air force, has been married, according to word received here.

RETURN FROM BOISE
FILER, Oct. 26—Mr. and Mrs. John Larson, Jr., have returned from Boise where they visited relatives.

Airlift Head

The airlift task forces of Britain and the United States have been put under one commander, Maj. Gen. William A. Tanner of the U. S. air force. Tanner heads the combined operation which supplies Berlin over the Soviet blockade.

Hinshaw Assails Truman's Action

BOISE, Oct. 26 (AP)—Democrats are trying to array labor as a class against the rest of the country. Mrs. B. Hinshaw, Republican state chairman, said in a statement.

He said that the "desperate Democrats . . . have forgotten that Truman asked congress for labor legislation in 1947." He added that President Truman "deliberately forgets that it took a big bloc of his own Democratic Congressmen to enact the Taft-Hartley law over his veto."

Hinshaw declared the President has "found it politically expedient to change his views expressed in stating rebukes to labor during the nationwide railroad, coal and telephone strikes."

Methodist Group Features Square And Folk Dances

Squares and folk dancing was enjoyed by 40 young people of the Methodist church school at 8 p.m. and an overall party held recently in a hall at the Howard road.

The polka, schottish and Virginia reed were among the favorite dances of the evening. Josephine Boye directed and called the dances, assisted by Betty Funk.

Chaperones and arrangements for the party were made by Jack White, assisted by Chas. Allen and George Anderson. Geraldine Howard carried out the fall theme in decorations, which consisted of colorful streamers, pumpkins, cornucopias and bales of straw.

Refreshments were served by Betty Funk and Mrs. Brown furnished appetizer for bobbing.

Portraits of older and dignified were served by Leslie Henry and at the close of the evening the group stood in a friendship circle and sang Stansbury led them in benediction.

Shirley Palmer is chairman and Olive Smith co-chairman of the next party which will be held at 8 p.m. Nov. 12 in the church parlor.

Major Klauer is chairman of the group from Holyoke, Colorado, and George Kirton, Turpin, Okla., was a guest.

This group, if contacted, will render their services to assist with any worldwide community project. It was organized by the young people as a means of wholesome recreation so that it will be unnecessary for them to seek recreation under unfavorable conditions. Mr. and Mrs. Louis Schroyer are advisers for the group.

WCS Members Give Reports on 'Growing Dollar'

MURTAUGH, Oct. 26—At the giving of the summer each week report of the Women's Society of Christian Service was given a dollar and asked to his group.

During the last meeting held at the Methodist church the money was turned in and reports on "how they grew" were given by members.

Mrs. O. E. Wright led the turn-overals and Mrs. D. R. Turner, chairman of the work committee, presented the program. The business meeting was conducted by Mrs. Elmer W. Johnson. It was announced that the annual guest day will be held at the church on Nov. 4.

Hostesses were Mrs. C. O. Callen, Mrs. Art Shaffer, Mrs. Fay Willie and Pearl Dorn.

At the close of the WCSB meeting, Mrs. Father Blei discussed the two national amendments which will appear on the ballot Nov. 2. She urged voters to approve those amendments which would provide state and county superintendents to be appointed by county boards and place them on the merit system. She went on to say that this system has the full approval of present state and county superintendents, and approval of both the state and local Idaho Education association which confer with adjacent schools, present a plan to the county re-organizational board and call for another election within the next month.

"Authoritative sources say that by 1950 our school population will be doubled, requiring again as many teachers and new buildings. We must face this. It seems to me that this is the time for us to face the facts and plan for adequate education for all our youth. It matters not where they are located," said Mrs. Blei.

Selections Given At Civic Parley

Officers Elected By Idaho Writers' League Members

Officers were elected at the Monday meeting of the Idaho Writers' League. These officers will take up their duties in January. They are: Mrs. Irene Smith, president; Mrs. Erna Chamberlain, vice president; and Mrs. Belle Kempy, secretary-treasurer.

Publications were reported by Mrs. Olive May Cooke, Mrs. Victor Coetzee, Mrs. Studie Siger, Mrs. M. J. Smith, and Mrs. M. J. Smith.

A report was made by Mrs. Chamberlain on her book, "Something of the Idaho Family" she said she got most of the material from tax records and accounts of wars in the country. The family dates back to 1833 in this country. She told the group that they were French Protestants who had immigrated to England and then to America. She went on to say that they were a pioneer family and that the father settled near Lawton around 1830.

Mrs. Caesar Leont was admitted as a new member.

Two guests were present for the afternoon, during which a potluck luncheon was served.

Refreshments for the next meeting will be Mrs. Edward Mayer and Mrs. Al Ulrich.

Mary and Bill

Mary and Bill persuaded Father to go to the big game last Saturday. It was my first in years. We were there right after the game and Mary and Bill came in while I stirred up some hot chocolate.

"Say! Here's another one of your mother's recipes you've got to try," Bill exclaimed. That's the best hot chocolate I've ever tasted."

And so there you have another excellent recipe for Morning Milk. You see, I just use equal parts of Morning Milk and water and add the cocoa as directed. Morning Milk is so smooth and rich it's wonderful in hot chocolate.

Try it soon, and taste the difference!

Babe Ruth Is Laid in Final Resting Place

NEW YORK, Oct. 25 (AP)—Under gray, weeping skies, the body of Babe Ruth was laid in its final resting place today.

Only a handful of the millions of fans who idolized America's greatest sports hero, was present at the Washington, D.C., funeral of "The Bambino" (Ruth) on its silver name plate, was lowered into a self-sealing concrete vault beneath the earth.

The scene at the Gate of Heaven cemetery in nearby Westchester county contrasted sharply with the funeral services of Aug. 15.

Then 6,000 persons jammed their way into St. Patrick's cathedral and 75,000 more crowded about the edifice. More than 100,000 fans had passed his bier in Yankee stadium for one last look at the barn running king.

Today only a few persons stood beside Mrs. Ruth under a canopy close to the freshly-turmed grave. Present were five friends of the family and Messrs. George C. Enghardt, pastor of the Gate of Heaven Parish, who officiated at the brief ceremony.

The funeral plans had been closely guarded. The Babe's grave is only 200 feet from where former Major James J. Walker of New York rests. The two were close friends.

Ruth was 33 when he died Aug. 16 of cancer.

Report Given On Off-Street Parking Plan

are 15 cents for the first hour and 10 cents for each additional hour. Blake declared the cost, higher than meters, are justified by the fact that the cost of parking is lower than in many other cities.

Another job at the southwest corner of Main avenue and Third street south provides space for 32 cars. It is located on the site of the proposed city hall and accommodate 250 cars. Total is 1,000 cars.

Blake told the council paid attention to the proposed parking plan and regulated parking in the city. He said the plan would be a benefit to the city and the people.

Nichols' Tiny Auto Has Its "Advantages"

By HARMAN W. NICHOLS
WASHINGTON, Oct. 25 (AP)—Mama and I left the Ford at home, hopped into the Austin and drove down to the Shoreham hotel to have a look at the new Nash. The salesman winked his eye at me as he saw the midge car and said all the cars were full. So we parked our job on a Cadillac.

That's the way it has been since I landed an Austin from a local dealer. Big people in big cars are jealous of the Harman Nichols only way I can figure it out.

You give a fast, big job a 10-year head start and best him to the next traffic light. In the rear-view you can just see the guy fuming.

Then you come up between a couple of trucks and grease the little one in between. The cop on the beat starts to blow his whistle—and his top—and then you're better. Nothing he can do about it because you are within the law.

There is no statute against turning around on a dime. And with a wheel base of 92 1/2 inches a man ought to get a little change back.

You go into a parking lot. The boy says leave the keys in case he has to move the thing for something more important. And you have to explain that, with the up-from-the-floor gear shift, if you pull the lever up and back that isn't high gear. That's reverse, under the British system.

Then you sit there on the highway and what do you have to worry about? Nothing. You've got a ton of weight to bump against, whatever bumps you. Devil take the hindmost.

"No Hands" Jack
We were driving along and ran into a nail or a small and came down with a flat tire. Know what to do in the Austin? Just yank a little gadget on the dash and down comes the Jack. No hands, hardly. No cranking or cranking under the wheels or hand-pumpers. Within a couple of minutes we had a tire changed.

There are other things, too, that you would not expect to find in a kiddycar. Like a heater. Plenty of room in the hind end for luggage, etc.

Everything. But I have one complaint: For a little car, the horn's too doggone loud.

Irrigation Unit's Legislative Body To Discuss Plans

BOISE, Oct. 25 (AP)—The legislative committee of the Idaho State Reclamation association will be held here Friday morning to discuss proposed legislation to be brought before the 1949 state legislature.

William E. Welsh, secretary-manager of the Idaho Reclamation association, said one of the subjects to be considered is the need for adequate underground water legislation.

Welsh also said the committee may consider a program of small reclamation projects throughout the state.

The following members of the committee are expected to attend: Charles H. Welteroth, Jerome, chairman; A. E. Stanger, Idaho Falls; L. H. Nash, Preston; Forrest Bower, Boise; A. R. Babcock, Moore; Glen Woodbury, Salmon river; John J. McCrea, Weiser; Lee R. Brugger, Post Falls; and Bert Schroeder, Lewiston.

Four members from the Big and Little Wood river area have been nominated as legislative committee members, Welsh said. They are Ed Gooding and Max Coffin, both Shoshone, and Buford Kivland and Wayne Clark, both Gannett.

17 Leases for Oil, Gas Gain Board's Okay

BOISE, Oct. 25 (AP)—The state land board has approved 17 oil and gas leases throughout the state.

The board yesterday also approved the sale of 1,602 acres of state-owned land, about 105,000 board feet of timber, investment of \$310,762 in state funds and one gold mining lease.

Edward Woolley, state land commissioner, said the board approved four gas and oil leases in Cassia county totaling \$2,340 acres, four leases in Grouse county totaling 1,998 acres, four in Bonneville county totaling 1,200 acres, three in Twin Falls county for 1,120 acres, one in Elmore county for 463 acres and one in Teton county for 400 acres.

Approved for sale were 80 acres in Cassia county, 640 in Deer Lake county, 40 in Power county, 640 in Grouse county and two one-acre lots near Mack's Inn in Fremont county.

The board denied four applications in Blaine county totaling 1,160 acres. Woolley explained the denial was made because the sale would interfere with administration of other state grazing land.

Timber approved for sale is in Boise county. It includes 75,000 feet of yellow pine and 30,000 feet of Douglas fir. The gold mining lease covers 300 acres in Lemhi county. Woolley said auctions would be held later for selling the timber and grazing land.
