

Guam's Snails Are Troubling Naval Experts

By HARMAN W. NICHOLS
WASHINGTON, Nov. 15 (UPI)—The navy would like to know what-
ever happened to the bright young
scientist it sent to South Africa in
search of a snail-eater.

If the boy doesn't come back
pretty soon, we're going to have to
move out of
Guam, not to
mention Salpa-
n, to make room for
the giant African
snail, which are
multiplying faster
than the snail.

History of the
snail plague is
this:
First word came
out in hearings
before a house subcommittee in con-
nection with the naval appropri-
ations bill during the last session of
congress. Capt. W. P. Jennings, as-
sistant chief of naval operations on
Guam, wearing a look of worry, ap-
peared before the group.

Japs Imported 'Em
He said when the Japs first moved
onto Guam, they brought their
lunch with them—snails, which the
nips didn't like. As you recall, the
Japs left the island in kind of a
hurry, leaving their main entree be-
hind.

The marines and GI's who took
over had lots of those delicious bean
and spam and hence had little ap-
petite for snails. So the hard-boiled
critters, left to their own devices,
started making a lot of little snails.
Captain Jennings told the com-
mittee the snails, measuring 4 to 6
inches in length and weighing up
to a pound and a half, were raising
the very devil with vegetation on
Guam.

Snails "Like" Crops
There are 11,000 arable acres on
the island—good for raising corn,
potatoes, peas, melons and sugar,
all liked by snails.

The navy japed for help and the
naval research council and our de-
partment of agriculture responded.
The two agencies lend-leased a crew
of small experts who gave the
snail a good hard thought. They
sent a lone scientist to Africa, from
whence came the snails, to find a
natural enemy.
The man hasn't sent a report in;
or even a "wish-you-were-here"
card. I went through a flock of
channels, as we call 'em, and
couldn't even learn the man's name.
Although the navy is sure it sent
SOMEBODY down there.

Cruelty Charged In Divorce Suit

A divorce complaint in which
Mary M. Joo seeks custody of two
minor children, half of community
property valued at more than \$25-
000 and alimony, was filed Monday
in district court.

Mrs. Joo, who married Kenji Boo
Joo June 15, 1944, in Twin Falls,
charged her husband with cruel
and inhuman treatment.
Through her attorney, Frank L.
Atcham, she seeks half of the com-
munity property, \$100 a month al-
imony, custody of the two minor
children, \$75 per month for sup-
port of the children until the oldest
becomes 19 years of age when she
requests an increase to \$100
per month.

Parish Will Filed In Probate Court

A petition for the probate of the
will of Ella G. Parish, who died
May 17, 1945, was filed Saturday in
probate court by Howard G. Parish,
husband. The estate consists of real
and personal property in Twin Falls
county with an estimated value of
more than \$25,000.

Heirs were listed as Frederick
Turner Parish, husband, who died
Oct. 1, 1948; Mildred Decker, daugh-
ter, filler; Bernice Parish, daughter,
Tracy, Calif.; and Howard G. Par-
ish, husband.

The petition is scheduled to be
heard at 10 a. m., Nov. 26, in the
probate courtroom.

T-H FIGHT LOOMING

Prophecy seems suddenly to have gone out of fashion, but we are going to venture one prediction on the subject of the T-H fight. There will be considerable hair-splitting in the next session of congress over whether the Taft-Hartley law should be amended or whether it should be repealed and the Wagner act amended.

An attempt will surely be made to revise the present labor relations statutes, and it is almost certain to succeed. But more than changes are involved. There are such things as pride and prejudice and political prejudices. And unless our guess is as wrong as a lot of other guesses have been recently, the revisions will include the drawing of the Taft-Hartley line which, in turn, will be preceded by some hot words and a good deal of wasted time.

The promise to repeal the Taft-Hartley law stood high, of course, on the list of President Truman's campaign pledges. There is little doubt that this promise has won labor support for the President. And the labor vote helped a lot to return him to office.

So Mr. Truman is committed to repeal. And he will probably find some new support in his own party. When a man like Senator McClellan, whose views on labor support, to the right of Senator Taft's, suddenly hears the voice of "the people" and renounces T-H, we may expect to see the conversion of other and slightly less conservative Democrats.

But the fact remains that the new congress will still have a majority of Taft-Hartley supporters in both houses. The fact also remains that the Democratic members of those majorities were included, by number if not by name, in Mr. Truman's bitter denunciation of the 80th congress. It may be that his hand would still still rankle in January when the joy and amazement over his victory are somewhat more temperate than they are now.

Further, some of those Democratic members may want to join their Republican colleagues in defending their own actions. The Taft-Hartley law is due for some more furious broadsides. But there are still grounds for claiming that its operation has not injured organized labor's rank and file to any extent, and that it has in total effect done more good than harm.

Mr. Truman himself has invoked his powers under the law without apology or apparent resentment. Indeed, he might prefer to retain those powers instead of threatening once more to call out the troops the next time the leaders of the railroad or mine or maritime unions call out their men in "an emergency" strike. If he had no better weapon in the last year than the right to draft strikers into the armed forces, he might have had the labor support for which he is rightfully grateful today.

Yet the union big-wigs will probably demand outright repeal of the Taft-Hartley law, at least as a bargaining point. And the Republican minority in congress—and maybe some Democrats—will doubtless demand that the framework of the law be preserved, however extensive the alterations.

In the end we shall have a new labor-relations law. Everybody concedes that. But we'll bet that plenty of fur will fly before Mr. Truman puts his signature to the final draft.

CHARGED WIRE FOR HOODLUMS

We can appreciate fully the feelings expressed in the Times-News forum department Sunday by a Buhl woman. She was deploring acts of vandalism, particularly the defacement of the plaque erected in honor of I. B. Perrine at the rim-to-rim bridge.

After observing that even the points of view with which the barricade is topped had failed to keep people off the new stone wall erected as part of the memorial to the late Mr. Perrine, the Buhl woman suggested that a charged wire be placed around the plaque and also along the top of the wall.

Let's visualize for a moment a charged wire bordering the plaque designed to do honor to our foremost pioneer. What an ugly contrast indeed. Too ugly in fact to be put in use without defying the purpose of the memorial. But anything less effective would never stop certain individuals—"hoodlums" as the Buhl woman puts it—from their inconsiderate acts of vandalism.

It seems to go with human nature that a certain percentage of the people develops no sense of propriety whatsoever. They have no respect and less regard for anything other than their own feeble and selfish impulsiveness.

That goes for those who deface plaques and monuments, who discard their rubbish along our highways, who whittle their initials in expensive fixtures in public places, and those who are guilty of scores of other acts of hoodlumism which come to mind.

It wouldn't be right to put a charged wire around the plaque commemorating Mr. Perrine. But we can understand how the woman from Buhl happened to hit upon this suggestion. It has proved to be one of the most effective methods of keeping livestock within proper bounds.

TUCKER'S NATIONAL HIRLIGIG POT SHOTS

WASHINGTON.—The ironic aftermath of the Democratic victory on Nov. 2 has been the news that voters who voted so unhesitatingly for President Truman are suffering from a drop in prices for their products, whereas industrial interests supported by the people in their stand to meet money out of their triumph.

The prices of meat, butter, milk and several other farm items have declined sharply. In fact, it was this lowering of prices in four weeks of the campaign, together with the fear that the Republicans might remove the economic agricultural subsidies which enabled Mr. Truman to carry farm states, regarded as safely Republican, in 1932.

Prices—Food costs are going down for economic rather than political reasons. Butcher has fallen from \$1 to about 70 cents a pound. The reason is the housewives' realization that they can use margarine as a cheap substitute.

Although the decline in meat and egg prices may be only seasonal, they have fallen because of the heavy production of fresh fruits and eggs coming to market heavier than they did only a few months ago. No politician was responsible for the weather and ideal growing conditions.

FAY—Any drop in the cost of living will benefit the voters of the United States. It will mean a drop in the cost of living for the voters of the United States. It will mean a drop in the cost of living for the voters of the United States.

INCREASE—Another strange but hopeful aspect of the Democratic victory is that it has not thrown a scare into industrialists who need to expand their production of fresh fruits and eggs coming to market heavier than they did only a few months ago.

Industry is going ahead with blueprints for an increase in the production of fresh fruits and eggs coming to market heavier than they did only a few months ago.

CONFIDENCE—Some suggest that the nation's business men and industrialists are believing in the townpeople who did not heed the shepherd's frequent cry.

NAVY—The United States navy emerged as the behind-the-scenes victor from the battle of the smoldering departmental fight for supremacy in the supposedly united national defense establishment.

VICTORY—An influential army man is Rep. Harry R. Sheppard, Calif. He will return to his old post as chairman of the house appropriations subcommittee handling naval expenditures. There he will be in a position to insure that his favorite arm gets its share of the \$14,400,000,000 allotted for national defense.

Only cabinet member to show up was Attorney General Cummings, and he attended all social events. Many representatives of anti-Moscow nations appeared, but remained only a few minutes.

Honor guests were Henry A. Wallace, who made a special trip from New York for the affair. He got almost as cold a shoulder from other guests as Ambassador Panagiotis did. He would not discuss his recent slaughter at the polls.

Views of Others
ONE STEP FARTHER
Something new in the way of real estate salesmanship has been offered by a firm of homebuilders in the Washington area. It is using substantial advertising space to urge prospective home-owners to "buy a house with a car as standard equipment."

"Some builders put in deep-freeze units, or television sets, as inducements to buy," says the president of the company. "Why not a car in every garage?"

AW, PIONEERS!
The frontier spirit seems to be in a worse way than anyone had supposed. In the days of the country's youth, it led men to clear vast forests, cross trackless deserts, for raging rivers. Nowadays, the Canadian government tells us, when the spirit of the pioneer and explorer is awakened it only causes them to get lost.

Canada is fed up with Americans who become misplaced in the north woods, and that goes for the police and air force. The right of his compatriots in the north woods to American publications and thus, presumably, keep the area explored and free of the "wilderness."

We can't help feeling that all this is a far wiser and bolder than the old Don't Bothers, who had his own philosophy on the subject. On one occasion, someone asked him whether he had ever been lost. No, he said thoughtfully, he hadn't, but once he had been bewildered for several days by the sight of his compatriots in the north woods with the Canadian mounted police and the Canadian air force in full cry after them might be too much for Don't-B. Louis Post-Dispatch.

POT SHOTS

MAKES THE ROOF LEAK
Discharging a loaded auto, an auto is not to create a situation where the car's top will leak in a rainstorm. Anyway, the two Twin Falls hunters have had experience along that line.

Take the case of one hunter who was driving a 1932 model car. He went over Jerome-way for the opening of pheasant season. He put his shotgun in the back seat of his car that nice new car, and blooey—no ventilation. We promised not to use his name.

Then one of Don Smock's hunting companions put his new shotgun in the back seat of his 1932 model car. Wham! and there was an auto with a skylight and a rubber boot also doghouse.

We forgot to include if either party got their birds.

HOW THINGS APPEAR FROM PEGLER'S ANGLE

As a matter of fact, I never thought much of the Taft-Hartley law myself and if President Truman had opposed it for its real fault, I would have agreed with him. It is too much for a union buster.

But in calling it a slave labor law, Mr. Truman has done a great deal of harm. It is a slave labor law, and it is a slave labor law. It is a slave labor law, and it is a slave labor law. It is a slave labor law, and it is a slave labor law.

Writer Avows "Smugness" Is Defeat Reason

NEW YORK, Nov. 16 (AP)—Republican National Committeeman Clarence Budington Kelland believes his party lost the presidential election chiefly because it conducted a "smug, supercilious, arrogant campaign."

"It was not a campaign in any real sense of that word," he said. "It consisted in sending a train around the country to give the good people a chance to see the next President of the United States."

Kelland, novelist and national committeeman from Arizona, made the charges in a letter to all other committeemen, state chairmen and other party leaders.

He also urged that the national committee meet for the purpose of a "house-cleaning from top to bottom, and reorganization to take control of the party out of the hands of the Albany group."

The group, he said, took control of the party the day after Governor Dewey was nominated for the presidency.

"They imposed their will. They appointed from top to bottom the officers of the national committee. The party as such ceased to exist and became a private Albany enterprise."

Comments on Campaign Regarding Governor Dewey's campaign, he said:

"The Albany group provided the candidate with a small, shallow, insipid speech. It was a campaign, contemptuous alike of our antagonists and our friends. The Albany group provided themselves with the charges in a letter of attack, an avalanche of lethargy. No issue was raised or faced."

"It was a completely bland and selfish campaign, conducted solely for the benefit of the national committee and its members, and ignoring or neglecting the all-important senate and house of representatives."

"It was not a national campaign; it was an Albany campaign."

"Exclusive Campaign" It excluded the Republican party from efficient participation. It afforded the Republican party a strong pill to Republican voters. It was a campaign lacking in courage and calculated only to arouse indifference.

"It was a campaign so stupid that it permitted a little man whose only equipment was courage and an indomitable fighting spirit to give us sound drubbing and this single-handed and deserted by his own party."

Canvass of Vote Is Completed by Board in Blaine

HATLEY, Nov. 16.—Significant changes from unofficial results were noted when Blaine county commissioners canvassed the results of the general election earlier this month. For the most part, changes were attributed to the addition of figures from Yale precinct, which was not reported in unofficial results.

Final tabulations on the election amendments were as follows: 5378 to 812 yes, 995 no; 5378 to 1,059 yes, 702 no.

The vote for contested offices on the ballot included: Senator, Dworshak 1,010, Miller 1,210, Derr 20; representative, Barnum 1,017, Logan 1,176, Dill 21; state senator, Atkinson 877, Hicks 1,770; state representative, Bonin 917, Kirkland 1,285; commissioner, first district, Turnbull 1,067, Justensen 1,132; commissioner, second district, Harper 827, Clark 1,295.

Castleford Tells Of Recent Events

CASTLEFORD, Nov. 16.—A fellowship picnic dinner was held at the Methodist church. The Sunday school board discussed plans for Christmas. A variety of committees packed boxes to be sent to a Japanese family adopted by the WSCS. The WSCS reported \$41.80 raised from their patch-work auction.

Mr. and Mrs. M. W. Abshire, Denver, Colo., were recent guests of Mr. and Mrs. Claude Abshire and Mr. and Mrs. Pete Abshire.

Mr. and Mrs. Bob Becker have returned from a hunting trip near Salmon City. They visited the Jack Becker home while there.

Mr. and Mrs. Walter Reese have gone to Ohio and Pennsylvania where they will visit relatives for a month.

Mrs. Lou Billington and daughter, Boise, and Mrs. T. Hudson, Twin Falls, visited Mr. and Mrs. Dell Hudson.

Mrs. Doyle Webb and Mrs. Frank Reuter have gone to Wheeler, Ore., for medical treatment.

Mrs. Rufus Fields is teaching at the Luccene school northwest of Buhl.

\$12,000 Worth of Hay Went up in Smoke Here

Blackness in foreground of photo above shows where a huge stack of hay burned on the Beale's Asteque ranch two and one-half miles southwest of Gooding Saturday. In all, three stacks of baled hay burned for an estimated loss of \$10,000 to \$12,000. The loss was not covered by insurance.

In background are stacks of hay which were endangered by flames but saved through efforts of volunteer fire fighters. About 500 tons of hay on the north side of the road were not endangered. (Photo by Letha Tester-staff engraving)

Poor Prince, Sighs Boyle, He Never Will Be Really 'Happy'

By HAI BOYLE

NEW YORK, Nov. 16 (AP)—His royal highness in despair, the Prince of Edinburgh, was born into a dynasty of the two-day-old heir-presumptive to the British throne.

It is the business of being a king, and the next in line after his namesake, it doesn't look like business will be too good.

The kid will probably grow up to be a good king, but he could drop that "Prince of Edinburgh" mantle and be called "Prince of London."

For—either a prince or king—the only real job he will have is to act as salesman, major domo and press agent for the British empire. He will be only a symbol.

And he won't have as much fun as people suppose after he is on the hot seat—the throne—he wants to throw a cocktail party for his social equals.

Who'll he invite? Today there are barely enough kings or emperors, one by one, to count the jokers thrown out of their palaces in recent years.

Of the 64 countries listed in the 1947 Debrett's peerage, only 13 are ruled by kings, two by emperors, one by a shah. But 40 are headed by presidents.

And presidents now pack more muscle than kings. One of the infant prince of Edinburgh's distant relatives was a famous president—George Washington. But the little prince can't aspire to that office. He was born in the wrong place for it.

He isn't exactly a barfaced boy with a crown. He'll inherit enough money to keep him in lollipops forever.

But what a life he has to look forward to! He can't sneak off to the ol' swimmin' hole with the boys from the other side of the railroad track. He can't chalk naughty words on fences, because palaces don't have fences. They have him a 41-gun salute at birth, but they won't ever let him play with firecrackers.

Certainly not on the 4th of July anyway.

He will be surrounded by eunuchs, foreign language tutors, dancing masters—all the red tape of royalty. But if he does break the palace's house rules, he shouldn't have to worry about his mother spanking him. Princess Elizabeth is president of the National Society for the Prevention of Cruelty to Children.

Later, as king—if he survives his ride-ridden childhood—his chief duty each morning will be to call up the prime minister and say: "Whom do I greet today, boss, and what uniform do I wear? Or have you written something you want me to read to parliament?"

Dr. Marshall to Give Guest Talk at PTA Meeting

Dr. Joseph W. Marshall will be the guest speaker at the Lincoln school PTA study group meeting at 2 p. m. Wednesday at the Lincoln school.

His topic will be "A Social Hygiene Education Program in Our Schools." This program is sponsored jointly by the Kiwanis club, health and the state board of education.

Dr. Marshall's introductory talk will be followed by a presentation of the film, "On Human Growth." This film was put out by the E. C. Brown research trust fund under the auspices of the University of Oregon medical school and has been featured recently in both Life and Time magazines.

Following the film there will be a question and answer period. Accompanying Dr. Marshall will be either John Flatt, principal of the high school, or Clyde Kootenai, chairman of the local school board, which has sanctioned this program.

Members of all other PTA units in the city are invited to attend the study group meeting.

Aiken Named for Club Presidency

Buhl, Nov. 16.—New officers of the Buhl Kiwanis club are R. D. Aiken, president; Ed Manning, vice president; Dr. F. A. Kalluway, Jim Berry, Maurice Eckert, Frank Squires and Russ Thomas, directors.

Sadie Claus will visit Buhl children at the city park at 2 p. m. Dec. 11, according to word received by the Chamber of Commerce.

Mrs. Oen Boatman and her niece, Mrs. Clarice Engleman, Twin Falls, have returned from California where they attended services for Mrs. Boatman's son, Pfc. Simon W. Brewer, who was killed April 2, 1945, in Germany. Burial was made in Golden Gate cemetery, San Francisco. Mrs. Ella Bartlett returned from California with them to visit relatives in Buhl.

Many new volumes, both fiction and non-fiction, have been added to the Buhl library, according to Mrs. Martina Yeiter, librarian.

Mr. and Mrs. Bob Allison are leaving this week to make their home in Rosalia, Wash. They have been honored guests at farewell parties.

Apple Production Drops for Idaho

BOISE, Nov. 16 (AP)—Idaho apple production this year has been estimated at 1,384,000 bushels by the U. S. department of agriculture. The 1947 crop totaled 2,075,000 bushels.

Pear production for the state this year is estimated at 61,000 bushels compared with 70,000 bushels in 1947.

U. S. Mission In China Isn't Going to Quit

SHANGHAI, Nov. 16 (AP)—An official spokesman for the joint United States military advisory group in China denied reports today it was planning to fold up by easy stages and maintain only a skeleton setup in China.

"There are no plans for the evacuation of the group, other than those routine plans normally maintained by any military organization to be put into effect if a major change of status becomes necessary," the spokesman said.

Unofficial sources said earlier that the Chinese government, protesting against the mounting cost of maintaining the setup, unofficially informed the group that the money might better be spent for guns and bullets.

Theoretically the Chinese government is paying the cost. Actually the government's obligations have been little more than a bookkeeping transaction, as far as could be learned.

Good Use for Public Lands Is Panel Aim

By WILLIAM E. LOWELL
WASHINGTON, Nov. 16 (AP) — If the senate committee on interior and insular affairs—the old public lands committee—should need a slogan, it might be something like this:
"Use the natural resources to stimulate western industry."
That's a sort of paraphrase of the view Sen. Joseph C. O'Mahoney, the probable new chairman, expressed to a reporter.
O'Mahoney for years has been an active figure on this committee—regarded as of primary importance because it deals with legislation affecting the vast public lands.

Headed Sub-Committee
Though he has never been chairman, the Wyoming Democrat has headed sub-committees that have established national policies in this field.
Among these was the natural resources sub-committee of 1941 which focused attention on possible contributions of the west toward war needs. This provided a strong stimulus to industrial development of the area.

Another of his sub-committees regarded the oil royalty law to bring about what is regarded as a widespread and successful search for additional oil.
Development Necessary
"Development of the west," he said, "is a major problem which will encourage competitive enterprise and avoid monopolistic control is absolutely essential, not only in the interest of the west but in the interest of the whole country."

"New opportunities, I firmly believe, can be discovered throughout the public land states. Water and power are the raw materials out of which this opportunity can be forged."
"Population statistics show that the west is still growing. Hundreds of thousands of people who were drawn there by the war have remained."

Have Qualities
"They have qualities which make for success, provided the raw materials are not placed under lock and key."

O'Mahoney was reluctant to talk yet about how the committee will be organized and what sort of program it will follow.
He said he would prefer to wait until it has been determined how large the membership will be and who gets the assignments.

He will have three hold-over Democrats: Murray, Mont.; Dorney, Calif.; and McFarland, Ariz. It is expected that the majority membership will be eight, making four places to be filled.

Washington Cub Scouts Get Pins; Report Activities

Cub scout pack No. 3 sponsored by the Washington PTA held its November meeting in the school auditorium when Cubmaster C. M. Conway appointed R. E. Davis as organizational representative.

The following boys of Mrs. Lione Denz den received their boy scout pins: Adrian Dean, David Weaver, Bill Brodeen, Mike Clement, Danny Davis, David Judd, Mac Soden and Teddy Crane.

The boys reported on their recent activities which included a Halloween party, a visit to the fire station, and work on their achievements.

Den 3 presented a short skit, and received the following awards: Gordon Gray, service star and gold and silver arrow to the bear; Gary Kellard, service star and assistant denner stripe; Gordon Burgess, lion badge with gold and silver arrows; Bill Scott, gold and silver arrow to lion; Eddie Mansfield, denner stripes; Leroy Farrar, service star and assistant denner stripe; and Jim Douglas, gold arrow to lion. This den was also awarded the pack banner for having the most parents present.

Installation Is Set By Grange Group

New officers of the Twin Falls county Pomona Grange will be installed at a Pler Grange meeting in January. Officers were elected Saturday at an all-day session conducted at the Knoll Grange hall.

A special invitation has been extended to all subordinate Granges to attend the dedication of the Oodding Grange hall at 9 p. m. Dec. 1. The session will feature special drill work, program and old-time dancing.

At the Pomona meeting Saturday, a violin solo was played by Mrs. Orace Durr accompanied by Mrs. Harvey Wood. The fed neck display was judged by Florence Schultz with prizes going to Mrs. Lyle Schuler, Mrs. H. W. Lehman and Mrs. L. S. Hadam. John DeMond gave a talk on the Idaho Grange and Tom Parks gave a report on the county fair.

Empire Adopting Excursion Plans To Boost Travel

Starting Wednesday, Empire Air Lines offers the "family excursion" air travel plan already in effect over other certificated airlines throughout the United States.
Purpose of the plan is to broaden the market for air transportation by appealing to the family budget. The plan is in effect each week from 12:01 a.m. Monday to midnight Friday. It provides that for each full fare ticket purchased by a member of a family, the rest of that family, including all children under 22 years of age, may travel at half fare rates.

Only limitation under the plan is that the family must start the trip together and members of the family

traveling on half fare also must complete the trip together. However, the full fare paying member of the family may complete his trip at any time.
Permission to adopt the plan was granted only last week by the civil aeronautics board.

Enlist in Army

Latest enlistments in the U. S. army include Verne Eugene Kennedy, son of Mr. and Mrs. Archie Kennedy, Twin Falls, and Edward B. Seward, son of Mr. and Mrs. Joseph B. Seward, Richfield.
Both men enlisted for three-year periods in the regular army, according to the army recruiting station here.

The hats of all the American presidents from Grant to Truman ranged in size from 7 1/2 to 7 3/4.

Woman's Nephew Founding "Town"

An Oklahoma Boys Town is being established by Elmer Shellenberger, Marietta, Okla., with earnings from his famous show horse, according to word received here by Shellenberger's aunt, Mrs. E. D. Snodgrass, 780 Maurice street.
Shellenberger and his horse, Dick, are banking a percentage of their receipts received at show performances in an "Oklahoma Boys Town" building fund.
Shellenberger's horse is insured

by Lloyds of London for \$2,500. A portion of that, \$1,000, will go to the Nebraska Boys Town.
Shellenberger and his two brothers, G. J. and David Shellenberger, recently appeared on a program at Madison Square garden.

City Bus Lines to Get New Vehicles

Better bus transportation for Twin Falls is in the offing, according to Ted Davis, city bus operator, who recently returned from Portland, Ore., after purchasing two new machines.
Davis described the new vehicles as being a new coast transit type bus with the motor in the rear.

It is believed that plants and animals evolved from common ancestors.

Timber Tract Sale Is Given OK by Board

BOISE, Nov. 10 (AP)—Edward Woolley, state land commissioner, said the state land board has approved for sale a tract of timber at the highest appraised price ever placed on state-owned timber.

Woolley said the application is for 3,720 acres of timber in Bonner county at an estimated value of \$325,658.

He said larger acreages of timber have been sold but that this is the highest appraised price ever placed on state timber.

The tract has Good Supply

The tract includes 31,000,000 board feet of white pine, 105,000 board feet of ponderosa, 12,700,000 board feet of Douglas fir and larch, 4,500,000 board feet of white fir and hemlock, 1,000,000 board feet of spruce and cedar and 31,310 cedar poles.

Woolley said another application for the sale of 3,720 acres of timber in Idaho county at an estimated cost of \$168,000 was approved.

This tract includes 15,500,000 board feet of yellow pine, 2,800,000 board feet of Douglas fir and 145,000 board feet of spruce.

Other Tracts Sold

Other smaller timber tracts approved for sale by the board included 200 acres of scattered timber in Boise county, 200 acres in Shoshone county and 80 acres in Valley county.

The state land board also approved the mineral lease of an 80-acre tract in Lemhi county. Gas and oil leases were approved for 3,233 acres in Chelan county, 637 acres in Power county, 640 acres in Oneida county and 253 acres in Teton county.

An easement for 23.7 acres was granted to the state fish and game department on Henry's lake.

State land approved for sale included a small tract in Ada county, 80 acres in Valley county, 240 acres in Jerome county, 160 acres in Teton county and 240 acres in Bonner county. An application for the sale of 80 acres in Garibou county was denied.

Jaycees to Honor National Leader At Dinner Today

BURLEY, Nov. 12 (AP)—Paul D. Bagwell, president of the United States Junior Chamber of Commerce, will be honored at a dinner at 8 p. m. today at the National Hotel in Burley, where he will make one of his regular visits in Idaho.

Themed of the program for the evening will be "Jaycees Build the Men, Leadership and Training." Rudy Rankin, Burley, will be master of ceremonies, and he will be introduced by Sherman Anderson, president of the Burley Jaycees.

At the dinner will be 50 Jaycees from Twin Falls, 20 from Idaho Falls, 20 from Jerome, and representatives from the Preston and Boise Jaycees.

Bagwell is head of the department of written and spoken English at Michigan State college and the executive board of the Speech Association of America. He is a member of the editorial board of the Quarterly Journal of Speech.

His second stop in Idaho will be at Coeur d'Alene.

T. F. Man Injured As Tire Explodes

SALT LAKE CITY, Nov. 10 (AP)—Chris Fearheller, 20, Twin Falls, sustained a crushed hand when a gasoline truck tire he was filling with air exploded yesterday.

Fearheller was taken to Salt Lake General hospital, where he was treated for multiple fractures and abrasions of the left hand and arm.

He was a driver for the Gordon Ray Motor company, Twin Falls, and Baker, Ore.

Witnesses said his hand was caught between dual wheels of the truck when one of the tires blew out. The entire wheel had to be removed before he could be freed.

Team Basis Plan Is Adopted Here For Jaycee Unit

The Junior Chamber of Commerce will operate on a team basis in the future, according to a report given by Steve James at the Jaycee directors' meeting Monday at DeWetter's store.

Under the new plan the chamber will be divided into teams which will be assigned to constructive projects. Each team will be designated by a color and will receive points for its work on projects throughout the year.

At the end of each year the points will be totaled and the team having the greatest number of points will be presented a plaque.

The plan was adopted on a motion by Jack Turckel, which was seconded by L. H. Haslam.

Agriculture Chief, 45 Others Receive FFA High Awards

KANSAS CITY, Nov. 10 (AP)—Pam youths from 40 states, Hawaii and Puerto Rico, more than 6,000 strong, attended opening sessions of the 20th annual Future Farmers of America convention.

Only Rhode Island was not represented. The convention is expected to attract 15,000 youths for one or more days before adjournment Thursday.

The honorary American Farmer degree was awarded last night to Secretary of Agriculture Charles F. Brannan and 45 other men, including Oscar E. Ewing, administrator of the federal security agency.

Two hundred and fourteen FFA members were awarded American Farmer degrees.

Ewing praised the organization at an opening session speech. He said about one-tenth of the nation's farmers have come up through the ranks of the Future Farmers of America.

State Canvassers To Check Ballots

BOISE, Nov. 10 (AP)—The state board of canvassers is expected to meet Monday to make the official tally of the Idaho general election vote, Elizabeth Williams, assistant secretary of state, said.

All but five of the 44 counties have mailed their completed returns, she said.

Idaho Public Employees Set Pension Plan

POCAHELLO, Nov. 10 (AP)—Legislation for a public employees' retirement law has been prepared by the Idaho Public Employees' Association for submission to the Idaho legislature.

W. J. Speil, association president, said the proposed retirement plan is a combined savings, insurance and retirement program for all employees and officers of all state agencies, counties, municipalities and other political subdivisions not now covered by a retirement law.

Rate Based on Age

He said average contributions would depend on a percentage of salary ranging from 3.14 per cent for a man 24 years old or younger, to 8.64 per cent for a woman 60 years or older. The maximum salary for deduction is \$3,000 per year.

Speil said the cost to the employing agency or department would probably not exceed 10 per cent of the total payroll.

The plan would be operated by the state insurance fund under regulations prescribed by a retirement board.

5,000 to 6,000 Eligible

He said there are from 5,000 to 6,000 state, county and city employees eligible for coverage.

The program would provide a \$1,000 lump sum payment and return of all contributions for death in line of duty, a disability allowance and a monthly retirement allowance beginning at age 65 or 60 if the employee has 20 years of service.

The retirement allowance would amount to not less than \$40 monthly after five years of service and no more than \$150 monthly.

Road Group Has Parley in Dubois

DUBOIS, Nov. 10 (AP)—Communities along the Idaho central highway sent representatives to a weekend meeting of the Yellowstone-Sun Valley Highway association.

Delegates considered means of pushing improvement of the route, leading from Mountain Home, where the road connects with U. S. highway 20, to Island Park, in Fremont county.

Brennan Favors Cavanagh's Plan For Nominations

WALLACE, Nov. 10 (AP)—Ed Brennan, Pocastello, state Democratic chairman, said here he believes both political parties will give "lots of consideration" to a proposal for a pre-primary convention system of nominating political candidates in Idaho.

Such a recommendation has been made by Dan J. Cavanagh, Twin Falls, Idaho Democratic national committeeman.

Brennan would not express his own views on the proposal but declared, "People are thinking seriously of it in both parties and I believe it will be given special consideration." He admitted, however, that legislators have been contacted on his present tour have made no plans for introducing legislation to accomplish this.

He said such a pre-primary convention would "put" candidates and "place more responsibility" on the political parties.

Brennan has visited Sandpoint, Priest River, Bonners Ferry and Coeur d'Alene. He is scheduled to attend a meeting in Weiser tonight.
