Idaho Stalls Vote

Everything went smoothly until Mrs. LaVera Swope, Idaho delegate, called for a poll of that state's delegation.

The balloting stalled while this poll was being taken.

Nobody asked a delegate-by-delegate count until Missouri's turn came.

Then Gov. Forrest Smith asked that the delegation be polled on a "yes-no" basis.

Everybody voted "yes" except delegate Harry B. Truman was voting through his stand-in, Thomas J. Gavin.

Gavin First

Gavin was the first delegate called. Plump, ruddy-faced, he spoke his piece briefly. He said that he was casting the vote for "his choice and my choice—Stevenson."

### Argument in Steel Dispute Spurs Return

of the amount for iron or carbon, which would be high—steel alloy will get a boost of \$5.05 a ton.

Some officials have predicted a sharp rise in steel prices because of the high steel in an all-time high.

Same as Agreed

The 35 per cent increase, ironically enough, was the price increase Charles E. Wilson, defense mobilization, had said the industry should get to compensate for higher wages.

Truman struck with Arnold and Wilson returned in bulk writing the agreement, you changed the plan, agreed upon.

No Terms Specified

No wage or price terms were announced at Thursday's White House session, but it was learned locally the agreement includes these details:

A wage boost of 16 cents an hour for 85,000 basic steel workers; a 15-cent cost-of-living allowance which allows present non-union employees to stay out and gives new employees a 15-cent escape period during their first month of employment; six paid holidays; three weeks vacation after 15 years' service; a wage reopener next June 30.

No wage concessions come to a total of just over 21 cents an hour for each worker. Pre-strike pay averaged slightly under \$2 an hour.

### Court Grants Overtime Pay On City Work

In a findings and judgment Friday, Probate Judge R. T. Hamilton entered judgment for \$446.40, plus \$124.00 costs and interests, in favor of the city.

City Attorney Robert M. W. Ballinger had not been advised of the court's decision, so had not decided what further action he would take.

The probate judge pointed out evidence showed entitlement to 200 hours of overtime pay. He ruled that the city manager, George R. Smith, and the city engineer, Vincent Young, had told Flynn to record earnings on cards used for that purpose.

The court also found that Flynn used his own truck for personal transportation to the city dump, two miles from the city, sanitary fill, seven miles from the city, and a pipeline project three miles from the city.

Judge Hamilton pointed out evidence that the city commissioner denied Flynn's claims. After hearing Flynn's case, he ruled that the city did not introduce any evidence, but filed a motion to dismiss the case.

The motion was denied. Judge Hamilton pointed out that the contract alleged by Flynn could be determined only by the evidence introduced at the hearing, and no evidence was introduced by the city.

Judge Hamilton said it was the duty of the city to pass an ordinance fixing salary and providing for payment of overtime. He said this was not done.

A Mrs. Adcock reported to city police Thursday that her son was bitten by a dog which pulled away from a woman who had it on a leash at the local market.

# Time Seen Necessary for U. S. To Recover From Steel Tieup Effects

**Idleness Toll Great**

WASHINGTON, July 25 (AP)—More than a year, according to government officials, will be required to get the American economy back to normal after the steel tieup.

Officials said that a year will be required to get the economy back to normal after the steel tieup. They said that the steel tieup has caused a loss of 400 million dollars in production and 100,000 man-hours of work.

# 3 Dixie States Stay in Spite of Pledge Denial

CHICAGO, July 25 (AP)—Three rebellious southern states won the right to vote in the Democratic convention today without signing a "loyalty" pledge at the risk of being the outcast of the party.

The action apparently ended the possibility of a convention held by anti-Truman southerners who had threatened to snuff out Democratic unity in the face of an anticipated Dixie invasion by CIO leaders.

The South Carolina, Virginia and Louisiana delegations were assured to full membership by vote of the convention after a blistering floor fight which raged into the early hours of the morning.

Liberals Defeated

Harmony-seeking middle-of-the-road Democrats lined up behind the three holdout states to have the liberal wing of the party a sound thrashing. Backers of Averell Harrison and Sen. Estes Kefauver, who charged that sponsors of the Stevenson draft "made a deal with the Dixiecrats."

Standing solidly on their refusal to sign even a watered-down "loyalty" pledge engineered by northern liberals, the three states were seen after giving verbal assurances that the party nominees to be named today would appear on the ballot in their states in November.

1948 Aftermath

The "loyalty" issue was raised at the convention as an aftermath of the steel strike during the strike will be reluctant to take government orders until their stocks can be built up again.

The effects of the strike will be felt on the political front for at least the next year. The question of the need for new legislation to take care of such disastrous labor disputes will be an important campaign issue and is sure to be fought out by the 83rd congress.

Increased inflation is bound to follow a settlement calling for increased prices and wages.

The mere statistical report of the creeping paralysis on industry and the country's economy caused by such a strike doesn't begin to evaluate the human suffering involved. Operations have to be put off, education delayed, and personal debts mount up.

Practically every industrial community in the U.S. will be suffering from the effects of the strike for at least the next 12 months.

# Fairfield Sets Sewer Ballot

FAIRFIELD, July 25 (AP)—Voters in Fairfield will go to the polls Aug. 25 to cast ballots on the \$45,000 bond issue for a sewer disposal system.

Two separate ballots will be used. One will cover \$20,000 for the collection bonds, on which only property owners can vote. The other will be on \$25,000 sewer revenue bonds on which persons living in homes may vote.

The village board, at a special meeting last week, passed an ordinance authorizing action to be taken toward the construction of a municipal sewerage system. Action has been held up on the bond issue until the actual assessed value of real estate and personal property of the village had been established.

# Poisoned Wheat Seized by U. S.

WASHINGTON, July 25 (AP)—Seizure recently of 35 carloads—3,500,000 pounds of wheat contaminated with a poisonous mercury compound was reported Thursday by the food and drug administration (FDA).

The seizure was made in June and July in Duluth, Minneapolis, and St. Cloud, Minn., and Seattle, Wash., the FDA announced.

It said the wheat had been treated for use as seed and was later mixed with untreated wheat and shipped for food purposes after weather conditions prevented farmers from planting as much as planned.

The chemical compound gave the treated wheat a pink color. The FDA said wheat is inspected in freight cars, and therefore any lots containing the poison could be readily detected before being used in making either human or animal food products.

### WHAT TAXES, WHAT DEPT. WHAT UTPIA!

They and tax, spend and spend, elect and elect.

They're still using the same old formula, Truman and all his political henchmen.

After 20 years of spending this country into near bankruptcy, increasing taxes to a point that's almost prohibitive and fanning an inflationary spiral that threatens to engulf us, the Democrats are still depending on the American people's gullibility.

So long as they can make it all look like prosperity, they're convinced it's a cinch to keep themselves in power.

With his usual political timing, President Truman has launched a drive "to get rigid, high farm price supports set up on a permanent basis." And the Democratic platform drafters in turn have taken great pains to have this plank inserted in their party's platform.

So we'll be hearing a lot about party, price supports and all that between now and the November election.

Of course, there'll be no mention of the increased taxes necessary to finance this ambitious program. The Democrats are now launching "to gain themselves" votes, and they're quite right in assuming that many farmers will not concern themselves with taxes and all such things anyway, "so long as they are getting theirs."

So it's the same old game, those handouts coming from what seems to be the master inexhaustible treasury. The Democrats are the strategists in Washington will go on trying to make the recipients believe that "someone else" is bearing the burden to provide them with all their government benefits.

It remains to be seen, this coming November, if as many Americans are still under the hypnotic spell which makes them imagine this is Utopia—a land in which debts mean nothing, where prosperity goes on forever, and all is sweetness and light.

### GO'S NEW CHAIRMAN

Naming of Arthur E. Summerfield of Michigan as GOP national chairman has recalled his important role in past GOP internal warfare.

He was an ardent supporter of the late Sen. Arthur Vandenberg of Michigan for the Presidency in 1948. Summerfield was violently anti-Dewey, and he and Tom Coleman of Wisconsin held out against the New York governor's nomination until the last dog died.

In 1952, of course, Coleman was Taft's floor manager while Mr. Summerfield, holding out as unpledged until the convention, finally gave his support to General Eisenhower. Now Arthur Summerfield is trying hard to get Coleman to join forces with him to help direct the campaign for Eisenhower.

And Herbert Brownell is being allowed to resign from Ike's campaign staff because he can't work with Summerfield.

After Rep. Hugh Scott of Pennsylvania was forced to resign as Republican national chairman and George Cabellson of New Jersey was named to head the GOP, Arthur Summerfield and Tom Coleman led the opposition to Cabellson.

Their candidate as his successor was Axel J. Beck, national committeeman from South Dakota. But they lost in the fight to get him elected.

At the San Francisco meeting of the national committee early this year, after Cabellson's connection with an RFG loan had been investigated, Cabellson demanded a vote of confidence.

Arthur Summerfield advised Cabellson against this move. When the chairman insisted on the vote, however, and it was taken, Summerfield went on record against Cabellson.

Mr. Cabellson is continuing as national committeeman from New Jersey, however, in spite of Summerfield's election to the chairmanship as his successor.

### NOMINEE NIXON

Selection of young Sen. Richard M. Nixon of California as Republican vice-presidential nominee is now being built up as an extremely smart bit of political strategy. The theory behind it is that Senator Nixon personifies a clean-cut version of McCarthyism.

By taking Senator Nixon as his running mate, General Eisenhower has in effect given to the Communist influences out of the federal government.

But he wants this done without so much of the smear, the unproved charges and the exaggerated statements that characterized so much of Wisconsin Rep. Joe McCarthy's campaign.

Nixon, of course gives credit for having "broken" the Alger Hiss case in 1947.

After Whitaker Chambers had made his charges before the House un-American activities committee, Alger Hiss took the stand. Hiss then gave such a convincing denial of the charges against him that he almost convinced the committee on the spot that he was innocent.

Nixon was one of two others who were convinced. As a lawyer, Nixon thought he detected many statements in the Hiss testimony in which Hiss—also a lawyer—had carefully avoided perjuring himself.

Nixon insisted on further hearings. The result was to convict Hiss of perjury.

## TUCKER'S NATIONAL WHIRLIGIG

CHICAGO—The Eisenhower-Nixon ticket's principal plan and hope of November victory depends on several factors.

Democrats preparing to depart from this convention city are praying that "Ike" will sturble and rely on his own strength and the political machine of the east, mainly on Governor Dewey, New York and his staff against Truman, and the political machine of the west.

Eisenhower and Nixon must campaign against Truman and Dewey on an aggressive program of "new dealism," which no GOP combination has dared to do in recent years under the "White House" leadership.

"Ike" must get rid of the ball-and-chain "New Deal" and download the party's neck and spine to the new crop leadership.

CRUCIAL—The GOP, at the Democratic convention, have named their strongest ticket in the country. If they can win this election, and if they suffer a fifth successive defeat on Nov. 4, the Republicans must win well up into the "crusade" as crucial as his landing on Normandy beaches eight years ago.

But there is a strong element of Republican skepticism in the territory in the politically important Mississippi valley, Illinois, Ohio, Indiana, etc., and in Warren-Kennedy's far western region. Senator Taft, who has framed and voted their conservative views on Capitol Hill for many years, however, being convinced that he will vote for Eisenhower under certain conditions.

Who he recalls to their demands may determine whether Eisenhower will be the next President of the United States.

HATED—The people in the middle west—stragglers on the subway, as well as the politicians—hate Tom Dewey. They regard him as the architect of political defeat. To them Dewey is a man of disaster. Dewey lost to Truman in 1948 and 1944. Dewey lost 10 normally Republican states to Truman, and deep in the heart of Dewey's territory in the Midwest, he is hated as a man of disaster. The people out here "like Ike." But they don't like his Dewey. Admittedly, Dewey did not lose to Wendell Willkie in 1940 and Dewey in 1944 and 1948.

Amazing—Eisenhower finds a way to tell of these eastern politicians and financiers, he is a gone goner.

AMAZING—In view of Dewey's great executive ability as governor of New York, it is amazing that he is the man who has been elected in American politics. He probably ranks with such disliked political characters as Henry Clay, John Calhoun, and Andrew Jackson.

In the opinion of Midwest political authorities he must throw Dewey to the wolves, or lose about 100, Midwest electoral votes.

TREATMENT—California's two great political leaders, Dewey and Eisenhower, are both happy over their treatment by Eisenhower at Chicago.

After he was nominated, he was given a list of "wishes" and "demands." He picked Senator Nixon because he was the least vulnerable to attack.

JEOPARDIZED—But the important and anti-Eisenhower factor is that he did not consult Warren or Knowland before deciding on young Nixon. Earl Warren, who has been named as Eisenhower's running mate, had behaved so ineptly in his World War II relations with Roosevelt, Churchill and Stalin, we might have lost the war.

Idaho voters will face an entirely new type ballot in the August 12 primary election this year. The last legislature provided that each ballot will contain names of candidates of both parties—with a perforation between the party lists.

Voters will choose the party they wish, mark that ballot for deposit in one ballot box and place the unmarked in another ballot box. Thus no voter in the primary will have to designate his choice of party to the election judges only, by tearing the ballot down without having had any say in the matter. He will be prevented from voting on both tickets.

Voters for many years have not had to declare their choice of party and get that party's ballot. But in three years there has been intense feeling spilled because the citizens marked on both parties in the primary election.

It is being assumed that the primary election is only a nominating election—nomination of Democratic candidates by Democrats and nomination of Republican candidates by Republicans. Therefore the perforated ballot.

Later, in the November general election, after the August primary has narrowed down the choice to one party only, the voter can exercise his final discrimination.

We do not know that we thoroughly agree with the perforated ballot or with any primary ballot that divides the voter to exercise his choice of party. It is necessary that this nation have two strong parties, at the least. And such primary voting allows certain amount of shillygally in that Democrats may choose to vote the Republican ticket and Republicans the Democrat ticket, to nominate the weaker candidates of both parties. On the other hand, it tends to divide the shillygally largely to the benefit of the parties themselves which was the keeping of lists of political preferences and using those lists to unfair advantage. It has occurred that political employers and even employers at various times have been unfairly coerced to vote the party's preference.

But whether or not the newer system is right or wrong, it will work all right if used rightly. The best candidate for each position must be chosen by each party. Poor candidates do neither party any good. Right now after after government regardless of party. Idaho County Journal.

## POT SHOTS

AIR-COOL—The police get complaints of "pot" from personal ventilators, but perhaps anything can happen in hot weather.

It seems an insignificant woman plotted the police station to complain that some "pot" in the neighborhood was running around in nothing but his underwear. The didn't object too much to that, but she didn't think it necessary that the police should be hanging out of their windows.

The police investigated the situation, raised a hub with the personal ventilating system. The woman concerned said he'd keep the end of his nose in the air.

POINT OF VIEW

Dear Pot Shot:

Couldn't you use your influence to have the T-N change the wording on the two sentences used often in its columns? Here is an example: "He pleaded guilty of reckless driving." It should read, "He pleaded guilty to a charge of reckless driving." Or "He pleaded guilty to reckless driving."

Another phrase often used is "She is a sister to John Smith." Why not, "She is a sister of John Smith's." Smoother sounding: E. X. Schoolman (Buhl)

P. S. note: Pardon us, but we always thought you pleaded guilty to a charge but of the specification. What would be wrong with "She is John Smith's sister." Shorter and smoother than either of the others. Thanks, teacher!

## HOW THINGS APPEAR FROM PEGLER'S ANGLE

CHICAGO—The Democrats finally got bored with themselves after the convention and decided to make a harmonious restraint and blew a number of gaskets which sent old Allen Barkley and his staff to the Jinks.

Barkeley, the not unhappy butt of a crop of lead columns in humor having to do with his age, took himself out of the contest for the Democratic nomination with a flourish. He was the only one to do so.

The CIO finally decided against the old Rogers deal on the ground that, at 74, he was too far along in life to be a candidate for the cause of protected taxpayer, sabotage and homicide.

This was a tender subject with the CIO, a socialist conspiracy trying to take over the Democratic party. He said Barkley's only job was to strengthen the party by revealing the true nature of ADA which had been widely exposed in these and other pastors throughout the last few years which never any word of agreement, to see nothing of any cooperation from any of these gossips.

And, perhaps too late, for the young man had shown flashes of the genius of the greatest father of them all, Russia, who had been leading a swipe at Franklin Roosevelt, Jr., whose speech had wowed them Monday night.

Young Roosevelt, an only son, bank on the old man's splendid contempt for popular intelligence and honor, was elected to congress from a district in which he did not live on the private yacht of Dave Dubinsky, Liberal party, a department of the Garment Workers' union.

He defeated the regular Democratic nominee, a Jewish magistrate

## Achievement Held by

CHICAGO, July 2.—The Democratic party has been held by its own convention during its stay in Europe.

It was now, without the slightest embarrassment and relying on his old man's estimate of people, Junior held a meeting with those who might refuse to support the candidate of this convention, and thus by invitation read Senator Russell out of the party.

Russell returned faintly to Roosevelt as one "who came into public life by the back door of the American Labor party," which was incorrect, for Dubinsky broke with the ALP years ago in an ideological split, and unimportant because nobody knew he meant Juney.

It was not a happy convalescence. Although they had just about settled on Adlai Stevenson, a political quack who had just about ruled him out of consideration in the south.

Retired had tried to crum through the Illinois legislature hills to force opponents to hire persons whom they did not trust of whose presence would cause fights among the help, and he proved to have been an able worker in the ADA-socialist movement for years.

The illusion that Stevenson was a little to the right of Truman was shattered by old facts and as his name rose in the swells of sound it was more and more certain that he was only very little to the right of Browder.

Having openly challenged ADA at last, Russell had done more than he knew, for this thing is now dominant in the Truman-communist sector and very influential in Eisenhower's socialist-Republican party. Politics are yeasting in both parties now and a third party is not unthinkable although there are at present no firm plans.

### Civil Rights Planks Skip FEPC Term

CHICAGO, July 25 (AP)—Both Democratic and Republican national conventions, in writing civil rights planks, avoided the issue of the Federal Employment Practices Commission (FEPC).

The issue probably would have caused walkouts of delegates from both conventions.

Advocates of federal civil rights legislation long have sought the creation of a FEPC to investigate and compel employers to give equal treatment to all races and sexes in the hiring and firing of workers.

Walter White, executive secretary of the National Association for the Advancement of Colored People, hailed the plank as a "signal victory for the forces of liberalism in the party."

But he conceded that the plank would have been happier had the wording been more specific.

Dixieland leaders, while agreeing to the plank, were more guarded. It was stronger than that of 1948, accepted it because it did not specifically pledge an FEPC with powers of compulsion.

### Acc Declares Super MIG Is Used by Reds

WASHINGTON, July 25 (AP)—The committee here has a super MIG in action in Korea, America's top ace said Thursday.

Col. Francis C. Gabreski, who returned recently from Korea, said United Nations pilots have encountered an improved version of Russia's standard jet fighter.

Not New Design

"It's not an entirely new design, and the difference isn't apparent to the eye—but you can tell when you come across one," Gabreski said in an interview in Air Force magazine.

"It has better performance, seems sturdier and more maneuverable, holds together better."

More Powerful

"And it has a better rate of climb than the original MIG, I probably had a more powerful engine than the 33-year-old, Pennsylvania-born plane has a record of 31 German planes shot down in World War II and 44 in Korea."

The half-MIG is one he only shared with another pilot.

The magazine said Gabreski currently is assigned to the flying safety command at Norton air force base, San Bernardino, Calif.

### Three Appeal Cases Set for District Court

BURLEY, July 25—District Judge Kates F. Love has fixed the dates for three appeal cases and two civil cases pending in the district court.

The first case to come before the jury is the trial of William E. Richards in charged with failure to yield right-of-way which resulted in a collision. The case comes before the district court on appeal from a conviction in probate court Dec. 1, 1951. Richards was fined \$25 and \$10.35 costs. T. T. Love represents the defendant.

**Civil Case**

The first civil case will be tried Aug. 13. Dyer Sampson, Burley, doing business under the name of Sampson Motor company, is suing Ernie Moncur, Jr., Heyburn. He claims Moncur is in default on a promissory note dated March 24, 1950, in the amount of \$124.95. The plaintiff also is attempting to collect interest in the amount of \$20.35 plus attorneys fees.

The complaint originally was filed in probate court Jan. 21, 1951. Following the filing of a cross-complaint by Moncur, through his attorney, S. T. Love, in probate court on April 13, 1951, claiming cross-defendant owes him \$728.92, Judge Henry W. Tucker ordered the action transferred to district court. Sampson is represented by Nelson and Nielson.

**Date is Set**

The next case, set for Aug. 15, is that of William E. Duff and Charles W. Short, partners, doing business under the firm name of Western Sales Advertising company, suing C. M. Degler, doing business as the Y-Ton. The case is an appeal from the probate court following a jury trial Feb. 5. The jury found for plaintiffs in the sum of \$189.46.

In the complaint filed in probate court Oct. 31, 1951, the plaintiffs claim the defendant was in default of payments in the sum of \$380.50, plus \$4.00 interest. The plaintiffs are represented by Herman E. Bedke, while Andrew F. James, Gooding, and Klopfier and Church, Burley, are attorneys for defendant.

### City to Begin Building Pool

BURLEY, July 25—William Foster, city attorney, has been instructed by the Burley city council to draw up a contract between the city and Boone Pyle, Heyburn contractor, to build the city swimming pool this year.

Pyle, meeting with the council, said present specifications are satisfactory and sufficient material is on hand to begin work on the pool. Construction of bath houses is expected to be started later.

J. M. Holland, owner of the Y-Dell dance hall in Burley, requested the city to extend the city limits to include his property east of Burley. His property is 300 feet wide and 100 feet deep. Holland said he is converting the dance hall into a night club. The mayor was referred to the Burley Chamber of Commerce for his opinion.

Floyd Drago of the Knu-Gas company again requested that electric service be extended to his property on East Main street. Charles Burns, U. S. highway 30 division, said the cost to make the extension would be \$1,200.

The city also entered into a contract with the state department of highways in a cooperative program to solicit Main street and Overland avenue.

### Patrolman Hired For Local Force

Francis E. Ashcraft will join the city police department Aug. 1, Police Chief Howard Gillette announced Friday.

### Work Begins

### Issue Is Clarified In School Voting

JEROME, July 25—So there will be no misunderstanding in the school election today in the Russell Lane school district, Mrs. Sam Eakin, county superintendent of schools, said in order for the school to be continued, 90 per cent of the parents voting must favor such a continuation.

Last week the patrons in the Greenwood district voting in the school by a vote of 96 to 49. Both the Russell Lane and Greenwood schools were to have been closed under a consolidation with Eden and Hazelton districts. The vote in both the Greenwood and Russell Lane district will have no effect on consolidation but will determine if classes are to be continued in both schools, Mrs. Eakin said.

Under the plans of consolidation, the county superintendent continued, students attending the Russell Lane school would be transported to Hazelton.
