

## Wind Sweeps One Area as Rain Another

(From Page One)  
all repair work was finished until Friday.

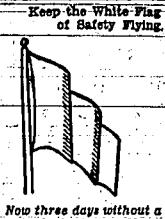

Strong Shoshone's twisted Thursday night 1.7 inches of water fell on the city. An additional 17 inch fell Friday morning.

The wind blew down trees, destroyed sheds and lifted tumbleweeds 1,000 feet in the air. The roof on the porch at William Casper's home was torn off by the wind like flying saucers soaring through the air. It landed in a pasture and did no damage.

A new chicken coop was lifted from the ground at Casper's place long enough to let the chickens escape and then was set down two feet away. A sawhorse sitting on the porch was blown over and the roof of the coop.

The telephone company reported the high wind knocked out 11 lines. The power company said the company reported some trouble. Everything was pretty much back to normal Friday morning despite the continued fall of rain.

Holiday Inn had thunderstorms ushered in the bad weather during the afternoon. The shower was followed by high winds that topped

Now three days without a traffic death in our Magic Valley.

## Summer Band Studies Slated

Classes under the city summer recreation hand program have been scheduled. Ernest Crager, city parks and recreation director, reported Friday.

No charge will be made for the band-instruction. Crager emphasized:

**SIXTEEN CLASSES** will be offered for band students and one and two week music camp sessions for band members.

All sessions will be conducted in the bandroom of the high school.

Students with one year's experience in band will be admitted Saturday and Wednesday, two-year students at 1:30 p.m. on Tuesday and Thursday and high school band students at 7:30 p.m. on Monday and Wednesday.

For more information contact Fred Miller. Both cars were damaged slightly, Cox said.

A cow received a few fracture

when it was struck by a truck.

Harold A. Wagaman, 22, route 1,

was driving a 1946 International truck driven

by Mr. H. C. Cross, 30, Highland

avenue. The other vehicle a Ford sedan, driven by Fred Miller.

Both cars were damaged slightly, Cox said.

A cow received a few fracture

when it was struck by a truck.

A 1946 International truck driven by Mrs. E. L. Baldwin was struck Thursday evening when it was struck by a truck backed up in front of the Twiss Feed and Ice company.

The driver of the truck was Mr. Foster, Sugar City.

Last year only 48 of an inch

were recorded in the Twin Falls area.

## TUCKER'S NATIONAL WHIRLIGIG

**WASHINGTON**—In his very first speech on the public platform of the national convention of the Democratic party, Chairman Leonard W. Hall has run into interpreted difficulties. His early work so soon after becoming the party's spokesman is accounted for by the fact that the opposition Republicans have already come to their own conclusions about next year's judgment of his record.

The GOP must reckon it knows best facing the voters in order to preserve its hold on the government. It must defend itself, it must defend the existing Democrats in order to gain a firmer grip on the upper chamber, which must rally foreign agreement to underpin its position.

So far, the men like McCarthy, Bridges, Ferguson, etc.—has given more embarrassment to the White House in the form of "leaks."

Reputation, however, is not too bright. Four men on their side may have trouble. They are Senators Styles, Bridges, New Hampshire; Leverett Saltonstall, Massachusetts; Robert C. Hendrickson, New York; and Senator Paul Douglas.

On the other hand, the only Democrats who appear to be vulnerable are Paul H. Douglas, Illinois, and Hubert H. Humphrey, Minnesota. The other opposition members up to the present occupy safe-pipelinist appointments.

The man like McCarthy, Bridges,

Ferguson, etc.—has given more embarrassment to the White House in the form of "leaks."

Reputation, however, is not too bright. Four men on their side may have trouble. They are Senators Styles, Bridges, New Hampshire; Leverett Saltonstall, Massachusetts; Robert C. Hendrickson, New York; and Senator Paul Douglas.

On the other hand, the only Democrats who appear to be vulnerable are Paul H. Douglas, Illinois, and Hubert H. Humphrey, Minnesota. The other opposition members up to the present occupy safe-pipelinist appointments.

Out of every 100 wounded soldiers who reach air stations behind the lines in Korea, 98 are saved. This remarkable record, unequalled in any other war, is a great tribute to the care given by our army medical service today. But the overriding reason for their success is the availability of whole human blood.

The authorities say there is absolutely no substitute for whole blood therapy in treatment of wounded men.

For another thing, the program, established now within the office of defense mobilization, at the instigation of President Eisenhower, is trying to create a blood reserve big enough to see the nation through any possible disaster at home.

Officials estimate that if just one of our major cities were atom-bombed, 120,000 units of whole blood or its derivatives would be needed in the first 72 hours. Multiply that figure by the dozens of large cities in America and you get some notion of the scope of this plan.

Actually ahead of this on the priority scale, however, is the allocation of whole blood and derivatives for immediate needs at home, not only big disasters but automobile accidents, surgery, childbirth and various illnesses.

Only recently, scientists have learned that gamma globulin, a blood derivative, effective in modifying the dread pox virus that frequently follows polio. In the polio seasons to come, we can expect for this new safeguard will be tremendous.

Even if the war in Korea should end next week, the need for blood for civilian use, and for the disaster reserve, will continue.

You can give your blood once every three months without ill effects. Maybe you feel you've been gunned to hard for money by the charities. But this is different. Nothing you can do will give you deeper satisfaction at having contributed importantly to the health and safety of your fellow American.

### PUBLIC LANDS FOE

Laurence F. Lee, past president of the U.S. Chamber of Commerce, has been one of the leading advocates of returning U.S. public lands to private ownership. His theme has been that administration of the U.S. national forest should be freed from bureaucratic control.

Since Mr. Lee is a North Carolinian and head of the Occidental Insurance company of that state, there has always been considerable puzzlement as to why he should be such a champion of the western livestock growers who want less federal control over grazing rights on public lands.

Hugh B. Woodward, president of the New Mexico Game Protective association, shed some light on this riddle in Washington recently, during a speech before the North American Wildlife conference.

Mr. Lee is a stockholder, director and vice-president of the Fernandez company, a New Mexico corporation, which is one of the larger livestock growers of sheep and cattle in the southwest," said Mr. Woodward. "The Fernandez company operates not only on patented lands but upon forest lands and other public lands."

"He is the brother of the president of the Fernandez company, who for 23 years has been president of the New Mexico Wool Growers' association. During those years he has earned the reputation of being the most outspoken critic and implacable foe of the U.S. forest service among all western livestock men."

### BACKSTOP AGAINST LOSS

The air force won't suffer a complete loss of all research data from the explosion of the experimental Bell X-2 rocket-powered plane which fell into Lake Ontario during a test flight. The plane exploded, while being launched from a B-50 "mother ship." Two Bell test pilots, Jim Ziegler and Frank Welko, were reported missing.

The air force has at least one other X-2 with which experimental flights can be continued. This is in accordance with regular practice in ordering two or three aircraft for each test model, for protection against loss or damage as in this case.

Not much information has been put out about the X-2, but it is presumably an improvement on the Bell X-1 in which test pilots hope to reach Mach .61 which doubled the speed of the X-1, 1,300 miles an hour.

Whether the X-2 has the X-2 is a tactical secret. Both are experimental planes with turbine fuel pumps using liquid oxygen, alcohol and water for their rocket-power. The X-2 has stainless steel wings and tail with a K-Monel metal body to withstand the air friction heat developed at supersonic speeds.

We still think the easiest way to improve a vegetable dinner is to add a nice juicy steak.

In the last 15 years, farm production has increased 13 per cent a year. Population has increased 13 per cent a year.

Food production has gone up faster than mouths to feed. That's the farm problem in a nutshell.

Why, then, are farmers well off as they are?

They're doing better than ever and eating better than 15 years ago.

Second point is that we've been shipping food abroad in great quantities, during the war and since.

Agriculture, with 10 per cent of the national income has 30 per cent of the total exports of the nation.

Farmer job is to keep folks eating well at home, produce a pig, or take a big cut-in-income.

Wallace's Farm.

## Solon Adds to Blasts Against AP Reporters

WASHINGTON, May 29—Sen. George M. Morse, Idaho, told the Senate Thursday Associated Press reporters now are "persons non grata" with him.

I do not trust their intellectual honesty. I do not trust their journalistic ethics, and I think the Associated Press has understood that language," Morse said.

He made the statement as a follow-up to a floor speech Wednesday in which he criticized the AP generally. —AP Reporter G. Milton Kelly specifically.

"Braver" Morse

He said Thursday Morse came on the Senate floor Wednesday night after the Associated Press reporter had been in an insulting and brazen manner said, "I understand I have had the honor of being called a liar by you."

Morse said he approached Morse to ask for an explanation of the senator's remarks about his story and intended to be neither insulted nor annoyed. "I believe I was neither," Morse said.

Based on Story

He had written a story Tuesday saying Morse was "shouting" made a speech at the state capital for the posts of two key Senate committees he lost after quitting the Republican party in the election campaign last fall.

Morse called the story a "lie," saying that while he did not agree with the result of the Senate decision "there was no anger about it."

## Cave to Be Site

### Of Degree Work

GOODING, May 29—An IOOF degree team from Crescent City, Calif., will exemplify the second degree at the annual IOOF meeting here Saturday, June 1, at the Hotel Gooding at 8:15 p.m.—July 11. Plans for the event were made at a meeting of the directors of the Jericho Dead Horse Cave, a local IOOF chapter, and Brown's noble grand of the Hagerman Lodge. Brown is a former resident of Crescent City.

R. F. Grubbs, Wyo., deputy supreme grand master, has indicated an intention to attend the meeting and Percy V. Jobson, Port Arthur, Okla., chapter director, was also present.

Women attending the event will be entertained by the Cave Women,

Miss Stevens, Mrs. C. W. Stevens, Mrs. C. C. Young, Mrs. Clara Henry, Gooding, is secretary; Directors of the cave association; E. L. Silson, J. W. Henry and R. P. Bryan.

## DeWayne George Paid Final Honor

KENDON, May 29—Graveside services for DeWayne Carl George were conducted Friday morning at Sunn-Memorial park, Twin Falls, by Rev. Olson, bishop of the Holiness Church.

The invocation was given by Ed-  
win Crockett, Hamer, and remarks were made by Albert Harrison, Ru-  
bin, and Rev. W. C. Johnson, who  
placed flowers on the grave were given by Paul Ohl-  
berry, Eden.

Pallbearers were UEN Chief G. W. Goss, G. W. Goss, Jr., George Eugene, Crt.; L. W. Green, Ar-  
chorage, Alaska; George Walker, Jackson, Wyo.; Elbert Hamilton, also Anchorage, and James Henry, Kin-  
brey.

## Permit Asked to Construct Station

Construction of a service station costing \$20,000 is proposed in a building permit application filed at the city planning office of Phillips Petroleum company, 78 Main.

The 26-by-47-foot service station is being constructed of cinder block and will be completed in about three months. Station will include two islands with three gaso-  
line pumps on each.

Contractor on the station is the Own State Construction company.

LEAVES RICHFIELD RICHFIELD, May 29—New Paull left Thursday for her home in Thayer, Mo., after spending the school year with her aunt, Mrs. Ed Schuler. Her cousin, George Ray Schuler, accompanied her to Mis-  
souri.

## Teen-Age Drivers Sign up for Jaycee "Roadeo"

Robert Driveline, right, Jaycees teen-age "roadeo" committee chair-  
man, explains the contest to Carolyn Randall and Darrell Sweet.

## Seventy Boys and Girls Sign to Test Driving Ability in Jaycees "Roadeo"

More than 70 boys and girls have signed to compete in the Twin Falls Junior Chamber of Commerce teen-age "roadeo" June 7 on the Star Ranch and competition begins at 10 a.m. Robert Driveline, chairman, "roadeo" committee chairman, said, "Twin Falls Jaycees plan to de-

volve the local "roadeo" into one of the club's largest projects and are asking the support of the entire community to make the program a success."

Local safety organizations have endorsed the event as another step forward in highway safety.

Entry blanks for the teen-age roadeo may be obtained at the Twin Falls Chamber of Commerce, 100 Main, the chamber and county sheriff's office. They also are available at the C. G. Anderson company store, Detweller Bros., Inc., and at offices of all insurance agencies.

Those drivers who will not reach their 20th birthday on or before Aug. 16, 1953, who live in the Twin Falls school district and are not falls residents are eligible to enter.

Detweller emphasizes the Jaycees are not interested in age but that all driving will be at speeds under 30 miles an hour. The test will be conducted over a specially designed course.

Contestants will take a written examination the day prior to the contest. Time and place of the examinations will be announced later.

Six winners will be chosen from the Twin Falls contest—three boys and three girls. Original intentions were to send the winners to Caldwell, expense paid, to compete in the state contest. However, through the support of the Twin

Falls Jaycees, the winners will be sent to the state contest, expense paid.

In the hot sale 450 head were sold. Those in the 190 to 225-pound division brought from \$4.00 to \$20.00 apiece. The 225 to 250 pounders brought \$12.50, two cars at later price; best whiteface fed helpers, \$18.00 per carload; head weaned fed cows, \$19.00; best Holstein steers, \$17.00; best Holstein heifers, \$16.00; calves, \$10.00 to \$11.00; feeders, \$10.00 to \$12.50; cullers, \$9.00 down; steer calves, \$10.00 to \$11.00; cutters, \$10.00 to \$12.50; cannery, \$9.00 down; steer calves, \$10.00 to \$11.00; and thin, light bull calves, \$10.00 to \$11.00.
