Budge Thinks Hopes Dim for Adjournment by End of July

WASHINGTON, June 29 (Special)—Adjournment of congress by the July 31 deadline set by GOP leaders appears dim to Rep. Homer Budge, R., Ida.

"It doesn't appear to me congress will adjourn until well along into August," he says. "When we do leave I think it would be a good thing to stay out of town until the first of next year."

Members of this new administration should have some free time to work in their agencies, because when congress is in session so much of their time is taken up with appearances before congressional committees.

Budge, a member of the appropriations committee which takes up huge chunks of the working hours of the top men downtown, isn't criticizing this practice. He thinks it's a fine one. But he does

Chancellor Might Succeed Churchill As Prime Minister

The cabinet met here today, with Butler presiding, presumably to discuss the 78-year-old prime minister's condition. Some routine matters also were slated for discussion.

Churchill, under doctor's orders to rest for at least a month, was relaxing at Chartwell, his country home in the green hills of Kent county. He is not bedridden, and has been reported joking and cheerful, but at his age any difficulty is a matter of concern.

Trout Label Bill Will Get Hearing

WASHINGTON, June 29 (Special)—The house interstate and foreign commerce committee has set a hearing for July 7 on a bill to require labeling of foreign trout as to country of origin.

Rep. Homer Budge, R., Ida., plans to testify and predilect favorable comments on the bill, introduced by Sen. Henry C. Dworshak, R., Ida., already has won senate approval. It appears certain to finish the complete committee to White House circuit at this season and become law.

A recent senate report strongly supported the measure. It would amend the federal food and drug act to require labeling of all imported fish and notices by restaurants serving same.

Care of Your Children

By ANGELO PATRI.

Most parents want their children to be well-mannered. Manners are their passport to pleasant places that they will want to visit. Manners and factors would like them to enjoy. Manners open the doors to other households and mean a great deal in the success and happiness of youngsters in days ahead.

Good manners, or correct behavior, are easily taught and, for the most part, quickly learned when they are understood and parents persistently practice them. Children should be taught good manners when young, for then they will notice the conduct of adults, even though they might not understand the why and wherefore. Unfortunately, this teaching is often overlooked in too many American homes because people appear to be in too much of a hurry. Hence, instruction in "if you please," "thank you," "may I," "would you mind"—the small change of good manners—are not taught youngsters early enough. Hence, no one is to blame, it does not take time for a child to offer an older person a chair, or to hold open a door, or to sit silently. It is often made to seem much too important.

Perhaps good manners may call for a more leisurely pace. However, no time is lost if a big brother rises to help his sister into a chair at the table. How much time does a mother save by rushing through breakfast and hustling the youngsters off to school? A few minutes earlier at breakfast and there would be no need for this

Care of Your Children

By ANGELO PATRI.

Most parents want their children to be well-mannered. Manners are their passport to pleasant places that they will want to visit. Manners and factors would like them to enjoy. Manners open the doors to other households and mean a great deal in the success and happiness of youngsters in days ahead.

Good manners, or correct behavior, are easily taught and, for the most part, quickly learned when they are understood and parents persistently practice them. Children should be taught good manners when young, for then they will notice the conduct of adults, even though they might not understand the why and wherefore. Unfortunately, this teaching is often overlooked in too many American homes because people appear to be in too much of a hurry. Hence, instruction in "if you please," "thank you," "may I," "would you mind"—the small change of good manners—are not taught youngsters early enough. Hence, no one is to blame, it does not take time for a child to offer an older person a chair, or to hold open a door, or to sit silently. It is often made to seem much too important.

Perhaps good manners may call for a more leisurely pace. However, no time is lost if a big brother rises to help his sister into a chair at the table. How much time does a mother save by rushing through breakfast and hustling the youngsters off to school? A few minutes earlier at breakfast and there would be no need for this

Snead Might Rest Aching Left Hand
CLEVELAND, June 29 (AP)—Sam Snead's aching left hand may force some surgical attention this summer or fall, the big better of golf-dom says.

"I'm not planning on any surgery on my hand right now," he told a reporter. "It may wait until after the Tam O'Shanter in Chicago (July 30-Aug. 2), but I'll probably wait until after I get back in October from the Ryder cup matches.

"If I wait that long," he added, "I'll be home where my own doctors can take care of me."

The White Sulphur Springs, W. Va., golfer, recently re-injured his hand while golfing, where there had been an old break in a small bone.

Yankee, Braves Fans Share Weeping Wall

By The Associated Press
Moaning Milwaukee fans were crying in their beers Monday over the collapse of their beloved Braves but their gloom was shared by millions of New Yorkers who still cannot understand what has happened to their once high and mighty Yankees.

Seven straight defeats for the world champion Yankees, the same outfit that had rolled up 18 consecutive victories earlier this month to apparently make a shambles of the American league race. A week ago the Yankees led by 11 1/2 games, the Yankees' seemingly insurmountable margin over the Indians has been whittled to six games. A loss to Detroit followed by three losses to Chicago and three to Cleveland did that.

Milwaukee's plight is even worse than the Yankees. The Braves, losing their seventh in a row yesterday, are now 11 1/2 games out of first place to the Dodgers. Just seven days ago, they were entering a comfortable three-game bulge. But a loss to New York followed by three beatings by Pittsburgh and three more by Brooklyn, left them out of the National league lead.

The two league races tightened considerably following Sunday's results. The rambling White Sox swalloped Boston 15-4 to climb within 1 1/2 games of the Yankees. Their third place White Sox now have won seven straight and 14 of their last 16.

Philadelphia's Phillies halted St. Louis' march with an 11-inning 4-3 triumph over the Cardinals to close within four games of the league-leading Dodgers. The Cardinals remained in third place, one game behind the Braves and two in back of Brooklyn.

New York's fifth place Giants thumped the Chicago Cubs 12-2 to close within one game of the Yankees. The Yankees' 11th victory in 13 games. Although still in fifth place, the resurging Giants are only 7 1/2 games off the pack.

Cincinnati's improved Redlegs shelled the Pittsburgh Pirates 7-1 to close within one game of the league leaders. Philadelphia's Athletics nipped the Browns 2-1 after the Browns whipped the opener 4-1. Detroit whipped Washington 5-1 after the Senators had copped the first game 2-1.

Weather Cuts Expected Big Crop of Fruit

WASHINGTON, June 29 (Special) An expected bigger fruit crop has been cut by unfavorable weather so that 1953 prices should be "about the same as 1952," the USDA Bureau of Agricultural Economics said today in a special fruit market report.

Another factor favorable to growers is that canned and frozen stocks are much smaller than a year earlier.

Specific Fruits Noted
For specific crops, the report noted that early peaches now going to market "look larger than last year but prices for other peaches later in summer may be about the same as in 1952."

Larger apple supplies appear certain and slightly more late pears, apricots, plums and sour cherries are forecast. Smaller pear, grape and strawberry production is expected.

Good in Northwest
Sweet cherries should total about 100,000 tons, less than one per cent above 1952. "Substantial increase in Oregon and Washington means that offset heavy reductions in California, Utah and Idaho," the report noted.

Fears, at an estimated 22.5 million bushels, will be up only four per cent from last year, but Bartlett's are predicted to be two per cent under at 18.2 million bushels because of a reduction in California prospects.

Pears Look Better
Because of eight per cent lower demand, demand for pears should create a stronger market this summer with some advance over the 1952 bushel average for the 1952 crop.

Larger apple production is expected, though the crop is believed to be below average. The first official forecast will be issued July 10.

A 25 per cent smaller strawberry crop in the "mid-spring" states caused by bad weather probably will cut the overall 1953 total to 11.3 million crates—five per cent below 1952.

Pay more? What for?

Fifty Years Forward on the American Road

You don't have to pay costly-car prices for costly-car comforts. Ford brings you everything [and we mean everything] you've ever wanted in a car, at a price that's well within your reach! And according to recent surveys, a Ford returns more of its original cost when sold than any other car at any price!

Here are a few of the "Worth More" advantages you'll find in the '53 Ford:

1. A V-8 engine—powerful and smooth! Ford's famous high-compression V-8 is a leader in quiet, flexible, economical performance. Ford, remember, has built more V-8's than all other makers combined—over 13 million!
2. America's most economical Six engine! If it's a Six you want, Ford offers you the high-compression, low-friction Mileage Maker . . . the engine which, with optional Overdrive, won over all other cars, regardless of size or weight, in this year's Mobilgas Economy Run! And it's yours for the same kind of money that buys less modern sixes in most cars.
3. America's finest and most versatile, automatic drive! Fordomatic Drive is the "automatic" which gives you both the get-up-and-go

- of automatic gears and the smoothness of a fluid torque converter. If you choose Fordomatic, you will find that it makes all your driving easier . . . more relaxing.
4. Automatic gas savings! Ford's Automatic Power Pilot (on Six and V-8) meters just the right amount of gas, times ignition precisely, burns fuel evenly and completely. You get full high-compression performance from every drop of gas—regular or premium.
5. America's newest and finest power steering! Ford's Master-Guide power steering gives you new ease, stability and safety in guiding your car on smooth roads or rough. Your car gains in sure-footed roadability and you expend less effort in driving—and parking.

6. Largest choice of models in the low-price field! Ford alone gives you a choice of 18 different models . . . a SIX or V-8 . . . Fordomatic, Conventional or Overdrive . . . the widest variety of body, color and upholstery combinations. You can practically "design" your own Ford!
7. A body that's the style-setter! Only Ford in its field gives you the advantages of a hull-tight Crestmark Body . . . the trend-maker in design and beauty. Ford's body is the longest and Ford's trunk, the largest. You enjoy more usable space.
8. New driving conveniences! Ford's first in its field with such "Worth More" features as easier-acting, suspended pedals that eliminate floor holes . . . foam rubber cushions on front and rear seats in all models . . . and convenient Center-Fill Fueling.

9. An automatically controlled suspension! When you Test Drive this Ford, you'll see how the wide front track (low-price field) takes all the bumps and gives you a more level ride. "balanced suspension," shock absorber action and compression bumpers work front and alone is reduced.
10. It's worth more when you sell! An impartial survey has proved that Ford's return on investment is the highest of their original other cars in America. It adds to Ford's reputation as "Worth More" car. But don't take our word for it—Test Drive this Ford. We predict you'll be sold in seconds! It was true even truer this year. Test Drive it, but you can't buy better.
