Board for County Moves to Prevent Spread of Rabies

Twin Falls county commissioners approved Monday a recommendation by Dr. M. R. Kellogg, medical director of the Twin Falls county health department, that dogs in Twin Falls county east of Hansen be immunized against rabies. The recommendation does not cover cats. It does not cover any other parts of the county.

Last week city commissioners put Twin Falls under virtual quarantine and all of Milwaukie county, and parts of Cassia county are under state quarantine. The state quarantine in Cassia county extends to the Twin Falls county line.

Canada Acts On U. S. Bid For Inquiry

OTTAWA, Oct. 23 (AP)—The Canadian cabinet may decide today whether to grant a second inquiry into the crash of a U. S. jetliner over the St. Lawrence river. Senate investigators to interview former Soviet cipher clerk Yuliyevich.

However, no indication was given when the cabinet's reply would be made. Washington officials would expect a reply by the end of the week.

The U. S. request was turned over to the cabinet after the external affairs minister had brought a sharp charge from Gouzenko that the Canadian government was "trying to talk to the press" about the case.

Mr. Pearson said Gouzenko, a Canadian citizen, was "free to talk to the press" but that the government would not discuss the case.

Mr. Pearson said the government would not discuss the case until it had received a reply from the U. S. government.

Indians Win Court Ruling Over Horses

SAINT LAKE CITY, Nov. 23 (AP)—Navaho Indians from southeastern Utah have won a \$100,000 judgment from the bureau of land management to compensate them for 150 horses they claimed were taken from them.

U. S. District Judge Willis W. Ritter also issued an order, requiring the bureau and its employees to "stop any more detentions of this sort."

Willi Conthane, "The injunction," Ritter said, "is to continue while the court holds further inquiry."

He said he did not believe the testimony of BLM agents who said they didn't know who owned the horses rounded up in a concerted effort to rid the range of stray stock. The federal agency said the horses were encroaching on land for which grazing permits had been issued to livestock men in the area.

Solon Urges More Speed In Gas Case

WASHINGTON, Nov. 23.—Representative Westland, R. Wash., has urged the power commission to speed up the current hearings on applications to deliver the first natural gas to the Pacific northwest.

The hearings, involving applications by four companies, began recently 16 months ago but were recently indicated to be a source of gain to supply the pipeline they sought to build.

The present hearings were convened last January, Westland said in a statement released by his office here. "It seems that all the pertinent facts should have been brought out in opposition to the commission's decision."

"Because of the increasing importance to industrial expansion and increased payrolls of natural gas in the northwest, it is unthinkable that continued delay and dilatory tactics be allowed to block its availability."

Not Partial

Westland emphasized he does not care which company is granted permission to serve the northwest area, now the only section of the state without natural gas.

"My point is that so long as we are deprived of the benefits of natural gas we are at a disadvantage and a considerable handicap in competing with other areas for new industries," he said. "The best section is called for and should be forthcoming in the immediate future."

The four companies now seeking the license are Pacific Northwest Gas Co., which has a franchise in the area; Trans-Northwest Gas company and Northwest Natural Gas company.

Poolhall Operator Named in Slaying

FREZZON, Nov. 23.—William M. Baker, 45-year-old poolhall operator, has been named by a coroner's jury as the man who fired the shot which killed a customer Thursday night.

The jury acted Saturday after Deputy Sheriff Ira Thompson testified Baker admitted shooting Reed N. Dahl, 39, Clarkston, Utah.

Thompson told the jury Baker had told him Dahl and some others had been drinking at the bar but did not object when requested to furnish their drinks and leave. Thompson said he found Dahl lying on the floor, his forehead standing nearby, his forehead bruised and smeared with blood.

Charges have been filed against Baker. He has been held in jail since the shooting.

Jap Trade Needs Cited by Senator

WASHINGTON, Nov. 23.—Senator Mansfield, D. Mont., says Japan must have expanded trade or more U. S. military aid if it is to remain neutral.

In an interview Sunday, Mansfield said two billion dollars of the five billion spent annually by the United States for the Korean war went to Japan. With the trade, he said, these dollars have been reduced.

"Unless Japan is heavily subsidized by this country for many years to come," Mansfield said, "it must find avenues of trade to strengthen the economy and recreate its military forces."

Festival Postponed

SHOEHORNE, Nov. 23.—The 4th Scout harvest festival, set for Saturday, was called off because of the measles epidemic in the city.

Complex, International Problem Seen In Big Power Fight at Niagara Falls

By DON BRANNON
Special Correspondent

NIAGARA FALLS, N. Y., Nov. 23.—A complex power fight in the west has usually been a matter of local government, but in this instance of hydro-electricity the battle is federal, state and provincial.

Further complicating the situation is the fact that Canada is involved. The Americans are getting a three-year head start on their side which will enable them to use their share of additional water and power.

Niagara Mohawk Power company, one of the five New York utilities, is already being asked to press forward this area, presently operates all the generating facilities at 1950 made available for power.

The American and Canadian falls, the falls form a huge natural dam, so the water needs only to be diverted by canal or tunnel from above and fed through generators to produce almost one million kilowatts in the U. S. side at present. With another diversion and a projected reservoir, the output could be doubled.

The company has had the plans ready for years and points out that whether or who the fight, these plans would be used. Congress has to make the decision and one of the big names of New York politics is the arena.

Gov. Thomas E. Dewey has staked a claim on behalf of state utility and Rep. Franklin D. Roosevelt, Jr., possibly New York's next governor, has backed a bill for federal control. In the last session, the state put the company out in front of an overwhelming 120-20 vote in the legislature.

Then Dewey put on a demonstration of the weight he packs in the state administration by appearing before the senate public works committee on behalf of the state utility. In the last session, the state put the company out in front of an overwhelming 120-20 vote in the legislature.

China's Gain Costly Under Rule of Reds

HONG KONG, Nov. 21 (AP)—After four years under communist rule, China has made gains. But the price has been death and drastic loss of freedom.

What they claim always is within the realm of possibility. After all, not even the old despots who once ruled China possessed so many political prisoners into so much man-killing work as the Reds have done since 1949.

From evidence available, these appear to be the biggest red imperfections in China:

The army. It is the best China ever had. It is also a weapon. Even after losses sustained in the Korean war are figured, communist China's field armies are believed to include well over two million men. Add the tremendous red militia and you have a possible red Chinese army of 12 million.

Projects set up. Flood control. The Reds claim they have set up great reclamation projects to hold back flood waters. China still has floods but they have been small, ones in the last two years.

None was caused by the big rivers running loose over thousands of miles of countryside as in the old days.

Much of the credit for national conservation measures probably is due a former nationalist leader, Gen. Yu Tzu-Yi, who went over to the Reds in 1949. He had organized engineers and hydraulic experts. The Reds supplied millions of pick and shovel laborers.

Railroads rebuilt. Railroads. The Reds are known to have rebuilt oil rail lines and laid some where they had none. They have much waste. New markets have been opened for farmers and for factory products.

These are absorbed in higher taxes to pay for the war in Korea. All in all, the Reds claim to have reconstructed 3,000 miles of rail lines.

Outside these three fields, red claims of improvement in health, agriculture, even among neutral observers.

Angus Breeders Choose Officials. BOISE, Nov. 21 (AP)—Ed Parsons, 45-year-old Fayette cattle rancher and produce dealer, was elected president of the Idaho Angus Breeders association Sunday night. He was formerly a resident.

Leo Marsters, Meridian, was elected vice president. The group held its annual banquet and discussed the possibility of holding a show and sale next spring.

Association Elects. IDAHO FALLS, Nov. 21 (AP)—Roy Smith, Lewiston, was elected president of the Idaho State Physical Education and Recreation association as the group concluded its two-day meeting here Saturday.

League Meets. HAVERMAN, Nov. 21—The Junior League of the Reorganized LDS church met Thursday afternoon at the church. A recreational meeting was directed by Alice Davis. Refreshments were served by Gailie Gigners and Dorothy Condit. There will be no meeting this Thursday.

World Food Gains Fail to Help Needy, Panel Report Declares

ROME, Nov. 21 (AP)—The food and agriculture organization (FAO) says falling prices and mounting stocks of unpaid food, particularly in North America, as a threat to widen the gap between the world's few well fed and the many hungry.

On the eve of a three-week conference of the 66-nation U. N. organization, FAO disclosed its latest surveys show a trend back to "the dilemma of the 30s, with excess food co-existing with hunger."

The experts urged that "a more selective approach to agricultural expansion" quickly replace the present policy of mere overall increasing of food output.

Sessions of the seventh world conference of FAO began here today. The delegates will take up for study one of the most optimistic sets of figures yet published by FAO. They show that for the first time since the war, total world food production has slightly passed the world's increase in population.

increase did not come from parts of the world where hunger is the greatest, nor in population to rapid increases in population in some sections.

The already well-fed produced more than they could eat, but it was not distributed to meet needs elsewhere.

Forecasts through 1956-57 indicate the gradual increase will continue at a reduced rate.

But FAO says: "The past year's gains are not distributed to meet the needs of the hungry."

The forecasts are not based on FAO figures, but on national program estimates in many cases unlikely to be achieved.

The figures show that: "Two years ago the nations were given the goal of increasing food production by a minimum of one to two per cent more than the increase in population."

Population increase has averaged 1.2 per cent annually. Food production increase in 1952-53 over 1948-49 has been raised to 2.1 per cent a year.

But "progress was unbalanced between commodities and between regions," the FAO said.

"This means the production in-

Postmen Will Ask Funds This Week To Combat Crippling Muscle Disease

NEW YORK, Nov. 21 (AP)—The postman will ring twice the day after Thanksgiving.

The second call is an extra round at night, won't bring you mail. Instead, he will ask contributions for research to solve the mystery of muscular dystrophy—MD—the crippling cripple.

What is MD, that the hope of a cure will send 100,000 tired carriers all over the nation out to aid the search?

It's a disease affecting an estimated 200,000 Americans now all doomed to a life of suffering and strength waste away unless the cause of some remedy is found.

The cause is a mystery. And it's a mystery disease to many people who rarely see, or know what is happening to victims of MD.

Local Chief. Lois Givens, Twin Falls, heads the "litter-carriers" march for muscular dystrophy in Twin Falls.

pening to victims of MD. That call will make the first time postal employees have undertaken a fundraising activity on a national scale.

The nature of MD and some reasons for hopes of controlling it are outlined by Dr. Adele D. Milhorat, chairman of the medical board of the Muscular Dystrophy Association of America.

It is one of the major crippling diseases of childhood. Something happens to make muscles "waste away" and weaken.

It often starts subtly, and its early signs frequently are confused with awkwardness of growing years, with flat-foot or minor muscular troubles. Children may begin to fall or stumble frequently, be slow in movements, or find it difficult to move about easily.

Often the affected muscles become fat, legs, for example, may look strong because of fat. Actually the muscles are deteriorating, with the breakdown hidden by the fat creating fat.

The disease spreads to other muscles, causing more and more crippling. In the final stages, fat disappears and muscles become emaciated and wasted.

MD does not kill of itself. But the weakness makes patients easy prey to fatal infections of suffocation as breathing muscles become involved.

It's not contagious. No one can "catch" MD from another person. But many cases appear to be hereditary, cropping up repeatedly in the same family, striking several chil-

dren of the same family at one time.

In one family, three sisters in succession developed MD at about the same age. Dr. Milhorat said "two have died."

As many as six children in a single family have fallen victims to MD.

The disease occurs in several forms, with about half of all cases developing in children between the ages of 3 and 13. Few youngsters affected by this juvenile form of MD start between ages of 20 and 30.

On the hopeful side, Dr. Milhorat declared "thousands of MD patients are living because medical science can control many of the ailments which formerly killed weakened humans."

Antibiotics are a main weapon against respiratory disease. Iron lungs and other respirators help

carry victims through critical infections. So does surgery to give them temporary breathing aids.

The very nature of MD offers optimism for its control. The muscles, and not the brain, are the case of MD can be strengthened.

Now more and more researchers are taking up the challenge, looking for the cause, hunting for ways to halt the crippling progress, and if the cause remains hidden.

Autumn Service In Chapel Unites Valley Residents

Martha Whitley, daughter of Mr. and Mrs. Arch Whitley of Twin Falls, became the bride of Robert James, son of Mr. and Mrs. Loyd James, Kimbrey, in a ceremony performed Sunday afternoon in the chapel of the First Baptist church.

The Rev. Ray Simpson, during the marriage vows before a large bouquet of fall flowers and candles, of lighted tapers.

The bride's hair was styled in a white lace hood, and she wore a long, white dress and a jewelry necklace, and a skirt of her own white satin. A second Mrs. James held her shoulder length veil and she carried an orchid on a white ribbon.

Marriage Long was maid of honor and Mack Bolinger, brother-in-law of the bride, served as best man. The ceremony was officiated by James Moore, Jr.

Mr. and Mrs. Kimbrey played organ wedding music and also accompanied the soloist, Mrs. L. E. Plummer. The bride's father, Mr. Arch Whitley, chose a gray afternoon dress. The bridegroom's mother was also in a gray afternoon dress and his grandmother, Mrs. J. E. Halferty, Kimberly, selected a blue dress with orange and pink carnations.

At the reception which followed in the church parlor, Mrs. J. E. Plummer and Mrs. Charles Hart served. Gifts were arranged by Mrs. Bolinger and Mrs. Ray King. Mrs. Simpson was in charge of the guest book.

After a wedding trip to Oregon and Washington, Mr. and Mrs. James will make their home at 411 1/2 Sixth avenue east. For traveling, the bride chose a gray dress with black accessories, and an orchid corsage.

Mrs. James, a graduate of Twin Falls high school, is employed in the local office of Boy Cools of America. Her husband was graduated from Kimberly high school and is employed by Kyle Walle company.

Out-of-town guests at the wedding were Mr. and Mrs. Robert Pratt, Reaburg, brother-in-law of the bride; Mr. and Mrs. Joe Moore and daughter, Janet, and Mr. and Mrs. George Brennan, Jr., Jerome; Mr. and Mrs. D. D. Mastie, Frank Whit and Mr. and Mrs. Kenneth McFarland, Reaburg; Mr. and Mrs. George Byrd and Mr. and Mrs. Ed Byrd, all Shoshone; Mr. and Mrs. James R. Tve, District; Mrs. Carl Hollinger, Kimberly; Mr. and Mrs. James Head and Mr. and Mrs. Ray King, Charliford; Mr. and Mrs. Charles Hart, and Mr. and Mrs. Long and Marlene Long.

Birthday Feted

CARY, Nov. 22 — Friends of Paul Kirkland met at his home Wednesday afternoon to help him celebrate his seventh birthday anniversary. The party was presided over by Kirkland, the honor guest's mother, Mrs. Ray Kirkland, served refreshments.

Care of Your Children

"Mothers, I'm invited to a party at Kathleen's home in about two weeks and I'll need a party for a 15-year-old daughter announced. 'We're all going formal. I also need a party for a 15-year-old daughter of the gang. I can go.'"

"Glad, you're too young for such affairs," the mother said. "I'm not at all sure I like your being out at night with those boys and girls. I don't know what your father will say."

"You tell him I can go and he won't say anything. I have just got to go."

Now Gladie did not belong with the older boys and girls. They tolerated her because her mother had a car and would drive them to games or a special spread. Gladie's home was also convenient for the use of the telephone, which some of them did not want to use in their own homes. Gladie was well aware why her girl was permitted in the older group.

"The mother likes to say 'Child and she likes when she has to deny the girl something."

Responsibility is a certain authority. Parents are responsible for their children, so should speak to the youngsters with authority when the occasion demands. Fathers and mothers must make up their mind and insist on obedience.

Children are dependent on parental authority, even though they may grumble at some decisions.

STUFFED APPLE PUDDING

All measurements are level. Sift flour before measuring. Cook 2 1/2 hours in Dutch oven.

6 large red apples
2 packages corn-holes until only a half-inch ring of apple remains. Chop apple pulp taken from apples and to add:
1/2 cup seedless raisins, chopped
1/2 cup finely grated raw carrot
1/2 cup soft butter, softened
3 tablespoons granulated sugar
2 tablespoons light molasses
1/2 cup sifted Sperry Drifted Snow "Home-Perfecto" Enriched Flour
1/2 teaspoon salt
1/2 teaspoon baking soda

Mix together thoroughly. Then sprinkle apple shells with salt. Fill centers of apples with pudding batter. Wrap each apple in aluminum foil or cooking parchment paper, sealing it on top on inside in steamer. Dutch oven, or heavy kettle with sufficient water to come a third way up apples. Keep water boiling steadily, cover tightly, and steam 40 minutes. Serve hot with double cream. 6 servings.

Panel Checks U.S. Workers For Agencies

WASHINGTON, Nov. 23 (AP)—Special loyalty checks will be made on all American citizens working for international organizations supported by the country.

An official spokesman disclosed the investigation is being conducted by the international organizations employs loyalty board, created last January by an executive order of former President Truman.

William Henry Taylor, an official of the international monetary fund and one-time treasury department associate of Harry Dexter White, is one of those being investigated, the spokesman said. Taylor opposed the current review checks everyone.

The board has power only to advise international organizations of its findings. The organizations themselves decide what course to follow thereafter.

Taylor is now assistant director of the monetary fund's middle east division.

Named in reports

A Feb. 1, 1948, FBI report paraphrased by Attorney General Brownell before the Senate subcommittee security committee last Tuesday identified Taylor as one of "those individuals who are being investigated" and was "anxious to have assigned" to the treasury department.

Taylor and Irving Friedman, another monetary fund employee mentioned in the FBI report, have been questioned by the security subcommittee. Subcommittee Counsel Robert Morris said at a news conference that the cases as far as we are concerned.

Gambling Charge Faced by Officials

PEEK, Nov. 23 (AP)—The mayor, the comptroller and another prominent citizen in Peck today are being tried on charges of playing and conducting a game of dice in a room at the Peck Hotel.

Officers from the state department of law enforcement arrested Mayor Owen Peck, Peck comptroller Lester Rasmussen and Marion Kay for yesterday afternoon during a raid on the Peck Hotel.

The club was conducting its annual "turkey shoot," in which a number of men ante a dollar each, shoot for high score and win turkey.

Those who don't go to the rifle range contribute dice to make the game.

The three men were arraigned in Peck today and held in jail on their own recognizance after the trial date was set.

New Red Move on Korea Peace Conference Expected in U. N.

TOKYO, Nov. 13 (AP)—Communist tactics for the past week have been to stall off any accomplishments at Panmunjom, single for popularity in Asia—and await the next red move at the United Nations general assembly convening Tuesday in New York.

And what probably lies ahead?

1. In the arrangement of a Korean peace conference—long discussions, punctuated by propaganda tirades, while the reds try to work Russia, India, Burma, Indonesia and Pakistan into the picture as "neutrals."

2. In the explanations to 22,000 Chinese and North Korean prisoners balking at a return to Communist—more of the stalemate existing since last Monday while the reds try to figure how to back out from a resounding defeat. They've been able to persuade only 70 of the 2,811 interviewed so far to return. And the deadline for these explanations to end is Dec. 23.

3. At the next U. N. general assembly session—probably a new effort to have the U. N. change its opposition to seeing Russia as a "neutral" at the Korean peace conference.

Most enlightening has been red maneuvers over a peace conference. On the surface, they've changed position three times. At first, they wanted neutrals to be full members with belligerents at a round table conference. They then backed out in the United-Nations.

Next Xi Bok Bok, North Korean diplomat, suggested at Panmunjom that the neutrals be seated as "observers" and use their "good offices" to smooth the negotiations. The U. N. side showed interest but asked for more details. Saturday the reds suggested that the neutrals "regulate" the debate of the conference.

U. S. Envoy Arthur Dean — a patient man who once said he'd give the reds three weeks to make the arrangements and now has gone through the fourth week—quickly rejected that move. He said that could allow Russia to play a starring role. The two sides wrangled for three hours, then recessed until Monday.

After Saturday's session, Dean told newsmen he accused the reds of marking time until the U. N. general assembly session Tuesday where he suspects a new communist move will be made to arrange a peace conference on red terms.

Meanwhile, the reds keep angling for popularity in Asia by insisting that not only Russia—classified as an "Asian neutral"—but also Burma, Indonesia, Pakistan and India attend the peace conference.

Saturday the Peiping red radio quoted a Tientsin newspaper editorial which said these points: The Korean war was a menace to peace in Asia; a peace settlement concerns more than the belligerents; and "Asian neutral nations" concerned have done much to bring about the Korean armistice.
