3 Nabbed for Ambush Shot At CIO Chief

DETROIT, Jan. 6 (AP)—Three persons were arrested today in connection with the ambush shooting of CIO President Walter P. Reuther, nearly six years ago and police said a fourth man was being sought.

The shooting occurred in the suburb of Dearborn, Mich., on May 3, 1946, when Reuther, then CIO president, was returning from a trip to the federal penitentiary at Terre Haute, Ind.

Reuther was shot by Santo Perrone, also known as "Santo" Perrone, also known as "Santo" Perrone, also known as "Santo" Perrone.

The warrant charged the four men with intent to commit murder, and conspiracy of assault with intent to commit murder in the April 20, 1946, shooting of Reuther, who then headed the CIO United Auto Workers union.

The warrant was signed by Judge John P. O'Hara, Wayne County Prosecutor Gerald K. O'Brien said the arrest of the four men was the result of a long investigation which began in the summer of 1951.

Reuther was sitting in the kitchen of his home in northwest Detroit the night of the shooting. A shotgun blast struck him on the floor and he was hit in the arm, leg and chest.

Reuther was arrested at his home and taken to the police station.

"Reuther was shot in the back of the head," O'Brien said.

Reuther's son-in-law, in 1951, Perrone, was convicted and described by the grand jury investigating committee as the "muscle man" in labor relations at Briggs Manufacturing Company, Detroit.

The committee charged that Reuther was given a scrap metal contract at Briggs, and that Perrone, upwards of \$100,000 a year in order to obtain the "services" of his son-in-law for the Briggs plant.

Briggs canceled the Reuther contract a month after the committee hearings.

Reuther was arrested by provincial police at Windsor, Ont., on a fugitive warrant. Police said the whereabouts of Perrone was not known.

Idaho Vote Is Postponed by Potato Group

IDAHO FALLS, Jan. 6 (AP)—Russians continued to be a "hot potato" Tuesday as the controversy between the Idaho Potato Producers Association and its own district 2 organization apparently resulted in the postponement of a vote on a statewide mail option poll on grading standards.

The Idaho Potato Producers Association, which is composed of Bonneville, Jefferson, Clark, Butte, Owyhee and Lemhi counties, reported they understood that plans for the statewide poll had been delayed at least temporarily.

They said, however, they would conduct a poll within their own district.

Directors of district 2 met Tuesday to discuss the matter.

The potato control committee of Idaho and Malheur counties, Oregon, already had invoked the emergency provisions of the Idaho potato grading organization, which calls for the 8-ounce minimum and for a 10-cent fine for U. S. 1 potatoes.

M. C. Kaplan, Shelby, association vice chairman, said he was told Monday to the effect that the state association is opposed to the idea of the district 2 poll, to give the new regulations a chance to work out.

Temperature Fall Chills Big Region

A cold air mass sent temperatures tumbling below the zero mark in Idaho, Montana, Wyoming, Utah, Nevada, and in the desert southwest to northern Illinois and Indiana today and tomorrow.

The cold air mass dropped the mercury to eight below zero at Grand Forks, N. D., and four below at Alexandria, Minn.

Cold weather was expected throughout the midwest, except in the lower Ohio valley, as the air mass moved southward. Wind gusts of up to 40 miles per hour were predicted in the Dakotas.

Light snow or sleet flurries blanketed much of the area from Michigan to the New England states but was expected to taper off later today.

Rebels Rooted in Indo-China Battle

HANOI, Indo-China, Jan. 6 (AP)—French troops led by paratroopers have routed a powerful force of Vietnamese communist rebels in a savage battle in central Laos, officials announced today.

Ground troops opened the attack on the rebels in the narrow valley of Laos where the rebels last month moved southward in two by driving to the Mekong river.

War planes then bombed the rebels and showered them with flaming napalm. As the rebels fled, they started to fall back, and commandos parachuted to their rear and sent them fleeing into the jungle.

The battle was the biggest since the rebel offensive opened in Laos before Christmas.

Report Made

SHOSHONE, Jan. 6 (AP)—There are 115,760 acre feet of water in the Shoshone reservoir, Robert W. Foster, secretary of the Big Wood Canal company, reported Monday following the monthly business meeting of the company.

This is a little less than was in the reservoir a year at this time, Foster said.

College Professor Tells of Communism at Luncheon

Communism is an arbitrary but perfect system of distribution," said Dr. J. J. Hodge, professor of history at Idaho State College, in a luncheon address to the Twin Falls chapter of the National Student Reliance Club.

Hodge outlined the political, philosophical and social aspects of communism in his talk, "What Every Woman Should Know About Communism." He said he doubted the possibility of a shooting war since Russia is having better luck with an economic war.

The guest discussed the economic differences between capitalism and pure socialism, stating that capitalism, as in production, and that

communism has "an arbitrary but perfect system of distribution." He also said that communism is not a system that can be changed, but that a compromise between communism and religion is impossible. Since the communists have built up a new religion on a basis of materialism.

Mrs. Lewis Clark, program chairman, introduced Dr. Hodge.

The program also included piano selections by Marjorie Maus.

Mrs. Emma Clouche, a pioneer resident of Twin Falls and founder and past president of the Twentieth Century Club, was a guest.

Mrs. Warren Larsen, membership chairman, introduced Mrs. Wayne Davis and Mrs. Billard Ewing as new members.

Mrs. Ivan Grand reported on the club's Christmas project of caring for four needy families. The project, sponsored by the General Federation of Women's Clubs, of the Twentieth Century Club, was a success.

Mrs. Edith Nelson, first vice president, announced the federation's next project will be water pollution and conservation.

Mrs. L. V. Hays, Mrs. John Graham, Mrs. T. C. Bacon, Mrs. M. O. Olson, Mrs. G. W. Wagner and Mrs. Ed Tolbert were in the receiving line.

Mrs. Leaven Strong, arts chairman, reported on the recent meeting of the drama and literature and fine arts departments will be held Jan. 12.

We, the Women

By RUTH MILLETT

An obviously distressed young man writes: "In a recent column you advised me that it would be nearly hard to replace the excellent kind of wife you went on to describe."

"To replace her isn't the problem. Could a man ever find such a wife as the first place? I seriously doubt it."

"Any man who is really looking for a good wife can find one; it is not a matter of luck, it is a matter of skill."

The reason so many men get stuck is that they are looking for a figure out before marriage just what kind of a woman they want to live with for the rest of their lives.

So they let themselves get hooked by a pretty face, or a lot of flattery, or by the pleasantest of all, a girl who is popular with a lot of men and is sure to be a matrimonial prize.

Then if they find themselves stuck with a wife, or a lady wife, or a glamor girl who loves everything about housework, or a discontented nag, they don't know what to do. They are like the poor specimens they picked out for themselves.

The world is full of intelligent, capable, stoic, and comely girls who have all the qualifications for becoming good wives, but are a little short on the knowledge that they are looking for a good wife.

These girls often get overlooked, and the able man who is looking for a wife is likely to use it for everything except its real purpose. It seems to him that it is just the thing for rubbing the dust off his shoes, or for wiping a chair. Therefore, when the teacher says, "Use your handkerchief on your nose," he is probably miffed.

A few paper handkerchiefs are more practical for a school child, who will give them to his mother on them for cleaning shoes, etc. After the tissues are used they can be thrown in the wastebasket.

Mothers would do well to remember to see that their youngsters have a good supply of paper handkerchiefs when they leave their homes. Older children don't need to be told to use the tissues, but with small try it is different, for they don't give much thought to their appearance. They will sniff and sniff until the teacher admonishes them to attend to their noses. Continued sniffing is not good for the nostrils and might lead to trouble.

The easy disposal of the tissue is in their favor. A cotton handkerchief can easily be the cause of infection, particularly for these little ones who, of course, don't understand the importance of cleanliness. If the cotton handkerchief is still in possession of a youngster, it is likely, as I have said, to be soiled.

Blue Birds Meet

Blue Bell Blue Birds accepted Connie Ochman as a new member at their meeting at the home of the leader, Mrs. Norman McIntosh. Group singing was featured and Jean Mathieson furnished the refreshments.

The group will meet next Monday with Mrs. McIntosh.

Boyle Looks Inside Pandora's Box; Finds Hope in New Year

By HAL BOYLE
NEW YORK, Jan. 9 (U.S. Time)—Time has turned the lid of another Pandora's box—the year 1954.
"Look as hard as you will, you still can't tell for sure all that lies waiting for you in the darkness inside. One thing is sure, hope is there—a great hope, the luminous possibility of more peaceful times.
A forecast of lower income taxes is somewhat offset by another forecast that many people won't make as much

money either. The effect of this on the silver population is still unclear. Some people get nervous worrying because they have so much money; others get them because they feel they don't have enough.
In some fields, of course, a man today is known by the ulcers he keeps. They are a form of income. The big problem for these men is whether it is better to take their worry pay in the form of one big ulcer or two small but active ones.
If this slight economic downturn now predicted does take place in 1954, it could have a number of side effects good for us as a people.
Prosperity that comes to a man too easily often makes him into a stuffed shirt, pompous, fat-headed and unappreciative. He takes the

finest things of life for granted, assumes them as a natural right or a tribute to his ability, even though in fact they merely flowed to him on a rising tide of national wealth and good times.
Poverty creates its fair share of snobs, too, but never in such numbers as prosperity that comes swiftly and with little real sweat. Scarcely makes a snob.
The American people are medically estimated to be carrying around new more than half a billion pounds of excess weight harmful to their health. A doctor might say that most of this fat is concentrated around the waist. A philosopher would say there is even more unnecessary fat between the ears, and it is this fat that should be burned up first. A fathead is always more dangerous to an individual and to a society than a plump midriff.
There is some truth to the criticism of many foreigners that pros-

perity has gone to our head and we have too little sympathy for the hardships of less wealthy lands. It is true, despite the fact we have freely given away more billions to other countries than any nation in history.
A forced tightening of our belt one notch in 1954 could do us some good as a people, spiritually as physically. No one who lived through the last depression could look forward with equanimity to a return of such hard times, but no such prospect appears in the picture for this year. We will go on buying our apples in the stores, and not from street corner peddlers.
But even a small increase in the unemployment rolls should remind us that the job we hold, though naturally far below our sterling merits, is after all a job—and a paying job.
The working man feels about his job during a recession like a com-

bat soldier does about his life in wartime—it never seems so important until it looks like he might lose it. And suddenly it is a dear thing of tremendous value.
If the average man finds he has a few less dollars to use around in 1954, he is likely to use them more wisely—and be more grateful for what he has.
That is the odd thing about gratitude. A thing taken for granted adds nothing to your happiness. But when you appreciate something as its true worth it gives a deeper meaning to your own existence.
