## And Growers Warned to Cut Output, Raise Quality

TELLO, April 6 (AP)—Idaho potato growers were warned yesterday to improve the quantity of their produce. Failure to do so will impair Idaho's position as the leading potato producing state of the nation, leaders of the industry said at a meeting of representatives of 11 state organizations with the Idaho potato industry committee. A joint statement issued at the end of an all-day session said the committee depends upon the quality of the Idaho potato crop.

### Board Chairman Breaks Ground for School

### 700 Attend as Ground Broken For New Eden-Hazelton School

EDEN, April 6—Some 700 parents and guests witnessed ground-breaking ceremonies Sunday for the \$350,000 Eden-Hazelton junior and senior high school to be located midway between the two communities.

Board of education members hoped the 14 classrooms for the expected 350 students would be ready by Sept. 1, with final completion of a library, gymnasium, cafeteria and large vocational agriculture building scheduled for Nov. 1.

Students from both towns now attend first the Hazelton junior high school and then the senior high school in Eden. The two buildings will be used as grade schools next fall.

Featured speaker of the ceremonies was State Sen. William Detweiler who said the legislature was strongly behind the state's trend toward better educational facilities.

### Alert Includes Evacuation of Business Zone

OLYMPIA, Wash., April 6 (U)—The nation's first hydrogen bomb-activated practice mass evacuation of people from a metropolitan area has been set for Spokane, Wash., on April 28.

Vice Adm. Daniel E. Barbey, Washington state director of civil defense, announced the inland city of 160,000 population will give the first test performance in a drill limited to approximately 30,000 of the city's inhabitants.

The evacuation will be made from the downtown business section. Plans worked out by John Lenhart, Spokane's civil defense director, call for dividing the area into north and south sectors.

Persons in the south sector will walk in a southerly direction when a signal is given at 9:35 a. m. (PST). Those on the other side of the line will proceed north. They will continue until another signal halts their march.

Buses then will pick up the walkers and return them to the business district. Under actual bomb-danger conditions, Barbey said, the buses would carry the people out into the rolling hills which surround the city.

The test will be on a voluntary basis and no effort will be made to compel compliance. Some businesses, such as banks and stores, will keep small staffs on hand during the practice because of the difficulty of actually closing completely.

## When Your Ship Comes In!

How often have you said you were going to do this or that "when my ship comes in?" In all seriousness there is usually a genuine hope concealed in such a remark, but unfortunately it also suggests an element of doubt. One thing for sure, you can't ever expect your ship to come in unless first you LAUNCH IT! The best assurance is to start it off with a sound, business-like banking connection. At your convenience, we would appreciate the opportunity to tell you about the many ways in which we can help to make your ship "come in." Such a discussion could well mark the beginning of a wonderful adventure.

### EISENHOWER'S PROGRAM

There are some 75 principal proposals listed in President Eisenhower's middle-of-the-road program. These are the recommendations which the President has made for new legislation in his various state of the union, budget, economic and special messages to congress.

They are grouped under the 14 main headings of national security, veterans' services, international affairs, social security, housing, education and research, farm measures, natural resources, transportation and communication, finance and industry, labor, general government, civil rights and federal civilian personnel.

If you break down some of the major items like the new tax program, the number of presidential proposals can be run up to 175 or even 5,075. There were, for instance, 25 specific tax proposals in the President's budget message.

One of the 25 called for general reform of the tax structure. The bill which the house ways and means committee finally brought out called for 3,300 changes in the tax law. So the numbers game is a little silly and the count of 75 is realistic.

The important thing about this listing is that as of April 1, the congress has completed action on only five of the President's proposals.

In all, congress has passed, and the President has signed, some 20 bills into law this year. But three-fourths of them were minor measures originating in congress. The five requested by the President can be checked off easily.

Extending the Korean war missing persons act to July 1, 1955.

Suspending until 1958 limitations on size of the armed forces.

Increasing the borrowing power of commodity credit corporation.

Ratification of the mutual security pact with Korea.

Revision and extension of excise tax rates expiring in April.

Even this last mentioned item was not passed according to the President's recommendation. For it will reduce government income by an estimated one billion dollars a year and cause a bigger deficit than had been planned for.

The President and his party leaders have intimated that the election of a Republican congress in 1954 depends on the enactment of a "middle-of-the-road" program that will be "good for all America." GOP publicity men have also suggested that campaign orators put more emphasis on the constructive achievements of the administration and less time on McCarthyism.

If this advice is any good, it will behoove the Republican leadership and its following in congress to get busy and produce. Otherwise, there may be nothing constructive to talk about.

Three months of this second-session of the 83rd congress have been frittered away with little accomplishment. If the congress lives up to its hope of adjourning in July—which now seems hardly possible—something will have to be done on the 94 per cent of the Eisenhower program as yet unenacted.

### SOMEBODY ALWAYS KNOWS

In optimistic moments in the spring a man can lean on his rake and figure the future of mankind is safe.

Though all the books in all the libraries burn in some giant conflagration, though every written word be chewed to nothingness by weevils, we shall go on as unwaveringly as the sun.

For no matter what knowledge is needed there are two great pools which can never be dipped dry. Whatever the question, there is either a neighbor or someone down at the shop who knows the answer.

Let the warm spring breezes caress the wrinkles from your brow as you rake-tean. Let the perils, internal and external, leach from your soul.

Need to sharpen a star drill? Must you discipline your child? Your car not running properly?

Open that inexhaustible encyclopedia. Your friends will draw diagrams on tablecloths, write phone numbers on match books. It is hard to shut them up.

Back to raking, fellow, all's right with the world.

### NAVY PINS HOPE ON VTO

The navy hopes its startling new verticle take-off planes—known as VTO's—will overcome one of the most serious handicaps of jet aircraft. This is the difficulty of getting large formations into the air. Jets are so fast, fly so high, and consume so much fuel that it takes considerable planning and expert flying to make a rendezvous after conventional take-off and before they fly on a big mission requiring massed airpower.

A number of VTO planes, however, can be launched from a limited area, like an aircraft carrier deck or a short runway. Also, the VTO's can hover over a particular spot. One plane or one formation can thus just hang in the air at a rendezvous point, waiting for the others to assemble.

## TUCKER'S NATIONAL WHIRLIGIG

**WASHINGTON.**—An intangible factor in today's relatively stable economic conditions is the confidence which the productive leaders of business and industry have in the Eisenhower administration. Not in 20 years have there been such accord, understanding and co-operation among the political, banking and industrial communities.

There is no trace of the panic, confusion and suspicion which prevailed in the winter of 1932-33, or in the even darker days of 1933-34. Then the nation's leaders lost their heads and dropped their problems on the doorstep of the White House and capitol hill. Consequently, the people placed their confidence in the "brains and trust" and their political associates.

**Ray Tucker.** Leading bankers, manufacturers and retailers have remarked on the healthier spirit and outlook at President Eisenhower's periodical "stag" dinners, which is his method of keeping in touch with representative figures on the national scene. They have promised continued cooperation in conferences with such old friends as Secretaries George M. Humphrey, Charles E. Wilson and Postmaster-General Arthur W. Summerfield.

**BUSINESSMEN CONSIDERATE OF "IKE"**—In a sense, as they admit rather ruefully, America's businessmen seek to retrieve the reputation which they and their predecessors lost in the 1920-1940 era. Unless they assume leadership and managerial responsibility, they recognize that the voters may lose trust in "Ike's" cabinet of "millionaires" and hand the government back to the politicians in 1956.

Specifically, they fear that a really serious depression, with 10,000,000 instead of 4,000,000 out of work, will produce another batch of deficits, radical reforms and paternal legislation.

Heavy industry, for instance, has scheduled a plant expansion almost equalling the 25 billion dollars to 30 billion dollars that was spent annually in postwar years. Home and office construction is holding up. Besides providing employment and purchasing power, this program reflects confidence in the future. They are not building simply to give the skyline a "new look."

**PEAK WAGES CONTINUE.**—Four great industries, which got the "doughhouse treatment" during the Roosevelt-Truman period, believe this addition to and improvement of their facilities—steel, public utilities, automobiles, chemicals. They attribute their willingness to increase their productive plant to a friendlier atmosphere and more conservative policies at Washington. And yet they do not ask abolition of basic social and economic legislation.

Business continues to pay peak wages while lowering prices for its goods, thereby reducing the inventory threat and burden. The cost of living appears to be leveling off and slightly downward. Retail sales have declined from 5 to 10 per cent, but not noticeably. Customers are buying heavily on credit, showing their confidence.

The stock market has enjoyed a prolonged rise, and with no evidence of the 1929-33 panic and speculation. Through Wall Street's new installment system and investment firms, people in the lower brackets are buying more common stocks than ever before. As the President's "stag" guests frequently note, it is a "most peculiar recession."

**GROCERY STORES COOPERATE.**—Grocery stores in several areas have installed Secretary-Ezra Taft Benson's "pilot city plan" of low-priced butters at their own initiative, selling it from 50 to 60 cents a pound. Benson intends to try this experiment in about 10 cities of from 15,000 to 30,000 population.

The results in these advance sales are described as "sensational," showing the customers have not lost their taste for butter if it is priced within their reach. Although losing from 15 to 20 cents on each pound, sale of other goods reached almost "Christmas rush" proportions.

If the public reacts similarly to Benson's bargains, including cheese and fluid milk, he may dispose of his 8 billion pounds of surplus. Lower prices, even though Uncle Sam suffers a heavy loss, may be the only practical, economic and political answer to the administration's farm problem.

## VIEWS OF OTHERS

### FOUR HORSEMEN

Writing at the mid-point of February about the nation's economic prospects and the predictions of depression, the New York Sunday News had this to say: "At the recent big Republican campaign-planning get-together in Washington, GOP National Chairman Leonard Hall got off a crack we thought was pretty good."

"Mr. Hall was paying his disrespects to four men: Paul H. Douglas, the Fair for Fair Deal senator from Illinois; Sen. Wayne Morse, the Oregon stuck whistle; Walter Reuther, the socialist president of the Congress of Industrial Organizations (CIO); and Adlai E. Stevenson, who carried the tattered Roosevelt-Truman banner to an inglorious defeat in the 1952 presidential election."

"This quartet," said Hall, "rides like the Four Horsemen of the Apocalypse, spreading gloom and doom across the land."

"Hall was referring, of course, to the fact that these four men keep warning that we're in a recession if not a depression—that we're on a greased chute to another 1929—and that President Eisenhower had better do something about it in a hurry."

"What they want him to do is to stop back to the New Deal, with phony made work, deficit financing, crazy increases in the national debt, and all the other Socialist-Nazi schemes that failed to lick the 1929-40 depression. It took World War II to accomplish that."

—Boise Statesman.

### ARMY TO TRY CPL. DICKENSON

The widely criticized plan of the army to court-martial Capt. Edward Dickinson, one of the few who returned from the Communists just in time to save himself from heaven only knows what, is to go forward after all. It was announced that Dickinson will be tried for informing on other U. S. prisoners and collaborating with the enemy in order to gain better treatment for himself.

We do not believe any question of bad faith by the army is involved. So far as we recall there never was any promise of immunity to Dickinson if he returned to us. Unless there was he returned subject to prosecution for any offense he may have committed.

The trial should bring out some interesting facts on how prisoners were treated by the Reds and the extent to which they put pressure on our men to embrace communism. The public will have only contempt for an American who became an enemy tool in order to gain favors for himself, but it might readily forgive a youth who willed under torture or threat of it. There is much the public would like to know about how our prisoners were treated in the Communist camps and what kind of pressure was exerted on the handful of men who finally deserted to them.

The Dickinson trial should help clear up some of these points, if the army will permit publicity on the evidence. —Capitol Journal (Baltimore, Ore.)

### A LIE AND THEY KNOW IT

The Truman and Roosevelt administrations were administrations of unadmitted betrayal to communism and deep-dyed treason that lasted 20 long years. Such is the impression that the Lincoln birthday orators of the party in power attempted to put over.

This is an insult to the intelligence of the American people. Apparently these partisan blabber-mouths cannot remember something that the American people know very well. That is the fact that Dwight D. Eisenhower and John Foster Dulles enjoyed both trust and preferment in the Roosevelt and Truman administrations.

The blunt truth is that if it had not been for the opportunity for service accorded Mr. Eisenhower and Mr. Dulles by Presidents Roosevelt and Truman, Dwight Eisenhower and John Foster Dulles would not today be the No. 1 and No. 2 men in Washington. Had it not been for their part in the administrations of "communist treason," the chances are the world would never have heard their names.

Just how crazy can politicians get?—St. Louis Post-Dispatch.

## POT SHOTS

**RIGHT MAN FOR IT**  
Herb Grant had a money bag full of legal tender the other day, yet he might as well have been flat broke for all the good it was. He had a real dilemma.

Herb was digging around in his pockets in search of fodder for the parking meter. Nary a coin. And he kept shifting the money bag around while he searched.

Finally he appealed to an acquaintance who was passing. "Put a nickel in that thing for me, will you?"

Herb's money bag had left his pocket money at home. The money bag? He wouldn't touch it. Seems it was full of money that belonged to his church.

Take your sweet time and go sour, Our Worker says.

**PUPS FOR KIDS DEPT.**  
Here's another one of those offerings which necessitates the use of track shoes if you plan to be in the running. This small pooch, part terrier and part cocker spaniel, is about a year old. She'll never have maternal problems. She's good with children. You can phone 3111-M or pick up the pooch at 1125 Spryng street. In case you're as stupid as we were, Spryng street is a brand new street just south of the bughouse. And if you don't know about the bughouse, you're a brand new resident. Ask anyone except another brand new resident.

Moths never make the mistake of eating a patch. Our Patcher says.

### PRINCIPLE?

There was quite a conversation, even animated discussion, over prices, inflation and what have you. One woman in the crowd was bemoaning about the price of coffee while another went on at length about the price of butter. A man was yelping about how much he had to pay for a new car and how little he got for his old one. That was only three years old, anyhow, and in superb condition.

One person finally observed that it must be a matter of principle to complain about prices of things they didn't bought whether they needed them or not.

Another one needed the gent who was hollering about how little he got for his three-year-old car or new one. The latter finally admitted he bought the new car just as a matter of personal satisfaction and didn't really need it at all.

Then came the price observation of the evening as one woman spoke up as follows:

"I haven't heard one single complaint about the cost of bourbon and 'living it up'."

There was a big hunk of silence in the room.

## HOW THINGS APPEAR FROM PEGLER'S ANGLE

**NEW YORK.**—The criminal reign in unions of the American Federation of Labor in Las Vegas, Nev., produced a murder a couple of weeks ago which should be a shocking incident but may be filed away as a routine matter.

James Hartley, business agent of the Sheet Metal Workers' union, was found dead on March 16 in the conventional "shallow grave" of the wire services, in Paradise valley, near a farm owned by Ralph Howard Alsop, a master criminal with a long and various prison record, who was for some years president of the Clark County Federation of Labor and vice president of the Nevada State Federation.

Nobody familiar with Alsop's career would doubt his willingness to murder in view of his past performances with guns, including the wanton shooting of one unarmed and inoffensive union painter who was naively demanding his "rights."

However, there is no reason to suspect that Alsop killed Hartley. The job might have been done by any of a large number of persons for a great variety of reasons. An employer might have knocked him off or hired it done. Many of the employing contractors in that area, where union exorbitance on "defense projects" is a major item of commerce, are no less crooked and brutal than the unioners. A union metal worker might have done it. But speculation is idle.

Sheldon De Witt Rich, who recently took Hartley's place as business agent of the Las Vegas local of the Sheet Metal Workers, has been held in the Clark county jail while Bill Peyton, the chief deputy sheriff, investigates.

There has been a shortage in the accounts of the local. Some of the unioners say it is a small matter of \$5,000 which might have occurred when an honest trustee reached into his official pocket instead of his personal one during an evening of craps or faro. The sheriff says the shortage may amount to \$30,000.

Tom Hanley, the grand satrap of the Metal Workers in Los Angeles, but formerly of Las Vegas, recently was relieved of his official duties in Los Angeles by order of the grand headquarters of the union in Washington. Hanley had been business agent in Las Vegas for some years but was kicked upstairs into the Los Angeles job when Alsop and the AFL generally in Nevada caused a great mess a few years ago. The mess consisted of the reelection of Alsop, the gunman, to all his high offices, including that of business agent of the Plumbers' union for Clark county, even while he was under indictment for shooting the foolish painter, Martin Durkin, the international president of the Plumbers, took official notice of this boyishness.

He sent a representative to Vegas who filed a report which was stuck away behind the clock on the mantle of Mr. Durkin's office. President Eisenhower later picked Durkin for secretary of labor and Durkin presently called him a lying double-crosser at the St. Louis convention of the AFL and resigned.

After Mr. Hanley was relieved in Los Angeles he remarked that Hartley was talking too much about sensitive matters such as the unfortunate discrepancy between the book-figures and the amount of dough in the damper of the Clark county local. There were reports of a shakedown by officials of the Metal Workers on a big federal ammunition plant being built by Morrison-Knudsen, contractors, from Minnesota.

The bomb is part of a great "top-secret" dump and gilded missile undertakings. Rich, the man being detained in the jail, was steward of the construction job at the dump, with from 700 to 1,000 workers under his jurisdiction. Their average pay is about \$2.50 an hour. Two years ago Hartley demanded \$45.50 subsistence for construction employees in addition to pay of from \$400 to \$680 a week.

These were typical of the built-in

## Hank Says Everyone Worries About Butter; He Helps

**By HENRY MOLEMORE**  
The butter situation in this country is getting out of hand. The President worries about butter. The cabinet worries about butter. The President's troubleshooter and close aide, Sherman Adams, worries about butter. And so it goes. Mr. Adams needs a press agent. He is quickly being built into a rock-rubbed, two-fisted, all-virtues sort of fellow. That his aunt would just as lief not have around.

The governors are worrying about butter. So are the wholesalers, retailers, and an occasional cow. Next thing you know butter will be worrying about itself.

Let's look at the problem in the hope of finding a solution. Having spent the past three days doing nothing but hanging around with cows and grass (takes a strong man not to lose his mind doing this), and reading the views of those who are up to their ears in butter and will be on their uppers unless they do something about butter, I have boiled down my plans to a basic 135.

Let me start off by saying that the butter is American, the result of flag-saluting-cow-raising grass over which our soldiers have walked. So the butter must really be ours. But there is talk of selling it to Russia or Persia or Graustark and at a real cheap price.

Why? What's the sense in letting those people or any other people have our butter at a cut rate. Americans have been paying high prices for butter for a lot of years, so if the time has arrived when there is some to be sacrificed, please let the Yanks in on it.

If the government is always giving away millions and billions, why doesn't it ever give anything free to those of us who make up the government? What would be wrong in taking all the surplus butter and giving it to us for nothing? No strings.

I realize that such an act would cause trouble. Not with the people who got the butter but with the folks who are making butter right this moment. They'd cry.

Their cry, heart aching as it would be, would be nothing to compare with the oleo folks. Here I go losing every editor who has as much as one share in an oleo company. But the truth stands that butter is just as good as oleo if not a little better. If I am to be hurt for talking truth, then I am sorry. But I will have the gentle satisfaction of knowing that I am hewing close to the truth.

Every time a man takes a stand in this country he risks a petticoat for his wife, or a man to mow his lawn, or a set of copper pots for the kitchen. Well, you can do one of two things.

1. You can play it safe and say that everything is the same, everything is lovely, and make yourself a sweet and easy living.

2. You can express what you feel, but that won't get you anywhere in all the material things. And material things are what most of us want. But saying what you believe will give you a very non-negotiable possession. Something you couldn't cash with a pastor's okay. It is called pride. It takes a real sort of man to make his choice.

I haven't decided yet which one

Plans for Tea  
Are Discussed  
At Guild Meet

Plans for the annual students tea to be given by the Magic Valley Memorial Hospital guild May 3 were discussed Monday during the monthly meeting of the guild. The tea is under supervision of Mrs. Glenn Voyles.

A letter from Mrs. Irene Oliver, hospital administrator, expressing appreciation for work done by the guild's sewing committee was read during the meeting. The committee, according to Mrs. E. E. Schnitzer, chairman, mended linens and made new towels during a recent meeting.

Guild members heard O. D. Hilt, chairman of the hospital board discuss public relations as principal speaker.

Mrs. Carl Paulkner, president, announced that Mrs. L. E. Meesman and Mrs. Ivan Skinner will represent the guild on the planning board for national hospital day observance.

Federal Excise Tax on  
Long Distance Calls  
Reduced from 25% to 10%

Recent action by Congress, reducing the  
excise tax on long distance calls from 25%  
to 10%, is good news for telephone users.

It means that every Long Distance call—  
to any point in the country—now costs you  
less than it did before April 1.

For example, on a \$1.00 call, the tax is  
now only 10c, compared with 25c before  
April 1. This reduction goes entirely to our  
customers. The Telephone Company does  
not retain a penny of it.

Now, more than ever, keeping in touch  
by "Long Distance" is a bargain!

Local Service Also Costs Less... Excise  
taxes on local service were reduced from  
15% to 10% effective April 1, 1954.

## 'Stuffed Shirt' Workers Out, Banker Avers

BOISE, April 6 (AP)—There's no room in the banking business for stuffed shirts.

That was the message of two southern Idaho executives who spoke yesterday at the final session of the fourth annual convention of junior officers of the Idaho Bankers' association.

Depends on Employee

A bank, they said, can stand or fall on the way the fellow behind the teller's window treats the customer.

"The bank has no welcoming power except through its employees," said Lyle Frazier, cashier of the Fidelity National bank, Twin Falls.

"Those in the operating department are the ones who constantly meet the customer and through them, primarily, the welcome is extended," he said.

L. E. Johnson, assistant manager of the Idaho First National bank, Idaho Falls, put it this way:

"The personnel of a bank is the most important asset it has in building new business, for through them the necessary contacts with the public are made."

"When you are taking care of other people's money," Johnson added, "you are caring for one of their most important possessions."

Some 230 delegates at the meeting heard a warning from Gov. Len Jordan that Idaho is faced with decreasing revenue, because of recently enacted tax cuts.

"We have reached a leveling off in the economy of the state," Jordan said, and "Idaho's problem is to make reduced revenues meet the need for increased services."

## Tireless Hunt For Car Ends

CHICAGO, April 6 (AP)—A car police have been trying to find for a woman who was killed in a crash right after she was parked.

Mrs. Wanda Livermore, 31, found the car after she and her husband, Herbert, 38, had almost given up hope. The Livermores had spent countless hours touring city streets in the hunt.

Livermore lost the automobile Feb. 25 when police stopped him for driving without lights. The officers decided he would do no more driving that night. The police parked his car looking it over and gave him the license and put him on a bus for home.

But Livermore lost his driver's license. He couldn't remember where he had left the car. He also couldn't find the police who had parked it.

But he remembered the number 300. Mrs. Livermore found the car looking in the 300 blocks north and south of Madison street.

## Couple Wins Drought Suit

BOISE, April 6 (AP)—The state supreme court has upheld a \$14,910 damage award to an Ada county farm couple who claimed that the Boise-Kuna Irrigation district failed to live up to an agreement to furnish them adequate water during the drought of 1946.

The district officers had argued that the drop in the water level of nearby Thompson lake was unavoidable, and there was nothing they could do to supply enough water to Rex S. and Roxie C. Jensen. But Supreme Court Justice C. J. Taylor agreed with District Judge Charles E. Winstead in rejecting the argument.

The district, he wrote, had not dug additional wells, constructed additional drainage ditches, or resorted to pumping in a bonafide effort to make the water available.

Justice William D. Keeton disagreed in a lone dissent, arguing that the contract between the district and the Jensens was invalid because the district has assumed too great a liability in the bargain.

## Boy at Last

NEW TULSA, Minn., April 6 (AP)—After 23 consecutive girls born into the Millman family here over the past 75 years, there is finally a male.

A son has been born to Mrs. John E. Webster, the former Virginia Millman. The last Millman male was her father, W. C. Millman, who died 5 years ago at 70.

## Plumbers to Meet

BOISE, April 6 (AP)—Forrest Goodrich, Boise, state president, has announced that the Associated Plumbing Contractors of Idaho will hold their state convention here April 16-17.

New developments in plumbing fixtures and heating equipment will be discussed, he said.

## Special Dinner Features Chicken

Mrs. Melvin Sackett prepares chicken, just right for "finger eating," as the important part of a dinner which will include mashed potatoes and gravy and a special orange gelatin salad. Pieces of the chicken are rolled in prepared biscuit mix to decrease the greasiness of the food. (Staff photo-engraving)

## Chicken Served By Mrs. Sackett With Salad Dish

Chicken, just right for "finger eating," is served as a special dinner with orange gelatin salad, mashed potatoes, gravy and ice cream or sherbet for dessert at Mrs. Melvin Sackett's house.

For extra brown and crisp fried chicken Mrs. Sackett rolls the pieces in prepared biscuit mix. She used the mix one time when out of flour and liked the result so well that she "flours" her chicken that way every time.

The mix gives the chicken an added flavor, she says, and keeps it from getting greasy. For this reason the Sackett family also prefers her specialty for picnic lunches.

Out the chicken in pieces and dip them in milk, then roll in prepared biscuit mix. Salt and pepper to taste and brown on both sides in a frying pan. Place the chicken on the broiler rack in the oven and roast for about a half hour at 300 degrees.

By preparing chicken this way, Mrs. Sackett can use her frying pan to make gravy whenever she wishes without worrying about the chicken getting cold.

The orange gelatin which she serves with the chicken is not only simple to prepare but adds an extra flavor to the meal.

**Orange Gelatin Salad**  
Dissolve a package of orange flavored gelatin in two cups of boiling water, cool and place in the refrigerator until soupy. Take out, whip and fold in 1/2 cup whipped cream, two or three oranges, cut in small pieces, and 1/4 cup chopped walnuts. Place in the refrigerator again until firm.

## Care of Your Children

By ANGELO PATRI

How wonderful if this world were peopled entirely with good men and women, people whose every thought and act tended to better themselves and everybody else, but, until the utopian world is born we who people this one must be on guard against evil men and women.

The persons I am concerned about are those most evil ones who induce young people, even children, to use narcotics. They never sleep, these evil ones, never stop trying, but the good people, those who believe that everybody means well, just as they mean well to everybody, do not now and again—before they are fully awake to what is going on, one of more of the children in the neighborhood has been introduced to drugs and is well on the way to making a practice of using them.

These good people who are in the majority in any town say, "I know where my children go, and with whom they go, and I know they are not and never will be victims of this evil thing." They are more than likely right, but there is something else to be considered.

Nobody, no family, lives alone. No one of us but is affected by what other people do. The young person, or the older one for that matter, who forms the drug habit is a menace to himself and to all those whose lives he touches, and that can be a goodly number, including yours.

When children of high-school age, those from about 15 on, are doing well, getting good marks, seemingly happy, we are likely to take a lot for granted and let our attention drift from watchfulness to the taking-for-granted attitude. That is when we nod a bit and when the evil ones go to work. Eternal vigilance here, as in relation to our freedom, is the price of safety for our children.

This means that we must every now and then, with short spans between Now and Again, check up on the associations of the children. Whom do they play with? With whom are they going out? The older ones—what sort of parties do they attend? What goes on there? It is our business to know all this.

To keep informed about it lest an evil one should be working his evil way into circles where he does not belong.

It is so easy for one of these to bring along a bottle of gin, just for the "hell" of it, they say. That word ought to be a warning to the others, but they hate to be "a wet blanket." So easy for one to bring along a snip of white powder, just for a "sniff." Even when we are so very certain nothing of the sort can happen, we should know "eternal vigilance."

Do you have a slow child? One who is always behind in school? In leaflet P-11, "Slowness," Dr. Patri explains how rhythm develops faster motions in a child. To obtain a copy, send 10 cents in coin to him, 216 Times-News Bldg., P. O. Box 99, Station G, New York 19, N. Y.

# Gale Mix Resigns as Idaho Athletic Manager; Belko Considered for Cage Spot

MOSCOW, April 6 (AP)—The University of Idaho announced Monday the resignation of Gale L. Mix as general manager of athletics for reasons of health. Mix will remain as manager of the associated students. J. E. Buchanan, university president, said Mix requested to be relieved of his athletic duties following his return from Seattle where he recently had a physical checkup. "The results of the checkup were encouraging," Mix said, "but with them came the warning that there should be less strain in daily work."

## Backers Sure Coast Attendance to Climb

LOS ANGELES, April 6 (AP)—The Pacific Coast league, set up to produce a faster, better brand of baseball, opens its 52nd season today with the pennant-raising ceremonies and other hoopla.

Backers are confident that the turnstiles will whirl at least a little faster than they did last year, when only 1,759,795 fans were attracted to the circuit's parks. That was the worst showing in 10 years.

The league has taken several steps to improve this situation. It has lifted the ban on accepting optioned players from the major leagues and on working agreements with big league clubs. The loop also has cut the schedule from 180 to 168 games.

The schedule will pit each team against the others an equal number of times, the all-star game has been brought back, along with the post-season playoffs.

Talk of becoming a third major league has been relegated to the back of the dressing room. The successful fight of the "little corporation" to save the San Francisco Seals and the return of Chuck Dressen to manage Oakland have gone far to revive interest in the hand-in-glove sport.

There have been two other changes in the Pacific Coast league. Replaced by Jerry Priddy, long one of the American league's top infielders, replaced Bill Sweeney, Seattle. Only last Tuesday Sweeney was drafted by the Los Angeles Angels when the parent Chicago Cubs summoned Stan Hack.

At this pre-season point, the Hollywood Stars are tabbed to win their third straight pennant. For the first time in over so long all the teams will make their official 1954 debut in daylight. However, Los Angeles and San Diego will do a night encore at the border city.

Hollywood will entertain Portland, Sacramento will play host to Oakland and Seattle will be the guest of San Francisco.

The American League team, composed of Homer Lee, Max Spohr, Dr. J. Rushton, Ed Purves and Jim Kelm and the Seven Up team, consisting of John Honstein, Blaine Anderson, John Birrell, Sprouts Leichter and Ray Orntelheid already are participating in the tourney.

Like No. 1183, composed of Doner W. Bertach, Bus Cowham, Ray King Roy Weller, Corky Carlson and Jim Henry and the Bowldrome team, consisting of Stan Orrom, Clyde Rosa, Bernard Bohling, Varall Price and Stan Commons will leave Saturday along with the KEEP team made up of Ed Johnson, Dick Irwin, Bill Breda, John Ghan and Joe Durgan.

Durgan, ex-golf professional at the municipal course, now in Spokane, will meet the KEEP team in Seattle.

**Doug Ford Wins Greensboro Open**  
GREENSBORO, N.C., April 6 (AP)—Sworthy Doug Ford celebrated his 10th wedding anniversary Monday by outdudding Marty Furgol 73-75 to win the Greensboro open golf tournament playoff.

**Marciano, Charles Sign For June 17 Title Bout**  
NEW YORK, April 6 (AP)—Rocky Marciano and Ezzard Charles came to town to sign contracts for their June 17 heavyweight title fight Monday and heard Promoter Jim Norris predict a gate of \$800,000 and up for the Yankee stadium bout.

Norris' estimate did not include any extra cash from television, radio or theater TV if such a deal is made. The Thursday night scrap probably will be carried on theater TV instead of home TV although nothing is definite.

Marciano will receive 40 per cent for his third title defense while Charles, the ex-champ, will get 20 per cent. It will be Charles' second attempt to upset the tradition of the ring that heavyweight champs never come back. He failed against Jersey Joe Walcott in 1952.

Bob Christenberry, chairman of the New York State Athletic commission, made like a quiz master for the movies and TV cameras, interviewing the two fighters.

"Why do you think you have a better chance to win back the title than all the others who tried?" Bob asked Charles.

"I've been active," Charles said. "In the past other champs have taken long layoffs. Their muscles tightened up. They didn't have the flexibility I have."

Jake Miller, master of the double fight, said:

"I'm not going to back pedal," he said.

At Well-nodded agreement, while Marciano talked. Later he outlined Rocky's pre-fight program.

Marciano has been doing road work since he returned from Tokyo in late December. He is down to 160 pounds and insists he still has the same enthusiasm as when he knocked out Walcott to win the title in 1952.

"They call Ezzard 'the new Charles' because he has been more aggressive in his recent fights. In his last outing he knocked out Bob Satterfield Jan. 13 at Chicago with a terrific left hook. Naturally, the boxing writers asked if he would fight the same way against Rocky or go back to his old overcautious style."

## Pop Warner Observes Birthday With Blast

PALO ALTO, Calif., April 6 (AP)—A grand old man of football—Glenn Scobey (Pop) Warner—celebrated his 83rd birthday anniversary Monday in his Palo Alto home by telling friends that modern football is all too expensive, and complicated.

"Pop," who successfully directed a half-dozen major college teams over 45 years, told his well-wishers that football also has too many coaches and too many officials.

He pointed out his Stanford teams in the mid-1920's, were not nearly as costly as present-day major college teams. Yet, he recalled, they still made enough profit to build the huge Stanford stadium, several dormitories and other buildings on the campus.

"No teams," Warner said, "make that kind of profit today."

One of his regular birthday anniversary visitors is former All-American Pop's fullback Ernie Nevers. Pop rates Nevers as the greatest player he ever coached. He even gives him a slight edge over the late Jim Thorpe, the all-round athlete star of the old Carlisle Indians.

Even though he gets around very slowly with the aid of two canes due to a painful arthritis, Pop Warner retains a keen interest in football through reading several sports sheets and listening to radio and watching television.

He frankly says that football today—both collegiate and professional—employs too much passing and that the game is too complicated. He would cut down the passing by having a required defensive formation—perhaps the 5-3-3.

"There are too many defensive formations," Warner said. "They force the offense to have more of offensive plays. I'm certain the game would be a lot simpler if the defense were standardized."

"Pop" is still a double-wing man and he would use it today if he were coaching. He has a preference for college football over the pro game as he believes "the college game is the game more as it was meant to be played."

The old-timer's shock of grey hair has thinned out a little at the top, but it's still his outstanding feature. His hearing is excellent and he still speaks in a rather loud, gruff voice just like he did when he coached teams at Carlisle, Iowa State college, Cornell, Georgia, Pittsburgh, Stanford and Temple. His final year of active coaching in 1938 at Temple saw Pop's teams run his victory total to 305 games—more than any other coach in football history.

## Ike Assures Senators' Owner He Be on Hand for Opening Day Ball

WASHINGTON, April 6 (AP)—President Eisenhower will throw out the first baseball season on April 13 and this year he is determined not to hit any umpire. A right-handed delivery from the President dusted an umpire on the back at last season's stadium opener last year.

Clark Griffith, the 84-year-old owner of the Washington Senators, called on the president at the White House Monday and then reported:

"The President said he'd be there to make the first throw and not hit the umpire back last year."

Griffith's trek to the White House is an annual custom begun in 1910 when he got President William Howard Taft to throw out the first ball.

The Washington clubowner took along some gifts for the President and the first lady. He handed Eisenhower a gold pin to all the Senators' 1954 games and a handsome alligator bag for Mrs. Eisenhower.

"It's just what she wanted," said Eisenhower.

The baseball season has its official start a week from Tuesday when the world champion New York Yankees come to town to play the Senators.

Eisenhower, an old baseball player himself, showed he's been keeping up pretty well with the fortunes of the Senators in spring training.

"What's the matter with McDermott?" Eisenhower asked Griffith as the two posed for photographers.

He referred to a young left-handed pitcher named Maury McDermott, acquired by the Senators from the Boston Red Sox at the close of last season. An 18-game winner last year, McDermott has flopped in three appearances this spring.

"Would you rather pitch a left-hander or a right-hander against the Yanks?" Eisenhower asked.

"A left-hander by all means," said Griffith. "All the Yankee power is against right-handers. I guess maybe Scobey will start that first game."

Eisenhower assured Griffith he'd be at the stadium "more than once" during the baseball season.

The President's decision to toss out the opening ball is a departure from last year when he begged off in favor of a golfing vacation in Augusta, Ga. But then he rained on opening day and Eisenhower was in town for the rescheduled opener.

**Guest's Win Intra-Club Rifle Shoots**  
Guest's Chevron Service won first place in the final standings of the Twin Falls Rifle Club intra-club shoots.

Guest's posted a season record of 49 wins against 11 losses.

High aggregate winner for the season was Frank Jenkins while Joe Seaver posted high any-sight score of 390. Eva Rosa won high right sight honors with a score of 380 while Clyde Rosa posted the high scope standing score of 94.

Leonard Titmus fired a 97 to win the high scope kneeling title while Jack Redden fired a 91 for high right sight offhand honors. Richard Murphy posted the high iron sight kneeling with a score of 96.

Outdoor matches will begin as soon as the weather permits. The range will be lighted and the shoots will be held Monday and Thursday nights as well as Sunday mornings.

**Blind Bogey**  
Five golfers tied in the blind bogey tournament Sunday at the municipal golf course.

Ken McNew, H. Pierce, Jack Baldwin, C. Ray and O. E. Jackson all hit 34's. Thirty golfers participated in the tourney.

The winners were presented merchandise awards, Cliff White, pro at the course, said.

**5-Man Wrestle Royal**  
There will be action galore at the Radio Rodeo Tuesday night when five rough and tough wrestlers get in the ring together to win the \$200 prize in the big five-man wrestle royal. Mixing it up will be Gregorio Tribarren, Sully Hayamaka, Karl Gray, Bill Sledge and Pedro Escobar. 2nd and 3rd men eliminated will meet in the semi-final, and the last two men in the ring will return in the main event. Advance tickets on sale at Wray's Cafe, Redden's and the Sports Shop. Children under 12 will be admitted free in the general admission section (this Tuesday night).

**Harper Leads Blue Lakes Qualifying**  
Ed Harper fired a 66 to lead the qualifying play in the Blue Lakes country club spring best-ball tournament.

Seven golfers have qualified so far. Qualifying play will continue through April 18.

Other golfers who have qualified and their scores are C. A. Gore 79, By Elsworth 91, Dr. H. L. Stowe 90, James Sinclair 70, Dr. William Peterson 74 and Keith Cutler 81.

In Sunday's blind bogey tournament, Sinclair and Frank Piza tied for first place. Keith Cutler was second and Gordon Edgar, Gore, Elsworth and Dick Cook tied for third spot.

In Saturday's blind bogey, Bill Peters, Lynn Hemplemann and Dr. Morton Cutler tied for first with Frank Deluca second and Frank Piza third.

Ellis Kinder of the Boston Red Sox set an American league record in 1953 for most games by a pitcher in one season, 69.

**Bowed Tendon Cuts Turn-to's Career**  
NEW YORK, April 6 (AP)—Turn-to, Kentucky derby favorite until hobbled by a bowed tendon last month, was retired from racing Monday—the third Cain Hoy stable star in less than a year to be cut down by the same injury.

Harry F. Guggenheim, master of Cain Hoy, announced from his New York office that the three-year-old Irish import would be turned out until next winter and then placed in stud. Turn-to bowed a tendon in training at Lexington, Ky., March 24.

### OUT OUR WAY

By WILLIAMS

QUICK! CHOKER HIM OFF BEFORE HE GETS TO THE ONLY THING WE GOT LEFT. BIRD WATCHING! I WAS HAVING THE GRANDEST TIME!

I TELL YOU WERE AT THE WORST AGE OF LIFE—TOO YOUNG TO BE IN LOVE OR MAKE A LOTTA MONEY OR WIN FAME IN SPORTS, AN' TOO OLD TO BE CUTE OR PLAY WITH TOYS OR—

HERDS ARE MADE—NOT BORN

### SIDE GLANCES

By GALBRAITH

"The boss certainly isn't a thoughtful man—I keep his desk as neat as a pin, but he still crabs about my spelling!"

### CARNIVAL

By DICK TURNER

"Tell me, Herkimer, what's meant by the expression, 'behind the eight-ball'?"

### ING HOUSE - MAJOR HOOPLE

EGAD, MR. POPOVER! THE PRICE IS ABSURD—WAK-KAFF!—BUT AS YOU SAY, MY FERTILE MIND CAN PRODUCE EPOCHAL INVENTIONS AT THE SPEED OF LIGHT. I'VE HEARD GUN SPEED—IT'LL TAKE THE OLD BOY IN HIGH GEAR, BUT TODAY HE'S JET-FLYING!

THE PRODUCES A SOUND LIKE 'YEAH, MAN!'

### LIKE THAT

### GUMPS

WITHOUT INFORMING ME! YOU COULDN'T HAVE YOUR BRAIN EXAMINED—IF THE DOCTOR CAN FIND IT.

WE HAVEN'T GOT TIME TO ARGUE. I WAS SUPPOSED TO PICK HIM UP AT HIS HOTEL FIFTEEN MINUTES AGO!

OH, ANDY, YOU'RE AS HELPLESS AS A GERM THAT CAUGHT PENCIL-LEAD WHICH HOTEL IS MR. RUGGLES STOPPING AT?

### OLD DUCK

By WALT DISNEY

THANK YOU, DONALD!

WHERE'S YOUR EVENING PAPER? I'VE HUNTED ALL OVER!

IT'S RIGHT THERE UNDER THAT DISH TOWEL, SON!

### VIO FLINT

MY FLINT! SAY WHOSE HOCKEY TEAM HAVE YOU BEEN JOINING? (SOUND ON!)

GLAD YOU ASKED, EPHRAIM! THE LITTLE LUNY WAS SCORED BY THE MURDERER OF COLONEL EPHRAIM!

FOR THE LOVE OF MRS. DON'T TELL ME YOURS STILL ON A "KEN COURAGE IS ANOCENT KICK!"

LET ME ASK YOU: ONE? TWO? THREE? WHY WOULD A CIRCUS CLOWN RY A PERSON DART? WHY THE AT AS AND TRY TO CLOWN SHOULD HAVE ANOCENT CASE ON MY EAR!

HOW ABOUT IT? I KNOW! HAVE YOU HURRYED OUT A PERSON DART? WHY THE AT AS AND TRY TO CLOWN SHOULD HAVE ANOCENT CASE ON MY EAR!

LET AS TALK TO KEN COURAGE AND I MAY BE ABLE TO!

### CAPTAIN EASY

FOR MONTHS MRS. HILBANK WAS CUNNINGLY CONTRIVED AT INTERNALIST TO UPSET THE SMOOTH RUNNING OF THE HOUSE AT DORIS' EXPENSE, TODAY...

OH, DORIS!

MY NOTES HAVE DISAPPEARED! HISTORICAL NOTES ON LIGHT BLUE PAPER—OF THE PERIOD IN WORK MARTIN WAS ON NOW! I'VE GOT TO FIND THEM!

I HAVEN'T SEEN THEM. MARTIN!

BUT NO ONE ELSE IS ALLOWED IN THE STUDY WHEN I'M OUT. THE BOOK IS KEPT LOCKED! YOU MUST'VE MOVED THEM WHEN YOU DUSTED!

NO, I TOWED UP AS USUAL, BUT I HAD NO SUCH PAPER!

### BOOTS

OWN, SO YOU'RE FREE'S AGENT!

AND YOU'RE ANNOYING ME!

LOOK, I WANT TO TALK TO FREE - AND GIVE HIM SOME FATHERLY ADVICE!

ONE OF THOSE!

WE'RE INTO SO MANY OF YOUR TYPES THE UNRESPONSIBLE FATHERS WHO CAN'T APPRECIATE THIS ART! CAN MR. FREE HELP IT IF HE'S IRRESISTIBLE?

### GASOLINE ALLEY

He's a cute little imp, Hope. If you're going out some night, let me know.

Thanks, Judy, but we've engaged a regular sitter for tomorrow evening.

We'll take you up later, though.

I wouldn't mind it a bit. He's a honey!

I arranged with that Mrs. Wilf you suggested, Gramps—for tomorrow night.

That's fine. I'll retire to my room and read. I'll be as quiet as a mouse!

### BUGS BUNNY

WHAT'S THE MEANING OF THIS WOP STYLED ACROSS MY PROPERTY, YOU HARE-BRAINED HARE?

UNLAX, FLOOPY. I'M PRACTICIN' TIE A TIGHT ROPE WALKER!

WELL, HOW ARE YOU DOING?

NOT SO BAD, OOPS!

THUD!

SOMEHOW, I NEVER BEAM T' MAKE IT ALL THE WAY ACROSS!

### DIXIE DUGAN

TO THOSE NOT ACQUAINTED WITH MOVIES FOR TELEVISION, A HALF HOUR SHOW IS SHOT IN TWO OR THREE DAYS!!

WOW! WE'VE FINISHED IN THREE DAYS! WHAT USED TO TAKE THREE WEEKS—MR. LANDERS!

TEST TV IS A MAN-EATER!

THESE ARE EVERYBODY FROM A DEADLINE AND ACTORS HAVE TO BE WORD-PERFECT!

WHO'S THAT?

QUINN! I HEARD HIM CALL HIM ONE-TAKE MERWYN!

NO DOUBT ABOUT IT—THE GUY'S GREAT, MISS DUGAN!

### SCORCHY

HEY! HAN, KORCHY!

UNNNN...

HEY!

HEY! OUT!

PUT A SPACESUIT ON! I'M TAKING YOU BACK TO MY SHIP! WE'LL TOM THIS RAT BACK TO ASTAR!

YES, SCORCHY!

### LIL LABNER

AH IS GONNA MISS YO SHMOOS?? YO IS SO FRIENDLY, AN UNNN, DEE-LISHUS!!

PLEASE?—DON'T ANY MORE OF TH' SAUSAGE-SIZE DROP DAIL!!—AH SIMPLY COULDN'T EAT NO MORE O'YO, THANK YO!!

ALTHO IT'D BE A MERCY EF AN ET YO ALL!! LIL LABNER'S GONNA DO SUMPTIN' SO WICKED-ANFUL TO YO—HE WOULDN'T TELL ME WHAT??—HE'S OUT GITTIN TH' GUP? EQUIPMENT, N-NOW—

### ALLEY OOP

BELIEVE ME, OOOO! YOU'RE DOING A LOT TO HELP US FIND ALLEY BY LETTING US SEND YOU BACK HOME TO MOO.

BUT DON'T YOU FORGET TO WE GET ME BOON AS YOU FIND HIM!

WE WILL! THAT'S A PROMISE!

THUD!

### Markets at a Glance

**NEW YORK, April 6 (UP)—**Stocks—Lower; selling was swifter than buying. Bonds—Quiet; corporate steady. Commodities—Steady; sugar and cotton futures advanced.

**Chicago:** Wheat—Weak; stock exports. Corn—Steady; stock exports. Soybeans—Steady; stock exports. Hogs—Steady to 10 cents lower; top \$16.60. Sheep—Steady to 10 cents lower; top \$16.60.

**LOS ANGELES, April 6 (UP)—**Stocks—Steady to 10 cents lower; top \$16.60.

**NEW YORK, April 6 (UP)—**Heavy selling knocked prices down sharply today in the stock market. When the worst of the selling spree passed, prices rebounded a little from their lows.

Biggest contributors to the decline in industrial stocks were the steel and automobile groups. The steel group fell 1 to 1 1/2 points, while the automobile group fell 1 to 1 1/2 points.

The selling spree was not universal, however. Some stocks, such as those of the oil and chemical industries, advanced.

The volume of trading was heavy, with over 1,000,000 shares changing hands.
