## Korean Pledges Broken by Reds, U. S. Aide Says

GENEVA, June 5 (AP)—The United States today charged Communist proposals for "free" elections in Korea as a broken pledge and charged the communists with violating the armistice now by bringing arms and reinforcements into North Korea.

Undersecretary Walter Bedell Smith spoke at the Geneva conference on Korea after Soviet Minister V. M. Molotov presented a five-point statement of principles "relating to the peaceful settlement of the Korean problem."

Red China's Chou En-lai had proposed earlier that international supervision of all-Korean elections be turned over to the neutral nations supervisory commission, which the west says has been unable to function because of communist obstruction. Members of the commission are Switzerland, Sweden, Poland and Czechoslovakia.

**Arms Ban Broken**

"At this very time as we sit here in Geneva, the aggressors in Korea are bringing arms and reinforcements into North Korea under conditions strictly prohibited by the armistice and the supervisory commission is impotent to check these violations because the communist members of the commission refuse to permit the commission to act," Smith said.

The U. S. delegate said the situation in Korea had become so intolerable that Swiss and Swedish representatives had protested repeatedly in writing.

Agreement asked the delegates to agree on five principles, all of which had been argued for hours in the previous sessions on Korea. They were free elections; the communist-proposed all-Korean body to conduct the elections; the withdrawal of all foreign troops; the establishment of an international commission to supervise the election.

## Last Two Units of New Press Unloaded

Paul (Pete) Standley, Times-News press foreman, smiles over five-ton section of new press being installed in the basement of Times-News building. Behind Stanley is Henry S. Schwalm, press mechanic for the Goss Printing Press company, who is installing the 24-page press. The task is expected to take about a month, but the press will be ready to print all sections of the Golden Jubilee edition of the Times-News. The edition will be published July 25. Workers in the background are removing grease from another five-ton unit of the press. (Staff photo-engraving)

## Golden Jubilee Edition Scheduled for July 25; New Press Is Being Installed

The Golden Jubilee edition of the Times-News will be published on Sunday, July 25, with all sections printed on the new Goss Dek-A-Tube press being installed now in the basement of the Times-News building.

General theme of the special edition will be "Fifty Years of Progress" with the emphasis placed on accurately relating the story of Twin Falls and Magic Valley.

A great deal of material has been collected already for the special edition. However, any resident of Twin Falls or Magic Valley with knowledge of early-day events that should be included in the edition is encouraged to contact the Times-News. Old photographs also are welcome.

Most of the "heavy" work has been completed for installation of a new Goss press.

But it will be about a month before the 4,000-odd parts of the 24-page press have been assembled. Henry S. Schwalm, Chicago, is supervising assembly of the press for the Goss firm.

The last two of the six printing units were eased into the basement Friday afternoon. Two of the units weigh six tons each and the other four units weigh five tons each. The entire press weighs 50 tons. It was shipped here from Chicago in two box cars.

The printing units were too heavy to be handled on an elevator. Crews ran the elevator platform up several feet, then blocked it up with heavy timbers. More heavy timbers were used to form skids down which the printing units were eased by a heavy truck winch.

Last of the "heavy" work was moving of the folding unit of the press. It weighs about three and one-half tons.

When the folder was pushed onto the elevator Saturday, its weight depressed the elevator platform far.

## Sister of Photographer Tells About Early Life

Mrs. Ruby Hebron, sister of O. E. Bisbee, pioneer photographer here who died Thursday morning at the age of 78, arrived by plane with her son, George Hebron, from her home in Cassopolis, Mich. They are his only survivors, besides a niece.

Mrs. Bisbee was "Babe" to Mr. Hebron, a name she said her brother preferred as a young man.

What was Mr. Bisbee like as a growing boy? "Quite a cut up," she summarized with a twinkle in her eye, adding he was adept at sleight-of-hand tricks and parlor magic, and "everybody liked him."

Mr. Bisbee turned from magic to an early interest in photography. Mrs. Hebron said. He began taking pictures around 1905 with a little box camera. A few years later he went to a photography school in Ephingham, Ill., one of the first schools of his kind in the Midwest back in those days of flash powder and glass plates.

It was only shortly after he finished his course that his father died and he settled in Twin Falls, she said. Meanwhile, however, he lived for a short period with another sister at Newcastle, Neb., and took many pictures of local children dressed up as Indians.

Mr. Bisbee had been a member of the Masonic order in Nebraska.

In addition to Mrs. Hebron and her son, Mr. Bisbee is survived only by a niece, Mrs. Helen Amyoller-Snyder.

Funeral services for Mr. Bisbee will be held at 3:30 p. m. Monday at the Twin Falls mortuary chapel with the Rev. W. A. MacArthur officiating. Last rites will follow at the Twin Falls cemetery.

## Forest Blaze Strikes Near Atomic Town

LOS ALAMOS, N. M., June 5 (AP)—Officials said tonight they believed there was a strong chance of bringing a forest fire near this atomic city under control without danger to the community.

A shift of wind turned the fire so that its course would pass south of the town of 13,000 population and toward a highway which would provide a natural fire break 200 yards wide.

Forty national guardsmen from the nearby town of Espanola reinforced the more than 500 men already battling to halt the blaze. Five bulldozers were clearing brush along the Los Alamos-Jemez highway.

Early this evening the fire jumped a bulldozed fire line four miles from the A-bomb community and forged ahead, driven by strong winds directly toward Los Alamos. Atomic energy commission officials insisted, nevertheless, there was no threat to residential or scientific areas.

More than 100 Zuni firefighters, skilled at battling forest blazes, were reported en route to the scene. Kirkland air force base in Albuquerque alerted 200 men to stand by for fire duty if it should prove necessary.

## McCarthy Speaks On Army Dispute

RIPON, Wis., June 5 (AP)—Senator McCarthy, R., Wis., declared today he hopes President Eisenhower "realizes that the shots are being called not by the people loyal to him" in connection with the senator's bitter row with the army "but by the people who would destroy his party."

Speaking before a 100th birthday anniversary celebration of the founding of the Republican party, McCarthy discussed the current hearings in Washington.

At Chicago en route to Ripon, McCarthy said in an interview that Sen. Stuart Symington's monitored telephone conversations with army Secretary Stevens "resulted in the disclosure" that Democrats are working hand in hand with Stevens. Symington is a Democrat from Missouri.

## Self-Styled 'Country Lawyer' of Twin Falls Pulls No Punches in Quiz

WASHINGTON, June 5 (AP)—Raymond Patton Parry, Twin Falls, who calls himself a country lawyer, has been operating like a city attorney at the Hells canyon hearing recently.

The short, balding attorney has landed some haymakers for Idaho Power company in late rounds of the deadly, serious legal fight over the Hells canyon damsite.

Parry and Arthur C. Iman, Idaho Power's vice president and chief counsel, are pressing at a power commission hearings which began last July 7 and is expected to end in about three weeks—the court-

## Investigation On Monopoly Is Requested

OLYMPIA, June 5 (AP)—A congressional investigation of possible power monopoly in the Pacific northwest was requested today by the Washington Public Utility Districts association.

A resolution adopted at the closing session of the association's semi-annual meeting said "there is evidence of the re-emergence" of a private electric monopoly in the Pacific northwest and of undue influence being exerted on the interior department by the companies involved.

Ask Price Extension

The resolution called upon the senate subcommittee on antitrust and monopoly legislation to extend its investigation to the Pacific northwest. Sen. William E. Jenner, Indiana, heads the subcommittee.

Other resolutions adopted by the association today included:

1. Opposition to proposed amendment to the public utility holding company act which would exempt certain power corporations from regulation by the securities and exchange commission.
2. Opposition to proposed amendments to the atomic energy act which would grant private utility companies the right to exclusive patents, which the association said, belonged to the public since they were developed with 12 billion dollars of public money.

## 'No Comment'

DENVER, June 5 (AP)—Atty.-Gen. Herbert Brownell skirted comment on the McCarthy-army controversy during a stop in Denver today because the department of justice will study "the whole problem involved" after conclusion of the current hearings.

He said all evidence offered at the hearing will be turned over to the department "to see whether any action should be taken."

## Senator Threatens Army Chief, Phone Recordings Reveal

WASHINGTON, June 5 (AP)—Senator McCarthy, R., Wis., today made public monitored phone records in which he is quoted as angrily telling Army Secretary Stevens last Feb. 20 that "you will live to regret" orders forbidding army generals to testify before the senator.

In the texts, which were not complete, McCarthy also declared "there is nothing indispensable" about Pvt. G. David Schine, storm center of the army-McCarthy controversy.

He also was quoted as suggesting, for Roy Cohn's sake, perhaps the army could let Schine off week-ends "so his girls won't get too lonesome."

McCarthy gave the transcriptions to reporters for the Associated Press, United Press and International News service on condition he not be named as the source of them.

However, the New York Times later named him as the source—and thus his role in the release of the documents became publicly known.

The documents covered three phone calls between McCarthy and Stevens, with some material omitted.

No Comment

There was no comment from Secretary Stevens or other army officials.

One of the calls showed that last Nov. 7 McCarthy urged Stevens "for God's sake" not to assign G. David Schine to the McCarthy investigating committee, after Schine got into the army.

"If you put him into service to work with the committee, all hell would break loose, and the President would be calling you not to play favorites because anyone is on a committee," McCarthy said.

"For Roy's Sake"

Then, referring to Roy Cohn, his chief counsel, who had been insisting he needed Schine's help in preparing committee reports, McCarthy added:

"I think for Roy's sake if you can let him come back for week-ends or

## Big Arms Aid Fund To Turkey Pledged

WASHINGTON, June 5 (AP)—The Eisenhower administration has assured Prime Minister Adnan Menderes of Turkey that military assistance for his nation in the next 12 months will total around 200 million dollars and that arms deliveries will be speeded up.

Menderes thus left Washington today with what appeared to be a considerable personal triumph to his credit. He had averted a heavy cut in U. S. military aid funds for Turkey, had gotten a promise that the funds would in fact total a little bit more in the next fiscal year than in the present one, and had obtained the speedup agreement.

President Eisenhower and Secretary of State Dulles told Menderes that they consider his nation a key ally in the world communist conflict. They assured him of continued economic assistance, though at a somewhat lower level in the next fiscal year, and went as far as they could to promise both military and economic help to meet essential Turkish requirements over the next several years.

In fact, one thing that apparently caused the administration to abandon plans to cut Turkish military aid program in the year beginning July 1 by possibly 80 per cent—down to 100 million dollars or less—is the fact that Menderes is working on a four-year armament program. He appealed for assistance in meeting this program.

A joint United States-Turkish communiqué disclosed, in very general terms, the nature of the agreement. It was issued by the state department shortly after Menderes left for Ankara by plane but it had been approved by him last night. It failed to give the hard facts and figures which were a major concern of the Turkish leader in his four-day round of conference here.

Diplomats explained why Eisenhower and Dulles decided to exempt Turkey from the general downward trend of foreign aid. One reason is that Turkey is considered one of the toughest and most dependable allies the United States has. Its position in the middle east on the southern flank of the Soviet Union is of enormous strategic importance.

## Three-Nation Security Pact Is Announced

ATHENS, June 5 (AP)—Greece and Yugoslavia announced today they will be joined by Turkey in a new Balkan military alliance aimed at "strengthening peace and collective security in the spirit of the United Nations charter."

The three nations—all recipients of U. S. military aid which has increased considerably the power of their armed forces—have been linked previously in a treaty of mutual cooperation. The new pact elevates this agreement to an outright military alliance.

Pact Is Political

Koca Popovic, the Yugoslav secretary for foreign affairs, told newsmen the new alliance would be political as well as military.

This was indicated also in the communiqué issued both in Athens and Belgrade announcing formation of the pact. The communiqué said the treaty provides for establishment of a consultative assembly of the three nations which will meet alternatively in Athens, Belgrade, and Ankara to discuss mutual problems. An equal number of deputies from the nation's parliaments will make up the assembly.

July Meeting Set

The foreign ministers will meet in Belgrade in July to formally sign the treaty for their governments.

Announcement of the pact came as a climax to the visit here of President Marshal Tito of Yugoslavia. He conferred with Premier Marshal Alexander Papagos while additional talks were held at lower levels. Tito made a similar visit to Turkey in April as one step in paving the way for the military alliance.

## Eden Supported In Peace Confab

LONDON, June 5 (AP)—Foreign Secretary Anthony Eden was encouraged by the British cabinet today to continue his efforts at Geneva to bring about an armistice in Indo-China.

Eden will return to Geneva Monday night or Tuesday to resume negotiations which he reported were going very slowly. But it was understood in government circles that the cabinet shared his view that the effort must be continued.

The cabinet, presided over by Prime Minister Churchill, conferred for 2 hours and 20 minutes. The Geneva conference was its only subject.

## Primary Vote Scheduled in Three States

WASHINGTON, June 5 (AP)—California, Iowa and South Carolina hold primaries next week with the west-coast state in the spotlight. Last minute drives there for the senate, and a house contest featuring James Roosevelt as a contender, have sparked an otherwise mild campaign.

A law permitting candidates to file on both major party tickets makes it possible for some "sudden death" results in California. For if a man wins both nominations, it makes the election in November more formally. Nearly all candidates have crossed filed.

## Lions Choose Governors in District Meet

SUN VALLEY, June 5 (AP)—Southern Idaho and eastern Oregon Lions elected George Knowles, R., Boise, Bench club, and Doyle Anthony, Montpelier, governors of district 86-W and 88-B as they completed their convention here Saturday.

In the principal address of the two-day session, S. A. Dodge, Detroit, president of Lions International, told the 800 assembled Lions and their guests the world needs such organizations as Lions to bring people together.

"Peace and security are desired by everyone," he said, "but atom bombs will bring only servitude and early obedience. We must capture the hearts of people everywhere to prevent war."

Dodge declared man has been putting too much emphasis on reward when, in the final analysis, "we must come to the conclusion his mission in life is service."

Desire for something beyond financial gain lies deep within everyone and the instrument for aid to those about us provided by service clubs is the answer," he declared.

At the Key members breakfast Saturday morning, Ralph Garrett, Foothills, International director, said "the true Lion is paid by true enrichment—by doing worthy work for worthy causes."

Among the resolutions adopted were those calling for purchase of 10 television sets for the state colony at Nampa; incorporation of all clubs for lawul protection, and a call for an annual mid-winter officers conference.

## Salesman Killed In Traffic Crash

MEADOWS, June 5 (AP)—A Boise salesman was killed and his wife critically injured tonight when their automobile left the highway on a curve at the edge of Meadows and crashed into a clump of trees.

Adams county Coroner Herb Fitz identified the dead man as Jim Botts, about 50, an employee of Western Equipment company, Boise. Mrs. Botts was taken to a hospital at Council.

The automobile knocked back from one tree about 10 feet from the ground. It then overturned and landed upright.

### Local Pastor Leaves After Sunday Rites

The Rev. LeRoy H. Bohling, sr., pastor of the First Church of God for the past three years, leaves after the 11 a.m. worship service Sunday to return to Anderson, Ind. Topic of the pastor's last sermon here is "Pentecost."

Graduated from Anderson college, Anderson, the Rev. Mr. Bohling received his first pastorate at Elkhart, Ind., in 1945. He served there for one year before moving to Laingburg, Mich., where he was a pastor for the next two years.

He returned to college in 1949 and came to Twin Falls two years later. His two daughters, Kathy and Nancy, will attend Anderson college. Kathy was graduated from Boise high school last year while Nancy received her high school diploma from Twin Falls this year. The pastor has a third daughter, Dorothy, 13.

The Rev. Mr. Bohling was honored at a group dinner last Sunday given by the local congregation. No successor has been named.

### Damage to Cars Listed for Crash

Some \$410 damage resulted from a two-car collision on a sharp curve of road near one and one-half miles east of the Clear Lake bridge Friday morning, sheriff's officers report.

Deputy Sheriff F. O. (Olad) Thompson said Ray L. Crumbliss, Twin Falls, was driving his 1953 Chevrolet west on the road when it collided with John Enner's 1946 Ford. The officer estimated \$180 damage to Crumbliss' car and \$350 to the Ford.

### Mother, Child Hurt in Crash

**BUHL, June 5**—Mrs. Edgar Joseph Salota, 28, Portland, Ore., and her son, Larry Salota, 3, are patients at Magic Valley Memorial hospital with injuries received in a crash on the Banbury grade 14 miles west of Buhl on highway 30 late Saturday.

Full extent of Mrs. Salota's injuries have not been determined but her son is not seriously hurt. They were passengers in a 1953 Chevrolet driven by Salota. Other passengers were Larry's twin, Gary Salota, Michael, Salota, 8, and Patricia Salota, 5.

Deputy Sheriff F. O. Thompson and Lee McDonald and State Patrolman M. J. Baye, Jr., who investigated, said the automobile missed a curve on the grade and rolled 190 feet across the rock-strewn desert.

### Gem State Guard Displays Strength

**BOISE, June 5**—Putting on the largest show of mechanized might in its history, the Idaho national guard passed in review today before Gov. Len Jordan, state legislators and other city and state officials.

Tanks, jeeps, service vehicles, ambulances and artillery pieces took part in the parade which ended the first week of summer camp for the 2,100 guardsmen.

They start field maneuvers in the desert south of Gowen field Monday, with Gen. William Dean, congressional medal of honor winner in the Korean war and deputy commander of the sixth army, scheduled to see them in action.

### Runoff of Snake Is Believed Over

**IDAHO FALLS, June 5**—Peak runoff on the Snake river in southern Idaho appears to have passed, Lynn Grandall, district six watermaster, said today.

"There is still a substantial amount of snow on the Jackson lake watershed," he said, "but the peak runoff appears to have already been completed."

He said cooler weather has slowed the melting of snow and the river flow has dropped slightly.

### 'Threatening' Phone Talks Are Revealed

(From Page One)  
something as his girls won't get too lonely—maybe if they shave his hair off, he won't want to come back."

Schine has light brown wavy hair. Improper Pressure Charged

The army aide of the big controversy charges that the McCarthy camp used improper pressure for favored treatment for Schine, a former McCarthy aide, but says that sometimes when Cohn was not present, McCarthy indicated he was not averse to Schine's services.

The texts of the monitored phone calls made public Saturday night were not complete; some material having been omitted.

McCarthy told newsmen the texts were accurate, except for the omissions. He said they will be placed in evidence Monday at the televised hearings on the furious row between McCarthy and aides and the army camp.

**Hearings Resumed**  
The McCarthy-army hearings are in recess until Monday, following the introduction in evidence of transcripts of Pentagon-monitored talks between Stevens and Senator Symington, D. Mo., which McCarthy has contended "blows up" the army's "pressure" charges against him in their bitter row. The army side was expected to take issue with that contention.

McCarthy has announced he will allow the use in evidence of the monitored talks he had with Stevens. He said he knew of only three, the same number which members of the subcommittee's special investigating staff have mentioned.

### AEC's 'Terrific' Job Is Reported

**WASHINGTON, June 5**—Atomic Energy Commissioner Eugene M. Zuckert told congress today that an "orderly difference" of opinion among AEC members has not slowed or affected a "terrific job" in producing nuclear weapons.

Zuckert told the senate-house atomic energy committee there has been "no violence" in AEC disagreements. Nor, he added, has there been any slackening of efforts to produce the best "in weapons and the greatest advance in technology for peaceful uses for atomic power."

He testified as one of three commissioners opposing a move to name Chairman Lewis L. Strauss as "principal officer" of the five-man board.

### Land Supervisor Takes New Post

**BOISE, June 5**—Russell Penny today assumed his new duties as supervisor for the bureau of land management—a job that calls for management of about 15,000,000 acres of federal land in Idaho.

Penny is from Washington, D. C., where he was assistant chief of the bureau's division of range management.

In addition to his custodianship of federal land, timber and other resources, he will be responsible for coordination of the entire BLM program in Idaho and will represent the bureau in dealings with public and private agencies.

### Gem State Elks To Hear Leader

**IDAHO FALLS, June 5**—Members of Elks lodges in Idaho will hear their national leader at their annual convention here Thursday. Sessions will continue through Saturday.

Speaker at the first session will be Earl James, Oklahoma City attorney, grand exalted ruler of the Benevolent and Protective Order of Elks. A banquet honoring him is planned as a pre-convention feature Wednesday evening, with exalted rulers and secretaries of local lodges attending.

Speaker Friday will be Sen. Henry C. Dworshak, R. Ida.

**DEGREES GIVEN**  
**WASHINGTON STATE COLLEGE, Pullman, Wash., June 5**—Lavern Buchanan Puddy, Twin Falls, has received a degree of bachelor of architectural engineering and John E. Harris, Wendell, a degree of doctor of veterinary medicine from Washington State college.

**Youth Guilty**  
**WALLACE, June 5**—Roy Sundstrom, a 19-year-old youngster of 18, was convicted of involuntary manslaughter today in the March 13 rifle slaying of a neighbor friend.

Sundstrom had been on trial all week on second degree murder charges. The state accused him of grabbing a gun at home after a day of beer drinking, then firing a fatal shot at Clinton DeBolt, 35, who was standing across the street.

**HANOI, June 5**—French planes scored direct hits with half-ton bombs today on Vietminh convoys moving along routes the rebels are using in an attempt to close a pin-cers behind this Red river delta capital.

In addition to hammering the communist-led rebels moving slowly from Dien Bien Phu, French pilots blasted a Vietminh ammunition dump, 35 miles east of Hanoi used for storage of small arms and mortar ammunition.

The rebels were moving on two roads from Dien Bien Phu. French planes strafed and bombed the troops. The pilots said they set several large explosions and fires in the attacks on the convoys.

The Vietminh were driving Russian-made trucks supplied by the Chinese communists to bring men and heavy artillery into the delta area from fallen Dien Bien Phu. The most advanced elements were still reported 80 miles west of the edge of the western delta defenses.

Ground action by French Union forces was concentrated on keeping intact the vital road and rail link between Hanoi and the big seaport city of Haiphong. The bulk of American supplies to Indochina move along the 65-mile highway.

**BOISE, June 5**—A justice court ruling which would leave the state powerless to clamp down on establishments selling "set-ups" to patrons who provide their own liquor will be appealed to district court, Ada county prosecutor Elaine Evans said today.

Justice of the Peace J. M. Lampert held yesterday that a section of the liquor code prohibiting the maintenance of unlicensed premises for consumption of liquor was unconstitutional because it wasn't mentioned in the title of the act.

His ruling came in sustaining a demurrer by Dale Clemons, attorney for Haven Schoonover, whose Miramar hall near Boise was raided by state liquor law enforcement agents and Ada county officers Nov. 9.

### Seen...

Young couple walking along with arms about one another or holding hands... Little girl in snow suit crying... Badly cracked windshield of ancient automobile patched with tape... Girl in red pedal pushers running along sidewalk... Small boy firing caps in toy pistol... Headlight broken out of 1954 model car... Woman driver having difficulty parallel parking pickup truck in midst of shower... Man peering under windshield visor trying to see overhead stop light... W. A. Ostrander wearing large yellow cowboy hat... Sign of summer: Lieut. Clark Hand and Patrolman M. J. Baye, jr., wearing summer uniforms for first time this year... Two farmers standing out in noon down-pour smiling and looking at sky... Man stopping his car at Second street west stop light next to post-office, jumping out and running back to curb mailbox to post letter... And overheard: "And after getting two flat tires driving all the way up there the best we could catch was an eight-incher."

**Concern Asks  
Pipelines  
To Northwest**  
 WASHINGTON, June 5 (AP)—The  
 Manufacturers' association  
 said today it has petitioned  
 the Federal Energy Admin-  
 istration to approve  
 construction of natural gas  
 pipelines to the northwest.  
 The association, which represents  
 the nation's gas  
 industry, said the  
 northwest is the only area  
 that does not have  
 natural gas facilities.  
 The association said it  
 would prevent favorable  
 action on the applications  
 to the Federal Energy  
 Administration if the  
 pipeline is not built.  
 The association said it  
 is "an  
 industry out of the  
 northwest's grasp  
 rather than  
 a blessing."

**Winch Truck Used to Handle Press Units**

Two units of the new 24-page, Goss Dek-A-Tube press are shown in the alley behind the Times-News building. The unit in foreground weighs six tons while the unit in background weighs about four and one-half tons. Each of the six units prints four pages. Winch truck in background was used to ease the heavy sections down a ramp built in an elevator well. (Staff photo-engraving)

**Times-News Jubilee Edition to  
Be Published Sunday, July 25**

(From Page One)  
 The mechanic says it took the  
 firm three months to build the  
 press in its Chicago plant. It was  
 run for about three hours before  
 being dismantled, crated and ship-  
 ped.  
 An idea of Schwalm's task can  
 be obtained from the method of ship-  
 ping the bolts needed to assemble  
 the press. They arrived in two  
 fairly large boxes—all mixed to-  
 gether. Schwalm says the only way  
 to tell where each bolt goes is to  
 "figure it out." But he doesn't  
 anticipate much trouble. He's been  
 working on presses for 25 years.  
 Last October, the press mechanic  
 was in Twin Falls to repair the  
 folder on the present 16-page press  
 used to print the Times-News.  
 Since then, he has installed, serv-  
 iced and rebuilt presses in 45 states  
 and Canada.  
 Schwalm says the Dek-A-Tube  
 is the only press of its type built  
 with roller bearings. It is fully  
 automatic and has ball, needle and  
 roller bearings throughout. It is  
 capable of turning out 35,000 copies  
 per hour. He says the press can  
 turn out a 48-page tabloid paper.  
 In one operation, it can print 20  
 pages using two colors and black  
 or 16 pages using three colors and  
 black. Maximum capacity of the  
 present press using color is 8 pages  
 with two colors and black or 12  
 pages with one color and black.  
 Schwalm says Fred Goss, a son of  
 one of the owners of the Goss  
 Printing Press company, will be  
 here soon to work on assembling  
 the press for the experience.

**Fishing Pond for

**Water Policy  
Is Praised by  
Federal Aide**

SALT LAKE CITY, June 5 (AP)—  
 The Eisenhower administration was  
 credited tonight with developing a  
 national water resources policy  
 "which will definitely and finally  
 end the piecemeal programs that  
 have retarded the proper develop-  
 ment of this most precious natural  
 resource—water."  
 Interior Secretary McKay said  
 the policy is being worked out by  
 three governmental agencies — a  
 cabinet committee, an inter-agency  
 committee to coordinate work of  
 existing bureaus and a task force  
 of the Hoover commission.  
 Speaks at GOP Dinner  
 McKay spoke at a \$100 a plate  
 Republican fund-raising dinner.  
 "The basic objective of the cabi-  
 net committee," he said in his  
 prepared address, "can be envi-  
 sioned as assisting the President in  
 developing sound and uniform po-  
 licies for the conservation and use  
 of water resources."  
 He said the inter-agency group  
 was named to avoid interruption of  
 delay in current programs. Hoover  
 commission recommendations are  
 intended to aid in drafting of fu-  
 ture legislation.  
 Cites "Real Progress"  
 "Considerable real progress has  
 already been made since January,  
 1953," he said, "in ironing out the  
 multiplicity of problems engendered  
 in 20 years of bureaucratic squabbling  
 and bitter competition over  
 which department would build what  
 dam."  
 "Considerable success has marked  
 the efforts of the department of ag-  
 riculture, the corps of army engi-  
 neers and the department of in-  
 terior to bury the tomahawk, and I  
 don't mean in each others skulls as  
 heretofore."

**Wilderness Resident  
Dies in Mishap**  
 CALDWELL, June 5 (AP)—Monroe  
 Mowery, 52, wilderness, was killed to-  
 day when his pickup truck was in-  
 volved in a two-car collision at the  
 Notus road intersection and he was  
 killed.  
 Canyon county Deputy Sheriff  
 Harold Myer said Mowery was mak-  
 ing a turn off the Greenleaf-Cald-  
 well highway when his truck collid-  
 ed with a car driven by Vernon E.  
 Combs, 28, Homedale.

**Jets Assist C-47 Off Buhl Airport**

An air force C-47 makes a jet-assisted takeoff from the Buhl airport in maneuvers by eight Reno-based planes Thursday. The planes were able to take off in one-fourth of the length of the short runway. One plane preceded the others to the field, landed and "hooked" them in by radio. Then they made their practice takeoffs. The maneuvers were rehearsal for possible emergency supply flights to tiny fields in a combat area. (Photo by Walter Blaylock—staff engraving)

# OPENING OF 1954 FISHING SEASON CALLED BEST IN MANY YEARS

## Magic Reservoir, Malad River Are Valley 'Hot Spots'

The comments ranged from "best I've ever seen" to "only fair" as Idaho anglers wet their lines in the opening of the 1954 fishing season Friday.

While local anglers reported limits within a matter of an hour or so, conservation officers who could be contacted

reported fishermen's luck "fair to good."

Magic reservoir seemed to be the hottest spot in Sagic Valley and the water was covered with boats from the opening of the season at 4 a.m. Friday until late Saturday night.

The biggest influx of fishermen was expected to hit the reservoir early Sunday morning. Grover Davis, conservation officer, reported only a "mediocre" crowd in his area which covers Salmon Falls reservoir and Rock Creek.

"I've seen bigger crowds on opening day," he said.

Davis reported the streams in his section fair to good but said the lower section of Salmon reservoir was poor.

"It's just not clicking good," Davis said he had not gotten into the Rock creek area and had no report to make but local anglers reported excellent fishing.

Alonso Brown, conservation officer in the Wendell section, said the Malad river was "the best I've ever seen. This was the best opening day I've seen in a great many years."

Brown said Billingsley creek was "excellent" in the early hours of

FROM ALL ANGLES

By BOB COUGHLAN  
Crybabies don't win pennants. Leo Durocher phrased it a little differently when he said nice guys don't win pennants but the saying could apply equally well to crybabies.

While everybody has been earnestly asking "when are the Cowboys going to get help?" and "who are they getting?" perhaps the most obvious answer to this club's poor showing

has been sitting right under the noses of the fans, unnoticed.

Since the Cowboys are a community-owned outfit, it seems only fitting that everybody interested should be kept as well-informed as possible concerning the inner workings of the club.

Right now, the club is split right down the middle with dissension. On the one side are the hard-working, hell-for-leather ballplayers who are putting everything in their effort to win. Those shouldn't be hard for the fans to pick out.

On the other side are the crybabies. The club has been blessed with about seven of these.

In the middle of the whole mess is manager Everett Robinson, the Cowboy Manager.

As we understand it, the situation works something like this: Let's say Joe Blow isn't putting out for the team and it is quite obvious not only to his teammates but also to many fans. After the game he is chewed out by the manager. Instead of taking it in the manner the criticism was given, Joe hides his time until a higher authority in the club office makes an infrequent appearance in town.

Off to Joe to cry on the of the official shoulder about the treatment he has been getting.

When the last Cowboy official was in town several weeks ago, there was a walling, walling line of gripers to see him every day. All with sad tales to tell of the abuse they had been subjected to here.

What kind of ballplaying is that? What kind of a setup is it that allows the organization's chosen manager to have to undergo such treatment?

It has been banded about town by some of the more ardent fans that some of the relieving pitchers even save up a bit when it appears that Magic Valley is catching up to the other team. They throw the high, hard one in there so they won't be charged with the loss.

From here it appears that the first problem facing the Cowboy management is getting rid of the crybabies and replacing them with players who aren't as much concerned with their own personal averages as they are with the club's standing as a whole.

If the club begins to move up in standings, then certainly the individual performances will have that much more meaning when the final results are tabulated.

A Minidoka county fan writes with a legitimate gripe:

"In regards to your recent comment that Emery Dietrich and Ken Besold are slated over the recent bond election in this county, I wish to draw your attention to the fact that this is a county deal and there are other equally qualified coaches who might be the lucky ones. How about Ted Hanks at Heyburn, or Bell from Paul? From the standpoint of seniority, Ted is right in line for a coaches' position and no one can deny he has an enviable record."

We would be the last to ignore the records of both Hanks and Bell and in no way intended to imply they would be overlooked when the coaches for the new school are selected.

The point we were trying to get over and apparently missed was that the Minidoka area was going to be a powerhouse in sports in the future.

No matter who is chosen coach, the whole area is bound to benefit from such a collection of athletes.

**Nevada Abandons Big-Time Grid Try**

RENO, Nev. June 5 (AP)—The University of Nevada slammed the doors shut Saturday on its big-time football experiment—an experiment which resulted in financial fiasco.

The board of regents voted to consolidate the department of athletics into a new department of healthy-physical education and athletics under one director.

In 1939 when Nevada started the big-time football plan, the department of athletics, in effect, was taken from the university and placed in the hands of the alumni.

Eleven years and dozens of unpaid bills later, the university regained partial control of the athletic department and Saturday's move brings it completely back under the wing of the regents.

Rookie pitcher Bob Trice of the Athletics is known as a good hitter, too. He has four homers and five doubles for Ottawa in the International league.

## Mrs. Pierce Wins Tourney Medalist Prize

Mrs. Dorothy Pierce fired a 37 to win medalist honors in the Blue Lakes women's invitational tourney Friday.

Eight golf clubs and 110 individuals participated in the tourney which began Thursday at the Twin Falls municipal course and concluded Friday at the Blue Lakes course.

One of the highlights of the tourney was a hole-in-one scored by Mrs. R. J. Schwendlin.

Mrs. Schwendlin scored her ace on the par three third hole. She lost her first ball and fired the ace on an optional. She used a No. 5 iron on the 120-yard hole.

Results of the tournament follow: Pocatello—Mrs. Delma Ogden, low net; Mrs. Eileen McLaughlin, low gross.

Buhl—Mrs. Roberta Parrish, low net; Mrs. Iris Averett, low gross. Idaho Falls—Mrs. Gladys Neville, low net.

Jerome—Mrs. Ann Robinson, low net; Mrs. Ruth Wallington, low gross.

Blue Lakes—Mrs. Ann Harper, low net; Mrs. Verna Hinton and Mrs. J. Purves, tie for low gross.

Gooding—Mrs. Zoe Miller, low net; Mrs. Ted Isenberg, low gross. Boise—Mrs. Dolores Fitzgerald, low net; Mrs. Jo Nelson, low gross.

Twin Falls Municipal—Mrs. Mildred Miller, low net; Mrs. Vi Smith, low gross.

**Czech Defeats Mighty Miler**

LONDON, June 5 (AP)—A 24-year-old Czech, Stanislav Jungwirth, ran mightily Roger Bannister into the rain-drenched enders at the White City stadium Saturday to prove the four-minute miler can be beaten the same as any other human.

Jungwirth vanquished the speedy Briton by outmaneuvering and outrunning him down the last stretch of an invitation half-mile race watched by 80,000 fans.

The Czech was clocked in 1:50.7. Bannister came home three yards behind in 1:51.3, falling to third place, as expected, Mal Whitfield's world record of 1:49.6.

It was Bannister's first race since his phenomenal 3:59.4 mile at Oxford May 6 and his first defeat in a race of any sort since he finished fourth in the 1500 meters at Helsinki in the 1952 Olympics.

## Boise Football Coach Seeking Vandal Job

BOISE, June 5 (AP)—Robert S. Gibb, Boise high school football coach, said Saturday he is "negotiating" for the position of athletic director at the University of Idaho.

Gibb, who is also physical education supervisor for the Boise school system, conferred at Moscow Friday with the state board of regents. He went to Moscow at the regents' request.

It was understood a decision would be made within a few days. The post is a new one, created by separation of the athletic department from the associated students program. Gale Mix, formerly head of both programs, now manages the associated students.

Gibb, who has been in Boise since 1942, commented: "If we are successful in getting together, I believe the position would permit me to expand my services to the young people of Idaho. Most certainly, that is the consideration under which I would consider leaving Boise. I feel the newly created position poses a tremendous challenge, and I also am of the opinion that there is a definite future in athletics at the University of Idaho."

Gibb came to Boise after several years of high school coaching in Nebraska. He has guided the Braves to several titles in Big Six football and state track competition. He also formerly coached basketball with similar success.

## Indians Edge A To Keep Lead in American League

Mike Garcia held the Philadelphia Athletics to 11 innings and scored the winning run Saturday as the Indians to hold on to their slim American league lead.

The Indians exploded for three runs in the top of the off southpaw Alex Kellner who went the distance for the Athletics.

In New York Bullet Bob Turley fanned seven New York Yankees as the Baltimore Orioles took the opener of a doubleheader 2-1 but the champions came back to get an even break with a 3-1 victory in the nightcap, which was played under light for the last two innings.

The split cost the Yanks half a game to the league-leading Cleveland Indians. They trail the Tribe by 2 1/2 games. The Yanks have yet to win a double bill, having divided in all six they've played.

Johnny Logan slashed four successive singles and Warren Spahn pitched the 33rd shutout of his major league career as the Milwaukee Braves snapped a five game losing streak with a 7-0 win over Pittsburgh in Milwaukee.

The Braves rapped four Pittsburgh pitchers for 15 hits, with everybody in the lineup except Eddie Mathews getting at least one. The best the young slugger, major league home run king a year ago, could do was a pair of walks in five trips.

The New York Giants gave the Cincinnati Redlegs another wallop Saturday 7-0 to hang onto second place in the National league race. Johnny Antonelli allowed Cincinnati eight hits to win his seventh game of the year. Harry Perkowski was the losing hurler.

Hank Thompson put the Giants out in front in the first inning with a home run into the right center-field bleachers after Alvin Dark walked.

In Chicago the league-leading Brooklyn Dodgers, punching out a total of 26 hits to support effective pitching by Russ Meyer and lefty Johnny Podres, swept a doubleheader from the Chicago Cubs 8-5 and 6-3 to run their winning streak through eight games.

Meyer yielded six hits in the opener, including two homers by Hank Sauer, that boosted his total to 18, to take his 12th straight decision over his old team.

Boston and Detroit divided a split day-night doubleheader in Boston, the Tigers winning the first 6-0, on George Zuverink's three-hit shutout and the Red Sox the night game 6-4, with a homerun outburst.

Shoddy Washington fielding enabled the Chicago White Sox to score twice in the tenth inning and defeat the Senators 6-3 in Washington. Virgil Trucks, who replaced Don Johnson on the mound in the ninth inning, posted his seventh victory.

The Philadelphia Phillies handed Vic Raschi his first National league defeat, knocking out the St. Louis Cardinals' right-hander while gaining a 9-4 victory in St. Louis.

Raschi, who had won five previous games, went out in the seventh inning after the Phillies had reached the big ex-Yankee for eight runs on nine hits, which included Del Ennis' 11th homerun.

# Santee Misses Try Mile; Cracks 500 Meter Mark

PTON, Calif., June 5 (AP)—Wes Santee of Kansas set a new American record for the mile run Friday when he ran the distance in 4:00.6, the second fastest in history, but he missed out in his assault on breaking the mile.

The 25-year-old star also stunned officials of the Compton track and field meet, fans and press alike, when he bettered the world record for 1,600 meters en route to his mile finish.

Santee was timed at 3:42.8. At first it was announced that the 1,600 meter time, better than the world mark of 3:43, was official and application would be made for its acceptance.

Then Dr. Floyd Haynes, president of the district AAU, reversed the announcement and said it could not be applied for, but an hour later an astonished Santee and the fans heard that recognition of the 1,600 time could be sought.

The AAU head had ruled that a race beyond 300 yards could not be timed at distances short of, in this case, a mile. A check of the rule book showed that distances under 300 yards may not be timed short of that distance.

Signing official forms seeking recognition of the mark, Santee declared: "Well, I'm glad of that."

One timer, he said, clocked him at 3:42.7, two others at 3:42.8. The 1,600 meters is approximately 120 yards short of one mile.

The 1,600 meters record is shared by Gunder Haegg, Lennart Strand and Werner Luegg.

Santee won the international mile, big feature of the program, by a tremendous margin over Ingvar Ericsson, Sweden.

Santee broke his own American record, the 4:01.3 he set last Saturday at Mission, Kans., in the Missouri valley AAU meet.

Clockers caught the lean farm lad from Kansas university in 58.1 for the first quarter, the pace maker at 1:58.2 for the 800, with Santee timed at 1:58.7.

Moving into a lead on the third lap, Santee was timed at 2:56 for the three-quarters and 60.3 for the lap itself, and then 61.6 on the final lap.

He appeared to slow down from a driving-run midway on the final lap.

Santee blamed the slightly chilly night air for his failure to break 4 minutes. "I got cold on that last lap," he said. "I think I can do better in warmer weather."

The temperature was in the 60's.

Santee declared he was "still going to try" to break Bannister's record.

Santee also said he wished his pace setter, Billy Tidwell, Ft. Ord, Calif., could have stayed in front in the final phases to help as a windbreak.

**Utah Fish, Game Group Ends Meet**

SALT LAKE CITY, June 5 (AP)—Members of the Utah fish and game commission ended a two-day special meeting Saturday, dealing generally with only routine matters.

Commission officials said improvement projects at hatcheries at Panguitch, Glenwood and Kamas were reviewed.

They said the state fish and game department's audit report was studied and approved.

The commission is required by law to hold quarterly meetings. It can call special meetings if necessary.

J. Perry Egan, department director, said the Friday and Saturday session was needed to consider routine matters that couldn't wait until the regular July meeting.

**Cowboy Hitters Have Ages Above .300 Mark**

MAJORS in 302 and MINOR Aves 300. Tom Sarna, Idaho Falls third baseman, continues to lead the league with a .461 average. He also has 65 hits and 101 total bases to pace those departments. Sarna and Bernard Mateosky, also Idaho Falls, lead the league in triples with six.

John Maggio, Salt Lake City, has 10 home runs to lead the league while Mateosky leads in RBIs with 43.

The Cowboys are in sixth place in team batting with a .202 average. Idaho Falls leads the league with a team average of .316.

In team fielding, the Cowboys continue to set the pace in double plays with 48 although in the overall standings they are in only fourth place.

Mike Shade, Salt Lake City, has the most wins—7—to lead the league.

## Local Lawyer Presents Case In Dam Probe

(From Page One)

In the final round of the hearing, Idaho Power's rebuttal, the company will seek to supplement testimony that its three dams, costing a total of 133 million dollars, would produce almost as much power as the federal project, provide all flood control that is economically justified in the federal project, provide all flood control that is economically justified in the Hells canyon reach and offer more navigation and recreation benefits.

Parry, who looks younger than his 38 years, is considered one of Idaho's leading water-law specialists. He is senior member of a seven-man Twin Falls law firm, one of the largest in the state.

"Pat," as he is known to friends, has had his Twin Falls shingle out since 1919 when he was graduated from University of Nebraska. In 35 years he has handled only one criminal case.

As attorney for several Idaho irrigation districts he came to Washington in 1952 to appear before a congressional committee in opposition to a bill to authorize the Hells canyon dam. Later he agreed to serve Idaho Power for the first time as attorney at the power commission hearing.

Parry's long experience in the field of water law has proved valuable at the hearing. Although Idaho Power and consulting engineers are constantly available, he seldom has to consult them during cross-examination of expert witnesses on complicated technical testimony.

The examiner on several occasions has asked Parry to fill in, or straighten out, the record on water matters.

The soft-spoken Parry has participated in many heated debates, during which he assumes a "hopping mad," outburst jaw posture. But a longtime associate says he never has seen Parry lose his temper in court.

Parry has been absent from the hearing only 10 minutes in the past 11 months. On his arrival at the hearing room one morning he noticed his shoes didn't match—one was brown, the other black. He took over while Parry returned to his hotel room to change shoes.

"I was confused by witness Momen's last answer last night," Parry told a reporter.

## Plans for Feting Graduates Made

FILER, June 5—Plans were made to entertain local graduates with a dinner at 7 p.m. Monday, June 14, at the Filer Grange met Friday.

Money received from the penny march was given to the muscular dystrophy fund.

The home economics committee will test pressure cookers on a date to be announced later.

Kimberly Grange will present the program for the Filer Grange meeting July 2. A memorial service was held for E. H. Harding.

A mock wedding was presented by P. J. Eisenhauer, Harley Williams, Elwood McCauley, Homer Crawford, Craig Dunlap, Art Ohlides, Rex Lancaster, C. G. Thomas, Lyl Wallis, Ray Jackson, J. H. Sharp and Harold Lancaster.

Refreshments were served by Mr. and Mrs. Harley Williams and Mr. and Mrs. Homer Crawford.

## Bidding Is Slated On School Bonds

SHOSHONE, June 5—Shoshone school district No. 312, will receive sealed bids June 28 for the sale of school bonds amounting to \$220,000, bearing interest at the rate of six per cent.

Bids will be received at the office of superintendent at the high school up to 8 p.m. that day. The school board reserves right to reject bids. All bids must be enclosed in a sealed envelope and addressed to Mrs. Hazel Haddock, Shoshone, and should be marked on the outside "sealed bids for bonds."

## Fire Training for Scouts Scheduled

SHOSHONE, June 5—A fire training school for all Explorer Scouts who live north of Snake river will be held here Friday under direction of Robert Martin, fire supervisor for the district bureau of land management.

Martin said the boys will meet at the local office at 9 a.m. A tour of the office will be held and visits made to lookout stations. A demonstration of fire suppression is planned.

George Brennan, Jerome, district Scout leader, is acting coordinator between the Scouts and bureau of land management officials in charge of the school. About 50 boys have signed for the school so far.

## Final Plans

SHOSHONE, June 5—Final plans will be made for the June 11-12 Shoshone Vigilante days rodeo at the Chamber of Commerce meeting Monday noon.

Ernie Watts' string of bucking horses and bulls will be used again this year. Jack M. Murphy, general chairman of the event, announces. Entries for contestants will be open until 6 p.m. Thursday and the rodeo association will put up \$250 in prizes to be shared with entry fees to winners. Entry fees are \$10 each event.

Advertisements concerning the rock picker were noticed by the Australians in several American agricultural machinery journals, says Heinrich. He expresses an interest in possibility of importing the machines into Australia.

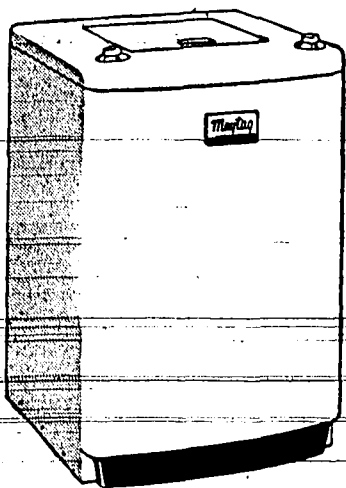

Heinrich adds that dollar allocation may prevent importation of the machines. In that event, he says his firm is interested in acquiring a sample rock picker and inquires about possibility of being granted sole manufacturing rights for Australia on a royalty basis.

### Guerillas Is Hitting Reds

FOSSA, June 5 (AP)—The movement against the communists is reported to be hitting the forests of Manchuria.

There have been active against the communists since the withdrawal of the nationalist government from mainland China.

Nationalists say that these guerrillas will rise in mass if General Chiang Kai-shek attacks the mainland.

The guerrilla movement is strong in the north and central China.

Nationalist intelligence says several thousand guerrillas from the Chinese army are operating in Manchuria.

In forest hideouts, they are reported to be attacking the Chinese army.

Some sources put the total number of guerrillas as high as 100,000.

Some other sources say that the guerrillas are active. These admissions are made in the form of dispatches in Communist newspapers.

That revolts by "Kuomintang agents" have been put down by some "Kuomintang agents" is an execution.

Chiang is the name of the nationalist political party.

Chiang Kai-shek, elder son of the nationalist leader, predicted several months ago that guerrilla activity would be intensified this spring.

Reports say the predictions are materializing.

Chiang Kai-shek is head of the nationalist government.

In the past, he is in close touch with the guerrillas.

Nationalists exert loose control over the guerrillas, and receive about 10 percent of their income from their activities.

### Upgraded Plans for Roads Given

TWIN FALLS, June 5 (AP)—The federal highway program has announced plans for upgrading of forest highways in the northwest.

The plan calls for upgrading of 18 projects which would be completed by the end of the fiscal year.

The plan calls for upgrading of 18 projects which would be completed by the end of the fiscal year.

### PANEL MEETS

BOISE, June 5 — The first meeting of the Baptist Education Committee was held Wednesday night.

The committee is composed of Mrs. Fred Moore, Mrs. Bond, Harold Tanaka and president of Sunday School and other committee members.

### Practical Nurses Learn by Doing

Receiving instructions in the proper method of transferring patients from hospital bed to wheelchair are Mrs. Hazel Critchfield, second from left, and Carol McCall, right, student practical nurses at Magic Valley Memorial hospital. Instructors of the "team" are Elizabeth Voegtli, left, and Mrs. June Navin, both registered nurses. Adolph Bartlett, Twin Falls, is the patient. (Staff photo-engraving)

### Applications Being Processed For Practical Nursing Course

VACANCIES in the year-long practical nursing class to start in October at Magic Valley Memorial hospital are being filled now, reports Dorothy Aldrich, hospital nursing service director.

Present plans are to limit the class to 15 students. Interested persons are asked to apply as soon as possible. Written applications should be directed to Miss Aldrich at the hospital.

Local residents may complete arrangements by telephone for interviews.

The course consists of about 500 hours of classroom training plus about 1,200 hours of practical experience.

Classroom study covers hygiene, nursing procedures, biology, anatomy, community health and sanitation, nutrition and diet, medications, nursing of medical, surgical and communicable disease cases, care of children, mothers, infants, care of convalescents, aged and handicapped and first aid.

Practical experience includes supervised work in all types of patients, diet kitchen, central sterilizing in supply, emergency room duty and new born nursery.

Mrs. June Navin is the instructor. An initial charge of \$40 is made for uniforms, books, examinations and equipment. Students may supplement their income by working at the hospital while completing the course. Housing also is available for students who need it.

The course is sponsored jointly by the Licensed Practical Nurses and Magic Valley Memorial hospital and is operated through the school system by the state vocational training office.

### Grange Sponsors Hot Lunch Plans

### Lawyer Doubts Work Initiative Will Get on Idaho's 1954 Ballot

BOISE, June 5 (AP)—An attorney for the group backing the "right to work" initiative proposal has expressed doubt that it would get on Idaho's 1954 ballot regardless of how the state supreme court rules on the validity of the title.

Extra P. Monson, Blackfoot, told reporters that the People's Right to Work committee had held up circulation of its petitions until the court decides a contest over the title. The deadline for submitting the 20,400 signatures necessary to get it on the ballot is July 2.

He defended the short title given the proposal by Atty.-Gen. Robert E. Smylie in arguments before the court saying, "right to work" was the commonly accepted name for such laws.

John Carver, Jr., Boise, representing the American Federation of Labor and Congress of Industrial Organizations, attacked it as failing to be "true and impartial."

The labor unions have asked that the measure, which would outlaw the union shop, be called "initiative proposal prohibiting union membership or nonmembership as employment condition."

Monson maintained that the constitution gives the court the right to review only the decisions of district courts, the public utilities commission and industrial accident board, and the legislature probably exceeded its right in saying it could review initiative titles.

Carver argued that the attorney general acted in a quasi-judicial capacity, and his actions could be reviewed. If not, he said, there would be nothing to prevent an attorney general so inclined to title such a proposal "a union busting initiative proposal."

Monson said "right to work" title is commonly accepted, even by union publications, but Carver said "the people are entitled to be told at least that it has something to do with unions."

Carver claimed that the short title is a part of the ballot title which, according to law, must be fair and impartial and not an argument for or against the proposal.

Although he did not argue the case orally, Smylie submitted a brief which said a different set of standards applies to the "short title" and the "ballot title," and that his nomenclature complied with the law.

## Bright Planets Are Appearing Early for West

By J. HUGH PRUETT  
Astronomer, Extension Division  
Oregon Higher Education System

Bright planets, three of them and in a short line, now are appearing on the celestial screen in the west shortly after sunset. These, in order from the highest, are Venus, Mercury and Jupiter.

The line slants downward strongly to the right. Since Jupiter, the lowest and second in brightness, now sets only an hour after sunset, we must look for these stars as soon as the west is darkening. Venus, the highest and brightest, likely can be spotted almost as soon as old Sol has dipped below the sky line. It then is about due west, but will swing northward as it follows the others toward the setting point. All finally will disappear far over toward the northwest.

Mercury lacks the brilliance of the other two, but if it were high in a dark sky it would appear as a very bright star. The best view of these planets will be obtained by those who have a clear and level horizon.

The bright stars Castor and Pollux, the Twins, are near this planetary line. Orange Pollux is almost directly above Venus while Castor stands a little north of his twin. An hour after sunset, yellow, un-twinkling Saturn is well up in the south. A little west of Saturn and at the same height, faithful Spica, a real star, twinkles. This old dog of war now is very bright but will be considerably more luminous by the end of the month when he will be nearer the earth.

While out planet gazing an hour after sunset, let us locate other bright stars not yet mentioned. Only a little south of the zenith and directly above Saturn, orange Arcturus is conspicuous at the bottom of the Kite. High up in the west-southwest, blue-white Regulus holds forth at the end of the handle of the Sickle. The blade of this sickle, made up of dim stars, extends toward the right and is open downward. Far over toward the north-northwest, yellow Capella twinkles near the horizon.

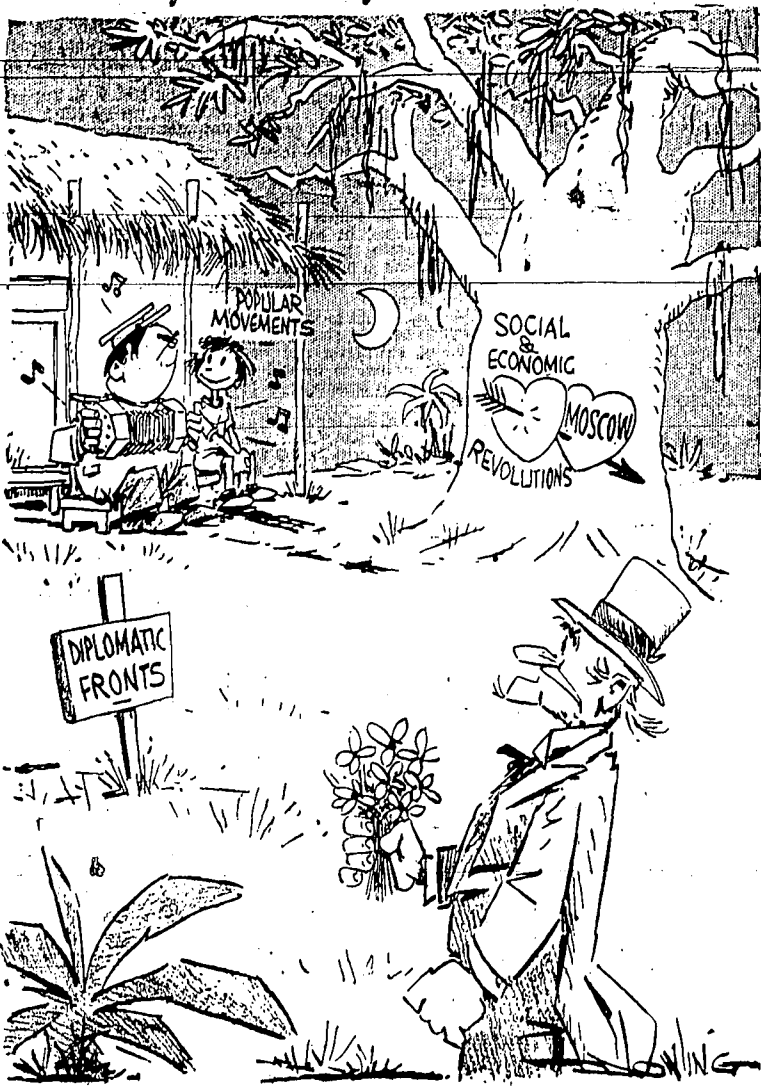

Turning to the eastern half of the sky, we find some interesting stars. Quite high in the east-northeast, bright Vega, the Jewel in the Harp of Orpheus, scintillates with its white light. Lower than Vega and considerably to the left, the somewhat dimmer Deneb holds its place at the head of the large figure of the Northern Cross. This cross, made up of fainter stars, now is lying on its side with its foot extending toward the right. Low in the east, bright Altair in the Eagle just recently cleared the horizon.

Note the W-shaped figure of the stars of Cassiopeia just above the northern horizon. And near the zenith look for the Big Dipper—upside down.

### Meeting to Start 4-H Electric Club

John Gaenzle announces that boys 12 or 13 years of age interested in joining a new 4-H electrical club are invited to an organizational meeting at 7:30 p. m. Wednesday at the home of Gerald Winkler, 730 Grant avenue. Gaenzle will be club leader. To complete the 4-H electrical project, members will learn how to make a tool chest and use tools and how to solder and make splices. They will make a test lamp and extension cord.

## Why Do I Always Arrive so Late?

## Mighty Industry Interest in A-Power Spurs Drive to Break U. S. Monopoly

WASHINGTON, June 5 (AP)—A powerful surge of industry interest in atom power is spurring a drive in congress to break the government's monopoly before the legislative session ends.

Witnesses of the atomic energy commission testifying before the senate-house atomic energy committee in closed session on proposals to facilitate development of peacetime power from the atom can tell the legislators that:

Sixty-five companies are now investing their own dollars, in partnership with AEO, in research and development on reactors to produce electric power.

Private firms are putting \$ million dollars this year into the still non-existent industry, on faith that the investment will pay off 8, 10 or 20 years from now.

A single utility, Duquesne Light company, Pittsburgh, is contributing another \$ million dollars toward a government reactor. Duquesne had to beat out nine other companies for this opportunity to gain atomic know-how.

Sizable fringe industries are already springing up. Some 75 firms now make atomic instruments worth 20 million dollars annually. Private customers now buy more of the output than does the government.

AEO and the army expect at least a score of private firms to bid on the building of an atomic power package plant designed for use at remote military bases.

The commission had asked companies which planned to submit bids to give notice by March 20. The notices kept coming in, until AEO was obliged to extend the deadline to June 7.

The power-package represents the army's desire for a compact electric plant whose parts could be flown by plane and assembled on the spot. But the same kind of plant, industry realizes, could provide energy for remote towns where conventional power is expensive.

The AEO's five-year program to develop peacetime reactors has begun to roll. Five different types of reactor, some designed to produce fissionable materials as by-products, will be completed by 1958.

Experts on each of the five projects brought optimistic reports a week ago Monday to an all-day conference in Washington of the Atomic Industrial Forum, Inc. The forum is an association of firms

and foundations having a common interest in the peacetime use of atomic power.

The meeting gave dramatic evidence that businessmen are awake to the importance of the potent newcomer in industry. The 400 company officials listened intently to long reports studded with words like breeder, coolant, hafnium and moderator—and then asked questions showing they understood what they were told.

Thirty-three utility companies were represented, each trying to find out which type of reactor is most likely to succeed as an economic producer of electric power—and how quickly.

## Millionaire Who Gave Church 7 Million Tells Why He Did It

SAN FRANCISCO, June 5 (AP)—Millionaire Clyde Harris explained why he turned over a concern that does a \$7,000,000 a year business to the Seventh-day Adventist church.

"We had always felt that the money should go into missionary work when we died," he said. "But then we decided why wait until then? Let's do it now when we're around to watch the results."

Harris, a silver-haired man of 64, and his kindly-looking wife, stood uncomfortably on the stage of Civic auditorium this week and told of their gift to 4,000 Adventists attending the church's general conference.

"We heard a lot about those young missionaries going out in foreign fields and giving their lives for the Lord," he said. "We felt that our money could help."

"We felt that the Lord owns our plants and has all the way along. We were pleased to return it to Him."

The Harris' started business many years ago with a small flower hot-house. As they prospered, they eventually went into the unfinished furniture business. They built it into the largest company of its kind in America.

The company now operates three plants, one in Pendleton, Ore., another in Cleburne, Tex., and a

third at Alexandria, Va. Harris lives at Pendleton.

In addition to the pine mills, Harris owns other properties including timber, wheat and cattle. He plans eventually to turn them over to the church, too, as soon as he can train people to operate them successfully. The value of all the properties has been estimated at more than \$15,000,000.

"I feel very happy that we made the move," Harris said. "I'm glad we had the courage."

### Advice Given For Escaping Summer Heat

By The Associated Press  
A bit of advice for you who are looking for an escape from the congested city these weeks when the mercury climbs to unbearable heights:  
A tent and head for the hills.  
A complicated, too expensive, many mosquitos, you say? Summer camping can be fun— inexpensive. And the intermountain area offers some of the camping spots in the country. If you need a tent. The old-fashioned umbrella type—especially for a husband and wife. A wall tent is suggested for a family.  
Of course, is a must if you are to enjoy "roughing it." So get a mattress to sleep on. And a blanket to haul plenty of blankets to the campsite.  
If you'll need a gas lantern, a flashlight. A one-burner stove is sufficient to light any camp.  
Cooking out you can pick up a lot of inexpensive pots and pans. But there's nothing like cooking over an open fire.  
The odds and ends you'll need are an ax for chopping wood, a first aid kit, a bar of soap, a deck of cards and a good book.  
If you crave the crisp odor of a smoldering campfire, you can get it by cooking along a fishing rod and can of crawlers.  
The only other thing you need is the ambition to get up and go.  
If you decide to drive to one of the national parks in the area—Zion, Craters of the Moon, Grand Canyon, Yellowstone—think of the money you can save by sleeping in your tent instead of renting a room.  
For a real get-away-from-it-all, don't go to the national parks where there are a lot of people. Pick a secluded place, a lake shore or beside a rippling mountain stream. If you like to choose a lake. For fishing, a river is best, usually.

### Joint Show of Water Use Is Set Thursday

Members of the University of Idaho extension services and supervisors of the Twin Falls conservation system will conduct an irrigation demonstration and meeting at 1:30 p.m. Thursday on the Salmon tract, according to W. A. Loughmiller, chairman of the board of supervisors for the Twin Falls soil conservation district.

Carl G. Painter, University of Idaho extension soil specialist; Zuma Mills area engineer for soil conservationists, and C. W. Daigh, county agent, will set up the equipment for the demonstration. Wednesday on the Eugene Griff farm, two and one-half miles south of Berger on highway 93.

They plan to choose one of three fields on the Griff farm for the demonstrations. Painter will discuss water penetration and absorption and Mills will handle the structures used in the demonstrations. The most desirable size of furrow stream and length of run will be discussed and the use of different types of control equipment such as sprinklers, siphon tubes and gated pipes will be shown.  
Anyone interested in the technology of irrigation is invited to attend.

## Pacts Okayed On Indochina Freedom Plan

PARIS, June 5 (AP)—Premier Joseph Laniel and Prince Baudouin, head of the government of Viet Nam, have initiated two long-pending treaties granting independence to the Indochina states but keeping it as a member of the French Union.

By the action France took a step toward removing one obstacle to possible U. S. intervention in the Indochina war. Secretary of State Dulles in a speech May 7 declared, "Present conditions there do not provide a suitable basis for the participation of American armed forces. Among other things, he said France should give 'greater reality' to her promise of independence."

Formal signing of the treaties by President Rene Coty of France and Chief of State Bao Dai of Viet Nam must await completion by negotiations of the annexes. These are supplementary agreements which are to specify the terms of Viet Nam's association in the French Union and the details of transferring governmental powers.

The treaties and the annexes must then be ratified in both countries before they become effective.

The word got about and Mr. and Mrs. Burdett got their pet back. The next Wednesday rolled around and as Burdett opened the back door to go out the bird flew from its cage to his shoulder and then away.

It was a cold night, that Wednesday night and Burdett was sure the bird would die, but Mrs. Chalmers Martin had a different story for them when she telephoned Mrs. Burdett Thursday morning.

When Mrs. Martin stepped into her back yard Thursday morning, there on the lawn mower, singing to the top of its lungs, was a tiny blue bird. It hopped onto the finger Mrs. Martin offered it and permitted itself to be carried into the house.

The parakeet isn't going very far any more. Her wings have been clipped—and close!

## Gliding Enlivens Quest for Glider

LEWISTON, June 5 (AP)—A Lewiston man who flew to Spokane to arrange for a glider to take part in an air show here Sunday ended up in a "glider" himself.

Bob Cray, chairman of the aviation committee of the Lewiston Chamber of Commerce, reported he did the gliding act Wednesday afternoon when the propeller came off his light plane. He said he and a passenger, Jon Andrews, Clarkston, had just taken off from Feltz field in Spokane when their motor started acting up.

They headed for open country north of the Spokane river and had just cleared the congested Millwood district when the propeller snapped and the propeller was thrown off.

They landed in a farmer's field with no further damage to the plane or injury to pilot or passenger. Cray hired another plane to locate the heavy metal prop from the air, and retrieved it by car later.

Service Conducted For Dick Andreoff

BUHL, June 5—Funeral services for Dick Andreoff were conducted Friday afternoon at the Buhl First Baptist church by the Rev. Harold Fremont Smith, assisted by Roy E. Hopkins.

Mrs. John Wilson sang two solos, accompanied by Mrs. Ivan Bonar, who also played the prelude and postlude.

Burial services were held at the Buhl cemetery, accompanied by Mrs. Ivan Bonar, who also played the prelude and postlude.

Ballbearers were Ernest E. Green, Harold Green, James W. Hart, Marion Hatch, Vernon Davis and Otto Low. Concluding services were held at Buhl cemetery.

A modern fireboat can pump 20,000 gallons of water a minute.

SANTA BARBARA, Calif., June 5 (AP)—An antique, square-rigged bark appeared out of the fog offshore like a ghost ship from a bygone age. Started landmen weren't convinced it was real until they heard the rattle of a chain as the ancient four-master dropped anchor.

A reporter dispelled the mystery by boating out, to be told the vessel was a training ship with 105 middies from Japan.

One of the two persons on deck who spoke English said the craft's total complement 615 including officers and crew—had crossed the Pacific without touching land in 32 days.

It was to set sail for Los Angeles when the fog lifted and touch at San Diego and Honolulu on the return voyage.

Did they have a good trans-Pacific crossing?

"Sure," said the Japanese spokesman. "We made it, didn't we?"

## Grains Take Short Stride; Trading Slow

CHICAGO, June 5 (AP)—Most grains made small advances on the board of trade this week in dealings which remained on the slow side. In the case of July soybeans the gain was large, totaling 16 1/2 cents.

New crop wheat started to show up at terminals and most of it went into storage, presumably for impounding under the government loan. That was the main reason for the slightly firmer tone in wheat, particularly Friday.

### Beans Held in Place

In July soybeans the gain was attributed to short covering, supported by a sharp rise in cash soybean meal prices. New crop soybeans, however, were unable to get anywhere in view of reports of better germination that had been anticipated.

Wheat closed the week 14 1/4 higher, corn 14 3/4 higher, oats 1/2 to 1 cent higher, rye 14 1/4 higher, soybeans 2 cents lower to 16 1/2 higher and lard 40 cents lower to 63 cents a hundred pounds higher.

### Reports Encouraging

First reports that new crop wheat was going into storage were encouraging to the bulls and created some covering among local traders who have been on the short side of this market for several weeks.

Quality of the grain harvested so far was said to be good with moisture content relatively low, particularly when recent rather heavy moisture was considered. As the week ended clear skies returned to the southwest, another factor encouraging limited buying on the bread grain.

## Stock Market Keeps Rising To New Tops

NEW YORK, June 5 (AP)—The stock market kept showing right on up to new peak levels this week, just as it has been doing for nearly nine months.

There was some faltering, of course, and the market ended the holiday-shortened week right where it was a week ago.

Nevertheless, the Associated Press average of 60 stocks was able during the four-day week to push up to a new high mark—the best level for the average since Oct. 25, 1929.

Ever since the middle of September, the market has been courting upward with little pause now and then for consolidation of its gains. It was that kind of a situation again this week.

### Brokers Restive

It has been happening so often that some brokers are beginning to get a little restive about the possibility of a reaction that could attain stable dimensions and still be within the bounds of a normal retirement of values.

One broker said he found no signs of internal weakness in the market but he felt that some unexpected piece of news could knock the market off its feet with little trouble.

Stocks this week, however, gave no sign of faltering seriously. Individual issues responded immediately to favorable developments, and whole sections of the market moved ahead when the background suited that action.

### Strength Selective

There was a lot of selective strength in individual issues and groups all week. Favorable news was capitalized on immediately.

However, an air of caution persisted. Volume this week dropped to a daily average of 1,830,000 shares as compared with last week's daily average of 2,145,000 shares. This week's daily average was the lowest in nearly three months.

Does that mean that traders and others are holding to the sidelines as a precautionary measure to see whether a reaction develops? Or is it simply apathy pegged on the short week over Memorial day and the beginning of the vacation season?

## Meeting Planned By Farmers' Unit

SHOSHONE, June 5—The next Lincoln county meeting for Farmers' Unit was announced for 8 p.m. June 21 when members of the Shoshone group met Thursday night at the Gones school building.

The June 21 meeting will be held at the Gones school building. Mrs. Albert Clapp, Mrs. Cap Jones, Mrs. Archie Jones, Mrs. Jack Hannan and Mrs. Carl Kerner will be hostesses.

A box social was discussed for the Farmers' Unit Juniors. The next regular meeting of the Juniors will be held at 8:30 p.m. June 22.

## AS YOUR MINISTER SEES IT

By CLAY H. STEPHENS

(Pastor, Assembly of God Church)

"What meaneth this?" is our thought for today, taken from Acts 2:12.

The outsiders were amazed at the strange phenomena that had taken place in the New Testament church; they were all filled with the Spirit, they had received power in a supernatural way.

People were stirred and began to inquire about the birth of this New Testament church, and inquiring the way of salvation. What meaneth this? What meaneth this? What meaneth this?

Rev. Stephens and the next was expressed in Acts 2:37. What shall we do? The church needs that power, the

## Film of John Wesley Planned For Showing at Local Church

A colorful figure of history will come to life on the screen for Twin Falls residents when the new color film, "John Wesley," is presented at the first Methodist church, June 15 and 16, announces the Rev. W. A. MacArthur.

John Wesley's rescue from a burning house at the age of 5, at the beginning of the film, forecasts the dramatic and eventful life which unfolds in this story of a man of slight stature but of impelling influence upon his contemporaries and upon history.

The English clergyman thought his venture in America as a missionary to the Indians in the Georgia colony was a failure, but it was the kind of failure which opened the door to the discovery of a religious certainty he had been seeking.

Furthermore, this discovery, in which John Wesley felt his "heart strangely warmed," led him to face mobs unafraid, and to ride 250,000 miles on horseback, changing the masses of English people from low state of moral degradation to sturdy and happy uprightness.

His appeal to the common man, his establishment of schools, clinics, lay preaching and societies—finally his sending supervisors for the movement in the new world after the American revolution—all these make the film one which will be long remembered.

The Rev. Mr. MacArthur is planning to show the film not only to church members, but to invite neighboring pastors to attend with preview committees from their churches. The Methodist Men's club is sponsoring the showing.

McLemore Says Australia Is Cemetery for Forgotten Cars

SYDNEY, Australia — If Jack Benny ever needs a replacement for his old Maxwell, then Australia is the place for him to come.

This continent is, among other things, a vast ancient car museum. Just as old elephants go off somewhere to die, so do doddering American automobiles find their way to the land down under.

The streets of Sydney roar with cars built in the roaring twenties, and the used car lots offer hundreds of machines that were the hottest things on the road a few years after World War I.

I stopped at a day and a salesman showed me a 1924 Dodge touring car that he said was in "top nick." "A good buy, a real good buy," the salesman said, "because it has extra splashes and spokes." Splashes, I found out,

are fenders. Ranged alongside the Dodge were such antiques as a Moon, a Kissel Kar, several Doria and any number of Essexes and Whipples.

The salesman said he was ready to let one of the Doria go dirt cheap as "some of the shields are missing, and one of the shields has its brittle broken." Translated into American, this means that the Doria was missing several side curtains and that the insignia was cracked in one of the curtains.

To an American, the prices asked for these venerable autos are fantastic. Let me quote a few of the hundreds of ads in Sydney papers: "Studebaker-Rockne saloon, 1933. Very original throughout. 225 pounds." That runs close to \$475! "Reo sedan, 1936. Seat covers. 245 pounds."

"Reo sedan, 1936. Good order. 200 pounds." Without seat covers the same make

### Group Proposes Shift of Hayseed

WASHINGTON, June 5 (AP)—Representative Ellsworth, R., Ore., led a group of witnesses who urged the house banking committee to approve legislation authorizing transfer of government-owned hayseed from the Commodity Credit Corporation to other government agencies.

Ellsworth, author of such a bill, told the committee yesterday a similar measure had been passed by the senate. He asked the house group to approve the senate measure.

He said the bill would permit CCC to dispose of about 900,000 pounds of its 77-million-pound supply to the forest service, fish and wild life service and bureau of land management. These agencies, he said, would use the seed to revegetate grazing land owned by the government.

### Spellbound

SACRAMENTO, Calif., June 5 (AP)—L. B. Rothwe, a service station attendant, was robbed of \$1,470 but he couldn't tell police much about the two male members of the holdup-gang.

He remembered the red-haired girl, about 20, who held a gun on him, though.

"She was very, very well-built—I mean, she had one of the best figures I've ever seen," he told authorities.

THERE'S A WEALTH OF HEALTH IN OUR VALLEY...

add Butter...then it's perfect...

There's pure sunshine health in that golden pat of butter... flavorful, nutritious, appetizing. And there's wealth, too. For that butter came from farms and creameries of the Snake River Valley, from our own dairy industry... an industry which is a cornerstone of our prosperity.

In one year alone, it poured more than sixty-five million dollars into the pockets of our citizens... dollars which affected every resident of this area. Our health? Third highest in the nation! Fortunate, indeed, to be healthy and prosperous! Two perfect reasons to add butter—to more foods, more often.

JUNE IS DAIRY MONTH, reminding us to use more of our own good dairy foods every day of the year, for health, nutrition and downright good taste. The dollar you spend for dairy products is a dollar you'll see again. Support farm industry that helps support you!

Dairy products represent 30% of our food—only 15% of the cost.
