Driver Held For Offense Under Code

JUNE 23 (AP)—The state supreme court has ruled in favor of the uniform traffic code without a "saving clause" that relieves motorists of punishment for offenses, but not tried, before it took effect.

The court ruled that the legislature wiped out several traffic laws that the legislature passed in 1953. The unanimous ruling came in a case of a Nez Perce county motorist charged with driving.

Strike Threat Seen in Steel Wage Dispute

PITTSBURGH, June 23 (AP)—Union rejection of a contract settlement offered by U. S. Steel corporation today raised the threat of a strike in the nation's steel industry within a week.

The powerful 170-man wage-policy committee of the CIO Steel Workers angrily rejected the undiscussed settlement offered by U. S. Steel yesterday because it did not "meet the requirements."

Union "Stiffens"

It said improvements in business "strengthened the union's hands" and were responsible for a "stiffening attitude" by the union in the negotiations.

In its original contract request, it asked for a 10 percent wage increase, a guaranteed annual wage, improved pension and insurance plans and other contract changes.

Mighty Flood Crests Periling Des Moines

DES MOINES, June 23 (U.P.)—About 5,000 volunteers worked shoulder-to-shoulder sandbagging Des Moines river levees in a frantic effort to hold back the worst flood crests in city history.

The Des Moines river stood at 27.8 feet at noon, 4.8 feet over-flood stage and was expected to crest at 29-to-30 feet by tomorrow morning. The previous record high was 27.3 in 1903. Army engineers estimated \$3,500,000 damage in the Des Moines river valley alone and predicted another \$7,000,000 damage if the city dikes fail. WASHINGTON, June 23 (AP)—The house agriculture committee has voted to let corn belt farmers choose between rigid and flexible price supports on their 1955 corn crop.

Experts said that one probable effect of the provision, as written into the nearly completed farm bill, would be another year of rigid high price supports on corn, with continued acreage controls.

Hunt Goes on For 4 People Lost in River

TWIN SPRINGS, June 23 (AP)—Search continued today for four members of the William Logston family who were missing and believed drowned in the rushing Boise river near here.

It was assumed by Boise county sheriff and state police officers that Mr. and Mrs. William Logston and their two children—Howard, 8, and 4-year-old Peggy Ann—plunged to their death when a chain hoist on their river-crossing cable car snapped and dropped them in the river.

Trading Plan Advanced by Senate Panel

WASHINGTON, June 23 (AP)—Sen. Wm. W. Easton, D-Tenn., declared today that the Senate will deprive President Truman of "minimum weapons power to meet and counter the threat of the communist offensive" if it delays enactment of his foreign trade program.

Easton is leading a fight by 22 Senate senators and Senator Wm. W. Easton, Ore., to substitute a "broader trade program" for the "house-passed bill to extend reciprocal trade agreements for a year. The law died in 1953 but can be revived."

3 Years Asked

Easton last March asked Truman to give the act three more years to let him get a tariff authority to cut tariffs up to 50 percent over that span. But Truman leaders sat on his proposal and agreed last month to a simple one-year extension with the understanding that Congress would consider the program early next year.

Easton looks the senate floor to get enactment of the full Elmer trade plan now, another amendment—designed to cut down on farm products—was some chance of adoption.

Danger Claimed

In prepared speech, Gore said that year extension of the law would mean that for another year the United States would not have the minimum needed to meet and counter the growing threat of the communist trade offensive." Gore

means that our markets will continue to contract. It is that for another year our trade policy will be, really, we make up our minds, means that the Soviet and Chinese trade bait will look more tempting to our allies who grow more restive and waiting for us to make up our minds.

Truman leaders remained convinced they could beat down a Gore vote when it comes to a vote, by tomorrow or Friday.

Some of these leaders said they would not bet against an amendment sponsored by farm state senators of parties aimed at curbing reciprocity.

Justice
Indies Case
Utah Man

CITY, June 23 (AP)—A Utah man was taken to court today to face a charge of kidnapping.

Levy, New York, the American Civil Liberties Union, telegraphed the Utah state attorney general's office he had Associate Justice Tom Clark a motion for a stay of execution.

Levy's motion is denied, I will be before the other justices of the Supreme Court tomorrow," Levy wired.

On Borrowed Time
Levy is living on borrowed time. He has been sentenced to face a firing squad. A date of execution was for last Saturday.

Levy's appeal to the Supreme Court is the second for Neal. The Supreme Court again refuses his case, only the Utah pardons would be left behind and the firing squad.

Neal won't consider Neal's all legal resources have exhausted, as part of its long-term policy.

Trial Denied
The 10th circuit court of appeals in Denver denied Neal a new trial. It found Neal had denied due process of law violation of killing Owen T. Salt Lake City police sergeant in 1951. The court said the complaint of had "resulted in a physical or injury" to Neal. State prison officials said the news had. They said Neal was nervous and upset.

Utah attorney general's office said Neal must be re-sentenced if the U. S. Supreme Court takes action.

Neal's date of execution, by law, could be no less than 30 days from now, more than 60, from the present sentencing.

"Easy Money" Is on Way to Nourish Hoped-for Rise in Nation's Business

NEW YORK, June 23 (AP)—Easy money is on the way today to nourish the hoped-for upturn in business.

Easy money is being offered to keep new homes going up, to encourage industry to produce goods for the fall and winter markets, to help move the crops to market.

Easy money also will ease the pains of the U. S. treasury department which will need about 5 billion dollars of extra funds by the first part of August—and altogether must borrow around 10 billion dollars by the end of the year. The treasury wants the money to be available for borrowing—and it would appreciate interest rates being kept low.

ness over the outlook for business this fall—they just want to be sure that business will find it easy to expand, if an upturn, is a poring.

Care of Your Children

By ANGELO PATRI

Have you planned what the children are to do during school vacation? If you have, your summer is going to be freer of worry than if you have not. Nature fills the children and youth in general must work their way to growth. No action, no growth, is her law. If vacation days are not planned to keep the children and young people wholesome occupied, they will find occupation and it may not be as wholesome as one would wish.

The boys and girls who go to camp for the full season are cared for, we hope, well. The children who are enrolled in summer classes are in good hands. The older ones, who have jobs in which they rather worth-while experiences and earn a bit of money to help them pay education costs, are well employed. What about those little ones, the first and second graders? Aid those older for whom no plans have been made?

This is a matter for the community. Every child who is at a loose end is in danger of becoming a community problem. He becomes everybody's business. He soon proves this. Windows are broken, gardens are trampled, accidents occur; there is noise and disturbance centered about the footloose child. If he does not choose to go to the summer-school center, he need not. He is free to injure himself in body and character!

These children should be a charge on the conscience of the community. It is idle to say their mothers should attend to them. Their mothers very often are at work to earn the money to feed, clothe and keep a roof over them. The volunteer organizations should take over. This means the churches, the civic societies, the socially-minded individuals.

Why? Prevention is better and cheaper, than cure. Busy children are good children and good children are happy. The schools should list the pupils who have no plans for vacation days; and the list should go to the churches, to the Rotary, the Lions, the Ladies' aids, the parent-teacher association, and to such helpful men and women who volunteer their help.

The tales of delinquency flood the news. In my experience many of the sins the young commit are the fault of their elders who neglected to provide healthy, wholesome activities for them. Play, recreation, is not the answer. Children and young people soon weary of activity that has no roots in the life about them. They want creative activity. What is that? Where is it?

Vacant lots to be cleared of rubbish, gardens made, old and sick people's errands done, a fence mended and painted for some needy family, visits to hospitals, help given to the nurses—the world brims over with useful work children would love to be doing. What is needed is leadership.

Little children do not know the wrong words to say, but they must be taught the meaning of personal possession. How to deal with a child who is at this stage is discussed by Dr. Patri in leaflet P-57, "Discipline." To obtain a copy, send 10 cents in coin to him c/o Times-News, P. O. Box 99, Station G, New York 19, N. Y.

OGDEN SNAPS MAGIC VALLEY WIN STREAK WITH 9-0 VICTORY

Cowboys Lose Big Chance To Leave Pioneer Cellar; Mustangs Are Here Tonight

OGDEN, June 23 (AP)—Ken Hommel and the Ogden Reds broke Magic Valley's seven-game Pioneer league win streak with a 9-0 victory over the Cowboys Tuesday night.

Sports FROM ALL ANGLES

By BOB COUGHLIN Wednesday may go down as one of the few red-letter days in the annals of Magic Valley sports.

Wednesday night the hustling Magic Valley Cowboys return home after their most successful road trips in recent years.

Wednesday night they play host to the Billings Mustangs in a game that has every natural attraction for the fans—a league-leading outfit invading the grounds of the team that has come off the league floor and refused to play dead for the rest of the club.

Let's face it, the Bob Coughlin Cowboys right now are playing the best brand of ball in the entire Pioneer league.

In Monday night's game against Ogden they proved they could come back after their ace hurler, Al Ihde, was battered from the box.

Wednesday night they play host to the Billings Mustangs in a game that has every natural attraction for the fans—a league-leading outfit invading the grounds of the team that has come off the league floor and refused to play dead for the rest of the club.

As we see it, if the fans don't turn out in throngs for this one then something is wrong with baseball in Magic Valley.

Business manager Ed Schack reports a decided jump in the ticket sale for the coming series.

"Most of the people were just waiting for the club to catch fire before they bought books of tickets. It has and now they're ordering the books."

It's been a long time since we've had trouble finding a parking spot right at the entrance to the park. Maybe Wednesday night we'll have to park on the other side of Harmon park and take the long dusty walk.

Here's a little note that should thrill the highways to the Stanley Basin this week-end.

Great Falls Pounds Out Easy 15-9 Win

POCATELLO, June 23 (AP)—The Great Falls Electric scored nine times in the fourth inning and five in the fifth rolling to a 15-9 Pioneer league win over the Pocatello Bannocks Tuesday night.

Catcher Gar Myers was the big man in the Great Falls' 13-hit attack. He singled to keep the fourth inning rally going and later in the inning poked a grand slam homer.

Pocatello, trailing 15-3, made an effort to catch up with six runs in the eighth on three-run homers by manager Butch Moran and Tommy Robertson.

The Bannocks hurt themselves when they committed five errors. Every Electric safe on a miscue later scored.

In the big Great Falls fourth, Larry Nault was safe on an error, Myers singled, Pat Enos doubled, Mark Herring singled, Mike Wittwicki doubled, Frank DeLeon singled, Clem Moore was safe on an error, Nault was again safe on a bobbed and Myers then unloaded his round-tripper.

A trio of singles and two more errors accounted for Great Falls' fifth inning counters.

DeLeon was the winning pitcher although he was relieved by Morris Milburn in the eighth. Al Neuswander was the loser.

Big League Averages Up Under Sacrifice Fly Rule

NEW YORK, June 23 (AP)—If the sacrifice fly rule wasn't in effect this season, Brooklyn's Gil Hodges would be hitting below the select 300 mark Tuesday.

An Associated Press survey reveals big league batting averages have increased this season by the rule, which nullifies a time at bat for a batter who scores a runner from third base on a fair fly ball.

Hodges shows an 11-point gain in his average as a result of the rule. Without the rule he would be hitting .298. Figures include Monday's games.

New Blood Helps Cowboys to Wins

Four of the newer players who have joined the Magic Valley Cowboys are shown prior to the opening of a six-game home stand.

The Cowboys return to Jaycee park Wednesday night for the first of a three-game series with the league-leading Billings Mustangs.

The Reds gave Hommel ample support at the plate as Chico Terry led a 10-hit attack with three safe blows, including a bases loaded double in the eighth.

The game was scoreless until the fourth when Ogden jumped on Magic Valley starter Del Walker for four runs. The spurge featured doubles by Jerry Elder, Bill Newkirk and Bill Campo.

The Reds added two more in the seventh when Elder followed Terry's single with a home run. Terry then doubled in the final tallies in the eighth.

Hommel struck out 14 Cowboys. Ogden's Magic Valley 9, 000 000-9.

SALT LAKE CITY, June 23 (AP)—John Turk cracked a two-run homer in the bottom of the 10th inning Tuesday night to give the Salt Lake City Bees a 3-1 Pioneer league victory over the Boise Pilots.

Turk's blow broke up a light pitching battle between the Bees' Mike Shade and Boise's Wayne Patrick. Shade gave up just two hits in winning his eighth game in 11 decisions.

Patrick gave up nine safeties. He is now 0-2. One of the hits of Shade was Herb Markley's fifth inning homer that necessitated the overtime.

Steve Gromek Pitches Detroit to 4-1 Win

Excited Killebrew Joins Washington For Majors Debut

CHICAGO, June 23 (AP)—Harmon Killebrew, 22, batting sensation of Idaho semi-pro baseball, saw his major league game Tuesday night as his new club, the Washington Senators, played the Chicago White Sox.

Tuesday night joined the Senators, who Saturday made the 6-foot, 195-pound infielder from Payette, their first bonus baby in history at a reported \$50,000.

The strapping, handsome Killebrew acted like any kid might do who was shoved into a major league uniform almost overnight.

"I'm excited—and a little bit nervous," he said while waiting for the Senator-White Sox game to start under the Comiskey park lights.

"The biggest ball park I ever was in before was watching a Western International league game between Yakima and Victoria," said the wide-eyed Killebrew.

"Mr. Harris (Bucky Harris, Senator manager), hasn't had much time to talk to me yet, but I'm ready to do whatever he wants me to do."

Killebrew must remain with the Senators for two years under the bonus rule which prohibits farming out a player signed for more than \$4,000.

Harris, beaming in a fatherly manner, had his picture snapped with Killebrew as photographers awaited the boy's arrival at the Senators' south side hotel.

Harris, one known as baseball's "boy manager," said Killebrew would get plenty of time to adjust to the big league scene.

"When he's ready, he might break in as a pinch-hitter in a few games," said Bucky.

Killebrew prefers to play third base, but he has played shortstop and catcher.

Special Rules For Hearings Get Criticism

WASHINGTON, June 23 (AP)—Sen. Karl E. Mundt said today he would not recommend the special rules used for the army-McCarthy hearings for other inquiries because the extensive cross-examination took too much time.

The South Dakota Republican, who served as acting chairman of the senate investigating subcommittee during the 38-day hearings, said he did not think any other congressional committee could have done a "more complete job" of investigating Sen. Joseph R. McCarthy's row with the army.

But he also said the hearings reaffirmed his "skepticism" about the "wisdom of a committee investigating itself." Before the hearings began, he had proposed that some other group conduct the inquiry.

Hearings Blasted

Mundt made the comments after Sen. Pat McCarran, D. Nev., charged in a senate speech that the hearings brought "ridicule" and a "serious loss of prestige" to the senate and a "serious decline in the respect in which the congress is held by the people of the nation."

McCarran said the hearings have played into the hands of the communists, who he said want to destroy congressional investigations. The Nevada Democrat, former chairman of the senate internal security subcommittee, also blasted the administration's controversial executive order barring certain security information to the subcommittee.

"Idea Takes Hold"

McCarran said that "rightly or wrongly, the idea has taken hold in the minds of the people that . . . Senator McCarthy represents anti-communism. We may criticize his methods, but we can't deny his zeal or his unwavering courage."

He said "no good resulted to America" from the hearings and added: "Communism grinned and applauded at the atmosphere made favorable to it from its underground habitat, and from its articulate voices came the shouts of rejoicing. Americanism stood still, frustrated, in horror and amazement."
