# 200 to 500 People Are Feared Killed By Mexico's Flood

EL PASO, Tex., June 30 (U.P.)—Mexican officials estimated today that the great Rio Grande flood had killed 200 to 500 persons in Piedras Negras, Mexico, and other unconquered areas across the Rio Grande from Eagle Pass, Tex., about 100 miles up the river. Lieut. Don E. McMains, a national guard officer on duty at Eagle Pass, reported the Mexican reports.

Officials haven't been able to determine yet, he said, "but the reports are from 200 to 500 people." The flood has been down over there several days and you can see quite a few people in the drift and in the river. The police quoted other reports that "anywhere from 200 to 1,000" people were killed. These reports were that the flood had killed 200 to 500 people. The water "swelled" the flood. The water "swelled" the flood. The water "swelled" the flood.

## Reversal

### MUSKOGEE, Okla., June 30 (U.P.)—It cost a nervous young bank bandit \$10 to try to rob the Victory Savings and Loan association.

Police said Larry Moran, 19, entered the bank and took out a \$10 bill to "open a savings account." Then he forced clerks to give him a bag containing \$2,000 and fled, leaving his \$10 behind. However, in his haste, Moran snatched the wrong bag and when he got to the airport he found the sack empty and the police waiting.

## Talks Feature Celebration of Event of GOP

HAILEY, June 30.—Republicans from throughout Magic Valley celebrated 100 years of the Republican party at a dinner meeting here Tuesday night. Among the speakers were Larry Gardner, Coeur d'Alene, candidate for governor, and Kenneth Self, Twin Falls, and Earl Snalberg, Arco, candidates for lieutenant governor.

## Gardner said he is in agreement with Gov. Len Jordan's stand on SICE and NICE and maintained it would not be economical to reopen the two teacher colleges. He said if the University of Idaho and Idaho State college cannot supply enough teachers for the schools in the state an investigation should be made.

The candidate for governor said he doesn't want the federal government to build a high dam in Hells canyon. He said if private enterprise will build dams in Hells canyon, the government then could use the money it wants to spend on a high dam for other needed dams in Idaho.

Gardner also spoke on dredging laws for the state and said he favors industrialization for Idaho. He said the state can have industry and hunting and fishing, too. Factories will bring about some stream pollution, he explained, but steps can be taken to protect wildlife.

As to raising license fees on automobiles, Gardner said he is against it. He said he believes he has economies which will make the raising the license fees unnecessary.

Introduced at the meeting were R. E. Adamson, Carey, and Everett Taylor, Ketchum.

Carry and Kenneth Eldredge, Carey, and Bill Patterson, Gannett, candidates for county commissioner, Richard Ransom, present state senator, introduced Gardner, Al Farrar was master of ceremonies.

## Rotary Club Has Talk on Scotland

Charles Hopkins, maintenance engineer at Magic Valley Memorial hospital, was featured speaker at the weekly meeting of the Twin Falls Rotary club Wednesday noon at the Legion hall.

Hopkins, a native of Scotland, described the country, its ship-building industry and scenic attractions.

Stuart Taylor reported on his recent visit to Alaska.

Visiting Rotarians were Ralph Day, Gooding; Jack Pence, Arroya Grande; Charles L. Jones, Santa Monica, and John Rutman, Colexico, all California.

Guests were George Rochford, Denver; Gene Leighton, Idaho Falls, and Frank Summerfield, Twin Falls.

## Spraying Finished To Destroy Brush

HAILEY, June 30.—Spraying of 230 acres near the headwaters of the Salmon river to kill a heavy stand of sagebrush was completed Wednesday morning under the direction of the forest service, Arthur Berry, Sawtooth valley ranger, reporting the brush was R. E. Solomon, Burley. He was assisted by Frank Ham and Tenny Pace. Because of the high altitude only 100 gallons of spray could be taken aloft at one time by the airplane.

The work was done from a small landing strip one-half mile north of Alburas lake. The forest service only sprays to kill sagebrush when there is a good stand of native grass beneath the brush, Berry explained.

## Water Unit OK's Federal Contract

GOODING, June 30.—Elections of the American Falls reservoir district No. 2 voted nine-to-one Tuesday to authorize the district's board of directors to enter into an amendatory repayment contract with the government.

The total vote was 491 to 54 in favor of the move, while the needed two-thirds majority. The Shoshone vote was 124 for the measure and 15 against; Hunt, 55 for and 2 against; Gooding, 217 for and 15 against; and Richfield, 95 for and 22 against.

All persons qualified to vote at irrigation district elections were eligible to vote in the special election.

## Charges Against Woman Dropped

The case against Mrs. Ben Sullivan, charged with handling a gun in a dangerous manner, was dismissed in justice court Wednesday on a motion by Max G. Lloyd, county prosecuting attorney.

Ben Sullivan's case was continued until Friday, July 9. He was released from the city jail Tuesday under a \$200 bond charged with carrying a concealed weapon.

Mrs. and Mrs. Sullivan were arrested late Monday afternoon after a fight in a downtown tavern.

## Posters, Slogans Discussed

R. A. (Truck) Truskowski, left, director of the governor's Keep Idaho Green committee, discusses poster features of the 1954 forest fire prevention campaign with civic leaders Tuesday night with Merl Smock, co-chairman of the Jaycee Keep Idaho Green committee, and Lewis Clark, right, Twin Falls district forest ranger. (Staff photo-engraving)

## 1954 Keep Idaho Green Plans Are Discussed at T. F. Meeting

Local coordination plans for the 1954 Keep Idaho Green campaign were discussed Tuesday night at a meeting of several organizations heading the forest fire prevention program. R. A. (Truck) Truskowski, Boise, director of the governor's Keep Idaho Green committee, outlined the main features of an effective campaign. The meeting was held in the old county hospital building. Present were representatives of the U. S. forest service, Twin Falls Jaycees, Boy Scouts and Camp Fire Girls.

The meeting centered on the effective use of display posters and signs and the distribution of pamphlets. The Jaycees will be in charge of distribution. Truskowski stressed the importance of catchy, effective slogans, explaining that the best poster submitted in the Pacific Northwest will be judged on a prize basis. He suggested that a local organization might sponsor a poster prize contest in the Twin Falls area.

Dear Sirs:

Since we are so pleased with the G-E oil furnace that  
was installed in our home at 1539 Oriental St., we  
thought it might be of interest to you to know of  
the saving it is making us.

Our furnace was put in action Sept. 18, 1952, and has  
performed faithfully ever since, and at such a saving  
compared to the electric heat we did have, which cost  
us \$24.00 a month, and was raising to \$55.00. We  
couldn't pay that much, so therefore inquired into the  
G-E furnace.

This G-E furnace gives us an even temperature of 70  
to 73 degrees in our house, consisting of four rooms,  
bath, hall, and a back porch that is heated at times.

After four and one-half months of winter, our fuel  
cost was \$12.22 a month, or 40¢ a day with a yearly  
average of \$5.76 per month. So you can see we are  
saving almost \$12.00 a month thru the winter months  
and more than that the other months of the year.

We certainly enjoy the furnace.

Yours truly,

### FORCE IS DANGEROUS

Understandably, the American people have a natural sympathy for the insurgents revolting in Guatemala against the communist-influenced government of President Jacobo Arbenz Guzman. But they do not condone resort to violence.

The pattern of revolution by force is, of course, an old one in the banana republics and Latin America generally. But the United States has in recent decades tried to exert its influence toward stable government and orderly, peaceful change.

That is why our government wants now to put the Guatemalan rebellion before the western hemisphere's security group, the organization of American States. Through our own security is deeply bound up in what happens in Guatemala, we wish to avoid single-handed action. Our hope is collective action by all the American governments.

The Soviet union, functioning through the U. N. security council, has vetoed hemisphere action under the wing of the U. N. But this move cannot prevent the American states from meeting and deciding on some sort of joint program for dealing with the Guatemalan crisis.

In spite of all such efforts by the United States to place the problem in a hemispheric framework, Russia undoubtedly will have considerable success in blaming this country for the uprising.

We are denying that we have given any aid to the insurgents, who are led by certain prominent Guatemalan exiles. But it would be a pretty good guess that Col. Carlos Castillo Armas, the rebel leader, had at least a quiet understanding of where official U. S. sympathies would lie, before he undertook the enterprise.

Whether we have done more or not, much of the world will assume we have, judging the matter on the intensity of our interest in a country so close to home. But whatever we have in fact done, we know we must sincerely strive to put this problem in the collective hands of all the American states.

Resort to force is a catching habit. Violence used here against a communist-supported regime could in another instance be used by reds to snuff out a free government. The precedent is dangerous.

Moreover, if the American nations expect to carry any moral weight in the other troubled hemisphere, they must employ the orderly security procedures they themselves have established for meeting just such situations as this in Guatemala.

The official Guatemalan government possessed arms shipped from red Poland. It relations with Honduras and other neighbors were bad, and it has been cited itself as a threat to the peace. However, the current revolt comes out, there is plenty of reason for joint discipline of the Arbenz regime by the nations of this hemisphere.

### PLEASING VICTORY

President Eisenhower can look with comfort on the virtual assurance that Sen. Margaret Chase Smith of Maine will be back in the senate next year. She must still run the gamut of the September Maine election, but no one anticipates trouble for her then.

Mrs. Smith got over her biggest hurdle when she defeated 34-year-old Robert Jones in the state's GOP primary by a margin of roughly five to one.

Her victory was a resounding vote of confidence for a woman who has mastered the techniques of lawmaking better than many men who try. She has proved a highly responsible senator, and a loyal supporter of the Eisenhower administration in its effort to put over a winning legislative program.

Jones was a protégé of Senator McCarthy, though the latter did not campaign for him and Jones sought hard toward the end to divorce himself publicly from that link. Most observers felt McCarthy was not a strong issue in the Maine affair. But one wonders how the returns would have been read had Jones won.

### "OPERATION SALVAGE"

That phase of the Eisenhower-Churchill, Dulles-Eden conversations which deals with southeast Asia might be called "Operation Salvage." How much can be saved from the wreckage of the Geneva conference, no one can now predict because of the fall of the Laniel government in France and the totally different program put forward by new Premier Mendes-France.

If the Geneva conference did nothing else, it may have at long last convinced the British—and possibly even the Indians—that there is need for united action in southeast Asia.

The British didn't want to talk about that in April when Secretary of State John Foster Dulles first approached them on it. They wanted to wait and see if something could not be accomplished at Geneva. He foresaw that Geneva could not succeed. Now they see it.

The British may now be fully awake to the need for salvaging Malaya. It is their biggest dollar earner.

It's alright to brag about being a success at dodging work if you don't mind winding up in a failure.

## TUCKER'S NATIONAL WHIRLIGIG

WASHINGTON—Senate Democrats will not support the Flanders-Lehman move to discipline Sen. Joseph R. McCarthy, largely for reasons of practical politics. Indeed, the leadership is disturbed by the fact that the New York senator mixed in the "Republican brawl."

It is known that a majority of the opposition condemn McCarthy's manners and methods, as their representation on the Mundt committee demonstrated. But the Democrats, as well as many of their Republican colleagues, are appalled at his continued popularity, in the face of expressed denunciation by so many substantial elements of the citizenry.

McCarthy's Critics—In formal resolutions, he has been criticized for spreading hatred and dissension by organizations, publications and spokesmen for the Protestant, Catholic and Jewish faiths. He was forced to supplant J. B. Matthews with Roy M. Cohn as executive director of his investigating group because the former had charged that there were many communist sympathizers among the Protestant clergy.

More importantly, from the standards of politics, he has been excoriated by the more influential unions, both AFL and CIO. Still mindful of their great debt to FDR and Harry S. Truman, they resent McCarthy's characterization of the Roosevelt-Truman regime as "20 years of treason."

A series of anti-McCarthy proclamations has been issued by members of President Eisenhower's political family—by "Ike" himself, Atty.-Gen. Herbert Brownell, Jr., Sherman Adams, National Chairman Leonard W. Hall and Gov. Thomas E. Dewey. In two elections where McCarthy figured indirectly, the voters lined up against him. Sen. Margaret Chase Smith, Me., defeated a McCarthy admirer. In California, Mrs. Mildred Younger won over Jack Tenney, a local anti-communist chaser, for the Republican nomination for state senator.

WISCONSIN SENATOR'S STRENGTH—Despite this array of adversaries and adverse reactions, every public and private check suggests that McCarthy is regarded as a "great and patriotic American" by 39 to 55 per cent of the people polled, Republicans and Democrats, in rural and urban areas. With so many members of congress running for reelection in states and districts where a shift of 5 or 10 per cent means defeat or victory, they have no heart for taking on "terrible Joe."

In fact, a McCarthy rebuke at this late hour would make the senate look foolish. It is more than two years since he refused to answer the Hennings committee's formal and official questions about his personal finances. Yet, the senate has not invoked any rules against him in that period. Eisenhower's internal revenue agents have had 17 months to check on his income tax returns, if any, and their accuracy. Thus, for the Democrats it is good politics to let that record stand and become a campaign issue. For the Republicans, it will be wise to let it be forgotten.

MAY POSTPONE REPORT—In fact, that appears to be the Nixon-Knowland-Dixsen-Mundt strategy. If possible the GOP-ers on the Mundt body will postpone the making of any report of its findings in the army-McCarthy row until after the November elections. Whether they decide for "Joe" or the Pentagon, or even if they return a "plague on both your houses" verdict, it will do the party no good at the polls.

Since Senate Majority Leader William F. Knowland has fixed July 31 as a possible adjournment date, and since actual work on the report has hardly started, it will not be too difficult for the political parliamentarians to defer the dread day and decision.

### VIEWS OF OTHERS

'A DE LUXE TYPE OF RECESSION'—House Speaker Joe Martin, of Massachusetts, contended the other day that the only danger to the American economy was that "eggheads" and Democrats persisted in claiming that we were due for a recession.

Just a day or two previously, in a talk in Philadelphia, he said something more soundly rooted in reason, and much more amiable:

"All my life I have tried to decide who knows the most about our economy—our business men or our economists? The only conclusion I have been able to reach is that politicians know less than either of them—and do more talking about the subject."

In hunting for a clue to our economic future, then, take it from a leading politician that politicians aren't to be accepted as experts. We're aware of the fact that this leaves you with nothing but a tussle between experts whose views range from predictions of serious depression ahead to even higher prosperity. The majority seem to think that we'll keep on as we are with what one calls "a de luxe type of recession."

We've found two foreign experts to back up the middle of the roaders. The current "recession," according to Don Iddon, United States correspondent for the London Daily Mail, "means a steak weighing three-quarters of a pound for each person instead of a pound, and three bourbons-and-water instead of four."

And French designer Lanvin has just come up with a convertible mink coat. The bottom third of it unzips, turning a full length coat into a mink jacket. The trade thinks that madam will continue to be flush enough to wear mink—but no longer flush enough to own two minks.—Milwaukee Journal.

### NATURAL GAS PROSPECT

The prospect of natural gas for heat and fuel in this area is a reality now with the granting of the service rights by the federal power commission to the Pacific Northwest Pipeline corporation. Jerome and other Magic Valley communities will benefit from the 1,400 mile pipe line which will be built from Ignacio, Colorado, to Bellingham, Washington.

The Intermountain Gas company has a contract to start natural gas service into southeastern Idaho this fall, according to Stephen Oice, secretary. He predicts all of southern Idaho getting the gas by the end of 1955. Intermountain has petitioned the public utilities commission to serve the principal cities from Montpelier to Weiser in southern Idaho but no date has been set for a hearing.

The real significance of the huge development to this area is the cheapness of natural gas. Not only are the facilities required for its operation less expensive than those required for oil and coal but the cost of the gas service itself is much lower. The rate that would be charged anywhere along the line will be the same, according to the ruling made by the FPC, which would be 30 1/2 cents a thousand cubic feet.

The supply of gas is estimated at 3,646 billion cubic feet located principally in the San Juan basin of New Mexico and Colorado.

The FPC in granting the service rights to Pacific over-ruled the application of the Canadian interests that wanted to pipe into the northwest. The cost of the development will be 160 million dollars, and will prove somewhat of an economic aid to the entire area during the construction period which may extend to January, 1967.—Jerome North-Blide News.

### JORDAN OUT OF POLITICS

A recent newspaper dispatch from Washington declared that Sen. Henry Dworshak was a mighty happy man to learn that Gov. Len Jordan had accepted a federal job and would not run against the senator.

This may be a trifle overdrawn, although Dworshak may have regarded Jordan as his toughest competition in a primary fight. A well-known Democratic leader in Burley made light of Jordan as a threat, saying he would not have given Dworshak any trouble at all.

Governors have a way of being strong vote getters and Dworshak would have been faced with the task of making a real campaign. Now Burley's Henry has smooth sailing until the November general election, when the only hurdle left will be a Democratic name, and rank and serial number of whom is as yet a deep dark secret. In Dworshak's announcement he states that he will stay in Washington most of the summer.—Burley Bulletin.

## POT SHOTS

### PROMOTION VS. BASEBALL

Dear Pot-Shots:—Listening to the ballgame just now, I heard there were some 1,500 people. Some decrease from last night's 4,047, (dairy night), isn't it? Even considering half of those paid admissions (about 2,000) that is still some drop.

I approached the ball park at a quarter to eight, thinking that was early enough. Nope, it was 8:30 before I got into the place. There were many, many others in the same fix as I was. Every once in a while I'd hear someone say, "It would have been a lot easier to stay at home and listen to the game" or "haven't sweat this much all summer."

Just as a suggestion, I think the ticket office needed a lot more help. Anyway, it was a darn good game after we got in there.

Me Too (Piler)

P. S. note: Do you always mail your letters in Twin Falls?

### MIGHT TRY READING!

Dear Pot-Shots:—Frankly, I'm confused. If I. M. Puzos was warned for illegal parking on Main west on a 10-minute meter, it must have been in front of the Perrine hotel or the post-office.

Now, if I don't need my glasses changed, those signs read: "10 minute meter, day or night," not "10 minute meter zone" or "10 minute parking." Now perhaps one of us is a good prospect for an optometrist! I. M. Puzos (Twin Falls)

Young people seem silly right after you cease being one, Our Aging Juvenile says.

### FIRST AID (NEW TYPE)

Dear Pot-Shots:—During a refresher course of first aid, there was a question concerning hysteria. The class was asked what to do in case of same.

One student piped up with this answer: "Slap the woman's face. In case she happens to be of rather large size, it is then advisable to run."

When the laughter died out, the eager student was asked why his treatment was limited to woman. The answer came right back quickly: "Men don't get hysterical; they blow their tops!"

Another Student (Jerome)

Success is any other woman's husband, Our Henpecked Spouse says.

### OUR BULLETIN BOARD

A Demo, Twin Falls—Jeepers, do you have to dig up graves? That one was buried with every President who has died in the last 50 years! Or are you just celebrating the Golden Jubilee? ## HOW THINGS APPEAR FROM PEGLER'S ANGLE

NEW YORK—Not to put too fine a point upon it, one of the obvious duties of our central intelligence agency is to organize, touch off and exploit revolutions such as the one in Guatemala.

Where the communist menace is imminent and acute.

We are not allowed to know anything about the CIA and there is a sentiment that it were somehow "disloyal" and a "service" to the enemy to discuss this mysterious outfit at all. But practical persons, not necessarily with special knowledge of "intrigue," must recognize as a fact the expediency and necessity for swift, efficient, successful blows in such crises as the one in Guatemala.

Had that coup been managed with efficiency and determination by qualified individuals, the anti-Soviet forces would have captured the situation with negligible bloodshed or none at all. The Soviet political outpost in Central America and right upon the Panama canal would have been eliminated and the Soviet and communist prestige in Latin America would have been discredited.

Instead, as these lines are written, there seems to have been a halfhearted, ill-managed flop, so paltry that one American reporter close to the scene wrote that the war correspondents outnumbered the revolutionary anti-Soviet army, which may have been a coarse jest but seems close to the truth, at that. And our prestige has never been lower.

When we let them alone to do things in their old imperial way, packing the white man's burden and doing incidental, though not spectacular, good for the lesser breeds, the British have a knack for such adventures. They routed a communist beachhead out of British Guiana by old-fashioned strong-arm methods and didn't bother to offer explanations which would serve no good purpose and would only have put on record for a Soviet filibuster at the United Nations.

But, against Churchill's plaintive protest in commons during the war that he did not become his majesty's first minister to preside over the liquidation of the British empire, the United States heekled and badgered this extremely efficient imperial and colonial machine with supercilious propaganda until the empire was in fact liquidated.

Now, by a process which the people of the United States never even contemplated, we have elected ourselves to "world leadership," which means that to enforce our will on unwilling areas and populations, we will have to fight, wheedle with money or fall back. We wouldn't let the British carry on as before and we can't succeed in their old place because we haven't the candor and determination to say that backward people are backward and incapable of competent government or competent management of

their international relations in trade and diplomacy.

Whatever other information our government may have had, and of course it had some, it did receive in 1950 an exhaustive report prepared from personal study on the ground in Guatemala by Dr. J. B. Matthews and his wife, Ruth, also a Ph. D. professor and an expert in such matters. This document was done for a private client by a pair of fact-finders whose efficiency may be measured by their enormous unpopularity among communists, fellow-travelers and that aimless but generally sulky tribe of political misanthropes who have appropriated to themselves and made odious, the term "liberal."

Although it was slugged "confidential," this report was sent immediately to both the FBI and the CIA and copies were made available to anti-communist forces all over Latin-America, including Trujillo and his government in the Dominican republic. About the time that the Matthews finished their study, which has met the test of developments, the New York Herald Tribune ran a study of its own which disagreed with the Matthews report. Is it cynical, and does one go too far in stating that the CIA, a secret department of the American government, has a duty and a free hand to kick up revolutions in small countries to kick out Soviet puppets? Cynical one may be in so stating, but that is the fact nevertheless and that fact is one of the excuses for the total secrecy of the CIA whose appropriations and expenditures we are not allowed to know and are requested not to inquire about.

The present head of the CIA is Allen Dulles, a brother of John Foster, who had experience running in Switzerland during World War II. He moved into the job behind Lieut. Gen. Walter Bedell Smith, an amiable and popular fellow among the thinned-out holdovers of the Roosevelt-Truman reign and with Eisenhower, who had him for chief of staff in Europe.

General Smith has lately been engaged in reorganizing the state department but his health has been poor and his inactivity for this kind of work, whatever else his talents may be, now gives rise to rumors that he will take a job in private industry as so many other generals have done.

One great defect of the CIA is that the secrecy which is deemed to be absolutely necessary to cover its work from enemy observation also prevents us from placing responsibility for such flops as Guatemala.

### Bird's Way of Life Can Be Told by Feet

Can palmistry be scientific? Indeed yes, if you'll stick to reading birds' feet. With practice, a bird's foot can tell you its owner's ancestry, what it does for a living, the kind of food it eats, where it builds its nest and even who its friends and foes are. There is because variation in a bird's feet, each one adapted to the bird's way-of-life.

First off, what looks like the knee of the bird (where the feathers usually begin) is the ankle—the jointed leg is nearer the body. Hence the bird stands and walks and grasps its booty with its toes and these are never more than four.

In the perching birds, usually three toes point forward, the fourth backward. In those perchers, the tendons are arranged so that when the ankle joint is bent they draw the toes together. Thus when a bird settles down on its perch, the toes grip the limb automatically and as the bird becomes sleepy and presses its body downward more heavily and bends the ankle more, the grip becomes firmer which permits the bird to snooze safely, with never a fear of falling off its perch.

To get a surer grip, climbing birds like woodpeckers usually have two toes pointing forward and two backward and each toe is equipped with a sharp claw. (A more marvelous

climber though, is the tiny nut-hatch, without support from its tail, he can wind around and up a tree trunk in a trice and whenever the fancy strikes him come back down head first). As for the owl, whenever he wishes, he can turn his third toe either backward or forward.

The swifts, which are never seen on the ground—they alight only when resting in their nesting places or other retreats—frequently have all four toes pointed forward to cling to their nests.

For swimmers like the many ducks, the three forward pointing toes are usually webbed from toe to toe (in the cormorants the hind toe is also included). This webbing creates a greater surface to be pushed against the water. In addition these swimmers' legs are short and strong, and placed far back on their bodies to help them swim more efficiently.

# Free Money Bills Hurried To President

WASHINGTON, June 30—Hurry to beat a midnight deadline, the House today passed the final three bills for the fiscal year starting tomorrow.

The action on the bills was completed within an hour after the House had passed them.

**Funds Provided**  
The three measures provide funds for the state, justice and commerce departments, the labor and welfare departments, and the judicial and executive branches of government. The bills were compromises of measures passed previously by the House and the Senate.

## Funds Listed

They make these appropriations: Commerce department, \$70,695; labor department, \$27,501,740; justice department and related agencies, \$11,784,500; welfare department, \$1,153,413,781; state department, \$114,110,000; justice department, \$176,884,000; commerce department, \$237,022,000; U. S. Information agency, \$77,114,000.

The total of \$3,278,506,255 in the bills is approximately \$100,000,000 less than President Eisenhower requested last January.

## Drop Reported in Lincoln Hay Crop

BOZEMAN, June 30—First cutting of hay in Lincoln county appears to be about two-thirds of normal, according to reports from the county agent.

One of the lower yields has been reported from the lower end of the county, where the hay is reported to be about one-third of normal, he said. There is reported some loss of hay because of the storms last week, Kohl said.

## Call Issued

BOZEMAN, June 30—The Idaho Department of Health today issued a call for more rigid licensing and more state funds to enforce present state controls governing home operations.

He paid the telephone bills and was permitted to pay the court costs and fine at the rate of \$10 a week.

Mrs. Freeman signed the complaint against Cruthirds. Deputy

## FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their false teeth dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the all-time true-tooth powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Do not sour, check "plate odor" (denture breath). Get FASTEETH at any drug counter.

# 2 Big Parleys Just Finished Seem to Be Break for Reds

By CHARLES M. McCANN  
United Press Staff Correspondent  
The two big conferences just held in Washington and New Delhi seem to have resulted in a diplomatic victory for communism.

The Washington conference between President Eisenhower and Prime Minister Winston Churchill showed that there still are wide differences between the United States and Great Britain.

These differences include immediate policy in southeast Asia to prevent further red aggression and the possibility of peaceful co-existence between democracy and world communism.

Churchill wants to wait a while before he commits Britain to participation in a southeast Asia security pact. Also, though he has been a consistent and active anti-communist since the Bolshevik revolution of 1917, he cherishes the belief—which he did not always hold—in the possibility of peaceful co-existence.

President Eisenhower believes peaceful co-existence is possible only if the communists unexpectedly become peaceful.

But the New Delhi conference between Prime Minister Jawaharlal Nehru and Premier-Foreign Minister Chou En-Lai disclosed no differences in policy between India and communism.

On the contrary, those two leaders of 900,000,000 Asiatic people seem to have been brought closer together—for the present.

Their conference was based on the

likely to be temporary. The differences between the United States and Britain are differences of judgment and timing only, as British Foreign Secretary Anthony Eden put it in a speech before he and Churchill left for Washington.

The Anglo-American differences will not last. The beautiful friendship between Nehru and Chou could well be lasting. With the Chinese red dragon breathing hotly down the necks of countries all over southeast Asia, Nehru's part of the co-existence may not be comfortable even though it is peaceful.

The distance from the earth to Mars varies from 35 million miles to 235 million miles.

### Study Shows Business Dip In This Year

(From Page One)

segment "most any business can make money," said one man at Moscow. A department store there reported sales up 7 per cent, and attributed part of it to an aggressive advertising campaign.

Many Twin Falls merchants are keying business promotions to the 50th anniversary of the city's founding.

Moscow reported a rise in new car sales, and a drop in used cars. At Idaho Falls, new car sales were off. They were down at Pocatello, and Twin Falls, but starting to pick up in the last two months.

Idaho Falls' and Moscow's higher unemployment rate is attributed to bad weather which delayed outdoor work. Railroad layoffs have boosted Pocatello's unemployment. Maglio Valley farmers are doing more of their own work, with a resulting rise in unemployment at Twin Falls.

Except for Palisades dam in eastern Idaho, highways make up the only heavy construction in the state, but the road construction program is the biggest in the state's history. Home construction continues at a high level in parts of the state; is off in others.

Building permits are up in Twin Falls and Pocatello, and one Gate city real estate firm says it did more business in the first five months than all of last year. Moscow real estate sales, which dropped last year, are back up to their 1952 level. Idaho Falls' housing boom of the last five years has tapered off, with the demand for homes apparently met.

### 7 Children Given Shares of Estate

The estate of Gertrude Miller, who died in Twin Falls county Jan. 12, 1953, was awarded to her seven children in a probate court decree of distribution Tuesday.

The estate consisted of a lot in the Eastman addition in Buhi. Equal shares were awarded to four daughters, Mrs. Viola Thatcher, Mrs. Fannie Jones, Mrs. Edna Duran and Mrs. Angie Keen, and three sons, Clyde R. Miller, Joseph Miller and Floyd Miller, all Buhi.

The petition was prepared by J. W. Taylor for the administrator, Clyde R. Miller.

### Judgment Asked

Chester Schmechel was named defendant in a justice court civil suit Tuesday by the Professional Adjustment company for payment of a \$33.18 bill owed to the General Building Supply company.

The adjustment bureau, represented by H. N. Jewell, seeks a judgment for payment of the building materials bill plus interest.

### Found Dead

POWELL, Wyo., June 30 (AP)—A shepherd whose flock were reported running unattended has been found dead in the bottom of a coulee, still astride his lifeless horse.

The herder was Ulmont C. Jolley. He and the horse are believed victims of a lightning storm.

He was found by Glen Johnson, owner of the sheep, after the flock was reported wandering in the Hart mountain area.

### Methods of Guatemala Rebels Are Unique Today but Deadly

(Editor's note: The following delayed dispatch from Escupulas, Guatemala, was couriered over flooded rivers and dangerous mountain trails connecting Honduras and Guatemala to Tegucigalpa, Honduras, and finally reached United Press, New York, by cable. It is Robert Prescott, UP manager for Mexico, tells one phase of a war fought with deadly intent but by methods unusual in modern days of highly organized mass annihilation.)

President Jacobo Arbenz Guzman fell.

"You can't pay men to die for a cause. But they'll fight for a principle."

Colonel Recinas' job is to protect rebel supply lines to the front.

More than 100 swarthy volunteers marched across the rain-drenched square in front of the famed "Church of the Black Christ" today and slogged into the wilderness to hunt for tiny bands of defeated government soldiers still harassing the highway to the rebel capital of Chiquimula.

Other straw-hatted followers of rebel Col. Carlos Castillo Armas patrolled the highway in American-made farm trucks.

But if Colonel Recinas' troops had a comic-opera quality, the colonel's determination did not.

The Arbenz resignation, he said, did not alter in the least our determination to clean out communism and its tentacles.

For newsmen it had been a tough and expensive two days, including a 55-mile, \$1,000 airplane flight and a two-day, 40-mile ride by mule-back over flooded rivers and a dangerous mountain trail to reach this kick-off point for the front.

Failures up

NEW YORK, June 30 (AP)—Business failures in the week ended June 24 totaled 215, compared with 207 the preceding week and 192 in the like week a year ago, Dun and Bradstreet reports.

YANKS TO LEAVE

TOKYO, June 30 (AP)—Japanese troops in August will begin replacing all but a handful of the 20,000 American soldiers guarding Hokkaido, the major Japanese island closest to Soviet Siberia, the Nippon Times says tonight.

### Candidate for Top Post May Be Eliminated

BOISE, June 30 (AP)—Questions have cropped up which could eliminate Joseph A. McNew as a Democratic gubernatorial candidate by invalidating his nominating petitions.

McNew, a Boise railroad signalman and one-time professional boxer, said he would appeal to the courts if he is ruled off the ballot in the Aug. 10 primary.

Secretary of State Ira H. Masters asked the attorney general's office to check McNew's petitions to see if they were in order. Atty.-Gen. Robert E. Smylie was out of town, but was expected to confer with his staff about the matter by telephone today.

As McNew listed only 202 names on the petitions which he filed just before the deadline Saturday, removal of three or four would put him below the minimum.

The secretary of state's office said McNew was certified as a resident of four different counties on his petitions. Other petitions bore the names of persons from more than one county. Some signatures were illegible, the staff claimed.

McNew commented: "Nowhere in the code does it say that all the signatures on one page have to be from one county. Does this mean they're afraid for me to run?" He declined to say whom he meant by "they."

Godthaab, the capital of Greenland, has a population of 1,500.

### Payment of Bills Is Asked in Suit

Arts J. Jones was named defendant in a justice court civil suit Tuesday by the Magic Valley Adjustment bureau for payment of bills owed to three Twin Falls business organizations.

The suit charges Jones owes \$28 to the Paris company, \$18.55 to the Intermountain Fuel company and \$7.10 to the Carter Hatchery for unpaid bills.

The adjustment company, represented by Thomas Y. Gwilliam, seeks a judgment ordering payment of \$53.87 total principal and interest.

### Back Rent Asked

Gilbert Wilson was named defendant in a probate court suit for payment of \$105 back rent Tuesday by the Twin Falls County Labor-Sponsoring association.

The labor organization claims Wilson owes \$105 back rent for a house rented him for \$10 per week at the Twin Falls Labor center. The organization, represented by James J. May, asks for payment of the rent and repossession of the house.

### Legion's Leader Lauds Its Stand

SPOKANE, June 30 (AP)—Arthur J. Connell, commander of the American Legion, ended his Pacific northwest tour in Spokane last night with a speech praising the Legion's continuing fight for veterans' hospitalization.

Connell said the Legion is defending the veteran's right to adequate medical and hospital care in the face of opposition by powerful groups in the nation.

The campaign against the veteran's administration hospital program has lost momentum because of the Legion's stand, he said.

Operations at Spokane's VA hospital are being cut back effective today.

### Penney Better

WASHINGTON, June 30 (AP)—J. C. Penney, millionaire merchant and philanthropist, is recovering nicely from pneumonia, his physician said today.

Penney, 78, was stricken last Thursday after coming here to address a retailers convention. He will remain in George Washington hospital a few more days.

Operations at Spokane's VA hospital are being cut back effective today.

The group is only making a survey and is not looking for any action against any body. The group is looking for the situation over the federal securities legislation to be applicable in the current boom. Holden said. The group plans to remain in Lake City most of the week, working with officials of the Salt Lake stock exchange and with local stock writers and dealers.

**101**  
COEUR D'ALENE, June 30 (AP)—Mrs. Mima J. Mathison celebrated another birthday anniversary yesterday—her 101st.  
The aged north Idaho woman said she expects to live at least another year to equal the longevity record set by her mother who was 102 when she died.  
A birthday party was held in Post Falls, where Mrs. Mathison once lived. The first such celebration was staged some 30 years ago.

## Businessmen of America at Midyear Expect "Pleasant Sailing" This Fall

NEW YORK, June 30 (AP)—Having shot the rapids without major damage, businessmen at midyear look for pleasanter sailing come fall.  
The summer doldrums may help in a number of cases. The factory shutdowns for July vacations should trim inventories a little more, let new orders and consumer demand build up.  
For fall the outlook is for more new orders on the books, better sales, fewer layoffs, high weekly work hours, with factory employment rolls either at their present levels or rising if orders come in as now seems likely.  
Most retailers seem confident now that in the next six months they can equal sales volume of a year ago. Some think they can surpass it. If so, it'll be a merry Christmas.  
Few in industry and trade, however, look for sharp gains. They think rather, that the long decline in business is over or about so, that the adjustment will continue here and there until fall, that after Labor day there are likely to be more plus signs than minus ones in the economy.  
All but the most ardent boosters, however, look for the upturn to be moderate and its pace as measured, and pleasant, as a wedding march. This confidence is a reversal in their thinking of six months ago.  
The year started on a pessimistic note with worry brought a string of factory layoffs and shortened work weeks.  
Industrial output continued its downward slide until May, a total drop of 10 per cent.  
Factory sales dropped 8 per cent, with the sales of durable goods down 12 per cent and the soft goods selling about as well as ever.  
In sections where the economy is based largely on the manufacture of durable goods, the winter and spring were not happy.  
Some manufacturers aren't out of the woods yet. As a whole, they've knocked down their inventories of raw materials by 10 per cent and pared their stock-in-process a little, but it's only since last spring that their stocks of finished goods have stopped piling up.  
The two savings notes in all this are:  
1. The consumer goes on buying about as much as ever, although shifting considerably from one class of goods to another and becoming more insistent in looking for a bargain.  
Earnings hold much better than output and sales.  
Tax cuts help in both instances. The consumer has the benefit either of less of an income tax bite on his paycheck, if he's drawing one,

### Vandal Boosters Elect McCollum

J. O. McCollum, Twin Falls, was elected president of the Vandal Boosters Tuesday noon at the Rogers hotel.  
Robert Snyder, Twin Falls, was elected vice president and Harold Hove, Kimberly, secretary-treasurer.  
Elected to the board of directors were James Henry, Kimberly; Kermit Allison, Filer; Eugene Ostrander, Dean Mosher, W. J. Peters, James Sinclair, Woody Reed, Ivan Stone, Harry Elcock, Denny Hogue and A. J. Pene, all Twin Falls.  
Vandal Booster members from Twin Falls, Kimberly and Filer attended. Ben C. Mottern, Twin Falls, state Vandal Booster president, had charge of the meeting.

### Award to Miner Upheld by Court

BOISE, June 30 (AP)—The Idaho supreme court has upheld an award of 25 per cent disability compensation to a Wallace miner who contracted silicosis.  
Forest Peterson, appealing the industrial accident board order, had asked 100 per cent. Sunset Minerals, Inc., had asked that no disability be allowed.  
The court, in a unanimous opinion by Justice William D. Keeton, backed up the board. The board held that 25 per cent of Peterson's disability was caused by silicosis.

### Dorothy Matson Becomes Bride in Jerome Ceremony

JEROME, June 30—Dorothy Evelyn Matson, daughter of Dr. and Mrs. Reuben C. Matson, became the bride of Billy C. Emerson, son of Mr. and Mrs. Clarence A. Emerson, Sunday afternoon in the First Presbyterian church.

The ceremony was performed by the Rev. William M. Perdue before a background of baskets of white gladioli and greenery and candelabra of lighted tapers.

Candles were lighted by Coleen Emerson, sister of the bridegroom, and Wanda Emerson, cousin of the bridegroom. Music was played on the organ by Mrs. Gerald Dellinger, who also accompanied Mrs. Donald Jacobson, soloist.

The bride wore a gown of white slipper satin, Chantilly lace and pleated nylon tulle. It was designed with a fitted bodice of lace over satin, long sleeves of nylon tulle edged with lace and a coronation collar of lace. The full skirt was styled with an overskirt of nylon tulle edged with lace.

Her fingertip veil of nylon tulle was scalloped and caught to a Juliet cap of lace and pearls. She carried a white orchid surrounded

with red rosebuds with a white Bible and streamers knotted with stephanotis and seed pearls.

Mae Fukaye, Adams City, Colo., was maid of honor and bridesmaids were Marilyn McKay, LaJunta, Colo., and Marlin Murray, Burlington, Ia., all college friends of the bride.

Johnny Thomason, nephew of the bridegroom, was ringbearer and Jeannie Burkhalter was flower girl. J. B. Thomason, brother-in-law of the bridegroom, was best man. Ushers were Don Matson, brother of the bride, and James Eakin.

For her daughter's wedding, Mrs. Matson chose a summer suit of pink with navy blue accessories. She wore a corsage of red rosebuds. Mrs. Emerson was attired in a black and white linen two-piece afternoon dress with white accessories and wore a corsage of pink carnations.

A reception followed in the church parlors. Mrs. Dwight Osborne and Mrs. C. Y. Williamson served the cake and Mrs. Susie Williams and Mrs. Gilbert White poured. Mrs. J. B. Thomason was in charge of the guest book. The gifts were arranged by Patsy Houston, Jackie Lavens

### Miss Daniels Is Wed to Johnson During Service

MURTAUGH, June 30 — Myrna Lou Daniels, daughter of Mr. and Mrs. O. W. Daniels, Murtaugh, and Charles L. Johnson, Jr., son of Mr. and Mrs. Charles L. Johnson, sr., Murtaugh, were united in a ceremony Sunday afternoon at the Murtaugh Community Methodist church.

The ceremony was performed by the Rev. Paul V. LaRue before an altar flanked by candelabra of lighted tapers and baskets of peach gladioli and white daisies.

The bride wore a gown of white nylon satin fashioned with a train and long sleeves, a yoke of nylon tulle and collar of Chantilly lace. Her fingertip veil of nylon net was held in place by a tiara of seed pearls. She carried a bouquet of three white orchids with a white Bible. Photostatic orchids were attached to the streamers.

Barbara Knighton was maid of honor and bridesmaids were Sharon Konick and Mrs. Glen Breeding. Candlelighters were Sharon Denton and Delores Knighton. Nanette Roberts was flower girl and Francis Johnson, brother of the bridegroom, was ring bearer. Bob Will acted as best man and ushers were Paul Herkes and Joe Brasier.

Mrs. Daniels wore a dress of black sheer with rose accessories and the bridegroom's mother wore a black and white nylon dress with white accessories. Both mothers wore orchids. Orchids used in the bouquets and corsages were sent from Hawaii by the bride's brother and his wife, Mr. and Mrs. Bill R. Daniels.

Soloists were Lavonda Harrington, Valley Center, Kans., cousin of the bride, who was accompanied by Mrs. Ed Buel and Jay Clawson, who was accompanied by Elva Bland.

A reception was held following the wedding on the lawn at the home of the bridegroom's parents. Mrs. Ralph Denton cut the cake and Mrs. Ed True, aunt of the bridegroom, poured. Mrs. Oliver Johnson, sr., was in charge of the guest book

and Sherleen Murray, Burlington, Ia.

For the wedding trip to Los Angeles, Calif., the new Mrs. Emerson chose an afternoon dress of white with black print and red trimming and a matching stole. She wore white and red accessories and the corsage from her bridal bouquet. She also wore a cameo locket, a gift of the bridegroom.

The bride is a 1948 graduate of Jerome high school and received her BS degree from the University of Colorado, Boulder, Colo., and the Colorado General hospital, Denver, this spring.

Emerson is a graduate of Idaho State college and will coach and teach shop at Hansen high school this fall. The couple will reside in Hansen.

The bride was honored at a shower given by Mrs. Ethel Burkhalter, Mrs. Aloys Hof, Mrs. Williamson, Mrs. Ray Mann, Mrs. Bert Shimm and Mrs. Neal Thomason. Mrs. Gilbert White and Mrs. Roy D. Smith also honored her at a dessert bridge party and at Denver her roommates honored her with a shower.

Out-of-town guests were Mr. and Mrs. J. W. Ross, Twin Falls; Mr. and Mrs. C. E. Osborne, Moore; Marilyn McKay, LaJunta, Colo.; Mae Fukaye, Adams City, Colo.; and Marlin Murray and Shirleen Murray, Burlington, Ia.

### Reception Fetes Married Couple

FILER, June 30—A reception was held Friday evening at the Filer Legion hall honoring the Rev. and Mrs. Joseph Meyers, who were married June 13.

The new Mrs. Meyers is the former Mrs. Arminta Barbasat. For the occasion she wore a rose colored suit.

Mrs. Thane Lancaster was soloist and readings were given by Mrs. Blanche Brumett and Mrs. Otto McChristian. Mrs. Wayne Creasy gave the prayer.

Refreshments were served by the hostesses, Mrs. Thomas Walker, Mrs. McChristian and Mrs. Harold Stokesberry.

There are about 10 people per square mile, on the average, in Norway.

# Ike Declares Russia Holds Peace Hopes

conference a couple of minutes behind schedule, dressed in a tan suit and tan tie.

First off, he said he wanted to enlist the help of new media in trying to cut the highway toll over the Fourth of July weekend. He said 400 Americans were killed last year, and he would like to see what newsmen could do about cutting it in half, by working at it every day.

Then, on a question and answer basis, the conference roamed over many subjects, including:

Guatemala — Eisenhower said it would be difficult if he tried to conceal his pleasure that communists and their supporters are being tossed out in the Central American republic.

Oppenheimer — Eisenhower said that he had no comment on the decision of the atomic energy commission holding that Dr. J. Robert Oppenheimer, one of the fathers of the atom bomb, no longer should handle atomic secrets because of "defects of character" and "dangerous associations."

If Oppenheimer wants to appeal, the President said he will be heard. But he said in that event he thought the case would be referred to Attorney General Brownell for consideration.

Farm — The chief executive said he believes rigid price supports are damaging to the farmer but said he had no plans for a last minute appeal to the house to junk them. The house is approaching a crucial showdown on the issue of rigid supports versus the flexible system Eisenhower wants.

Confident of Program — To a question as to what he thinks of Republican chances in November, Eisenhower said he has believed from the start that the American people want a well-thought out comprehensive program for handling foreign and domestic policy and that such a program has been laid before congress. He said he thought much of it would be approved—enough so that it will be favorably considered by the voters.

H-bomb — No specific agreements were reached in the conference with Churchill on use and control of the hydrogen bomb.

Korean peace prospects — at the moment, there is little change in the situation.

Big three conference — Again, the

# Services Held for Woman in Burley

BURLEY, June 30—Funeral services for Mrs. Rachel Lewis Milton were held Monday at the LDS fourth ward church with Bishop Melvin Garrard officiating.

Prayer at the mortuary was delivered by Dellroy Mallory, organ prelude and postlude were played by Eileen Bachman, and invocation was given by Jess Hymas. Sam Bulkley and James Holyon sang. The obituary was read by Bishop Garrard and speakers were Alma Martinsson and Mrs. Clara Lewis. A chorus, composed of Mrs. Rachel Hamm, Mrs. Delora Dummer, Mrs. Ruby Victor and Mrs. Leah Teeples, accompanied by Eileen Bachman, sang.

Benediction was given by Francis Carter, Hyrum Lewis dedicated the grave at Pleasant View cemetery. Pallbearers were Noel Bowcutt, Keith Bowcutt, Roy Jensen, LaVar Milton, Harry Price and Horace Price.

Flowers were under the direction of the fourth ward Relief society and were carried by Mrs. Genevieve Robertson, Mrs. Gladys Carter and Mrs. Virginia Nichols, who were assisted by Joan Lewis, Shirley Haslam, Mary Southworth, Helen McConnell, Zilda Batcheider and Billy Andersen, grandchildren of Mrs. Lewis.

# Negro Group Vows Battles On Principle

DALLAS, Tex., June 30 (AP)—The board chairman of the National Association for the Advancement of Colored People issued a warning today to backers of racial segregation.

Dr. Channing H. Tobias, keynoting the NAACP convention last night, said the association would not "stand idly by while enemies of the democratic process... hold closed door conferences for the publicly announced purpose of devising ways and means of evading the (supreme) court's ruling."

Tobias devoted most of his speech to the supreme court's order against segregation in public schools.

**Pledge Made**  
The NAACP will "lean over backwards" to help honest, efficient Negro teachers solve their problems, Tobias said, "but we are not going to deal gently with those congenial 'Uncle Toms' who have a vested interest in segregation, and are willing to sell their own people 'down the river' in order to save their own skins."

"Nor are we going to be sympathetic with those teachers who are too lazy to prepare themselves for the larger and more exacting responsibilities of integration," he said.

**Negroes Loyal**  
He said the international situation made it clear "America cannot afford the divisive luxury of racial discrimination." But he added the NAACP should "make it emphatically clear that Negro Americans are undivided in their allegiance to the United States."

Tonight, at a mass meeting of all delegates, there were to be speeches by James B. Carey, secretary of the Congress of Industrial Organizations and by Thurgood Marshall, NAACP legal counsel who played a large part in the court fight leading to the supreme court ruling on school segregation.

# Dentist Dies

MONTPELIER, June 30 (AP)—Dr. Louis William Budge, 56, a dentist in Ogden from 1926 until he retired three years ago and moved to Montpelier, died Monday after an extended illness.

He was a former president of the Ogden Dental society.

President expressed a willingness to do anything in the world for peace if there is evidence the other side is sincere. He said there was no specific understanding with Churchill regarding a possible meeting which also would include Soviet Premier Malenkov.

AEC power — The President said the reason he directed the atomic energy commission to go ahead with a private power development at West Memphis, Ark., was to provide time to take a good look at the TVA program and try to find out what should be done from here on.

Southwest Asia — While it would take an hour to provide the full picture, one thing that makes conditions in the far east appear more encouraging is that some of the concern over British-American differences now has been dispelled.

# Services Held for Woman in Burley

BURLEY, June 30—Funeral services for Mrs. Rachel Lewis Milton were held Monday at the LDS fourth ward church with Bishop Melvin Garrard officiating.

Prayer at the mortuary was delivered by Dellroy Mallory, organ prelude and postlude were played by Eileen Bachman, and invocation was given by Jess Hymas. Sam Bulkley and James Holyon sang. The obituary was read by Bishop Garrard and speakers were Alma Martinsson and Mrs. Clara Lewis. A chorus, composed of Mrs. Rachel Hamm, Mrs. Delora Dummer, Mrs. Ruby Victor and Mrs. Leah Teeples, accompanied by Eileen Bachman, sang.

Benediction was given by Francis Carter, Hyrum Lewis dedicated the grave at Pleasant View cemetery. Pallbearers were Noel Bowcutt, Keith Bowcutt, Roy Jensen, LaVar Milton, Harry Price and Horace Price.

Flowers were under the direction of the fourth ward Relief society and were carried by Mrs. Genevieve Robertson, Mrs. Gladys Carter and Mrs. Virginia Nichols, who were assisted by Joan Lewis, Shirley Haslam, Mary Southworth, Helen McConnell, Zilda Batcheider and Billy Andersen, grandchildren of Mrs. Lewis.

# Negro Group Vows Battles On Principle

DALLAS, Tex., June 30 (AP)—The board chairman of the National Association for the Advancement of Colored People issued a warning today to backers of racial segregation.

Dr. Channing H. Tobias, keynoting the NAACP convention last night, said the association would not "stand idly by while enemies of the democratic process... hold closed door conferences for the publicly announced purpose of devising ways and means of evading the (supreme) court's ruling."

Tobias devoted most of his speech to the supreme court's order against segregation in public schools.

**Pledge Made**  
The NAACP will "lean over backwards" to help honest, efficient Negro teachers solve their problems, Tobias said, "but we are not going to deal gently with those congenial 'Uncle Toms' who have a vested interest in segregation, and are willing to sell their own people 'down the river' in order to save their own skins."

"Nor are we going to be sympathetic with those teachers who are too lazy to prepare themselves for the larger and more exacting responsibilities of integration," he said.

**Negroes Loyal**  
He said the international situation made it clear "America cannot afford the divisive luxury of racial discrimination." But he added the NAACP should "make it emphatically clear that Negro Americans are undivided in their allegiance to the United States."

Tonight, at a mass meeting of all delegates, there were to be speeches by James B. Carey, secretary of the Congress of Industrial Organizations and by Thurgood Marshall, NAACP legal counsel who played a large part in the court fight leading to the supreme court ruling on school segregation.

# Dentist Dies

MONTPELIER, June 30 (AP)—Dr. Louis William Budge, 56, a dentist in Ogden from 1926 until he retired three years ago and moved to Montpelier, died Monday after an extended illness.

He was a former president of the Ogden Dental society.

President expressed a willingness to do anything in the world for peace if there is evidence the other side is sincere. He said there was no specific understanding with Churchill regarding a possible meeting which also would include Soviet Premier Malenkov.

AEC power — The President said the reason he directed the atomic energy commission to go ahead with a private power development at West Memphis, Ark., was to provide time to take a good look at the TVA program and try to find out what should be done from here on.

Southwest Asia — While it would take an hour to provide the full picture, one thing that makes conditions in the far east appear more encouraging is that some of the concern over British-American differences now has been dispelled.

### Evening Service Read for Norma See, John Epley

BUHL, June 30—Norma Marie See, daughter of Mr. and Mrs. Harlan See, Buhl, was united in marriage to John Epley, son of Mr. and Mrs. Malcolm Epley, Long Beach, Calif., in candlelight ceremonies Sunday evening at the Buhl Methodist church.

The Rev. Leonard Clark performed the service before a background of candelabra and baskets of pink and white gladiolus and blue delphinium.

The bride wore a gown of Chantilly lace and nylon pleated tulle over white satin with a chapel length train. The bodice was styled with a square neck, lace collar and long pointed lace sleeves. Her fingertip veil of illusion net was held by a Juliet cap of lace and seed pearls. She carried pink baby roses and white delphinium tied with white satin ribbons.

Attendants were Mrs. Russell Viehweg, Boise, matron of honor, and Mrs. Don Miller, Twin Falls, bridesmaid. Junior bridesmaids were Karen See, sister of the bride, and Alix Epley, sister of the bridegroom.

Malcolm Epley, Jr., Portland, Ore., brother of the bridegroom, was best man. Ushers included Donald See, brother of the bride; Cam Wiley, fraternal brother of the bridegroom, and Russell Viehweg, Boise.

Mrs. See wore an afternoon dress of gray blue silk crepe with white accessories. The bridegroom's mother was attired in a pink orion dress with white accessories. Both mothers wore pink and white rosebud corsages.

Mrs. Bill Walt and Roger Vincent were soloists. Mrs. Gerald Jensen played the organ.

At the reception held in the church parlor, Mrs. Grace French, Mrs. Elmer Barigar, Elko, Nev., aunt of the bride; Mrs. Charles Jucker and Mrs. Malcolm Epley, Jr., cut the cake. Mrs. Margaret Livingston, Mrs. Ward Moffett and Mrs. Luke Sonner presided at the punch bowl. Susan Livingston served the bridegroom's cake.

Mrs. Earle Melr was in charge of the guest book and Nancy Livingston arranged the gifts. Carolyn Wright also assisted.

For traveling the new Mrs. Epley chose a blue gray suit with white accessories and a pink rosebud corsage. The couple is taking a trip to northern Idaho, Washington and Oregon. They will live in Portland.

The bride attended the University of Idaho and Oregon College of Education. She was graduated from the University of Oregon this spring. She is affiliated with Pi Beta Phi sorority.

Epley was graduated from the University of Oregon and is a student at the University's medical school. He belongs to Kappa Psi fraternity.

The bride was honored with a shower given by Mrs. Margaret Livingston, Mrs. George Smith, Mrs. Will Post and Mrs. Oscar Carlson recently at the Livingston home.

Mrs. Ward Moffett, Mrs. Jucker, and Mrs. Leon Morris entertained her with a shower at Mrs. Moffett's home also.

High school friends of the bride gave a picnic supper in her honor June 23 at the city park. On Saturday evening after the wedding rehearsal, members of the wedding party, family and friends were entertained with a barbecue at the home of Mrs. Livingston.

Out-of-town guests included Mr. and Mrs. Epley, Sr., and daughter, Mrs. Dorothy Robinson, all Long Beach; Mr. and Mrs. Epley, Jr., and Phyllis and Judy Tanner, all Portland; Mrs. Annie Barigar and Mr. and Mrs. Elmer Barigar, all

### Care of Your Children

By ANGELO PATRI

Toby is 3 years old, a fine big husky boy who believes in himself and wants other people to do so, too. He will take the biggest piece of candy and if possible, two pieces, and will give no thought to the playmate standing by "candyless."

"Toby, give Sammy a piece." "You give him one," says Toby. This worries his mother for she does not want Toby to grow up being greedy and unthinking of other people, so she says, "I'm ashamed of you. Give Sammy a piece of that candy. And make it the biggest piece, or I'll take it all away from you and you'll get none."

Reluctantly, his lower lip stuck out, his face one blackness, Toby hands Sammy a piece of candy. "Here," and he shoves a sticky candy into his playmate's hand. His mother sighs, shakes her head and says, "Will he never learn?"

Give him a chance. At 3 years of age few children, that is few healthy children, give away their candy. Let them have it. To teach them to share their treats give them candy for themselves and candy for their guests. "This for you, this for Sammy."

Forced generosity is not nourishing to the spirit. To be of any use it must be spontaneous and at the age of 3 it rarely happens. The best one can hope for is willingness to give the extra piece. A good example set by the family does regis-

ter when the child develops something of a social conscience, something of affection for his playmates.

Now and then we meet a child who gives everything he has to the child nearest him. If he takes his tricycle out another child rides it while he stands by. If he takes his ball out, he comes in without it. "I gave it to Jimmy." This is not generosity. It is weakness and is not to be encouraged. Nor are the other children to be encouraged to take advantage of it.

When this give away child returns to the house minus his belongings, the only thing to do is to take him by the hand to where the new owner is and get the toy back. This teaches both sides that giving and taking have limits beyond which it is not wise to go.

But the usual healthy child refuses to give, even to share, and must be led by graded steps to understand the pleasure of sharing. Giving must be held down until the child is of the age of reason.

The first step in overcoming lying is to find the cause; sometimes it is fear, but whatever the cause lying should be stopped before it becomes a dangerous habit. Dr. Patri explains the procedure in leaflet P-16, "Lying." To obtain a copy, send 10 cents in coin to him, c/o Times-News, P. O. Box 20, Station G, New York 10, N. Y.

### Joyce Jensen Is Bride of McKean in Church Ritual

Joyce Jensen, daughter of Mr. and Mrs. Eugene L. Jensen, Twin Falls, became the bride of Clark Eugene McKean, son of Mrs. Dorothy McKean, Twin Falls, Sunday afternoon at the First Methodist church.

The Rev. W. A. MacArthur performed the ceremony before baskets of pastel gladiolus, chrysanthemums and majestic colored daisies and candelabras of lighted tapers.

The bride wore a princess style ruffled gown of white marquisette over taffeta with a short train and long pointed sleeves. The fingertip veil was held in place by a halo crown of pearl mock orange blossoms. With a white Bible, a gift from the bridegroom, she carried a white orchid and pink roses.

The couple was attended by Mrs. Jerry Parkinson, the bride's sister, who was matron of honor, Sharon Carson and Mrs. Edward Trappen

were bridesmaids. Marilyn McKean, the bridegroom's cousin, was flower girl and ringbearer was Noel Craig Jensen, brother of the bride.

Bill Bass was best man and Jerry Parkinson, Edward Trappen and Wayne Wright, Pocatello, served as ushers.

Mrs. Jensen was attired in an afternoon dress of toast colored Chantilly lace with white accessories. The bridegroom's mother wore a nylon maize colored afternoon dress with navy blue and white accessories. Both mothers wore yellow carnation corsages.

Joyce Fisher was organist and H. M. Iverson was soloist.

Following the ceremony a reception was held at the church bachelorette. Mrs. Dorothy Robinson and Mrs. Yule Anderson served and Patie Porter was in charge of the guest book. Elaine Bitter and Annette McDonough took care of the gifts.

For her going-away ensemble the bride chose a pink suit of wool gabardine with poodle cloth jacket and white and black accessories. Her corsage was the orchid from her bridal bouquet.

The new Mrs. McKean was graduated from Twin Falls high school in 1954 and is employed by the Idaho Department stores in Twin Falls. McKean, a 1952 graduate of Twin Falls high school, attended Twin Falls Business college and is employed at the Sherwood Typewriter Exchange in Twin Falls.

Following a week's trip to Sun Valley and Albus lake the couple will reside in Twin Falls.

The bride was honored at a shower given by Miss Carson at her home recently.

Out-of-town guests were Mrs. Monroe Wilkinson and Mrs. Robinson, both Magna, Utah; Mrs. Yule Anderson and Yulene Anderson, both Garfield, Utah; Myrna Haycock, Ephraim, Utah; Ruth, Barbara and Eddie Greggs, Harold Greggs, Mr. and Mrs. M. ## Action to Have Parley in U.N. Reported Due

UNITED NATIONS, N. Y., June 30 (AP)—Thailand was reported preparing today to request a meeting of the United Nations general assembly late next month to consider assembly for the neutrality of Laos and Cambodia in war-torn Indochina.

Prince Wan Wathayakon, Thailand's foreign minister, arrived yesterday from the Geneva conference and began consultations on the timing of his move. He planned to confer with American Secretary of State John Foster Dulles in Washington tomorrow.

**Won't Wait**

The prince told newsmen he would not necessarily wait to submit his request for an assembly meeting until July 20, the deadline set by French Premier Pierre Mendes-France for a cease-fire in Indochina.

On June 18 Russia vetoed in the security council Thailand's demand that the U.N. send "peace observers" to its borders to watch the communist advance in neighboring Indochina.

**Lodge Agrees**

Wan said U. S. Ambassador Henry Cabot Lodge, Jr., agreed with him that the assembly should be convened as soon as possible "but at the same time we must take into account international developments."

"This action here will be taken independent of the Geneva conference but it should not conflict with those talks," the Thai delegate said.

## Hayride Held

WENDELL, June 30—The Westminster Fellowship hayride Sunday was attended by 18 members and eight guests. The group was accompanied by Hubert Evans, Mr. and Mrs. John Newbrough and Mr. and Mrs. M. H. Metz.

## KNOTHOLE NEWS

High scoring games were the vogue in Tuesday games in the Times-News Knuthole league, says Leon Fenwick, director.

Sterling's Diamonders defeated the Cardinals by a 41-5 count in the Pee Wee league. Calvin Craner notched the win with Richard Peck getting credit for the loss.

Craner blasted four home runs and a double and Jerry Cooper added three homers and double to pace the Diamonders' hitting. Mike Bates, Robey Earl and Jerry Peck added additional homers with Earl collecting a triple, all for the winners. Bates, Cooper, Earl, Craner and Ray Poe hit doubles.

Krengel's Klouters pounded out a 35 to 23 win over the Union Tigers. Charles Dunn hit a homer and a triple for the Klouters which Lynn Baird and Donald Bogus added doubles. Rogeron Willson hit a four bagger. Steven Woodall and Lynn Baird tripled for the losers.

The Junior Cowboys met their match in the Fencebusters, dropping a 25-6 decision. Harold O'Donnell was the winning pitcher and Vaughn Brauer the loser. O'Donnell hit out a homerun and, Everett Newbrey a double for the Fencebusters. Douglas Lindy homered for the Cowboys.

DeWeller Electric's edged the Junior Yankees 11-7. Winning pitcher was Mike Edgar. John Peterson was the losing hurler. Frank McAtee got a double for the winners and Bob Running and John Peterson hit doubles for the Yankees.

Bob Engleman pounded two home runs to lead the Roxy Rockets to a 23-8 win over the Case Eagles. Max Lloyd was the winning pitcher and Arthur Clement the loser. Dick Kloppenburg doubled for the Rockets.

The Bulldozers downed the Fireballs 8-4. Larry Maupin was the winning pitcher and Edwin Prescott the loser. Gary Luech and Maupin got triples for the Bulldozers.

Danny Keller pitched the Junior Firemen to a 9-3 win over the Thermometers. Lamar Childs was the losing hurler. Larry Stevens hit a double for the game's only extra base hit.

The Phillies routed the Reddy Kiowats 28-9 in a Minor league game. Bill Warner was the winning pitcher, Gary Nemnick was the loser. John White, Bill Stowe and Larry Routt all doubled for the Phillies.

## New Trial Moves Slated for Nunan

NEW YORK, June 30 (AP)—Attorneys for former commissioner of internal revenue Joseph D. Nunan, Jr., planned today to seek a new trial for the ex-tax collector who was convicted on federal income tax evasion charges.

Judge Walter Bruchhausen said he would hear the defense motions for a new trial tomorrow.

Nunan was convicted yesterday on five counts of an indictment charging him with evading payment of \$91,086 in income taxes for the years 1946 through 1950. Nunan was the nation's chief tax collector from 1944 to 1947.

He faces a maximum penalty of 25 years in prison and a \$50,000 fine—five years and \$10,000 for each count in the indictment. He was ordered to appear for sentencing July 22.

### British Plan Big Blaze for Nation Books

TWIN FALLS, June 30 (AP)—The big-est burning since the heyday of the bonfire will take place next month in the United Kingdom.

There will be hundreds of thousands of copies of an obnoxious, old-fashioned little government publication containing dozens of counter-propaganda symbols.

These ration books, the bane of the housewife's life for 14 1/2 years, will be burned in the last half of July.

The housewife will be able to take her ration book, point to the beef, and say firmly: "I don't want any of that. Quite a lot of those ration books will be burned for burning."

Conservative groups are taking the job done with propriety in the hands of the Conservative party groups, which only natural. The Conservatives are in power since the autumn of 1951, and it was their policy to let the land free from those ration books.

At the biggest of the bonfires will be held at Terling Place, Essex county seat of Lord and Lady, on July 17. They're burning more than 10,000 books.

Other conservative groups are taking the job done with propriety in the hands of the Conservative party groups, which only natural. The Conservatives are in power since the autumn of 1951, and it was their policy to let the land free from those ration books.

### A summer drink's like a good parade... the longer the better!

One hand doesn't make a holiday parade. One swallow doesn't make a summer drink, either.

No sir, when you're pining for real hot-weather refreshment, a puny little drink in a pygmy-size glass seems to tease more than please.

Make mine tall and satisfying... with a fine, full-flavored whiskey that holds its own amongst the lemons, mixers and melting ice.

In other words, Schenley. The reason I say Schenley is here in this hourglass. The glass itself means Nature's unhurried goodness. The big "S" stands for Schenley's skill. Together, they make Schenley the best-tasting whiskey in ages.

Might be a good idea to pick up a bottle. It's nice to have Schenley on hand when folks come calling.

# Mother Lost Son Reunited

SPRINGFIELD, Vt., June 30 (AP)—A mother who for 42 years had hoped that her son would one day be found, was reunited with him yesterday.

Mrs. Tracy, 68, now of Springfield, Vt., met her son, who was 45, at the hospital where she underwent an operation on her left eye.

Only yesterday morning she was told that her son had been kidnapped by his father and was on route to see her in the afternoon.

Not surprised, Mrs. Tracy said that Mrs. Tracy had told her the news. "She had told me all along, she never gave up," she said.

Robert, who grew up believing his name was "Pitman," said his mother had died when he was a small child, came here to live in Charleston, Vt., with his wife, and an aunt, Mrs. Rawson, Springfield.

He was much more controlled than he had been after the discovery.

His discovery when his mother told him that his son was living.

He learned through his father's contact with a relative that his knowledge that his son had lived in Springfield.

# "Slow Down and Live" Campaign Starts With Reduction in Deaths on Highways

NEW YORK, June 30—The "conspicuously successful" start of the 1954 summertime highway safety campaign, "Slow Down and Live," is hailed by Thomas N. Boate, accident prevention department manager of the Association of Casualty and Surety companies, as proof that accidents can be reduced.

Speaking in New York, Boate noted a 16 per cent cut in highway deaths in the participating states during this Memorial day week-end as compared with the same holiday last year. The figure represents a drop from last year's 196 deaths to 165 for this year. Boate pointed out that the reduction came in the face of a near-record death toll for the nation as a whole and despite the fact that this Memorial day was a three-day holiday while last year's was only two days.

The "Slow Down and Live" program, started during the Memorial day week-end, is co-sponsored by the governors of the 24 northeastern and southern states from Maine to Texas. It utilizes stepped-up speed law enforcements as its principal weapon against auto accident fatalities. It is scheduled to continue through the Labor day week-end.

"As one of the many business interests deeply concerned with the problem of safety on the highways," Boate said, the Association of Cas-

# Yank Held by Russians for 4 Years Will Have Sanity Tests

OKLAHOMA CITY, June 30 (AP)—The troubled homecoming of former army Pvt. Homer H. Cox from a Russian prison camp has led to the Oklahoma County jail, where he awaited a sanity hearing.

Cox's mother, Mrs. Edith Spencer, signed an application for the hearing, stating her 33-year-old son "needs medical attention."

"He's just cracked up and I want to get him into a veterans' hospital," she told county Judge C. J. Blinn.

Cox, freed by Russia last December, recently filed as a candidate for Oklahoma secretary of state and his name will be on the ballot in the July 6 primary election.

Judge Blinn set a sanity hearing for tomorrow and said he would have a second county judge, William Berry, sit with him since a candidate for public office is involved.

Two deputy sheriffs arrested Cox in a tavern here Monday night and placed him in the hospital ward of the county jail.

He offered no resistance but told the officers, "I was a military policeman for a number of years, and you fellows don't know how to properly make an arrest."

Cox was held prisoner in Russia for four years before he was released after weeks of negotiation by the U. S. state department.

He told American authorities he was kidnapped by Russian soldiers while drinking beer in East Berlin. He was serving with an American military police unit at the time.

The army listed him as AWOL during his entire imprisonment but cleared him on his release after a lengthy investigation.

Later, the army delayed his discharge and payment of his four years back pay for several weeks. Two months ago the U. S. state department refused to grant him a visa to return to Austria to marry his 26-year-old Viennese sweetheart, Inge Brenner, whom he met in a Russian prison camp.

Mrs. Spencer gave no details on the application for a sanity hearing but said she was sure "my boy needs mental treatment."

"He knows it, too," she added.

Now you can protect your car against both friction and acid—the two major causes of engine wear

# NEW CONOCO

# Super MOTOR OIL

# America's First Double-Duty Oil!

**Protection 1**

**OIL-PLATING\***

conquers friction wear . . . . because this exclusive discovery actually fastens a thin film of lubricant to moving engine parts for full-time protection.

**Protection 2**

**ACID-PROOFING**

conquers corrosive wear . . . . because this exclusive new discovery gives Conoco Super up to twice the cleansing power of other premium oils!

Automotive engineers have long known that friction and corrosion are the two major causes of engine wear. Now, from the laboratories of Continental Oil, comes America's first Double-Duty motor oil. It combines two exclusive discoveries (Oil-Plating and Acid-Proofing)\* to conquer both major causes of engine wear.

The unique Oil-Plating additive conquers friction wear by actually fastening a thin film of protective oil to engine parts. Unlike ordinary motor oil, this film won't drain down even when your engine has been stopped overnight. Thus you get full-time protection against damaging wear due to friction.

**Exclusive Acid-Proofing** additive conquers corrosive wear three ways—it neutralizes acids, prevents rust, and gobbles up tiny particles of dust, dirt, and water and seals them safely in spheres of oil until the oil is drained. **Acid-Proofing** actually gives new Conoco Super twice the cleansing power of other premium oils!

**New Conoco Super Motor Oil** is on sale at Conoco dealers everywhere. Drive in and ask for it today!

# Hank Is Astounded by News Hiss Is Eligible for Pension

By HENRY McLEMORE  
HONOLULU, Hawaii.—U. S. Rules  
Alger Hiss Rates Pension.  
Emotionally, I could not have read  
that headline at a worse time.  
It struck my eyes not 10 minutes  
after I had stepped ashore from a  
heavy tugboat tour  
of Pearl harbor.  
I was still  
shocked up from  
my close-up view  
of America's hat-  
redship graveyard.  
What a thing to  
read when you  
have just seen the  
remains of the  
USS Arizona, and  
can still remem-  
ber these words of  
the sailor guide:  
"You probably wonder why that  
American flag is not flying at half-  
mast on what is left of the Arizona.  
The reason is that the navy still  
sentimentally considers this ship as  
being a commissioned vessel. More  
than 1,100 of her crew, ranging in  
rank from a rear admiral to an ap-  
prentice seaman, are still entombed  
in her hull. An honor guard raises  
the flag every morning and lowers  
it in the evening."  
"At the base of the flagpole is a  
small plaque, put there in 1950 by  
Adm. Arthur W. Radford, then com-  
mander-in-chief of the Pacific fleet.  
The words on the plaque are: 'From  
today on, the USS Arizona will again  
fly our country's flag just as proud-  
ly as she did on the morning of De-  
cember 1941. I am sure the Arizona's  
crew will know and appreciate what  
we are doing. May God make His  
face shine upon them and grant  
them peace!'"  
A watery grave and a plaque for  
the men of the Arizona who died  
for their country.  
A pension for a man who sold  
out his country.  
It is enough to make a man doubt  
the sanity of the men who insist that  
the government is obligated to see  
to it that Hiss will not want in his  
old age.  
Honestly, I can't believe it's true.  
Such a ruling is ridiculous, shame-  
ful, degrading, and astounding. No  
matter if there is a law that calls

for a pension for a convicted traitor.  
And no matter if it happened to  
be carved on a mountain in letters  
100 feet high, it should be ignored  
and forgotten.  
Either that, or let us Americans  
make ourselves completely foolish  
and give Hiss a pension that will  
enable us to boast to the rest of the  
world that no other country is as  
generous to traitors as ours.  
No use going half-way with pen-  
sions for Americans who aid the en-  
emy. While the money that Hiss will  
draw is a respectable sum, it isn't  
anywhere near enough to keep a  
first-class seller-out of our country  
in the latest in invisible inks, false  
mustaches, microfilm, aliases, alibis  
and disloyal couriers.  
As long as we are going to pamper  
traitors, we might as well set them  
up in style. There's no use in giving  
them the chance to go around com-  
plaining that the United States is  
ungrateful to first-class betrayers.  
Such griping could very well cost us  
loss of prestige with the other na-  
tions of the world. And to hear some  
folks tell it, we can't afford to lose  
any more face with our super-touchy  
neighbors.  
Now that Hiss is going to be taken  
care of, I am going to climb my  
family tree and see if I happen to be  
related to Benedict Arnold. If I am,  
I am going to hotfoot it to Wash-  
ington and put up a squawk for some  
dough.
