The earthquake, which was felt over a wide area, was described as the worst in the history of the country. It was described as the worst in the history of the country. It was described as the worst in the history of the country.

Wreck Faces Acknowledges

NEW DELHI, July 30 (AP)—A major earthquake in northern India today killed 1,000 persons and injured 10,000 others, according to official figures. The earthquake, which was felt over a wide area, was described as the worst in the history of the country.

LDS Building Dedicated For Buhl's Wards

SALT LAKE CITY, July 30 (AP)—Five hundred persons attended the dedication of the first and second wards LDS chapel in the city today. The ceremony was held at the new building, which was dedicated to the memory of the late Senator Charles McNary.

Orders

A number of people who ordered extra copies of the Twin Falls News today were notified that their orders had been filled. The newspaper is pleased to serve its readers and will continue to provide them with the latest news.

Restaurant People Say They Could Defeat Trout Bill

BOZEMAN, July 30 (Special)—Restaurant people in Montana today said they could defeat a bill to restrict the sale of alcohol in restaurants. They argued that the bill would harm the restaurant industry and the state's economy.

Falls Get Face-Lifting

At left is a view of the way Prospect point at Niagara falls looked before a large rock slab crumbled into Niagara river lower gorge. No one was hurt. (NPA telephoto)

Critics of Soaring Coffee Costs Repeat Action Call

WASHINGTON, July 30 (AP)—Congressional critics of soaring coffee prices renewed their call for stricter regulations today in the wake of a government report blaming the price hikes on speculators and other artificial causes. The critics argued that the government should take action to stabilize the market and protect consumers.

Production of Atom Weapons Increased

WASHINGTON, July 30 (AP)—The nation's atomic arsenal is "growing rapidly in total numbers," the government said today, and high-level action has been taken to assure continued U. S. superiority in the A-bomb and H-bomb field. The report indicated that the production of atomic weapons has increased significantly in recent years.

Tourists Are Issue in Vote Bid in Blaine

KEETCHUM, July 30 (Idaho)—A local election in Blaine today was marred by a dispute over the inclusion of tourists in the voter count. The dispute arose over whether tourists who were in the area for a short time should be allowed to vote.

3-Day Fast of 1,500 Prison Inmates Ends

WALLA WALLA, Wash., July 30 (AP)—A three-day fast by 1,500 inmates of the Walla Walla State Penitentiary today ended in a victory for the prisoners. The inmates had been protesting against poor conditions and lack of food.

Parched Texas Has Rain After Gulf Storm Strikes

A major rain storm arrived today in Texas, bringing much-needed relief to the parched state. The storm, which originated over the Gulf of Mexico, brought heavy rain to large areas of the state, ending a long period of drought.

Rumors Spiked

CHURCHILL, July 30 (AP)—Rumors of a resignation by a high-ranking official in the government today were quickly dispelled. The official, who had been the subject of speculation, stated that he was not planning to leave his position.

Short Delay On Censure Is Accepted

WASHINGTON, July 30 (AP)—Sen. Ralph E. Flanders, R., Vt., agreed today to postpone for several hours proceedings on his resolution of censure against Sen. Joseph R. McCarthy, R., Wis. The delay was accepted by both sides as a tactical move.

Tax Expense Cut for Many By New Plan

WASHINGTON, July 30 (AP)—The new tax plan will cut the tax expense for many individuals and corporations, according to officials. The plan includes a variety of deductions and credits designed to reduce the overall tax burden.

Red Rejection Of 2 Protests

WASHINGTON, July 30 (AP)—The Chinese government today rejected two protests from the United States. The protests were related to the treatment of American citizens in China and the status of the Taiwan Strait.

C. of C. Asks Improvements Of Falls Road

CHICAGO, July 30 (AP)—The Catholic Church today asked for improvements to the Falls Road in Chicago. The church officials argued that the road was in poor condition and needed to be widened and repaved.

Airline Says Union Faces Court Move

CHICAGO, July 30 (AP)—An airline today said it was preparing to file a lawsuit against a union. The airline claimed that the union was interfering with its operations and violating labor laws.

Neglected Detail Spoils Planning

GOODING, July 30 (Gooding)—A neglected detail in the planning for a major event today spoiled the preparations. The detail, which was overlooked until the last minute, caused significant delays and confusion.

Harvest of Grain Starts in County

GOODING, July 30 (Gooding)—The harvest of grain in the county today began in earnest. Farmers are working hard to bring in the crops before the weather turns, and the community is preparing to support the harvest effort.

Baseball Today

By United Press NATIONAL—Chicago White Sox, two games, tonight—night, and Cincinnati at New York, Milwaukee at Brooklyn, and St. Louis at Philadelphia, night games.

NATIONAL REPRESENTATIVES
TWIN FALLS, IDAHO, JUNE 11, 1943.
Mr. Harry B. Smith, Editor.

"HEELS AT THE WHEEL"
It's warm, the open road is inviting, and the crazy reason for drivers' "upons" is again. That means it's time for another sounding-off from motorists' bad—and unsafe—highway habits.

Some of this may seem repetitious. If it does, we'll have to blame it on the fact that drivers keep on doing the same old, crazy, irresponsible things when they get behind the wheel.

Underlying most of these bad practices is a single basic weakness of attitude. Too many motorists evidently regard their car as some sort of large toy, to be flipped around on the road with a careless finger or two on the wheel.

It ought to be clear by now to anyone who can read—including youngsters of 15 and more—that a modern automobile is not a toy. It is at least a death for any gun ever fired against an American by a German or Jap in World War II, or a communist in the Korean war.

So, once more, we suggest to all drivers, and particularly the young ones:

Stop driving with one hand. The fellow who hurtles along at 60 or better, with a finger curled around the wheel and his left hand holding up the car door advertises himself as the most ignorant driver on the highway. It is doubtful if a vacuum cleaner would be safe in his hands.

A lot of people who refused to learn this elementary lesson are memorialized today in the statistics of highway fatalities.

Don't crawl up on the back bumper of the car ahead. A quick stop and your car, not the one in front, will be accordion-pleated. The highway is no place for a car to stand.

Don't pass unless you can see far enough ahead to assure your safe return to the proper driving lane. Some of our concrete cowboys appear to think everybody else on the road should be ready to stand on the brakes or turn off the pavement so they can pursue their reckless ways.

Don't turn onto a busy road in front of a fast-traveling car when you can clearly see a block or more of space behind it. This sort of thing makes sense to be a great favorite with farmers.

Don't ride the passing lane on a four-lane road unless you're going by another car. There are some pretty stubborn characters about, who will not let you pass unless you matter how many five-foot signs they see telling them to stop right when not passing.

Watch all roadside stopping places for vehicles, especially trucks, shipping back onto the highway. The side of the road is not a place to stop. If you forget that, you may wind up in a rear-end smash, an all too common thing these days.

Have you ever stopped to ask yourself whether or not you could be classified as a "heel at the wheel"? The National Safety council holds up six mirrors to help you answer the question for yourself. If you can see yourself in any of these following mirrors, then you are actually liable to be a "heel at the wheel," preparing yourself to become a statistic.

The Me-First—This is the selfish competitive character who must be first away from the motor. He is always ready to "have anyone pass him, and risks the life of anyone who gets in his way.

The Big-F—This is the fellow who is too big for the rules. Others can obey the law and a code of decent and courteous behavior, but not this self-inflated big shot. He's above all that.

The Know-It-All—This driver is good, in his own estimation. He knows just what the other driver is going to do, just how fast he can stop, just how much room he needs to cut in on another car. But the only way this over-confident jerk escapes painful disillusionment is that the really good drivers give him a wide berth.

The Show-Off—This fellow thinks he expresses his masculinity or something by living dangerously behind the wheel. He believes that he who hesitates is lost, and that his luck will hold forever.

The Sorehead—This fellow is just plain mean. He drives with a chip on his shoulder and is ready to look fenders for any real or imagined wrong. He's sore at everyone, and very brave while surrounded by a steel automobile with the windows rolled up.

The Show-Off—This is the exhibitionist. He's graduated from no hands on a bike to no sense at the wheel. He just wants people to admire his flashy performance, but most other drivers are too busy getting out of his way.

Take a good, long look at yourself in one of these mirrors. See anything?
And remember, a heel at the wheel gets by only because the good drivers give him the minister. "Just call me, Mr. Pakistan."

"MR. PAKISTAN"
Sir Zulfikar Khan, foreign minister of Pakistan, has been in Washington for several weeks and a guest of honor at many diplomatic functions. After their affair, the American State Department was apologizing in advance for his inability to pronounce correctly the distinguished statesman's name.

"Don't let it worry you," said the foreign minister, "just call me 'Mr. Pakistan'."

TUCKER'S NATIONAL WHIRLIGIG POT SHOTS

WASHINGTON—President Eisenhower is more popular today with the convention delegates who nominated him at the Republican convention than he was at the time of his election in November, 1952, according to a canvass of the 1,200 convention delegates by the "Whirligig" poll.

The "Whirligig" poll, which was conducted by the "Whirligig" poll, showed that Eisenhower's popularity had increased since his election in November, 1952, according to the Knight-Ridder poll.

The Knight poll has many other interesting aspects. Only 10 of the delegates who voted for "The Whirligig" in the convention would not vote for him now. The reasons given for their defection are (1) "The Whirligig" is not a good candidate, (2) "The Whirligig" is not a good candidate, and (3) the Supreme Court's decision against segregation in the public schools.

"POLICIES WIN FOR 'IKE'. However, the Knight poll continues, these same policies are not as popular as they were in the convention. There are a few illuminating excerpts from this canvass, as reported by Charles B. Cleveland in the Knight newspaper.

The poll indicated that Senator Taft, had he lived, would still have strong backing. Eisenhower's policies, particularly his economic policy, were the most popular. Eisenhower's policies, particularly his economic policy, were the most popular.

But with Taft's death, "Ike" has won over a majority of his followers. "Ike" has won over a majority of his followers. "Ike" has won over a majority of his followers.

OPPOSED TO EISENHOWER. "About one-fourth of the delegates," Mr. Cleveland reported, "indicated that they still did not like 'Ike.' It is reported that they would vote for another candidate or voted 'Ike' as only a fair or poor President."

Everett M. Dirksen, Ill., was the outstanding favorite of the delegates who did not support Mr. Eisenhower. "Ike" was the outstanding favorite of the delegates who did not support Mr. Eisenhower.

MCCARTHY'S EFFECT. "And now, here is the payoff problem—Sen. McCarthy's effect on Eisenhower and the party fortunes," the survey says. "The survey says that the effect of McCarthy's presence has helped the Republican party and its chances of victory in November. More than half of those favoring McCarthy can be seen."

POLITICALLY IMPORTANT. "One fact develops from this enlightening survey, and it is that McCarthy is still a political power. He is still a political power. He is still a political power."

VIEWPOINTS OF OTHERS. "The Washington Post is virtually alone in popular discussion of cancer. Yet the Sloan-Kettering Institute for Cancer Research of Memorial Hospital is today in the lead position. Even this result is of historic importance because the cure was brought about entirely by the Sloan-Kettering Institute."

HEALTHY REPORT ON CANCER. "The Sloan-Kettering Institute for Cancer Research of Memorial Hospital is today in the lead position. Even this result is of historic importance because the cure was brought about entirely by the Sloan-Kettering Institute."

FAMOUS LAST LINE. "The party was a total loss. The party was a total loss. The party was a total loss."

LEGAL ADVERTISEMENTS. "NOTICE TO ADDRESSES. The State Publishing Association will publish the following notices for the State Publishing Association."

NOTICE TO CLAIMANTS. "The State Publishing Association will publish the following notices for the State Publishing Association."

THE WEARING OF THE GREEN. "There isn't an enlisted man alive who hasn't objected to some of the enforced differences between commissioned and non-commissioned personnel. The wearing of the green is one of the most objectionable."

STRETCH AND SMILE. "When a traffic signal stops you on your hands, back, then stretch, yawn and smile. This will reduce your fatigue and fatigue and prepare you better for the next spell of driving."

FOR COUNTY COMMISSIONER. "Second District. Resident of Twin Falls County for 37 years. Owned and operated own farm for 10 years. Paid Polling, advertisement by H. H. Crow."

POT SHOTS

LIFE GOES ON. "You—good constituents who are prone to 'pot' older folks are just as prone to 'pot' younger folks. You are just as prone to 'pot' younger folks as you are to 'pot' older folks."

C. of C. Gets Drive Report For Members

JEROME, July 30.—Reports of one morning drive in the current membership drive for the Jerome Chapter of the Commercial Travelers' Association, Inc., were given by Dr. Charles Parker at a meeting Wednesday noon.

Dr. Parker reported that the membership drive started Wednesday morning with a kick-off breakfast at the Jerome chapter. Members of the membership committee were escorted to Main street on the city fire truck to the business houses they were to contact.

New members obtained during the morning and introduced at the meeting were Floyd Lancaster, owner of Plaster furniture company; John Kober, assistant police chief; Russell Shaud, attorney; Pat O'Harrow, accountant; Cecil Holter, owner of the Mint cafe; Marian Vinyard, Vilgard television; and Warren Kays, accountant. Guest at the meeting was Holger Albrechtsen, Jr., Jerome attorney.

At Woodhead, chairman of the industrial committee for the chamber, said the committee is working on plans for a new brochure for Jerome. Also speaking was the president of the Jerome chapter, Dr. Charles Parker, chairman of the North Side fair and rodeo.

Parker said the earlier dates for the fair this year point to a more successful year. The fair will be held Aug. 12, 13 and 14, two weeks earlier than usual. Parker explained that the new grandstand at the rodeo arena has been completed and painting will be finished this week. He said the stands will seat approximately 1,000 persons.

To assist the board to promote a "bigger and better" fair and rodeo this year a committee was named by the chamber to assist in the improvement. Boyd Freeman was named chairman and will be assisted by Shaud, Warren Kays, Floyd Lancaster, Glen Berry, William Speth, Dr. L. V. Ruel, Kenneth Russell, Dr. Robert Williams, Clifford Shoppert, Mrs. M. J. McCarty and Charles L. Hoffman.

W. B. Churchman, chamber representative for the North Side communities, reported on a recent meeting of the group. He said Fred Schwartz, Rhodhine has been elected president of the organization; W. E. Bolton, Dietrich, vice president; and Luther Koonce, Fairfield, secretary.

Girls Prepare Work on Fair

JEROME, July 30.—Achievement day for the 4-H club was Wednesday at the Jerome Grange hall in preparation for the annual fair Aug. 12, 13, and 14. Approximately 15-4-H club members from the 10 home economics clubs participated. Doree review and judging contests were held. Edna Welgen, home demonstration agent, gave pointers on how to prepare items for exhibit at the fair.

Home economics exhibits for the fair will be entered from 8 a. m. to noon on Aug. 10 and judging of the exhibits will begin at 1 p. m. The judging will be completed by the time the fair officially opens on Aug. 12, Mrs. Welgen said. Early judging was "recommended" because of the large increase in exhibits this year. There are approximately 20 home economics clubs this year with an increased enrollment of about 100 members.

Total enrollment in 4-H clubs in the county is 439, giving Jerome county the second highest enrollment in a two-county area in the state. Franklin county is first. There are 48 clubs in Jerome county this year.

C. C. ANDERSON'S

Week-End Prospector Still Can Make 'Pocket Change' on Gold in California

SACRAMENTO, Calif., July 30.—Gold is still so plentiful in that mother lode country of California that anyone can pull in a day or two of digging and come up with \$15 north of gold.

A steady flow of week-end prospectors is doing just that. They are picking up leftovers from the placer days of the California gold rush, but they know they have only the slimmest chance of coming up with a major strike.

Though commercial gold mining has been going downhill in California for years, the state division of mines reports that the mother lode area on the western slope of the Sierra Nevada is still loaded with gold.

Commercial gold miners don't bother with it. The one-ounce-con-

stant-over-a-wide-area-and-spread-at-\$15-a-cubic-yd. With labor and transportation costs figured in, a miner would barely break even.

What keeps the week-end prospectors on the prowl is the small but sure return for their efforts, and the possibility they will stumble across a pocket of high-grade ore.

A young man walking down an old road near Silver Lake, Calif., today is a rich gold miner. He has taken hundreds of thousands of dollars worth of gold from his Stetson claim at the site of his chance discovery.

A pocket of almost pure gold was found in the Sixteen-to-One mine near Downsville in the Allgashua district. Stretching the length of a man's arm, the pocket gave up nearly \$1,000,000 in gold.

None of the latter-day strikes comes close to the 100,000 gold discoveries during the days of the forty-niners. When California's single year produced \$130,000,000 worth of gold.

In 1948 when gold was discovered at Miller's mill near Colma and the historic gold rush began, most of the

Jurist Levies First Penalty

BOISE, July 30.—A Nampa wholesale grocer and his son became the first defendants today to be sentenced by Fred M. Taylor, newly appointed second U. S. district judge for Idaho.

Taylor fined the father, John L. Plack, \$3,000 and his son, Elmer Edward Plack, \$2,000 on charges of federal income tax evasion. Their six-month jail sentences were suspended on condition they pay the tax, interest and penalties due.

Both pleaded no contest when arraigned yesterday.

The father was accused of paying \$2,000 tax on a reported joint income with his wife of \$18,832 when he actually made \$28,650 and should have paid \$5,200.

The information against his son said he paid \$1,276 on an individual return. The government claimed \$2,000. Plack made \$15,000 and owed \$2,400 in federal income tax. The tax returns in both cases were for 1948 and 1949.

HARVEST INSURANCE

at its best

You still have time to "insure" this year's grain or seed crop with your own Harvest.

HAVING YOUR OWN Model 66 is proved protection against delays and crop loss from lodging, hail, blanching.

The "coverage" offered by the ALL-CROP is extremely broad — it handles more than 100 different crops — grains, weeds and beans. Thousands of farmers to its out, and its performance under tough conditions.

You get all of these advantages at a reasonable price. Come in today and see our ALL-CROP for a better harvest — your own ALL-CROP. WE'LL TRADE — YOU KNOW. ALL-CROP is an ALL-CROP.
