PRICE 5 CENTS

Approval Asked on U.S. Plan

WASHINGTON, Jan. 19 (AP)—The defense department today asked congress to approve a new world-wide military building program to cost \$2,012,282,000—more than half of it for the air force. Of the total Idaho would get around 13½ million dollars and Utah about 2½ million.

The program, included in the 1957 fiscal year budget submitted this week, covers projects in every state defense installation in every state except West Virginia, and at 42 in Alaska, Hawaii, Puerto Rico and the Canal Zone plus eight foreign countries and Pacific Islands.

One feature of the measure is provision for the sale abroad of 150 million dollars of surplus farm products to defray the cost of some new military housing overseas.

Proposed military building, including land acquisition, in the continental United States would total \$1,055,281,000, the overseas construction figure is \$554,222,000 and work at classified and unspecified locations amounts to \$402,780,000. Nearly 80 million dollars is earmarked for the construction of 3,740 military family housing units in the U. S.

The air force is allotted the lion's share of military construction, \$1,175,585,000. The navy ranks a poor second with \$418,728,000 and the army is down for \$425,970,000.

Two Idaho projects get funds. The national reactor testing station of the atomic energy commission in eastern Idaho is allocated \$11,415,000.

The Mainline Home air force base is given \$2,084,000.

Both are listed under air force allocations.

For Utah, four projects are included.

Suggestion to Keep Surplus Given at Meet

WASHINGTON, Jan. 19 (AP)—Senator Humphrey, D. Minn., and President James G. Patton of the National Farmers Union suggested yesterday it might be a good idea to hold on to the government's stocks of surplus farm products. Patton testified before the senate agriculture committee, of which Humphrey is a member in its consideration of new farm legislation.

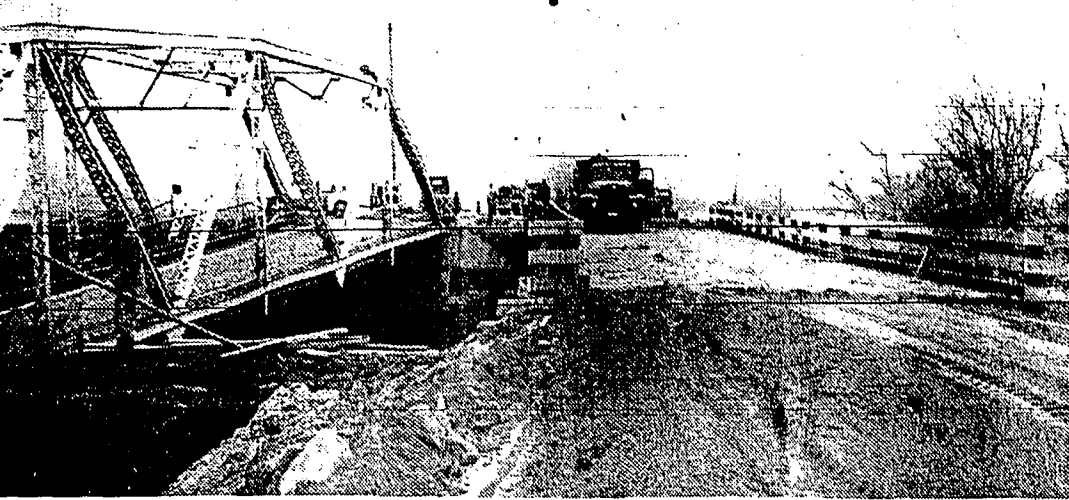

They agreed that the surpluses in government hands—now amounting to about eight billion dollars worth—might be used as a civil defense reserve in case of war.

"If we have been on the verge of war three times recently," Patton said, "we'd better keep these reserves."

His remark was based on statements of Secretary of State Dulles that three times in the last 18 months the country was at the brink of war.

The Eisenhower administration contends the government-owned surpluses are a major factor in depressing farm prices. Secretary of Agriculture Benson has submitted a "soil bank" bill designed to retire millions of acres from surplus production and put them aside for use only after the surpluses have been cut down.

Temporary Bridge Opened to Traffic

Trucks and heavy equipment owned by LeGrand-Johnson Construction company, Logan, Utah, complete the west approach to a temporary bridge over the main line canal one mile east of Murtaugh Wednesday afternoon. The bridge was opened to traffic Thursday eliminating a detour around Murtaugh lake from highway 30. The old bridge was demolished by a truck and dragline on Jan. 3. (Staff photo-encouraging)

Indian Riots Flare as Mob Throws Acid

BOMBAY, India, Jan. 19 (AP)—Angry mobs surged through the streets of Bombay for the third consecutive day today and burned houses and factories and battled police with acid bombs and stones.

Police opened fire on one mob, killing seven persons and injuring 21, but the mobs retaliated by attacking a police station and stoning one officer to death in uncontrolled violence.

Reports from Kolhapur in the newly formed Maharashtra district of Bombay said a mob of 30,000 attacked police there and police were forced to open fire when attempts to disperse them with water hoses failed. Seven persons were injured.

The retreating mob pelted policemen with stones and set fire to a building, injuring six more persons.

Bombay's chief minister, Morarji Desai, called an urgent conference of his senior police and administrative officials to end the mob rule which has defied dusk-to-dawn curfews.

More rioting broke out during the night and demonstrators set fire to a glass factory in between skirmishes with police in which the mobsters would rush out from by-lanes or streets in sudden attacks and then withdraw.

Two Doctors Toss Hats in Senate Race

By The Associated Press

Two Idaho physicians tossed their hats into the political ring Wednesday by announcing they would seek the Republican nomination for the U. S. senate seat now held by Republican Herman Welker.

Dr. H. Ray Hatch, 69-year-old Idaho Falls physician for 35 years, made his announcement about mid-afternoon.

Dr. Raymond White, 42, Boise surgeon, announced later in the day he also will enter the Aug. 14 primary.

Neither announcement was unexpected. Rumors for several weeks in political circles indicated both men would attempt to unseat Welker, who is serving his first term in the senate.

Welker previously announced he would make a bid for a second term. Hatch indicated earlier in Idaho Falls he was contemplating entering politics and re-affirmed the statement during a visit to Boise last week where he conferred with friends and Boise leaders of the LDS church, of which he is a member.

Temporary Span for U.S. 30 Now Ready

MURTAUGH, Jan. 19—A temporary bridge over the main line canal one mile east of here was opened to traffic at 2 p.m. Thursday, eliminating the three-mile detour caused Jan. 3 when a truck and dragline demolished the old bridge on highway 30.

LeGrand-Johnson Construction company, Logan, Utah, completed the temporary bridge in nine days. It will be used while the new bridge is being constructed.

On Jan. 3 a truck loaded with a heavy dragline attempted to cross the old steel and concrete bridge. The boom of the dragline struck the superstructure of the bridge, causing it to collapse. The bridge had spanned the canal since 1920.

Bids for construction of the new concrete precast stringer bridge will be opened Friday. Plans call for a 34-foot wide road section on the new bridge.

State highway officials said all vehicles carrying legal weight loads will be allowed to use the temporary span.

Navy Asks Okay for Shipbuilding Plans

WASHINGTON, Jan. 19 (AP)—The navy told congress yesterday it must push the building of big carriers and nuclear ships "to insure our survival" because Russia is now second only to the United States as a naval power.

Adm. Arleigh A. Burke, chief of naval operations, said the Soviets have more than 400 submarines and even 18 months from now the U. S. undersea fleet will contain only half as many.

Burke, the navy's top uniformed official, urged the house armed services committee to approve a 1½-billion-dollar shipbuilding program for the year beginning July 1. It includes another supercarrier and a guided missile cruiser to be the world's first nuclear-powered surface ship.

"We cannot afford a holiday," Burke said.

The admiral pictured the Soviet navy as well planned for its mission—"to prevent U. S. naval forces and shipping from entering the waters surrounding Europe and Asia."

He said the Soviets have no need for a high speed fleet to fight in the mid-ocean, so they have concentrated on submarines, destroyers and cruisers.

Judge Weighs Decision Over Iverson's Plea

GOODING, Jan. 19—District Judge Hugh A. Baker, Twin Falls, sitting for Judge D. H. Sulphren, Wednesday afternoon took under advisement Joe Iverson's petition for a new trial on the grounds new evidence had been discovered.

Iverson, 17, is serving a life sentence in the state penitentiary on a conviction here nearly two years ago on a charge of lewd and lascivious conduct with a minor girl.

In addition to hearing arguments on Iverson's petition, Judge Baker also heard arguments and took under advisement two demurrers filed by Prosecuting Attorney Cecil B. Hobbey against the petition.

Iverson's petition for a new trial was filed by May and May, Twin Falls attorneys.

When the petition was filed an affidavit of prejudice was filed against Judge Sulphren, who presided at Iverson's trial. With Judge Sulphren disqualified, Judge Baker consented to hear arguments in the petition and on the demurrers.

Basis for the petition was a confession of another man to the crime for which Iverson was convicted. Judge Baker informed attorneys there would have to be evidence in addition to the confession if Iverson was to be freed following a new trial. He said the confession, by itself, would have to be substantiated by other evidence and cited cases to prove his contention.

Hobbey, in his arguments, said there is no assurance the persons making affidavits in connection with the petition would testify at a new trial. He also pointed out that none of the evidence in the original trial against Iverson mentioned the presence of a third party when the crime was committed. The confession indicates Iverson was present while the person making the confession was committing the crime.

Russia Ousts Red Premier in Lithuania

MOSCOW, Jan. 19 (AP)—Russia today removed the premier who has ruled Lithuania since it was incorporated into the Soviet Union in 1940.

An official announcement said the Lithuanian supreme Soviet dismissed Mechlissios Gedvilas from office. No reason was given.

The announcement said Gedvilas was replaced by Motevys Shumauskas.

Gedvilas, a 54-year-old ex-school teacher, had been a member of the Communist party since 1934. He had been premier of Lithuania since Russia absorbed it.

President Defends Dulles and Rejects Ridgway's Charge

WASHINGTON, Jan. 19 (AP)—President Eisenhower said today he considers John Foster Dulles the best secretary of state he has ever known. He also rejected charges by Gen. Matthew B. Ridgway, former army chief of staff, that "political considerations" dictated the administration's new look military program. The President said he had never been made guilty of making military decisions out of deference to politics. The statements were made in Eisenhower's first big press conference since his heart attack last September.

Mr. Eisenhower stoutly defended Dulles despite the upsurge over the secretary's "brink of war" statements. He said he has complete faith in Dulles as a man devoted to peace.

In effect, he emphatically rejected Democratic demand that he fire or reprimand Dulles for saying the administration "walked to the brink" of war three times and that this is the "necessary art" to maintain peace.

"If he had let politics influence military decisions anytime since 1940, the President said there would never have been an invasion of Europe and allied forces would never have crossed the Atlantic in World War II. He said he had been subjected to military advice of every kind over the years, and that it was often deeply felt but sometimes narrowly based.

At his news conference, the President said that he would never have been an invasion of Europe and allied forces would never have crossed the Atlantic in World War II. He said he had been subjected to military advice of every kind over the years, and that it was often deeply felt but sometimes narrowly based.

As to when he will make up his mind about renomination, he said this "personal decision" will be rendered as soon as it is firmly fixed in his own mind.

"I shall strive to see that it is based as to my best judgment on the good of our country," he said.

On other subjects, Mr. Eisenhower had this to say: Farm problem—He believes it would be dangerous for the government to get into a program of direct price supports for such perishable farm commodities as pork. However, he expects the government's renewed pork purchases and other features of its new farm program to bring relief to hard pressed farmers fairly quickly.

Civil rights—When he asked congress in his annual message to create a bipartisan commission to investigate alleged mistreatment of Negroes in some areas, he had in mind a need for defining federal jurisdiction.

Roads in the Pocatello radius were in fairly good condition, the department reported, although there were snow floors between Pocatello and the Wyoming line, between Soda Springs and Freedom, and in the American Falls, Aberdeen and Blackfoot areas. There were a few icy spots on U. S. 81 between Pocatello and Preston and Blackfoot and Arco.

Roads also were good in the Magie Valley area. The Mainline canal bridge on U. S. 30 near Murtaugh, knocked out about 19 days ago by heavy equipment, was replaced by temporary structure which opened today. U. S. 93 way near the Nevada line south of Twin Falls. All roads were good in the Mountain Home, Boise and Weiser areas, although a few slick spots and a little fog were present to irritate drivers. Most of the ice was between Weiser and Cascade to New Meadows.

Roads between Riggs and Pocatello and Grangeville were fine with all icy patches on Whitebird and Lewiston hills well sanded. Fog and icy spots called for careful driving in the Coeur d'Alene to the Canadian line areas, and chains were needed over Lookout pass and Harvard hill.

As much as three inches of snow has fallen in areas northeast of Idaho Falls, and it still was coming at the time of the morning highway report. Some drifting also was noted.

He pointed out that his company has a state permit to distribute gas and also has a contract with the pipeline company for such distribution. He said that, from a practical standpoint, industry likes to do business with an utility whose territorial and price operations are regulated.

Ike Keeps Silent on His Political Plans

WASHINGTON, Jan. 19 (AP)—President Eisenhower said today he has no objection to his name being entered in presidential primaries. But he emphasized that this did not mean he would run again. He also told a jam-packed news conference—his first in Washington since Aug. 4—that "my future life must be carefully regulated to avoid excessive fatigue."

Mr. Eisenhower was subjected to intense questioning about politics although he tried to head it off with a prepared statement about the primaries. He said he had not reached even a tentative decision on seeking reelection. He added, however, that he was busy consulting trusted friends and associates on the matter.

As to when he will make up his mind about renomination, he said this "personal decision" will be rendered as soon as it is firmly fixed in his own mind.

"I shall strive to see that it is based as to my best judgment on the good of our country," he said.

On other subjects, Mr. Eisenhower had this to say: Farm problem—He believes it would be dangerous for the government to get into a program of direct price supports for such perishable farm commodities as pork. Crash Kills 3

TREMONTON, Utah, Jan. 19 (AP)—A grinding two-car collision on a fog-blanketed, ice-covered highway claimed the lives of three Montanans this morning near here.

The Utah highway patrol and Box Elder county sheriff's office identified the victims as Mrs. Mary Burgraff, 63; Mrs. Anna Burgraff, 43; and Adolph Burgraff, 50, all Wolf-Creek, Mont.

Smylie Avers 'Bugs' Noted In Youth Act

IDAHO FALLS, Jan. 19 (AP)—Gov. Robert E. Smylie says some bugs have developed in Idaho's new youth rehabilitation law and the next legislature will probably iron them out.

"No law will provide automatic solutions," he declared yesterday in opening ceremonies for the New Pal Youth club, sponsored by the Idaho Falls Police association.

"But it is already apparent that some changes are indicated," he said, but did not indicate what these might be.

The constitutionality of the law has been challenged in Grangeville. Smylie said the youth law was a new departure which resulted from the third attempt in as many sessions of the state legislature to solve the problem of juvenile delinquency.

"I think the legislators know changes would have to be made when it accepted the recommendation of the widely-representative committee that drafted the act."

Doubts Shadow Gas Delivery for Burley

BURLEY, Jan. 19—Doubts as to the ability of the Burley Gas Cooperative to obtain gas for the city in the very near future were expressed Thursday morning by Ralph Gibson, Boise, engineer for the Intermountain Gas company.

Gibson and other officials of the gas company met with city officials Thursday morning to discuss the rejection of Intermountain's bid for a gas franchise in the city.

"I am apprehensive about the possibility of Burley receiving gas any time in the near future because of the many legal problems which must be resolved," Gibson said.

Some time ago the city council granted a franchise to a newly formed Burley cooperative and at another meeting Monday night rejected Intermountain's bid for a franchise.

Gibson said the Flat Northwest Pipeline company, which will bring gas to the area, is under the jurisdiction of the federal power commission and therefore is unable to enter into contracts with any but legally constituted groups which have complied with state and federal regulations.

He pointed out that his company has a state permit to distribute gas and also has a contract with the pipeline company for such distribution. He said that, from a practical standpoint, industry likes to do business with an utility whose territorial and price operations are regulated.

Crash Kills 3

Possible Rain, Snow Loom for 2-State Region

By The Associated Press

Scattered clouds with possible snow or rain showers.

That was the weather menu for northern Utah and southern Idaho Thursday as temperatures continued their above-normal trend.

The southern Idaho outlook was for low clouds or valley fog early Thursday, giving way to rain or snow showers by night.

Bridge Mishap Injures Driver

Robert Hamilton, 298 Monroe street, was hospitalized Thursday following a traffic accident at 8:45 a. m. near the Hansen suspension bridge on highway 50. Hamilton's physician said he incurred a brain concussion when he was thrown from a 1955 Ford truck.

State Patrolman Richard Young said the truck, driven by Hamilton, skidded on the down grade approach to the south side of the bridge with the front end striking the rocks on the west side. The impact spun the truck around, throwing Hamilton from the cab, and crashed into the east embankment.

Censuring of Israel Given In U. N. Vote

UNITED NATIONS, N. Y., Jan. 19 (AP)—The United Nations security council today unanimously condemned Israel for last month's attack on a Syrian outpost on the Sea of Galilee.

Russia joined the West in voting for a resolution sponsored by the United States, Britain and France which censured the young Jewish state for the attack in which 86 Syrians and six Israelis died.

The measure carried no provision for indemnities to Syria, or punishment for Israel.

The vote climaxed a month's debate in which Russia, espousing the Arab case, fought for an order to have Israel compensate Syria for the attack and for council action clearly warning the Israelis that future military action could bring economic and military sanctions against them.

Syria, bringing the complaint to the council on Dec. 16, had demanded that Israel be branded an aggressor, expelled from the U. N. and have economic sanctions leveled against it. The council took none of these actions.

Speeder Fined

Jimmie J. Mudd, route 3, Buhl, was fined \$15 and 43 costs Wednesday in justice court after pleading guilty to charges of speeding 70 miles an hour in a 55-mile zone. He was cited Sunday by city police two and one-half miles west of Twin Falls on U. S. highway 30.

Soil Conservation Program Is Set

BOISE, Jan. 19 (AP)—Idaho's land improvement leaders wound up a three-day meeting here yesterday with a program aimed at putting new life into the state's 42 soil conservation districts.

The State Association of Soil Conservation districts, meeting with the state soil conservation commission and other government farm officials, scheduled a series of grass roots sessions to train local district supervisors.

Don Fredericksen of Gooding, association president, said the meetings would be aimed at instructing the locally elected supervisors in new methods of irrigation and soil improvement.

One Day Left

There is only one day left for approximately 3,000 Twin Falls county car owners to obtain their 1956 license plates.

No long lines were noted Thursday morning and clerks at the bureau said there were periods when none of the windows was busy.

By 1 p. m. 9,940 automobiles and 230 truck plates had been sold. During all of 1955 around 16,500 were sold in Twin Falls county.

The Twin Falls license bureau will close at 5 p. m. Friday and after midnight state police will begin citing motorists who are operating vehicles without 1956 plates.

Fredericksen and R. N. Irving of the state soil conservation service, added that the districts themselves have no desire to levy taxes.

Reds Open Huge Shelling Barrage

TAIPEI, Formosa, Jan. 19 (AP)—Red Chinese artillery today opened up with the greatest bombardment of Quemoy and adjacent islands since the outbreak of the west coast war, the defense ministry reported.

A communique said 2,934 shells came crashing down on the islands across Formosa Strait before National counter-battery fire silenced the red guns.

The bombardment lasted nearly five and one-half hours.

Governor Leaves On Eastern Tour

BOISE, Jan. 19 (AP)—Gov. Robert E. Smylie departs tonight for Cleveland via United Air Lines to begin a week-long tour of the East that includes two speaking engagements and a conference with Presidential Assistant Sherman Adams.

The trip will give national Republican leaders an opportunity to take a first-hand look at Smylie, who is considered a likely choice for the keynote speaker at the GOP national convention in San Francisco in August.

Large Crowd Is Present at IOOF Events

BURLEY, Jan. 18—More than 100 persons witnessed joint installation ceremonies for the Burley IOOF lodge No. 18 and Ruth Rebekah lodge No. 107 Tuesday evening. The installation followed a dinner in the lodge dining room.

Installing officers were Ted Arbogast, district deputy grand master, and Mrs. Ted Arbogast, deputy president of the Ruth Rebekah lodge. They were assisted by Richard Peacock and Mrs. Hazel Schwaezler, deputy grand installing marshals; Donald Lalliman and Mrs. Lloyd Cox, deputy grand wardens; Cecil Toner and Mrs. Ed Glorfield, deputy grand secretaries; Horace Cannel and Mrs. Cecil Toner, installing grand treasurer; Ed Glorfield and Mrs. Earl Reynolds, deputy installing grand guardians, and Floyd Clevenger and Mrs. James Janak, installing deputy grand chaplain.

Installed were Earl Bell and Mrs. Walter Nelson, noble grands; Raymond King and Mrs. Hubert Warrell, vice grands; William Core and Mrs. Verda Anderson, recording secretaries; James Janak and Mrs. Fred Oranhood, financial secretaries; Lloyd Cox and Mrs. Jess Anderson, treasurers; George Brady and Mrs. Melbourn Shelby, wardens; Mrs. Marshall Mead, conductor; Richard Peacock and Mrs. Dora Ingram, inside guardians; Ed Glorfield and Mrs. Shirley Estes, outside guardians; Floyd Clevenger and Mrs. James Janak, right supporters to the noble grands; Donald Lalliman and Mrs. Frank Toner, left supporters to the noble grands; Mrs. Lloyd Cox, chaplain of the Rebekahs; Oliver Brady, right scene supporter; Frank Manning, left scene supporter; Mrs. Helen Anderson, flag bearer; Lester Brady and Mrs. Ed Glorfield, right supporters to the vice grands; and Billy Jensen and Mrs. Louise Talbert, left supporters to the vice grand.

Max Hubert, conductor; Stanley Peters, chaplain, and Mrs. Louella Kellogg, musician, will be installed at a later date.

Following the installation ceremonies, a program was presented. Helen Anderson played two violin solos accompanied by Mrs. Paul Zillner. Ora Smith, Oakley, gave two musical readings and Judy Wolf played several accordion selections.

Ford's Shares Sold Quickly, More Wanted

NEW YORK, Jan. 19 (AP)—Thousands of investors from London to San Francisco now have a Ford in their future.

They are the tycoons and ditch-diggers, the housewives and secretaries who bought the first shares of Ford Motor company stock ever sold to the general public.

It is estimated that between 200,000 and 500,000 persons bought the 10,200,000 shares of Ford stock sold yesterday.

To many of these lucky stockholders their Ford shares will become collectors' items. Others bought the stock to make a profit, or for income, or "to put away for my kids."

Whatever their reason for buying Ford stock, they took part in one of the most momentous securities offerings in the annals of finance.

A "thunderous" demand greeted brokers when the sale began and it lasted all through the day.

Exasperated brokers said there simply was not enough stock to go around.

"We could have sold 3, 5 or 10 times that number," chorused brokers from the English channel to the Pacific coast. To which their customers added a loud "amen."

From coast-to-coast brokers described the sale with such adjectives as "spectacular," "astounding," and "unbelievable."

The biggest complaint heard from customers was that they didn't get enough stock.

Events Reported

CAREY, Jan. 19—Mr. and Mrs. Valdo Benson have returned from Logan, Utah.

Mr. and Mrs. Orville Finch are visiting in Fort Wayne, Ind.

Mr. and Mrs. Keith Justesen have left for Big Piney, Wyo., after visiting Mrs. Milford Sparks.

LEGAL ADVERTISEMENTS

NOTICE OF ANNUAL MEETING OF THE MEMBERS OF THE CHILDREN'S HOME FINDING AND AID SOCIETY OF IDAHO

The annual meeting of the members of the Children's Home Finding and Aid Society of Idaho will be held at the office of said home, No. 710 Warm Springs Idaho, on Tuesday, the 7th day of February, 1956, at eight o'clock P. M. of that day, for the purpose of electing directors and for the transaction of such other business as may be brought before said meeting.

'Constitution' Is Announced Essay's Topic

"The Constitution in a changing world" is the theme for this year's American Legion essay contest, reports Rose M. North, Twin Falls high school English teacher.

All high school students are eligible to participate in the contest and preparation of essays already has begun, she adds.

The essays will be judged by the English department. The top 10 will be chosen from each class.

Out of the top 30 from all the classes, four seniors, two juniors, and one sophomore will be selected as speakers in the local contest to be held in the Legion hall in February.

In the high school, the history, English, government and speech departments are handling the contest. Leonard Jacob, chairman for the American Legion Americanization project, is supervising the event.

Winners for the last five years were Afton Dean, Zoe Ann Warberg, Dudley Creed, Allyn Dingel and last year's winner, William Alworth who was entered in the sectional contest.

STUDY PLANNED
LONDON, Jan. 19 (AP)—Four Soviet scientists were en route from Moscow to the United States to study methods of treating poliomyelitis and of preparing the anti-polio vaccine developed by Dr. Jonas Salk.

SORRY!

We Are Truly Sorry that we were unable to contact and answer all of the avalanche of mail and calls that poured in from people wanting to learn about Purebred Nutria Fur farming.

Because of this terrific demand: L. G. Howell and Felix Dicus will be available evenings at the Park Hotel all this week to answer your questions.

I wish to express my personal appreciation for the splendid response and cooperation we are receiving from our new ranchers in Magic Valley. It is easy to predict that Twin Falls will be the Nutria Center of the Intermountain states. Thanks A Lot.

HAROLD C. HOWELL

East Germans Vote Okay on People's Army

BERLIN, Jan. 19 (AP)—Communist-ruled East Germany's parliament yesterday voted for a new "people's army." But it will still be the old Russian-organized barracks police with Soviet-type uniforms that was set up six years ago.

The communists claim they need an army to stop an "imperialist invasion" which they charge is being planned in West Germany. Deputy Premier Willie Stoph said an army also is needed so East Germany can fulfill its obligations under last year's Warsaw pact setting up a unified communist bloc command to counterbalance NATO.

West Germany formed its first troop units 16 days ago. They now are being trained by American officers in the use of U. S.-made weapons.

Stoph, 41, appeared at Wednesday's session of parliament wearing his three-starred olive green general's uniform of the barracks police, almost identical to the Russian uniforms.

The bill sets up a defense ministry and Stoph is expected to head it. The Volkammer, lower house of parliament, voted unanimously to create the new army. Stoph said the new forces will include land, sea and air units. Stoph said there will be no draft law to man the new forces, which will be "numerically limited." This was a clear hint the troops will not be expanded immediately beyond the 110,000-man strength of the barracks police.

Visits Reported

ALMO, Jan. 19—Louis Eames and daughters have been visiting in Rexburg.

Mr. and Mrs. Wesley Ward have been visiting in Salt Lake City. Mr. and Mrs. J. J. Bruesch have returned from visiting their son, Lawrence Bruesch, at the University of Idaho.

U. S. coast guardsmen man 21 light ships in U. S. waters.

Judged

KNOXVILLE, Tenn., Jan. 19 (AP)—An all-male jury took only 10 minutes yesterday to acquit slumlord Mrs. Elmer Eugene Keener of drunken driving charges. The jurors didn't even notice that the state had reduced the charge to reckless driving just before they began their deliberations.

Dealer Dies

BOISE, Jan. 19 (AP)—Melvin Ben Bryant, 63, a nephew of Henry Ford, the automobile industrialist, died yesterday after more than 10 years in the auto business in Idaho. Bryant came to Boise from Detroit in 1914 as a salesman for his father's auto agency, which he later owned. He sold the first car in Valley county.

New "Brain" Is Geared to Guard Cities

LEXINGTON, Mass., Jan. 19 (AP)—The United States is pushing the building of electronic brain-nerve centers to meet the present threat of potential enemy bombers and the future menace of long range missiles.

Under test at the Lincoln Laboratory here is the prototype of an eventual chain of such units—in which computing machines, radar warning systems and communication networks will provide, automatically and almost instantly, information needed for waging air battles.

Officials of the laboratory, run by the Massachusetts Institute of Technology, said work on other centers will be carried on, even though operation of the first unit still is in test stage. They told visiting reporters the "critical nature" of defense needs required immediate start on other installations.

Called SAGE

The laboratory, under contract with the Air Force, has developed the complex system called "SAGE"—named from the words "semi-automatic ground environment."

It is a system built around a new type of electronic, digital computer which, among other features, can store up statistics in its "memory" tube and feed them out at split-second speed to provide answers.

The computer, operating at a rate termed "hundreds of thousands of times faster than man," receives information flashed from radar stations on the ground, on ships, in the air and on offshore towers.

Has Picture

A commander at SAGE this system sector headquarters thus would have before him a constantly changing picture of the course of a battle between invading bombers and interceptor planes, anti-aircraft guns and anti-aircraft missiles like the Army's Nike.

In a command post room, illuminated only by dim blue light, reporters saw the television-like screens of cathode ray tubes. On these black faces blinked green light traceries of maps, of location of defensive forces, of simulated planes bound on "saturation" raids toward Cape Cod and the New England coast.

Symbols and numerals, changing continuously as the "brain" received and produced new information, presented a composite, up-to-the-minute picture of the air situation over hundreds of miles.

NAMED CO-CHAIRMAN

PILER, Jan. 19 — Sally Pierce, Evelyn Tilson, Beverly Aulau, Sherry Crawford, Nancy Sackett, Norma Neale, Dick Byce, Dennis Pife, Lynn Crawford and Dyanne Eastman were initiated into Thespians at the Methodist church Monday evening.

Top Secret Papers Found

Unidentified reporter looks at briefcase in which top secret file of radar and Nike defenses of the east coast were found in a car in the Dorchester section of Boston. The auto belonged to Robert Himmler, 37, a Cumberland, Md., engineer. Apparently murdered, Himmler's body was found in a Georgetown, Mass., cemetery. (NEA telephoto)

Teachers Are Meeting Topic

CAREY, Jan. 19—Obtaining and holding good teachers in the community was the topic of discussion at the PTA meeting Tuesday evening. Leaders for the study groups were Bob Day, Roy Hennefer, and Lorin Price.

Conclusions and suggestions included that teachers need salaries commensurate to other fields and professions in order to attract people to the profession, a cadet teaching course would prove helpful to those interested in becoming teachers, employment in the community for the husbands of teachers would help keep the teachers here, summer employment should be available for teachers who wish it and attractive housing should be available to teachers and their families. Summary of the reports was made by W. L. Adamson.

Refreshments were served by the fathers. In charge of arrangements were Don Patterson, John Briggs, Bob Day, Henry Smith and Leonard Carlson.

Construction of a 30 million dollar petroleum refinery plant is now underway at Mamonal, on Cartagena bay, Colombia.

Smylie Praising 'Duty, Heroism'

REXBURG, Jan. 19 (AP)—Gov. Robert E. Smylie told Rexburg Junior Chamber of Commerce members and their guests last night that "devotion to duty" and "heroism" had placed the American people in a position of world leadership.

The governor spoke at the annual distinguished citizen award banquet. John Walz, 32-year-old Rexburg businessman, was selected the city's outstanding young man of 1955.

Smylie delivered a few informal remarks earlier in the day at the dedication of the New Pal Youth club in Idaho Falls.

Reports Given

BUHL, Jan. 19—Kyle Bell, first vice president, Twin Falls county Farm Bureau, reported to the Buhl Farm Bureau Monday on the stock committee at the state convention in Pocatello last month.

Jess Howerton, county delegate, reported on the county bureau's budget. Vernon Herzinger spoke on insurance and the Buhl bureau voted a \$10 donation to help defray expenses of the farm and home institute. They also voted a \$10 contribution to the March of Dimes drive.

Oil-Rich Area May Give Out Tax 'Bonuses'

EDMONTON, Alberta, Jan. 19 (AP)—They're making 60 million more in this oil-rich Canadian province that the government is seriously contemplating paying "bonuses" to the taxpayers.

One city, Medicine Hat, which the late Rudyard Kipling said had "all Hades for a basement" is pondering eliminating all but school taxes. Alberta counts only a few thousand more than one million population, but the province reported a net surplus of some 40 million dollars at the end of its last fiscal year after spending \$95,600,000 on roads, public buildings, parks and contributions to small towns.

The province collects a 14 per cent tax on all income in Alberta and also charges oil firms stiff fees to lease thousands of acres of oil bearing land.

In Good Shape

It is in such good shape financially that it hasn't borrowed money for 21 years and has followed a pay-as-you-go plan for all capital expenditures such as highways and public buildings since 1935.

An apparently unlimited supply of oil and natural gas and an equally unlimited determination by thousands of Canadians and Americans to cash in on it are behind the boom.

Also, Edmonton is the gateway to Canada's far north, a geographical asset that has resulted in a massive flow of military and other traffic through here toward the wilds.

Not Fooling

Premier Ernest C. Manning, who doubles as a Mormon minister, insists he is not fooling when he talks of paying people bonuses based on the boom. In a budget speech last year, he proposed establishment of "citizens' participation dividends."

"These would be a direct payment to the individual citizen, representing his share of the profit made from the development of natural resources," Manning said.

A convention of his Social Credit party happily endorsed the plan. Legislation is expected to be drafted next month but it may take several years to put it into effect.

Symptoms of Distress Arising from STOMACH ULCERS DUE TO EXCESS ACID QUICK RELIEF OR NO COST

Ask About 15-Day Trial Offer!

Over five million packages of the WILLARD TREATMENT have been sold for relief of symptoms of distress arising from Stomach and Duodenal Ulcers due to Excess Acid—Poor Digestion, Sour or Upset Stomach, Gasiness, Heartburn, Sleeplessness, etc., due to Excess Acid. Ask for "Willard's Message" which fully explains the home treatment—free—at Perrins Pharmacy, Bay-Mer Drug Store, Trullinger Pharmacy, Adv.

Bites Hand, Etc.

Police officer Bill Smith, busily engrossed in issuing annual bicycle licenses to all the neighborhood moppets at Pasadena, Calif., failed to notice which "wise guy" snapped that handoff to his chair. By the time he found the key and freed himself there wasn't a bicycle in sight. (NEA telephoto)

REPORT MADE

WENDELL, Jan. 19—Mrs. Arthur Byce, Wendell chairman and Gooding county treasurer of Idaho Tuberculosis association, reports the 1955 Christmas seal sale for Wendell netted \$345.

VISITING SISTER

HANSEN, Jan. 19 Mrs. Dorothy Ferrin and daughters, Jackson, Wyo., are visiting her sister, Mrs. Kenneth Naylor, and family.

Scholarships Plans Shown For Students

Pepper Aims, Twin Falls high school senior, has been entered as a candidate to represent Gate City Steel, Boise, in competition for one of 10 \$1,000 scholarships being offered by the American Institute of Steel Construction.

All students interested in civil or architectural engineering as a career are eligible to compete. The winner may attend any accredited college in the United States offering degrees in these subjects.

Governing factors in the competition will include participation in extra-curricular activities and ability to appreciate financial assistance.

Each candidate is to submit in his own handwriting an essay on the theme, "Why I Want to be an Engineer."

The candidate who is chosen to represent Gate City Steel must take college board entrance examination tests March 17. They include the

I always depend on **CLOROX** for a whiter, safer wash!

CLOROX® makes linens more than white... it makes them sanitary, too!

It's a wise mother who always launders with Clorox! For Clorox removes dinginess, stains, odors... makes white cottons and linens extra white, fast colors extra bright. And, most important, Clorox helps protect family health! Laboratory tests prove that Clorox is the most efficient germ-killer of its kind.

Yes, you can depend on Clorox for a really clean wash! You can be sure Clorox will be extra gentle, too. For, made with an exclusive patented formula, it's free from caustic. And Clorox, a liquid, contains no gritty particles to damage your wash, washer or dryer.

The considerate hostess makes sure her bathroom is CLOROX-clean!

It's a mark of good housekeeping, and good manners to have your bathroom sparkling-fresh. And it's so easy when you do your routine cleaning with Clorox. It removes stains, deodorizes... provides a type of disinfection recommended by public health authorities. See the label for directions and many other household uses.

You get all these benefits in a Clorox-clean wash!

1. Snowy-white linens... Clorox removes gray and yellow dinginess.
2. Bright fast colors... Clorox removes fading.
3. Lovely-looking linens... Clorox removes ugly stains, even scorch and mildew.
4. Fresh, clean-smelling linens... Clorox deodorizes.
5. Bacteriary spots... Clorox is the most efficient germ-killer of its kind.

When it's CLOROX time, it's CLOROX for family health!

Truman Says Chiang Views "Lost" China

WASHINGTON, Jan. 19 (AP)—President Truman today said the loss of China to the Communists is a "terrible" and "unavoidable" result of the "lost" China.

Truman said in a speech to Congress that he had no doubt in his mind that if Chiang had had only a little more cordiality, an understanding could have been reached.

Truman said he was right in sending General Marshall to China, but that he was not sure he was right in sending him back.

Truman said he was right in sending General Marshall to China, but that he was not sure he was right in sending him back.

Southern-Bred Storm Brings Snowfall, Sub-Zero Cold to Vast Areas in U.S.

By United Press. The Gulf of Mexico hatched a snow storm which crippled 50,000 square miles of Texas and swept all the way to the Great Lakes today.

The storm also brought soaking rains to five bona-dry southern states, breaking a mid-winter drought at least for the time being.

The storm was also a blessing to Texas, although forecasters said a lot more moisture would be needed to crack a disastrous drought there.

The heavy snow which hit yesterday crippled a 50,000-square-mile area in upper Texas. Two persons were killed, at least three communities were isolated, and scores of schools were closed.

At Paris, Tex., there was an 8-inch snow and buses ran five hours late. Six inches of snow were measured at Bonham, home of House Speaker Sam Rayburn, and it was so cold that an official temperature reading couldn't be taken because the weather observer's instruments froze.

Clear, cold weather followed the storm in Texas, but forecasters predicted snows of up to 4 inches or more for southern Illinois and Indiana and parts of Missouri, Oklahoma and Iowa.

The predictions were borne out as Chicago, Ill., measured 9 inches of snow; Malden, Mo., 6 and Piquette, Ark., and Paducah, Ky., 4.

Early Ballot Is Seen on Sugar Act Revisions

WASHINGTON, Jan. 19 (AP)—Senate finance committee members expected to vote early next week on a proposed revision of the U. S. sugar act.

The committee concluded two days of hearings Tuesday night. Senator Bennett, R., Utah, a committee member, predicted the committee will act quickly because growers are pressing for a decision so they can make spring planting plans.

The senate bill has the support of the administration. Committee members expect little if any change will be made in it.

Most foreign producers wanted a greater individual share in the position of the U. S. market allotted to them. The foreign allotments would come from the annual increases in the U. S. market, due to population increases.

The senate bill would give the foreign producers 45 per cent of the market increases, expected to total about 135,000 tons annually. Domestic producers would get 55 per cent. There was no indication this basic formula would be changed by the committee.

Cuba now gets 66 per cent of the "growth" demand and other countries 34 per cent. Under the senate plan, Cuba's share of the growth market would be cut to 27 per cent, but the shares of other outside producers would be increased.

The senate bill would give the foreign producers 45 per cent of the market increases, expected to total about 135,000 tons annually. Domestic producers would get 55 per cent.

The senate bill would give the foreign producers 45 per cent of the market increases, expected to total about 135,000 tons annually. Domestic producers would get 55 per cent.

Gooding Couple Wins Tax Battle

BOISE, Jan. 19 (AP)—A federal court jury yesterday awarded \$17,000 to W. J. and Viola Chingling, a Gooding county farm couple in their 18-year tax fight with the federal government.

The Chinglings claimed the government had miscalculated their federal income taxes for 1944 and charged them an illegal extra assessment as well as penalties and interest.

The jury awarded the Chinglings the full amount of back-tax payments they had demanded.

Death Toll in Tanker Blast

LAKE CHARLES, La., Jan. 19 (AP)—Two bodies and pieces of other bodies floated ashore yesterday as the grim search continued for the missing, perhaps as many as 25, crew members aboard the tanker Salem Maritima when it exploded.

The death toll could even grow higher than 25, for as the monstrous flame burst from the gasoline-filled tanker Tuesday night they were reported to have sucked in some workers on docks of the Cities Service Oil company refinery.

But no official could release an authoritative list of the missing. Dr. Harry S. Smith, Calcasieu Parish county coroner, guessed about 25 of the 41-man crew were missing.

Cities Service, which owned the tanker, estimated 30. A seaman, who had chatted with crew members before the blast, put the figure at 18, and claimed a large number of the crew spent the night in Port Arthur, Tex.

The split and stilling tanker continued to burn furiously, with choking black clouds billowing from flaming oil.

For three seamen aboard the tanker, the blast, which rocked the area and blasted across the sky, became a terrifying four-hour ordeal and then a miraculous jump to safety.

Solon Blasts Dam Project Budget Item

WASHINGTON, Jan. 19 (AP)—Senator Neuberger, D.-Ore., said today that the administration is seeking to substitute Bruce Eddy dam for one in Hells canyon.

He said the President's budget request for funds for Bruce Eddy dam in the Clearwater river in Idaho shows the administration "hopes to secure alternative sources of storage for that lost at Hells canyon through the administration's subservience to a private-power philosophy."

Bruce Eddy in the Clearwater and Hells canyon in the Snake river both are potential sites for Columbia river basin flood control projects. The Snake borders Idaho and Oregon.

Neuberger said the proposed federal Hells canyon dam would impound three million acre feet of water, about twice as much as Bruce Eddy. He added that Bruce Eddy would block migratory fish runs, and Hells canyon would not.

Protect tufts on candlewick bedspreads by placing them in a large sack of pillow case when laundering in the washing machine.

Spud Growers Begin 2-State Market Talks

POCATELLO, Jan. 19 (AP)—Three-day hearings on a two-state potato marketing order opens in Bannock county courthouse today, and scores of potato growers and shippers are expected to be heard.

A group of some 30 members of the Idaho shippers association held a closed meeting here yesterday. IBA president Lee Hayes, Caldwell, said the meeting was held to discuss strategy in advance of the hearings, but declined to elaborate.

Subjects of the hearings will be proposed changes in the potato marketing order which gives spud operators in Idaho and eastern Oregon.

Most of the proposed changes deal with regulation of shipments within the production area as well as to points outside, and with regulations covering different types of potato packs.

Recommendations resulting from the hearings will be summarized by the U. S. department of agriculture and then submitted later to potato growers for their approval or rejection.

ARMY SETS SHIFT IN AIR MANPOWER. WASHINGTON, Jan. 19 (AP)—The army said yesterday that several thousand men are being transferred from special air command units to other outfits as part of a manpower shuffle.

THE COMMANDOS ARE TRAINED TO FIGHT BEHIND ENEMY LINES. A spokesman emphasized the move, affecting about 800 men in Germany and in this country, did not result from a shortage of funds.

CALIFORNIA SOLON SEEKS U. S. SEAT. LOS ANGELES, Jan. 19 (AP)—Sen. Richard Richards, D., Los Angeles, yesterday announced his candidacy for the U. S. senate seat now held by Sen. Thomas H. Kuchel, R., Calif.

Richard, 39, will face former Democratic congressman Sam Yorty in the June 8 primary. Yorty lost to Kuchel in 1954 in a short-term election for the vacancy created by elevation of former Sen. Richard M. Nixon to the vice presidency.

Army Private Is Held for Murder

BOISE, Jan. 19 (AP)—William H. Baker, 17-year-old army private, was arraigned in justice court and jailed without bond yesterday on a first degree murder charge in connection with the shooting of his father, William Garland Baker, in Boise a month ago.

The youth was arrested last month after authorities disclosed a similar charge against his mother, Mrs. Theresa Baker, 38. Police said she had sought to take the blame.

The father was shot in the back with a pistol during an argument in the family home.

State Land Unit Chiefs Relected. BOISE, Jan. 19 (AP)—The state advisory board to the bureau of land management state and district officials reelected its entire slate of officers yesterday.

They include T. C. Waddops, Moore, chairman; J. C. Russell, Mountain Home, vice chairman, and Milford Vaught, Brunson, secretary.

Waddops and Vaught were named sheep and cattle representatives respectively to the national advisory board meeting later this year in Washington, D. C.

"We are just clearing up some of the details in preparing for the prosecution," Dist. Atty. Garrett Pryme said after the conference with O'Keefe who claims he was cheated out of his full share of the loot by 10 confederates.

Six of the men named by O'Keefe are in custody and a seventh is held in a Pennsylvania jail. One man is dead and two others are still sought by police.

The double bass is the largest member of the violin family and the lowest in pitch.

Hoodlum Singing Robbery's Details

BOSTON, Jan. 19 (AP)—Baldish hoodlum Joseph (Specs) O'Keefe was singing loud notes on a high level today to FBI and top police officials investigating the \$1,219,000 Brink's robbery.

The hollow-cheeked gangster spent nearly a full day yesterday with police and investigators from the Suffolk county district attorney's office.

Strong Attack Made on Ike Foreign Aims

SAN FRANCISCO, Jan. 19 (AP)—Gov. Averell Harriman today accused the Eisenhower administration of "disparaging the moral authority and world prestige" of the United States.

He said the celebrated "brink of war" statements attributed to Secretary of State Dulles "show who America's allies fear it has turned 'militaristic and reckless'."

In one of his strongest attacks on the foreign policy of President Eisenhower, the New York Democrat implied that Mr. Eisenhower did not "understand" the leaders of Russia and he charged indirectly that the President was "taken in" at the Geneva summit conference last summer.

Plans Speeches

The governor, a self-styled "inactive" candidate for the 1956 Democratic presidential nomination, arrived by plane yesterday for speeches here and in Los Angeles.

Referring to statements credited to Dulles in Life magazine, Harriman said the secretary of state "says he took us to the brink of war" a year ago in deterring the Chinese communists from attacking the offshore islands between the Asian mainland and Formosa.

Currently, Harriman said, "the Red Chinese have been bombarding Quemoy and Matsu."

Asks Questions

"Are we then again on the brink of war," he asked.

In his prepared address to the Commonwealth Club of California, the governor recalled that as U. S. ambassador to the Soviet Union he had attended the founding conference of the United Nations here 11 years ago.

"He wanted then, he said, that 'Soviet aims in the world were fundamentally irreconcilable with our own.'"

Charges Ignorance

In 1945, he charged, General Eisenhower told a congressional committee that "there is no one thing, I believe, that guides the policy of Russia more today than to keep friendship with the United States."

"Whatever the reasons," Harriman said, "it is clear that he did not understand the Kremlin objective nor our basic conflict with communism."

The governor accused the President of taking a more optimistic view toward the world situation today than is warranted. He said the administration "has consistently underestimated Soviet capacity for the achievements in weapons development."

Who Says It's Cold?

Ever wonder where the sun goes when it leaves the shivering North? It goes down under, of course, and this is what happens. This is a sunset Sunday scene on Bondi beach in Sydney, Australia, where it is summer when it's winter for the cold folks in the United States. (AP wirephoto)

Summer Use of Forest Increases While Winter Use Dips, Annual Report Notes

Visits to the Sawtooth national forest by summer campers and fishermen were up in 1955 while the number participating in the winter sports showed a 3,000 decline, according to the annual report released by forest headquarters in Twin Falls.

Approximately 91,000 skiers availed themselves of the four recreation areas, Sun Valley, Magic Mountain, Soldier mountains and Howell canyon.

During the summer months, 81,000 campers and picnickers spent 254,630 man days on the sites. The organizational camps, located mostly along Wood river and Sawtooth valley, accommodated 8,230 persons for 57,900 man days. Hotels and resorts in the forest were used by 32,500.

Summer homes along Wood river were visited by 2,600 people for a total of 78,500 man days. The winter sports area, accessible only by foot or horseback, hosted 3,200 campers for 9,800 man days.

In other undeveloped areas, forest service estimated 79,235 persons had spent 112,140 man days.

Charles L. Daugherty, forest supervisor, said one of the most difficult problems facing the service is to provide adequate facilities for trailer houses. The number of these houses brought into the forest this year was more than tripled, he noted. Daugherty said it was the service's belief this resulted because of improvements made on highway 21.

Most of the camping sites and trails were built in the CCC days before trailer houses were introduced. Sites were not made large enough to accommodate these residents-of-two-or-three-weeks in addition to the overnight campers, Daugherty said.

The forest service is trying to interest private land owners along these areas in supplying adequate trailer courts with sewage and electricity and charging a fee which might enable them to make some extra money.

One example he cited is the large area provided by Redfish lake report. The land was given by the forest service with the understanding it would be used for trailer court only. Daugherty said this experiment had handled the situation well and urged other landowners to help supply the growing need.

School Chiefs Won't Talk on Red Histories

WASHINGTON, Jan. 19 (AP)—Three operators of vocational training schools for war veterans refused yesterday to tell senators whether they belonged to the Communist party in the past.

All swore they are not reds now, but when the question of past affiliations was raised they invoked the protection of the fifth amendment—the guarantee against compulsory self-incrimination.

Payments Made

The hearing, conducted by the senate investigations subcommittee, also brought out that under the GI training program the government has paid out more than \$15 million dollars to schools allegedly run by Communists at the present time or in the past.

The balky witnesses were M. Michael Freedland, part owner of the Radio and Television Technical School of Allentown, Pa., and Silas Rhodes, 40, and Bruce Hogarth, 44, partners in the Cartoonists and Illustrators School, Inc. of New York.

Paul J. Tierney, an associate counsel for the subcommittee, testified the New York school has received \$1,176,712 from the federal government. It had 278 ex-GIs enrolled as of Oct. 31, comprising about 46 per cent of the student body, he said.

Statistics Given

Tierney reported the Allentown school has received \$215,523 in government payments since it was approved for veterans' training in 1949. Its enrollment of vets as of Oct. 31 was given as 115, constituting about 83 per cent of the total enrollment.

Other schools sharing in the \$1.7 million dollar melon were listed as the California Labor School of San Francisco and the Robert Louis Stevenson School of New York.

Honors for Mrs. Roosevelt

Mrs. Franklin D. Roosevelt accepts a special medal commemorating the 250th anniversary of the birth of Benjamin Franklin in Philadelphia from Mayor Richardson Dilworth, Mrs. Roosevelt was honored for her contribution to international understanding. In center is George M. Nell, president of Philadelphia's Poor Richard club which spearheaded a citywide observance of Franklin's birth. The medal to Mrs. Roosevelt was the second given in the past week. The first recipient was Winston Churchill, who received his in London. (AP wirephoto)

ATTENDS CONVENTION

BURLEY, Jan. 19—S. H. Kunau, secretary-treasurer of the Cassia county national farm loan association, left Wednesday to attend a four-state meeting in Spokane of NPLA secretaries and officials of the Federal Land bank of Spokane.

JOINS CLUB

CASTLEFORD, Jan. 19—Joe Barinaga was welcomed as a new member of the Castleford Men's club Monday night. Soren Hesselholt reported on his recent trip to Denmark.

Man Credited With Angling Skill, Honesty

IDAHO FALLS, Jan. 19 (AP)—Mr. Jenkins, Ashton, Idaho, got some of an excellent fisherman, but Ray W. Jones, Idaho Falls, says he is nominating him for an honest-man-of-the-year award.

Jones lost his wallet containing \$7 in currency and valuable papers at Henry's Fork while fishing near the Ashton power house last September. He recently received a letter from Jenkins, enclosing the personal papers, all dried out.

Jenkins said he still had the \$7 and \$7 because they hadn't thoroughly dried yet. But he said he would bring them to Jones in Idaho Falls Friday. He said he had found the wallet from the river.

Jones said that as far as he is concerned "Jenkins can keep the currency for his honesty. I was very happy to get the personal papers."

FINANCES EXPLAINED

DIETRICH, Jan. 19—School Supt. George Powell explained school finances at the meeting of the Dietrich PTA Monday. Absences from school were discussed under the direction of Mrs. Floyd Kisting, program chairman.

PTA Tries to Curb Youths' Delinquency

SHOSHONE, Jan. 19—City and state laws governing driving of motor vehicles by minors and the purchase and use of tobacco and intoxicating beverages were discussed at the PTA meeting Monday night at the Lincoln school auditorium.

Requests for strict enforcement are to be sent to the city council and business firms in Shoshone.

State Patrolman Willard Baker discussed the law concerning driving by minors.

The city ordinance and state laws on juvenile drinking and smoking and the sale of both tobacco and intoxicating beverages to youths were read by Howard E. Adkins, PTA legislative chairman and Lincoln county prosecutor.

The program was presented by the Nina Murphy Future Teacher's club of the high school under the direction of Mrs. Fred Gehrig, PTA program chairman. A candlelight ceremony was held for the installation of officers in the club.

Installed were Roxie Jean Daugherty, president; Inez Lequerica, vice president; Helen Boyd, secretary-treasurer; Barbara Connell, historian; Sharon Kinsey, librarian, and Pat Young, reporter.

Other members, besides the officers, who took part on the program were Jeanette Gehrig, Anita Lett, Carlene Modlin and Edith Vansant.

The business meeting was conducted by Mrs. Burton Thorne, PTA vice president. The prayer was given by Mrs. Dorothy Clayton and a report of the executive meeting and secretary's report were given by Mrs. L. M. Hatmaker. Mrs. Vern Johnson gave the treasurer's report.

Copies of "Midsummer Night's Dream" were solicited by Fred Poerle, teacher, who wishes to use them in the school. Anyone having copies of the play are asked to contact him or leave them at the school.

The unit went on record favoring the organization of a Lincoln county PTA council. An explanation of the organization was given by Mrs. Jessie Danner, state PTA officer.

Refreshments were served at the school cafeteria by Mrs. C. T. Knight, Mrs. C. D. Loy, Mrs. Fred Johnson, Mrs. Tom Koto, Mrs. Pete Munster, Mrs. Max Miller, Mrs. Claudio Murua, Mrs. Shirley Mitchell, Mrs. Joe Myers and Mrs. Leo Knowles.

Priest Describes Red China "Hell"

MANILA, Jan. 19—An American Catholic priest imprisoned by the Chinese Communists for more than four years and released last September said last night, "Now I know what hell is."

The Rev. Harold Rigney, 55, Chicago member of the Society of the Divine Word, arrived by plane from Hong Kong for a nine-day visit en route to the United States.

He was almost in tears as he embraced several fellow priests who met him at the International airport.

Rigney, former president of Pu Jen university in Peiping, said his one mission in life now was to expose the "diabolical character" of the Chinese Reds.

Hollywood Opens Vote on "Oscars"

HOLLYWOOD, Jan. 19—Hollywood's "primary" election for the 1956 Oscars gets under way Monday when nomination ballots are mailed to members of the motion picture industry.

Polls for the academy award nominations will close Feb. 4. Results will be announced Feb. 18 on a 90-minute NBC-TV program. Final winners will be revealed also on television March 11.

Trips Reported

WENDELL, Jan. 19—Charles Johnson has returned from Montana.

Mrs. Fred Hansen, Welser, is visiting her daughter, Mrs. Jess Walker, and family.

Mr. and Mrs. Kenneth Bradshaw are attending a beekeepers convention in Biloxi, Miss.

Albion Telephone Firm Rate Boost Plea Is Approved

BOISE, Jan. 19—The state public utilities commission yesterday granted the Albion Telephone company a rate increase averaging 33 per cent for the 300 subscribers in Albion and adjacent areas of Cassia county.

The increase will give the company an extra \$5,300 in annual revenue. The commission said that would be needed to meet the interest payments of a \$200,000 loan contracted recently to expand the phone system.

The increase is effective Feb. 1.

Grange Hall To Be Built

MURTAUGH, Jan. 19—The building committee of the Murtaugh Grange Monday was instructed to begin construction of a Grange hall northwest of Murtaugh. Ray Assendrup, building committee chairman, said practically all labor on the project will be done by the Grange members.

Agriculture committee chairman Earl Young reported on the soil bank plan. Assendrup, who represents the Twin Falls county Pomona Grange on the bean marketing committee, reported on a recent committee meeting.

Mrs. Earl Young, home economics chairman, explained a new birthday bank plan to be used by members at the last meeting of each month in observance of their birthdays. Proceeds from this plan will go towards the purchase of equipment for the new Grange hall. In this connection coffee parties are being planned with the first one to be held on Friday at the home of Mrs. Assendrup.

Merritt Greening, Twin Falls county March of Dimes chairman, spoke on polo and showed a motion picture. Earl Young was presented a past master's pin by William Pratt, master. Refreshments were served by Mr. and Mrs. Earl Young, Mr. and Mrs. Ralph Young, and Mr. and Mrs. John Silvers.

2 GOP Solons Defend Administration Against Democrat Giveaway Charges

WASHINGTON, Jan. 19—Two Republicans in congress, defending the Eisenhower administration against "giveaway" charges leveled by the GOP as a "betrayal" of conservation jobs that the Democrats did when they were in charge, Senator Watkins, R. Utah, and Representative Van Zandt, R. Pa., made such claims recently in reply to criticism of the interior department's new policy covering oil and gas leases on national wildlife refuges.

The Democrats and some conservation group spokesmen have assailed new leasing regulations as being a vehicle for giving away petroleum resources in wildlife refuges.

has introduced a bill to create a five-member house committee to investigate the situation, and Senator Humphrey, D. Minn., announced he has asked investigations by two senate committees.

Watkins, describing himself as a "lifelong conservationist," said in a recent senate speech that the Democrats are making a "political football" out of the wildlife-lease situation.

ball when he stopped leasing and ordered a thorough study.

"If the issuance of one lease in 1955 is such a horrible crime against conservation, then certainly the large number of leases applied for and granted prior to Secretary McKay's administration are even more worthy of investigation."

Watkins promised his colleagues that "if an investigation is held" he will come up with complete information on leases granted by previous administrations.

area under the primary jurisdiction of the fish and wildlife service has been transferred to the military since the Eisenhower administration took office.

"Since January 1953 the department of the interior has established eight new wildlife refuges and three more are in the process of being established."

"During that period the department acquired 29,946 additional acres for wildlife preservation through purchase, lease or transfer of federally owned lands."

Panel Reelected

WENDELL, Jan. 19—The North Side Guernsey Breeders association, meeting here Saturday, reelected all officers and discussed a purebred heifer sale.

Reelected were Roy Haverland, Wendell, president; A. J. Norris, Gooding, vice president; and David Thacker, Gooding, secretary-treasurer.

will throw the refuge open to exploitation, but interior officials insist they give more protection to the refuge than regulations in effect before 1953.

2 Teen-Agers Beat Teacher In Corridors

CHICAGO, Jan. 18 (AP)—The "blackboard jungle" came to life in a Chicago school corridor yesterday when two teen-age toughs pounced on a teacher and beat him to unconsciousness.

Their victim was Anthony Grott, 33, a purple heart World War II veteran who found a new kind of warfare outside his eighth grade classroom.

He was in Henrotin hospital today, a gash in his head held together by 14 stitches. Doctors planned to take X-rays to determine the full extent of his injuries.

Pattern Followed
The attack on Grott followed the pattern of "The Blackboard Jungle," a brutally realistic novel and motion picture about the warfare between teachers and pupils at a New York City school.

Grott knew that two ex-students, aged 16 and 17, had been hanging around the yard of the Schiller elementary school attempting to molest girls.

He heard them outside his classroom yesterday and took action. Throwing open the doors, he snarled "stand aside" and began to walk towards the two young hoodlums.

"Where you going?" one of the boys demanded.
"I'm going to the principal's office," Grott said.

Feels Pain
He tried to walk past the boys and felt his arms pinioned from behind. Then there was a blinding, stabbing pain in his head.

"The next thing I knew I was at Henrotin hospital," he said. "The boys must have struck me with some kind of weapon."

The boys escaped, but the Schiller principal and teachers said they had recognized the ex-pupils at the school. One of them is a former reformatory inmate and the other is on probation, they said.

Search Begins
Police began a search for the boys. Grott, a teacher at Schiller since 1952, bore no bitterness towards the hunted boys.

"I don't believe there are any 'blackboard jungle' type boys," he said.

Gives Views
"I would just like to see those boys straightened out so they may make something of their lives."
But his 28-year-old wife, Fern, mother of two small sons, wasn't so forgiving.

"I was always so proud and happy over my husband's choice of profession," she said. "Until today."

Famed-Label Is Okayed for U.S.

KOREV, Germany, Jan. 18 (AP)—Germany's most-famous-Moselle wine can once again be exported to the United States with uncensored labels.

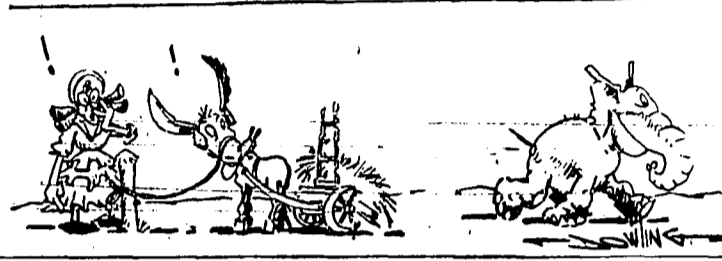

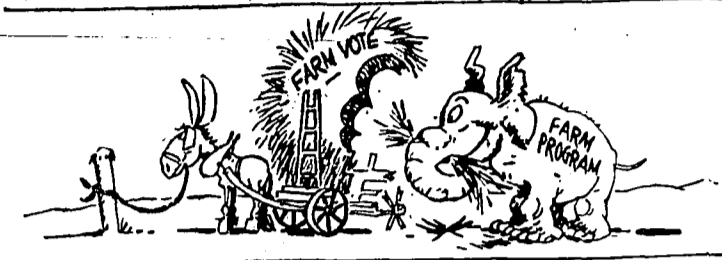

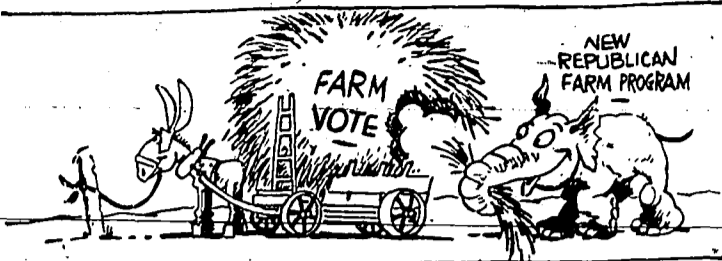

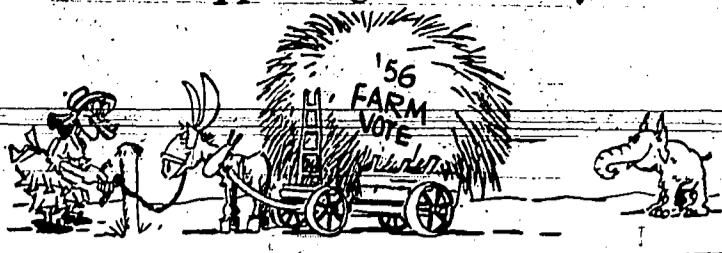

The Korev Necktarsch wine is famous almost as much for the label as for its flavor. The label shows a vineyard farmer spanking the bare backsides of two little boys who sneaked into his cellar to sample the wine.

Last year, exporters were told by customs officials that the backsides must be covered on all bottles exported to the United States. A smudge of blue paint covered the bare backsides thereafter on all export bottles.

Today the wine producers learned the American authorities have had a change of heart—so off come the pants again.

PLANS MADE
BELLEVUE, Jan. 18—The Bellevue IOOP lodge Monday made plans to play hosts to the Richfield lodge next Monday evening.

Disappearing Load of Hay

17 Millions of Interior Fund Earmarked for Use in Idaho

WASHINGTON, Jan. 18 (Special)—The President's budget message means a total of \$17,446,102 in department of interior funds for Idaho in the coming fiscal year, Rep. Hamer Budget reports.

Sifting through the telephone directory-sized fiscal program, Budget comes up with the following Idaho expenditures by various interior agencies for the year to begin July 1:

- Office of the secretary, \$42,900 for salaries and expenses of the department's solicitor;
- Bonneville power administration, \$143,000, for construction (\$100,000) and maintenance and operation (\$43,000);
- Bureau of land management, \$1,236,930, for management of land and resources;
- Bureau of Indian affairs, \$1,299,668, for education and welfare (\$219,673), roads (\$165,000), construction (\$510,000), general administrative expenses (\$145,653), and resources management (\$355,342);
- Geological survey, \$981,000, for surveys and investigations;
- Bureau of mines, \$8,100, for health and safety;
- National park service, \$108,812, for construction (\$52,500), management and protection (\$28,780), and maintenance and rehabilitation of physical facilities (\$27,532);
- Fish and wildlife service, \$236,702, for management and investigation of resources;
- Bureau of reclamation, \$13,392,100, for general investigations, construction and rehabilitation, operation and maintenance, and general administrative expenses.

SPEAK AT CLUB

Finland May Get Back Its Naval Docks

Soviet Russia, in a burst of big-heartedness, is about to give up its Porkkala naval base on the southern coast of Finland. Formal transfer of the 152-square-mile territory, which Russia forced Finland to lease to it for 50 years, may come any time between today and a week from today.

But Russia will keep the Petsamo area, with its rich nickel mines, and the other territory it has seized from Finland in two wars.

Also, Russia evidently intends to keep the defiant, freedom-loving little country under its thumb politically as long as it can. Finns have just finished voting for electors who will meet on Feb. 15 to choose a president for a six-year term.

Russia quietly let the Finnish government know in advance that it wanted the new president to be a safe man—safe, that is, from the Kremlin's viewpoint.

Juho Paasikivi has been president since 1946. The Russians made it known that they would like him to remain president. But Paasikivi, now 85 years old, wants to retire.

Premier Urho Kekkonen, 55, has obtained a dominant plurality of the 300 presidential electors Finnish voters chose. The word from Helsinki, the capital, is that he probably will be elected president. Like Paasikivi, Kekkonen favors a policy of friendship with Russia.

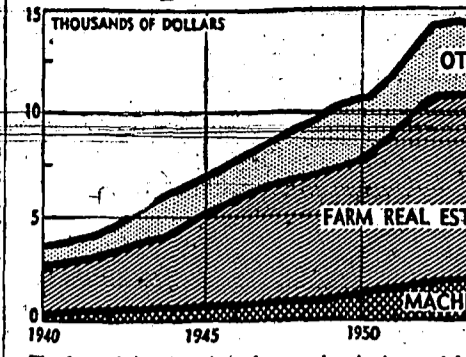

It is a forced friendliness. Neither man is at all pro-Communist. Both realize, however, that Finland's only course is to avoid antagonizing the Soviet government.

It is indicated that the Kremlin may accept Kekkonen. But it is still possible that it will insist on Paasikivi, and that the electors will agree.

The Kremlin never has been reconciled to the loss of Finland in the Russian revolution of 1917. Finland was an autonomous grand duchy under the Russian czars. It declared its independence on Dec. 6, 1917, and made it stick.

PROPOSAL REJECTED
TOKYO, Jan. 18 (AP)—Red China yesterday rejected a U. S. proposal made at Geneva that both sides forewear the use of force in the Formosa area.

Manpower Investment

The farmer's investment per farm worker—in terms of farm land, machinery and other resources—averaged \$14,000 in 1955. Farm wage rates are now four times the prewar level. They rose slightly in 1955 and can be expected to go up a little in 1956. (NEA)

Trailer Home Owners Fight Tax Methods

MOAB, Utah, Jan. 18 (AP)—More than 150 mobile home trailer owners charged unjust assessment yesterday and refused to pay taxes on their trailers.

Grand county commissioners immediately warned they will take action to seize the trailers and sell them for unpaid taxes.

Most of the residents of this Utah uranium center live in trailers. Many of the trailer owners have banded together in an organization called Mobile Home Owners Association of Moab to demand "fair taxes on our trailers." Don Gordon is president.

Trailer taxes are determined on a footage basis as recommended by the state tax commission. However, the county tax assessor may tax according to the value of the trailer if he wants.

Gordon said yesterday that he assess trailers on a footage basis is unjust.

"If one 40-foot trailer costs \$3,000 and another same size costs \$6,000, the tax is the same. This is not fair," he said.

Gordon said the association will hold a mass meeting next Tuesday night to protest the taxation method.

Cartoon Pictures

Union With U. S.

LONDON, Jan. 18 (AP)—The London Daily Express today printed a nine-panel cartoon captioned "Let's Try Union With the U.S.A.—Just to End Those Dulles Versus Europe Bickerings."

One picture showed Prime Minister Anthony Eden boarding a gangplank marked "U. S. citizens only" and wearing a sport coat, bow tie and whitebrimmed hat. The caption read: "Senator Eden, representing England state, leaves to take his place in congress."

Another panel showed Hollywood movie star Marilyn Monroe sitting on the lap of Lord Privy Seal R. A. Butler, whose bald pate is marked with a bold splash of lipstick.

Still another panel showed seven men crowded together on one seat in the senate chamber. The tagging read: "The Senator for the State of France takes his seat."

OUR 35th YEAR OF SAVINGS

... There's a Store Near You

Trouble Due As Sun Spots Are Reported

WASHINGTON, Jan. 19 (AP)—Our parent the sun is in a grumpy mood. It probably will be snarling like a fabled lion by the winter of 1957.

From now to then and beyond look for tantrums that may:

1. Cause your television set to start spouting Spanish, or maybe Portuguese (not too likely but possible).
2. Mess up police, fire, and military broadcasts (quite possible).
3. Smother long-distance radio transmission for days on end (almost certain to happen often in the next several years).
4. Blot out continental telegraph and telegraph communications on occasion.

Active Period Starts
The sun's grumpiness stems from the fact that it is heading rapidly into another period of maximum sun spot activity.

Right now seven groups of sun spots, including one spot many times larger than the earth, are traversing the face of the sun. But experts are not alarmed by them. They say the worst is yet to come.

Sun spots are associated with and are the visible sign, so to speak, of solar flares which peel space with high speed electrons and protons, and shower it with ultra-violet and X-radiations.

Lots Can Happen
When the earth gets in the way of these bombardments, a lot of things happen. Northern lights (in this hemisphere) shimmer and glow more intensely. Electrical storms rage in the atmosphere's ionized layers 45 to 200 miles up. The earth's magnetic currents are agitated violently.

It takes only eight minutes for the ultra-violet and other radiations from sun to earth and produce "sudden ionospheric disturbances." These can stop all ordinary radio transmission for a few minutes to half an hour.

They invariably precede by 24 to 36 hours the longer-lasting upsets caused by showers of electrons or protons (nuclei of hydrogen atoms) which hurtle through space at relatively sluggish speeds up to 3,000 miles a second.

Have Big Effects
Some observers believe these events have profound effects on the weather and even on such things as the human temperament. It is certain that now and then they blot up man's communications systems.

Sun spots are giant tornadoes on the face of the sun. Apparently they are caused by explosions deep in the sun's interior where the mass of atoms is constantly being transformed into prodigious amounts of nuclear energy. They go from minimum to maximum in cycles which average out at around 11.4 years.

Couple's Trouble Caused by Switch
PITTSBURGH, Jan. 19 (AP)—An elderly couple entered a downtown optician's office and mildly complained they were having difficulty with their glasses lately.

"I can't even read the paper with my glasses," the woman told the optician, "and I miss it."

Her husband said he, too, was having trouble and requested another eye examination.

After a check-in his files, the optician told the couple they had somehow exchanged glasses.

"That's what comes from being married to the same man for 34 years," quipped the gray-haired lady.

Alaskan Mental Health Bill OK'd
WASHINGTON, Jan. 19 (AP)—The house today passed a bill to set up an integrated mental health program for Alaska.

The bill was sent to the senate for action.

Under the bill, the Alaskan territorial government would get one million acres of unappropriated and unreserved public lands in Alaska to finance the program.

The governor of Alaska also would be authorized to spend not more than \$6,500,000 to build a hospital and other needed facilities to carry out the mental health program.

Hoover Thinks Ike Should Run

Former President Herbert Hoover (right) calls on President Eisenhower at the White House to discuss Hoover commission recommendations for streamlining the federal government. Hoover told newsmen after the meeting that he still feels that Ike should run for a second term if he feels able. (NEA telephoto)

Award Given James Roper For 'Service'

BURLEY, Jan. 19—James H. Roper was presented with the Burley Jaycee distinguished service award at the annual award banquet and bosses night at the National hotel Tuesday. Roper is in New York at the present time, so his father, William Roper, accepted the award for him.

Don Bates, who presented the award, listed civic activities in which Roper is active including Rotary club, Chamber of Commerce and Toastmaster's club in addition to church and youth activities.

Del Rupert, Jaycee president, reviewed the many activities undertaken by the club during the past year including an Easter egg hunt, a boat regatta with proceeds going to the school for exceptional children and a Christmas tree bonfire for children.

Calvin Lowe was toastmaster. The invocation was given by Dewaine Jensen. An address of welcome was given by Gale Keen. Richard Ballard, Jerome, fourth district vice president, presented pins to several new members including Orman Burch, Dick Hurl, Junior Ross, Larry Weber, Jerry Johnson and Cleo Cheney. A director's pin was given to Harry Hansen, Jr., who is a newly appointed member of the board of directors.

Mayor J. L. Salmon complimented the Jaycees on their many activities since they were reactivated early in 1955. Richard Hurl was chairman of the event.

Polio's Incidence Figures Released

BOSTON, Jan. 19 (AP)—Of 137,968 Massachusetts children who received injections of Salk polio vaccine, mostly in May-June last year, 139 subsequently contracted the disease—an attack rate of 94.5 per 100,000.

Of 22,673 who got two or more shots, 15 developed polio—a rate of 66.4.

But among 278,532 unvaccinated children, 553 cases occurred—a rate of 198.2 in 100,000.

Effectiveness of the vaccine for all-cases-of-polio-was 53-per-cent. For paralytic cases only, the effectiveness was 60 per cent.

These are statistics published last night in the New England Journal of Medicine by a committee of public health experts formed last August to make a special study of effectiveness of the polio vaccine in the state during an unprecedented epidemic.

Wyoming contains land from all four of the principal annexations which made up the territory of the United States west of the Mississippi river.

State Department Re-Fires Worker

WASHINGTON, Jan. 19 (AP)—Donald M. Dozer was fired by the state department yesterday for the second time.

Dozer, 50-year-old historian, was first dismissed last Oct. 4. The department said then his work was not up to standard and he was a "disruptive" influence.

The civil service commission reversed the department shortly thereafter and ordered Dozer reinstated. The commission said it found the charges were not specific enough. It did not rule on the merits.

Later a new statement of charges, more specific and in greater detail, was filed against him. Dozer responded to them on Jan. 4 and his response was taken under advisement.

The state department told him by letter yesterday that he was fired again.

Widow Contesting Property Division

IDAHO FALLS, Jan. 19 (AP)—Fannie A. Rogers, widow of the late B. M. Rogers, pioneer Idaho Falls builder and capitalist, has filed a court action seeking to intervene in a suit involving \$10,000 of Rogers' personal property.

In the action filed in Bonneville county district court Mrs. Rogers contends that as Rogers' widow she is "the owner in her own right" of an undivided one-half interest in community property of the couple.

She seeks to intervene in a suit filed earlier by Lulu Stalker and John B. Rogers, both Idaho Falls, and Deloss Rogers, Missoula, Mont. They are nephews and a niece of Rogers, and contend in their suit for \$10,000 that Rogers gave them the personal property shortly before his death Feb. 16, 1935. The property contention includes stock and bonds and keys to a safety deposit box.

Both Parties Get More Delegates

BOISE, Jan. 19 (AP)—The secretary of state's office announced yesterday that both Republicans and Democrats would be allowed additional delegates to their state nominating conventions this year.

The increase of delegates was made on the basis of votes cast in the 1954 general election for representatives of the two congressional districts and all state officers.

Republicans picked up an additional 26 delegates—bringing their total to 286—and the Democrats gained 30, giving them a voting strength of 226.

The belief that a fright for the mother during pregnancy can cause mental deficiency in a child is usually regarded as false by most experts.

Coasts of U. S. 'Wide Open' to Soviet Attacks

WASHINGTON, Jan. 19 (AP)—Rep. James E. Van Zandt said today U. S. coasts are "wide open" for a sneak attack by Russian submarines armed with guided missiles carrying atomic or hydrogen bomb warheads.

The Pennsylvania Republican proposed that the United States serve notice that any potential enemy submarines found within 500 miles of its coasts will be sunk.

Van Zandt made the proposal in a United Press interview, and prepared to take it up with Navy Secretary Charles S. Thomas at a house armed services committee hearing.

Report Given
Adm. Arleigh A. Burke told the committee yesterday that by July, 1957, the United States will have less than half the submarines which Russia already has. Burke, chief of naval operations, said Russia is second only to the United States in naval power.

Van Zandt said, "we must assume that Russia has submarines which can carry and launch guided missiles with atomic or hydrogen warheads."

He said it also must be assumed that each submarine could carry two guided missiles with a range of between 200 and 300 miles, that Russia in two years will have at least 50 long-range submarines and 100 atomic or hydrogen warheads for guided missiles.

Gives Details
He said 35 submarines, sneaking in to range under the cover of darkness, "could destroy almost every one of our overseas air bases and a big proportion of our continental strategic air bases, not to forget other military installations."

"Our coasts are wide open," he said.

He said creation of a 500-mile-wide "stay out" zone along U. S. shores would help protect against a sneak submarine attack.

Shipping Charges Noted in Address

LOS ANGELES, Jan. 19 (AP)—Farmers who wish to reduce costs should cut rail shipments at U. S. department of agriculture spokesman suggested yesterday.

C. B. Bowling, chief of the freight rate service branch of the agricultural marketing service, said: "Co-operatives, both marketing and purchasing, could perhaps show to advantage a diversion of their own tonnage from the rails because of high freight rates."

"Increases in freight rates often distort and disrupt the area of distribution," Bowling said. "If such a pattern continues and progresses too far, a prosperous industry sometimes is threatened with failure."

Bowling suggested farmers temporarily use other carriers.

1955's Crop Loan Project Listed at T.F.

Commodity Credit corporation loans and purchase agreements are available through Jan. 31 on the 1955 crop to all Twin Falls county farmers, reports Lloyd S. Jones, Twin Falls county agricultural stabilization and conservation committee chairman.

Farmers holding 1955 crop grain under price support and stored in public warehouses have a limited time to pay off their loans, Jones reminded. If the loan is not repaid the commodity becomes the property of the corporation.

Jones said if loans are not repaid and if the market price is in excess of the loan value plus interest and charges, producers will be paid the difference by CCC. These settlements will be based on the closing market price on the final date of payment.

The maturity dates for loans on warehouse stored commodities in Idaho are wheat, March 31, and barley, oats and beans, April 30. The maturity dates are also the final dates for repayment of loans.

Jones pointed out the settlement as indicated applies only to warehouse-stored loans and does not modify the operations of the price support program for farm stored commodities.

In the case of farm-stored loan commodities, producers usually have a period after the loan maturity date to either deliver the commodity or repay the loan, Jones concluded.

A crumbly crust will hold together better if it is chilled in the pan for 24 hours before the filling is added.

Self-Rule-Eyed For Asian Area

LONDON, Jan. 19 (AP)—Britain was reported yesterday willing to give complete self-rule to the federation of Malaya by the autumn of 1957.

A high government source said, however, Britain will insist that the new arrangements must safeguard her vital strategic interests in the tin and rubber-rich southeast Asian territory—presumably in the form of a defense agreement which will include rights to military bases. Malaya is in the grip of an insurrection by Communist rebels.

Word of the British position was given just before a Malayan delegation met with Colonial Secretary Alan Lennox-Boyd and his advisers to discuss the future constitutional development of the federation. At the moment it is much like a London-controlled British colony.

Alaska Has More Than Seven Million Acres of National Parks.

Harriman Takes Primaries Stand

SAN FRANCISCO, Jan. 19 (AP)—Gov. Averell Harriman announced last night he will not allow his name to be entered in any presidential nominating primaries without his consent.

It was the first statement by the New York state governor on whether he would test his voter popularity with coveted presidential Democratic candidates Adlai E. Stevenson and Sen. Estes Kefauver.

Harriman, who admitted he is the "favorite son" of New York state's 98-vote key delegation, again said he was not "an active candidate" for the Democratic nomination.

McDade Moves

EDDIE MCDADE

... manager of the Magic Valley Cowboys during the 1955 season, has been hired to manage the Burlington, Ia., baseball team during the coming season.

Sutherland Is Cougars' New Football Pilot

PULLMAN, Wash., Jan. 19 (AP)—Jim Sutherland, fired as assistant coach at the strife-torn University of Washington last season, was named to a three-year contract Wednesday as head football coach at Washington State college.

Rifle Teams Fare Well in Postal Shoot

Twin Falls Rifle club teams fared well in their fourth week postal matches, winning in class AA and C events. In pistol competition, the Twin Falls teams won in class A and lost in classes B and C.

Pair of Ring Promoters to Go on Carpet

NEW YORK, Jan. 19 (AP)—Promoters Tex Sullivan and Willie Giltzberg of the London Sporting club will be called before the New York state athletic commission Tuesday to see if they should be permitted to continue to run Monday night televised fights from St. Nicholas arena.

Idaho State Will Play Nine Games

POCATELLO, Jan. 19 (AP)—Idaho State college has announced a 1956 football schedule that listed the state academy and the University of Mexico as opponents for the first time. The schedule:

Game Law Violation Arrests Show Sharp Drop During 1955

BOISE, Jan. 19—Arrests for game law violations were sharply down during 1955, while cases based on other types of violations increased slightly, as compared with 1954, the Idaho fish and game department said today.

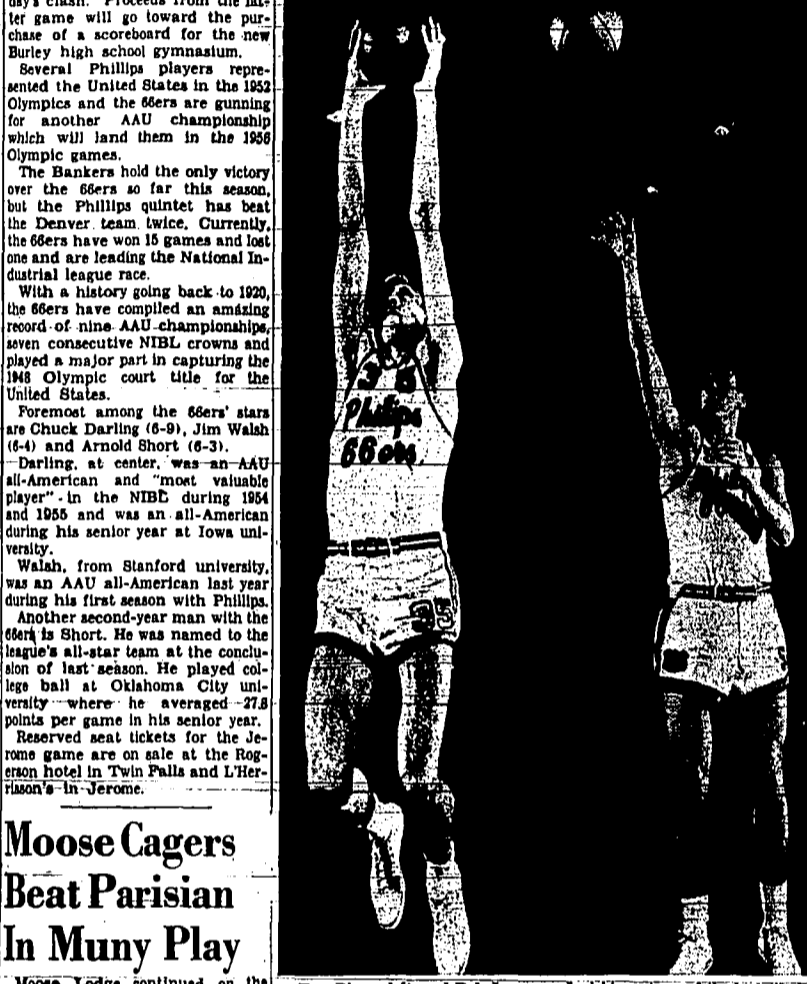

Saddler Keeps Title on TKO Over Filipino

Phillips 66, Denver Bankers Will Clash in Pair of Week-End Battles

JEROME, Jan. 19—The Phillips 66ers, the nation's top amateur basketball team, and the Denver Bankers, the only team to beat the 66ers so far this season, are ready to square off in a pair of games in the Magic Valley this week-end.

Standouts for Phillips

Don Rivera, left, and Bob Jeannerard, right, are two of the basketball stars who will appear Friday evening at Jerome high school gymnasium.

Moose Cagers Beat Parisian in Munny Play

MOOSE LODGE continued on the winning side of the ledger in Municipal league basketball play Wednesday night, beating Parisian Laundry 59-35.

Fishing Rules Is Expected

BOISE, Jan. 19 (AP)—Fishing regulations for the 1956 season in Idaho are expected to be announced some time Thursday, a spokesman for the fish and game commission said Wednesday.

Game Moved Ahead To Thursday Night

POCATELLO, Jan. 19 (AP)—Pocatello high school said Wednesday its basketball game with visiting Caldwell high school has been moved up from Saturday to Thursday night. They said the schedule change was made to avoid conflict with Idaho State college's intercollegiate boxing tournament Saturday night.

Magic Valley Baseball Club Annual Stockholder's Meeting

ANNUAL STOCKHOLDER'S MEETING will be held MONDAY, JANUARY 23 at the IDAHO POWER AUDITORIUM 8:00 p.m.

Elorde's Cut Eye Halts Bout in 13th

SAN FRANCISCO, Jan. 19 (AP)—Champion Sandy Saddler, opening a cut over Flash Elorde's left eye in the eighth round, successfully defended his featherweight title Wednesday night with a technical knockout when referee Ray Flores stopped the bout at 59 seconds of the 13th round.

High School Ski Club Enters Jackson Races

The Twin Falls high school ski club racing team will leave Tuesday afternoon to participate in the annual Jackson, Wyo., high school ski races this week-end.

Diamond Run Race Planned At Sun Valley

SUN VALLEY, Jan. 19 (AP)—A cause of perfect snow conditions Sun Valley ski officials said today they are planning on starting the Diamond Run standard race Friday.

Bauscher Aiming At Charity Mark

MOSCOW, Jan. 19 (AP)—A Jerome youth has a chance to break the Pacific Coast conference basketball free throw record when University of Idaho meets Oregon here Friday.

Chicken Tops Special Lists In Meat Mart

By The Associated Press
 Chickens for broiling or frying will lead the hit parade of bargain specials in many of the nation's food stores and supermarkets this week-end.

Prices are down almost everywhere. In New York, one large food chain has trimmed retail prices of its pre-packaged, ready-to-cook fryers and broilers to their lowest level since 1934.

Reductions Noted
 Here's a sampling of reductions announced in major cities this week by some of the larger chains: New York, six cents a pound; Pittsburg, two cents; Jacksonville, four cents; Boston, four cents; Chicago, four cents; and Detroit, two cents.

Lower prices are the rule in many cities, too, for sirloin steak, beef rib roast, pork and lamb.

Other Buys Listed
 Boneless chuck pot roast, chuck steak, boneless cross rib roast and fresh pork shoulders also occupy a prominent spot on the week-end special list. Turkeys are featured in some areas; swordfish steaks are among bargain-priced seafood items along the eastern seaboard.

Market analysts attribute low broiler prices to stepped-up production on poultry farms. Wholesale prices for this Delmar, Maryland-Virginia area, the East's chief supplier, are 10 cents a pound below a year ago and 17 cents under the peak of last March.

Chickens abundant
 What's more, an even more abundant supply of young chickens is indicated for the weeks ahead.

Even so, there are some good buys for those who seek them. Grapefruit is in good supply in most markets, despite the Florida frost. Oranges and tangerines also offer excellent value.

Market specialists have tagged potatoes, onions, lettuce, collards and kale as outstanding buys in vegetables, with Canadian turnips, beets and sweet potatoes listed as "good" buys. Other featured produce items: Mackintosh apples, Cuban pineapples, Texas broccoli and new green cabbage.

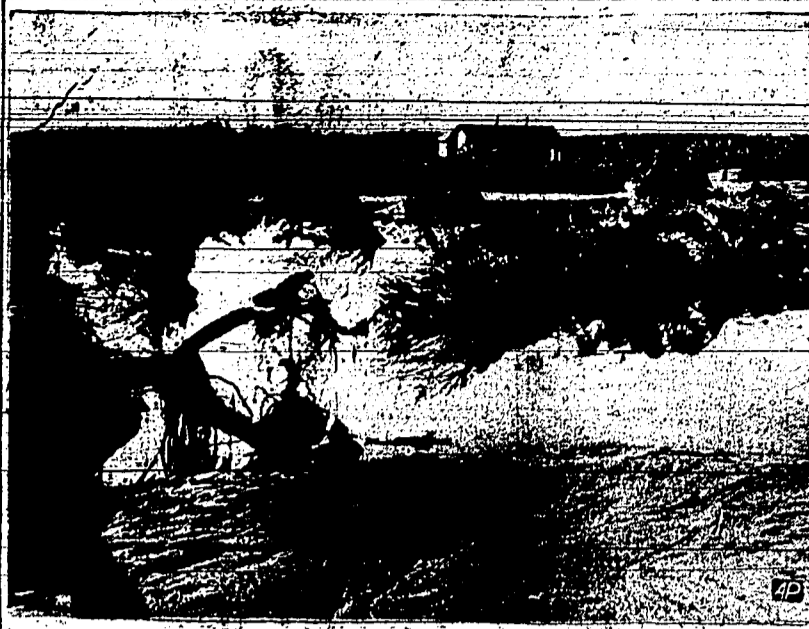

Demo Governor Plans L. A. Talk

TRENTON, N. J., Jan. 19 (AP)—Gov. Robert B. Meyner will fly to California next week to address a Los Angeles dinner observing the birthday of Franklin D. Roosevelt.

The governor's office said he would leave today, deliver the address Saturday and return Jan. 30. He will be accompanied by his executive secretary, Robert J. Burkhardt.

The dinner, sponsored by the California Democratic state committee, was expected to draw about 8,000 persons.

Desolation Remains as Water Recedes

The floods and threat of new floods have left northern California, but the desolation remains. This once was a rich peach orchard in the rich Yuba City area. Now, a deserted farmstead stands amid the dead and twisted trees, a silent reminder of the fury of the flood's last Christmas and recent heavy rains.

Barren walls, once neatly paneled with knotty pine, are all that John Mahoney has left in his flood-stripped home in Yuba City. Mahoney, a Yuba college math teacher, valued his home at \$15,000 before the floods hit. Now, he says, it's virtually worthless and most of his belongings unreparable. Eight feet of water went swirling through the house during height of the flood which struck early Christmas day. (AP wirephotos)

Missing Girl, 7, Found in Desert

MEHA, Ariz., Jan. 19 (AP)—A 7-year-old girl missing for 24 hours was found beaten and bleeding under a bush on the desert east of here yesterday.

County Atty. William F. Mahoney, Jr., said last night that 33-year-old Wayne Vance Taylor admitted he kidnaped and brutally assaulted the child and agreed to give a detailed statement.

Blonde, blue-eyed Carla Hixon had been missing since she stepped off a school bus and started walking toward her home on a ranch near here about 3 p.m. Tuesday.

She was found in a gully about eight miles from here by Carl Cluff, one of a group of Mesa city employees who had been released from their jobs to aid in the search.

Dated

BILLINGS, Mont., Jan. 19 (AP)—Fire Chief Lucian B. Smith asked the city council yesterday to replace fire engine No. 5. He said the 1916 model with wooden wheels, chain drive and two-wheel brakes was "unsafe to drive."

LEADERS TO MEET
 KING HILL, Jan. 19—King Hill 4-H leaders will meet Friday at the home of Mr. and Mrs. Frank Stevens to make plans for the year.

Events Slated

OAKLEY, Jan. 19—In the March of Dimes drive here a talent show will be presented at 7:30 p.m. Jan. 26 at the LDS stake playhouse. A Boy Scout basketball game is planned and the M Men also have scheduled a game.

So far the camping committee has collected nearly \$500. Donald J. Clark, chairman, reports.

RETURN HOME
 KING HILL, Jan. 19—Mr. and Mrs. Terrell Foster have returned from vacationing in Seattle.
