

Annual Study Of Missions to Begin Sunday

The annual school of missions will be conducted by the First Methodist church beginning at 7:30 p. m. Sunday.

Sponsored by the church's commission of missions, the school will be conducted during the four Sunday evenings of January. The youth and adult divisions are participating.

The study will be based on Charles M. McConnell's book, "High Roads to Heaven." The course concerns itself with the function, growth and mission of the Methodist church in small town and country communities.

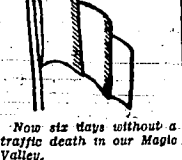

At Sunday evening's session, three study groups will be formed, with the class of Mrs. A. MacArthur leading the adult group, the Rev. John Smith as leader of the Senior Youth Fellowship and the Rev. Richard H. N. Yost as leader of the Intermediate Fellowship.

Preceded by a general assembly, the class will be one hour in duration with a coffee hour and discussion period to follow for all groups in the evening.

Any interested person is invited to attend. Sunday night's session will cover the first two chapters of McConnell's book.

Lois Spielman, chairman of the commission on missions, will preside at the general assembly and the closing discussion period.

Keep the White Flag of Safety Flying

Now six days without a traffic death in our Magic Valley.

Snow Report Shows Water Over Normal

For the most part, the water content in the snow in the upper Snake river drainage is well above normal for this time of the year.

Lynn Grandall, Snake river watermaster, states in the monthly report that snow survey stations show only one snow measuring station, Teton pass, on the Teton river drainage has a water content which is below normal. With 45 inches of snow and a water content of 12.4 inches, the water content is only 90 per cent of what it should be. At this time last year the pass was covered with 25.5 inches of snow.

On the other hand, Snake line, the only other snow measuring station on the Teton river drainage, has 29 inches of snow with 6.2 inches of water which is 107 per cent of normal. Grassy lake on the Fall river has 45 inches of snow with 15.5 inches of water which is 102 per cent of normal.

Twin Falls News in Brief

Election Set—Twin Falls Citizens' association stockholders will elect two directors at their annual meeting at 10 a. m. Monday at the city hall, reports E. Fuller, chairman.

"Coffethon" Planned—Mrs. M. E. Smith will be hostess at a March of Dimes "Coffethon" from 2 to 4 p. m. Saturday at the YWCA. City officials, club representatives and business men have been invited.

Admitted to Clinic—Mrs. Lewis Otwell, Eliza, was admitted to Twin Falls Clinic Thursday to undergo surgery Friday morning.

Returns to Kansas—Orville Walker returned to Kankakee, Kansas, after visiting his brother-in-law, Elmer, at Kankakee, Kansas, and Percy Montgomery, Twin Falls, during the holidays.

Spare Tire Stolen—The Fish Service corporation, 139 Third avenue south, reported to the Twin Falls police Thursday the theft of a spare tire from one of the company's pickup trucks. The tire was reported taken sometime Wednesday night.

Two Men Hurt—Charles C. Gosselt, son of Mrs. Violet Gosselt, and Robert L. Fletcher, son of Mr. and Mrs. Scott Fletcher, of Twin Falls, have collided in the city streets. Gosselt, 15, and Fletcher, 16, were both hurt. Gosselt is recovering at the hospital, while Fletcher is recovering at home.

Installation Planned—Twin Falls Board of Realtors will install recently elected officers at an evening meeting Jan. 9. Charles L. Moore is the new president; Robert C. Manning, vice president; and James W. Dodds, secretary-treasurer.

Tax Liens Released—Releases of state income tax liens were filed in Twin Falls county recorder's office Thursday against the estate of Mrs. J. H. Gosselt, late of Twin Falls, Idaho, and Helen H. Gosselt, late of Twin Falls, Idaho, and Helen H. Gosselt, late of Twin Falls, Idaho.

Accident Reported—Myrtle J. Bellwood, 1341 Eleventh avenue, reported to Twin Falls police she was involved in an automobile accident Thursday with a car driven by William E. Schaefer. The car was pulling away from the curb when the two vehicles collided. Damages were slight.

Blast of TNT Sets Off Utah Land Rumble

Small children's pedal car parked in parking space in Second street east with an hour's time showing on meter. ENC Arthur Jones hurriedly changing flat tire on car and then finding spare is flat after he starts car down. George Berber, walking out of office building and getting into car, then remembering to turn back and feed the parking meter. Sentence on paper in typewriter in office supply store using "there" for "their". Road guard smothering old washboard near stop sign on Third street west. Junior high school boy ordering two peppermint sausages and bottle of soda pop for lunch. Office worker pausing in his duties to turn his sweater chair upside down and adjust screw, then replacing chair only to find it worse. Girl skipping rope while on her way to school. Small dog in truck barking and growling at larger dog outside. And overhead: "His only had the job two days and he's already had to go to the doctor."

Portion of Fee Asked in Suit Filed by Man

BURLEY, Jan. 4.—Harry A. Man has filed suit against the Idaho Improvement company to collect a portion of a fee of \$1200. He states in his complaint that on Jan. 18, 1934, he was employed by the company as parts man at the Burley store at a salary of \$425 a month. He says in 1934, his salary was raised to \$450 a month and that in January, 1935, he became manager of the store. In February, 1936, he was offered one per cent of gross sales over and above his salary. On Oct. 30, 1936, he claims to have been dismissed, and that when he was dismissed he offered one per cent of the gross sales for the month of \$1200 plus 6 per cent. He also asks for \$335 and one per cent of the gross sales for November, 1936, plus \$300 attorneys' fee. He claims the \$1200 he believes is due to him. Attorney for Man is Dean W. Morse.

C. of C. Board Picks Officers

GOODYING, Jan. 4.—R. L. Van Houten, owner of Van Houten Motor company, was elected president of the Gooding Chapter of the Commercial Club of Gooding. The board of directors Wednesday evening at the Elks dining room.

Officers elected: R. L. Van Houten, president; James M. Nutter, second vice president; and Mrs. Elmer Locke, treasurer.

Van Houten moved to Gooding in 1931 and has been active in chamber work since that time. Blackburn also has been active in chamber work for several years. Nutter is immediate past chairman of the Gooding merchants' bureau. Mrs. Locke has served as chamber secretary for seven years and has held the office since her marriage in 1928.

Driver Facing Charges After Auto Hits Girl

A traffic accident at 5 a. m. Friday one-half mile east of Twin Falls on highway 30.

A 1935 Chrysler driven by Darrell E. McDonald, on leave from the navy, was demolished when it splintered a power pole, broke a transformer house and killed a young girl.

State Patrolman H. E. Carr says the car traveled 71 steps from the highway to the pole and then skidded another 70 steps after the crash. Parts of the engine were scattered along the highway.

Claude Park, 445 Second avenue east, was fined \$20 and \$30 costs Friday in Twin Falls justice court for speeding. He was cited Tuesday by state police for driving 75 miles an hour after dark on a state highway. The legal limit is 55 miles an hour.

James Edward Farrar forfeited a \$10 bond in justice court Friday for speeding. He was cited Tuesday by state police for driving 75 miles an hour after dark on a state highway. A \$10 bond posted by Farrar for operating a motor vehicle with expired license plates. Plates were declared forfeit by the court.

Ort Iverson, Naf, has been cited to appear before Justice H. E. Carr for operating a motor vehicle while his driving license was under suspension on a conviction for drunken driving. Judge Weldon said Iverson was arrested by State Patrolman Marvin Snyder.

3 Solons Seek Union Future

WASHINGTON, Jan. 4.—Legislation to prohibit testing on future at community exchanges was proposed today by Representatives Ford, Griffin, R. Mich. and Frost, D. Id.

Ford and Griffin cited complaints from union organizers and shippers that the case of prohibited testing on future at community exchanges was proposed today by Representatives Ford, Griffin, R. Mich. and Frost, D. Id.

Case on Parking Charge Dropped By City Officials

A complaint filed Sept. 28, 1936, charging a Jerome driver with failure to answer a traffic summons has been dropped by city officials.

The complaint, against John P. Graham, 44, stemmed from his refusal to post a \$1 bond for the violation of the city ordinance.

City police tagged Graham's car on Sept. 19. At the end of the five days allowed to appear at the police station for such violation, police asked him for the \$1. Graham refused to post the bond. On Sept. 24, the complaint, signed by Police Chief Olette, was issued.

Four days later Graham, acting without counsel, filed a motion and demand asking his \$1 bond, posted on the charge of failure to answer a summons, be reduced to \$1.

In the motion and demand, Graham maintained the maximum fine for overtime parking is \$1 and any bond in excess of that amount was "excessive, oppressive, unreasonable and contrary to the constitution of the United States and the state of Idaho."

Nine Sermons Scheduled by Local Church

First of a series of nine pre-Lenten sermons on the beatitudes will be preached Sunday morning by the Rev. Walter A. MacArthur, pastor of First Methodist church. The sermon is entitled "Where's Your Heart?"

The series will end on the first Lenten Sunday, March 19, with a service of holy communion.

Other titles in the series are "Beyond the Future," Jan. 13; "Through Valley and Shadow," Jan. 20; "The Most Misunderstood Verse," Jan. 27; "Making Good Wishes Work," Feb. 3; "Mercy's Paradoxical Power," Feb. 10; "The Heart Has Its Reasons," Feb. 17; "The Heart Has Its Reasons," Feb. 24; and "Having the Right Enemies," March 3.

For the first sermon in the series, the church will sing the hymn "Beneath the Cross of Jesus," Berwald, directed by Robert Wilson and accompanied by Mrs. C. W. Alberson, organist.

The Intermediate and Senior Youth Fellowship will meet at 7 p. m. Sunday for business sessions before convening for the first session of the church's school of missions at 7:30.

Claudia Slack will be hostess to the Wesleyan Fellowship at her home, 2153 Elizabeth boulevard, for the regular 8 o'clock meeting. Mrs. and Mrs. Keith Evans are counselors.

W. C. Morse Is Taken by Death

W. C. Morse, 85, died in a heart attack at 10:15 p. m. Thursday following a brief illness.

Morse was born Feb. 18, 1851, at Redfield, Ia. He moved to Twin Falls in 1914, settling near Hollister, where he remained until his retirement in 1928.

Mr. Morse married Maude E. at Manson, Ia., Dec. 23, 1904. He and his wife have three children: Mrs. A. MacArthur, Mrs. C. W. Alberson and Mrs. R. L. Van Houten.

Funeral services will be conducted at 4 p. m. Saturday at Twin Falls mortuary chapel by Rev. Walter A. MacArthur. Burial will be in the cemetery.

Soloist was Mrs. Edwin Buel, accompanied by Mrs. J. Edwin Buel. Organist was Mrs. Stanley Phillips.

The body will be sent to Conway, Ia., for concluding services.

Customer Blamed For Station Theft

Police are searching for a man who looted a cash register of 440 at a service station, 247 Fourth avenue south, while the station attendant attended his car at 40-cent of gasoline.

Wayne Johnson told city police the man drove the car into the station and ordered the gas and then walked into the office while Johnson operated the pump. He then paid for the gas and drove from the station. Police obtained a description of the man and car.

Woman in Oakley Claimed by Death

OAKLEY, Jan. 4.—Mrs. Emily Packard Shaw, 82, died Friday morning at the home of her daughter, Mrs. Mary Adams, following a lingering illness.

Born May 7, 1874, in Henefer, Utah, she was married to William Adams, Nov. 12, 1896, in the Logan LDS temple. They lived in Grouse Creek, Utah, until he died in 1911.

Mrs. Shaw then moved to Brigham City and came to Oakley in 1932.

In addition to Mrs. Adams, she is survived by three other daughters, Mrs. Mary Adams, Mrs. Elmer Adams, and Mrs. Elmer Adams, all in Utah. She also has a son, Mr. Elmer Adams, in Utah.

Mrs. Shaw was a member of the Grouse Creek LDS church and was a devoted mother and grandmother.

Funeral services will be conducted at 12:30 p. m. Monday at Grouse Creek LDS chapel by Bishop Hugh Thompson. Burial will be in the Grouse Creek cemetery.

Reservoir Is High But Snowfall Low

SHOSHONE, Jan. 4.—Magic Reservoir contains 122,000 acre feet of water, says the Idaho water board at this time last year.

Reverend Fieber, manager of the Big Wood Canal company, said the water pack in the upper country is considerably below normal this year.

Precipitation from Oct. 1 to both rain and snow is about 55 per cent of normal, he said. On the Big Wood river watershed the measurement amounts to about 50 per cent of normal for this time of the year and on Camas creek it is about 10 per cent of normal.

India has the most irrigated land of any nation in the world.

Court Grants Divorces for Area Couples

GOODING, Jan. 4.—District Judge D. H. Sulphur granted six divorces during the final days of 1956 and one case has been heard in 1957.

Mary Ellen Neiman was granted a divorce from Marvin Laverne Neiman on charges of cruel and inhuman treatment. They were married March 14, 1953, in Nebraska. There are no children and no community property. The judge referred to the plaintiff her maiden name of Mary Ellen Lively. Attorney for the plaintiff was M. P. Ryan.

Harry Hathaway received a divorce from Joan Hathaway. They were married at Gloucester, England, on March 24, 1955, and have had one child. The plaintiff will pay three children for the support of each \$45 a month for the support of each child in addition to transportation charges from Idaho to England for the defendant and the three children. There is no community property. James Shaw and James were the plaintiffs.

Virgil H. McDonnell received a divorce from Thelma McDonnell on grounds of extreme cruelty and mental suffering. No children or community property was involved in the action. They were married May 5, 1955. Attorney for the plaintiff was James Shaw and James.

Larry G. Larson obtained a divorce from Billie Kathleen Larson. They were married at Reno, Nev., on June 13, 1953. The court granted the defendant custody of the three minor children to the plaintiff.

Patricia Simmons received a divorce from Ervin C. Simmons on grounds of cruelty and mental suffering. The plaintiff was awarded custody of the one child. The defendant will pay \$45 a month for the support of the child. Community property settlement was allowed according to a previous agreement. Vern K. Smith was attorney for the plaintiff.

Extensive cruelty was charged in the divorce action brought by Audrey Manally against Lester Manally. They were married Aug. 14, 1940, and have one minor child. A prior community property agreement was approved by the court. The defendant will pay \$15 a month for the child and support of the one minor child. Attorney for the plaintiff was James Shaw and James. Attorney for the defendant was Richard Anderson.

A divorce was granted Austin Henon from Marian Melba Henon on Wednesday on grounds of extreme cruelty, mental and physical abuse. They were married June 12, 1950, at Gooding. The court granted custody of the one child to the plaintiff. Attorney for the plaintiff was James Shaw and James.

Skiers Choose Officers for This Season

Newly-elected members of the Magic Mountain Ski club are, left to right, Tom Jones, president; Sandra Schow, treasurer; Bonnie Baird, secretary; and Jack LeClair, vice president. They were elected and installed Thursday night at the Legion hall. (Staff photo-engraving)

Comfort Is Expected in Wool Industry

NEW YORK, Jan. 4.—The wool industry faces 1957 "with greater strength and confidence than at any time in the last five years," Mrs. F. Schmidt, president of the Wool Bureau, said this week.

"At almost every level there are factors to indicate that 1957 will be a high year for wool," said Schmidt. Reports reaching the bureau indicate that new orders for wool apparel have made the fourth quarter a strong one for wool mills—especially in men's sport fabrics.

In 1956, the bureau said, wool enjoyed a "marked resurgence" in demand and "an improvement in the fiber's long-range competitive position."

"Statistics reflecting improved demand for wool are reinforced by reports of better 1956 business and improved prospects in many segments of the industry," the bureau added. "Mill consumption of apparel wool in the January-October period of 1956 was seven per cent ahead of the corresponding 1955 period. At the same time, the production of woven wool fabrics during the first nine months totaled 250 million linear yards—a gain of seven per cent over the yardage produced in the first three quarters of 1955."

The bureau said wool's resurgence in the apparel field has been most evident where competition with other textile fabrics is keenest. In the first nine months of 1956, it noted, production of men's summer-weight suits containing at least 50 per cent wool increased 26 per cent against a rise of 10 per cent for suits in which other fibers predominated.

"Wool is also coming into increasing use in sweaters," the bureau said.

The year-end report noted that the U. S. wool market received vital support in 1956 from a strong world wool market. It said blockage of the Suez canal had a "temporary inflationary effect" on wool prices but this has been discounted since United Nations intervention.

Jobless Boost Noted in Area

Unemployment in the Twin Falls area is following the usual seasonal pattern, although it is not quite as high as last year, reports R. G. Cutler, manager of the Twin Falls employment security office.

He added that the initial claims for unemployment compensation were filed in his office during the week ending Dec. 29, making a total of 264.

Other area employment offices reported the following figures for the week ending Dec. 29: Boise, 27 initial claims and a total of 218 claims; Burley, 21 and 123; Rupert, 8 and 72; and Pocatello, 10 and 104.

Total new claims in the state for the week were 1,185, he said, making a total of 7,889 claims. He compared this with last year's total of 7,871 and the December, 1956, figure of 8,867.

Cutler explained that while gas pipeline construction in south Idaho has provided additional employment, closing of several north Idaho mines has offset this gain.

Officers Selected In Kimberly Club

KIMBERLY, Jan. 4.—JoAnn Jackson was elected president of the Kimberly Junior Chamber of Commerce at a meeting Thursday night at the home of Hugh Nelson, club leader.

Other officers elected were: Jerry Nelson, vice president; Daphne Nelson, secretary; Allan Nelson, treasurer; John Nelson, reporter; and Kenneth Morris, song leader.

As a subdivision of the club, all dues members are required to attend meetings on Friday. The subdivision will meet independently but will remain affiliated with the parent organization.

The newly elected officers of the Kimberly Junior Chamber will be installed by County Agent Donald Young at Miss Jackson's home on Jan. 6.

Event Planned

WENDELL, Jan. 4.—A Town and Country Institute will be held in Gooding and Wendell, Idaho, on Jan. 5 and 6. C. F. Crow announced a meeting of the Wendell Grange Thursday evening.

Reports were given by Richard Jones, Mrs. Ray Tully, Kirk Hays, and Mrs. Kurling. Mrs. Penion Hays of the Wendell Grange will present the program at the Wendell Grange meeting on Jan. 15.

State Town Lists Marriage Record

COBUR, IDAHO, Jan. 4.—The self-styled "marrying capital of the Pacific Northwest" was responsible for a record 3,470 marriages in 1956, more than a fourth of them performed by Dr. Victoria Garbury.

Dr. Garbury, known as the "marriage" partner of Cora d'Alene, Idaho, said she had 800 couples in wedding. Final compilations show Justice M. R. Humphrey close behind with 810 weddings and Justice Anna Rose Braun third with 720.

All have offices near the courthouse known as "The Hitching Post" where licenses are issued. The room has a sign announcing "Marriage on duty."

The 1956 total exceeded by 71 the previous record set in 1942.

Foe 'Bombed'

TAPEI, Jan. 4.—Chlorine gas, planners allegedly proposed against the people of Taping last night in the first "paper bomb" raid on the Chlorine Company capital.

Headquarters said all plans returned safely despite some ground fire.

Events Planned

GARLEY, Jan. 4.—The March of Dimes will be celebrated in Carey during January with several activities.

Among the activities listed are a house to house canvass, a show, a dance, coffee day and auctions. Dates for these projects will be announced later.

VICTIM IN DIETHELM DISTRICT, Jan. 4.—Richard Peace, Billings, Mont., has been visiting here.

New Leaders Selected Here By Magic Mountain Ski Club

Tom Jones was elected president of the Magic Mountain Ski club at a meeting in the American Legion hall Thursday night.

Other officers elected to serve the club for 1957 were Jack LeClair, vice president; Bonnie Baird, secretary; and Sandra Schow, treasurer.

The club discussed the possibility of participating with the Twin Falls city recreation commission again in giving ski instruction to children not over 10 years old. Final plans will be made with the recreation commission.

The instruction program was started last year. Children must have their own equipment. Funds derived by the club from the program are used to support the club's junior racing program.

The club appointed a five-man committee to make plans and set dates for a Magic Mountain winter carnival and junior high school races. The committee includes Jack LeClair, Bill Jones, Claude Jones, Howard Gerrish, Jr., and Harold L. Stiles.

A film on ski events at the resort was shown the members.

Nasal Expert Wants to Ban Blow Habits

NEW YORK, Jan. 4.—A big trouble-maker for people with stuffy noses is the handkerchief. The authority for that is a nose specialist, Dr. Leland G. Hunnicutt. He regards the handkerchief as a useful invention of civilization.

Having both a stuffy nose and a handkerchief, these people blow the former into the latter. Maybe they did it only once while they were getting away with it. But they do it again and again—while less civilized people never do—and so they're in trouble.

You see what civilization does when you reflect that constantly congested noses are common among "so-called civilized peoples" in contrast to those who call refined foods and live a less intense existence," said Dr. Hunnicutt.

Trouble Makers Cited

But the big trouble-makers are handkerchiefs and nose medicines. Take the handkerchief in relations to the normally uncongested nose: "The normal nose," continued Dr. Hunnicutt, "blows 10 times into a clean white handkerchief will produce a spray of mucus."

"This means that a blow has occurred in the continuity of the surface of the mucous membrane. This injury, while healing, will result in congestion, excess mucus, crusts and post-nasal drip."

"For two or three nights the nose will be stuffy and there will be an urge to blow it because of the congestion and accumulation of mucus. About three or four days are required for the membrane to heal but if the desire to blow is accorded to the healing will be delayed."

Medicines Blasted

Now, take nose medicines intended to relieve the interior surface of the nose. "The use of a vasoconstrictor in a normal nose several times in one day, will cause periods of congestion, excess lubricating mucus, and post-nasal drip," said Dr. Hunnicutt in the technical journal, "The Medical Record."

"The physiology of the nose is such that the airway ordinarily is open most of the time, and there is not enough mucus to create a mucous blanket without an excess to cause post-nasal drip. The balance of this mechanism may be upset for several days following the use of a vasoconstrictor."

When Dr. Hunnicutt undertakes to fix the stuffy nose, he uses a chronically stuffy nose, he first finds out if allergy could be the cause. He checks to see if there is a tubercle body function is involved. Certain drugs will stuff up the nose. All this, he said.

Worry Is Trouble

"When vasomotor instability is present, the patient is usually of undue temperament, tense and worried. These characteristics are manifested through a tendency to force congestion, and in such cases it is necessary to attempt cures of the underlying factors which precipitate tension."

But his experience has been that most people with chronically stuffy noses get unstuffed "if they avoid excessive worry and tension, as well as the regular use of nasal medications." The time it usually takes, he added, is about four days.

Air Traffic Law Changes Needed

WASHINGTON, Jan. 4.—House investigators reported today that the collision of two airplanes over the Grand Canyon last June shows the need for a new air traffic control system throughout the nation.

A house commerce subcommittee headed by Rep. C. W. Harris, D.-Ark., said the tragedy revealed that not only are new equipments needed, but new concepts of air traffic control must be adopted.

"The two airplanes collided over the canyon on June 30 with the loss of 128 lives."

The advent of the jet age, "compounding the problem of air safety," the subcommittee said, points up the "urgent need for drastic changes in procedures."

Chief Is Missing At Red Functions

LONDON, Jan. 4.—Communist Party boss N. S. Khrushchev was stated as absent yesterday from two important Moscow functions attended by other top Soviet leaders.

Moscow radio, citing full reports on the two events—the funeral of Deputy Premier A. P. Zavenyagin and the arrival in Moscow of a large delegation of East German Communists—listed the Soviet leaders present.

Khrushchev was not among them.

It was considered possible here that Khrushchev, 62, might be ill. But diplomats watching such Soviet manifestations never lose sight of the possibility that the absence of a top leader from an important gathering may be for purely political reasons.

Child, 4, Injured In Clothes Dryer

COSTA MESA, Calif., Jan. 4.—A 4-year-old boy is in serious condition from being rolled under his mother's automatic clothes dryer.

Investigators said Stuart Lawson, son of Mrs. Bertha Lawson, climbed inside the machine while it was operating and was rolled the door.

The injuries later a neighbor found him unconscious from the fall. He was taken to the Drugg Memorial hospital.

Comfort Is Expected in Wool Industry

NEW YORK, Jan. 4.—The wool industry faces 1957 "with greater strength and confidence than at any time in the last five years," Mrs. F. Schmidt, president of the Wool Bureau, said this week.

"At almost every level there are factors to indicate that 1957 will be a high year for wool," said Schmidt. Reports reaching the bureau indicate that new orders for wool apparel have made the fourth quarter a strong one for wool mills—especially in men's sport fabrics.

In 1956, the bureau said, wool enjoyed a "marked resurgence" in demand and "an improvement in the fiber's long-range competitive position."

"Statistics reflecting improved demand for wool are reinforced by reports of better 1956 business and improved prospects in many segments of the industry," the bureau added. "Mill consumption of apparel wool in the January-October period of 1956 was seven per cent ahead of the corresponding 1955 period. At the same time, the production of woven wool fabrics during the first nine months totaled 250 million linear yards—a gain of seven per cent over the yardage produced in the first three quarters of 1955."

The bureau said wool's resurgence in the apparel field has been most evident where competition with other textile fabrics is keenest. In the first nine months of 1956, it noted, production of men's summer-weight suits containing at least 50 per cent wool increased 26 per cent against a rise of 10 per cent for suits in which other fibers predominated.

"Wool is also coming into increasing use in sweaters," the bureau said.

The year-end report noted that the U. S. wool market received vital support in 1956 from a strong world wool market. It said blockage of the Suez canal had a "temporary inflationary effect" on wool prices but this has been discounted since United Nations intervention.

Hike in Price Is Announced On Crude Oil

The first major general increase in the price of crude oil since mid-1953 was off to a solid start Thursday after Humble Oil and Refining company of Houston, Tex., lifted the price it pays for Texas crude by amounts averaging 33 cents a barrel.

Humble Oil, an affiliate of the giant Standard Oil company (N. J.), is one of the largest buyers of crude oil in Texas. It has been seeking to increase its purchases by substantial amounts since the start of the Suez canal crisis.

Other major oil companies said they were studying Humble's move closely. Some indicated they might not announce a decision for a few days. Consensus among oil men was, however, that other crude purchasers would follow Humble's lead.

There had been no general increase in the price of U. S. crude oil since June, 1953, when an industry-wide boost of 25 cents a barrel was made.

News of Humble's action Thursday touched off a rally in domestic oil company shares on the New York Stock exchange. Gains ran as high as \$4.25 a share.

Explaining Humble's decision to raise prices, Humble president, H. H. Baker, said, "The cost of U. S. oil is going to Europe and the U. S. cost is being passed on to the consumer. The cost of oil is being passed on to the consumer. The cost of oil is being passed on to the consumer."

State Town Lists Marriage Record

COBUR, IDAHO, Jan. 4.—The self-styled "marrying capital of the Pacific Northwest" was responsible for a record 3,470 marriages in 1956, more than a fourth of them performed by Dr. Victoria Garbury.

Dr. Garbury, known as the "marriage" partner of Cora d'Alene, Idaho, said she had 800 couples in wedding. Final compilations show Justice M. R. Humphrey close behind with 810 weddings and Justice Anna Rose Braun third with 720.

All have offices near the courthouse known as "The Hitching Post" where licenses are issued. The room has a sign announcing "Marriage on duty."

The 1956 total exceeded by 71 the previous record set in 1942.

WASHINGTON

By PETER EDSON

May Tucker is taking his annual vacation through Jan. 10. He will resume writing daily for publication on Monday.

WASHINGTON (NEA)—Indian Prime Minister Nehru's Washington statements on Communist China have been picked to pieces. The conclusion is that the Indian leader made too good a case for his friend, Red Premier Chou En-lai.

In his press conference, Nehru said he related to President Eisenhower Chou's view that while he had gone several steps forward, there had been no favorable reaction from the United States. "It means from the United States," he said.

The riddle here is just what forward steps have been identified but they go more backward than forward.

Unfortunately, there is no 14- or 11-point statement of what the United States expects of China's administration before recognizing them as a government.

There is no passage dealing requirements that the Red Chinese withdraw from North Viet Nam, North Korea and agree to unification of Korea with free elections.

ALL THESE MATTERS are before the United Nations. The United States wants to keep them there. Settlement of these issues is a natural prerequisite to any consideration of admitting Red China to the United Nations.

In direct negotiations with the Chinese Communist, the United States has insisted on two things as first steps:

1. Release of all Americans still held prisoner in Communist China.

2. Renunciation of the use of force by Red China in the Far East.

The American position is that until these two things are done, there is no talking to talk about anything else.

Communist China agreed to release 15 American prisoners. Eleven of these and 10 Chinese were freed that fall. But others are still being held.

The farthest the Red Chinese will go now is to say that the conduct of the Americans has been good and that they will be released ahead of the expiration of their prison terms.

SO MUCH EMPHASIS has been put on this prisoner issue that some impression has been given their release would solve everything. That is incorrect. It would be a step in the right direction, but it is not a solution.

The renunciation of force issue has been picked around a lot in the 17 months that U. S. Ambassador U. Alexis Johnson and Red China's Vice Premier have been meeting periodically in Geneva.

The U. S. position is that until Red China makes this renunciation, it holds another threat of aggressive action over the canal. It is not eligible to be considered a peace-loving state.

The Reds have made counter-proposals for a joint U. S.-Communist use of the canal. The U. S. has rejected this on the grounds that this government has already signed the United Nations Charter, which renounces the use of force.

FURTHER, it is argued that since the communists have not kept their earlier promises to release American prisoners, there is no assurance that they will keep their promises on other matters.

Negotiating on other matters is exactly what Chou En-lai wants. He wants to negotiate on other matters. He proposes direct negotiations between himself and U. S. Secretary of State John Foster Dulles. Chou also wants to discuss reduction of trade barriers and increased economic exchange.

It may be considered natural, from the communist point of view, that Chou should want to talk about other things. But he is not regarded here as a "forward step."

And if Prime Minister Nehru pressed no stronger case for Chou in his talks with President Eisenhower, the U. S. position on the Indian's mission is considered successful.

POT SHOTS

ANOTHER APPROACH

Regarding this business of saving seats at public functions, I. M. Buried has my deepest sympathy. The only thing I can understand is how anyone could have the patience to wait and wonder what to do.

"I don't know what Emily Post might have to say on the subject but I don't know what to do."

"Anyone with the gall to set down and spread out assorted paraphernalia and administrative matters in a public gathering hasn't enough common decency to deserve any consideration."

My advice would be to pick out the seat with the most likely looking occupant—a woman's handbag is a natural—and squeeze past "best saver," treading heavily on any available toes.

As you turn with an "Oh, pardon me," casually sweep the handbag to the floor with enough bounce to spread the contents. When "best saver" dives under the seats to retrieve the spilled contents, quickly move to the rear and fill the complete row with some other standing room only patrons.

Home is where little children lose their clothes most anywhere. Our Parent reports.

STARTING EARLY
A Twin Falls guy has the Christmas card situation all under control.

"I'm getting 'em out of the way early this year."

Naturally, this will warm the hearts of the hearts of one W. W. P. "I'm getting 'em out of the way early this year."

Not only that, it shows that the Twin Falls community is a "forward step."

And not only that, but while the rest of us are waiting for our own Christmas card list.

And not only that, but while the rest of us are waiting for our own Christmas card list.

And not only that, but while the rest of us are waiting for our own Christmas card list.

MIDDLE EAST OPPORTUNITY

With British and French armed forces at sea, cleared from Egypt, the real test is now in hand. The United Nations enjoy a unique opportunity to develop constructive solutions to a series of problems affecting peace in the Middle East and the world.

Whatever anyone may think of the wisdom of the original British-French-Israeli attack, military units are implanted in Egypt as a result of it and that fact accounts for this.

There is nothing else can be achieved, the locked Suez canal must be cleared for full traffic. After considerable foolish wrangling among the various interested parties, that work appears likely to get under way.

French and British salvage ships are to be employed under the U. N. flag. With the U. N. in control, there ought to be no protest against the use of British and French equipment. Indeed, there is good reason not to employ Egyptians in this work.

President Nasser's agents are active in the area, but they seem a little bit of a nuisance. It is a little bit of a nuisance, but they seem a little bit of a nuisance.

Once the job is done, the U. N. will be face to face with the matter of how it shall be cleared. Only the U. N. has the prestige and the moral authority, plus the physical position, to do the job.

It is the full interests of the principal powers of Suez.

If it should fritter away this opportunity, nothing will have been gained by all the misadventures at Suez, and we will be right back where we started.

By the same token, while so advantageously located, the U. N. must somehow settle the long-range settlement of Arab-Israeli issues and other disturbing Middle East questions. Otherwise, the moment of opportunity may pass and the situation may become frozen in the kind of frustrating impasse that has marked such trouble spots as Korea, Indochina and Cuba.

The world has seen enough of these stalemates. It has all too many partially healed sores. In the Middle East, the U. N. can break the pattern of recent years by driving hard for lasting and complete answers to present dilemmas.

CARRYING MORE SAFELY
Because the prospect of fatalities is increasingly greater in air travel accidents than in rail transport, attention naturally centers in safety performance in commercial aviation.

With only the final days of 1956 officially tabulated, the unofficial estimates of the year's fatalities indicate that this was a safer year in the air than the remarkably safe 1955.

For the scheduled airlines flying within the United States, the estimates are 0.62 fatalities per 100 million passenger miles flown. To afford a comparison, the rate for motor vehicle traffic was 1.04 around the same time in 1956.

American flag lines flying overseas in 1956 and no passenger or crew fatalities at all. Many will recall the remarkable Pacific ocean rescue of all who were aboard a ditched Pan American plane.

The non-scheduled carriers, often treated somewhat harshly by public comment, haven't had a passenger fatality either on domestic or foreign runs in more than 1.4 billion revenue passenger miles flown since mid-November of 1955.

On all counts, then, this was a true safety year in the air. The statistics indicate that the airline industry is all the more distinguished when it is realized that it was accomplished in a period of steadily rising traffic volume. All the airlines merit congratulations.

QUET ON LABOR FRONT
The growing trend toward longer term labor contracts presents the nation with a major prospect for 1957. Since virtually no major union pacts expire in 1957, no big strikes appear likely.

What this trend reflects is a keener recognition on the part of both labor and management that the nation has a big stake in stability—without economic stagnation, of course.

VIEWS OF OTHERS

On account of some confusion about the definition of a "hot rod," the announcement that the organization of the "Back the Attack" campaign against traffic accidents may strike ill-informed people as being a bit anomalous.

A medium of inquiry, though, that may be sparked by this announcement, would disclose that an organization of the "Back the Attack" campaign against traffic accidents may strike ill-informed people as being a bit anomalous.

Fullmer-Robinson Rematch Appears Likely; Ex-Champ Debates Course of Career

NEW YORK, Jan. 4 (AP)—A Gene Fullmer-Sugar Ray Robinson rematch in March appeared likely Thursday pending a final decision Friday by the 30-year-old former champion and his retinue of co-managers and advisers. Fullmer, winner of a unanimous decision in Wednesday night's Madison Square garden fight, appeared at the offices of the International Boxing Club, ready to give Sugar Ray another chance.

Coast Circuit Stands Ground on Penalties

SAN FRANCISCO, Jan. 4 (AP)—Pacific Coast conference Thursday held firm against changing penalties already assessed against member institutions and voted down a proposed to alter the basic structure of the round-robin football schedule. The action means that one-year losses of eligibility against many football players who were juniors and sophomores at the time of Southern California and UCLA last fall will stick.

Refugee Plan Closes; 9,700 Flown to U.S.

ACQUISITION AIR FORCE BASE, N. J., Jan. 4.—Operation Safe Haven, the airlift of 9,700 Hungarian refugees to the United States, was completed late yesterday afternoon.

Lieut. Gen. Joseph Smith, commander of the military air transport service (MATRS), announced in Washington the last plane load of Hungarians arrived here at 3:30 p.m. There were 35 passengers aboard.

It was also disclosed in New York that Henry Cabot Lodge Jr., chief U.S. delegate to the United Nations, will visit nearby "Camp Mercury" at Camp Kilmer, Monday afternoon.

Yesterday's final arrival marked the finish of the history-making military airlift which began Dec. 17 with the departure from Munich of four Atlantic division MATRS planes carrying 159 Hungarians.

The daily average over the 44-day operation period rose to about 500. The record number of departures occurred on Dec. 24 when 16 aircraft carrying 984 Hungarians flew to the U.S., Smith said. A total of 156 flights was involved in the total "Safe Haven" project, 110 MATRS planes and 46 others by commercial craft under MATRS contract.

A breakdown of the total showed 4,314 men, 3,244 women and 1,842 children came to this country in Operation Safe Haven.

Statistics showed a total of 17,247 Hungarians have been transported to this country. Of this figure, 9,188 have been resettled while another 8,158 are being housed here pending relocation.

Wendell Residents Travel, Entertain

WENDELL, Jan. 4.—Mrs. S. O. Hamilton is visiting in Grand Rapids, Mich.

Mr. and Mrs. Austin Julian and children, Edwards, Alaska, Calif., are visiting her mother, Mrs. Marie Brooks.

Mr. and Mrs. H. L. Goble have returned from Baker, Ore., and returned to Wendell.

Mr. and Mrs. Melvin Gibson have returned home from Bridgeport, Wash.

Mr. and Mrs. Irving Abbott and daughter, Fairbanks, Alaska, are visiting Mrs. M. L. McBride.

Mr. and Mrs. John Gates and family have returned to College Place, Wash., after visiting here.

Mr. and Mrs. Duane Johnson and family have returned to Orling, after visiting her mother, Mrs. Jessie Benson.

Mr. and Mrs. Ruth Jones have returned to Nysa, Ore., after visiting Mr. and Mrs. S. K. Svingum.

Mr. and Mrs. Eugene Holmgren and son have returned to Portland after visiting Dr. and Mrs. H. F. Holmgren.

Building Permits

Down for Burley

BURLEY, Jan. 4.—Norman D. Smith, city clerk, reports that \$47,300 was expended in terms of estimated building permits for 1936. This is just a little more than half of the 1935 total of \$107,243.

There is a large deficit in the building of the new high school.

Residential construction totaled \$100,400 for 1936, compared with \$251,200 for 1935. Residential construction amounted to \$72,230 for 1936 and \$70,723 for 1935.

Business remodeling was down to \$44,700 as compared with \$115,800 for the previous year. Since 1934 residential building has totaled \$1,592,815 and remodeling \$55,354.

New business construction amounted to \$1,000,000 for 1936, compared with \$555,970. Total cost of building since 1935 has been \$6,048,421.

Safety Check of Club's Cars Set

Members of the Twin Falls Rod and Custom club decided Thursday to have a safety check for their vehicles.

All cars will be thoroughly checked and the member having the car with the least trouble points will be given a prize.

It was reported the good racing cars may be available for driving races every other Sunday.

City policeman Cliff Sharp attended the meeting.

ACCIDENT REPORTED

BURLEY, Jan. 4.—Donald R. Shaw, Burley, tipped his automobile into the third left canal eight miles southeast of Burley on New Year's day. Burley police report the car was not injured but the car was damaged.

Look at New Land

This is how four young Hungarian refugees looked at their new land as they arrived in New York New Year's day aboard transport General LeMay Kings from Bremerhaven, Germany. Boy, top left, smokes on a dauball as he, top right, peeks from behind coffee container. Little girl, bottom left, needs pacifier to help her astonishment at all this newness while bright-eyed girl at right looks out from life jacket. They were among the 1,718 Hungarians brought in on the navy ship. (AP wirephoto)

War on Polio Is Not Ended; Warning Says

Much remains to be done in the fight against polio, cautions W. A. Reynolds, Twin Falls county health officer, at the annual fund drive which continues through January.

Reynolds said the disease has cut the incidence of polio dramatically during the past year. Reynolds noted, "There are today about 80,000 children and adults who urgently need a helping hand in their long and difficult struggle."

Being everything possible to give them the care they need is just as important in the March of Dimes fight as getting the disease under control, he said. "That is why we have chosen as our 1937 slogan, 'Let's Finish the Fight!'"

Reynolds noted that in the 19 years the March of Dimes has existed the Twin Falls county chapter has spent \$18,500 in the drive, and only once had to draw additional funds from the national foundation for patient care.

From 1935 to 1936 Idaho has raised \$2,560,000 through the March of Dimes and expended \$2,560,000 for patient care. Some \$290,000 has been turned to the national foundation during the past 10 years to finance research, professional and public education, provision of equipment and other projects.

Polio Cleared Of Blame for Death of Lad

SEATTLE, Jan. 4.—A Johns Hopkins authority reported yesterday that polio, contrary to earlier diagnosis, did not cause the death of a Washington state boy who had completed three Salk vaccine "shots."

The death of James Thompson, 15, son of Mr. and Mrs. Malcolm F. Thompson of Mount Vernon, last Nov. 29 was described at the time as the first in the nation of a person with full vaccine protection.

Yesterday's announcement was made by Dr. Bernard Buco, associate health director. The youth died in a Seattle hospital.

Dr. Buco said tissue studies at the Johns Hopkins laboratory at Johns Hopkins university, Baltimore, had determined young Thompson was afflicted with "acute disseminated encephalomyelitis."

It was described as a rare disease which can easily be confused with bulbar polio unless tissue are examined.

Wendell to Start March of Dimes

WENDELL, Jan. 3.—The "Mayor's coffee hour" on Monday will serve as the kickoff for the Wendell March of Dimes, Mrs. Gene Barrus, March of Dimes chairman, reports.

The event is being sponsored by High City Republican Women's club and will be held at the civic club rooms from 9:30 to 11 a.m. Mrs. Joe Peterson, Gooding county March of Dimes chairman, will show a motion picture on polio rehabilitation centers.

The committee on food arrangement includes Mrs. G. C. Weinberg, Mrs. Peterson, Mrs. Ray Turner and Mrs. Eric Amundsen.
