# House Passes Bill To Okay Municipal

# Natural Gas Plans

BOISE, Feb. 13 (AP)—The Idaho house of representatives approved, 37-20, yesterday a bill to enable cities and towns to set up municipal systems for the distribution of natural gas. The bill now goes to the senate. The house also passed, and sent to Gov. Robert E. Smylie, a bill raising maximum unemployment compensation payments from \$30 to \$40 a week. The bill, requested by the governor, was approved 43-14. A senate-approved measure to increase death benefits under the workmen's compensation act was approved without dissent. It would increase the maximum total benefits payable from \$10,000 to \$12,000.

Also approved unanimously, and sent to the senate, was a bill providing for creation of dormitory

## Budge Says A-Power Ruling Out Big Dam

WASHINGTON, Feb. 13 (Special)—Rep. Hamer Budge,

high (hydroelectric) dams very questionable." His comment came after he and several other members of the powerful house appropriations committee made a tour of the army's new small secret reactor at Ft. Belvoir near here. "They told us," Budge said, "that this reactor will produce power at 40 mills per kilowatt-hours. That's competitive with power in some parts of the U. S. And

mons" of the legislature.

At the said hearing, the bill presented this year would not allow naturopathic-to-practice minor surgery and electricity.

D. Adams, a hospital administrator, led the battle against the bill. He said the senate passed health insurance bills already. He wants to enforce the measure.

Sen. Robert Wetherell, D. Elmore, served notice he might call for reconsideration.

Debate on the natural gas measure marked the latest phase in a long-simmering controversy over gas distribution in the state.

One of the cosponsors of the bill was Rep. Perry Swisher, R. Bannock, who led a movement to form cooperative distribution systems.

The Idaho supreme court ruled against the measure.

At the same time, the legislature

**warmer**

Above-normal temperatures will be enjoyed in Magic Valley for the next few days, according to the weather forecast for the period received here via Associated Press.

"We should better keep your overcoat," predicted the AP reporter as he read this forecast: "Temperatures ranging much above normal with highs mostly 38 to 58, minimums 25 to 35, except 15 to 25 in southeastern Idaho. Little or no precipitation."

(Probably.)

**Hamer Budget**

**May Propose**

design will produce power for even less.

"In a few years time atomic power will be as cheap or cheaper than power produced from dams."

Furthermore, in building large dams we back up water over an immense area, and the water is worth more than the electricity produced from the water."

Implying that federal funds may be needed to build the dams for large power undertakings, Budge also deplored the President's new 72 billion dollar budget as "too high."

"In the first year of my administration," he said, "a Republican-controlled congress cut his budget from 72 billion down to 67 billion dollars. Now they've got it back up to that 72 billion dollar figure."

He said 75 per cent. of his GOP colleagues want to reduce the bud-

since signed up with Intermountain Gas company, which has a franchise from the public utilities commission.

(Continued on Page 3, Column 2)

## County Budget

**Budget said the plan would irrigate about 135,000 acres of land in south western Idaho,** resulting in 1,300 fulltime farms near Mountain Home, 280 new dry lake and about 600 small suburban farms in the Boise area.

The project would cost 117 million dollars. Budget said any money not included for irrigation would have to come from water users for transfer of water rights, and a determination by the secretary of agriculture that the irrigated lands would not produce surplus crops.

"The construction of the project would do much to develop the constantly increasing underground water table in portions of the Boise valley, where there is no surface water," he said (see critical)," the congressman said.

**Suspect Held

Phil Ortega, 16, Twin Falls, was charged with burglary on Tuesday on a charge of first degree burglary and was bound over to district court for trial. The youth was jailed upon

for a mass construction of shelters that would be available to virtually all Americans. The bill also would create a new cabinet level department of civil defense.

Merriam said the administration cannot go along with the latter proposal.

## Car Crash Victim Claimed by Death

BURLING, Dec. 13.—Helen Gastonbide, 39, who was crippled in an automobile accident here about 25 years ago, died Tuesday morning at her home, 200 Oak Ridge, Ore. She was paralyzed in the accident and had been confined to bed since then. Miss Gastonbide was born July 18, 1876, in Oregon. She moved to Burling with her family in 1924 and to Oregon with her mother a year ago.

Surviving are her mother, Mrs. Marie Gastonbide, Oak Ridge; two sons, Fred and Roy, both in the military service.

## Latvian Burglary

Phil Ortega, 16, Twin Falls, waived preliminary hearing in Twin Falls district court today on a charge of first degree burglary and was bound over to district court for trial. The youth was jailed tonight for failing to post a \$250 bond set by Judge J. O. Humphrey.

Ortega along with Ralph Heck, 10, and Alex C. Balles, 18, were charged with burglary last night in a store at the corner of Main and Falls avenue, of "several" cases of beer. Monday the two older boys were bound over to district court for trial, but the juvenile was turned over to probation court for a hearing under the youth's relocation act.

Judge J. O. Humphrey said that M. Swerley returned Ortega's case to justice court for further action because of the youth's past record. Judge Humphrey said it is contrary to the best interest of

for a mass construction of shelters that would be available to virtually all Americans.

The bill also would create a new cabinet level department of civil defense.

Mr. Clegg said the administration cannot go along with the latter proposal. He said it is not yet ready to commit itself on the construction of shelters.

## 'Storm Weather' Covers Much of Gen State, Utah

By The Associated Press

ST. LOUIS, Dec. 13.—A blustering blizzard, if you are in the Great Plains, is what the weather is like today. Not that it's really, really—just the weather he talks about.

It's a blizzard and the wind temperatures continued to prevail in almost of Utah and Idaho today; al-

**DIE IN CRASH**

SEBOLI, Korea, Feb. 13 (U-A) — A street car smashed into a crowded bus shortly before dawn today, killing seven bus passengers and injuring 28, including an American army sergeant. The street car broke in two.

The weather bureau says the two-state area is in an "extensive high pressure system," which is shifting away a moist air "parcel" that today was moving northeast out of California and across Nevada. The moist air would deposit rain along the coast and the western fringes of Utah and Idaho before upper air currents shifted it past the rest of the two states.

Salmom reported the coldest overnight reading in Idaho, one of 10 degrees. A high of 49 was recorded in Twin Falls and a low of 27.

**WALLACE AND POULADE**

There are times in the history of some democracies when "fringe" political organizations come to the fore on an assortment of popular delusions.

The United States saw one such instance in 1948 when Henry Wallace made his Progressive party a catchall for a wide range of complaints and managed to attract a considerable following even though he had no clear program.

More recently, Pierre Poujade of France has led such a movement. In the 1956 French elections his forces cornered 52 French assembly seats out of nearly 600, capitalizing on grumbling among farmers, small tradesmen, frayed white-collar workers and the like.

Like Wallace, Poujade had no real program.

His chief rallying cry was: "Don't pay taxes to French citizens who traditionally hate taxes and other manifestations of governmental control, this had a strong appeal."

Still, the experts were surprised at the extent to which Poujade managed to crystallize these irritations into party action.

Of necessity, Poujade elected deputies had to land somewhere in the political spectrum, and they wound up on the extreme right in alignment with three parliamentary splinter groups.

His victory consequently stirred alarm both within France and in the Western world wherever statesmen feared the effect of extremists on the progress and stability of the European community.

But now these fears are lessening.

Poujade, who did not stand for election himself last year, tried this season in a Paris by-election made necessary by the death of a deputy.

He failed badly, finishing fourth and picking up just 6.4 per cent of the total vote.

This was not a clear sign of the decline in the popularity of Poujadism in France. Another evidence is the unceasing quarreling among his followers. In addition, the alignment his deputies had with rightist splinter parties is now shattered.

The experts on France feel reasonably safe in asserting that this strange movement, this Jerry-built coalition of the disgruntled, appears largely to have spent itself.

Evidently even the French, who tolerate more political free-wheeling than most, could not indefinitely endure the oddities and undisciplined antagonisms of M. Poujade and his forces.

**TUCKER'S NATIONAL WHIRLIGIG**

WASHINGTON—A nasty political problem has been laid on the hands of President Eisenhower and Secretary Dulles as a result of the belief—shared by many Americans—that the United States is not only American influence and prestige in the Middle East but also the peace and stability of the world.

Agaba, in accord with numerous United Nations demands.

It is almost notorious that Dulles is almost certainly the man who is responsible for a solution of the Suez crisis, this country might have to make a decision to starve out the stricken little republic, he appreciates, would provoke an emotional storm at home and throughout the Jewish community everywhere, and raise up powerful enemies among elements once friendly to the United States.

**HOLD U. S. RESPONSIBLE FOR ISRAEL**—But all the key nations and important personalities involved in the Middle East controversy seem to hold the United States responsible for Israel's existence and current defiance of the U. N. Col. Gamal Abdel Nasser of Egypt feels that the United States is responsible for the Palestinian cause.

On his visit to Washington, King Saud expressed the view that only Uncle Sam could lead the Arab world to freedom. He said that the United States had a duty to lead the Arab world to freedom.

Both Britain and France insist that we assume the role of internationalists and have through up their role of internationalists.

Day Hammarskjöld, United Nations secretary general, has urged his American contacts to take the lead in obtaining Israeli compliance with the world organization's repeated pleas for a less unending attack at Tel Aviv. The latest critical resolution in the U. N. was opposed only by Israel and France.

**WALLACE AND POULADE**

There are times in the history of some democracies when "fringe" political organizations come to the fore on an assortment of popular delusions.

The United States saw one such instance in 1948 when Henry Wallace made his Progressive party a catchall for a wide range of complaints and managed to attract a considerable following even though he had no clear program.

More recently, Pierre Poujade of France has led such a movement. In the 1956 French elections his forces cornered 52 French assembly seats out of nearly 600, capitalizing on grumbling among farmers, small tradesmen, frayed white-collar workers and the like.

Like Wallace, Poujade had no real program.

His chief rallying cry was: "Don't pay taxes to French citizens who traditionally hate taxes and other manifestations of governmental control, this had a strong appeal."

Still, the experts were surprised at the extent to which Poujade managed to crystallize these irritations into party action.

Of necessity, Poujade elected deputies had to land somewhere in the political spectrum, and they wound up on the extreme right in alignment with three parliamentary splinter groups.

His victory consequently stirred alarm both within France and in the Western world wherever statesmen feared the effect of extremists on the progress and stability of the European community.

But now these fears are lessening.

Poujade, who did not stand for election himself last year, tried this season in a Paris by-election made necessary by the death of a deputy.

He failed badly, finishing fourth and picking up just 6.4 per cent of the total vote.

This was not a clear sign of the decline in the popularity of Poujadism in France. Another evidence is the unceasing quarreling among his followers. In addition, the alignment his deputies had with rightist splinter parties is now shattered.

The experts on France feel reasonably safe in asserting that this strange movement, this Jerry-built coalition of the disgruntled, appears largely to have spent itself.

Evidently even the French, who tolerate more political free-wheeling than most, could not indefinitely endure the oddities and undisciplined antagonisms of M. Poujade and his forces.

**POT SHOTS**

MY VALENTINE

Dear Pot Shots:

Valentine's day being next Thursday, I thought you'd like a very sentimental poem I wrote to my husband a few years ago.

I love the way you part your scalp

Where once your hair did grow

Your bloodshot eyes with bags attached

Have a rummy glow.

Your chin's a-cute, all throes of front

With whiskers o'er them spread:

Your stomach sticks out, far in front

Your behind's full of lead.

But, my dear, you're just a little stuck

With your old homely pug

In spite of all these gruesome facts

At least you are a man!

Sincerely,  
Samuel J. Jones

**PUPS FOR KIDS DEPT.**

I have a female collie-shepherd dog to give away. She's 3 years old and has been trained. Extra gentle and patient with young children. We have to give her up because of living in town.

**SOUNDBUG EXPERT**

Noticed the letter from "A. Bride" in Pot Shots about soundbug. On Jan. 7, I gave the recipe for soundbug and the instructions how to use it to 43 women at the Buhi first relief society.

I have given this to LDS people in one of our electrical failure. It's really lots of fun to get it going and it makes the tastiest of pancakes. I not only can start it, but I can keep it going. Do you? I make my own dry yeast, too.

(Dottie)

**THAT ONE'S TOUGH!**

Pot Shots:

The recent question is: What is the name of the organization in New York City that has taught all the world to the world to thumb their noses?

Quia Master

**ANENT "INCOME"**

Pot Shots:

There is one pleasant angle to figuring out your income tax, that is, if you're one of the people who can figure things so that you get a refund.

Here's an angle the government hasn't been using. The government would figure out the withholding charts so that EVERYONE is going to get a refund. That would serve to take the sting out of paying taxes. One thing is a psychology. Did you ever hear anyone who could avoid bragging about an income tax refund? That's a catch in the game, and really our money. We look at it as though it were something we found in the middle of the street.

Gett, Eugene  
(Twin Falls)

**OUR BULLETIN BOARD**

Wanta Know, Twin Falls—Look, pal, give us a break, publisher. The very last thing we need is to be involved in a family fight. Okay, quarrel, you know what happened to an outside in a family fight?

Mrs. W. W. Wendell—With all the thousands of them that were published, we doubt it would be worth much, however, we suggest you check with your physician.

**HOW THINGS APPEAR FROM PEGLER'S ANGLE**

NEW YORK—Burt L. Standish was a prolific hawk-writer beloved of millions of young Americans of 20 years ago. His two chief characters were Frank Merriwell and Frank's kid brother, Dick, an improvisation who came into action as replacement when the time that Frank was wounded and was unable to do his "variety" for good old Yale.

Frank could field any position and was only by a firm effort of self-control that Mr. Standish retained him from living 1,000 for life, mostly in honorifics. Dick was, but little less proficient and certainly no less daring, slightly and pure. But he simply did not fit in to the figure whom Mr. Standish had thoughtlessly built up to the absolute pinnacle of the sports field in all respects. They both played football as well and they were in the general field of sport as beautifully as the Rapist Dick and Paul Mordantians of Horatio Alger were in their struggles for wealth and power. "The" country was a token by a "heavy" golf watch-chain spanning a growing expense of white waist-coat.

At one stage of Frank's career he invented a pitch called the jump ball which hopped high over the bat at the instant of the swing and landed in the catcher's mitt like a pop. There were skeptics even among Mr. Standish's devotedly slavish credulous public.

I was one of them and I held out for two years when I was a schoolboy. I volunteered with vehement finality and a little scorn the judgment that the man never lived who could impart enough back-spin to a baseball thrown from the hand to make it curve in a way that would make such a quarter of an inch. Immediately I was attacked with stunts from physicists who doped like Albert Einstein, who had an eye on a petty problem put to him by a schoolboy which proved, but only on paper, that it could be done.

However, like the savants of the 'seventies who insisted that no man could throw an out-curve or any curve at all and that those who thought they saw balls curve were just seeing optical illusions, I still maintained that whatever the theory, it had not been done.

I retreated from this position with consummate grace last summer when Eddie Ciole of the so-called Black Sox told me that he had seen the pitcher and Ray Schalk, his catcher, said he was sure he had. Ray said it did not jump up at all. Frank Merriwell had done and then returned to his flat course. It took an upward angle some distance from the plate and rose just fast enough above the flat to keep it from being caught. It was the swing to make the difference between a hit square on the center and a cut under the equator. That being done, Ray said, the ball went up for a pop foul or a high fly.

But Frank Merriwell and I, believe, Dick, too, both achieved a pitch which in practical life has not yet been seen although I could no longer put it beyond the limit of possibility. I believe this was called the relay ball, but my Merriwell library was destroyed years ago and I may be thinking of speculation during Big Bertha's bombardment of Paris, that the Germans had developed a sort of mother-shell which, after a certain distance of flight, expelled a smaller missile propelled by public were saved.

**Negro Appointee For Bench Asked**

WASHINGTON, Feb. 12 (AP)—President Eisenhower was asked last night to appoint a Negro to the Supreme Court.

Tomlinson D. Todd, director, promoter and moderator of the Sunday eight-station interview, "The Cincinnati Enquirer" settled that in favor of the Negro in an early version of the TV panel published in October, 1957.

The Enquirer has been an accepted phenomenon ever since.

**Irish Republicans Try Bridge Blasts**

BELFAST, Ireland, Feb. 13 (AP)—The outworn Irish republican army tried to blow up bridges in County Tyrone last night, the third attack in Ireland this week.

Royal Ulster constabulary headquarters and three hidden charges of gelignite were discovered under the bridge at Derrie. IRA raiders blew up electric lines and a power station Sunday night and a pump Monday night.

## Red Satellites, Soviet Facing Economy Woe

By United Press  
Soviet Russia and its satellites are facing serious economic difficulties.

The situation stems from the recession in Poland and Hungary, Russia itself, East Germany, Czechoslovakia and Hungary are the countries chiefly affected. But the difficulties extend also to other Soviet satellite nations.

The Soviet government has disclosed some of the problems involved in a series of announcements that started in December with the dismissal of Deputy Premier Maxim Z. Saburov, its chief economic planner.

Russia has sharply cut back the rate of its industrial expansion. East Germany and Czechoslovakia are threatened by possibly the biggest shortage of coal since the end of World War II. Hungary's whole economic situation is little better than chaotic.

What has happened is that the tightly-interlocking economic system of Russia and the satellites has been thrown out of gear.

For years, Russia was able to direct, exploit and loot the industries of its communist satellites.

Now Poland is directing its industry for its own good under Wladyslaw Gomulka, its independent communist leader.

Poland's coal was used, for instance, for Russia's benefit until its rebellion. This coal was sold, by Russian demand, at lower than world prices. Now the Soviet government has been compelled to agree to renegotiate its coal contracts. But even with that, Poland is getting a first bid in its own production.

Hungary, which was a source of food, raw materials and industrial products for countries of the Soviet bloc, has become a liability instead of an asset and is crying for aid from Russia.

## Alumni Speaker

DR. JACK H. ADAMSON

... associate professor of English at the University of Utah, will address a university alumni meeting at 8 p.m. Feb. 28 at the Turf club. (Staff engraving)

## Utah University Alumni Schedule Meeting for T.F.

Dr. Jack H. Adamson, associate professor of English at the University of Utah, will speak at a meeting of Utah alumni of the Turf club at 8 p.m. Feb. 28.

The event will be held to commemorate the 10th anniversary of the founding of the university.

Dr. Adamson, a native Idahoan who holds degrees from Utah and Harvard, is a director of the school's adult education program which is being sponsored by the Ford foundation's Fund for Education.

Reservations may be made by contacting Moore at 456 Maurice street north.

## Sponsors Picked For Calf Project

TWIN FALLS, Feb. 13—All who are participating in the 4-H fat calf project selected sponsors at the meeting of the Buhl Chamber of Commerce Monday noon at the R and R cafe.

Sue Gaston, chairman of the agricultural committee, was in charge of the drawing to select sponsors.

David Byrne, secretary, read a letter from the Buhl chamber relative to the banks closing on Saturday during the summer months. After a discussion on the matter Dr. Gaston moved that no action be taken by the Buhl chamber on the matter.

A letter from the Pocatello chamber was read stating it went on record as favoring an Idaho state sales tax as a means of obtaining further revenue. The Buhl chamber president had gone on record as opposed to the matter and no action was held.

## Meeting Held

SHOSHONE, Feb. 12—Twenty-four members of the PTA room representatives attended the February meeting at Lincoln school cafeteria Monday.

A study group lesson was given by Mrs. Keith Shewmaker. Plans were made for the room representatives to assist with parties for Valentine's day at the grade school.

**SPRINKS AT SERVICE**  
ALMO, Feb. 13—Speakers at the LDS sacrament service Sunday were H. E. King and Mrs. Wallace Taylor.

# Save Money, Time WITH Ross' All-Job Bed

Mr. Farmer: There is no need to have 2 or 3 truck beds! Those extra beds are costing you money in upkeep and loss of time to change them for different jobs. Ross' All-Job Truck Bed will do all your hauling jobs. It can be made into a flat rack to haul baled hay and potatoes. By using the end gate and hinged sideboards, you have a grain bed and two-way dump beet bed. By using the power unit, here are the jobs it will do: Unload dirt and gravel into piles or spread to any thickness desired. By using high sides you can haul and unload silage and chopped hay. By adding the beaters, it is one of the best truck manure spreaders on the market by using the cross-conveyor you can feed beet pulp, chopped hay, silage and grain directly into the manger. It also mixes the feed.

This bed can be made any length and will fit any truck. It is a full eight feet wide, so no matter what you haul, you never haul a small load. This bed has all roller-bearings and standard parts that can be bought at any machine shop. Order yours at Ross' Manufacturing & Repair, your truck bed headquarters, one mile So. of Burley on Overland.

Here's What A Satisfied Customer Has To Say About Our All-Job Bed:

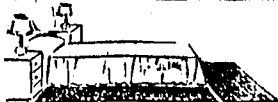

Mr. Ross Jones,  
Ross Mfg. and Repair  
Burley, Idaho  
Dear Mr. Jones:  
I want to take this opportunity to tell you I am well pleased with the "All-Job Bed" you built on my truck recently.  
It is doing a fine job of feeding wet pulp as well as rolled grain. It should be ideal for moving ground and chopped feed as it is automatically conveyed into the mangers. I am amazed how well it handles the wet pulp on these cold mornings even after a twelve mile haul.  
The feature that sold me on this bed is the fact that it is designed not only to feed with, but also to spread fertilizer and then be easily converted to a double-dumping beet bed. All this I can do and still have out one truck in malmain and license.  
I thank you, too, for the courtesy displayed in your business dealing.  
Sincerely yours,  
Morris E. Baker

# Military's Oil Costs to Soar By 85 Million

WASHINGTON, Feb. 13 (AP)—Spokesmen for independent oil producers contended Tuesday that increased costs have outstripped income and the recent oil price boost was justified regardless of what happened in the Middle East.

Justified or not, senate investigators were told that the higher prices will raise the fuel bill of the armed services by \$85 million during a year, hike costs of municipal power plants by nearly \$30 million and put some of these plants out of business.

Representatives of the latter group made the case for higher oil prices on controls and toll prices back.

Witnesses with conflicting views were heard in by the senate monopoly and public lands subcommittee.

Under Chairman O'Mahoney, D-Wyo., they are looking into the oil lift to Europe, necessitated by the closing of the Suez canal and the new pipeline, and complaints that oil companies used the resulting oil shortage in Europe as an excuse for raising prices here.

The independents objected to such charges. They protested, too, that they are government-owned, that Russia, B. Brown, called the "refiners" in the oil-for-Europe program whereas they said the blame was with 12 large oil companies and government organizations into the Middle East Emergency committee to help Europe get back on its feet.

Independent Petroleum Association of America, an organization of 7,500 refiners, mostly producers, and 4,500 associates.

While Brown spoke of failures in the oil lift in one breath, he said in another that European nations currently are receiving "in the order of 90 percent or more of their normal requirements."

The administration's administration goal was to supply these countries with 75 percent of their requirements.

W. M. Venable of Jackson, Miss., chairman of the Independent Petroleum association's executive committee, took the position that the recent increase in crude oil prices was "necessary and years overdue" for an industry whose expenditures "have increased twice as fast as income" since World War II.

It was Rear Adm. O. P. Latta, in charge of buying oil and supplies for the army, navy and air force, who estimated the recent hike in oil costs at \$85 million. That is on the basis of purchasing the same amounts as in 1946.

# Lincoln Day Talks Tell of Aims of GOP

WASHINGTON, Feb. 13 (AP)—GOP leaders at a luncheon across the nation last night forecast a stronger Republican party and a better country.

GOP National Chairman M. M. Morrison said the party was "the engine that drives power, and direction to a program designed to meet and solve the problems of today."

He called the GOP the "party of leadership" with room for all interested in good government. He called the Democratic party the party of "exclusion and division."

Secretary of Interior Fred A. Benson at Boston called on all Republicans to band together to regain control of congress.

Boston said 88 per cent of those voting last November cast their ballots for President Eisenhower and Vice President Nixon.

"And we mean to make such a record in these next two years and present such a ticket in the congressional elections of 1958 that this time as a party, we will attract a similarly overwhelming percentage of the voters," he said.

Vice President Nixon at Hackensack, N. J., said this year's New Jersey gubernatorial election would be especially meaningful. "It would be a referendum on the 1958 congressional elections are concerned."

Nixon said the New Jersey election "counts as it does in an open vote, and also in one of the key industrial states of the nation," will undoubtedly have considerable national significance.

# Scouts' Week Celebrated by Buhl Banquet

Buhl, Feb. 13—Harold Gribble, Scout executive of the Buhl area, presided at a Boy Scout council dinner in honor of Scout week Monday evening at the Moose hall.

Gribble stressed the importance of Scouting and discussed Camp Cape John.

But McNulty was master of ceremonies. Opening and closing exercises were led by Cub Scouts and Explorers directed by Dale Christensen, Scoutmaster of troop No. 1.

Cub Scouts Rand Baxter and Lin LaFay preceded the American flag carrying the two groups.

Loughmiller carried the American flag followed by the troop leaders directed by John Barker, troop No. 1; Larry Corrie, troop No. 3; Thomas Sullivan, troop No. 4; Kenneth Christensen, troop No. 5; Boyd Evers, troop No. 6.

Kenneth Elkins, McNulty, John Christensen, and M. M. Morrison, district committee, made arrangements for the dinner.

The dinner, served by the Women's Club, was for Scout leaders, district mothers, committeemen and all persons interested in Scouting.

Watch for Globe's Baby Chick Deal, coming soon—Adv.

# Now Many Wear FALSE TEETH With More Comfort

FARTHEIT, a pleasant alkaline (non-acidic) powder, helps false teeth stay in place. It is a gentle, comforting, just as gentle as a baby's kiss. It is a gentle, comforting, just as gentle as a baby's kiss. It is a gentle, comforting, just as gentle as a baby's kiss.

# DOUBLE-ACTION PROGRAM!

REAL Real Life Story of Nat Hackett and Norway. They lived to tell the story. It is a real life story. It is a real life story. It is a real life story.

## West Doubts Russia Slash On Spending

CAMBRIDGE, Mass., Feb. 13 (AP)—Western economic experts question Russia's claim that she is reducing defense spending. They suggest that the Soviet Union is spending as much on arms as before, perhaps more.

Three experts say there is little evidence on the basis of Finance Minister Alexey Zverev's proposed budget of any major curtailment of the Soviet military effort.

According to the proposed budget now being discussed by the supreme Soviet in Moscow, the Soviet government plans an outlay for the armed forces of \$4.7 billion rubles (about 12.1 billion dollars at the world market rate) or 16 per cent of the total budget.

Last year the Soviet Union spent \$1.8 billion rubles for defense—or 13 per cent of the total. The pre-war Soviet cold war defense spending came in 1953-1954 billion rubles.

Soviet propaganda claims that arm expenditures have declined by as much as 12 per cent since 1952 while American defense spending has steadily increased.

However, scholars here at Harvard University say the Soviet figures are "misleading and illusory." They say that, according to Soviet claims, the Soviet armed forces have been reduced by 1.5 million men since 1955. The manpower cut alone, involving a much lower payroll and subsistence costs, would not be far from accounting for a lower overall defense outlay.

Moreover, prices of Soviet industrial goods have fallen somewhat since 1952, while labor productivity has risen, so that a lesser amount of rubles today will buy as much if not more munitions than five years ago.

It is reasonable to assume that recent changes in military policy and technology, developments in atomic weapons and guided missiles, require higher, not lower, defense outlays.

## 2 Held as U. S. Army Deserters

BORDEAUX, France, Feb. 13 (AP)—French police identified today two Americans they arrested as suspected deserters.

They are Raymond Brackwell, 31, a native of Oklahoma, and William Glaw, 31, Lancaster, Pa.

Both men were arrested by French police and charged with crossing the border from Spain illegally. Police said the two men admitted deserting from American forces in Port Lyautey, Morocco, fleeing to Tangier and then to Spain.

TWO COWS TESTED  
DEGLIO, Feb. 13—Two tests are reported by the Holstein-Friesian association of American on cows owned by O. H. Phillips, Deglio. One produced 15.161 pounds of milk and 4.00 pounds of butterfat in a 342-day test and the other produced 17.422 pounds of milk and 4.14 pounds of butterfat in a 355-day test.

## Good Luck, Shannon

Four-year-old Shannon Rose Kraft poses with her mother, Mrs. Raymond Kraft, and brother, Grant, 6, in their Garden City, Mich., home unaware that she will go under a surgeon's knife Friday in an attempt to repair two holes in her heart—five percent hole—placed at the University of Minnesota hospital. There a team of surgeons led by Dr. C. Walter Lillehei will operate. (NEA telephone)

## Indian Chief Tells of Custer's Death at Little Big Horn Battle

NEW YORK, Feb. 13 (AP)—A long disputed historical question—who killed Gen. George Armstrong Custer at the battle of Little Big Horn?—was answered today by the post-mortem publication of an interview with Sioux Chief White Bull. The Indian said he killed Custer.

White Bull revealed in an interview with Sioux Chief Stanley Vestal in 1932 that he shot Custer fatally in the June 25, 1876, battle. Vestal, hearing that "some hothead might harm the old man," kept White Bull's confidence until he wrote an article on the famed battle for the current issue of the American Heritage magazine.

White Bull met Custer in hand-to-hand combat after the American general and his 225 men were attacked on all sides by the Indians at the Little Big Horn river in Montana territory. White Bull was 26 years old at the time, a veteran of 10 engagements.

"We grabbed each other and wrestled there in the dust and smoke," White Bull recalled. "This soldier was very strong and brave. He tried to wrench my rifle from me. I lashed him across the

face with my quirt. He let go, then grabbed my gun with both hands until I struck him again. . . . he hit me with the butt of the jaw and shoulders. Then grabbed my long blade with both hands, pulled my face close and tried to bite my nose off. I yelled for help. . . . Hear Lice and Crow Boy heard me call and came running. These friends tried to hit the soldier. But we were whirling around, back and forth, so that none of their blows hit me. They knocked me dizzy. I yelled as loud as I could to scare my enemy, but he would not let go.

"Finally I broke free. He drew his pistol. I wrenched it out of his hand and struck him with it three or four times on the head, knocked him over, shot him in the head, and fired at his heart."

"I took his pistol and cartridge belt. . . . That was a fight, a hard fight. But it was a glorious battle. I enjoyed it. . . . At the time I stopped fighting, 19 soldiers were on their feet. They were the last ones alive."

P. T. Barnum was the first to improvise to buy his own railway cars.

## Ex-President Attacks Move On Fund Cut

MIAMI BEACH, Feb. 13 (AP)—Former President Truman said last night that Republican efforts to balance the budget may be leading the United States into "deadly peril" by slashing national defenses.

Mr. Truman, addressing about 800 persons at a United Jewish Appeal fund-raising dinner, called for a strong defense by this country and the free world as one of the fundamental steps in maintaining peace and solving the Arab-Israeli crisis in the Middle East.

But he said, "beware of political budget-cutters. Beware of people who belittle the dangers to the security of the free world and use the smiles of the Russians to justify slashing our defenses. They may be leading us into deadly peril."

"It is not better to have a strong national defense than a balanced budget," the former chief executive said. "If it wasn't for a strong defense, we wouldn't have a budget of any kind."

"It is a lot better to have a secure nation than it is to have a good campaign argument," said Mr. Truman, who came here from the Florida Keys where he is vacationing with Mrs. Truman. He was introduced by Democratic National Committee member Jake M. Avey, Chicago.

"We should keep our noses up until we have more from the Russians than smiles and kind words and promises of friendship," he said. "The Russians only know the language of force."

## Grange Takes In Many Wife

BHOSHONE, Feb. 13—Two new members were taken into membership of Wood River Center Grange at the meeting Saturday night. They are Mr. and Mrs. James Frank.

Reports were given by Donald "Sandy" M. Adolph, Bryan and P. C. Wentworth.

Appointed to a committee to organize a Boy Scout troop for the community were Dean Barney, R. B. Kelley and Earl Cheney.

Mrs. Ward Mills, lecturer, announced Halley Grange will put on the third degree at its Grange hall at 10 p.m. March 8. All Granges in the area are invited to attend.

A talk on the education situation in Idaho was given by Howard Tankerley, high school teacher. Mr. Howard Tankerley played two piano solos.

A membership contest is being staged in the Grange with Mr. and Mrs. W. W. Whitehead and Mr. and Mrs. Donald Sandy as captains of the two teams.

Following the meeting, a pinocle party was held. Refreshments were served by Mr. and Mrs. Clifford Stutman and Mr. and Mrs. Elden Guthrie.

Watch for Globe's Baby Chick Deal, coming soon.—Adv.

## Air Force's Newest

Undergoing tests over Fort Worth, Tex., is America's first supersonic bomber, the delta-wing Convair B-36 "Hustler." Slung beneath her wings are four powerful J-59 turbojet engines. The Hustler carries a crew of three. It is about 55 feet long, and its delta wing spans about 55 feet. (NEA telephone)

## Story Denied Of U. S. Plane

KARACHI, Pakistan, Feb. 13 (AP)—A U. S. air force spokesman described as a "complete fabrication" a Soviet news agency report today that an American plane was forced down in India while carrying arms to Pakistan.

Col. Clinton True, U. S. air attaché here, said the Tass agency dispatch broadcast by Moscow Radio today was a "complete fabrication without any apparent foundation."

True said he had no knowledge of any U. S. Globemaster due at Karachi, especially from Singapore.

"The U. S. air attaché in New Delhi and Indian government sources there said they had no knowledge of any aircraft forced down or otherwise involved in any incident with Indian planes."

Top U. S. embassy officials in Karachi also were bewildered by the Tass report.

## Christening Row Is Fatal for Five

JALAPA, Mexico, Feb. 13 (AP)—A christening celebration erupted into a family argument with pistols that left five dead and seven wounded in the nearby village of Ayahualulco, police said today.

Authorities said Salvador and Rosa Perez were bitterly divided on naming their son and each invited relatives to the baptism to help them decide. The parents were among the wounded.

The baby still has no name, police said.

## Paintings 'Fake,' Avers Art Expert

LONDON, Feb. 13 (AP)—London art expert Leonard Scott said today he is convinced some paintings in Paris' famed Louvre museum are fakes.

The Dutch-born art dealer, three-time winner of a Royal Academy of Art medal, said he had seen the paintings at the Louvre and was convinced they were not the work of the artists named on the labels.

He said he had seen the paintings at the Louvre and was convinced they were not the work of the artists named on the labels.

## U.N. Is Facing Cold Scrutiny of U.S. Citizens After Complaints, Criticisms

WASHINGTON, Feb. 13 (AP)—Congressional critics are accumulating evidence that the United Nations is due for a long and maybe chilly look by the American people.

This organization of 50 member nations was accorded a special place among the generally accepted pillars of freedom and representative government along with religion, good works, free public education, home ownership and the family.

Now a magnificent 12-year-old, the U. N. more likely than not must prove its special place freely accorded.

The earliest and sharpest complaint against the United Nations was its posture toward the Soviet Union, which was permitted by the U. N. charter to be a permanent member of the Security Council.

### Ohioans Suggest Holiday Changes

COLUMBUS, O., Feb. 13 (AP)—The Ohio legislature is considering a bill to celebrate four major holidays on Monday.

The bill cleared its first hurdle in the legislature yesterday when it was recommended for passage by a Senate committee.

Sen. Ross Peppie, sponsor of the bill, said he understands similar bills are being introduced in Congress this year and in the Michigan, Illinois and Indiana legislatures.

The proposed calendar change would require Memorial day to be the last Monday in May, Independence day to be the first Monday in July and Thanksgiving the third Monday in November.

The bill would observe the birthday of President Washington, Lincoln, D. Roosevelt and others.

### Police Investigate Minor Buhl Thefts

BURL, Feb. 13—Burl police are investigating a number of thefts which occurred Monday night. Police Chief T. M. Kendrick reports a wrench and five packages of cigarettes were taken from a car belonging to Jim Ambrose while the car was parked at 412 Seventh avenue north.

J. D. Lambert, 30-year-old airbase group, was taken from his 1955 Ford at the Buhl motel. Three persons reported hubcaps missing. Lay Walden lost two hubcaps from a 1956 Mercury and Don Watson reports two hubcaps were stolen from his 1954 and Don Watson reports two hubcaps were taken from an Oldsmobile belonging to Ervin Carlson, Twin Falls.

### Method

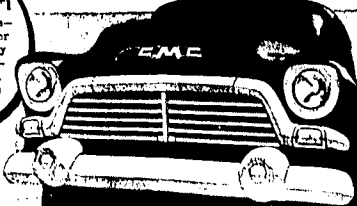

ELIZABETH N. J., Feb. 13 (AP)—Troubled by birds and bees? The Union County Society for the Prevention of Cruelty to Animals advised today that feeding grain soaked in whiskey to unwanted places, squirrels and animals will "immobilize" them so RPCA workers can pick them up.

## Here's the most powerful light-duty truck!

## Problem Arising In Infant's Birth Aboard Aircraft

VIENNA, Austria, Feb. 13 (AP)—The birth of a baby in an airplane over the North Atlantic has created a new twist in the old problem of how to handle a birth in a confined space.

Mrs. Fritz Fong, 25, gave birth to a girl in an Israel plane over Germany, Feb. 12, while en route to Vienna. The baby was born at 10:30 a.m. and weighed 7 pounds 10 ounces. The plane was en route from Amsterdam to Vienna.

Shortly after a stopover in Amsterdam, Mrs. Fong began having labor pains. She gave birth over the flight attendant's lap. The flight attendant checked at Limburg at a height of 3,000 feet. A doctor and a nurse were alerted at the birth.

Mother and daughter left the plane at Vienna, both in good health.

Experts said the baby could claim Austrian or Israeli citizenship but not German citizenship because she was born in Israeli territory (the plane) and only over German territory.

# Wendell Beats Shoshone 58-43 to Nan Down Title In Little Six Cage Race

WENDELL, Feb. 13.—The Wendell Trojans Tuesday evening nailed down the Little Six conference basketball title with a 58-43 victory over Shoshone. The victory was Wendell's eighth of the conference season against a single defeat (at the hands of Shoshone 59-58). The Trojans have only one game left to play, against Halley. Wendell was in command of the game all the way, although it was not until the final minutes that the Trojans had anything resembling a "safe" lead.

## Kimberly Is 59-57 Winner Over Vikings

KIMBERLY, Feb. 13.—The Kimberly Bulldogs hung on tenaciously, despite the loss of five players in the second half, to win a 59-57 Little Six conference basketball victory over the Valley Vikings Tuesday night.

In a game that was tied frequently, the Bulldogs opened up their biggest lead at the start of the fourth quarter. At that point they held a five-point edge. But the Vikings quickly closed the gap, and the Bulldogs had to battle all the way to the final buzzer to pull out the victory.

At the end of the first quarter Kimberly was ahead 15-11, but at halftime the score was tied at 24-24.

Kimberly once more had a two-point advantage, 44-42, at the end of three periods of play.

The Vikings stayed in the game with strength in the fourth quarter. They made only 12 field goals to 17 for Kimberly, but potted 33 charity shots. Kimberly also had 22 rebounds from the free throw line with 22.

Larry Dennis of Valley was the game's top scorer with 15 points. Kimberly won the frosh-soph game 45-42.

The box score:

KIMBERLY	VALLEY
Kimberly 59	Valley 57
Wendell 58	Shoshone 43

## Baseball Vet Says Players Better Today

WASHINGTON, Feb. 13 (AP)—Look this way, all young squirts who argue today that players are better today than in the past. A man who is possibly the oldest living old-time major league pitcher says you're right.

George Winkelman, energetic at 82 and a pitcher and place hitter in baseball's budding years, has this to say:

"They're more educated these days. They're raised a little different into this game. They have more interest in what they are doing."

Winkelman played for Washington, Louisville, Milwaukee and Hartford in the days when players stuffed grass in their gloves for padding. He was a southpaw, who broke in with Lynchburg, Va., at \$100 a month in the '80s.

"It was a fair battle and he had to like it at the time but had to go out in the field when I wasn't pitching or my paycheck wouldn't show up," Winkelman said. "I wasn't a long ball hitter. In those days the infielders stood more on the line so I got mine as a touch hitter."

He said players looked themselves in position and there were 15 more hits through the infield, with those statures standing around.

This explains why the peppy old German differs somewhat from Ty Cobb, who said a couple of days ago players of today "don't hit as well... too much emphasis on the bunt."

Winkelman preceded Cobb by some 20 years, of course. But he contends the 1937 big leaguer has "much more imagination" and stands above the old crop in every respect.

## Idaho Beaver Pelt Prices Are Good

BOISE, Feb. 13 (AP)—Idaho beaver pelts brought top prices at a recent four-state fur auction. In Denver, the Idaho fish and game department said today.

P. J. McDermott, Jr., who represented the Idaho department at the sale, said the firm state commitment of 1,839 pelts was sold for about \$21,500 for an average of \$11.70 per pelt.

He said the average price for Colorado beaver pelts was \$11.70 each. Wyoming and Utah beaver pelts sold for \$6.00 and Utah pelts for \$5.00.

## Del Mar Track Announces Slate

DEL MAR, Calif., Feb. 13 (AP)—Del Mar racetrack will hold the right stakes program in its history during the 41-day summer carnival opening July 24, according to track president and general manager Don Smith.

The weekly purse will offer \$255,000 in added money stakes for its 14 feature events, an increase of \$25,000 over last year's stakes. Daily purses will be in excess of \$125,000.

BOLMERS IN SCOT  
BROOKLYN, Feb. 13 (AP)—Tommy Holmes, former major league outfielder and manager, will serve as a scout in the New York metropolitan area for the Brooklyn Dodgers this year.

## Minico Spills Jerome 58-39 In Big Seven

RUPERT, Feb. 13.—The Minico Spartans turned back Jerome Tuesday night by a score of 58-39 in a Big Seven conference basketball game.

The Spartans jumped off to a good lead in the high-scoring first quarter and by the end of the third period Minico was ahead 39-20.

With eight players breaking into the scoring column, the Spartans had a fine night on the scoreboard. They chalked up 24 field goals to 13 for Jerome.

Dave Rausch led the Spartans with 14 points, but the top scorer in the game was Jerome's Parrell Thompson who tallied 21 points.

After Minico had opened up an 18-12 lead in the first quarter, the homecoming Spartans surged to a 34-19 halftime lead and held a 58-39 lead at the end of the game.

Minico junior varsity won the preliminary game 41-18 to remain undefeated.

The box score:

MINICO	JEROME
Minico 58	Jerome 39

## Bellevue Nips Carey by One Point, 59-58

BELLEVUE, Feb. 13.—Bellevue took the ball after Carey had scored a basket with eight seconds left in the game and held on for a one-point 59-58 Northside conference basketball victory Tuesday night.

The game was a thriller from start to finish. Bellevue held an 11-10 lead at the end of the first quarter and then slipped behind 24-22 at halftime.

Jack O'Donnell bucketed 25 points for Bellevue in the last game of his team which played this season.

The preliminary game between the Hagerman and Bellevue girls' teams went to Hagerman 65-49.

The box score:

BELLEVUE	CAREY
Bellevue 59	Carey 58

## Evans Says Indians Were 'Fortunate'

POCAHONTAS, Feb. 13 (AP)—Said Coach Johnny Evans of the Pocahontas high school Monday, after his Indians finished the regular basketball season undefeated, with 18 wins and the Big Six crown:

"We've been fortunate," Evans spoke at the Monday Quarterback club luncheon, along with Idaho State college basketball coach John Grayson and boxing coach Mike Holt.

"I was never more proud of my boys than now," said Grayson, whose Bengals just returned from a four-game winning tour of Colorado opponents in the Rocky Mountain conference.

The Bengals play Mountain State here this week-end and the conference crown probably will be decided.

Holt, whose pugilists knocked out all Washington State college opponents over the week-end, said: "I'll admit again, we've got a real good club."

## Rhodes Set For Defense Of Ring Title

BOISE, Feb. 13 (AP)—Mickey Rhodes, billed as the Pacific northwest middleweight champion, wound up training Tuesday for a title scrap.

Challenger Dick Lane finished his heavy workout a day earlier, figuring he was drawing himself too fine for the 15-round title scrap here Wednesday night.

Lane wound up his training with four-round workout with Hugo Mataville, who'll appear in one of the six-round prelims Wednesday. Rhodes was outboxed against Gene Holt Jones of Reno.

## Boise Brones Will Play Two Home Contests

Boise Junior college, held in by the league-leading shooting of Mike Panico, heads into the home stretch of intermountain collegiate athletic conference basketball this week-end with two games.

The Broncos tallied their seventh and eighth home wins over Northwest Nazarene Friday and Saturday. The home quiet hasn't dropped a game since its first two encounters with College of Southern Idaho and Dixie.

The JUC team since has defeated both teams.

Panico, with 174 points in 10 games, was individual scoring in the JACAC with 17.1 points per game.

CSU, continued with an uphill battle for a share of league honors, after losing three in a row.

Leading off week-end contests Boise will host Carbon college Friday night while study moves to NNU, while study moves to NNU, while study moves to NNU.

Boise goes to Boise Saturday evening while NNU hosts Carbon, Dixie, Montana and Weber moves south to CSU territory.

Watch for Glen's Baby Chick deal, coming soon.—Adv.

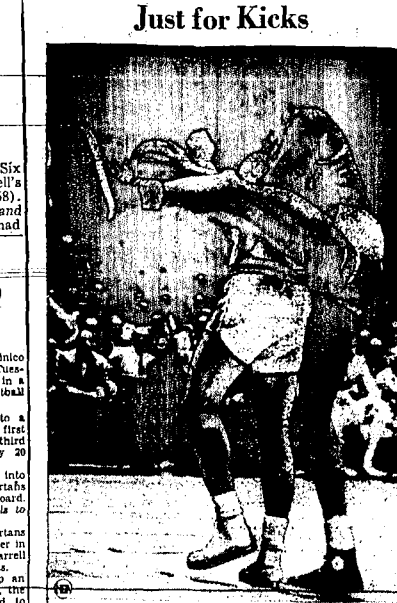

## Westminster Is 80-76 Winner

BILLINGS, Mont., Feb. 13 (AP)—The Westminster of Billings took its first lead to avoid overtime Tuesday night in beating Rocky Mountain 80-76 in the final of a two-day basketball non-conference meet.

They play again Wednesday.

WINTER'S HERE! Let us bring you RADIATOR NOW!

## Filer Wins 37-29 to Drop Buhl From Lead

FILER, Feb. 13.—The Wildcats of Filer knocked Buhl out of a tie with Burley for the Big Seven conference lead by taking a 37-29 basketball victory over the Indians Tuesday night. The cold-shooting Indians got only four points in the first quarter to nine for Filer, but Buhl managed to pull into an 18-17 halftime lead.

In the third period Filer regained the lead and held it the rest of the way. At the end of the game, the Indians were ahead 20-24.

Buhl's high-scoring Nick Fischer went without a field goal in the game and bucketed only two free throws.

All but three of Filer's 37 points came on field goals. Willie Mantle, was the scoring leader with 12 points for the winners, all from the field.

Bonar led Buhl to 10 and Martin Landholm got the same number for the winners.

The box score:

FILER	Buhl
Filer 37	Buhl 29

Dietch led Buhl to 10 and Martin Landholm got the same number for the winners.

The box score:

BEAR RIVER	RAFT RIVER
Bear River 44	Raft River 34

## Game, Range Study Completed on Proposed Bruce's Eddy Dam Site

BOISE, Feb. 13 (AP)—A recently completed study of big game and range conditions on the North Fork of the Clearwater river shows that white-tailed deer would be more directly affected than elk or mule deer by construction of the proposed Bruce's Eddy dam. Idaho fish and game director Ross Leonard said Tuesday the objectives of the study were to obtain information on new census techniques and to chart location and movement of game in the project area.

Most of the counting was done from a helicopter, Leonard said.

The fish and game director said that over the winter about 11 percent of the 5,220 elk counted in the Clearwater drainage were in the pool area of the proposed Bruce's Eddy dam. He said about a fourth of the 11 per cent were below the high water line of the pool.

The department biologists counted 431 mule deer in the Clearwater drainage, he said, of which 13.3 per cent were in the pool area. Twelve mule deer were found below the water line.

Nearly all of the 411 white-tailed deer were counted in the pool area, Leonard said. He said of the 403 counted at the proposed Bruce's Eddy site, 348 were above the high-water line. The census report, filed by federal aid funds, carried no recommendations.

However, in a letter to Dr. Ira D. Gabrielson, president of the Wildlife Management Institute at Washington, D. C., Leonard pointed out that "At this time it appears that the Bruce's Eddy dam would have a less important effect on the elk than some people thought a few years back."

Though the dam would reduce the winter elk carrying capacity in the lower drainage of the Clearwater, he said, "The Penny Cliffs dam, on the other hand, would be a much greater deterrent to the future of major elk herds than would Bruce's Eddy."

The fish and game department is conducting a similar study at Penny Cliffs. He said it would take at least a year to finish a fish survey which is part of the Bruce's Eddy study.

The complete report of the Bruce's Eddy project is available at the Boise office of the fish and game department, he said.

## Linfield Beats Coyote Quintet

MOHENVILLE, Ore., Feb. 13 (AP)—A rally in the last five minutes gave Linfield a 70-65 victory over College of Idaho in Monday's Northwest conference basketball game here.

Linfield, which is leading the conference with an 8-3 record, was behind at the half 38-25.

Yern Marshall, Bill McChamper and Bill Hugley led the late spurt. McChamper was high scorer with 22 points.

Mrs. Dorothy Comiskey Riney, heir to the Chicago White Sox, averages 120 as a bowler.

## Layton Wins Bout At Salt Lake City

SALT LAKE CITY, Feb. 13 (AP)—Dorrell Layton scored a split decision over Robert Wilber at Salt Lake Monday night in a six-round welterweight bout that headlined Salt Lake City's first locally televised fight card.

Attendance at the Salt Lake Coliseum was disappointing—less than 1,000.

Layton, of Layton, Utah, scored nod from the referee and one judge. In a six-round preliminary, Don Kenney of Salt Lake City defeated Larry Meyers of Ogden by a split decision.

## Oregon State Beats Webfoots

CORVALLIS, Ore., Feb. 13 (AP)—Oregon State used its high advantage to down Oregon, 83-51, Tuesday night in a basketball game that did not count in Pacific Coast conference play.

Oregon could play with the Slaters only in the early months of the season. The Slaters had played off 34 rebounds in Oregon's 18,12 were safely in front 25-25.

## Studies Show Tots Allergic In Salk Shots

NEW YORK, Feb. 13 (AP)—A carefully detailed study has shown that more children are allergic to the Salk anti-polio vaccine than has been supposed. Of course, there is absolutely no suggestion that children with allergies shouldn't be vaccinated. But the suggestion is that they should be given special attention.

Dr. W. H. Lipman, Kenosha, Wis., with the cooperation of the Kenosha department of health, found that out of 3,710 children who received one or more shots of the vaccine, 196 had unquestionable allergic reactions, a rate of 5.3 per cent. That, certainly, is a low rate, and no reaction could be classified as a major one.

His study served to replace fragmentary indications that the allergic reactions range from practically zero to considerably less than one per cent. In arriving at his 5.3 per cent rate, Dr. Lipman was conservative.

Of the 3,710 children, 490 had reactions of some kind. Of the 490, reactions were like cold symptoms or sore arms and miscellaneous muscular aches. There were no reactions such as hives and skin rash. Some people, although not many, on a percentage basis, are "over-sensitive" to the first penicillin put into them.

A second introduction produces an allergic reaction. It was critical of the method used to measure allergic reactions in the massive trials of the Salk vaccine which preceded its general use. These trials showed a rate of minor allergic reactions of 0.4 per cent in both the children who got the vaccine and those who got the inert "dummy" shot. Both vaccine and dummies contained penicillin. Medical thinking about then has been largely guided by these figures.

But Dr. Lipman pointed out that absence from school had been considered the primary clue to allergic reactions, and only absences had been investigated. "The margin for error in such an analysis should be obvious," he said. "Minor allergic reactions could be overlooked if children attended school and if parents failed to report such mild reactions."

## Fugitive Nabbed By FBI's Agents

MINNEAPOLIS, Minn., Feb. 13 (AP)—The FBI arrested one of its 10 "most wanted criminals" today on a tip from two newspaper readers who recognized his published picture.

FBI officials said escaped Utah convict Robert L. Green was seized at a St. Paul, Minn., bus depot, armed with a .38 caliber automatic. He surrendered without a battle, however, and was charged with unlawful flight to avoid confinement.

Green's name was added to the wanted roster just two days ago. He had been sought by federal agents since Sept. 9, 1954, when he and a fellow convict dashed to freedom from the Utah state prison at Draper accompanied by a hail of bullets from guards' guns.

## Pay Hike Set

VAN NUYS, Calif., Feb. 13 (AP)—Merquart Aircraft company announced an increase of from 7 to 12 cents an hour will be granted effective next Monday, to its 2,690 employees.

The announcement yesterday said the increase will affect employees at the plant here and in Ogden.

## VISITS BROTHER

KING HILL, Feb. 13 (AP)—Jesse Schooner is visiting his brother, Wilbur Schooner, in La Grande, Ore.

## Scouts' Presents for Ike

Eagle Scouts, selected from all parts of the nation, call on President Eisenhower to present their annual report in connection with Scouting's 47th anniversary. Howard Jones, Jr., Little Rock, Ark., presents the President two blankets. Left to right, Jones, Gary Morefield, Cave Junction, Ore., Ike and Robert Drury, West Palm Beach, Fla., standing; W. St. John, Worcester, Mass. (behind Jones); Warren Goulter, Ogden, Utah, Rex LaCamp, Jr., Potosi, Mo., and David Hamberger, New York City. (NEA telephone)

## Defense Boss May Keep on Job for Year

WASHINGTON, Feb. 13 (AP)—Some Pentagon associates of Defense Secretary Charles E. Wilson now expect the cabinet member to remain in his post for about another year.

There had been recurrent reports that the secretary would depart the government in mid-summer, after seeing the new military budget through congress.

Wilson himself gave some encouragement to those reports in an interview last fall. But he also said at the time that he could change his mind.

Wilson currently is in the second week of a two-week Florida vacation and is due home next Saturday to face a congressional committee looking into his controversial decision concerning the national guard.

He has ratified an army plan to make national guard units take six months active duty training with the army—an order which the guard is strongly protesting before a house armed services subcommittee.

Wilson declined a subcommittee invitation to be its first witness and flew off to Florida at the beginning of this month.

The American Bible society is one of the 24 national Bible societies throughout the world.

## Board Discussing Issuing Contracts

BUHL, Feb. 13—Contracts are to be offered to all principals with the Buhl school board decided Monday evening.

Supt. Alva G. Borders said classes in adult education had alerted. Classes consist of typing, speech, shop arithmetic, arts and crafts and home economics.

Permission was granted the PTA to have a musical program on fund raising night, March 8. The Magic Valley Rock club was given permission to use the high school gymnasium July 13-14 for the annual rock show.

Wayne James, high school music teacher, was granted permission to attend the music administrators meeting in April at Boise and Lucille Huston, principal of the F. H. Buhl school, was given permission to attend the principals' meeting in March in Cincinnati, O.

## COW TESTED

JEROME, Feb. 13—A Holstein cow owned by Frank W. Houston, Jerome, produced 13.91 pounds of milk and 4.92 pounds of butterfat in a 34-day test conducted by the Holstein-Friesian association of America.

## Job Hunters Over 40 Facing Imposing Problem in Nation

SAN FRANCISCO, Feb. 13 (AP)—Job hunters over 40 face imposing problems in the nation, but the problems are not the same as those faced by younger job hunters.

Training or re-training facilities fact more people are working than ever before, and unemployment is at a low level.

Why is it in these prosperous times that older workers are having such a hard time finding jobs? The answer is that older workers are often overlooked by employers who are looking for younger people.

Older job seekers, often those as young as 35-44 years, face formidable obstacles in getting work. The hurdle of educational requirements, for instance, an older person may have had less opportunity to get a high school diploma than his younger competitor.

A man or woman in mid-age may be confronted with rigid physical requirements, which may or may not be related to the job that is to be filled.

many of whom need to modify their employment practices. Experts who have really studied the problem, however, are not so sure. They say that the older American is more adaptable to change than is commonly believed, and that he is more likely to leave his job than younger groups.

Employment service staffs throughout the nation are expanding and improving counseling and placement facilities for older people. Adequate training facilities to better prepare the older worker for job opportunities are being organized by government and voluntary groups.

The labor department has issued program ideas to all state employment security agencies to stimulate special efforts for older workers. It has also provided additional funds for job counseling and placement. C. A. Robinson, Edward Johnson, Dean Bent, William Christensen and Betty Olmstead.

These moves, together with efforts of other interested public and private agencies, employer organizations, labor unions, and educational and other community groups should contribute substantially to helping the older American in search of a job, the survey concludes.

## Parking Fines

# Civil Defense Post Looming For Thornton

NEW YORK, Feb. 12 (AP)—In Thornton, former Republican governor of Colorado, is expected to be named as civil defense administrator this spring, the New York Times says.

The Times, quoting a "reliable source" in a dispatch from Washington, said Peterson would be U. S. ambassador to Denmark and Norway.

Thornton and Peterson, former Republican governor of Nebraska, have similar political backgrounds. Both backed Mr. Eisenhower in the drive for the Republican presidential nomination in 1952, and both fed in the tide to be elected to the U. S. senate.

The Times said Peterson would be fulfilling a desire for a diplomatic post in becoming an ambassador. Peterson appeared to be President Eisenhower's choice for ambassador to India in 1953, the Times said. The administration had not taken account of a political feud between Peterson and the late Sen. Hugh Butler.

Butler let it be known he would oppose Peterson's nomination and therefore it was never made, the Times said. Peterson served briefly as administrative assistant to Mr. Eisenhower and became civil defense administrator in 1953.

Peterson is of Scandinavian ancestry and would be pleased to get the ambassador's post, the Times said.
