

Security Measures Taken by Hussein In New Uprisings

AMMAN, Jordan, April 25 (AP)—Jordan named a new government today and clamped martial law on the entire country in a bid to stem revolution. King Hussein declared his intention to fight out the crisis. He blamed international communism for bringing it on.

The United States urged support anew for the independence and integrity of Jordan, and ordered its sixth fleet back into the eastern Mediterranean. Thursday a total curfew was imposed on the capital, city of Amman, the old city of Jerusalem, Nablus, Ramallah, and Irbid near the Syrian frontier.

Under the decree of martial law police were put under control of the army, whose forces are being

fighters are loyal to King Hussein. The country's 10 political parties were abolished.

Ibrahim Hesham, 33, was chosen to head a seven-man cabinet of moderates.

The right-day-old cabinet of Hussein Khalid resigned yesterday night after six hours of rioting by mobs inspired by Communists and other extremist factions.

King Hussein indicated in talks with American reporters that he did not need outside assistance.

Hussein stressed that King Hussein had been "informed" by the British and American governments that they would not send troops to Jordan.

Invited Rep. James P. Richards, special representative of President Eisenhower to Amman, explained the President's Middle East program. Hussein said he would decide "with other Arab states" whether they would accept the Eisenhower program.

The American stand supporting Jordan's integrity and independence was vital to U. S. interests and world peace, was a restatement of the El-

A Twin Falls Methodist minister will occupy the pulpit of an English church for five weeks this summer and his British counterpart will fulfill his pastoral duties here for the corresponding period. This "hands across the sea" gesture involves the Rev. W. A. MacArthur, pastor of Twin Falls' First Methodist church, and the Rev. Charles Barber, pastor of Northfield Methodist church, Birmingham, England. The exchange of ministers is planned by the Board of Missions of the Methodist church to promote international understanding and good will.

The Rev. Mr. MacArthur is one of 10 Methodist clergymen from the United States to be "exchanged" under the program. Nine will be sent to England and one to South Africa. The corresponding British pastor will take over the American cleric's duties during the period.

The Twin Falls minister feels the exchange will give both clergymen the opportunity to "get much better acquainted" with each other's problems. A few days' visit, he believes,

Newly Named Aides to Face Severe Probe

WASHINGTON, April 25 (AP)—An ironic twist of fate will be unfolded soon in the U. S. senate. The principal characters are Charles E. "Chip" Bohlen and Scott McLeod, two of President Eisenhower's recent diplomatic appointments.

Four years ago almost to the day the senate was engaged in a hot argument over Bohlen's fitness to be ambassador to Moscow. McLeod, now state department security officer and a former FBI agent, claimed to have found derogatory information against Bohlen.

The tables now have turned somewhat. McLeod's nomination to be ambassador to Ireland is being attacked by Democrats who claim he is unfit to serve in such a role. Those Republicans who opposed Bohlen's appointment as ambassador to Moscow four years ago are voicing their opposition again to his nomination to be ambassador to the Philippines.

Hearings on both appointments will be held about April 30 by the senate foreign relations committee.

The hearings are being called after more than 30 other recent diplomatic appointments have been approved without question. Their proximity in time suggests to some Washington officials that McLeod may, in effect, be approved for the Dublin post with an indirect assist from Bohlen's supporters.

Bohlen's backers don't really believe the veteran career diplomat subjected to another ordeal where his security again would be questioned. Aside from voicing some commendation, they may be willing to take

McLeod. The Bohlen case of four years ago was somewhat of a mystery. Republicans generally complained he had been too close to previous "unreliable" administrations despite his career status.

President Eisenhower told a news conference he has known Bohlen for years and that he was the best-

qualified man for the Moscow post. There is no doubt McLeod felt strongly about opposing Bohlen's appointment. He took his case to the White House — going over Dulles' head. John R. Beal, a recent Dulles biographer, wrote that "McLeod's insubordination" angered Dulles. He almost fired McLeod.

Eisenhower has said twice in re-

cent weeks he does not know McLeod and that the security officer was recommended for the Dublin post by Dulles, whom the President said he trusts.

Dulles told a news conference yesterday McLeod has done an able job as administrator of the state department bureau of security and consular affairs, that he has grown and

in stature over the past four years and that he believes he will make good ambassador.

Senator Sees Cut Probable In Aid Funds

(From Page One)
The Senate today is expected to vote on a bill to cut the federal aid to states for the construction of highways. The bill, which was introduced by Sen. Charles McNary, of Oregon, is expected to pass by a large margin.

The bill would reduce the federal aid to states from 90 percent to 80 percent of the cost of the highway construction. McNary said that the bill would save the federal government \$100 million a year.

McNary said that the bill would not affect the federal aid to states for the construction of bridges and other highway facilities. He said that the bill would only affect the aid for the construction of new highways.

The bill would also reduce the federal aid to states for the construction of airports. McNary said that the bill would save the federal government \$50 million a year.

Net by Police Is Successful In Test Chase

(From Page One)
The police exercise was a "successful" one, conducted a critique Wednesday night at the American Legion hall at which participating officers discussed procedures and methods to improve the valley-wide dragnet.

A new plan to plug "holes" in various areas was presented by Chief Gillette. He says such a plan should be worked out whereby on a certain radio signal officers, familiar with their areas would immediately start to move to predetermined points.

While they are en route they would receive information regarding the crime.

By this method we will save several minutes which in the event of the real thing might spell the difference between success and failure.

Gillette said. He said this plan would require considerable coordination and work but could be worked out.

T. F., British Clerics Plan Pulpit Trade

(From Page One)
There would be no "only a smattering" of the knowledge that provides the basis for understanding the five week period gives each ample time to achieve this understanding.

The Rev. and Mrs. MacArthur and their children, Janet, 12, and John, 15, will fly to New York for their ocean voyage to England, June 20. They plan a tour of the British Isles before the Twin Falls minister departs.

At the conclusion of the exchange the MacArthur's will make a two-week tour of Germany, the Lowlands, Switzerland and France before returning to the United States.

The Rev. Mr. Banks arrives in the United States July 8 and will assume his duties here July 15.

An overseas trip is not new to the Rev. Mr. MacArthur. In 1948 he, with a group of other Methodist ministers, toured the British Isles and portions of the continent for a survey of war damage to Methodist installations. It will be the first trip for Mrs. MacArthur and the children.

The MacArthur's will be honored at a "bon voyage" dinner at the church May 7 by their friends to wish them a pleasant journey.

Friends of the MacArthur's who have not been contacted and who wish to attend the dinner may obtain tickets at Scott's cafe, Roper's or the Stuart Taylor office. They are asked to obtain the tickets by May 4.

Nevada Hotel Is Damaged in Fire

LOVELOCK, Nev., April 25 (AP)—Fire damaged the Meadow Hotel here Tuesday night and the loss was estimated unofficially Wednesday at about \$100,000.

The fire began in the rear of a downstairs clothing store in the hotel building. Volunteer firemen managed to keep the blaze from spreading throughout the structure and about half the hotel's rooms were undamaged.

Fire Chief Carl Orlowski was overcome by smoke and fireman Omar Nelson injured his leg when he fell 25 feet as part of the hotel's second floor collapsed.

Real Cool

STILLWATER, Okla., April 25 (AP) — Oklahoma A and M college agricultural researchers say that sows given shower baths have more pigs per litter than sows left to their own devices to heat summer's heat.

At a recent experiment, one group of expectant sows and gilts were cooled during the day by a water sprinkler. Another group was left uncooled.

The cooled sows and gilts had 10.18 pigs per litter. The uncooled group farrowed 7.71 pigs per litter.

Misinformed

SALT LAKE CITY, April 25 (AP) — A couple of young "prospectors" decided to take a look yesterday in the "Knudsen Builders' Supply" warehouse because the 6-year-old told police he remarked to the 7-year-old: "There's gold in that place."

Two warehousemen were gone 10 minutes from the building, but during that time the "prospectors" utilizing a single crowbar "for mining" wrecked 11 doors, one sheet of plywood and three cartons of tile.

East Reich Communists Stage 'Dress Rehearsal' for Uprising

BERLIN, April 25 (AP) — East German Communists are openly rehearsing for revolution.

They are practicing the measures they would take against "any anti-Communist attempt to overthrow the Red government which rules the eastern half of divided Germany."

They are trying to show the reaction East German populace that local German Communist units could crush any rebellion without calling for help from the 22 Soviet army divisions stationed in the Russian zone.

The maneuvers revealed the deep fear which has gripped all satellite governments since "Hun" Russian domination — a "satellite" — their Communist overlords six months ago.

Does East Germany face revolt?

In the early days of the Hunan revolution a spark could have touched off widespread action against the East German government.

There had been an open uprising of workers in East Germany in June of 1953.

But the spark did not flare and now the mood appears to be one of deep discontent rather than revolutionary zeal.

In any case, the Communists are taking no chances. They have staged maneuvers in East Berlin, Magdeburg, Leipzig, Dresden and other cities. The maneuvers are carried out by Communist forces composed of the police, army and "fighting group" — a workers militia formed in factories, government agencies and on collective farms.

The Communists speak constantly of the threat posed to East Germany by the North Atlantic Treaty Organization (NATO), American "imperialism" and West German "militarism."

But in these war games all present is dropped that the danger comes from outside. The "enemy" is the East German anti-Communist movement, labeled as "fascists," "terrorists," "counter-revolutionaries," and "provocateurs."

In East Berlin maneuvers they attempted to seize police headquarters. In Magdeburg they attacked

EAGER CUBS
CORNWALL, Vt., April 26 (AP) — Two Cub Scouts were too successful in their effort to start a fire by scraping two rocks together. Firefighters said the blaze the youngsters started in that ancient manner yesterday spread through 10 acres of grassland.

The local Communist union headquarters. In Elsenach they tried to take over the automobile plant. In Potsdam they raided the local Communist party newspaper plant.

In one case the attack was crushed. In the words of a Communist commentator: "So will all attacks."

Western observers do not believe that the East German militia are so loyal as the Communists claim. In a showdown, they believe Soviet troops would have to be called out in East Germany just as they were in Hungary.

APPOINTED DELEGATE
BOISE, April 25 (AP) — Appointment of George Crookham, Jr., Caldwell, as Idaho's official delegate to the national convention of the rivers and harbors congress was announced today by Gov. Robert E. Smylie. Crookham's appointment is effective for one year from May 1.

Ge. Raise
WEISER, Idaho, April 25 (AP) — The Weiser rural district board today announced it would raise the pay for volunteer firemen for each rural fire from \$750 after the first hour of firefighting.

The firemen had asked the district's executive committee that after May 1 they would be answer rural fire calls unless they received additional pay. They said more money was needed because of increased vehicle maintenance.

Bury Will Provide 'Buy' Of Week-End

Associated Press
Bury will provide a shopping around for the week-end at the most counter this week-end. The good buys in pork chops, beef, lamb, and chicken are the two most items frequently featured by the big chain food stores this week-end.

Chicken ready for frying or boiling are probably the most popular buy. Price cuts from last week range from two cents a pound in some areas to as much as 10 cents in others.

Pork Attractive
Pork loin is also attractively priced in many cities, and pork chops are occasionally special in big or shoulder of veal.

Feed prices continue to inch higher. Market specialists say most cuts of beef are expected to go up a little more in price in the next few weeks and they hold steady for a month or two.

Steak Up
Steak is up a penny or two a pound from last week in some cities; rib roast is up anywhere from 2 to 4 cents a pound. Lamb prices are pretty close to last week's levels.

Butter prices are up a shade; egg prices generally a little lower. Fresh vegetables of many kinds are in plentiful supply this week-end. You'll find a wide assortment of produce to choose from in salad greens and other vegetables of the "leafy" type.

Potatoes are listed as excellent buys in many parts of the country. Maine potatoes are cited as "outstanding" bargains by the U.S. department of agriculture and U.S. war veterans and Red Cross.

There's also asparagus from California, and long beans and sweet potatoes and yams from North Carolina and Louisiana.

Citrus fruits are still plentiful, but some—namely tangerines and lemons—are very scarce in quantity and should be chosen with care. Good buys include grapefruit and oranges from Florida, and lemons and limes from California.

Several varieties of apples are moderately priced, including Macintosh, Golden Delicious, and Red Delicious. Apples from Washington state and Arkansas are also available.

Grapes Good
For luxury tastes, imported grapes from Italy can be found on U.S. produce counters.

Florida limes, a popular ingredient of warm weather drinks, are in ample supply and moderately priced in most major cities.

Faith in Weaker Sex Upset After His Experience
DENVER, April 22 (AP)—Larry Dickman's faith in the weaker sex is a bit shaken, they're saying.

Larry, 36, and sister Karen, 2, were playing yesterday with a toy pushmobile jeep. Karen, expertly, poked a finger into Larry's hole where there used to be a steering wheel.

Big brother followed suit, and Karen, who was supposed to be shouting for help, Karen heard Larry's howl.

Butler was tied as a lubricant to free Larry's forefinger. No luck at fourth city street arrived and sawed away the metal.

After controlling his sobe, Larry said he wasn't really mad at Karen. She wept louder than he while firm came to the rescue. They discovered later that Karen thought Larry's finger was being sawed off.

Swish!
WASHINGTON, April 22 (AP)—A new high in speed—more than 8,000 miles an hour—is reported to have been achieved by a Lockheed X-7 missile launched at Patrick air force base, Fla.

The three-stage research missile, informed sources said today, attained approximately 8,240 miles an hour, or 14 times the speed of sound, under the momentum of rockets fired to hasten its rush toward the ground.

The highest speed heretofore announced for a test missile is 8,000 miles an hour. That was recorded by a five-stage research rocket fired from the Wallops Island, Va., facility of the national advisory committee for aeronautics.

Killed in Mine
WALLACE, April 24 (AP)—Leonard Seger, 36, was killed today when he fell more than 500 feet down a shaft at the Black Bear silver mine near here.

Mine officials said Seger was in a cage being hoisted from the main level when a cable slipped off the hoisting drum and dropped the cage about 50 feet. Seger fell from the cage and plunged to the bottom of the shaft.

Big Business Aims Dollars At Investors

NEW YORK, April 22 (AP)—American businesses today spend a hundred million dollars a year wooing new stockholders and trying to keep old ones happy.

Some companies permit stockholders to buy their shares at a discount. Others give away their products at annual meetings.

Continental can once gave each stockholder a garbage can. Revlon gave cosmetics.

Wall Fed
Almost all companies feed their stockholders at annual meetings. Many maintain full-time staffs to greet visiting stockholders, take them on plant tours and buy them lunch.

The Grace line runs special cruises to the Caribbean. Stockholders pay the regular fare but get red carpet treatment and entertainment both on board and in port.

The New York Central railroad runs special low-cost trains to Albany for its annual meeting, and this year the Chesapeake and Ohio railroad is going to conduct its annual meeting on a merchandise plane. Stockholders will then be taken on a boat tour of railroad installations along the bay and on a low-cost excursion to the Jamestown, Va., festival.

Grown in Importance
Allen Wall Harris, a management consultant specializing in stockholder relations says "stockholder relations as a corporate activity has grown in importance and now ranks side-by-side with labor and community relations."

"Just 20 years ago many companies treated their stockholders like an unemployed brother-in-law who came for a week's visit and stayed a year."

The new approach to stockholder relations is mirrored in the brightly-colored, interestingly-written annual reports mailed out each year to stockholders and other interested persons.

Built of Jokes
There was a time when annual reports were the butt of jokes as the Gullible, dullest reading on record. "But today," says Harris, "industry develops a great deal of time and money to turning out annual reports that are readable and informative."

Harris estimates that industry now spends \$3 million dollars a year just on annual reports.

Note From Lost Trio Is Located
SAN DIEGO, Calif., April 22 (AP)—Mexican guides yesterday found a note left on a mountain trail by three San Diego men missing in remote country in Baja California, Mexico, the coast guard reported.

The note, according to radio reports from search headquarters 200 miles south of here, said the three were heading down the eastern slope of the rugged San Pedro Martir mountain toward the desert. The note was dated last Friday. The three have been overdue since Sunday.

Plan Adopted
BURLY, April 22—The Junior Chamber of Commerce, at a meeting Tuesday night, adopted the National Safety council's safety check program.

The council is trying to get cities to adopt the plan and has picked 19 cities and towns in Idaho for the program. Expenses will be defrayed by automobile dealers.

Other business transacted was the acceptance of the resignation from the board of directors of Jerry Johnson who is leaving soon for the army. Russell Scordell was elected to fill the vacancy.

Acheson Says 'The's' Policy Is Not Sound

NEW YORK, April 22 (AP)—Pomer Secretary of State Dean Acheson said today President Eisenhower has based U. S. foreign policy on a "fuzzy" morality that deflates the nation's legitimate world interests.

In an article in the Reporter magazine, Acheson listed blunders of all three western powers in the East, suggested that the United States can help solve the Middle East problem, and analyzed the President's apparent thought processes which, he said, have hampered U. S. diplomacy.

Served Under Truman
Acheson, a Democrat who served under former President Harry S. Truman, said Eisenhower was wrong in saying on Feb. 20 that "the United States has no selfish ambitions or desires" in the Middle East.

He also is wrong, Acheson said, in believing the situation can be resolved to the interest of the United States in the general assembly of the United Nations, where 28 Arab-Asian-African countries and 10 Communist countries are lined against 17 European countries and Israel.

Selfish Interest
Acheson said it is very much in the selfish interest of the United States to get the Middle East "out of the world" and that its essential goal is to get the routes not so ruinously expensive, uncertain, or hazardous.

He said the danger is not of military conquest by communism but that turmoil, hatred of the West and the Middle East, and the resulting attempts to gain "position" by wringing from Europe more than it can satisfy give may bring ruin upon all.

Veterinarian Explains New Progress Made in Test Tubes Among Idaho Cows

BOISE, April 25 (U.)—About one out of every four dairy calves born in Idaho these days is the result of a test tube rather than bovine marriage.

The state's dairy herds include about 300,000 cows, and although the compilation of those cows treated by artificial insemination during 1956 is not complete, the total is expected to approach 100,000.

The practice of artificial insemination of dairy cows on Idaho farms had its start about 1947. By 1952 the method was used to freshen 31,000 calves a year and the total has grown steadily each year to 80,700 inseminations in 1956.

Dr. A. P. Schneider, state veterinarian, gives credit for much of the growth of the artificial insemination program to the economic advantages it provides for the dairyman and the improvement it brings in standards for dairy animals.

"In the old days," explained Schneider, "the farmer had to take his cows to a neighbor's bull and he looked around for the cheapest animal. He was hurting the industry by using an inferior bull because, after all, half of a calf's breeding characteristics come from the father."

"If the farmer kept his own bull," the state veterinarian added, "the half of a calf's breeding characteristics came from the father and you've always got danger around your farm when you keep a bull."

With artificial insemination, Schneider explained, the dairyman can breed their cows to the finest bulls in the nation at a reasonable cost.

"Successive artificial insemination of these offspring with other bulls of high quality tends to bring a dairy herd up to standards approaching those of the sires," he added.

A fringe benefit of the program, said the state veterinarian, was an improvement in control of cattle diseases, since there is no transfer of livestock from premise to premise.

More than 100 men in the state of Idaho are licensed to carry on artificial insemination of cows. Schneider said Idaho and Utah were the only two states in the nation which license and exercise control over inseminators.

"The inseminators are trained at two-week courses offered by the University of Idaho and Utah State Agricultural College. Graduates of the courses at these schools and other recognized schools then must pass a state examination before they are licensed."

Schneider said two insemination "rings" of bulls in the Idaho area are located in the Cache Valley and at New Plymouth. Materials for the inseminators come not only from these local rings, but also from rings of prize bulls throughout the nation.

The growth of the program has put competition into the field, and Schneider said he expected this competition to be another factor in improvement of the state's dairy herds.

"A ring keeps trying to get better and better," he explained.

General Gain Reported for Many Papers

NEW YORK, April 25 (AP)—General gain in newspaper circulations is being reported when many newspapers have increased prices were reported today at the American Newspaper Publishers Association convention.

Members attending informal "talk" sessions said circulation gains caused by price increases were less than expected and that circulation soon returned to normal and resumed expansion.

One Case Cited
The case of one newspaper, unidentified, with a circulation of 40,000 was cited. It raised its price from 5 cents to 7 and received 300 subscription cancellations.

But a number of the cancellers apparently missed the paper and continued to buy it, at newsstands, with the result that the net circulation loss was only 85.

The opening day of the convention was devoted to three discussion groups—one for executives of newspapers of less than 10,000 to 50,000, the third for those with over 50,000. The meetings were closed, after which briefings were given to reporters.

Each of the discussion groups reported circulation gains. A survey in the under 10,000 group showed that more than one-half the papers represented, had shown gains of more than 25 per cent in the last 10 years.

Little Talk of TV
Publishers said there was comparatively little talk at the convention this year, as compared with recent years, concerning television competition.

It was reported that in some ways television was a boon to the newspapers. Some newspapers, by running special TV sections, gained circulation and additional advertising revenue.

Rising circulation, while due in part to the increasing population, were attributed largely to the production of better newspapers.

Some papers have stepped up their readership among teen-agers and even younger children by devoting special pages to school sports and other school activities. Some have increased their suburban coverage.

An increasing number are using color, both in advertisements and news sections.

An ANPA study showed that color is used by 977 of the nation's approximately 1,750 dailies.

Youth Is Handed 60-Day Sentence

KENNETT, April 25 (AP)—Kenneth L. Timmons, 24, Broken Bow, Neb., today was in jail here on a 60-day sentence for impersonating a law enforcement officer.

Gen. County Sheriff Tony Skoro said Timmons appeared at the sheriff's office and claimed to be a Nebraska law enforcement officer who had been sent here to pick up a prisoner.

Timmons told Skoro to call Nebraska authorities to check his identity.

The sheriff did call Nebraska authorities — and Timmons went to jail.

Freshman Royalty

King- and queen-elect of the freshman class at University of Idaho are shown relaxing for a moment between classes. They are Garth Brown, son of Mr. and Mrs. William G. Brown, Twin Falls, and Margaret Ann (Nan) Alvord, former Twin Falls resident now of Pocatello. (University press service photo—staff engraving)

Both Idaho Freshman Queen, King Come From Twin Falls

UNIVERSITY OF IDAHO, Moscow, April 25.—The newly elected king and queen of the freshman class at the University of Idaho have a lot in common—both are from Twin Falls and one of the queen's parents was the king's grade school teacher. The students met again at Moscow to become royalty.

Margaret Ann (Nan) Alvord, Pocatello, who attended Twin Falls schools until the eighth grade, was voted as the freshman choice for queen, and Garth Brown, Twin Falls, was picked as the number one male.

Daughter of Mr. and Mrs. David Alvord, Pocatello, whose family were early settlers in the Magic Valley area, the 19-year-old coed was ranked seventh in her class at Pocatello high school.

Miss Alvord is attending the university on a consolidated Frighthouse scholarship and is currently earning a B plus average in the face of numerous extra-curricular activities.

She has proved the apt selection as all-around girl at Pocatello high school and is now an assistant news editor of the Argonaut, student newspaper; a member of the year book staff and Vandalia drill team; appeared in one-act plays; is assistant social chairman of her sorority, Kappa Kappa Gamma, and has served on numerous campus committees.

A former president of student council and student body vice president at Twin Falls high school, Garth Brown, son of Mr. and Mrs. William Brown, 242 Lincoln street, Twin Falls, was ranked eighth in his class at Twin Falls high school.

is taking pre-dental studies at the university.
Stirling is listed as the favorite sport of the medium-sized athlete who lettered in football at Twin Falls.

His interest in the snow sport found him a member of the Idaho ski team competing against varsity squads of other northwest colleges and universities at Mt. Spokane. Brown has also served on several social committees including Beta Theta Pi fraternity.

RETIREES

CEDAR CITY, Utah, April 25 (AP)—Manager W. Pat Rogers of the Union Pacific railroad's Utah Parks company will retire May 1 from the job he has held since 1936. Rogers has been in charge of concessions in Utah park monuments since 1926. He managed the Sun Valley resort from 1938 to 1952.

Foreign Program Is Denounced by Former Governor

BOISE, April 25 (AP)—The foreign aid program and the pace of U. S. spending were denounced here Wednesday by John C. Vivian, former Colorado governor.

"We are in the position of having a republic if we can keep it," Vivian told 200 businessmen at a meeting sponsored by the Idaho citizens committee for the Hoover report.

Vivian noted the nation has spent 50 billion dollars on foreign aid since the end of World War I and said the U. S. proposes to "continue spending 4 billion dollars a year additionally unless the people do something about it."

He said citizens have been "pusy-footing" with taxes and government debt.

Following a luncheon the Idaho Chamber of Commerce sponsored the sixth in a series of regional meetings for discussion of Idaho's tax problems and forming of a tax program.

Local Couple to Observe Golden Anniversary Day

Mr. and Mrs. George J. Ward will observe their golden wedding anniversary Sunday.

Honoring their parents, the family will hold open house from 2 to 5 p. m. and 7 to 9 p. m. Sunday at the family home southwest of town. All friends and neighbors are invited.

Mr. and Mrs. Ward were married April 10, 1907, in the LDS temple at Salt Lake City.

The first five years after they were married they lived in Almo, the hometown of both. With the

Care of Your Children

By ANGELO PATRI

The goal of all thoughtful parents is the liberation of their children from outside control, to so train them that they will take over the details of their daily living without making too many mistakes or too costly ones. To do this requires well planned and thoroughly carried out programs of many kinds because life has many fields of activity. Among the first and most pressing, as well as most lasting, is the getting and spending the use of money.

The time must come when a young person must manage this on his own responsibility, and unless he has been trained by personal experience he will be likely to make serious mistakes. Only first-hand experience will teach him the hard facts of personal finance. To earn a little, to spend a little less, to be happy was Stevenson's idea about it.

Children put it another way: "To have a shilling and spend twelve happy pennies is disaster." The hard fact of using money wisely carries with it the experience of centuries. Yet so many of our young people are unaware of it. Their parents did not allow them the privilege of learning it by personal experience.

"My goodness, here he is in college and he can't balance a checkbook. How in time is he ever to run a business?" When I ask him if that he did not know how to balance a checkbook or to stay inside his allowance?

If he had been taught to balance his mother's checkbook which told the story of the family's getting and spending for daily living, he would not only have learned how to balance the book but he would have learned about the cost of the things he enjoyed, about how much money there was to be spent for the household and how his mother and father had planned for the present and the future expenses of the family.

Some parents are unwilling to take their children into confidence about such things, but that knowledge is essential to the understanding and cooperation of the children. It is essential to the unity of the family. And it is essential to the children's growth in self-direction, self-control, and their ability to learn to earn, spend and save intelligently.

The wise use of money enters into every branch of family life. Into every field of human activity. Yet too often, we send our children out into the workaday world without the equipment to meet its pressures. That is unfair to the young people and will result in unhappiness to their elders.

Reading stimulates thinking, develops character and affects behavior. Every child should benefit by reading good books. Dr. Peter's booklet "P.A. Book List" includes the 50 books which are the best of all. To obtain a copy, send 18 cents in stamps to P.A. Book List, P. O. Box 19, Staten Island, New York 10, N. Y.

Milk Production For Idaho Down

production was down slightly last year compared to the two years preceding, the U. S. department of

The department noted, however, that the 1956 total of 1,494,000 pounds was greater than for any year prior to 1954.

The reason for the decline, the department said, was that Idaho farms averaged about 2 per cent fewer milk cows per farm than they did in 1955.
