

# Smylie Says Others After State Water

POCATELLO, April 29 (U.P.)—Gov. Robert E. Smylie today warned the Idaho Reclamation association that Idaho's life-blood water supply is being coveted by at least three more states. The governor, addressing the opening session of the association's annual meeting here, asserted Colorado "dreams" of diverting water from the head of the south fork of the Snake river into her own Green river for further diversion to fill commitments to California and Arizona.

## Normal

Temperatures will be normal for the earlier part of the five-day weather forecast for Magic Valley with a cool front moving in late Wednesday.

"At least we're getting the feeling of spring," commented the reporter. "I've heard the following forecast:

"Temperatures averaging about normal through the middle of the beginning but a marked cooling about Wednesday. Maximum temperatures in the 60's, lowering to the 50's and low 70's. Minimums in the 50's, lowering to 30's and about Wednesday. The report was mostly concerning about Wednesday and Friday. Total amounts 10 to 20 of an inch."

(Probably.)

on all our available water, we may face the day when we'll regret our complacency," he warned.

The reclamation scandal was to continue through tomorrow.

Today's scheduled speakers were Harold Nelson, regional director of the bureau of reclamation; Col. Myron Page, Jr., representing the army corps of engineers; state rec-

## GOP on Verge Of Rows Over Modern Ideas

WASHINGTON, April 29 (AP)—One of the questions now being batted around in Republican circles is: How will the scrap over "modern Republicanism" affect the future of Vice President Richard M. Nixon?

Some of his fellow Republicans in Congress depict him as a man treading a path of caution. They view him as an administration agent presiding over a program which raises a significant rift in the party. They also see him as one who is not eager to join the debate over "modern Republicanism."

During more than four years as Vice President, Nixon has not stayed in his public statements from policy lines set by President Eisenhower. But he has made no major policy speech since last December.

Meanwhile many of his party have been basking at each other about whether they are modern Republicans or just plain Republicans. The President's record peace-time budget and the programs it envisages are off something approaching a civil war between segments of the GOP.

It is a safe bet Nixon will do nothing to separate himself from the policies of the administration. But some of his friends doubt he is enthusiastic about use of labels like "modern" and "up to date" which stir resentment among Republican conservatives.

They believe the Nixon approach would be to spell out his program on a specific issue and fight for it without suggesting there are two kinds of Republicans dwelling in segregated camps.

The President himself has not shied away from using the term "modern Republicanism."

"He has had more friends in the conservative wing of the party than among the liberals who are now closely identified with the administration. The conservatives rallied behind him last year whenever there was a whisper of high he might not be renominated with Eisenhower."

This support was solidified when presidential aide Harold E. Stassen publicly assumed leadership of the abortive attempt to knock Nixon off the Republican ticket.

While Nixon is expected to keep himself identified with the Eisenhower administration, a different course is indicated for Senate GOP leader William F. Knowland, Nixon's fellow Californian and potential challenger for the 1960 presidential nomination.

Knowland seems to be drifting steadily toward a position of opposition to the administration. He has been a frequent critic of administration foreign policy whenever he thought the executive branch was taking too soft a line toward international communism. More recently he has thrown punches at the administration's domestic policy.

He was the first Republican of comparable stature to call for a substantial reduction in the budget, which is the heart of any administration's policy. However he has not yet repudiated any of the specific domestic programs of the administration.

Knowland was ready to try for the presidential nomination last year before Eisenhower became a second term candidate. He was then prospective heir to support from the more conservative backers of the late Senator Robert A. Taft. He can expect more of this support if he becomes a symbol of Republican opposition to administration domestic policies.

Knowland has announced he will not seek reelection to the senate next year. To be a major contender for the 1960 nomination he presumably must run for and win the California governorship in 1958. So far he has neither put himself in nor ruled himself out of the contest for the governorship.

## Gem State Auto Dealers Slate Annual Conclave at Pocatello

POCATELLO, April 29—George S. Fiedler, Bell Lake City, president of the First Security corporation, will deliver one of the main addresses at the 22nd annual convention of the Idaho Automobile Dealers association here Sunday through May 7.

C. Ed Fiedler, Pocatello, general convention chairman and director of the association, said 400 dealers and their wives are expected to attend sessions in the Bannock hotel. The convention will open Sunday with a golf tournament for members, a finance company, bank and automobile manufacturers' representatives.

Opening sessions will begin at 10 a. m. May 8 with the welcoming address by L. W. Brinard, Pocatello Chamber of Commerce president. An address is planned by Frank Bonington, Nampa, association president.

Speakers, in addition to Fiedler, include Charles L. Jacobson, Detroit, vice president and director of the Chrysler corporation; Walker Williams, Dearborn, Mich., vice president, Ford Motor company; Dean Griffin, Bloomington, Ill., president, National Automobile Dealers association; P. J. Crowley, Detroit, administrative assistant to the executive vice president; General Motors corporation; and Milton W. Holt, Pocatello, Idaho State college boxing and track coach.

A complete program is planned for dealers' wives.

Officers and directors of the association in Magic Valley are: Pocatello, C. Ed Fiedler, national director; Kenneth Curtis, Buhl, district vice president; Robert E. Carlson, Twin Falls, Bus Group, Rupert, and Chalmers Martin, Shoshone, directors.

## 1958 Start Seen On Dam Project

IDAHO FALLS, April 29 (AP)—Henry Dvonchak, R. Ida., said during a week-end visit here that he expected a construction start on the 10 million dollar Burns creek dam in 1958.

The Burns creek project would grow from a re-regulating dam downstream from the Palisades dam on the south fork of the Snake river.

Don't Neglect Slipping FALSE TEETH

Do false teeth drop, slip or wobble when you talk, eat, laugh or sneeze? Don't be annoyed and embarrassed by such hand-pieces. ## Resident of Bliss Captures Honors For Model Plane

BOISE, April 29 (AP)—Gene G. Admon, Bliss, yesterday won the open class prize for construction of the best model airplane entered in the annual Idaho model airplane contest here.

Admon's scale model of a Boeing P-26A was complete to the point of throttle handles and miniature map in the cockpit. Judging was based entirely on workmanship.

The three judges, all officers of the air force or air national guard, also selected Admon's model as the best in the show.

Kent Ober, Boise, won the senior class prize for model-builders 12 to 16 years of age.

First prize in the junior class for youngsters under 12 years was awarded to Austin Branson, Rupert.

Winners of the special competition for plastic models were Don Thomas, Pocatello, in the open class; Ned Brewster, Boise; in the senior class; and Michael Jones, McCammon, in the junior class.

### EISENHOWER'S PROGRAM

Most of the complaints against congress for inaction have been leveled to lay the blame on the administration's failure to press hard for its programs. But evidently Sen. Lyndon Johnson, senate majority leader, takes the criticisms as if directed primarily at the lawmakers.

He cites some figures to refute the "do-nothing" charge—229 separate bills and resolutions passed by congress, with an average of four and a half a day up to the Easter recess as against three and a half in 1955 and still fewer in 1953.

The critics appear to be unimpressed with mere statistics. They insist that only two major bills have been passed, the Eisenhower Middle East doctrine, a resolution, and the measure extending corporate and excise taxes.

The great bulk of the year's backlog of legislation still rests in congress. The senate, though, is not in a hurry to approve a single appropriation proposal for the 1957-58 period.

Some might argue that congressional inactivity actually is a good thing, that there are periods when the quality of government work is better than when it is busy. But need not be measured by bills passed, and in any event congress is often accused of approving far too many bills.

It is almost certainly true that the lawmakers in any session pass too many measures, though congressional and other reforms could eliminate the necessity for considerable numbers of them. Major bills are something else.

A good many would also say there is some sense in the idea that congress and the administration do not have to justify their existence every year by whipping legislation through the mill at a great rate. It is in this sense that the Eisenhower administration has set itself several legislative goals in such fields as foreign aid, civil rights, aid to education and small business, and so on. Observers looking at congress are bound to note any wide discrepancy between what the lawmakers do and what the President and their own leaders have suggested they do.

### PLAGUE FOR FARMERS

We have heard a great deal, with good reason, about the ravages of prolonged drought in the Plains States and the Southwest. Only recently have we begun to appreciate the gravity of a new and spreading menace to the nation's supply of food and fibers and the well-being of its farmers.

The menace is the Argentine fire ant, a yellow-orange insect with a vicious red-hot sting and a destructive capacity for building 16-inch-high mounds in colonial numbers on the fruitful farmland. One mound contains some 25,000 ants. An acre may find 60 to 70 mounds, with a total of perhaps 1,500,000 ants.

Thus far fire ants have spread across some 20 million U. S. acres in Texas, Louisiana, Mississippi, Alabama, Georgia, Florida and scattered spots in Arkansas and the Carolinas. Where they infest the land, crops do not grow and both human beings and animals can suffer from their sting.

Alabama alone has 50,000 acres under the fire ant scourge. Authorities estimate that damage in 37 counties this year will come to more than 25 million dollars. One forecast was that at the present rate of spread every tillable acre in the state would be infested in three years.

From experts it is learned that the plague soon will spread north to dairy, corn and wheat lands. At its present pace it might reach Pennsylvania and New York within a decade or less. A few hundred ants transported to northern areas could multiply into a major threat in a few years.

Controlling the menace is expensive and difficult. Control with chemical eradicates can cost \$5 to \$15 an acre. Most farmers cannot bear such a load on top of normal expenses.

### DULLES' WEAK POSITION

In backing down somewhat on his ban on U. S. newsmen going to Red China, Secretary of State Dulles did not exhibit much grace or, for that matter, logic.

He said a "limited number" of reporters would be allowed to enter mainland China, but he chided the nation's news organizations for not coming up with any good ideas as to how a selected few might be chosen.

There seems to be no reason in the world why the country's publishers and editors should assist Dulles to this extent.

The evidence suggests that he is trying to get off an unpopular, weakly held position, namely, the Red China ban, and the shift to a "limited number" is simply a face-saving device. It seems to say that a "partial clearing" of the conditions that required the ban has now occurred.

In fact things are about as they were when it was first imposed. There is no particular logic in letting a few newsmen enter China, hence no especially sensible way for either Dulles himself or the newspapers to choose candidates.

By his present proposal the secretary now has conceded his original position was untenable. The only sane thing to do is go whole hog and remove all restrictions on American news coverage in Red China.

## TUCKER'S NATIONAL WHIRLIGIG

WASHINGTON—The administration's earlier fears of a serious business decline in late 1957 have vanished as a result of a study of economic trends during the last four years of the year. In fact, the study has led to the belief that the present level of prosperity will hold through 1958.

There will be neither a dangerous inflation nor a deflation, according to the official viewpoint. To employ a metaphor, the economic picture is not sharply up or down, but horizontal or sideways. Prices will remain steady, even if a bit higher, but a rise in personal income will enable consumption to keep pace without too much hardship.

An extremely optimistic factor is the people's apparent confidence in the government's economic policy. They are willing to go into debt, for the total of consumers' credit—installment buying and borrowing—has reached a record peak. They are spending more than they are saving, but even so, they are putting away, percentage-wise, more money than they were a year ago.

MORE SPENT FOR LIGHT GOODS—As evidence of revolutionary changes in habits, they are spending more for light goods and services than for durables. Their postwar supply for clothing, travel, recreation, entertainment, communications and furniture has not yet worn out enough to need replacement.

Higher wages, greater leisure time and fashion changes account for this amazing fact—namely, that more people are required to satisfy personal needs than to manufacture commodities. They are spending more for general goods, such as food, clothing, recreation, entertainment, communications, etc., and similar semi-luxuries continues to surpass all records.

It is the economic kind of organic, nightclub and "wondering twinkle" that prevailed so recklessly in the "roaring twenties." It provides a more solid foundation for the general goods industry. It furnishes employment for millions of workers, hard-working Americans rather than for Al Capone's bootlegging and allied criminal enterprises from coast to coast.

AN IMPRESSIVE ANALYSIS—Another important economic change is emphasized by Gabriel Haver, President Eisenhower's chief economic adviser, as he surveys the business situation and anticipates forward prospects. His analysis has impressed industrial, business and financial leaders here and abroad.

Haver points out the American economic system has changed so radically in the postwar period that a setback on one or more sectors cannot have a serious or adverse effect on the overall business system.

While complete automation, steel, textiles, coal—may have to make temporary adjustments in output, inventories and purchases of labor and materials—most "shockwaves" in the industrial sector, other segments simultaneously operate at full or even greater capacity. In short, no weakening of a single "crutch" force, a threat, or the whole front.

INDUSTRIAL PLANT EXPANSION—Residential construction, for instance, is expanding. So are the automobile, electric appliance and textile industries, although, perhaps, only seasonally. All are cutting down on production and inventories.

While complete automation of the industrial plant will exceed 1955 dollar figures. The government—federal, state and local—will spend more than 100 billion dollars on highways, schools, hospitals, water systems, power plants, etc.

Aircraft, electronic and pushbutton weapon manufacture is also expanding. The government's backlog of orders after a long period of inactivity.

Exports are rising moderately. Pinally, money spent on soft goods, personal services and summer and fall travel will furnish solid support on many fronts.

They are willing to go into debt, for the total of consumers' credit—installment buying and borrowing—has reached a record peak. They are spending more than they are saving, but even so, they are putting away, percentage-wise, more money than they were a year ago.

MORE SPENT FOR LIGHT GOODS—As evidence of revolutionary changes in habits, they are spending more for light goods and services than for durables. Their postwar supply for clothing, travel, recreation, entertainment, communications and furniture has not yet worn out enough to need replacement.

Higher wages, greater leisure time and fashion changes account for this amazing fact—namely, that more people are required to satisfy personal needs than to manufacture commodities. They are spending more for general goods, such as food, clothing, recreation, entertainment, communications, etc., and similar semi-luxuries continues to surpass all records.

It is the economic kind of organic, nightclub and "wondering twinkle" that prevailed so recklessly in the "roaring twenties." It provides a more solid foundation for the general goods industry. It furnishes employment for millions of workers, hard-working Americans rather than for Al Capone's bootlegging and allied criminal enterprises from coast to coast.

AN IMPRESSIVE ANALYSIS—Another important economic change is emphasized by Gabriel Haver, President Eisenhower's chief economic adviser, as he surveys the business situation and anticipates forward prospects. His analysis has impressed industrial, business and financial leaders here and abroad.

Haver points out the American economic system has changed so radically in the postwar period that a setback on one or more sectors cannot have a serious or adverse effect on the overall business system.

While complete automation of the industrial plant will exceed 1955 dollar figures. The government—federal, state and local—will spend more than 100 billion dollars on highways, schools, hospitals, water systems, power plants, etc.

Aircraft, electronic and pushbutton weapon manufacture is also expanding. The government's backlog of orders after a long period of inactivity.

Exports are rising moderately. Pinally, money spent on soft goods, personal services and summer and fall travel will furnish solid support on many fronts.

## That's So!

WASHINGTON—The administration's earlier fears of a serious business decline in late 1957 have vanished as a result of a study of economic trends during the last four years of the year. In fact, the study has led to the belief that the present level of prosperity will hold through 1958.

There will be neither a dangerous inflation nor a deflation, according to the official viewpoint. To employ a metaphor, the economic picture is not sharply up or down, but horizontal or sideways. Prices will remain steady, even if a bit higher, but a rise in personal income will enable consumption to keep pace without too much hardship.

An extremely optimistic factor is the people's apparent confidence in the government's economic policy. They are willing to go into debt, for the total of consumers' credit—installment buying and borrowing—has reached a record peak. They are spending more than they are saving, but even so, they are putting away, percentage-wise, more money than they were a year ago.

MORE SPENT FOR LIGHT GOODS—As evidence of revolutionary changes in habits, they are spending more for light goods and services than for durables. Their postwar supply for clothing, travel, recreation, entertainment, communications and furniture has not yet worn out enough to need replacement.

Higher wages, greater leisure time and fashion changes account for this amazing fact—namely, that more people are required to satisfy personal needs than to manufacture commodities. They are spending more for general goods, such as food, clothing, recreation, entertainment, communications, etc., and similar semi-luxuries continues to surpass all records.

## Four Men to Paddle Canoe Across Nation

DENVER, April 20 (AP)—So far as anyone knows, the canoe is the oldest form of man-powered transportation in North America. Eastern Indians paddled birchbark canoes long before western redmen straddled horses that escaped from Spanish explorers.

Now four sleek young men—all single—are about to tackle what they think is the longest canoe trip ever attempted in this country.

They'll paddle away from Denver Wednesday morning in two "stims," their destination Old Town, Me. They'll travel 4,500 miles before getting there and figure it will take six months.

**Voyagers.**

Here are the voyagers: Ed Vestal, Champlain college graduate; Bengt (Red) Soderstrom, 32, a native of Stockholm, Sweden; Gerald Brewer, 27, New Hampshire university graduate from Cape Elizabeth, Me.; E. G. Rickers, 29, University of California geology graduate.

Their planned route is from Denver down the South Platte river to its confluence with the North Platte in west-central Nebraska, then down the Missouri river past Kansas City, Jefferson City and St. Louis, where the "Big Muddy" joins the Mississippi.

**Longest Stretch**

At this point, the canoeists will take on their longest stretch of upstream paddling with the probability that the Mississippi will be at its highest.

After leaving St. Paul, the explorers will paddle in the St. Croix river before a major portage takes them to the St. Lawrence. Then will come Lake Superior and Lake Huron and the French river, the "Great Trace" of the old Northwest Fur company adventures.

**Mighty St. Lawrence**

This will lead the four backdroppers to the Mattawa and Ottawa rivers and the mighty St. Lawrence. At Quebec they will paddle into the St. Lawrence, to its headwaters at Portage lake.

There the quartet will shoulder their canoes and head for Maine and Penobscot lake. Through many lakes and lovely countryside, the Penobscot river system will guide them into Old Town.

**Completely Outfitted**

Each canoe will be outfitted at the start with 40 pounds of food, a 12-gallon canteen of water, sleeping bags and rubber sheets which can be used to sleep on or as sails.

And when they get to Maine: "Well, if we can still stand the sight of each other for one more night," said Rickers, "we are going to throw a party that should be long remembered."

## Bows to Ball

STEVINGTON, England, April 20 (AP)—The Rev. G. Westerdale Bowler bowed to American television star Lucille Ball, eight unseen, yesterday and said he will hold his Sunday night church services hereafter in the afternoon.

The pews in his church have remained almost empty since the popular television show "I Love Lucy" was introduced to British TV fans on Sunday nights. "I don't have a set and have never seen Lucy," the Rev. Bowler said.

## New Look

WASHINGTON, April 20 (AP)—Washington insiders report that a "new look"—United States military program will get under way soon. It will mean more emphasis on missiles and similar weapons.

Possibilities: a cut in army strength by one or two divisions and a 300,000-man cut in the armed forces over the next three or four years.

the 1568 mile Mobilgas Economy Run

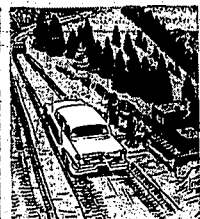

## proving ground for 1957 Mobilgas Special the superfuel

Like any proving ground, the Mobilgas Economy Run is tough... rugged mountain passes... long stretches of open road... light town traffic... every kind of weather. Result: Official average mileage for these high-horsepower 1957 cars was 20.4 miles per gallon using Mobilgas Special superfuel.

On the open road at maximum legal speed, these high-horsepower cars chewed up the miles smoothly, economically. All cars reported quiet, dependable power every moment. Fuel-power octane in Mobilgas Special paid off with safe passing on high speed highways.

In the Sierra Nevada, Mobilgas Special leveled steepest grades with smooth, knock-free power, less shifting. Whatever the weather—snow, sleet or sunshine—this superb fuel lived up to its name with trouble-free performance.

In town traffic, Mobilgas Special with its MC additives provided clean, quick getaway from stop signs. Easy starting, quiet idling, smooth getaways were all there when needed. Try 1957 Mobilgas Special. Superfuel in your high-horsepower car today. At your Mobil dealer.

1957 Mobilgas Special... the superfuel

### Writer Tries For Passport To Red China

WASHINGTON, April 29 (AP)—Newman William Worley, who was refused a new passport after he had been refused an old one, today tried to persuade the state department to re-examine itself and grant him the passport.

He presents his case in a hearing before the state department passport office. The controversy may eventually wind up in the courts if the department stands firm against renewing Worley's passport.

Worley was one of three American newsmen who last year went to Red China despite a flat ban against all American travel to the Chinese mainland. The others were Edmund Stevens and Philip Harrington of Look magazine.

Worley, an employee of the Baltimore Afro-American, applied for a new passport after his return to the United States. He was refused, and he has been told that he must wait until he is given a passport good only for return to the United States when he is ready to leave the Soviet Union.

Harrington is back in the United States. His passport has expired.

Presses reported by new organizations to allow American newsmen to go to Red China. Secretary of State John Foster Dulles said last week he would be willing to let a limited number of reporters go to Communist China temporarily on a "pool" basis.

But he said no satisfactory arrangement has been worked out, and he would not let a single reporter go to Red China without lowering the general barrier against American travel to the Chinese mainland.

Editor and publisher magazine, publication of the newspaper industry, has said there is no need to limit the number of newsmen going to Communist China since only a few news organizations either want or need to have the Soviet permanent correspondents there.

### Reds Charged With Seeking Nuclear Lead

BONN, Germany, April 29 (AP)—West Germany charged Soviet Russia today with seeking a monopoly of nuclear weapons with the aim of permanently enslaving Europe.

In a strongly worded statement to news conference here, Foreign Minister Heinrich von Brentano declared that Russia has tremendous superiority in new weapons of the atom.

He asserted that it is only the atomic bomb which could check the advance of the Soviet Union, which he said was seeking a monopoly of nuclear weapons with the aim of permanently enslaving Europe.

He asserted that it is only the atomic bomb which could check the advance of the Soviet Union, which he said was seeking a monopoly of nuclear weapons with the aim of permanently enslaving Europe.

### Defendants Will Face Court Over Italy Death Case

FADUA, Italy, April 29 (AP)—A Communist fugitive from justice made an unexpected appearance in court here today to stand trial for murder and theft of a diamond ring of Benito Mussolini's multi-million-dollar fortune.

Dante Corri, who had succeeded in eluding Italian police since 1953, was one of 17 defendants present in court. Eighteen others named in the indictment failed to appear.

The trial is expected to last four or five months. More than 300 witnesses are scheduled to appear, including Mussolini's widow, three of their children and the sister of his murdered mistress.

The Fascist dictator and his mistress, Clara Petacci, were shot yesterday by German troops 12 years ago in a German prison. The German government was trying to smuggle them out of the country.

No one is certain what became of the "diamond treasure," some \$60,000 worth of gold and several million dollars worth of Italian, British, Spanish and Swiss currency that Mussolini was carrying with him.

### START IN 1958 IDAHO FALLS, APRIL 29 (AP)—

Henry Dworshak, R., Ida., said today construction is expected to begin in 1958 on the 40 million dollar Burr Creek reservoir on the south fork of the Snake river near here.

## Bureau Okays Idaho Power's Plan of Notes

WASHINGTON, April 29.—The Federal power commission has authorized the Idaho Power company to issue up to \$40 million in bonds as the principal amount of a \$100 million program to build a new power plant in the Snake river area. The money will be bank loans, evidenced by securities, probably a maturity of six months after the date, and not to exceed one year after the date of issue. Proceeds obtained from the note will be applied to Idaho Power's current construction program, which is estimated by the company to require \$47,184,000 during the current year.

Of that amount, the company said approximately \$30,881,800 will be used to carry forward the construction of the Browline dam on the Snake river, now in progress. Approximately \$17,302,200 will be spent on transmission facilities and substations associated with the Browline project. The remainder will go for other company activities.

## Unions Asked To Cooperate With Owners

WASHINGTON, April 29.—John G. Coleman, president of the U. S. Chamber of Commerce, said today that labor "should be friends" with management and stop advocating legislation "that would hurt business."

Coleman told delegates to the chamber's 46th annual meeting that labor and management together "could advance the well-being of the country." He said "it is foolishness to work at cross purposes."

Coleman also urged labor to clean its house because it is "standing before the bar of public opinion" as a result of the senate racketeers committee investigation.

Nixon to Speak

Vice President Richard M. Nixon planned to greet the delegates later today. Speeches also were scheduled by business and government leaders during the three-day meeting.

Coleman said in a keynote speech prepared for delivery at the opening session that "everybody in the country is feeling the impact" of the senate committee investigation.

Full Cleaning Job

"Labor today is promising to reach for its own broom and sweep clean its house," he said. "I hope so."

But the chamber president said a "full cleaning job will demand more than sweeping out racketeering and violence. He said unions should demand an end to the "indefensible secondary boycotts and a recognition that right-to-work laws have a moral basis."

LOSING POWER

NEW YORK, April 29.—Democratic National Chairman Philip M. Butler says the party has been losing strength in big city areas since 1944.

Present Awards

At an awards dinner tonight, Coleman will present the chamber's "great living Americans award" to this year's nine winners.

Those honored will be movie director Cecil B. DeMille; former ambassador Clare Boothe Luce; Olympic sprinter Bob Jones; former air force test pilot Lieut. Col. Frank K. Everett; labor columnist Victor Riesel; Treasury Secretary George M. Humphrey; physicist Dr. William C. C. Menninger; actor Norman Rockwell; and experimental farmer J. J. Warren.

## Gleemen Sing

SHOOSHONE, April 29.—The Boise Elks Oleomen presented a concert at the high school gymnasium Friday evening under sponsorship of the Rotary club.

Following the program, members of the Rotary club served refreshments at the school home economics room. Rupert Manning, president, gave the address of welcome. E. J. Shaw was in charge of tickets and Herb Love distributing programs.

UNVEIL STATUE

SEOUL, April 29.—Inchon has been selected as the site for General Douglas MacArthur's statue in Korea. The bronze figure will be unveiled Sept. 16, commemorating the day U. S. forces made an amphibious landing at Inchon seven years ago and launched a counter-offensive against the Reds.

## TOP SALESMAN WANTED

one of our men who earned in excess of \$10,000 dollars in sales last year and whose goal was in excess of \$20,000 dollars this year, has been promoted to one of our larger stores.

If you have a record of high earnings in sales work, we will be interested in talking to you.

See Mr. Vaughn, Mgr. Sears, Roebuck & Co.

## Bliss Delegate

JAMES MORRIS  
... is being sponsored by the Bliss Rod and Gun club and the Bliss PTA to Boys' state this year. He is the son of Mr. and Mrs. J. H. Morris, Bliss. (Staff engraving)

## Funeral Held for Manuel L. Adoff

BOULDER, April 29.—Funeral services for Manuel L. Adoff were conducted Saturday afternoon at St. John's Lutheran church with the Rev. A. Reimnitz, pastor, officiating.

Musical was furnished by the Clover quartet, assisted by the organ. Played the prelude and postlude. Henry Lutz and Emil Hahn were in charge of the memorial service.

Honorary pallbearers included E. J. Perlegh, Herman Reinke, Ernest Reinke, William Lutz, Theodore Gehle, Ernest Meyer, Roellie Hahn and George Mohr.

Active pallbearers were Marvin Mathiesen, Robert Sherman, Walter Keizer, Glenn Keizer, Edward Doherty and Arthur Adoff.

Concluding rites were held at the Clover cemetery.

## Blow-up

LONDON, April 29.—Don't be surprised if there is an anti-British blow-up soon on Malta, the tiny Mediterranean island which was a vital bastion in World War II. It won't be aimed against British rule. Malta wants to be incorporated into the United Kingdom, like northern Ireland.

It would be represented in Parliament. The British government is agreeable to that. But Maltese Prime Minister Dom Mintoff demands that all Maltese get the same socialized medicine, unemployment and other social benefits that Britons do. That would cost a lot of money.

NEW YORK, April 29.—Democratic National Chairman Philip M. Butler says the party has been losing strength in big city areas since 1944.

See Mr. Vaughn, Mgr. Sears, Roebuck & Co.

## Five Aids of Ike May Quit Cabinet Jobs

WASHINGTON, April 29.—Five members of President Eisenhower's cabinet may resign soon, according to informed GOP circles.

Secretary of Defense Charles E. Wilson and Treasury Secretary George M. Humphrey, previously have been reported ready to return to private life.

The GOP circles said the three other cabinet members who may quit soon are Secretary of State John Foster Dulles, Secretary of Commerce Sinclair Weeks and Postmaster General Arthur E. Summerfield.

Will Stay on

Wilson and Humphrey were expected to stay on until after the outcome of the congressional fight over appropriations, defense and taxes. Wilson's resignation has been rumored, and denied, for months.

Reports that Humphrey is leaving sprang up again last week and the treasury secretary himself dropped a strong hint that he plans to resign soon. Humphrey said it was well known that he had been in the cabinet much longer than originally planned.

## Wins Spuds

ST LOUIS, Mo., April 29.—Mrs. Dee Sweet's potatoes—the Maine variety—should bring her close to \$500 during the coming year.

Mrs. Sweet, an Indianapolis housewife, won an acre of the New England spuds at a convention of women broadcasters yesterday.

## New Entrant

WASHINGTON, April 29.—Tom Flynn, head of the eastern conference of teamsters, is being named as a new possibility to succeed embattled Dave Beck as president of the world's largest union.

Washington hears that union Secretary-Treasurer John English and James E. Hoffa, who was regarded as Beck's crown prince until his indictment for bribery, feel Flynn would be acceptable in the No. 1 post.

SECOND INSTALLMENT

KARAGHI—April 29.—Four thousand tons of pig iron and steel billets have arrived from Russia. It was the second installment on 14,000 tons of Russian iron and steel bought under a trade agreement signed last year.

## Anniversary

ROME, April 29.—The 12th anniversary of Dictator Benito Mussolini's violent death at the hands of Italian partisans passed unremarked in Italy yesterday except for nostalgic displays in Rome's two fascist newspapers.

Both fascist papers carried front page pictures of the square-jawed dictator. The caption under one of the pictures read "Inauspicious day for Italy." The other said "He never died in the hands of Italians."

## Girls' Stater

CLAUDIA FLOYD  
... daughter of Mr. and Mrs. Robert Floyd, Bliss, will represent Bliss at Girls' state this year. She is being sponsored by the Sun-shine club and the PTA. (Staff engraving)

## Wins Spuds

ST LOUIS, Mo., April 29.—Mrs. Dee Sweet's potatoes—the Maine variety—should bring her close to \$500 during the coming year.

Mrs. Sweet, an Indianapolis housewife, won an acre of the New England spuds at a convention of women broadcasters yesterday.

## New Entrant

WASHINGTON, April 29.—Tom Flynn, head of the eastern conference of teamsters, is being named as a new possibility to succeed embattled Dave Beck as president of the world's largest union.

Washington hears that union Secretary-Treasurer John English and James E. Hoffa, who was regarded as Beck's crown prince until his indictment for bribery, feel Flynn would be acceptable in the No. 1 post.

SECOND INSTALLMENT

KARAGHI—April 29.—Four thousand tons of pig iron and steel billets have arrived from Russia. It was the second installment on 14,000 tons of Russian iron and steel bought under a trade agreement signed last year.

## Reporters on Medical News To Get Honor

NEW YORK, April 29.—The Albert and Mary Lasker foundation announced today the winners of the awards for outstanding reporting on medical research and public health during 1956.

The Albert-Lasker medical journalism awards will be presented on May 1 to:

Robert S. Bird of the New York Herald Tribune for a series of articles on rising trends of venereal disease among teen-agers and adults.

Roland H. Berg, medical and science editor of Look magazine for an article, "The state of the nation's health."

The public affairs department and Columbia broadcasting system and station WCBG-TV, New York for the documentary television production "Out of Darkness and The Wassie" dealing with mental illness and mental retardation.

The award lunch will be held at the Ambassador hotel here with Jack R. Howard, president and general manager of the Scripps-Horn and newspapers and an awards program, presiding, and Basil O'Connor, president of the National Foundation for Infantile Paralysis, and Rep. John Farnsworth, D., R. I., as speakers.

## Angling

BERLIN, April 29.—Soviet Russia is angling for an invitation to one of its top leaders to visit Chancellor Konrad Adenauer. The Russians say it would be nice if a top-ranking man went to Bonn to sign the Russo-German trade agreement which is to be negotiated sometime in May.

The real reason they are worried over the prospect that the West German army will get tactical atomic weapons and they fear that the Western allies may back Adenauer in a new drive for German unification.

GEORGE SCHISLER  
... son of Mr. and Mrs. Edward Schisler, Richfield, will represent Richfield at Boys' state this year. "Ronald Campbell," son of Mr. and Mrs. Howard Campbell, is alternate. Schisler is being sponsored by the American Legion. (Staff engraving)

## Awards Given to Shoshone Scouts

SHOOSHONE, April 29.—"Bible Family Robinson" was theme of the Cub Scout pack meeting here Thursday night at the high school building.

Howard E. Adkins presented awards to Michael Gray, bear leader; Billy Bliss, wolf leader; Jerry Alexander and Dick Baumann, gold arrows and Michael Baranec, silver arrow.

The meeting was conducted by the Rev. Ralph A. Lawrence, chairman of the sponsoring organization committee. Thomas Heller is Cubmaster. Weather permitting, the May meeting will be held at the city park.

## Ask Exact Time

DES MOINES, Ia., April 29.—State police today sought clarification of Iowa's new 60 mile per hour night speed limit.

A law that becomes effective July 4 says the limit will apply from sunset to sunrise. But because of seasonal variations in the hours of light, the attorney general will be asked to give drivers a more exact time during which the law will apply.

## Bad News

PARIS, April 29.—Paris expects the French taxpayer to get some bad news tonight when Premier Guy Mollet makes a nation-wide broadcast on the financial situation.

The government is trying to find ways of slashing expenditures by about \$718 million in order to reduce a threatened \$3 billion deficit in the 1957 budget.

Mollet may announce increased taxes on higher incomes, higher corporation taxes, and higher sales taxes on such "luxury" items as television and radio sets.

## Dealers Give New Pickup Truck for Scout Camp Use

Alvin Jenkins, right, representing Chevrolet dealers in Magic Valley, hands Harold Gribble, executive director of Snake River Council, Boy Scouts of America, the keys to a new six-cylinder one and one-half ton Chevrolet pickup truck for use at Camp Cape Horn, 10 miles north of Stanley.

Stanley, during this summer encampment. Gribble says he expects 1,400 Boy Scouts to attend the camp during the seven-week period. The pickup truck is a gift from the Magic Valley Chevrolet dealers. (Staff photo-entouring)

## Dealers Provide New Truck For Snake River Scout Unit

Magic Valley Chevrolet dealers turned to the dealers and a new provided a new one and one-half ton Chevrolet pickup truck to Boy Scouts of the Snake River Council. The seven-week summer encampment will start July 7, with 1,400 Boy Scouts scheduled to take part in the activities. Dealers contributing the pickup were Jenkins Chevrolet, Magic Valley; Curtis Chevrolet, Buhl; Leo Rice Motor company, Gooding; Hanzel Motor company, Burley; Ward Rawson Chevrolet, Shoshone; Herman Chevrolet, Hailu; Rice Chevrolet, Inc., Jerome; and Hanzel Chevrolet company, Rupert.

## LDS Group Urged To Retain School At Present Place

REXBURG, Idaho, April 29 (UP)—Representatives of the upper Snake river valley communities, at a week-end meeting here, adopted a resolution urging that Ricks college be kept at Rexburg.

The meeting was called after leaders of the LDS church at Salt Lake City had confirmed reports that the church-owned college might be moved to Idaho Falls.

Those who attended the meeting represented 20 civic organizations in the eight towns.

The resolution maintained there would be no transportation advantage in moving the school a mere 25 miles; the move would hurt Rexburg's economy; that investments had been made in the Rexburg area because information issued in 1954 indicated that the school would not be moved, and the change of location would cost five million dollars for replacement of facilities and the campus away from Rexburg.

## New Champ

WEISER, Idaho, April 29 (UP)—Lloyd Wanser of Caldwell is the new champion of Weiser's annual north-west fishing contest.

Wanser edged 11-year-old DeWayne Weir of McMinville, Ore., the youngest contestant in Saturday night's final.

Flower Beds and Peony Frames, at Globe Seed & Feed Co. Adv.

## 5 Idaho Men Are Named by Church

WASHINGTON, April 29 (UP)—Sen. Frank Church, D. Id., today announced his nomination of five Idaho men for appointment to the advisory committee of the national rivers and harbors congress.

The nominees were A. L. Alford, publisher of the Lewiston Tribune; State Senator Robert M. Weithers, Mountain Home; State representative George Crookham Jr., Caldwell; Everett C. Lott, Homedale, publisher of the Owyhee Chronicle; and State representative Gregg R. Polvin, American Falls.

Church said he had chosen the five men for nomination to the advisory committee because of their interest in flood control, navigation, irrigation and the conservation of water and soil resources.

## COMPLETES COURSE

BURLEY, April 29 (UP)—Pvt. Neal Bunn, son of Mr. and Mrs. W. A. Bunn, Burley, has been graduated from general equipment repair course in the quartermaster school at Ft. Lee, Va.

## Fines Reported

KING HILL, April 29 (UP)—Dale C. Oesch, Basin, Wyo., has been fined \$20 and \$3 costs by Justice of the Peace Lynn Sherman on a charge of failure to display dealer plates. Judge Sherman also has fined Domingo Alvarez, Pharr, Tex., on a charge of driving a vehicle with faulty equipment on it.

In other justice court action, Judge Sherman has fined Richard Minshall, Boise, \$10 and \$3 costs on a charge of carrying an overweight load on his truck and Virgil Hunter, American Falls, \$10 and \$3 costs on a charge of exceeding the weight registration for his truck.

## 4-H Club Meets

Jerry Dickard reported on Herefords at the meeting of the Shamrock Livestock 4-H club Friday evening at the home of Alvin Litch.

Call reports and the Purina best display were discussed. The next meeting will be at 7:30 p.m. May 24 at the home of Loyal Roundtree.

## Neighbors Reach Boy After Boast

LOS ALTOS, Calif., April 29 (UP)—"I'm going to hang myself," announced 17-year-old Peter Evans to a playmate.

He climbed on a box yesterday, tied a rope around his neck, tied the other end to the ridgepole of the playhouse they were in, and stepped out the window.

He nearly strangled before neighbors reached him in time.

## VISITING PARENTS

KING HILL, April 29 (UP)—Martin Anderson, Seattle, is visiting his parents, Mr. and Mrs. Karl Anderson.

## CLINIC SCHEDULED

KING HILL, April 29 (UP)—The second polo clinic will be held at the school gymnasium at 1 p.m. Tuesday.

## Speaker Informs Group of Duties

SALT LAKE CITY, April 29 (UP)—A speaker told a church conference yesterday it is the duty of the Christian layman to serve God and give Him the glory.

The remark was made by Dr. Oscar A. Benson of Minneapolis, Minn., as he addressed a final session of the Columbia conference of the Augustana-Evangelical Lutheran church. The conference includes Washington, Oregon, Idaho, Montana and Utah churches and Dr. Benson is national president.

He said persons should sublimize themselves to God, though this may

## prove difficult for many.

The Women's Missionary society of the conference conducted joint and separate meetings.

## BROTHER DIES

KING HILL, April 29 (UP)—Mrs. W. C. Smith has received word her brother, Emil Hufnagel, 66, known here as Bert Wade, died of a heart attack Thursday in Seattle. He was a former King Hill resident.

## Mother-Daughter Fete Is Reported

Pickett entertained the Miss Maids and their mothers recently.

Each girl was presented a rose emblem of their class, by their teacher.

Special numbers were a solo by Mrs. Bonnie Hunt, accompanied by her uncle, Welton Allen, and a piano solo by Mrs. Norman Hurst.

Special guests were Bishop and Mrs. J. Harry Darrington, Mr. and Mrs. Bert Scherer and Mr. and Mrs. Norman Hurst.

After the program each girl honored her mother by presenting her a rose.

# Magic Valley's Baptist Youths Hold Meetings

About 150 Baptist Youth Fellowship Association members from nine Magic Valley communities met for their annual spring rally here Sunday.

BYP members from Twin Falls, Jerome, Gooding, Rupert, Ellettsburg, Hailley, Castleford and Shoshone met Sunday afternoon at the Fellowship hall of the Twin Falls Methodist church.

Vaughn-Memmer showed a film, "Dead Men Tell No Tales." The address of welcome was given by Geraldine Mann, local BYF president, with Marilyn Smith, Filer, giving the invocation, and Karen Sloan, Twin Falls, reading the scripture theme.

The afternoon program included a piano solo by Linda Bonar, Bull; a vocal duet by Linda Gill and Jerry Duran, Jerome, and a concert given by Gale Owen and Linda Gray, both accompanied by Remy Barnes, all Castleford.

Other entertainment included a vocal solo by Don Lawson, Rupert, accompanied by Marilyn Routh, Twin Falls; a vocal duet by Marilyn Smith and Donna Jones, accompanied by Sue Ellen Lucas, all Filer; a piano solo by Mary Martin, Gooding, and a vocal solo by Jeanie Anderson, Twin Falls, accompanied by Remy Barnes.

Games were conducted in the city park by Castleford BYF members, followed by supper at the First Baptist church.

The Rev. Earl Brock, Baptist minister, gave a talk on missionary work in Assam at the evening session. The Rev. Gilbert Nye, associate pastor of the Twin Falls church, is general secretary to the group.

# Newspaper Panel Giving Warnings To Photographer

CHAPLIN, ILL., N. C., April 29 (AP)—A panel of southern newspaper photographers and editors has advised cameramen to "keep your mouth shut and your hands off" in covering news violence stories.

The group predicted an increase in such stories and said not all of them will be confined to the segregation issue. The group saw as other potential trouble areas strike zoning, use of unimpaired attempts and anti-communism.

The panel was headed by Editor C. A. McMillan of the Charlotte, N.C., News and Observer, and included former head of the southern reporting service that does research on the school segregation situation.

Young said photographers involved in a mob situation should "keep moving, keep your mouth shut and remember you're there to record news, not make it."

He said the group that editors should be aware that photographers are legally permitted to make pictures of any news event, and that individuals preventing them from doing so are liable for a law suit.

He said the group that editors should be aware that photographers are legally permitted to make pictures of any news event, and that individuals preventing them from doing so are liable for a law suit.

# Roach Terms Talk of Taxes As 'Nonsense'

NOISE, April 29 (AP)—Idaho Power company President T. E. Roach said today Sen. Frank Church, D., and other members of Congress were talking "partition nonsense" when they referred to Idaho Power's tax amortization certificates as a "tax write-off."

The office of defense mobilization has been issued the certificates to the power company to permit accelerated depreciation accounting for the costs of the firm's Brown and Oxbow projects on the Snake river.

Church, in a Saturday night Jefferson-Jackson day speech in Ohio, charged that the certification amounted to "nothing less than a federal subsidy to a private utility."

Roach replied today that Church's charges were "ridiculous."

"Senator Church and these other fellows know full well that the ODM's certification was in conformity with a procedure authorized and prescribed by Congress to encourage facilities of importance to the national defense effort," the power company president said.

He pointed out that Brown and Oxbow dams had been classified as meeting national defense criteria because they would provide needed power for the Pacific northwest.

Roach said the ODM had issued about 22,000 such certificates to taxpayers since 1950 and the Idaho Power company was not a "special case."

He said the certification merely permitted the power company to depreciate a portion of the Brown and Oxbow facilities at a faster than normal rate of depreciation.

"That portion of taxes deferred during the period of accelerated depreciation will be paid over and above normal taxes, in the years subsequent to the period of accelerated depreciation," he explained.

He said the certification merely permitted the power company to depreciate a portion of the Brown and Oxbow facilities at a faster than normal rate of depreciation.

"That portion of taxes deferred during the period of accelerated depreciation will be paid over and above normal taxes, in the years subsequent to the period of accelerated depreciation," he explained.

# Explosion Hits Negro Church Sunday Night

BIRMINGHAM, Ala., April 29 (AP)—A dynamite explosion knocked out windows and a steeple of a Negro church during a service last night, and another blast damaged a Negro laborer's home. There were no injuries.

The explosion touched off in two sections of suburban Bessemer were the first dynamite explosions in two years since the Rev. M. L. Shuttlesworth's home was demolished during a bus integration dispute at Christmas.

No immediate motives for the explosion could be found. Police said they could find no motive in the explosion.

W. Scott, pastor

## Columnist Is Probed About Joining Klan

LONDON, April 29 (AP)—The newspaper, Daily Sketch reported today that its columnist, "Candidus," had received a membership form and other correspondence from an Anglo-American Ku Klux Klan.

The sketch report followed stories yesterday that Klan literature was circulating in areas where there has been a large growth of West Indian population.

Earlier Letter  
"Candidus" earlier had received Klan correspondence and had replied in his column, "I am carrying too much for hate-mongers hoodlums."

Last week the sketch said, "Candidus" received a printed "application for citizenship in the invisible empire—Anglo-American Ku Klux Klan realm of Britain and Texas—for racial privacy and defense of rights."

The application was mailed from London's Paddington station, the sketch said, but a letter from the organization was sent from P. O. box 5052, Waco, Tex.

The sketch, signed by a "Horace Norman" member for the Klan, objected to "Candidus" attack on the Klan.

The membership application offered to keep "Candidus" membership a secret. There was a typewritten note on the form which said:

Is Important  
"This applicant holds an important position and KKKK connections would entail loss of employment and social ostracism. The grand scribe is requested to treat as other V.I.P.s and all correspondence and contact is to come under section 7/23/187 (operation stranger)."

The form identified the applicant as "Arayan White, born within the British Commonwealth of Nations... my sole allegiance is to the British throne. I will strive for a closer alliance with the U.S.A. to meet the threat of Communism... God save the queen."

### Fading

WASHINGTON, D.C., April 29 (AP)—Prospects for congressional action on a civil rights bill are fading fast. Southern opponents are fighting a "delaying" action.

Now they have come up with a new, tough argument—they charge that the administration bill would take away the right to jury trial in many civil rights cases.

### High Fever

FRANKFURT, Germany, April 29 (AP)—Two medical specialists were called to Frankfurt too yesterday to treat an ailing rhinoceros named Catherine.

Catherine, mother of the only rhinoceros born in captivity in Europe, has a high fever and is bleeding internally, the specialists reported.

### Cubs Present Skit

HAGERMAN, April 29 (AP)—"Swiss Family Robinson" was the theme of a skit presented at the monthly meeting of the PTA Cub Scout pack Friday evening at the Orange hall. David Laughlin, pack committee chairman, and Bob Gaston, Cubmaster, were in charge. The skit was written by Mrs. Joseph Zacont.

Awards were presented to Jackie Johnston, wolf badge; Bruce Gaston, bear badge, and Danny Butler, David Pinkston and Pat Russell, silver arrows. Joel Caldwell was advanced to Boy Scout.

### LEGAL ADVERTISEMENTS

## Ketchum Names Two

LYNDA OWENS  
... will attend Girl's state from Ketchum this year. Both are sponsored by American Legion auxiliary of the David Ketchum post. Miss Owens is the daughter of Mr. and Mrs. Milton Owens and Miss Sherratt is the daughter of Mr. and Mrs. David Sherratt. (Staff photographing)

### Emergency

TOKYO, April 29 (AP)—Police in Tokyo and other big Japanese cities are being put under emergency orders to guard against riots in May day demonstrations Wednesday.

The big slogan of the demonstrators will be "no more nuclear tests." With special reference to the tests Britain is to hold in the Pacific soon. Tokyo demonstrators plan to march past the British embassy.

### FINISHERS TRAINING

WENDELL, April 29—Arjan Martin, son of Mrs. Glenn Ramussen, Wendell, has been graduated from recruit training at the naval training center in San Diego.
