Kulp Calls Hearing in Wells Case

BURLEY, July 31—State Reclamation Engineer Mark Kulp has ordered a hearing here on Aug. 29 in a contest between two ranching operations over underground water between Burley and Oakley.

Dr. F. Wayne Schow, Twin Falls, and his father, Floyd Schow, Rupert, owners of the Independence ranch, claim the underground water table at their ranch has lowered 20 feet since the McMurray Land and Livestock company, Burley, began pumping operations nearby on June 1.

The water right at the Independence ranch dates back to 1952 and the well on the ranch is believed to have been the first in the area. The ranch is located on the Oakley road 11 miles south of Oakley. The McMurray land is located about two miles southwest of Independence ranch.

The hearing was initiated by Dr. Schow through his attorney, Norman Nelson, Burley. Dr. Schow said the ranch has been pumping water for irrigation for five years and that this is the first year the water table has dropped.

The McMurray Land and Livestock company is owned by the McMurray family and was started by former Cassia county state Sen. John McMurray, who was candidate for governor in 1930. The McMurrays have been ranchers and farmers in the Oakley and Burley areas for many years.

Mrs. Mez McMurray, wife of one of the members of the McMurray Land and Livestock company, said Wednesday her husband had received no word from Kulp that the water right was being contested.

'Ike' Remains Firm Against Plan on Jury

WASHINGTON, July 31 (AP)—President Eisenhower spoke out today against adding a jury trial amendment to the civil rights bill, Republican Leader Knowland, Calif., followed up with talk of seeking to force a senate vote on the issue this week.

Knowland could force a vote at any time by offering a motion to table the amendment. But he said he would not take this course without at least a day's notice. A motion to table is not debatable.

Knowland talked with reporters after Eisenhower told his news conference he is opposed to moves to put a jury trial provision into the administration's civil rights measure.

The president said the power of federal judges to enforce court orders must be sustained. The bill would empower the attorney general to obtain federal court injunctions to protect voting rights.

Knowland said that, rather than insist on a tabling motion, he would prefer to obtain a unanimous consent agreement to vote on the jury trial amendment by tomorrow, Friday or Saturday.

Senate Democratic Leader Lyndon B. Johnson of Texas called talk of a tabling motion "premature."

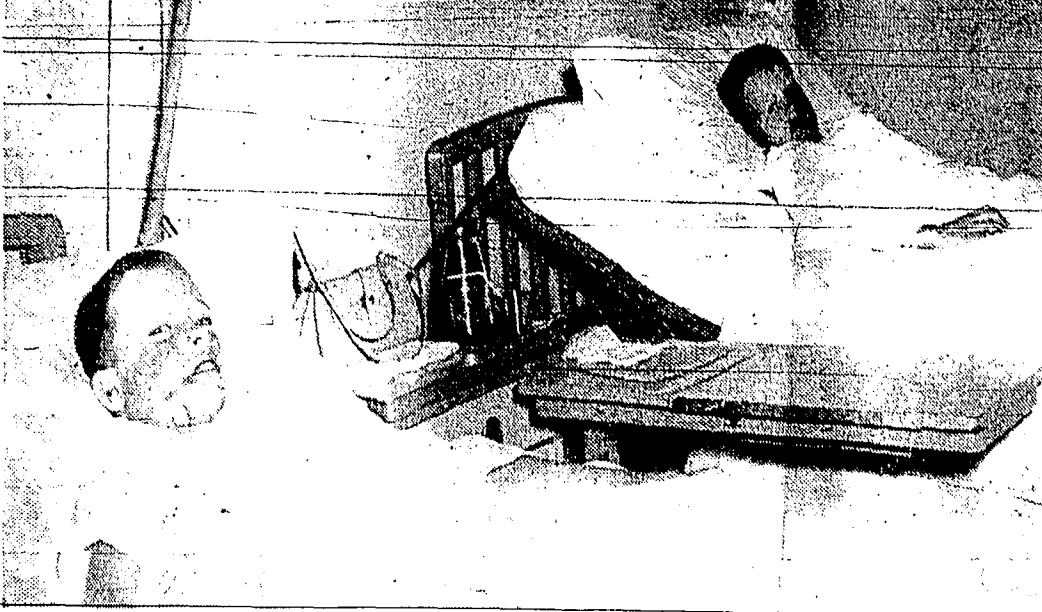

Eisenhower said he stands by his 18 statement in which he listed four main objectives he said he hoped would be accomplished by congressional passage of the measure.

One of these objectives—proposed authority for the attorney general to enforce general civil rights by seeking court action—already has been knocked out of the bill.

The major section still in the bill would authorize the attorney general to seek civil injunctions to protect the voting rights of minority groups and individuals. No jury trial would be required in such cases.

However, Senators O'Mahoney, D., Wyo.; Kefauver, D., Tenn.; and Church, D., Ida., have proposed an amendment to require jury trials in criminal contempt cases growing out of voting rights violations.

Hospitalized Twins Ponder Results of Homemade Bomb

The 11-year-old Matthews twins, Gary, left, and Larry, right, have time to go over their latest experimental homemade bomb and determine what caused the premature explosion Tuesday at their farm home. Gary incurred a punctured right cheek and other injuries and Larry lacerations and an abdomen injury when a gunpowder bomb exploded after they placed it on an electric stove. The twins, a younger brother, Clyde Matthews, 7, and a friend, Jerry Long, 13, constructed the bomb. All four were in Magic Valley Memorial hospital for treatment of their injuries. Additional photo is on page five. (Staff photo—enlarging)

4 Bomb-Injured Boys Are Reported "Good"

Condition of four boys injured Tuesday afternoon at their farm home when a homemade bomb exploded, were described in "good" condition Wednesday by an attendant at Magic Valley Memorial hospital. The boys, Jerry Long, 13, son of Mr. and Mrs. W. B. Long, Larry and Gary Matthews, 11-year-old twins, and a younger brother, Clyde Matthews, 7, children of Mr. and Mrs. Archie Matthews, were rushed to the hospital in two ambulances after their experimental bomb exploded, showering them with fragments of glass, lead and pellets.

Driver Fined Total of \$100 On Tipsiness

Leroy Farrin, Ketchum, was fined \$100 and \$3 costs Tuesday by Judge George Redford on a charge of drunken driving. Judge Redford also suspended Farrin's license to drive for one year.

Myron R. Harris, Burley, was fined \$15 and \$3 costs Tuesday by Judge Redford on a charge of speeding.

Charles H. Wells, minor son of Walter Wells, Buhl, was fined \$15 and \$3 costs Tuesday and his driving license was suspended for 30 days by Justice of the Peace C. E. Rudy, Buhl, on a charge of reckless driving.

Judge Rudy also fined Gene L. Gillon, Twin Falls, \$25 and \$3 costs Tuesday on a charge of negligent driving.

Fines have been paid to Justice of the Peace Joe Weldon, Burley, by six motorists on speeding charges resulting from a state police radar check over the week-end.

Motorists fined and the speeds at which they were charged are: George Dragich, Salt Lake City, \$25 and \$3 costs, 70 miles an hour in a 45-mile zone; Douglas Summers, Heyburn, \$10 and \$3 costs, 70 miles in a 60-mile zone; Dan L. Slavin, Rupert, \$11 and \$3 costs, 71 miles in a 60-mile zone; Winford Bonner, Burley, \$17 and \$3 costs, 72 miles in a 55-mile zone; Fred Lindauer, West Jordan, Utah, \$18 and \$3 costs, 64 miles in a 45-mile zone; and Rex Knodel, Burley, \$20 and \$3 costs, 65 miles in a 45-mile zone.

William Robert Parsons, Ogden, was fined \$25 and costs Tuesday in Twin Falls police court for speeding 31 miles an hour in a 20 mile zone. Police charged him with speeding into an intersection at Sixth street on Second avenue east.

Warmer

After a long period when maximum temperatures have barely come up to normal readings, several days of higher than normal temperatures are in prospect for Magic Valley, according to the five-day weather forecast received from Associated Press.

"Let's head for the old swimmin' hole," suggested the AP reporter as he read this forecast.

"Highs slightly above normal with maximums of 87 to 95 and minimums 50 to 60. Scattered thunderstorms." (Probably)

Spending for Tanks Receives Scrutiny of House Committee

WASHINGTON, July 31 (AP)—House investigators reported to congress today that the army has spent seven years and hundreds of millions of dollars to build heavy tanks that may not prove useful in nuclear war.

The investigating group, a house government operations subcommittee, requested a full-scale investigation by the committee general of the production schedules and spending by the army and the manufacturer, the Chrysler corporation.

In its report, the subcommittee said that the Chrysler corporation was given "virtually a blank check" to build the tanks, T-43s, "in a hurry."

"In point of fact, the delivery dates were not met," the subcommittee said, "and the tanks were not acceptable for service."

Testing showed that 124 modifications had to be made before the tanks were acceptable to the army, the report said. "The marine corps, it noted, still refuses to accept the T-43 tank—the heaviest ever produced in quantity in the United States—for its ground forces."

The committee blamed the army's "sharply divided" opinion about the use of heavy tanks in nuclear warfare for the failure to come up with a top-notch weapon. It said that after spending many millions on a tank that had "serious deficiencies," the army was finally persuaded to spend a few more millions to correct a large number of the deficiencies, but not enough to satisfy "the tank corps."

Tanks may be useful in nuclear warfare for crossing areas exposed far from crossing areas exposed to radioactive, the report said. But the army couldn't make up its mind whether heavy, medium or light tanks would be more suitable.

The subcommittee said it would take two or three years before the T-43 was adequately modified to meet the marines' "combat requirements."

The actual number of the heavy tanks so far manufactured is a top military secret. 80 is the price the army has paid for them.

The subcommittee said, however, that in all the army has spent more than a billion dollars to build the T-43 and the M-48, the so-called "Patton-48," a medium-weight tank. It was not possible to determine how much of the money went for either tank.

NEWS BULLETINS

WASHINGTON, July 31 (AP)—AFL-CTO President George Meany today ordered Paul Dorfman, a close friend of Teamsters Vice President James R. Hoffa, removed from office in a Chicago labor union. The action was based in part on findings that Dorfman's wife Rose—and thus Dorfman himself—realized profits running to about \$100,000 a year from handling Teamsters and Electrical Workers union welfare accounts controlled by Hoffa and other union leaders.

WASHINGTON, July 31 (AP)—The White House said today a plan for equitable return of German assets seized during World War II will be submitted to congress early in its next session beginning Jan. 1.

BOISE, July 31 (AP)—Assessed valuation of property in Idaho increased more than 8 1/2 million dollars in the past year, exclusive of public utilities, the state tax commission reported today. The commission said the total this year is \$450,970,379 compared with \$442,432,722 last year.

BONN, Germany, July 31 (AP)—Soviet-West German negotiations in Moscow have been broken off, a government spokesman announced today. The spokesman told a news conference the talks broke up over the question of repatriation of 80,000 Germans the Bonn government says are held against their will in the Soviet union. Russia says there are no such Germans in the country.

Dulles Sees Soviet Official in London

LONDON, July 31 (AP)—U. S. Secretary of State John Foster Dulles met for the first time with Russian delegate Valerian Zorin today amid indications that the long search for a disarmament agreement may be at a critical point. The Dulles-Zorin get-together was part of feverish diplomatic activity by the big three Western powers on this next to the last day of the period originally set for negotiations by the U. N. disarmament subcommittee. The five-power group has been meeting since March 18.

Dulles met with British Foreign Secretary Selwyn Lloyd and other Western officials before sitting down at a full-scale "working luncheon" of all five delegations on the subcommittee, including Zorin.

Across the channel in Paris, the French cabinet met and Foreign Minister Christian Pineau announced he was flying to London tomorrow at Dulles' request for disarmament talks.

The British cabinet, too, was called into session to discuss disarmament.

In addition, Dulles planned to confer with Prime Minister Harold Macmillan at dinner tonight to discuss the arms situation and other world problems.

The Western delegates have agreed to submit a brief interim report to the U. N. on the subcommittee talks tomorrow, unofficial deadline for the talks, and to extend the negotiations. It was expected that Zorin would agree.

The maneuvering seemed to indicate either that Britain, France and the United States have run into differences—or that they are preparing some important new proposal for Russian consideration.

Most signs seem to point to a difference between the three Western nations on nuclear matters.

Old Political Foes to Meet in Wisconsin

MILWAUKEE, Wis., July 31 (AP)—Former Gov. Walter J. Kohler, an "Eisenhower Republican," and Democrat William Proxmire, whom he beat in two gubernatorial elections, will fight it out in the Aug. 27 general election to succeed the late Sen. Joseph R. McCarthy.

It will be a familiar scene when the two winners of yesterday's Wisconsin primary election battle for the senate seat. Kohler was governor for three terms (1950-1956), and Proxmire thrice tried unsuccessfully for that office. Kohler won both times they opposed each other. Only about 500,000 of the state's 2,300,000 eligible voters cast ballots despite generally fair weather.

Proxmire predicted: "For the first time in 20 years Wisconsin will have a Democratic senator." Kohler said: "It is important now that we all unite and look to a Republican victory."

Kohler beat out six conservative (Continued on Page 17, Column 1)

Six Persons Are Killed in Mishap

VINELAND, N. J., July 31 (AP)—Five adults and a child were crushed to death today when a trailer truck rammed into the rear of a car.

State police said the car apparently stopped suddenly and the big truck plowed into the vehicle. It took rescue workers almost half an hour to remove the bodies from the wreckage.

have attempted to control these pests by spraying, but it is quite evident that unless a program of some kind is adopted, which would cover the entire city, spraying being done by individuals cannot possibly be effective.

"In view of this situation," said Mr. Lauterbach, "it looks as though this is a problem which should be handled by the park department of the city. It is not a problem confronting only the city of Twin Falls. It is a problem prevailing quite generally throughout the nation. Many cities already have adopted some plan of insect pest control."

"After talking with many residents of Twin Falls, I am convinced that a vast majority of the people would be willing to have the city take over the entire spraying job and bill each property owner for his proportionate share of the expense. Just as is now being done with garbage disposal, weed control and other projects of a similar nature."

Calm Prevails as Montana's Prison Rioting Subdued

DEER LODGE, Mont., July 31 (AP)—An unarmed guard captain who entered Montana State prison where inmates rioted for nearly nine hours yesterday reported today, "The prisoners are secure. They are behind locked doors in two cellblocks." Guard Capt. Everett Ripley, himself held hostage during yesterday's rioting, went through the old prison to make certain order prevailed. He told waiting members of the Montana prison commission that all was quiet inside the gray stone walls. There was no incident, he said, and the prisoners remained calm.

Parleys Are Held on Carpenters' Walkout

POCATELLO, July 31 (AP)—The first negotiating session since the early days of the southern Idaho carpenters strike was held this afternoon. Federal Mediator Dan Edwards said the session was scheduled for 2 p.m. with representatives of the Southeast Idaho Contractors association and the Rocky Mountain District Council of carpenters. It was to be held in Edwards' office.

Edwards said he was continuing efforts to set up a similar meeting with the Idaho chapter, Associated General Contractors.

Representing the Southeast Idaho contractors was the organization's secretary, Louis P. Racine of Pocatello. Representing the carpenters was Virgil Tullis, district council executive secretary.

An estimated 1,800 carpenters in southern Idaho went on strike July 17, seeking higher wages and other benefits. Tullis estimated today that 250 would be back to work by the end of the week under individual contracts negotiated with individual employers. The interim agreements will revert to terms of a general settlement when one is negotiated.

The present carpenter pay scale is \$2.65 per hour. The carpenters originally asked a two-year contract calling for a pay increase of 22 1/2 cents per hour to \$2.87 1/2 per hour effective on expiration date of the former contract, plus health and welfare program costing employers 10 cents per hour effective Jan. 1, 1958, plus another wage increase of 12 1/2 cents per hour effective June 1, 1958.

T. F. Student Is Winner of Crafts Award

William Floyd Marks, 19, 207 Eighth avenue east, Tuesday night was named winner of a \$4,000 university scholarship in the 1957 Fisher Body Craftsman guild model car competition.

The Purdue university student became eligible for the national contest after being named winner of both the state and regional contests earlier in the month.

This is the second time he entered the model car competition. In 1956—he won a first-place state award. He is a sophomore at the Lafayette, Ind., school.

His award winning model was a green and silver hardtop sports car. Its styling was bold—with hooded backlight and sculptured surfaces. Mark named it "The Desert Shark." It was made of plaster wood with aluminum fittings. He estimated he spent 1,000 hours building his model.

Approval for Dam Plans Is Hit by Solon

CALDWELL, July 31 (AP)—A federal power commission examiner's recommendation for development of the Mountain Sheep-Pleasant Valley stretch of the Snake river was described by an Idaho state legislator today as an "injustice" to Idaho reclamation.

Rep. George Crookham, R., Canyon, made the statement in a letter to Edward B. Marsh, FPC examiner, who recommended that the projects be undertaken by the Pacific Northwest Power company, a combine of four privately owned public utilities in the area.

Crookham, chairman of the Idaho house irrigation committee, said the Pleasant Valley-Mountain Sheep project "continues the trend of hydroelectric development to the disadvantage of future upstream reclamation of the Snake river plains."

"Two considerations are paramount in the full development of Snake river reclamation," he said.

"1. Availability of low cost summer pumping power; 2. surplus power revenue to assist in repayment of project cost."

"Nowhere in your conclusions have these premises been acknowledged. There has been no recognition of the fact the upstream irrigation storage has more than doubled the minimum stream flow in the Hells canyon area."

"This regulating effect has allowed the consideration of lesser storage in the Hells canyon area but there are no benefits involved for future reclamation by your recent decision."

Legal Barrier Delays Probe On Drowning

ONTARIO, Ore., July 31 (AP)—A decision on where, when or whether to hold an inquest into the death of Homedale City Clerk Bertha Ehrhart was deferred here today pending receipt of a formal autopsy report from Dr. Joseph Beaman, Boise pathologist.

The body of the 39-year-old woman—who had been missing for three weeks and was accused of destroying some of the city records in her trust was recovered Monday from the Oregon side of the Snake river near Adrian.

Officials of Owyhee county, Ida., and Malheur county, Ore., met yesterday in an effort to decide which county could or should hold the inquest. Coroners of both counties finally decided to await Beaman's report before making a decision.

Owyhee county Prosecutor Sylvan Jeppesen said he had checked Idaho law and, since it was undetermined on which side of the river Mrs. Ehrhart's body went into the water, he had no statutory power to have the remains sent to Idaho.

He added, however, that investigation of Mrs. Ehrhart's strange disappearance and death would continue in Owyhee county regardless of whether the body could be obtained for any inquest.

The woman's body had the hands tied behind the back when it was pulled from the river, but investigators said the cord was secured (Continued on Page 2, Column 2)

Boy, 14, Shoots Himself in Foot

Condition of a 14-year-old Twin Falls youth who shot himself in the foot with a .22 caliber rifle Tuesday afternoon was described as "good" Wednesday by an attendant at Magic Valley Memorial hospital.

The youth, Ronald Cron, son of Mr. and Mrs. Stanley B. Cron, route 3, Twin Falls, incurred a broken bone in his foot from the bullet. A sister of the youth said he had taken the rifle out to shoot at some birds on a fence. The accident occurred between 2:30 and 2:45 p.m.

Area Measured

SHOSHONE, July 31—The area blackened in the huge fire near Kimama Sunday has been measured at 5,600 acres, bureau of land management officials reported Wednesday.

The blaze threatened several farms in the area before being brought under control.

Fire fighting crews Tuesday afternoon fought a 735-acre blaze south of Marley, bringing it under control at 10 p.m. The fire started when some controlled burning by a farmer got out of control.

Gooding Teacher Claimed by Death

GOODING, July 31—Walter Johnson, about 60, Gooding junior high school teacher, died suddenly at 5:30 a.m. Wednesday near Redfish lake while returning from a fishing trip near Stanley.

Mr. Johnson was being brought to Gooding by his wife when death occurred. He had complained of not feeling well and Mrs. Johnson was bringing him down from the mountains to a doctor.

Funeral services are pending at the Thompson chapel.

Emergency Control of Insects Suggested by Ex-Mayor to Save Trees

Atomic Goals Outlined for Test Station

IDAHO FALLS, July 31 (AP)—Current plans and future experiments were revealed in the 22nd semi-annual report on the national reactor testing station, made public yesterday by the atomic energy commission.

Design studies for a 20-million-dollar reactor plant have been completed by H. K. Ferguson company of Cleveland, the report said.

The plant will contain a second experimental reactor with newly developed equipment for handling nuclear fuel and processing apparatus.

An eastern laboratory is making a nuclear replacement core for another reactor, damaged in experiments in 1955.

The report said reactor experiments on nuclear operations of turbojet engines made progress. A submarine-type reactor was continued in operation for experiments and to train navy personnel.

Another reactor is being readied for critical fuel loading. It is designed to produce 5,000 to 10,000 kilowatts of heat, but no electricity.

SPEAKS AT CHURCH
SHOSHONE, July 31 (AP)—Speakers for the LDS church services Sunday evening were Clifford Ward and Isaac Miller, Richfield, stake high councilmen. Mrs. Veral Stimpson played a violin solo.

Hospitals

Magic Valley Memorial
Visiting hours at Magic Valley Memorial hospital are from 2 to 4 and from 7 to 8 p.m.

ADMITTED
Clyde Matthews, Larry Matthews, Gary Matthews, Jerry Long, Ronald Crom, Bernice McKitterick, Mrs. Ridgely Dove, Lyle Sisson, Mrs. Herschel Thompson and Mrs. Carme Bradley, all Twin Falls; Mrs. Theodore Kokes and Mrs. Omer Lindsey, Buhl; Floyd H. Olsen and Mrs. Theodore Sturgill, Kimberly; Dale Peterson, Hansen; Mary Lee Keeton and James Lee Keeton, Oakley; and Mrs. Dean Tidwell, Shoshone.

DISMISSED
Mrs. Emmet Hamilton and daughter, Hugh Sheldon, Leslie Spielman, Mrs. Albert McCauley, Mrs. O. F. Jacobs, Gary Cress, Donna DeWitt and Dwight Heier, all Twin Falls; Mrs. Theodore Sturgill and Flo Hardin, Kimberly; Johnnie Kincaid, Philip; Hazel Thorson, Burley; and Charles E. Harris, Gooding.

BIRTHS
A daughter was born Wednesday to Mr. and Mrs. Theodore Kokes, Buhl, and a son was born to Mr. and Mrs. Herschel Thompson, Twin Falls.

St. Benedict's, Jerome
Visiting hours at St. Benedict's hospital are from 2 to 4 and 7 to 8 p.m.

ADMITTED
Mrs. Daniel Royce, Owen Adams and Mrs. George Benson, all Wendell; Mrs. Alon Anderson, Hazelton; Mrs. Richard Bingham, Twin Falls; and Howard Lawrence, Mrs. Dale Tanner, Mrs. Hubert Kudna, Richard Leiva and Mrs. John Davis, all Jerome.

DISMISSED
Mrs. James Laswell and Mrs. Jack Olson and son, all Jerome, and Mrs. Frank Mallett, Twin Falls.

BIRTHS
A daughter was born to Mr. and Mrs. Hubert Kudna, Jerome, and a son to Mr. and Mrs. Dale Tanner, also Jerome.

Gooding Memorial
Visiting hours at Gooding County Memorial hospital are from 3 to 4:30 and 7 to 8:30 p.m.

ADMITTED
Ernest Oiler and Jeri Nelson, both Gooding, and Frank Eaton, Shoshone.

DISMISSED
Kent Sison, Gooding.

Cottage, Burley
ADMITTED
Kay Badger, Mrs. Joyce Elzinga and Mrs. Betty McCullough, all Burley; Mrs. Dorothy Wheeler, Declo, and Raymond Tracy, Rupert.

DISMISSED
Mrs. Dorothy Smith, Heyburn.

BIRTHS
A daughter was born to Mr. and Mrs. Raymond Plocher, Burley, and a son to Mr. and Mrs. Charles Elzinga, also Burley.

Rupert General
ADMITTED
Mrs. Darwin Nelbaur, Mrs. Clyde Bott, both Paul, and Mrs. Clyde Grandall, Rupert.

DISMISSED
Mrs. H. A. Harrison and son, Heyburn.

BIRTHS
A son was born to Mr. and Mrs. Darwin Nelbaur, Paul.

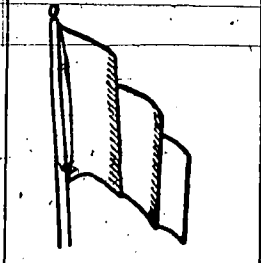

Sun Valley Hospital
ADMITTED
Mrs. James Iyle, Halley; Mrs. Jack Gott, Triumph, and Mrs. Richard Freeman, Jerome.

BIRTHS
Daughters were born to Mr. and Mrs. James Iyle, Halley, and Mr. and Mrs. Jack Gott, Triumph.

MAGIC VALLEY—Fair except partly cloudy in afternoon. High about 83 and low 57 to 61. High yesterday 81, low last night 58, at 4 a.m. and 81 at noon.

Keep the White Flag of Safety Flying

Now seven days without a traffic death in our Magic Valley.

First Nuclear Power Vessel Due for 1960

(From Page One)

Operating cost is not a prime factor in the nuclear powered submarines now in use or building by the navy.

The ship's first test will be in American waters, and officials said, "we then contemplate overseas voyages which will introduce the ship throughout the maritime world."

After that, it is expected to put the ship into regular commercial service.

The atom ship probably will be operated for the government under contract with one or more of the regular shipping lines.

The government experts believe that an ordinary merchant marine crew will be able to handle the A-ship after special training of about nine months or a year.

The 350,000 miles expected of the first ship on the initial load of fuel compares with about 15,000 miles for a conventional ship.

The sponsors of the A-ship project say that one of the big advantages will be the quick turn-around time in port; no time will be required for refueling.

The government said that essentially, the hull is of comparatively standard design for any modern ship. To a question, it was said that a nuclear power plant probably could be installed in an entirely standard hull if the frame were strengthened to take the concentrated weight of the reactor and if special compartmentation for the reactor was provided.

In this first, experimental ship, no effort to provide superspeed is being made. The plans call for about 20 knots, similar to the speed of a comparable sized conventional ship with the same 20,000 shaft horsepower.

Specifications for the nuclear ship are: length 587 feet; beam 78 feet; draft 29 feet, six inches; 60 passenger with 30 staterooms for accommodations; crew 130.

Eastern Drought Broken by Rains

By United Press

A fresh wave of thunderstorms wet down portions of the drought-stricken East yesterday to sound an encouraging note in the three-month-long crisis which has cost farmers in 11 states losses in the tens of millions of dollars.

Heavy rains in New Hampshire all but broke the back of the drought in that area, while locally heavy thunderstorms in Rhode Island, Massachusetts and New York were cautiously described as part of a "continuing trend which may mean the end of the drought."

Shipyard Strike Being Suggested

PORTLAND, Ore., July 31 (AP)—About 300 AFL-CIO International Association of Machinists representatives voted to recommend to their unions a "strike date to close down shipyards" on the west coast at their western states conference here yesterday.

Harold J. Gibson, international vice president, said negotiations have been held with the Pacific coast shipyard employers group. He said the machinists have been conferring with the employers group jointly with the Pacific Coast Metal Trades council.

The machinists voted down an offer of 15 cents an hour, plus five holidays, Gibson said.

VISITING PARENTS
SHOSHONE, July 31 (AP)—Mr. and Mrs. Carl Benson and sons, Coalville, Utah, are visiting her parents, Mr. and Mrs. Walter Schmidlein.

Magic Valley Funerals

TWIN FALLS—Funeral services for Kathryn Thompson Etter will be held at 10 a. m. Thursday in Episcopal Church of the Ascension with the Rev. Norman E. Stockwell officiating. Memorials are suggested to Episcopal Church of the Ascension, box 467, Twin Falls.

PAUL—Funeral services for Mrs. Ida Meyers will be held at 3 p.m. Friday in the Congregational church in Paul. Concluding rites will be held at Paul cemetery.

REELECTED
BOISE, July 31 (AP)—The Boise Building and Construction Trades council today announced reelection of Hugh Archer, Boise, to his fifth term as council president.

Legal Barrier Delays Probe On Drowning

(From Page One)

with ship knots which Mrs. Ehrhart could have tied herself.

Malheur county Coroner George Beechler said there were no other indications of any foul play from a study of the body.

An audit still was under way of the Homedale city clerk's records, but Jeppesen said he was doubtful that the records were complete enough to make an accurate balance of accounts.

A few days after Mrs. Ehrhart's disappearance, Jeppesen announced that city records, including daily receipts and the police court docket, were missing. A warrant was issued for the woman's arrest, charging her with defrauding of public records.

Jeppesen said investigators later found ship fragments in Mrs. Ehrhart's automobile and said the fragments appeared to have blown into the car while material was being burned nearby.

He said he and Owyhee county Sheriff Jim Tucker then searched the incinerator at Mrs. Ehrhart's home and found remains of city daily receipts and other records.

The prosecutor added that a Homedale policeman had noticed city records on Mrs. Ehrhart's office desk about 8 p.m. the night of July 8 about two hours before the clerk was last seen, and the records were not there when investigators checked the office the following morning.

He added, however, that it was not known whether the burned records in the incinerator were the same records which had been seen on her desk July 8.

Mrs. Ehrhart's purse was found in the office and it contained a note made up of words clipped from a newspaper and stating "you have only a few days to live."

Jeppesen said a friend of the city clerk had related that Mrs. Ehrhart told him she had found the note in her car Friday morning, June 28, and thought it probably had been slipped into the car the previous night.

The prosecutor said investigation showed that the word "days" in the note matched exactly, on both sides, printing in a Boise valley newspaper for Friday morning, June 28.

Jail Is Urged For Repeater Traffic Cases

BOISE, July 31 (AP)—Idaho's law enforcement commissioner suggested yesterday that jail sentences be used in dealing with persistent traffic law violators.

"I am convinced," said Earle E. Koehler, "that if we are to stop the murder on the highways, jail sentences are in order for drunken and reckless drivers and those persons driving on revoked or suspended licenses."

Koehler spoke at a traffic court conference here, the first in a series planned over the state. The purpose is to bring more uniformity in sentences given traffic law violators.

The next conference will be held next Tuesday, in Lewiston. Others will follow Aug. 8 at Coeur d'Alene, Aug. 13 at Idaho Falls, Aug. 15 at Pocatello, and Aug. 22 at Twin Falls.

Koehler said that since Jan. 1, his department has turned down requests for driver's licenses from 119 persons whose driving record "was inimical to public safety."

He said that there have been 927 convictions for drunken driving, and more than 400 convictions for reckless driving, all of which result in suspension or revocation of licenses.

The major objective of his department, Koehler said, is "to get the habitual offender off the highways and to keep him off."

Harold Davis, director of the law enforcement department's traffic safety division, urged enactment of legislation which would set up a program of driver training in the state's high schools. Such a program was proposed to the 1957 legislature but was not approved.

"Idaho ranks 48th among the 48 states in driver education," Davis said, "and there is nothing that would help us more in safety work than this driver training law."

Fewer Loans

BOISE, July 31 (AP)—Applications for federal housing administration loans in Idaho dropped from 346 during June and July of 1958 to only 317 during the corresponding period of this year, state FHA Director Berne Jensen said today.

He blamed the decrease on a tight money market and unsettled conditions in some Idaho industries.

Twin Falls News In Brief

Meeting Postponed
The meeting of Licensed Practical Nurses has been postponed until Aug. 15 because of the convention in Idaho Falls.

Meet Set Saturday
Ladies of the Grand Army of the Republic will meet at the American Legion hall at 1:30 p.m. Saturday for a coffee hour. A business meeting will follow.

Grange to Meet
Mountain Rock Grange will meet at 8:30 p.m. Thursday at the community hall. Refreshments will be served by Mr. and Mrs. W. L. Buchanan.

Iris Society Luncheon Set
Magic Valley Iris society will hold a potluck luncheon at 12:30 p.m. Saturday in the city park. A raffle sale will follow at 2 p.m. The public is invited.

Wiener Roast Planned
Frontier Riding club will hold a wiener roast at 7:30 p.m. Thursday at Frontier field. Those attending are asked to bring wieners, buns and dessert. Coffee and punch will be provided.

Photograph Albums Stolen
Theft of 60 photograph albums valued at \$12 each was reported Wednesday to Twin Falls police by James Terry, Modesto, Calif. He told police the albums were taken from his locked car which was parked near Third street and Main avenue east.

Marriage Licenses
Marriage licenses were issued by the Twin Falls county clerk Wednesday to Fred E. Hale, Boise, and Gertrude M. Sedillo, Twin Falls, and Kirby Newman, Jr., and Roberta Jean Baird, both Twin Falls. Tuesday, a marriage license was issued to Jack Lee Randall and Helen Jean Bordewick, both San Francisco.

Gets Naval Academy Berth
Lieut. (jg) John Louis Townley has been appointed as an instructor of gunnery and ordnance at the naval academy at Annapolis, Maryland. His wife is the former Lucille Langdon, Twin Falls, daughter of Mrs. L. L. Langdon. Mrs. Townley owned the Lucille Townley School of Dance here. Lieutenant and Mrs. Townley live at 200 First street, Greenwood Acres, Annapolis. Both will do graduate work at the University of Maryland this fall.

Blazes on Range Being Controlled
BOISE, July 31 (AP)—All fires reported burning in forest and range lands of southwestern Idaho were listed today as under control.

Crews of the bureau of land management stamped out during the night a blaze that swept 3,600 acres of grazing land in the Pickle hutte area south of Nampa.

Controlled earlier yesterday were fires which burned 20,000 acres of rangeland between Glenns Ferry and Hammett, and smaller fires in Owyhee county south of Glenna Perry and in the area northwest of Melba.

Bolivia has no seaport, being completely landlocked.

Rotary Hears Economy Talk About Britain

Controlled spending and the shadow of unemployment directs the present economic course in Britain and the country's wealth is more equally distributed than at any time in its history, a Birmingham, England, exchange minister told Twin Falls Rotarians Wednesday.

The Rev. Charles Banks, currently filling the pulpit of Twin Falls Methodist church while the Rev. W. A. MacArthur takes over the English minister's church, says 92 percent of the wage earners in England earn \$400 or less per year.

Tradesmen and technicians earn better wages than those engaged in the professions with the exceptions of doctors, the Rev. Mr. Banks said.

He explained that under English socialized medicine, doctors are on a regular salary. The patient does not pay for medical examinations or services—but does pay for prescriptions.

"I feel that our health scheme is working. It is paid for by the people under the national insurance plan for all employed. The doctors work in combines or groups. However, a patient may have the doctor of his choice but it may mean a bit of waiting until the doctor can see him," the minister said.

The Rev. Mr. Banks says he believes the British spend more money in cultural and educational pursuits than Americans. He says installment buying, such as is practiced in the United States, is referred to in Britain as "never-never buying."

"In my country you must pay around one-third down on an item for installment buying and then a high carrying charge," the Rev. Mr. Banks said.

World war II losses of England cut heavily into the country's spending and economy and as a result much of the nation's industry has been nationalized, he said. Such industries coming under nationalization are railroads, coal, power and others.

Visiting Rotarians were Harvey DeSleeper, Pasco, Wash.; Fred Jabusch, Fortuna, Calif.; and John Barker, Buhl. Guests were Gordon Phillips, Denton, Tex.; Scott Phillips, William Lowell and T/Sgt. Taylor Green, all Twin Falls; and John Duffy, Salt Lake City.

Seen Today

Young man and woman carrying on violent argument as they walk down alley of Second avenue west. Woman mowing lawn and washing car while husband sits on front porch watching. Bill Dye displaying rattles from two rattlesnakes he killed at Roseworth reservoir and reporting "the biggest one got away in the brush." Mrs. Jack Fuller displaying Hawaiian flowers to friends at city hall. Woman in blue skirt walking down Main avenue west fishing in large purse for item. Man smoking cigar examining window display of drug store on Main avenue west. Al Nelson coming out of store on Main avenue. Woman in blue and white polka dot dress sitting in car with door open on Main avenue west. Dr. Cecil R. Reinsteim chuckling to himself. And overheard: "It's easy to get involved, just keep asking questions."

Campaign Against Rebels Speeds up

MANAMA, Bahrain, July 31 (AP)—Royal air force Venom fighters stepped up their attacks against the Oman rebels by attacking them in the open for the first time, British spokesmen said today.

The attack, made yesterday, destroyed six vehicles by rocket and machinegun fire in the heart of the rebel area. Earlier air strikes had been restricted to heavily walled forts.

The uprising is another in a series by the Imam of Oman, against the sultan of Oman and Muscat, an Arabian potentate who has asked British assistance.

GETS APPOINTMENT

BOISE, July 31 (AP)—Arthur Oppenheimer, Jr., Boise, has been appointed Idaho vice chairman of the American Red Cross national fund drive.

Hearing Over Water Rights Set in Burley

(From Page One)

hearing was scheduled in Burley Aug. 29.

She said last March the company drilled a 900-foot well about 10 miles from the Schow ranch. Water from the well is being used to irrigate 320 acres of potatoes. The group on land which was brought under cultivation for the first time this spring.

The desert land which was brought under cultivation is located on what is called the "Kemp" project which is land which has been brought under cultivation between Oakley and Burley by a group of deep wells since the end of World War II. Mrs. McMurray said.

Kulp said, in announcing the hearing, that both contestants have certificates of water right in the area. He said he had started the formation of a "local" ground water board for the hearing. He will act as one member of the board, District Judge Sherman. Bellwood will appoint a second member and a third—an irrigation farmer in the area will be selected by Kulp and Judge Bellwood.

School Districts' Number Lessens

McCALL, July 31 (AP)—Idaho school districts have been dropped from 1,181 to 151 in the 10 years since reorganization began, according to reorganization director George J. Denman told the state board of education meeting here.

Denman reported that schools not completely reorganized in 36 are partially reorganized in eight of the state's 44 counties.

Map Plans for Swimming, Diving Meet

Ernest Craner, left, superintendent of the city parks and recreation department, gets together with Gary Simmons, center, manager of the Harmon park swimming pool and entrant in the senior men's division, and Frank Hill, another men's division entry, to discuss the annual Magic Valley Invitational swimming and diving meet scheduled at the Harmon park swimming pool for noon Sunday. (Staff photo-Engraving)

More Than 75 Entries Are Expected in Swimming, Diving Meet Here Sunday

More than 75 entries are expected for the annual Magic Valley swimming and diving meet scheduled for noon Sunday.

The entries include swimmers and divers from Jerome, Burley, Rupert, Buhl and Twin Falls. Gary Simmons, Harmon park pool manager, says, "There should be some tough competition."

The meet is open to both junior and senior swimmers. It will feature freestyle, breast, stroke, back stroke, and diving events. Simmons says individual trophies donated by the Twin Falls Chamber of Commerce will be awarded to high point winners in each division.

Preliminary eliminations will get

Jaycees Plan Emphasis for Main Project

"Keep Idaho Green" will continue to be the Twin Falls Junior Chamber of Commerce's main project for the remainder of the summer season, the Jaycee executive board decided Tuesday night.

Other activities of the past and plans for the future were discussed at the meeting. The board decided to continue efforts to strengthen the youth employment service which was started under the sponsorship of the Jaycees earlier in the spring.

Other past projects reviewed were the Jaycee-sponsored automobile thrill show, the concession booth at the horse show, the teenage rodeo, junior tennis and golf and the Voice of America contest.

President Pat Peterson commented on the "wonderful" growth of the club. He urged all members to contact new men for membership and stated he was pleased at the large attendance at meetings during the summer program.

Bryce Peterson, who has been transferred to Boise, was relieved as publicity agent for the club. Elton Jackson was named to replace Peterson.

President Peterson reported that the next general meeting for members and prospective new members will be held at 7:30 p.m. Aug. 6 at Harmon park.

Idaho Sets Pace

The Twin Falls naval recruiting station reports the Idaho "Gem State" recruit training company has won the battalion award for the first year of training.

The award was accepted on behalf of the company by Raymond E. Mitchell, summer's male first class, a son of Mr. and Mrs. Lon Mitchell, 293 Adams, Twin Falls.

There's No Substitute For Experience in DENTAL PLATE SERVICE

Our experience represents over 23 years in the business.

• TRANSFERS • REPAIRS • RELINES • DUPLICATES

McDOW'S DENTAL LAB

131 Shoshone No. — Ph. 603 (Opposite Idaho Theater)

under way at noon. Simmons says the six best in each event will be admitted into the finals.

Events include boys' 50-yard freestyle, junior division; girls' 50-yard freestyle, junior division; women's 100-yard freestyle, senior division; men's 100-yard freestyle, senior division.

In the breaststroke events which immediately follow the freestyle, girls' 50-yard breaststroke, juniors; boys' 50-yard breaststroke, juniors; women's 100-yard breaststroke, seniors; men's 100-yard breaststroke, seniors.

Following the breaststroke events will be the junior division diving from the one-meter board. Divers will be required to perform a plain front dive, back dive, half-twist, and two optional dives. This applies for both boys and girls.

Next event in order will be the backstroke races with the girls' 50-yard backstroke, juniors; boys' 50-yard backstroke, juniors; women's 75-yard backstroke, seniors; men's 75-yard backstroke, seniors.

After the backstroke will be the

individual medley where an individual swims three different strokes in the same race. Races will be girls' junior division individual medley of 75 yards and the boys' junior division individual medley of 75 yards. Senior division entrants in the individual medley event will swim 150 yards in both men's and women's categories.

Freestyle relay teams will have four swimmers paddling one lap each for a total of 100 yards, while senior division teams will swim 200 yards. This applies to all categories.

After the relays comes the three-meter board diving in the girls' senior division. Divers are required to perform a plain front dive, back knife, back dive, half-twist, and two optional dives. Senior men divers will be required to perform a one and one-half somersault, a back knife and four optional dives.

In semi-final events of the day, junior division boys and girls will swim a 75-yard medley relay. This event requires three swimmers, each swimming a different stroke. Seniors, in both the men's and women's medley relay, must swim 150 yards with each swimmer going 50 yards.

As a final event, should time permit, a senior men's fancy diving event will be held. Competitors will perform their own selection of dives.

Simmons says the meet is just a warm-up for the state AAU meet at Lewiston Aug. 9-11.

NATO Military Bosses Sure Defense Possible for Europe

PARIS, July 31 (AP)—Europe can be successfully defended. It has prevented war and it has protected its territory for eight years.

If the deterrent should fail and Russia should be foolish enough to start a war, NATO strategy does not envision any prolonged land campaigns fought over European terrain so far as can be told from non-secret information.

Whatever the destruction, strategists believe they can prevent the continent from being overrun and enslaved.

The aim would be for ground and air elements comprising NATO's forward shield to hold at or near the iron curtain until retaliatory air forces could deal crushing blows to the Soviet union. That would not

take long, according to available estimates.

Vice Adm. Charles R. Brown, U. S. sixth fleet commander in the Mediterranean, estimated to visiting reporters that the U. S. strategic air command could rain down the bulk of its punishment in something like 16 hours. The fleet, too, would get in some blows in that time, he indicated.

Other officers said if the shield force held for 72 hours, Europe could, by aerial attack on enemy forces, be spared from invasion.

Gen. Lauris Norstad, supreme allied commander in Europe, was questioned recently in a U. S. senate hearing on the ability to hold.

"I am not talking now of carrying on a land campaign," the air force general said. "If they the Russians start the war I think we can hold until the effect of our retaliatory force is felt."

It might take several days or weeks, for most of the attacking forces to feel the

effect of our retaliation.

Norstad said Russia could not knock out all NATO's retaliatory air forces in a simultaneous attack. The assumption is that if Russia and allied forces.

NATO air bases still are increasing. In a year or more will be added to the present 150.

In 1959, a radar warning net will be completed from northern Norway to eastern Turkey, able to look "several hundred" miles into communist territory and further guarantee against surprise attack.

New supersonic interceptors will reach the U. S. air force in the coming year and the sixth fleet is receiving increasing missile armament.

According to allied headquarters, NATO's greatest need today is a more sure against being overrun is the full complement of promised German forces. The Germans have just turned over three divisions and two more are expected this year. Their first air wing will be ready this fall, with four more next year.

These other reinforcements are scheduled or already being received: milk and 1714 pounds of butterfat.

Nike anti-aircraft guided missiles will reinforce the slowly gathering air defenses of NATO this year, being assigned to both U. S.

TEST REPORTED

JEROME, July 31—In a 2,434-day test conducted by the Holstein-Priesian association of America, a Holstein owned by Frank Housh, produced 106,719 pounds of milk and 1714 pounds of butterfat.

BUHL — RUPERT — BURLEY — TWIN FALLS

THE MISSILE RACE

A good many qualified individuals have been saying for a long time that the United States seriously lags behind Russia in the development of intermediate and long-range missiles. Consequently it is more than ordinarily reassuring to read new reports that the very reverse may be true.

According to these accounts, government officials now accept as entirely authoritative the fresh information that the Soviet Union is not keeping pace with us in the missile field.

Our own interest, of course, is being concentrated upon the intermediate 1,500-mile ballistic missile and the long-range 5,000-mile weapon. But the Russians are said to be focusing their energies on missiles with a 200 to 800-mile range—sufficient to blast Western Europe from satellite bases.

There is one evidently authenticated report that the Russians have successfully tested a ballistic missile 1,200 miles. Nevertheless, they are believed to be, on the whole, in a very early stage of development with the more menacing 5,000-mile devices we are working feverishly to perfect.

The latest information contradicts published statements that they have actually fired a long-range, intercontinental missile.

These same reports, indeed, question assertions that the Soviet Union leads us in the intermediate field, despite the successful test firing. The present belief is that we are ahead in both categories.

The Russians apparently fire a great many more test missiles than do our own experimenters. But this is not regarded as necessarily a sign of superior progress. To the contrary, experts here believe this indicates that Soviet scientists are "stabbing in the dark" as they search for solutions to missile problems.

Evidence available in Washington suggests the Soviet Union is testing relatively primitive motors in the intercontinental missile field. Their lack of advance in motor development may explain partly why they are concentrating on the 200 to 800-mile range at this time.

Whatever ability the Russians may have to deliver nuclear warheads over long distances seems to stem from their development of manned or pilotless aircraft rather than missiles.

Obviously, while there is reassurance for us in all this, there is no ground for complacency. Rates of progress can alter, and leads can vanish. Besides, A or H-bombs dropped from aircraft are not less devastating than those fired from sites far off in Europe.

TEST FOR ADENAUER

In mid-September the West Germans will hold one of the most important European general elections of the entire postwar era. At stake will be the political future of Chancellor Konrad Adenauer, long one of the West's stoutest friends.

Very likely in the balance, too, will be West Germany's continued major participation in NATO and its possible future cooperation in the so-called common European market, a program of economic unification.

Defeat for Adenauer probably would elevate the Social Democratic party to power. The Social Democrats have been relatively cool to the idea of strong ties with the West, favoring instead a neutrality they believe may promote early unification of West and East Germany.

Realists feel, of course, that the Soviet Union would simply find new reasons for opposing unity if the Socialists won. In that event, the disillusioned winners might turn as strongly to the West as Adenauer has.

But Western diplomats prefer the certainty of Adenauer's allegiance to the shaky prospect of a Social Democratic regime. The known is always more attractive than the unknown.

What they may well fear as much or more than a Socialist victory, however, is a narrow squeak for Adenauer which would put him at the head of a fragile coalition vulnerable to the first stiff opposition winds.

Word from Berlin is that the Kremlin is hoping for just such a result, since this outcome above all will make difficult the framing and executing of strong West German policy.

Unhappily, the opinion polls taken thus far indicate that a narrow verdict is very much in the cards. Both Adenauer's Christian Democrats and the Social Democrats are showing about the same strength, with roughly a fifth of the voters split among many smaller parties or listed as undecided.

A half-breath triumph for Adenauer would not necessarily be disastrous, for the old man's powerful personality conceivably could help him pull through programs in spite of all. But clearly the strain on him would be great and he is already 81. His death while at the helm of so wobbly a government would open the way for grave trouble.

We in America—and the whole Western world—must pray that between now and Sept. 15 the fortunes of Konrad Adenauer advance sharply from their present shaky status.

We bet that moths are having as good a time in your winter clothes as you're having in your summer ones.

TUCKER'S NATIONAL WHIRLIGIG

WASHINGTON—Rarely have Democrats and Republicans on Capitol Hill indulged in such sharp and sometimes shabby politics with regard to grave national issues and needs as at the current session of congress. The result may be the death of legislation essential to national welfare and progress, with blame attaching to both parties.

The Republicans are deliberately wooing the Negro vote with the administration's extreme civil rights bill. But while President Eisenhower is willing to accept a compromise measure restricted to protection of voting rights, Northern Democrats have unsuccessfully insisted on applying federal enforcement methods to areas other than the ballot box.

In this way, they aim to outbid the GOP for the colored vote quite shamelessly.

Moreover, the Harriman-Wagner-Roosevelt faction in New York outdo the Democrats at Washington. They sponsor a municipal ordinance that would fine and jail property owners who discriminate against tenants because of race, color and creed. And minorities equally as influential as colored people are involved in this racial controversy.

Thus, this important problem, which has worldwide implications and repercussions, is being considered on the basis of politics rather than on its merits or national needs.

DEMS FRAMING MEASURE TO DISCREDIT EISENHOWER

The Democrats seek to discredit President Eisenhower in their manhandling of the public works bill, which provides 1.5 billion dollars for flood control, electric power, irrigation, postoffices and other public buildings. They are framing a measure which will veto for the very reason that led him to disapprove a similar scheme last year.

The Democrats have larded the measure with "pork barrel projects" which have not been approved by the army engineers or budget bureau, as required by law. They have eliminated the lease-purchase plan for construction of public buildings, although more than 300 of these are ready for a start-in-as-many-communities.

The Democrats have paid no heed to official warnings of a veto. They have overruled Republican protests by railroading the measure through committee by the questionable use of proxies, and without benefit of hearings or explanatory reports. Members must vote without knowing what the bill contains.

Their calculated purpose is to force another veto, thereby arousing charges against the administration and states deprived of needed improvements.

Even chairman Charles A. Buckley, Tammany Democrat, protested against these deceptive practices. When his committee friends insisted during his absence a \$500,000 swamp clearing project for Long Island, which had not been approved by the army engineers, he sent word to strike it from the bill.

POSTAL POLITICS—Like the communities which will suffer from this polluting, 500,000 postal workers may be victimized. Here again, the objective is to turn this influential bloc against Ike and the GOP.

The Democrats forced through the house by an overwhelming vote—370 to 38—a pay increase estimated to cost 300 million dollars annually. Every administration leader voted against it, but they could not hold their own ranks against such a vote-getting measure.

Whereas Ike might have approved a smaller increase, he will undoubtedly disapprove this bill on the ground that it is inflationary. If his veto is upheld, which is unlikely, he will be blamed for blocking a raise. If passed over his veto, the Democratic sponsors will claim the credit for their party.

Although the annual accumulation of surpluses will hurt the farmer in the long run, boost prices to consumers and burden the treasury, the Democrats oppose every attempt to reduce production incentive subsidies. They are angling for the farm vote that turned against Ike last year.

(Released by McClure Newspaper Syndicate)

POT SHOTS

ALL GOOD THINGS END

For more than a week, a woman went to work at 8 a. m., parked her car in front of a business establishment and promptly forgot about it. She couldn't see feeding the parking meter an hour early, had the best of intentions about putting a coin in the meter come 9 a. m.

On the seventh day she forgot about her car, she found a little hunk of paper under the windshield wiper of the car when she went out to go home for lunch. That is the story behind the \$1 bond posted by Mrs. Earl Lake for overtime parking.

Of course, if you figure out the money she saved in parking fees, she still got a bargain. On the conservative side, her car was parked in a metered space six hours a day for six days without getting a ticket. At five cents an hour, her parking time would have cost \$1.80. If she had remembered to put nickels in the parking meter.

The way we have things figured out, Professor Lake can continue parking her car in a metered space in front of the Times-News without feeding the meter because she's 80 cents ahead of the game right now.

Now the rest of you folks who are prone to park your cars right in front of the office and feed nickels into the meter all day can sharpen your pencils, figure the odds.

MAGPIES FOR FREE DEPT.

Here's a pet magpie the owner wants to give away. The bird is in fine shape. You can pick it up one and one-half miles south of South Park or phone Sharon Kuest at 3163.

NOW SEE HERE . . .

Dear Pot:

Just what are we maids and widows who have a shelf experience going to do now for entertainment?

Why some people as I. M. Rushed have come in our little corner in Pot columns and just simply made themselves at home. Trying to crowd us out of companionship with our dear beloved Pots. Just is not fair the way we are being used.

But I'm consoled in the thought I do feel the maids and widows are a real blessing to the community in which they live. They give the citizens something to think about, write about, read about and pass about. Good wholesome entertainment for free.

Now back to I. M. Rushed on Pot's corner. I am for once in my life really jealous.

Never Before
(Twin Falls)

Pot Shots note: "Ain't nobody got a corner on this corner."

HOW THINGS APPEAR FROM PEGLER'S ANGLE

The subject of this report on the personal effect of tobacco fumes began his career as a smoker with improvised fags made of a dried autumn weed called Indian tobacco.

This is silvery green in summer when it is used in home, dirt-road therapy as a poultice for abscesses, cancers and a d-d-cum-sumption, some-times called the white plague. It also reduces risings, caused by toothache.

Subject also Westbrook Pegler smoked lily stems in the autumn, but about the age of 9 progressed to Duke's Mixture and Bull Durham packed in muslin bags and a versatile product called Yum-Yum which looked like mule hair and was fitted for smokin' in cigarette or pipe for chewing.

This came in tin foil and blue paper. The price of each product was a nickel.

For about 38 years, subject smoked and smoked. Barring a few weeks in football season when he would bravely swear off, for a total of perhaps six months in smatches thereafter, all of which ended in despair and remorse, he smoked excessively. But at last he got sick and tired of the saturation which fouled his clothing and even caused amaranths from his pores so rank that he could smell himself.

Thereupon one morning he did not light a cigarette before breakfast nor after nor ever since.

During that time, were cancer of the lung reasonably attributed to the smoke of tobacco and the al-

Is That So!

The Transition From Cap Pistol to Rifle

There comes the day when your backward cowboy and his trusty cap-pistol has freed the neighborhood of the last rustler; when the pioneers on your block have routed the last redskin.

Then, your boy and girl will want a gun, a real one that shoots.

That craving, cropping up usually before or in the early teens, is normal and healthy.

Satisfied, under safe and sane conditions need present no great problem to the parent—in fact, it can bring both the parent and the youngster shared fun. And give the boy and girl safe shooting and a lifetime of truly enjoyable sports.

Shooting sports require no special strength or physical prowess. It's possible for boys and girls to compete on equal footing, regardless of age and size.

When to start? The real measure is that of responsibility. If you are ready to leave your youngster at home alone for the evening; if you'd send him to the grocery store shopping with a 10 dollar bill, the chances are the youngster is old enough to shoot a gun, under proper supervision.

Supervised range-firing programs are accessible in almost all parts of this country. Almost 5,000 junior clubs in nearly as many communities in the U. S. and Canada are instructed by thousands of adult members of the National Rifle Association.

In many places, riflery is taught in schools as part of the recreation program. The Boy Scouts, Izank Walton chapters, civic and service clubs, veterans organizations, police and fire departments, churches, community recreation departments, gun clubs, conservation groups and agencies—all these and many other good organizations sponsor shooting programs.

For the beginner, the single-shot .22 rifle is the best—and the \$15 to \$25 the gun costs should be earned by the boy or girl. As for the ammunition, that comes to about a penny a shot. The rifle is the simplest, strongest and safest gun to use. The .22-caliber cartridge is not noisy, and very little muzzle blast and no noticeable recoil. It can be purchased in various weights and stock lengths to fit a youngster's

Reporter Named

RUPERT, July 31—Duties Judge Sherman J. Bellwood, appointed to fill the vacancy created by the death of Judge W. W. Jones as official court reporter, Jones already has assumed his duties, with offices in Rupert, and has moved his family from Fairview, Utah, to Rupert.

COW TESTED

RUPERT, July 31—A Holstein owned by Thomas Meberly, Rupert, produced 110,760 pounds of milk and 3,982 pounds of butterfat in a 329-day test, the Holstein-Friesian Association of America reports.

Individual physical requirements. If the parent is not experienced in shooting, then he should talk to someone who is, perhaps a hunter friend or a National Rifle Association member. He may be willing to start the youngster's instruction or introduce you to your local sportsman's club. Or check with your nearby gun club, conservation club, town's recreation supervisor, school's physical education director, Scoutmaster, 4-H leader, or one of the many youth organizations in your community. Your hardware dealer may be helpful.

For more information about your nearest shooting club, you might write to The National Rifle Association.

FOLKS IN KING HILL

Travel, Entertainment

KING HILL, July 31—Mr. and Mrs. Melvin Helwick and family are on vacation in Yellowstone National Park.

Mr. and Mrs. Gerald Bosh, Mojave, Calif., are visiting his uncle and aunt, Mr. and Mrs. Ernest Sundvall.

Mrs. Beverly Smith, Walnut Creek, Calif., and daughter, Mrs. Gordon Whitehall, Lafayette, Calif., are visiting her daughter, Mrs. Nick Robinson.

Guest of Mr. and Mrs. Hugh Suggs have been Mr. and Mrs. Boyd Gibson, Butte, Mont.

Mr. and Mrs. Carl Turner, Arcadia, Calif., have been visiting Mr. and Mrs. Frank Jones.

Mr. and Mrs. Michael Timbers, Seattle, and William Ash, Los Angeles, are visiting Timbers' cousin, Mr. and Mrs. Tom Timbers.

Mrs. Mildred Miller, Maxwell, Neb., is visiting Mr. and Mrs. Mordant Youre.

Guests of Mrs. Mildred Carnahan have been Mrs. Marion Lattig, Yakima, Wash.

FUNERAL HELD FOR JEROME RESIDENT

JEROME, July 31—Funeral services for Rennie Howard Madison were held Saturday at the Crippin funeral home with LDS Bishop H. Thomas Newman officiating. The grave at the Jerome cemetery was dedicated by Gail Williams.

Levi Cunningham, Nina Cunningham and Evelyn Munk sang. The invocation was given by Evert Youngberg, Weiser. The obituary was read by Bishop Newman, the benediction was given by Dever Gail and Bishop Kenneth Moser, Weiser.

Funeralbearers were John Maxey, Jack Richards, Dennis Blair, Melvin Jones, Tommy Jackson and Maurice Potlimer. Attendants, under the direction of Mrs. Newman, were in charge of flowers.

JOIN CLUB

WENDELL, July 31—Leon Strickland, Wendell, has been accepted for junior membership in the American Guernsey Cattle club.

Gnu Arrival

CHICAGO, July 31—No gnu is bad news.

So said the Brookfield zoo Monday, as it announced with parental pride that a new gnu is in the zoo.

ATTENDING CONFAB

CLOVER, July 31—Mrs. Elmer Fischer and Mrs. Arthur Kaster, members of the Clover Trinity Lutheran church, and the Rev. Carl Loser, pastor, are attending the International Lutheran Women's Missionary league biennial convention in Minneapolis, Minn.

REPORTER NAMED

RUPERT, July 31—Duties Judge Sherman J. Bellwood, appointed to fill the vacancy created by the death of Judge W. W. Jones as official court reporter, Jones already has assumed his duties, with offices in Rupert, and has moved his family from Fairview, Utah, to Rupert.

VIEW OF OTHERS

A DANGEROUS LURE

Dyersburg, Tenn., has offered the Heckethorn Manufacturing and Supply company a subsidy so Heckethorn is folding up shop at Littleton, Colo., selling its plant and moving away. With it will go a payroll which at times numbered as many as 1,200 persons.

Littleton will be sorry to see Heckethorn leave but Littleton is a stable and growing community which will continue to prosper in spite of the evacuation. Thanks to the location of the new Martin plant near Littleton, the departure of Heckethorn will have only a minimum effect.

The city of Dyersburg has issued bonds to build a new plant for Heckethorn, which will pay enough to amortize the bonds in 20 years. At the end of which time the company will have an option to buy the plant.

During the first 20 years the city will own the plant so it will be free of property taxes. The company gets a tax-free plant and is saved from the necessity of raising capital for construction costs.

Dyersburg is merely using the same lure that a number of other southern cities have employed to get industries to move into their communities. The tax subsidy gimmick has a strong appeal (1) for ambitious small cities and (2) for marginal profit industries to whom the saving of tax bucks is highly important.

Tax subsidy schemes are indefensible from the standpoint of economics and public policy. It is unfair for one company to escape property taxes when its competitor does not. Why should a few industries be picked out for special tax favors unless the general taxpayers are willing to subsidize all industries?

Subsidies of this kind are helping to make the American tax system unbearable. As far as federal income taxes are concerned, half the income in the country today is tax free or tax favored. Flat tax write-offs, depletion allowances, special allowances for "capital gains" and scores of other loopholes give favored treatment to so many companies and individuals that rates on less favored taxpayers have become back-breaking.

Any tendency to corrupt the real property tax system, as the income tax system has been corrupted, by granting special subsidies and favors, should be discouraged. Dyersburg may believe it has made a smart move by persuading Heckethorn to move there. But in doing so it has perpetuated an inequity which strikes at the heart of sound government, which must rest on fair and impartial taxation.—Denver Post.

TEST FOR ADENAUER

In mid-September the West Germans will hold one of the most important European general elections of the entire postwar era. At stake will be the political future of Chancellor Konrad Adenauer, long one of the West's stoutest friends.

Very likely in the balance, too, will be West Germany's continued major participation in NATO and its possible future cooperation in the so-called common European market, a program of economic unification.

Defeat for Adenauer probably would elevate the Social Democratic party to power. The Social Democrats have been relatively cool to the idea of strong ties with the West, favoring instead a neutrality they believe may promote early unification of West and East Germany.

Realists feel, of course, that the Soviet Union would simply find new reasons for opposing unity if the Socialists won. In that event, the disillusioned winners might turn as strongly to the West as Adenauer has.

But Western diplomats prefer the certainty of Adenauer's allegiance to the shaky prospect of a Social Democratic regime. The known is always more attractive than the unknown.

What they may well fear as much or more than a Socialist victory, however, is a narrow squeak for Adenauer which would put him at the head of a fragile coalition vulnerable to the first stiff opposition winds.

Word from Berlin is that the Kremlin is hoping for just such a result, since this outcome above all will make difficult the framing and executing of strong West German policy.

Unhappily, the opinion polls taken thus far indicate that a narrow verdict is very much in the cards. Both Adenauer's Christian Democrats and the Social Democrats are showing about the same strength, with roughly a fifth of the voters split among many smaller parties or listed as undecided.

A half-breath triumph for Adenauer would not necessarily be disastrous, for the old man's powerful personality conceivably could help him pull through programs in spite of all. But clearly the strain on him would be great and he is already 81. His death while at the helm of so wobbly a government would open the way for grave trouble.

We in America—and the whole Western world—must pray that between now and Sept. 15 the fortunes of Konrad Adenauer advance sharply from their present shaky status.

We bet that moths are having as good a time in your winter clothes as you're having in your summer ones.

Search Begun For Needs of Pageant Show

JEROME, July 31.—Properties for the presentation of the pageant to celebrate the 50th anniversary of Jerome Aug. 28 to 29 are being sought by W. R. Churchman, properties chairman.

Churchman has a two-page list of items needed for the show. His needs are varied and, in some cases, unusual. Included are such items as covered wagons, buckboard, buggies, Indian tipis, tandem bicycles, antique automobiles, a locomotive, hand bells, flags and an iron-kettle.

The pageant will utilize approximately 300 persons. Mrs. Lois Jean Miller is chairman of the cast committee and has selected organizations to help her recruit the cast.

For the prologue Job's Daughters, Girl Scouts and Boy Scouts are the sponsoring organizations. The Indian group for the pageant is being sponsored by the Friendly Neighbors club and Explorer Scouts and the Pioneer group is being sponsored by the Appleton and Canyonside Granges. The Jayces and Jay-C-Ettes are sponsors of the Gay 90s group while the Lady Lions will handle the Early School group. Carol Wilcomb's dance studio will supply Charleston dancers and Lee Hendricksen the square dancers.

Rehearsals will be held by groups and the entire cast will not be brought together until Aug. 25 when two rehearsals, one at 2 p. m. and the other at 7:30 p. m., will be held.

Man Is Guilty on Youth Act Count

Junior Roland Jordan, 27, Castelford, was sentenced to 90 days in jail and fined \$100 and \$3 costs Wednesday in Twin Falls justice court after pleading guilty of encouraging a minor to violate state youth rehabilitation act.

The court withheld jail commitment provided he pays the fine within a 90-day period.

A charge of statutory rape against Jordan was dropped and he was permitted to plead to the lesser charge.

Prosecuting Attorney James M. Cunningham said the principal witness is reluctant to testify because she has married since the complaint against Jordan was filed on April 11, 1957.

Driver Jailed

RUPERT, July 31.—Louis Matlock, Rupert, was sentenced to two days in jail Tuesday in Rupert police court on a charge of driving a vehicle while his license was suspended under the financial responsibility act.

He also was fined \$50 and \$3 costs on that charge and \$5 and \$3 costs on a charge of driving with a noisy muffler. The judge suspended \$40 of the fine.

TWO ARE FINED

RUPERT, July 31.—Joseph Gough, Jerome, and Monroe Bragg, Austin, Tex., were fined \$25 and \$3 costs each Tuesday in Rupert police court on charges of public intoxication. In lieu of the fine the latter is serving five days in jail.

OPEN FRIDAY NITE TILL 9

Arms Parleys May Blow up At Any Time

WASHINGTON, July 31 (AP)—If there is a London explosion it will be the disarmament talks blowing up.

The United States and Russia while their representatives in London have talked about disarmament five months—have been building up their armaments.

This, at least, is a tribute to their suspicion of each other.

It is against this background of suspicion and getting ready, just in case—that the talks have been held, along with Britain, France and Canada.

Little Hope

It hardly makes for optimism about the outcome of the talks. There isn't much.

Now Secretary of State Dulles has gone to London for a personal look although Harold Stassen, the American representative, has been keeping this government informed. Dulles made the trip on orders from President Eisenhower.

Officials here said Dulles will decide whether to continue the talks or call them off.

If for no other reason than world opinion, Dulles may want the talks to go on so long as the Russians are willing to talk or listen.

In the end, therefore, the talks may wind up in a whisper.

Stassen hasn't actually been talking about any major disarming of this country. In a speech last week Dulles made it plain this country would keep its nuclear weapons.

Stassen has been talking about early first steps to build up some mutual trust like a suspension of nuclear tests and aerial and ground inspections.

Dulles last week even talked about opening the entire continental United States to inspection if the Russians would do the same with Russia.

This is going pretty far. And it would be a long way off in the future. And when Dulles said that, he didn't know whether congress would ever approve of a plan like that.

Any agreement with Russia—such as another Dulles proposal on starting off with inspection limited to the Arctic circle—would be thoroughly examined by congress.

And congress won't be able to do a thorough job until it returns in 1958. So any agreement could hardly go into effect before sometime next year.

Conditions

But Dulles—just as Stassen before him—made proposals so hedged around with conditions that the Russians may say no anyway.

For example:

There could be a 10-month suspension of nuclear weapons testing. But this was tied in with agreement on an inspection system which would have to be in business before the end of the 10th month.

But the Russians have proposed an immediate and unconditional halt to nuclear weapons testing for two or three years and an agreement to outlaw the use of nuclear weapons.

The United States, to prevent big surprise attacks by either big power, wants aerial and ground inspection. Russia has accepted the principle of aerial and ground inspection.

But Russia isn't clear on what kind of ground inspection. Perhaps inspectors frozen in one spot.

After five months of talk the London fog is still thick.

Oil Industry's Problems Put "Ike" on Spot

NEW YORK, July 31 (AP)—On paper the oil industry looks plenty rich. World-wide production is up. Demand is expected to increase steadily for years. Profits for many companies are at all time highs.

But even the wealthy have their family feuds. And their poor relations.

President Eisenhower has just stepped into the middle of one of the bitterest fights—the squabble over how much foreign oil should be brought into the United States, most of it along the eastern seaboard.

He wants the amount cut voluntarily to 12 percent of domestic output instead of the 16 percent scheduled by importers. This plan carries a threat of federal control, if ignored.

This comes in a summer already marked by oilmen's worries over a glut in supplies and price rises that are hard to make stick. Four groups could be affected by the President's plan:

1. Producers. Domestic well-owners are in a cut in imports, the chance to increase their own production, now held to 13 days a month in Texas by the regulatory bodies. Companies with large overseas oil sources see their profit margins narrowed if they can't bring in as much of the oil they produce as they are allowed.

2. Consumers. Their interests are simple. They want plenty of gasoline and fuel oil and they would like to see the price held down rather than rising again.

3. Defense planners. Their interest is in enough reserves being found in this country and enough production facilities developed by a prospering domestic oil industry to take care of any emergency, such as the possible cutting off of foreign sources by an enemy.

4. Other producing nations. Other friends, particularly Venezuela, profit greatly by sale of oil to the United States. The oil rich Arabian countries eye ruefully anything that might cut into their royalties.

The President's order for a voluntary cut in imports is aimed chiefly at the third group, the defense planners. Their argument: "The domestic oil industry must be kept prosperous or the incentive for drilling new wells will disappear. Wildcaters are not too interested in bringing in wells that can be operated less than half time.

Seven of the biggest American companies import most of the foreign oil. All but one have reported on their first half earnings. Profits for the six jumped strikingly this year over last. They say imports have little to do with that. The bonanza came when the Suez canal was blocked, opening up a big new, but temporary, market in western Europe which helped drag off much of the over supply of oil that had piled up here.

In all 26 U. S. oil companies have reported so far on first six months operations. Nine of the smaller ones, each with only domestic supplies, show a decline in profits from a year ago.

The 26 as a whole, however, earned \$1,222,029,133. This was 18 percent better than the same 26 did in the first half of 1956.

The big boys are quick to point out that much of the earnings are being retained, and more will be needed, to carry out their planned expansion—looking for the oil reserves and building the facilities that the defense planners want. Over the next 10 years, oil economists figure, the U. S. industry must raise 115 billion dollars if it is to keep up with increasing world demand.

Mrs. Etter, 42, Is Claimed by Death

JEROME, July 31.—Mrs. Kathryn Thompson Etter, 42, died following a long illness at noon Tuesday in St. Benedict's hospital in Jerome. She was born Aug. 11, 1914.

Surviving besides her husband, J. Etter, are two sons, John J. Etter, Jr., and Roland Douglas Etter; her mother, Mrs. Grace Thompson; twin falls: three sisters, Alice Johnson, Merrillan, Wm. Skinner Thompson and Mrs. Ivan Skinner; and a brother, J. D. Thompson.

Funeral services will be held at 10 a. m. Thursday in Episcopal church of the Ascension, Twin Falls, with the Rev. Norman E. Blockwell officiating. Memorials are suggested to Episcopal Church of the Ascension, box 467, Twin Falls. Funeral services are under the direction of the Crippin funeral home.

Cost of Food Hits 25-Month Record

NEW YORK, July 31 (AP)—Wholesale food costs as measured by Dun and Bradstreet touched a 25-month high this week.

At \$63.7, the index was the highest since the \$62.4 reported by Dun and Bradstreet on June 28, 1955. It is up 4.8 percent from a year ago, and a shade higher than last week's \$63.5.

The index represents the total cost at wholesale of one pound each of 31 basic food items.

PLOT TOLD

AMMAN, Jordan, July 31 (AP)—A young army officer testified yesterday at a court martial of 14 Jordan army officers that Russia and Egypt were ready to come to their aid in a plot to kill King Hussein.

The first shot of the Civil war was fired from Charleston, S. C., by the Confederates at Ft. Sumter in Charleston harbor.

Eight Divorce Actions Tried In Area Court

RUPERT, July 31—Eight divorces have been granted in district court here by Judge Sherman Bellwood.

George W. Harrell has been granted a divorce from Millie S. Harrell on grounds of cruelty. The action was started by Mrs. Harrell but the decree was granted on a cross-complaint. Cassia county real estate was awarded to Harrell and personal property to Mrs. Harrell. She was represented by Neilson and Nielson, Burley, and Harrell by Thomas H. Church, also Burley.

Vealton G. Teal has been granted a divorce from Phyllis Teal on the grounds of desertion. He was represented by Cresson and Cresson. No property or children were involved.

Iva Knight has been granted a divorce from Edmond J. Knight on the grounds of cruelty and was awarded custody of two minor children. Knight is to pay \$100 a month for support of the children. She was represented by Cresson and Cresson.

Judge Bellwood heard the divorce case of Ellen Hlavaty against John Hlavaty because Mrs. Hlavaty, through her attorney, J. W. Taylor, disavowed Judge A. Baker. Judge Bellwood granted the divorce on the grounds of cruelty. He granted her property in Buhl and household goods and awarded an automobile to the defendant.

Trena Lawrence was awarded custody of one child and William Lawrence was awarded an automobile in the divorce action she brought against Lawrence on the grounds of cruelty. The defendant also is required to pay \$35 a month for the support of the child. She was represented by Dean Klopfer.

Donna Gries was granted a divorce from Orla Gries and her maiden name of Dona Williams was restored. She was represented by J. L. Burgess.

Wanda McFarlin was granted a divorce from Homer McFarlin on the grounds of extreme cruelty. She was awarded custody of three minor children and \$50 a month for their support. The defendant received an automobile and trailer house.

Robert Beck won a divorce from Dorine Beck on the grounds of desertion. The defendant was awarded custody of two minor children and \$78 a month support for each child. He was also ordered to pay \$15 a month on a \$600 indebtedness owed by the defendant.

Small Atomic Battery Seen

WASHINGTON, July 31 (AP)—The atomic energy commission today announced development of a time-size atomic battery of a type that may ultimately power equipment "in guided missiles and space craft."

In its semi-annual report to congress, the AEC said the still experimental battery is capable of powering a wrist watch in its present stage of development. It has a useful life of more than five years and an output of 30 microwatts.

"Although not yet available for everyday use," said the AEC, "larger future models of the battery are expected to power portable radios, hearing aids, and equipment in guided missiles and space craft."

The battery employs a radio-active isotope called Promethium 147 as a power source.

Grangers Initiate Couple for Group

SHOSHONE, July 31—The obligation for new membership to Wood River Center Grange was given Saturday night to Mr. and Mrs. J. C. Williamson.

The group voted to start a petition on the organization of a fire district. Members of the committee to promote the project are James Franks, Earl Vincent, Russell Kelley and Adolph Braun.

Mrs. Donald Sandy and Franks reported for the fair booth committee. The members voted to enter a float in the fair parade Aug. 9.

Mrs. Ward Mills, lecturer, was in charge of the program. Participating were Eddie, Diana, Maria and Julie Nunes, Yuba City, Calif., and Williamson, who spoke. Hostesses were Mrs. Will Sant and Mrs. Del Glaumier.

Minnesota Area Eligible for Aid

WASHINGTON, July 31 (AP)—The agriculture department today designated Beltrami county, Minn., as an area where the farmers' home administration may make emergency loans to eligible farmers.

This brings to 28 the number of Minnesota counties recently designated as emergency loan areas. The department said recent heavy rains, hail, and floods have caused severe crop damage and some building losses in the area.

Fallen Angel

This is a view of Mexico City's famed Independence Pillar, in the Paseo de la Reforma, as it was (left) before the death-dealing earthquake which rocked the city. The temblor toppled the figure of an angel that surmounted the 90-foot-high marble column (right). Many feared the fall of the gilt and bronze figure as an omen of further ill fortune. (NEA telephoto)

Results

In Girls' football league play

Tuesday, Helen's Record Shop Bonsters pounded out a 37-0 victory over Barton's Time-Keepers. Pitcher Alene Walker doubled and homered and Vida Brubaker, Colene Welker and Jo Hunter doubled for the winning team. Janice Bates was charged with the loss.

Pitcher Janice Prather doubled to help the Daisy Dell Hatters win 11-7 over White Music Center Tom Toms. Jean Mansur tripled and Diane Otto pitched for the losing team.

Magic City Roofers opened Peewee league action Tuesday by slaughtering the B-and-W-Plovers 14-1 with Oberg pitching, doubling twice and homering once. He was assisted by three homers by Darrington and one by M. Sorenson. Beaumann, Dondanville, and pitcher Mikesell doubled for the losing team.

U. S. Marine Raiders beat the U. S. Rock Wool Rockets 30-18. Pitcher Graybeal hit a double, Harvey slapped two triples, Brock smashed one home and Carr, two, for the winning Raiders. Flint doubled and homered and Hery homered for the losing team.

Sawney's Sky Larks won 9-3 over the C. C. Anderson Yankees and the Arctic Circle Brown-Toppers won 8-5 over Mill's Truck Stop Mustangs in two Peewee league games Tuesday.

In the newly-formed Pioneer league, Miller's Super 60's won 10-7 over the KTFI TNT's. Miller was winner and Jacobson, loser.

The National League's Larsen Real Estate Christians forfeited to the Valley Christian Giants. Riser-Cain Sluggers topped the Andersons and Brock Nallers 23-1 with triples by Ochener and pitcher Kirk Williams. Ochener hurled for the losing team.

All State Crusaders turned in a 10-9 win over Union Motor Ranchers with Joe Gillespie hurling and tripling for the winners, assisted by two doubles by S. Caudill, J. Brown and J. Hawley hit one double each. C. Talkington was losing hurler.

Youtz pitched as the Butler Steelers won 5-4 over Sweet's Sluggers. Hunter doubled for the winners and Cummings doubled, Guyer tripled and Farmer pitched for the losing team.

In the only Minor league game played Tuesday, Routh's Conoco Oil-

Skunked

POND DU LAC, Wis., July 31 (AP)—A man's best friend is his skunk, Walter Brandt, 35, said today.

A judge fined him \$25 for running his hot water tap night and day after his landlady ordered the animal out of the building.

ers forfeited to the Bank and Trust Greenbacks.

Valley Gas Blue Flames won by forfeit of the Lung Valley Rusties in a Major league game.

Bennett's Junior Bruins won 10-2 over the Taster Preez Tigers with D. Rasmussen pitching for the winners and J. Clark for the losers. A double was hit by B. Guffey.

The Sun Valley Stage Busters won 12-10 over the Yellow Cab Yellow Jacks in the only Pony league game played Tuesday. R. Motherhead hit the only triple and double of the game for the Yellow Jacks and pitcher Larry Satterwhite doubled twice for the losing team. L. Spears was charged with the loss.

Twin Falls Feed and Ice Cougars won 8-3 over the Kimberly Drug Dodgers in a Doughnut league game. Pitcher B. McCluskey slapped a triple and T. Adams, R. Bennett and J. Reed hit doubles for the winning Cougars. Pitcher R. Eller hit a triple for the losers.

Mitchell's Sky Chiefs lost 11-4 to the Fidelity Bankers with Steve Humphries as winning pitcher. Dave Lincoln and Robby Elephant tripled for the winners. Grant Van Houten was losing hurler.

The Jewell Studio Giants defeated their 19-7 win over the Gore Motor Adventurers to doubles and homers by Carter and pitcher Mac Humphries and other homers by H. Kelly and G. Luchin. Kattuff tripled and Peltman and Stanley doubled for the losers. Hansen was charged with the loss.

G. Smith hit the only double of the game to help the Idaho Power Livewires beat the Coca Cola Pizkies 5-2. Ed Smith was credited with the win. Boyd Given was losing hurler.

O. Smith hit the only double of the game to help the Idaho Power Livewires beat the Coca Cola Pizkies 5-2. Ed Smith was credited with the win. Boyd Given was losing hurler.

Youtz pitched as the Butler Steelers won 5-4 over Sweet's Sluggers. Hunter doubled for the winners and Cummings doubled, Guyer tripled and Farmer pitched for the losing team.

In the only Minor league game played Tuesday, Routh's Conoco Oil-

Board of Fair Marks Out Its Parade Plans

SHOSHONE, July 31—The parade for the Lincoln county fair again will be sponsored by the Chamber of Commerce and will begin at 10:30 a. m. Aug. 9 at the north corner of the courthouse lawn.

Mrs. Nina Murphy is general chairman of the children's division and Sheriff Thomas Conner and Deputy Sheriff Charles Peugh are overall chairmen of the event. There will be four divisions for the parade this year, including costumes, vehicles and pets, ponies and livestock and floats and machinery.

The parade will be led by a color guard, Boy Scouts, Cub Scouts and a band under direction of Burton Thorne.

There will be four prizes of \$1 in each of the various divisions of the "four sections." Under costume section, there will be clowns, story book characters, period characters, comic characters and other characters. Under vehicles and pets will be buggies, bicycles, wagons, other vehicles and pets.

Persons and organizations from Richfield, north of Shoshone and Dietrich are urged to enter floats in the parade, Mrs. Murphy said.

Judges for the various sections include Mrs. L. M. Hatmaker, chairman; Mrs. Ralph Anderson, Mrs. A. Hansen and Mrs. Marx Nielsen, section 1; Mrs. Harrell Thorne, chairman; Mrs. Joe Broyles, Mrs. Charles Pedleton and Mrs. Richard Mabbutt, section 2; Sheriff Conner, Deputy Sheriff Peugh and J. Howard Manning, county agent, section 3; Rupert Manning, Jack M. Murphy and Omer Shook, section 4.

Secretaries Get Words of Advice

LAS VEGAS, Nev., July 31 (AP)—Here's some advice for secretaries:

"Do what the boss tells you. Don't try to run things. Stay out of his personal life and he will stay out of yours."

This formula for success was given by Mrs. Jean Hecker, 44, of Los Angeles, who yesterday was named the "legal secretary of the year" by the 5,000-member National Association of Legal Secretaries in convention here.

Atom Reactor to Generate Current

LONDON, July 31 (AP)—Scotland has received permission to build its first atomic power station.

Secretary of state for Scotland told the house of commons yesterday that a \$102,600,000 nuclear generating plant will be built in southwestern Scotland. It will produce one-fourth of the total output of electricity for the south of Scotland.

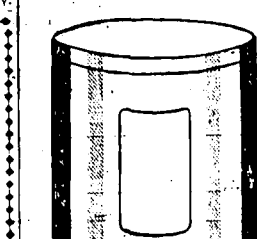

PICNIC SERVED
BUHL, July 31—The Southcentral Idaho Jersey Cattle club was host to the Idaho State Jersey club at a picnic Sunday at the Buhl park. Nell Matthews, New Plymouth, state president, spoke.

Needs Push

CLYDESDALE, England, July 31 (AP)—Britain's Princess Alexandra smashed a bottle of champagne against the bottle of the new royal navy frigate Jaguar yesterday—and the ship stayed put.

While embarrassed officials scurried about, the princess rose to the occasion and gave the ship a mighty shove. It slid down the slipway.

Cattle Rustling Plagues France

HEIMS, France, July 31 (AP)—Cattle rustling in northern France today considered setting up an American "vigilante" committee to capture a band of rustlers operating in the area for the past three years.

Police estimated the rustlers, who staged their latest raid two nights ago, have stolen 150 cattle since 1954. They said the gang first scouts around for a "suitable" herd, then drives up at night with a truck, taking the best cattle for the Paris market.

The gang's latest raid flopped because the cattle themselves sounded the alarm by the noise they made.

PEACEFUL
LITTLE ROCK, Ark., July 31 (AP)—A couple who took out a marriage license ought to have a head start on a peaceful life together. He is Billy Olive. She is Lorene Branch.

Graduates Plan Reunion in Buhl

BUHL, July 31—A banquet and dance will be featured Saturday evening during the reunion of the Buhl high school class of 1932.

Registration will begin at 6:15 p. m. at the Buhl Moose hall with the banquet beginning at 7 p. m. Women of the Moose will serve. Mr. and Mrs. Robert Tucker, Twin Falls, will lead the grand march to begin the dance.

Tucker and Mrs. Ivan Bonar will be in charge of the program during the banquet. Prizes will be awarded. On Sunday, class members and their families are invited to a picnic at the city park. Cake, ice cream, coffee and punch will be furnished. Members are asked to bring food and their own table service.

PLANE TYPES VARIED
WASHINGTON, July 31 (AP)—The nation's air guard flying program is "real good" but there are too many types of airplanes in it, an Idaho officer told the air force association yesterday.

Thunderjet to Be Shown Here in Air Force Anniversary

This specially modified F-84A Thunderjet fighter-bomber will be exhibited by the air force during the 50th anniversary of the air force in Twin Falls Saturday. Metal side panels have been cut-away from

the aircraft to expose its engine, flight controls and other intricate equipment. The trailer's special ramp permits spectators to inspect the Thunderjet more closely. (U. S. air force photo—staff engraving)

Air Force, National Guard to Bring Displays of U. S. Airpower to T. F.

Aerial and ground displays of U. S. airpower will be shown at Twin Falls Saturday as Magic Valley's share in commemoration of the birth of the U. S. air force 50 years ago.

First Lieut. George Haney, Twin Falls information service officer for the 9430th air force reserve squadron, said Wednesday the fourth air force and the Idaho air national guard will cooperate in demonstrating Uncle Sam's aerial might over Twin Falls.

Latest jet aircraft will make two passes over the city of Twin Falls and a low level flight over Joslin field between 1 and 5 p.m. The air-planes will be sent here from Gelzer field, Spokane, and from Gowen field, Boise.

28 Are Given State Permits As Engineers

BOISE, July 31 (AP)—The Idaho state board of engineering examiners announced yesterday the names of 28 men licensed as professional engineers.

Professional engineers with special qualifications in civil engineering are Keith Anderson, Lyle Shumway, Leland Hatch, Robert Ramey, Eugene Burbridge, and William Syble, all of Boise; Cabell Fearn, Mountain Home; Howard L. E. Johnson, Montpelier; Philip F. Puchner, Sun Valley; Clifford Albert Taylor of the University of Idaho, Moscow; Max N. Jensen and Hyrum Woodward, Pocatello; Harry C. Ames, Idaho Falls; Elmer Peterson and James Skiles, Burley; Dean Tisdale of Shoshone; Charles Sahde, Ponce; Robert T. Pittard, Rupert; and Cecil Hathaway, Lewiston.

Those with special qualifications in agricultural engineering are Bill Berry of Twin Falls and Galen McMasters of Aberdeen.

Specialists qualified as mechanical engineers are Lawrence Hegman, Pocatello, and Eugene Thurston, Idaho Falls.

Robert Noble was licensed as a land surveyor.

Payment of Bills Sought in Court

The Statewide Adjustment bureau filed two separate indebtedness complaints Tuesday in Twin Falls justice court through its attorney, Harry Turner.

A complaint against L. C. (Bud) Howard states he is indebted to Sears, Roebuck and company for \$79.71 plus interest.

The bureau claims Leonard Lingnaw owes Long's Radio and Television shop a total of \$19.20.

Parking Fines

A total of \$25 in bonds was posted Tuesday with Twin Falls police for parking violations. N. S. Herzner posted \$3 for three parking citations.

Posting \$1 bonds for overtime parking were Mrs. Earl Lake, David Hill, Lloyd Hamilton, Hattie Gully, Helen Sims, Harvey Pierce, Don Mason, Russell Hardy, D. R. Cooper, W. H. Buckley, Edward Evans, Dale Wilson, Ivan Lincoln, Jerry Jones, Alfonso Ralph, Mrs. Dale Jordan, Lillian Dougherty, Mrs. L. H. Shurtlett, J. R. Wright, H. W. Zimmerman, Betty Lough and Mrs. Given Van Noy.

The celebration here, he added, is sponsored by the Chamber of Commerce and its Commercial division.

Vows Exchanged in Church

MR. AND MRS. ROBERT STOVER
(Keller photo—staff engraving)Twin Falls Miss
And Stover Wed
In Church Rites

JoAnn Blessing, daughter of Mrs. Twyla Dodson, and Robert Stover, son of Mr. and Mrs. Edward Stover, exchanged vows Sunday at the Immanuel Lutheran church.

The Rev. Armand E. Mueller, officiated at the double ring ceremony before the altar decorated with baskets of gladioli and pink daisies and white candelabra. Mrs. Frank Ponda was organist.

The bride, given in marriage by Vearl S. Cinar, was wearing a white lace off-the-shoulder dress of ballerina-length over tulle. The dress was designed with a fitted bodice, flaring out at the waistline, and a dove tail skirt back. She wore armlets of matching white lace lined with nylon net and edged with white barley pearls. They were designed and made by the bride's mother.

Her waistlength veil was of nylon net—double gathered around a scalloped crown of seed pearls. Her earrings were of aged pearls and rhinestones. She carried a bouquet of pink roses tied with pink net and white ribbon edged with lace, streamers of white ribbon and roses tied to the hemline.

Joyce Blessing, sister of the bride, was maid of honor. She wore a princess style gown of pink crystal, accented with a wide pink velvet ribbon encircling the high waistline and forming a bow in back with streamers to the hemline. She carried a bouquet of pink chrysanthemums tied with pink ribbon and net.

Kathleen Fry, cousin of the bride, and Lola Johnson were bridesmaids. They wore aqua tulle or crystal, designed the same as the maid of honor, and carried bouquets of aqua chrysanthemums.

DeLora DeWitt served as best man. Robert Creed, Lynn Spackman and Bryce Fry, uncle of the bride, were ushers.

Candlelighters were Sharon Johnson and Lola Slater. They were wearing pink crystal.

Miss Jackson Is
Bride of Nickel
In Home Ritual

WENDELL, July 31—Carol Ann Jackson, daughter of Sen. and Mrs. William Jackson, became the bride of Walter Nickel, son of Mr. and Mrs. Paul Nickel, Twin Falls, in services Friday evening at the home of the bride's parents.

Bishop Evan M. Willard performed the double ring ceremony before a background of candelabra and tall bouquets of pink and white gladioli. Bouquets of pastel flowers were used throughout the house.

John K. Frances sang "Because" and "I Love You Truly." He was accompanied by Joyce Stephenson who also played background music.

The bride, given in marriage by her father, wore a ballerina-length gown of white nylon tulle. Charming lace, pearl and iridescent sequins trimmed the short sleeves, bodice and the edge of the pleated skirt panels. Her elbow length veil of illusion net was held in place by a matching seed pearl and sequin crown. She wore a single strand of pearls—a gift of the bridegroom. She carried a bouquet of sweetheart roses centered with a rosebud corsage.

Barbara Smith was maid of honor. She was wearing a pink sheer crystal dress with iridescent white bows. She carried a bouquet of feathered white carnations.

Gilbert Russell, Twin Falls, was best man. Norman Jackson, brother of the bride, and Gerald Eisenhauer, Twin Falls, were ushers.

The mother of the bride chose a tulle sheer dress with white accessories and a gold carnation corsage. The bridegroom's mother wore a black and white polka dot nylon sheer dress with a corsage of red flowers.

Approximately 200 guests attended the reception at the Wendell ward LDS church immediately following the ceremony.

The five-tiered cake, topped with a miniature bride and groom, was centered on a lace covered table, flanked with green tapers in crystal holders. Mrs. Susan Stevenson baked and decorated the white and pink cake. Mrs. Glen G. Anderson served the cake and Mrs. Robert Byce and Mrs. Norman Jackson served. Mrs. Gene Richeson, Mrs. Monte Peterson and Karen Johnson poured.

Mrs. R. O. Peterson attended the guest book. Mrs. Keith Anderson, Mrs. J. Glen Anderson, Mrs. Cleo Prince and Mrs. Loran Stephenson arranged the gift table. Gifts were carried by Gertrude Nickel, Hilda Nickel, Lola Chandler, Marilyn Barus and Sharyn Willard.

Gene Barrus gave the invocation. Chancy Willard was master of ceremonies. Mrs. J. Forrest Weaver sang "Through the Years" and "O Promise Me," and Mrs. Cleo Prince, Mrs. W. A. Gold, Mrs. Loran Stephenson and Mrs. Raymond Rothman sang "Melody of Love" and "Dancing and Dreaming."

Mrs. Everett Conrad, Gooding, and Mrs. Melvin Allred presented readings. Miss Stephenson accompanied the singers and played background music. The George Lancaaster gave the benediction. The remainder of the evening was spent dancing.

The new Mrs. Nickel chose a blue linen sheath dress with white accessories and the corsage from her wedding bouquet for her traveling ensemble. On return from a trip to Yellowstone national park the couple will live in Twin Falls.

The bride was graduated from the Wendell high school and attended the LDS nurses training school in Idaho Falls. She is employed in the office of Dr. H. P. Hollinger.

The bridegroom attended school in Hanover, Germany, and served two years with the armed forces in Korea. He is employed by the Challenge Creamery in Twin Falls.

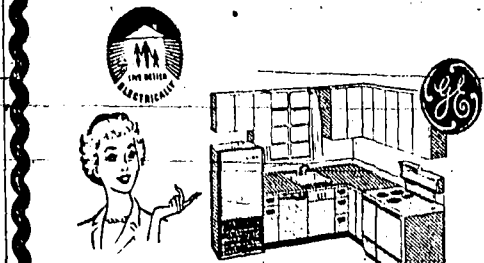

Out-of-town guests were Mr. and Mrs. R. J. Eisenhauer and Shandy Eden; Karen Johnson, Rigby; June Huskey and Yolanda Gibbs, Boise; Gilbert Russell, Mr. and Mrs. Gerald Eisenhauer, Mr. and Mrs. C. A. Strohmeier, Mr. and Mrs. Kenneth Mason and Mr. and Mrs. Gary Prosser, Twin Falls; Mrs. Sam Wright, Orem; Mrs. Anthony Castellano, Los Angeles; Mrs. Kenneth Winkler, Lebanon, Ore.; Mr. and Mrs. George Arfarian, Binghamton, N. Y.; Mr. and Mrs. George Crozier, Mrs. Erma Simpson, Carl Simpson and Mary Davis, Jerome; Mr. and Mrs. Forrest Wright, Mr. and Mrs. William Pyle, Mr. and Mrs. Darrell Anderson, Mr. and Mrs. Ben Goeckner, Mr. and Mrs. Noble Turner, Mr. and Mrs. Keith Anderson and Mr. and Mrs. Everett Conrad, Gooding, and Mr. and Mrs. Robert Byce, Bliss.

Picnic of Group
Is Held at Park

Country Woman's club met Sunday afternoon at the city park for their annual family picnic.

Guests were Mrs. George Bice, Mr. and Mrs. Ernest Allred, Vicki Bowman, Mr. and Mrs. M. P. Kenworthy and Frank Winkler, Murtaugh.

The next meeting will be held Aug. 12 at the home of Mrs. Edward Waldo. The Rev. James R. Crow will speak on the Idaho Ranch for Youth. Mrs. Nora Lewis and Mrs. Louis White will be hostesses.

MRS. WALTER NICKEL
(Ambrose photo—staff engraving)Wolverton Family
Meet for Reunion

RICHFIELD, July 31—The W. H. Wolverton family held a reunion Sunday at Antelope creek, near Arco.

Sons and daughters of the couple and their families attending were Mrs. Sterling King and family, Mrs. Vern Spencer and family and Eugene Wolverton and family, Richfield; Ralph Wolverton and family, Rupert; Ivan Wolverton and family, Pocatello; and Mrs. Keith Thompson and family, Jerome.

Cpl. Clyde Wolverton, Germany; Dee Wolverton and family, Hawthorne, Nev., and Mrs. Bart Ambrose and family, Jerome, were unable to attend.

Report Is Given

KING HILL, July 31—It was reported that the ice cream social sponsored by the Women's Missionary finance committee held Friday evening at the church basement netted \$45. Mrs. Mildred Carnahan and Mrs. Frank Jones were in charge, assisted by Mrs. Terrell Foster, Mrs. Clyde Cox and Mrs. Jack Craig.

Care of Your Children

By ANGELO PATRI

Children, "hate" is a bad word so you will do well for yourself and other people if you do not use it. Say you dislike snap beans and feel like saying so out loud, something you really should not say because they are good to eat. Just be content to say, "I don't like them" and let it go at that.

Words are not the innocent things they seem. They have great power in influencing people's thinking and consequent action. Some of them, like love, and its opposite, hate, have brought peace and made war. One should have great respect for words and use them thoughtfully.

Hate is the name for a bad feeling, a terrible feeling that can and has moved people to do shocking things. We all have that feeling well hidden inside our minds and we might better smother it there than let it loose in words we will never can undo much as we long to do so.

Hate is bitter poison to the mind that harbors it. It will make a fine personality shrivel; a lovely face ugly; a pleasant voice harsh; a kindly disposition a mean one so that its unhappy possessor is shunned by everyone.

When you say, "I hate rainy days," or "I do hate arithmetic," you really do not mean hate. You mean dislike, strong dislike. But you

should say dislike because the other word can become a habit if it is used so casually and then it might take root in your mind and become the real thing turned against people or ideas that truly matter.

This is important because of that influence I mentioned in the beginning. A strong feeling, and only love can be as strong as hate, tends to be expressed in action. A feeling that lasts and lasts and keeps stirring the mind day after day will sooner or later burst into behavior.

A feeling of hate cultivated in this way is dangerous. Into the bargain it is costly to its possessor. "Nobody likes, nobody loves the hater sort of person. He is too bitter for friendship which is always sweet. Of course there are things and people and duties that you dislike but they do not call for the bad feeling and the bad name it has. And it can be that the object of dislike proves to be quite acceptable, even liked, on closer acquaintance. Nothing is ever so bad as one thinks beforehand once it comes close up."

Be a bit careful for your own sweet sakes, about using words. Think first and choose them wisely.

If you want your baby to have confidence in you, you must handle him with a sure hand. Dr. Patrick Poirer, "The Sure Hand," explains the way to handle children. To obtain a copy, send 10 cents in coin to him, c/o Times-News, P.O. Box 99, Station G, New York 19, N.Y.

Wed in Burley

MRS. LARRY BARKSDALE
(Meiner photo—staff engraving)Carol Kidd and
Barksdale Wed
In Church Rites

BURLEY, July 31—Rites Friday evening in the Relief society room of the LDS tabernacle solemnized the marriage of Carol Lynn Kidd, daughter of Mr. and Mrs. Thurman Kidd, and Larry Robert Barksdale, son of Mr. and Mrs. Elmo Barksdale, Rupert.

Bishop Fred Larson performed the double ring ceremony before the fireplace which was flanked by white baskets of pink and white gladioli. The mantle was decorated with two silver wedding rings of floral design. The bride was given in marriage by her father in the presence of 60 relatives and close friends.

Gene Larson sang, "The Lord's Prayer" and "Through the Years." He was accompanied by his sister, Joan Larson. Background music played by Mrs. Weldon Bick.

The bride's gown was of Chantilly lace designed with lily-point sleeves and a net skirt over nylon ruffles. Her veil was of tulle with lace to match her dress. She carried a bouquet of red roses and stephanotis on a white ribbon.

Mrs. Allen Hardy was matron of honor for her sister. She was wearing a dress of turquoise tulle with a net overskirt and carried a bouquet of pink and white carnations. Linda Kidd, also a sister of the bride, was maid of honor. She wore a dress of salmon tulle with a net overskirt and carried a bouquet of yellow and white carnations.

Carol Barksdale, in blue, and Diane Wilson, in white, were senior bridesmaids. Linda Johnson, in blue, was junior bridesmaid. All carried bouquets of blue and white carnations.

Ed Barksdale was best man for his brother, Larry Barksdale, Rupert; Burton Satchwell, Ted Denny and Danny Hill were ushers.

Kenneth Wayne Hardy and Sharon Hardy, nephew and niece of the bride, were ringbearers.

The mother of the bride chose a pink and white sheath dress for her daughter's wedding with a cor-

Girls Elect New
Chief for Group

BILLIE Hoffman was elected president at a meeting of the Wakikonya group of the Camp Fire Girls at its Monday meeting at the city park.

Kathy McIntosh was elected vice president; Gwen Geer, treasurer, and Karen Reed, secretary.

Plans were made to assist in the "Keep Idaho Green" campaign and also for the Camp Fire booth at the fair. The group concluded work on the birthday projects.

The next meeting will be held Aug. 26. This group is sponsored by the Twin Falls chapter of the American Association of University Women.

sage of pink roses and white carnations. The bridegroom's mother wore a blue sheath dress with a corsage of red roses and white carnations.

Following the wedding, a reception for 300 guests was held in the recreation room. A three-tiered wedding cake graced the table which was covered with a crocheted tablecloth. The cake was placed on a mirror before a small arch of fern and silver wedding bells. The table was decorated by Janet Harold Dayley. The cake and punch were served by Mrs. A. A. Belfz, Rupert; Mrs. Allen Hardy, Provo; and Zella Kidd, niece of the bride. They were assisted by Janet Baker, Carol Stoker, Diane Wilson and Marie Holbrook.

Mrs. Betty Johnson, Viola Larson, Camille Haskins and Iona Steels were in charge of the gift room. Mrs. Alice Kidd and Mrs. Sterling Hill, aunts of the bride, attended the guest book.

Master of ceremonies for the program was Weldon Tracy. The invocation was given by Bishop Dewaine Jensen. Carol Stoker sang "Because," accompanied by Burton Satchwell. "A Bride's Prayer" was recited by Diane Wilson. Ora and Helen Meline sang two selections. Irene Crandall gave a humorous reading. The second ward male quartet sang two numbers.

The twin daughters of Mr. and Mrs. Preston Stocks, Sheila and Sabrina, sang, accompanied by their mother, Dennis Elings read "A Wedding Prayer" and Edith Corless sang "Dawn" and "My Hero," accompanied by Alene Martindale. The benediction was pronounced by Allen Hardy.

The bride was graduated from the Burley high school in 1957 and was pianist with the high school orchestra. The bridegroom was graduated from Rupert high school in 1953. They will make their home in Rupert where he is employed with an oil company.

The bride's gown was of Chantilly lace designed with lily-point sleeves and a net skirt over nylon ruffles. Her veil was of tulle with lace to match her dress. She carried a bouquet of red roses and stephanotis on a white ribbon.

Mrs. Allen Hardy was matron of honor for her sister. She was wearing a dress of turquoise tulle with a net overskirt and carried a bouquet of pink and white carnations. COWBOYS BEAT ATHLETICS TO INCREASE FIRST PLACE LEAD

Evans and Hermon Share 11 RBI's as Magic Valley Romps to Easy 15-5 Win

The booming bats of Jack Evans and Duane Hermon carried the Magic Valley Cowboys to an easy 15-5 win over Pocatello here Tuesday night and the victory upped the local club's league leading margin. Evans, usually relied on more for his fine fielding than bat work, stroked two doubles that drove in five runners and he scored another. But Hermon topped the offense for the night, crashing a homerun, triple and double and getting six RBI's for his night's work. Cowboy ace Bill Denney stymied the beaten A's through six innings, but they finally got to him for two in the seventh and added three more in the eighth with all the runs driven in by two homers.

Getting Word

Rocky Marciano, right, assures Pete Rademacher that a jolt on the jaw or a body belt is a great equalizer. The former champion is coaching the Olympic title holder at his Columbus, Ga., training camp. (NEA telephone photo)

Rademacher 'Tickled' Patterson Kept Title

COLUMBUS, Ga., July 31 (AP)—Pete Rademacher is "tickled to death" that world heavyweight champion Floyd Patterson defeated Tommy (Hurricane) Jackson in their title fight Monday night. That was the report from chief trainer George Chermers after Patterson stopped Jackson in the 10th round. Chermers told Rademacher, "Champion, you're in now."

Minoso, Doby Star as Ike Watches Game

By The Associated Press

Minnie Minoso and Larry Doby each crashed two homers Tuesday night in the presence of President Eisenhower as the Chicago White Sox defeated Washington 7-1 behind the three-hit pitching of Dick Donovan. Roy Sievers smashed his 26th homer for the Senators.

Eisenhower, who tossed out the season opening pitch in April, attended his first mid-season game since Aug. 31 last year.

John Gray, making his first start in the major leagues since 1955, throttled the Baltimore Orioles on three hits while pitching the winning Cleveland Indians to a 6-0 victory.

The 28-year-old right-hander, who had a 3-12 record with the old Philadelphia Athletics in 1954 and made two starts at the end of the 1955 season for Kansas City, was recalled from San Diego of the Pacific Coast league last Saturday.

Yogi Berra drove in four runs with four hits and Whitey Ford pitched his first complete game since opening day as the New York Yankees celebrated Casey Stengel's 67th birthday with a 10-4 rout of the Kansas City Athletics at Yankee stadium.

Berra, wearing glasses in an attempt to get out of a season-long slump, smashed his 17th homer and added three singles.

Veteran Bob Porterfield allowed only four singles and didn't walk a batter in hurling the Boston Red Sox to a 4-0 victory over the injury-riddled Detroit Tigers.

The 33-year-old right-hander, a big disappointment to the Red Sox since being obtained from Washington before the start of the 1956 campaign, struck out three in pitching his second straight complete game at Fenway park.

Yanks Can't Tell if Berra Is Deep In Slump or Showing Signs of Age

By JIMMY BRESLIN

NEW YORK, July 31 (NEA)—Yogi Berra leaned against a post in the Yankee dugout and ran his pudgy hands over a new chest protector. He wore a pair of unflattering glasses, which he says he'll use in games, and the statistics sheet showed his batting average was .236.

"This is a good protector," Yogi was saying. "The old one over there, it's got all that foam rubber in it. Makes you sweat a lot. Boy, that tires you out. This one here has no rubber in it."

He put down the protector and went out on the field to warm up. He was, to the onlooker, the Berra who has smashed apart the American league for years—a thick-legged, gorilla-sized guy who moves with implausible speed and puts unhittable pitches out seven rows back in the bleachers.

But the Berra who wears glasses and has a .236 average is different. He is a man who pops to left field because he doesn't get the ball around in time to pull and he looks of being tired and not having any sin in his arms.

Berra has others talking of him, too. To be blunt, more than a few people in baseball are asking if he's

starting to come apart in his 41th year as a major league giant.

"They tell me," manager Al Lopez of the White Sox comments, "that he's getting tired."

"We used to pitch to Mantle and walk Berra," says coach Tony Cuccinello of the White Sox. "Or pitch him so far outside that if he did hit it, he'd single to left, not hit to right for two, three or four. Now we pitch to Yogi. That's why Mantle got all those walks. Looks to me like Berra just isn't snapping that bat around. You look it up, you see he's caught an awful lot of games. They used him 181 games a year, doubleheaders and all."

"That could do it to you. To swing a bat and snap those wrists and hit the kind of pitches he did—throw one over his head and he'd hit it a mile—you have to be in perfect physical condition. Just get a little tired and there you are, no bat."

Berra talked about these things over his usual post-game can of beer in the dressing room.

"It's not the eyes," he said. "It's here... my arms. I can't get them around like I used to. I get them around, but I don't do it all the time. You know what they're getting me out of? Fast balls. Yeah. I ain't don't know, maybe it's just one

of those bad years and I'll come back next year big. Maybe I need a good rest this winter."

For most of the season, Berra has batted behind Mickey Mantle and this highlights the kind of year he has had. For Mantle, now playing as if there never was another playboy, he gets on base at a fantastic rate. But Yogi struggles along at a clip which is a full 30 runs-batted-in off his normal pace.

"My catcher," Casey Stengel tells you, "is starting to hit. He hit on the road. Hit one in Detroit pretty good. He will hit pretty good."

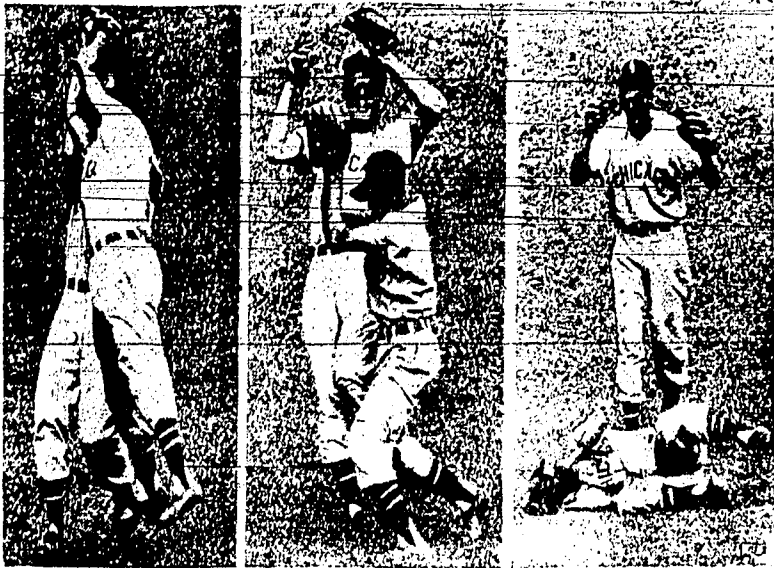

Maybe he will. It certainly figures this way. But Berra's remark, "Don't forget, I'm 41 now," and what now seems to have been a planned campaign for less work ("I shouldn't catch no more doubleheaders") provokes a question. How much have taken out of Berra?

The Yankees sum it up best: "How's Berra?" one was saying. He rolled his head from side to side. "Once in awhile he hits it. But that ain't Yogi—I don't know what it is."

The man was wondering if one of the all-time great ballplayers had a mask had definitely started downhill.

Like everybody else, he was hoping it was just one of those years.

Hangs on for Out Despite Collision

Chicago White Sox shortstop Luis Aparicio, foreground, and leftfielder Jim Landis, both going after short fly ball by New York Yankees' Harry Simpson, collide in fourth inning of game at Yankee stadium in New York. Aparicio grabs ball, left, says toward ground, center, and falls, right. He managed to hang on to ball despite collision and fall to make the out. (AP wirephoto)

Property Owners Join In Saving Salmon Fry

BOISE, July 31—Property owners in the upper main Salmon river drainage are cooperating in the installation of a series of self-cleaning, mechanically operated fish screens to keep young salmon out of irrigation diversions, the Idaho fish and game department said today. Leon Murphy, biologist in charge of the Idaho portion of the Columbia river fisheries development project, said the plan calls for installation of 10 of the new type screens before the irrigation season starts next spring.

It is anticipated that some 200 of the structures will be installed during the next three years, he said. To service and maintain the installations, full time maintenance crews will be stationed in the area and will "remain on the job all the time," he added.

Preliminary surveys this spring revealed that a good many chinook salmon to six inches in length were being lost into irrigation systems during their downstream migration, Murphy explained. Some rainbow trout up to a foot long, and whitefish even larger, were also caught in some of the diversions. He said the rainbows probably were the young of steelhead trout, which are indistinguishable from the resident rainbow until they have made at least one seaward migration. Steelhead also will benefit substantially from the rehabilitation program, Murphy added.

The screening is a part of a cooperative effort financed by a direct appropriation of the U. S. congress, without any matching by state funds required, he explained. It is conducted by the state fish and game agencies of Washington, Oregon and Idaho in cooperation with the U. S. fish and wildlife service.

Murphy said the program began in 1946, but this is the first year Idaho has participated directly. The overall purpose is to conserve the Columbia river salmon and steelhead runs by releasing new stock, removing stream obstructions, reducing losses into irrigation systems, and other measures.

Late Inning Philly Homers Beat Reds 8-5

By The Associated Press

Home runs by Stan Lopata and pinch-hitter Ron Northey in the eighth inning helped power Philadelphia's Phillies to a come-from-behind 8-5 victory over home-standing Cincinnati Redlegs.

The Chicago Cubs needed two starting pitchers to snuff out a ninth inning Dodger rally and save a 4-3 win after Brooklyn rode to a 1-0 victory in the opener of a doubleheader at Wrigley field.

Dick Drott and Don Elston took turns relieving the Dodgers in the ninth of the nightcap after Sandy Amoros opened with his sixth homer, a drive into the left field seats, off winner Dave Hillman.

Joe Cunningham, who only hits 'em in the clutch, smashed a grand slam homer in the last of the ninth off the Bush stadium light tower boosting the St. Louis Cardinals past the New York Giants, 7-3.

Cunningham's blast was the only Cardinal hit off Ruben Gomez of the Giants in the ninth, coming after three walks.

Low Burdette pitched five hit ball to win his fourth straight victory as the league leading Milwaukee Braves beat the Pittsburgh Pirates, 5-2, before 23,870 at County stadium. Two errors and a passed ball gave the Braves three unearned runs off bonus baby Art Swanson. Gene Freese drove in both Pirate runs, one with a homerun.

Happy Tigers to Stay in Detroit For Many Years

NEW YORK, July 31 (AP)—With all the talk of how happy some major league clubs, notably the Brooklyn Dodgers and the New York Giants, are in their present location, it is a pleasure to meet an owner who wouldn't move anywhere, someone put dynamite under him. His name is Harvey H. Hansen, and he's really just a fractional owner of the Detroit Tigers, but as president he speaks for his fellow owners as well as for himself.

Hansen is a long, lean lumberman, one of three of the 10 co-owners who live in Detroit. He was in town over the week-end watching the Tigers scare the daylight out of the Yankees, and he fairly sizzled with enthusiasm over the team and its prospects.

"If anyone has the idea we bought the club to turn a quick buck they're dead wrong," he said. "We're all in it to stick and to give Detroit a winning team."

"Why, we're making plans now for the next five years. Scouting plans, and all-around building plans. We've even devised a scoring system for scouts, so we can check back over the years and see what happened to the players they signed."

Hansen rather resents the term "syndicate" as applied to the purchasers of the club, although he admits that's what it really is. "Syndicate" smacks too much of a promotion, or a shady enterprise.

"The whole thing started with a suggestion of an associate of John Fetzer, the Kalamazoo radio and TV man," he explained.

"Fetzer talked to Fred Knorr, a Detroit radio man, and gradually others were interested in the project. When the deal finally was made, three groups were represented, each holding one-third interest in the club. Fetzer himself made up one group. The second group was made up of Knorr, W. H. McCoy, Detroit insurance man, and myself."

"The third group consists of Kenyon Brown, Texas radio and TV man; Paul O'Bryan, Washington, D. C. attorney; George Coleman, Oklahoma bank president; Joe Thomas, New York broker; Fred Woolworth, New York investment man, and Bing Crosby."

"I want to say there never has been any dissension among the members, despite rumors to the contrary. Knorr, the first president, re-

Public May Attend Big Game Drawing

BOISE, July 31—The public is invited to attend a drawing for permits in this season's moose and bison hunt, bison hunt and moose hunt controlled hunt, the Idaho fish and game department said today.

Ross Leonard, director, said the drawing will be held in the chambers of the statehouse in Boise so as to be easily accessible to the public. Permits will be sold for all controlled hunts for species named, but lists of species cannot be announced until the applications are processed, Leonard said.

Permits will be mailed to successful applicants, and fees returned others as soon as possible after drawing is completed, Leonard said.

There also have been reports that we are a fly-by-night operation. To that, I would say that the combined wealth of the members is over 50 million dollars.

"We paid \$5,500,000 for the season, and put up \$2,200,000 of our money. We later sold \$500,000 preferred stock to a Detroit station, so we still have \$1,800,000 invested and are responsible for remainder."

"The club is not for sale. We're in Detroit to stay. We let Jack Johnson run the team on the field. Johnny McHale ran the business end of the operation, assisted by Charlie Gehring. Myself, never even seen inside the clubhouse."

It seems the Detroit franchise is in good hands, even if in circles the owners are more anonymous.

A scorching day and a sizzling game contrast refreshingly with cool Olympia Beer. The clear, naturally perfect water used exclusively in brewing Olympia gives it extraordinary taste and character. This rare water... and the delicate flavors it extracts from premium hops and grains... have made Olympia a refreshment favorite served and enjoyed throughout the West—with pleasure!

OLYMPIA... with pleasure!

Income Tax Makes Champ Refuse Big Share of Purse

NEW YORK, July 31 (AP)—Heavyweight champion Floyd Patterson waived part of his \$175,000 guarantee for Monday night's fight, visited battered Tommy (Hurricane) Jackson in the hospital and prepared to resume training Thursday for his Aug. 22 defense at Seattle against Olympic champ Pete Rademacher.

Sports

FROM ALL ANGLES

By LARRY HOVEY

Whenever baseball men get together these days the conversation turns to the proposed moves by the West Coast by the New York Yankees and Brooklyn Dodgers. The board of directors during their lunch on Monday got into a discussion of the proposed moves along with a few remarks, which emphasized that the thinking of the clubs, but only in similar talks. The directors naturally were worried about the effect the changes in the Pacific Coast league would have on the Pioneer circuit. Mostly because of the rumor that the Pacific Coast City being "drafted" into the league.

Loving told the directors from the changes aren't made as easily as the big thing in any franchise move is location of an operator, who will move the club to any particular town. Unless there is an operator, either one-man owner, group of private businessmen or corporations willing to handle the team, that team is out.

As an example, he cited Lou Perini moved the Boston Braves to Milwaukee. This move was made directly by Perini, with the National league blessing, of course. The league could give nothing in direct assistance except to "draft" Milwaukee as a possible major league team site.

The same would hold true in Salt Lake City. If the Giants move to San Francisco, they would be taking a franchise away from the Boston Red Sox. However, the Pacific Coast league would doubtless "draft" Salt Lake if the Red Sox management asked it to. That would insure the Utah capital of a Pacific Coast team because it would have an operator and a team.

But Salt Lake could be left altogether, depending on the rules the operators wanted for Pacific Coast realignment. It could extend its league down into Mexico and other southern California cities, or, as one theory has been advanced, Salt Lake could be taken along with Omaha, Minneapolis and other large northern cities, making it a Canadian border league to speak.

Stressing again it was entirely conjecture gleaned from many points in the baseball world, Lawing pointed out it might take some time to get Salt Lake into the major field. He said the city could have to have an operator who could be prepared practically from the beginning. First of all, the field here would have to be upgraded to handle a 10,000 to 12,000 capacity, not because that would be needed at the time, but the extra space would be required to handle the big crowds.

But whether any of this would affect the Pioneer league or not, remains pure conjecture. Lawing said. He reported some say it will, others it won't. He also pointed out neither the Giants nor Dodgers have moved yet. He guesses they will, though.

Carey M-Men Blast Way to Stake Crown

CAREY, July 31—The Carey Juniors blasted their way to the stake stake LDS softball championship, crushing Richfield 35-6 in the final game.

The Carey Juniors brushed past the final game in the semi-final with ease, posting a 28-6 decision. Carey's powerful attack was highlighted by two home runs by Ned Carey and John Barton while Joe Barth-Dug Parke and Dar Parke connected for triples. In addition to the offensive power, the champs also showed a good defense with Carey, Heber Kirkland, and Barton working in good plays.

The Carey pitching staff is headed by Blaine Tingey, who gave up only three hits in the final while Carey's powerful attack was highlighted by two home runs by Ned Carey and John Barton while Joe Barth-Dug Parke and Dar Parke connected for triples. In addition to the offensive power, the champs also showed a good defense with Carey, Heber Kirkland, and Barton working in good plays.

Managing Follows Playing Career

WASHINGTON, July 31 (AP)—Although Harry (Cookie) Lavagotto has been in organized baseball since 1933 this is his first season as a manager.

On May 7 he replaced Charley Green as manager of the Washington Senators. Cookie had worked as a coach here in Brooklyn and Oakland for a total of six years.

Cookie, who got his nickname because he was signed by Cookie De-Grand, once Oakland owner, played 12 games in the majors and 623 in the minors. His only minor league team was Oakland. In the majors he played for Pittsburgh and Brooklyn.

His batting average was .209, and his fame was gained in the 1947 world series when he apolled Yankee slugger no-hitter with a pinch hit double and won a 2-1 series game for Brooklyn.

SPORTS

Cardinal Manager Thinks St. Louis Will Have Easier Time This Half

ST. LOUIS, July 31 (U.P.)—Manager Fred Hutchinson, whose St. Louis Cardinals have been one of the biggest surprises of 1957, thinks his club "will be even better in the second half." Hutchinson said, "The players have the confidence and know what each other can and will do." If the Cardinals do win their first pennant since 1946, it will be a bottom-to-top Cinderella story for Hutch.

It was five years ago that Hutch, his right arm, sole, inherited the eighth-place Detroit Tigers from Red Rolfe in mid-season to begin his managing career.

He received a telegram from the late Portland manager Bill Sweeney "You might have thought it was tough pitching, son, but your troubles have just begun."

Hutch and the Tigers wound up in eighth place Hutch figured Sweeney couldn't have been more right.

But the Tigers came up to sixth in 1953 and fifth the following year. Then Hutch went to Seattle in 1955 because of a contract dispute and brought home a Pacific Coast league title.

General Manager Frank Lane signed him to the Cardinals where he brought a seventh-place team up to fourth last year.

"There have been times when I thought I was going to quit," Hutch said, "but I don't quit. I always fight when you win."

The Seattle native said the thing he feared most about managing has turned out to be the easiest. "I've learned to control my temper. Better than I thought I would be able to do," Hutch said, "so that I don't take out defeat on my players and, except for a short spell after a tough one, not on myself, either."

As an ex-pitcher, many thought Hutch might be too sentimental about yanking a pitcher from the mound when the situation was in doubt. "No," he said, "I learned long ago not to let a pitcher talk me out of it if I've made up my mind to jettison him."

In fact, it's in doubt about the pitcher's effectiveness, Hutch always flicks his left wrist toward the bullpen two strides before he has the third baseline.

The turning-point for the Cardinals this season, Hutch said, was when he turned to youth, sending Ken Boyer to center to make room for Eddie Kasko and giving Joe Cunningham more playing time. Since then, the key to first place has been "balance." One man sports when another slumps.

The Big Bear added: "A manager is no better than his ball club in general and his pitching in particular."

Jerome Posts 7-1 Decision Over Buhl

Chad Browning and Skip Easterbrook combined to drive in five runs for the Jerome Merchants as they raced by Buhl Merchants 7-1 Tuesday night in the city industrial softball league.

Easterbrook cracked a double and single to drive in three of the runs while Browning's homer was good for two RBIs.

Webb Malone picked up another win while allowing Buhl just two hits and Bill Heaps turned in a good performance, giving up on seven safeties.

The first game was won by Phillips-Wells through forfeit over Western Electric.

Wednesday night the softball season will close with a doubleheader at Harmon park.

Jackson Admitted to Hospital With Bruised Kidney After Losing Bout

EAST MEADOW, N. Y., July 31 (AP)—Tommy (Hurricane) Jackson was hospitalized Tuesday with a bruised kidney and will have to remain under observation for several days as the result of the fierce beating he absorbed from heavyweight champion Floyd Patterson Monday night. The eccentric, 25-year-old contender, who was dropped three times and stopped in the 10th round at the Polo grounds, was reported "resting comfortably" at Meadowbrook hospital.

Jackson, known as the "animal" in boxing circles for his ability to take punishment and his tremendous stamina, was driven to the hospital at 4 a.m. Tuesday morning by his mother, Mrs. Georgia Jackson, and a sister. He had complained he "felt bad."

Dr. Erickson said the angry fighter had blood in his urine when he was admitted to the hospital. Five hours after referee Ruby Rolden halted the ring slaughter over Jackson's protests.

Jackson was given numerous tests and X-rays.

In a statement, a hospital spokesman said:

"After examination and review of walk. He was ordered by the commissioning physician to go to a hospital staff that Mr. Jackson is suffering from hematuria secondary to renal kidney contusion. Hematuria is a condition in which blood is present in the urine."

"It is recommended that he be confined to the hospital several days for further observation."

"X-rays and pyelograms have failed to reveal any other serious organic problems and in the absence of further findings, urologists believe his present condition is a result of last night's boxing bout."

It was the second time that Jackson has gone to a hospital after losing a fight. On Oct. 28, 1955, after he had dropped a decision in Cleveland to light hitting Jimmy Slade, the Hurricane complained in his dressing room that he was unable to

Barefoot Promenade Over Bed Of Roses Could Reveal Thorns

By HAL BOYLE
NEW YORK, July 31 (AP)—Just as lovers develop their own language, so do businessmen.

So far that matter do circus performers, soda jerks, college professors, psychiatrists, and men who rise early in the morning to open up banks with a gun.

Some individuals even—such as Sam Goldwyn—develop a private lingo that becomes a public joy.

But right now the greatest interest in the centers in two new weird and wonderful languages—one spoken by has spread throughout all industry with the speed of chickenpox in a kindergarten.

Edward M. Meyers, a merchandising and sales promotion expert, has collected a number of these "gray flannelisms" overheard in conferences.

The teen-ager, the other by the man in the gray flannel suit. This second language—now known as "businessman's lingo"—originated in the ivory tower world of advertising agencies in many executive suites.

Here are a few selected at random, for the young go-getter who wants to pep up his conference vocabulary.

"What this idea needs is more of an idea."

"As long as the boss doesn't have to do it, nothing is impossible."

"Let's put it on a scale and see if it's gained any weight."

"Let's not just stand around with our backs against the round pipes."

"Let's follow it down the road and see what it eats."

"I don't know about the rest of you, but I'm ready to pitch a tent and dig for worms."

"Let's ignore it before we think about it."

"Let's try it with an accent and see if it's subversive."

"At this stage we're chopping wood—not burning it."

"Let's not show it to him. He might cancel his vacation."

"I'm just painting with a broad brush. You fellows fill in the details."

"Let's wash it and see if it shrinks."

"He's not interested in winners—he just wants to know if it can make the stable."

"Let's take it up the stairs and see if it whistles."

"The drawbridge might be up—but you can still jump the moat."

"Let's anchor it in deep water and see if it develops any leaks."

"I've got the motor running, but I think the mixture is a little weak."

"Let's not lunge any more. I've got to catch the 5-7."

"I see feathers on it—but it's not flying yet."

"Let's get down on all fours and look at it with humility."

"Let's hang on to the tail. You can never tell where it will wag in."

"Let's forget it before we file it."

Let's!

U.S. Is About Set for Jaunt Of Royal Pair

WASHINGTON, July 31 (AP)—Queen Elizabeth may break recent Washington custom by sleeping in the White House on her visit here this fall.

The state department and the White House so far decline to say where the young queen and her consort, Prince Philip, will stay. All other recent state visitors have stayed at the presidential guest house across the street.

One state department spokesman said crisply: "The queen will stay wherever the head of state always stays."

When asked to finish the sentence, he added, "Well, anything could happen."

Idaho's Lamb Crop Declines

BOISE, July 31 (AP)—Idaho's 1957 lamb crop was estimated Tuesday at 907,000 lambs, a decline of 2 percent from the 1956 crop. The estimate was made by the United States department of agriculture.

This year's crop also was slightly below the average annual crop of 973,000 lambs, the agency said.

The reduction from last year was the result of fewer ewes, the department said. The number of ewes saved per 100 breeding ewes was 118, the same as in 1956. The percentage is the highest in Idaho since record-keeping began in 1924.

In another report the department of agriculture estimated the number of chickens raised on farms in Idaho this year at 2,409,000, the smallest since record-keeping began. The department said the total is 3 percent less than last year and 25 percent less than the 10-year average.

Mrs. FDR Given Visa by Russians

NEW YORK, July 31 (AP)—Mrs. Franklin D. Roosevelt said yesterday she has been granted a visa by the Soviet Union to visit Russia.

Mrs. Roosevelt said she hoped to leave for Russia by the end of August, but that she has no definite plans yet.

The former first lady also had sought to travel to China, but along with other American journalists had been refused permission by the state department.

No Audience

DENVER, July 31 (AP)—Bowling to previous demands by spectators, the Denver city council switched its seating arrangement Monday to permit all members to face the audience.

The experiment might have worked except for one detail—no outsiders attended the meeting.

The planet Jupiter has 11 known moons, more than any other planet.

Final Clearance ALL EVAPORATIVE COOLERS —REDUCED—

APPOINTMENT MADE
MOSCOW, July 31 (AP)—Appointment of W. T. Marineau, business manager of the Daily Idahoan, to the daily newspaper committee of the National Editorial Association was announced yesterday by President Lowell W. Jensen.
