TUCKER'S NATIONAL WHIRLIGIG

WASHINGTON—A trade war directed against the United States threatens another serious split among the nations of the world. The nations of the world are in a state of confusion. The nations of the world are in a state of confusion. The nations of the world are in a state of confusion.

Is That So!

Some "escapes" from their Louisiana farms. The females go right on producing about two batches a year of live young. The females go right on producing about two batches a year of live young. The females go right on producing about two batches a year of live young.

HOW THINGS APPEAR FROM PEGLER'S ANGLE

If the supreme court should decide today that two times two makes five, maybe that would be the end of the world. If the supreme court should decide today that two times two makes five, maybe that would be the end of the world. If the supreme court should decide today that two times two makes five, maybe that would be the end of the world.

Thousands of Planes Avert Air Disasters

WASHINGTON, Oct. 7.—At least 1,000 near-collisions of aircraft were reported in the closed airspace over the nation during a 10-month period ending last June, government records showed today. Civil aeronautics officials said that the figures probably should be much higher because some near-misses were not reported. Near-collision reports from pilots involved, CAB officials said, were undoubtedly more than many such near-crashes not reported. Slightly more than half the near-bruises from September, 1956, to June, 1957, involved military planes. The rest involved civilian, business and commercial aircraft. The cost of the close escapes reported around big cities. Leading the list were New York, Washington, D.C., Philadelphia, Oklahoma City and San Diego, Calif.

"DETENTMENT" LENIENCY

We can understand why Twin Falls County Sheriff James H. Benham feels the way he does about the sentence District Judge Hugh A. Baker imposed upon a Pocatello man recently convicted of negligent homicide. It is a traffic fatality near Twin Falls last spring. The defendant was originally charged with involuntary manslaughter, but the jury, acting upon instructions from Judge Baker, reduced the charge to negligent homicide. Involuntary manslaughter is a felony punishable by imprisonment in the state penitentiary, but negligent homicide is a misdemeanor with maximum punishment of one year in the county jail and \$1,000 fine. In passing sentence, Judge Baker, instead of employing anything approaching the maximum penalty for negligent homicide, sentenced the defendant to six months in jail, fined him \$400 and revoked his driver's license for one year. The jail sentence, however, was withheld by the judge. The defendant was placed on one year probation and given the privilege of paying the fine in monthly installments of \$35. Judge Baker's reasoning for the sentence he imposed. He expressed the feeling that the defendant would be punished for the rest of his life with the memory of being the driver of the car which killed a friend. The judge added it has been his experience that a man in jail was soon forgotten, but a person allowed to remain free to face society was punished.

QUOTAS AGAINST AMERICAN GOODS

Under this plan, which is now before the British and Canadian governments, the British government would lower their tariffs for their joint benefit, and also establish quotas against American goods. In short, the British government would limit the amount of American goods that could be imported into the United Kingdom. This is a move that is sure to cause a great deal of trouble for American exporters. The British government is a member of the Commonwealth, and it is a member of the Commonwealth. The British government is a member of the Commonwealth, and it is a member of the Commonwealth.

Story of Drinking Not Always on Your Breath

Keeping up with the outdoor world... Some super-duper strawberries and blackberries have been brought to this country from the lowlands and highlands of Chile, Ecuador and Colombia. One of these berries is a strawberry. One of these berries is a strawberry. One of these berries is a strawberry.

Swedish Scientist's Machine

A Swedish scientist has come up with a machine which will take the root-rotting of a tree and automatically count the number of concentric rings in the wood. This machine is a great help to the forester. This machine is a great help to the forester. This machine is a great help to the forester.

Radar Cracked Down Being Stopped

POCATELLO, Oct. 7.—Pocatello law enforcement officers said today they were stopping up their radar in compliance with Gov. Robert W. Smylie's order to crack down on radars. The officers said they were stopping up their radar in compliance with Gov. Robert W. Smylie's order to crack down on radars. The officers said they were stopping up their radar in compliance with Gov. Robert W. Smylie's order to crack down on radars.

As Sheriff Benham, whose office investigated the fatal accident and originally tried for an involuntary manslaughter conviction, expressed it, such light sentences in traffic deaths are "a detriment to law enforcement officers in their attempt to control the traffic situation."

Views of Others

ARE COLLEGE TOO CHEATY? Predictions of college enrollments within the next few years go up and up. They would seem fantastic were not the facts to support them plain for all to see. And if we are to continue to accumulate what we believe we should—that college education at public expense for any who aspire to it is a valuable contribution but not an essential obligation of government, the problem of financing seems awesome.

Take penny of time to think!

...the wrong answer about fuel could cost you \$1000

Just like the contestant in the booth, you are going to be answering a question that could either make or break you—in so far as heating is concerned. THE QUESTION IS: Which would give you the most economical and satisfying service over the years—automatic coal heat or natural gas heat?

Before you decide, think hard about the following facts:

This year so far 42 victims have lost their lives in Magic Valley traffic accidents, compared with 32 during the same period in 1956. During the same period, the record of traffic deaths for the state as a whole has declined from 106 to 152.

LET'S STUDY TAKES NOW The experiences of the last Idaho legislature in respect to tax problems and a sound financial basis is proof that it is expected that the legislature will give legislators for planning, drafting, debate and passage of an enlarged tax program that the lawmakers have produced. The legislature will give legislators for planning, drafting, debate and passage of an enlarged tax program that the lawmakers have produced.

FACT 1 To make an all-out changeover to natural gas would require an investment in new heating equipment, new water heater and new gas range. The total could easily amount to \$1000, a sum that—if saved—would pay your automatic coal heating bills over a long period of years.

FACT 2 If you keep your present coal burning equipment, you not only save that big initial investment, but you go on heating your home for just about half the cost of heating with natural gas.

FACT 3 Automatic coal heat—gives your home the healthfulness and comfort of uniform temperature. With coal, there is always a pleasant flow of warmth. Not so with gas—the fuel that lets the fire go out at each interval when the fuel cuts out.

For ECONOMY, COMFORT AND DEPENDABILITY...choose automatic coal heat! Northwest Regional Coal Association Boise, Idaho

Quick Action Over Satellite

Boosts Urged

WASHINGTON, Oct. 7 (AP)—A leading U.S. scientist called today for an all-out program to beat Russia to the moon and planets.

He told the United Press the program he envisioned would "be more than a race to the moon, but a race to the planets."

"The scientist, who asked that his name be withheld because of official capacity, said the Russians are driving toward manned flight to the moon and planets and he had better be there when they arrive."

He suggested setting up a government agency with wide powers similar to the Manhattan district that perfected the atomic bomb in World War II.

Have Head Start

He said the Russians have a tremendous head start in the race into space. He said the launching of their artificial moon was truly impressive for the fact they did it on the first try. "They made it look easy."

But he is confident this country can catch up. "We are willing to make the effort."

The Russians now are talking of sending a man to the moon and experimental animals to the moon in the next year or so.

The scientist refused to discount wholly anything the Russians are claiming. But he suggested five years might be nearer the mark.

The United States could do that, he said, by starting to work and committed enough brains and money to the job, he said.

The scientist proposed setting up an agency something like the Manhattan district to "attack space at once."

Cost Is High

"It would cost many times the two billion spent by the Manhattan district to develop the atomic bomb," he said. "This is a lot tougher project."

He added "it should be an integrated agency, not one split up into piecemeal projects."

He suggested this program: "We should put up a 'really big satellite.'"

When we should develop an unmanned rocket to fly around the moon and back. It could take television pictures of the moon's near-yet-unknown side.

The next step would be to land rockets on the moon with instruments to report what it finds out.

"All along we would be sending up animals to see what rocket flight, the radiation of space do to them."

"Finally, we should undertake man-made flights—with men, stations, with rocket stations capable of penetrating deep into space and returning."

Manned flight into space, he said, will give the nation that first achievement in power never before achieved by man.

"We said all this scientific-college people agreed. I'm sure, security demands the United States get going on a space program."

He said they also agree with the Russians that information gleaned by satellites will be the way to interplanetary travel.

Sure as shooting the Soviets are after him, he said, "this is one race we can't let them win."

CAB Urged to Deny Permits On Air Route

WASHINGTON, Oct. 7 (AP)—Northwest Orient Airlines asked the civil aviation board today to deny permits for the request of Pan American World Airways to fly from Seattle, Wash., to Portland, Ore., to Japan.

It said in a petition filed with the board that granting the route to Pan American would be a "monopoly duplication" of its own service.

Northwest has been and is today providing service between Seattle and Tokyo via Japan, and between Seattle and Tokyo via Hawaii.

"Pan American should improve the quality of its service between Tokyo service before seeking the right to compete over the north Pacific route," it said.

Legion Urged To Be Ready For New War

RAMATH, Oct. 7 (AP)—State American Legion Commander Mel Meadows of American Falls told a District 2 convention yesterday that the organization does not expect war but thinks it best to be prepared.

State officers of the Legion met Saturday for a Panhandle district convention at Kellogg. A district meeting is scheduled next week at Caldwell.

Meadows is helping organize Legion civil defense units around the state.

The state commander said the Legion hopes to sign 12,000 members in 1958. He said there are now 10,320 Legionnaires in Idaho.

At the Panhandle meeting, Earl Stoddard of Plummer was elected district adjutant. Lester Eells of Kellogg was named sergeant at arms to replace Elmer Bonville, a former member of the Kellogg branch.

U.S. Leading In Export of Wheat in '57

WASHINGTON, Oct. 7.—The United States is far out in front of other countries in selling its wheat abroad under the international agreement this year.

It was reported by the International Wheat Council, an international body of wheat exporters, that the United States has sold more wheat than any other country under the agreement.

Canadian officials have charged that U. S. policies provide unfair competition and that as a consequence of them, American wheat is sold at a price traditionally lower than Canadian.

The wheat council reported that the United States has sold 37 million bushels of wheat under the agreement, or 20 per cent of its quota of 180 million bushels for the full year. Canada, on the other hand, has sold only 18 million bushels or 10 per cent of its 180-million-bushel quota.

Charge Denied. American officials have consistently denied that this country is selling in unfair methods. They are also denying criticism that the United States is selling wheat at a price lower than Canada.

The wheat agreement is designed to stabilize prices and supplies of wheat in world markets through a system of quotas and minimum prices. The agreement is signed by the United States, Canada, Great Britain, France, Italy, Japan, the Netherlands, Belgium, Luxembourg, and the United Kingdom.

Confab Tries To End Woes For Republic

REPUBLIC OF SAN MARINO. San Marino's two rival factions began serious negotiations today to break their week-old deadlock, as anti-communist forces sought a governing police force of 100 men.

Representatives of the two government factions met today to talk in the presence of headquarters of the 15th Italian mobile carabinieri battalion, 800 men, three miles from San Marino.

New Elections. They were reported seeking terms in San Marino elections to be held in 1958. The republic's government is now in a state of emergency.

Tracy Involved. The Christian Democrats were reported to have been involved in a 1958 treaty with Italy. The treaty would allow the San Marino government to recruit a police force of 100 men.

90 Minutes of Pain

Andrew Turchin, 41, Cuyahoga, O., is shown here during an excruciating hour and a half pinned in a truck cab after it hit a bridge on U. S. highway 30 west of Vernal, Ind. A doctor gave him morphine to ease the pain until he was freed. Later he was reported in fair condition with shock and a possible left leg fracture. (AP wirephoto)

French Space Expert Outlines Military Use for Rocket-Moon

PARIS, Oct. 7.—Russia's space satellite will never be of direct military value, but its indirect value in entering, data about the higher atmosphere and open space is enormous.

Such facts are crucial to estimating the trajectory of an intercontinental ballistic missile.

Certainly, the rocket—which launched the Russian earth-orbiting satellite—could be used to launch an ICBM.

By launching the satellite the Russians have proved beyond question that they are capable of firing an ICBM.

However, the satellite itself can never be of direct military utility no matter how far it is developed.

Even if a manned satellite were possible—and this is an extremely complex problem—it would not be worth the trouble.

Photographs taken from such a satellite would be useless. Not only is the earth largely covered with clouds, but photographs taken from that high up would give no details of the ground below.

In short, espionage is not possible with this satellite.

What about reducing its altitude? Theoretically any height is possible, but for the satellite to be effective, it must be at a certain altitude.

The average altitude of the Russian satellite is 100 miles. It has a minimum altitude of around 300 miles and a maximum of 900 miles.

Practicable mean altitude for an earth satellite would be around 200 miles. This would mean a minimum altitude of 130 miles.

At any lower height the satellite would start running into the upper atmosphere.

Even at 130 miles up, the satellite would have to circle the earth at a great speed—about 9,000 yards a second, or about 18,000 miles an hour.

Launching a missile at such a speed would be highly impractical. There would be no precision in firing it. There would be just as great a chance of its hitting its intended target.

There are difficulties enough in launching a missile from airplanes flying only a mile high. At 180 miles up and at a speed of 18,000 miles an hour, precision would be completely lacking.

The real danger is the intercontinental ballistic missile once launched, it can not be intercepted. It has a speed of 10,000 miles an hour. I do not believe it will ever be possible to detect or deflect a missile traveling at that speed.

The military value of the satellite is in gathering data about the upper atmosphere, which begins in the stratosphere and goes on to outer space. This is necessary to compute the trajectory of ICBMs.

We know the upper atmosphere and outer space very poorly. Experiments have been made with rockets by the Americans as well as the Russians.

These experiments have been interesting but insufficient. Rockets go up but they come down almost immediately. To gather sufficient data, a satellite is necessary.

Employment Aide Arrives in Boise

BOISE, Oct. 7.—Vincent P. Hippolitus, liaison officer of the President's committee on employment, arrived in Boise today.

Hippolitus, who was formerly with the Governor's committee, is now with the President's committee on employment.

Hippolitus will tour the state, visiting with the Governor's committee on employment, and will also meet with various committees in Nampa and Idaho Falls.

The representative of the President's committee on employment, Hippolitus, stated during the employment physically handicapped week.

Death Laugh

SYDNEY, Australia, Oct. 7.—Twenty New Guinea natives afflicted with the Kuru—laughing disease—are laughing themselves to death in Okema hospital.

The disease, probably inherited, is one of the world's rarest and almost always is fatal.

A hospital official said the "laugh-shake" from time to time with hysterical outbursts of laughter.

BACK TO WORK. President Eisenhower arranged to drive back to Washington today after a long week-end at his farm home.

Spies Blamed for Russia's Success

TORONTO, Oct. 7.—The Toronto Telegram said today that the Soviet Union has informed President Eisenhower that spies in the United States missile production setup enabled Russia to launch the first "satellite."

The paper says Gouzenko, former Canadian spy ring in 1945, wrote to the President yesterday.

The Telegram quoted the letter as saying the launching "indicates the work of well-organized Soviet spies in the U. S. missile production system."

Phone 4547. RENT-ALLS CO. 232 2nd Ave. South Across Street From Krenzel's

mer cipher clerk in the Russian Embassy in Ottawa who exposed a Canadian spy ring in 1945, wrote to the President yesterday.

The Telegram quoted the letter as saying the launching "indicates the work of well-organized Soviet spies in the U. S. missile production system."

Do FALSE TEETH Rock, Slide or Slip? PASTRILL, an improved powder is guaranteed on upper or lower plates. Holds false teeth more firmly in place. Do not slide, slip or rock. No gumy, gritty, dirty taste or feeling. PASTRILL is available in non-acid, does not stain, checks "plate odor" (denture breath). Get PASTRILL at your drug counter. Advertisement

MISS JOHN GILBERT RUST (Groom)

Miss Smalley Is Married to Rust In Church Ritual

Buhl, Oct. 7.—Marjorie Louise Smalley, daughter of Mr. and Mrs. Ed Smalley, and John Gilbert Rust, son of Mr. and Mrs. John Rust, were married in a double ring ceremony before a congregation of about 100 guests at the Buhl Christian church.

The Rev. Roy Tibbitts performed the double ring ceremony before a congregation of about 100 guests at the Buhl Christian church.

Given in marriage by her father, the bride chose a white dress of white tulle and white lace. Her white veil was held in place by a white lace cap. She carried red roses on a white ribbon and wore a pearl necklace, a gift of the bridegroom.

John Rust, sister of the bride, in a dress of blue tulle, was maid of honor. She wore a corsage of red roses.

James Roman attended the bridegroom as best man. He wore a tuxedo and a white shirt with a white bow tie.

The bride's mother chose a gray afternoon dress with a corsage of red roses. The mother of the bridegroom selected a blue afternoon dress with a red corsage.

Mrs. Pearl Brown played organ music for the wedding. The bride's table was covered with a white linen cloth and centered with a four-tiered cake trimmed with white ribbons and topped by a miniature bride and groom.

The bride was escorted by Mrs. Ed Smalley, sister of the bride. The bridegroom was escorted by Mrs. John Rust, sister of the groom.

The bride and groom were presented to the guests by the bride's father and the groom's father.

The bride and groom were presented to the guests by the bride's father and the groom's father.

Miss Nitchal and Dedman Are Wed In Church Ritual

SHOSHONE, Oct. 7.—The Nitchal daughter of Mrs. Ida Nitchal, Shoshone, became the bride of Miss Dedman, Carr, Saturday at the Assembly of God church. The Rev. P. L. Garrison officiated.

The church was decorated with pink and white streamers and wedding bells. Baskets of pink and white flowers and white tapers in floor candelabra formed the background.

The bride wore a ballerina-length gown of blue lace over tulle with a cowl collar and streamers tied to the back. She wore a pink hat and carried a heart-shaped bouquet of pink daisies.

Mrs. Thomas Dedman, Twin Falls, was maid of honor. Thomas Dedman served as best man.

Keith Eldredge and Carl Kinney lighted the candles and ushered. Carol Low played the wedding march and accompanied Leo Braun who sang, "I Love You Truly."

The bride's mother selected a blue afternoon dress with white accessories.

A reception was held at the church following the ceremony. The wedding cake, three-tiered, was decorated in pink and white and lit with candles.

The mother of the bride, Mrs. Frank Lane and Mrs. G. D. Low cut and served the cake. Mrs. Ernest Koto served the punch.

Mrs. Carl Kinney was in charge of the guest book. Mrs. Edna Peugh, Mrs. Helen Coleman and Mrs. P. L. Garrison were in charge of the gift table.

The young couple left for a wedding trip to Hamilton, Mont. and plan to make their home at Twin Falls upon their return.

The bride wore a white dress and a pearl necklace, a gift of the bridegroom.

John Schaefer, sister of the bride, in a dress of blue tulle, was maid of honor. She wore a corsage of red roses.

James Roman attended the bridegroom as best man. He wore a tuxedo and a white shirt with a white bow tie.

The bride's mother chose a gray afternoon dress with a corsage of red roses. The mother of the bridegroom selected a blue afternoon dress with a red corsage.

Going over a report on the national convention at Saturday's meeting of the Ladies of the Grand Army of the Republic at the American Legion hall in Twin Falls are, standing, Mrs. Ivan Johnson, Mountain Home, Idaho department treasurer; seated, left to right, Mrs. Francis L. Leonard, Boise, national treasurer; Damaris Leonard, Boise, department president; and Mrs. Rhonda Spodgrass, local circle president. A luncheon was served preceding the meeting. (ISAT photo)

Miss Leonard Is Honored at Fete By GAR Women

Dan McCook circle of the Ladies of the Grand Army of the Republic entertained Damaris Leonard, state president, at a luncheon Saturday afternoon at the American Legion hall.

At the regular business meeting following the luncheon Miss Damaris presented her report of the National convention in Detroit, Mich., and conducted the initiation ceremony of Mrs. Corilla LeJeune, a new member of the circle.

Other guests were Mrs. F. L. Leonard, Boise, national treasurer; Mrs. W. Ivan Johnson, Mountain Home, Idaho department treasurer; and Mrs. Rhonda Spodgrass, local circle president.

The girls were presented to the guests by the circle and individual members.

Later in the evening a social gathering was held at the home of Mrs. Ida M. Sweet.

Simulated Show Given at Parley

HANSEN, Oct. 7.—A program, patterned after a television show, was presented at the Parley club meeting Thursday at the home of Mrs. Joe Froehlich, Jr.

Mrs. Gordon Hill was program chairman and acted as master of ceremonies. Mrs. Kenneth Naylor, Mrs. W. G. Allen, Mrs. Blake Froehlich and Mrs. A. F. Daw were the hosts.

Mrs. Doreen Wright, Mrs. Eldon Burk and Mrs. E. R. Ayne were contestants.

A thank you note was read from an adopted patient at the tuberculosis hospital, Gooding. There were some jars not filled for the children's home barrel.

Mrs. W. G. Allen was the assistant hostess. Mrs. Doreen Wright received the Tuesday bridge club when the group met at the home of Mrs. Charles G. Allen.

Mrs. G. A. Weinberg presided over the Tuesday bridge club when the group met at the home of Mrs. Charles G. Allen.

Ladies of GAR Meet in Twin Falls

Going over a report on the national convention at Saturday's meeting of the Ladies of the Grand Army of the Republic at the American Legion hall in Twin Falls are, standing, Mrs. Ivan Johnson, Mountain Home, Idaho department treasurer; seated, left to right, Mrs. Francis L. Leonard, Boise, national treasurer; Damaris Leonard, Boise, department president; and Mrs. Rhonda Spodgrass, local circle president. A luncheon was served preceding the meeting. (ISAT photo)

Care of Your Children

By ANGELO PATRI

The number and variety of toys, cluttered though they may be, that a child accumulates can be a source of worry to the parent. By and by, the child will outgrow them, and they will become a burden to the parent.

There are a few simple rules that can help the parent to keep the child's toys under control. First, the parent should limit the number of toys that the child has at any one time.

Second, the parent should encourage the child to play with the toys that he already has, rather than buying new ones all the time.

Third, the parent should teach the child to take care of his toys. This means that the child should be taught to put away his toys when he is finished playing with them.

Fourth, the parent should encourage the child to share his toys with his friends. This will help the child to learn the value of sharing and will also help to keep the number of toys under control.

Fifth, the parent should encourage the child to play with his toys in a safe and responsible manner. This means that the child should be taught not to throw his toys or to use them in a way that could hurt himself or his friends.

Sixth, the parent should encourage the child to play with his toys in a creative and imaginative way. This means that the child should be encouraged to use his toys in new and interesting ways.

Seventh, the parent should encourage the child to play with his toys in a social and cooperative manner. This means that the child should be encouraged to play with his toys with his friends and to share his toys with them.

Eighth, the parent should encourage the child to play with his toys in a safe and responsible manner. This means that the child should be taught not to throw his toys or to use them in a way that could hurt himself or his friends.

Ninth, the parent should encourage the child to play with his toys in a creative and imaginative way. This means that the child should be encouraged to use his toys in new and interesting ways.

Tenth, the parent should encourage the child to play with his toys in a social and cooperative manner. This means that the child should be encouraged to play with his toys with his friends and to share his toys with them.

Eleventh, the parent should encourage the child to play with his toys in a safe and responsible manner. This means that the child should be taught not to throw his toys or to use them in a way that could hurt himself or his friends.

Twelfth, the parent should encourage the child to play with his toys in a creative and imaginative way. This means that the child should be encouraged to use his toys in new and interesting ways.

Thirteenth, the parent should encourage the child to play with his toys in a social and cooperative manner. This means that the child should be encouraged to play with his toys with his friends and to share his toys with them.

Fourteenth, the parent should encourage the child to play with his toys in a safe and responsible manner. This means that the child should be taught not to throw his toys or to use them in a way that could hurt himself or his friends.

Fifteenth, the parent should encourage the child to play with his toys in a creative and imaginative way. This means that the child should be encouraged to use his toys in new and interesting ways.

Sixteenth, the parent should encourage the child to play with his toys in a social and cooperative manner. This means that the child should be encouraged to play with his toys with his friends and to share his toys with them.

Seventeenth, the parent should encourage the child to play with his toys in a safe and responsible manner. This means that the child should be taught not to throw his toys or to use them in a way that could hurt himself or his friends.

Eighteenth, the parent should encourage the child to play with his toys in a creative and imaginative way. This means that the child should be encouraged to use his toys in new and interesting ways.

Nineteenth, the parent should encourage the child to play with his toys in a social and cooperative manner. This means that the child should be encouraged to play with his toys with his friends and to share his toys with them.

Twentieth, the parent should encourage the child to play with his toys in a safe and responsible manner. This means that the child should be taught not to throw his toys or to use them in a way that could hurt himself or his friends.

State Official Is Guest of Women At T. F. Meeting

Mrs. Alice Parvin, state supervisor of Royal Neighbors of Idaho, was a guest of the Twin Falls club Friday evening at the Odd Fellows hall.

Mrs. Parvin told of state activities and of plans for the state convention next spring at Burley. Supreme convention will be held in June on the west coast.

Mrs. Parvin related her past month's activities as deputy of the district.

Plans were made for the next meeting Oct. 18 to be a party for Royal Neighbors and friends. Mrs. Sue Pratt was appointed as chairman of the entertainment committee.

Mrs. Pratt turned funds collected from a club picnic to Mrs. Anderson, recorder, for the purpose of purchasing a new altar drape and the four station drapes.

Refreshments were served by Mrs. Guy Walker, Mrs. Treadwell and Mrs. Edna Watkins at tables decorated with autumn leaves and rose berries with fall flowers in the background.

The white elephant furnished by Mrs. Watkins was received by Mrs. William Armes.

MISS HONORED

SHOSHONE, Oct. 7.—A birthday party was held Friday night for Mrs. Mary Broyles, 3-year-old daughter of Mr. and Mrs. Joe Broyles. The group attended a dinner party at a cafe followed by a movie.

Mrs. Broyles is a different child, said her mother, who is a different child, said her mother, who is a different child, said her mother.

Mrs. Broyles is a different child, said her mother, who is a different child, said her mother, who is a different child, said her mother.

Mrs. Broyles is a different child, said her mother, who is a different child, said her mother, who is a different child, said her mother.

Mrs. Broyles is a different child, said her mother, who is a different child, said her mother, who is a different child, said her mother.

Mrs. Broyles is a different child, said her mother, who is a different child, said her mother, who is a different child, said her mother.

Mrs. Broyles is a different child, said her mother, who is a different child, said her mother, who is a different child, said her mother.

Mrs. Broyles is a different child, said her mother, who is a different child, said her mother, who is a different child, said her mother.

Mrs. Broyles is a different child, said her mother, who is a different child, said her mother, who is a different child, said her mother.

Mrs. Broyles is a different child, said her mother, who is a different child, said her mother, who is a different child, said her mother.

Mrs. Broyles is a different child, said her mother, who is a different child, said her mother, who is a different child, said her mother.

Mrs. Broyles is a different child, said her mother, who is a different child, said her mother, who is a different child, said her mother.

Mrs. Broyles is a different child, said her mother, who is a different child, said her mother, who is a different child, said her mother.

Mrs. Broyles is a different child, said her mother, who is a different child, said her mother, who is a different child, said her mother.

SPORTS

Mickey Is Forceout Victim

New York Yankee center fielder Yogi Berra is forced at second base in first inning of 1957 World Series opener Oct. 2 at New York. Milwaukee shortstop Johnny Logan makes the out after taking throw from second baseman Red Schoendienst, who fielded Bill Skowron's grounder to start play. Umpire is L. McKintey. (AP wirephoto)

Back in 1913, Army played a little-known team from the Midwest for the first time and the game was scheduled quite by accident when the Cadets discovered an open date on their schedule. Notre Dame accepted a \$1,000 guarantee, sent its team to West Point and whipped the Army 35-13. It was in this game that Knute Rockne and Gus Dorais popularized the forward pass. After that game, Notre Dame was a little-known no longer.

Big Six Loop

By The Associated Press

The two powers of Idaho Big Six football, the Nampa and Pocatello teams, will meet on Friday night in what is billed as the game of the season.

After the game, the rivalry was broken off. It takes up again this Saturday in Philadelphia.

The game won't decide any national title, but it will be an interesting one for rumor has it that

MILWAUKEE, Wis., Oct. 7. Veteran outfielder Andy Pafko, Braves' most experienced V. League player, says that the New York Yankees charge

Welcome Bus

Boise and Pocatello, but undefeated, will battle for sole ownership of the high school league lead on the Boise field. The game is rated as a tossup.

Boise's trimmed Nampa and Caldwell, while the Indians have

knocked off Caldwell at Idaho Falls. The Braves edged Caldwell by a 7-6 score, but the Indians scored an easy 21-7 triumph. However, the night loss against Caldwell was a bitter pill for the Braves. Caldwell was the only pitcher to throw a no-hitter in the history of the game. Caldwell's record was 1-1. Caldwell's record was 1-1. Caldwell's record was 1-1.

Boise was scheduled to play Idaho Falls Friday night, but the game was called off by the eastern Idaho team, again by the flu-bus. But the Braves romped to a 6-0 victory over the Idaho Falls franchise. If

Wampus showed a powerful offensive last Friday when it trounced Twin Falls 44-14, after rolling up 28 points in the first quarter.

Twin Falls will play at Caldwell in the other Big Six game next Friday.

A Potomac skunksbob, Bobby Stephens, holds the Big Six conference scoring lead by a shaky one point.

There are at least eight other

Oregon's Ducks, rated good bets to go to the Rose Bowl, looked even better today in the backwash of an otherwise "lost week-end" for West Coast teams which dropped five out of eight intersectional contests. The Webfoots posted a resounding 21-0 victory over UCLA Saturday night one week

Pro Grid Loop

By The Associated Press

The unbeaten Baltimore Colts and the Cleveland Browns Monday were

101 yards against the Bruins and scored once during a rain-splashed contest. The big Oregon line stopped the most UCLA thrusts cold.

Earlier, Pittsburgh took advantage of sloppy-flicking Southern

On the victory side, Oregon State's undefeated Beavers downed Northwestern 22-13, Idaho trounced Utah 21-6 and College of the Pacific rallied to beat Tulsa 21-13.

Three of Stanford's first stringers, headed by quarterback Jack Douglas, were injured and stayed out of the game. The game was a defensive struggle, with scoring distance. Jim Ninowski passed for two of the touchdowns from close up.

The Bears, Western champions last year, and the Eagles each took their second defeats in two games.

Iowa, slowed up by flu, launched a 64-yard touchdown drive in the final period to break a 13-13 tie after tackle Alex Karras had stolen the ball from Cougar quarterback Bob Newman. Kevin Furlong

Contract for Road Plan Is Called Illegal

BOISE, Oct. 7 (AP) — The Idaho board of engineering examiners asked a third district court today to void a "clear and obvious fraud" contract given to a California firm to perform a highway engineering job in eastern Idaho.

The board filed suit against the state highway board, State Highway Engineer G. Bryce Bennett, Karl P. Tuttle Engineering company, Inc., of Alameda, Calif., State Auditor Rulon-Sean and State Treasurer Hugh G. Moon.

The state highway department awarded a contract to the Tuttle company on July 25 to do engineering work on 38.6 miles of the proposed interstate route from Blackfoot to Basalt in eastern Idaho. The firm's bid was \$120,000.

Corporation

The engineers contended that corporations cannot legally practice engineering in Idaho because they do not qualify for registration as engineers. Only individuals can so qualify, they claimed. They asked the court for a declaratory judgment on this question.

They also asked that the contract be voided, the company barred from performing engineering work under it and Bennett and Mrs. Moon barred from paying state money to them for such work.

The complaint said the auditor had already drawn \$25,000 from the state treasury and the treasurer had submitted them to the treasurer for payment to the company. Mrs. Moon said she has been holding the warrants on the advice of Attorney General Graydon W. Smith, while awaiting an opinion from him on the legality of the contract.

Raymond J. Briggs, Boise, chairman of the engineering board, told Gov. Robert E. Smylie in a letter that Smith had told the board he believed the contract to be illegal.

Legality Advised

Bennett, however, said the assistant attorney general assigned to the highway department had advised highway officials the contract was legal.

Briggs also told Smylie that Smith filed a suit to void the contract in a test suit and later, on Sept. 3, reversed himself and declined to do so.

Smith told a reporter he tried to disavow the board from bringing suit because the contract would cost the state \$100,000. The second lowest bid on the project was \$250,000, submitted by Porter, Trement, and O'Brien of San Francisco.

No Comment

The attorney general said he did not wish to comment on the legality of the contract now that it is before the court.

The engineering board said in its complaint that the contract dropped the "in" from the name of the firm and added a signature line for Wendell H. Smith, a licensed civil engineer, designated as vice president.

This, said the complaint, "is a clear and obvious fraud and attempt to circumvent the force and effect of the laws of the State of Idaho and constitutes a deliberate attempt to deceive."

Procedure Explained

Rocco Rich of Butte, chairman of the state highway board, made this statement when asked for comment:

"The state highway board set up a policy under which the department contracts with consulting engineers for engineering work of the department. We went into this very carefully and checked with the federal bureau of public roads and the forest service. The bureau of public roads must also approve such contracts. A legal problem is involved here and that is for the court to decide."

Technically

Bennett added: "The department and the board were advised by the department's attorney, who is an assistant attorney general, that the contract was legal and that the department could sign it. The matter of whether a contract could be awarded to a corporation was discussed at some length, but it was a legal technicality of Boise was chief legal counsel for the highway department at the time. He has since resigned from the attorney general's staff."

Walter Smith of Boise, secretary of the Idaho Society of Engineers, said the society had voted at a meeting in Pocatello to support the engineering board in whatever course it took in the matter.

Idaho Solon Vote Record Is Said High

WASHINGTON, Oct. 7 (Special) — Idaho's congressional delegation was well ahead of average members in both the house and senate last session in voting participation.

A recent poll by Congressional Quarterly reported that Sen. Henry C. Dworshak was one of four senators who were present at all roll call votes. Sen. Dworshak voted "aye" or "nay" on 88 per cent of the votes in 1957—this was the average score for members of both houses.

Rep. Gracie Pfost averaged 92 per cent of the roll calls and Rep. Elmer Burger 93.8.

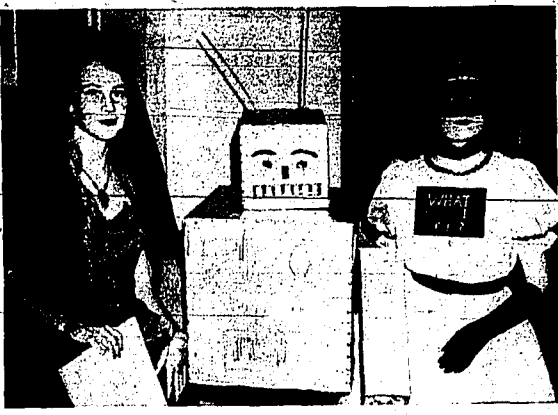

During adjournment time there usually is a flood of roll call votes by congressmen by political organizations and recently the ultra left-wing Americans for Democratic Action came out with theirs.

Depending on their votes on a dozen issues running from civil rights, foreign aid to federal grant-in-aid programs, and flood insurance, the congressmen were called "liberals" or "conservatives."

Judge, the top conservative vote in the house, was listed as a 100 per cent conservative. Mrs. Pfost was rated a 75 per cent liberal.

Dworshak was carried as a 73 per cent conservative and Church as 64 per cent liberal.

Win Awards in Masquerade Party Here

Receiving prizes at the annual seventh grade masquerade party held Friday evening in the Junior high school were Lynda Homquist, left, for the most beautiful, and Robert Kaggie, center, and Sandra Brown, right, both most original. About 335 children attended. General chairman were Mrs. R. Lyons Smith and Mrs. Winona Merrill. (Staff photo-engraving)

Cleric Gives Solution on Labor Clash

A solution for the problem of labor and unions vs. big business was given Sunday night at the American Legion hall.

Under the title "The War Between Capital and Labor" the Rev. Don Hiett-Spillman declared that the strike had forfeited the other between the working man and big business.

Quoting James 5:3, he accused big business of "heaping together treasure for the last days" and sympathizing with the laboring man who "hire the rich men have kept back by fraud."

Spillman related instances of economic inequality when in one part of the United States they were destroying surplus food while in another part children were starving for lack of food.

Another problem by which this condition of inequality is aggravated is the increase in world population. "During a catastrophe in 25 years, the population of the world will increase from 2.7 billion to 4 billion, and there will not be enough food to feed the world," he stated. "In India millions who are born die without having a square meal."

He explained that his work was not to take sides with capital or labor but to declare the only remedy for the problem which is the second coming of Jesus Christ.

Lookout Leaves

SHOEHORNE, Oct. 7—Nitch butte fire lookout station was closed on Friday, Oct. 4, reports Roy Bean, district range manager for the bureau of land management.

The fire hazard on the range has been greatly reduced by recent rains, Bean explained. All calls regarding the range of fire may be directed to telephone number 6, Shoshone, the bureau of land management office.

Technically

Bennett added: "The department and the board were advised by the department's attorney, who is an assistant attorney general, that the contract was legal and that the department could sign it. The matter of whether a contract could be awarded to a corporation was discussed at some length, but it was a legal technicality of Boise was chief legal counsel for the highway department at the time. He has since resigned from the attorney general's staff."

NOTICE TO VOTERS

The Twin Falls, Idaho Kennel Club is in favor of some plan of control for dogs in Twin Falls, but believes the Leash Law as proposed is not practical, and would be almost impossible to enforce. It would also work a hardship on many people for whom it was not intended.

Many cities throughout the country have worked out practical plans for dog control that have met with the approval of dog owners, the public and city officials alike.

We ask that you vote NO against the Leash Law as proposed, and that the City Council takes steps to study some of these workable plans from other cities before taking any action. We will be glad to meet with them and obtain information for them that will be of valuable help in this study.
