

State police, ambulance personnel and members of the train crew have placed Mrs. Alphonso Ralph, Twin Falls on a stretcher while her companion, Mrs. Rose Weaver, also of Twin Falls, lies dead under rear bumper of their car which smashed into Union Pacific locomotive.

## Injured Woman Taken From Wreck, Companion Dead

BOISE, Oct. 18 (AP)—A speeding 1956 Cadillac crashed into the front of a Union Pacific railroad engine at 1:10 a.m. Friday at a grade crossing seven miles south of Twin Falls on U. S. highway 93, killing a 45-year-old Twin Falls woman and seriously injuring the woman driver. Killed in the crash, which demolished the car, was Mrs. Rose Weaver, Twin Falls. The driver, Mrs. Alphonso Ralph, 49, 146 Jackson street, was in critical condition at noon Friday at Magic Valley Memorial hospital. The red Cadillac was traveling north and the eight-car train was headed southwest. Pieces of the car were scattered over a wide area. The right door and part of the car's frame were found on the front of the engine which stopped approximately 300 feet from the crossing.

The driver's body was found under the rear bumper of the wrecked car. Mrs. Ralph was found jammed in the front of the car near the seat.

Mrs. Ralph incurred fractures to one leg, lacerations about the head and face and other injuries.

The heavy metal steps of the engine leading up to the cab on the right side were doubled back under the engine almost to the front wheel. State police, trainmen and an ambulance driver had to pry up the engine almost to the front wheel. Witnesses said she was conscious and moaning.

An earlier arrival at the scene said, "the right hand side of the car was laid open as if by a giant cannon." Parts of the car and metal were scattered from the crossing to where the engine stopped. The top of the vehicle was crumpled and the metal resembled lint.

A top of the vehicle was crumpled and the metal resembled lint. A wheel of the train was found in the middle of the train near the engine.

A section of the car frame was wrapped around a railroad crossing sign post near the crossing.

A motorist who stopped at the scene said he saw the car and metal scattered from the crossing to where the engine stopped.

## Grange Endorses Legislation On 'Right to Work' Guarantee

BOISE, Oct. 18 (AP)—The Idaho State Grange adjourned its annual session in the early hours of today after approving a resolution demanding enactment of legislation which is said "would provide protection for the worker." Approval of the "right-to-work" resolution came last night but debate over other resolutions kept the farm organization in session past midnight. Halley was chosen for the 1958 convention, which will begin on the last Tuesday in October. The Grange executive committee met today to outline the program for the coming year. It chose Emil Jerome of Kuna, vice chairman the past year, as its new chairman. He succeeded Roy LaFleur of Heyburn who was re-elected to a new term on the committee.

## T.F. Leads State in Asian Flu Incidence

BOISE, Oct. 18 (AP)—Twin Falls leads Idaho towns in the number of Asian flu cases actually confirmed, a report from the state health department laboratory showed Thursday. Twin Falls has 12 cases, followed by Jerome with five. Other towns with cases include Burley, St. Anthony and Idaho Falls. Authorities said the large number of confirmations from Twin Falls may have been due to the number of tests run there.

## Research for Air Power Is Given Stress

SUN VALLEY, Oct. 18 (AP)—American scientists today are giving more stress to research on air power, rather than on the ground, when they are down, no better than a "ground" air force. Executive Secretary John F. Victory of the National Advisory Committee for Aeronautics said here yesterday. Victory, from Washington, spoke at a meeting of the National Association of State Aviation Officials.

Scientific research in aeronautics is the foundation of American air power," he said.

"With the fast-shrinking value of a dollar," he explained, "the volume of research that can be conducted within the appropriations available is shrinking and American air status is deteriorating."

Jacques A. Lelie, Bedford, N. Y., vice president of Parachute, Inc., a national association of sport parachutists, and captain of the 1956 United States parachute jumping team which participated in a meet in Moscow, Russia, also spoke. He asked the state aviation officials to recognize the sport and to establish rules.

## Two Begin Jaunt To High Altitude

WASHINGTON, Oct. 18 (AP)—The navy announced today that two navy observers today began a balloon ascent into space in an aluminum gondola at Crosby, Minn.

The balloon was launched from an open iron mine at 9:15 a.m. EDT.

The navy said the purpose of the flight is to run scientific experiments at an altitude of about 50,000 feet. The flight, part of a project called "Stratolab," was expected to be completed by sundown today.

## Water Being Billed as Top U.S. Problem

COLORADO SPRINGS, Colo., Oct. 18 (AP)—Water, once believed to be a problem confined to 17 Western states, "now, generally is recognized to be a national problem," Under Secretary of Interior Hatfield Children, said here today.

Children, speaking before the water law section at the Colorado State Bar association convention, said local and regional problems have combined to make one severe problem of "meeting water demands of an increasing population and an expanding economy."

Children cited figures to show that the nation's water demands will double in the 25 years from 1950 to 1975. At the present, he said, the nation is using "about one-fifth" of its available, usable supply, but pointed out that despite our adequate over-all supply water problems still exist in individual localities.

"However, with knowledge and know-how we have gained from many years of experience, it is physically possible to conserve flood waters for use during shortages and to transport water from areas of plenty to those of deficiency," Children said. "The primary limitation... on solving the water problem is... not one of supply or know-how, but of economics."

"A cheap and inexpensive water supply is essential to maintain our present standards of living," he added.

# Atom Worker Is too Close To Radiation

OAK RIDGE, Tenn., Oct. 18.—A scientist working at the Oak Ridge national laboratory was exposed to dangerous amounts of radiation when he entered a room containing highly radioactive reactor fuel elements, the atomic energy commission declared today.

The AEC would not reveal the name of the employee, who was exposed Oct. 4, when he was working in a work room at the laboratory.

Officials said the chemical operator was not hospitalized but is continuing to work at the laboratory, receiving no ill effects from the exposure. He is receiving periodic medical examinations.

It was the second incident of exposure to radioactive elements in the 14-year history of the Oak Ridge national laboratory.

During the outbreak, Oak Ridge activities 60 persons have been overexposed in 18 radioactive accidents. Two of the victims died, one in 1946 and the other in 1948.

# Army Reveals Planned Cuts

WASHINGTON, Oct. 18.—The army said today it will cut manpower at major army centers and in the country for economy reasons but will not close any major posts.

Army Secretary William B. Brucker also announced that the first armored division at Ft. Polk, La., will be inactivated. He said it will be partially replaced by activation of an armored combat command and a training center at Ft. Polk.

Under an order by former Defense Secretary Charles E. Wilson, the army must cut its strength by 100,000 men by June 30. Closing of some posts had been contemplated.

Brucker said reductions at army posts will be accompanied by transfer of some units and inactivation of others.

Mail Dropped  
By Big Plane  
At South Pole

OVER THE SOUTH POLE, Oct. 18 (UPI)—A U.S. flag atop a pole jammed into an empty oil drum at the bottom of the world was promptly  
I saw the flag from the U.S. air force glidermaster which made the first drop of mail, fresh food supplies and other equipment to the 15 men and the U.S. navy south pole camp in eight months.  
"We have you in sight—you are looking beautiful," the radio crackled in the lumbering four-engineered glider. The message came from the men who had "wintered over" at the south pole for the first time in history, cut off from the outside world except by radio.  
Tiny Village  
The plane went down to 750 feet for preparation for the drop. The terrain below looked like a midwest prairie after a blizzard. The half-dozen small buildings which make up the pole base were impossible to see until we were almost on top of them.  
The drop zone was marked by fluorescent red cloth panels. We watched as the packages dropped out of the open cargo hatch and parachuted downward "on the target." The supply drop was completed in eight seconds.  
The giant plane banked for a second drop zone, a second on a westerly approach to begin the pickup camped from the east and scurried away. Some of the sacks landed close to the target.  
"We almost put that one in his humble seat," said Capt. Victor G. Lantieri, a U.S. air force pilot.  
Work Stops  
A radio message from the base said all work came to a dead halt for the drop and everybody is "reading mail." It added that the men intended to have the newly-arrived freshly-killed chickens fried for breakfast.  
We made the 750-mile flight from the main Deepfreeze base at McMurdo sound in 4½ hours. Col. William G. Forwood, Spokane, Wash., is in command of the Globemaster on the takeoff from the bumpy blue-green ice runway.  
The plane was loaded to near full gross weight of about 90 tons. It was the first to take off from the ice runway this year with an operational load.

More Working  
In Atom Field

WASHINGTON, Oct. 18 (UPI)—The government estimated today that more than 100,000 persons are now employed in this country in fields related to atomic energy.  
Fewer than 7,000 of these are direct employees of the atomic energy commission but contractors to the commission employ more than 90,000. The office of education reported in a new booklet titled "Career in Atomic Energy."  
The booklet was prepared with technical assistance of the AEC. It says types of work in the atomic energy field range from unskilled jobs to highly specialized scientific and technical positions.  
Increasing career opportunities stem from applications of atomic energy in the manufacturing, nuclear power, agricultural, medicinal and biological fields, the booklet says.

Bids Are Opened  
For New Center

POCAHELLO, Oct. 18 (UPI)—The City of Pocatello Construction Company, Pocatello, submitted an apparent low bid of \$883,795 for construction of a new student union building at Idaho state college, state Public Works Commissioner Arthur Warren said today.  
Intermountain Food Equipment Company, Boise, entered the apparent low bid of \$54,280 for furnishing kitchen equipment for the new building.  
Warren and architect Cedric Allen commented that the low bids be accepted.

Wild Scene in Courtroom

Deputies struggle to hold unruly suspect Charles Casabian (center) as he became violent during his trial in Los Angeles, killing and shooting his way through a special padded leather mask. He was wearing finger cures through a previous courtroom outburst. Deputies finally handcuffed behind him, kicked and pushed until the chair was loose from the floor. (AP wirephoto)

New Surplus  
Of Wheat Is  
Seen for '58

WASHINGTON, Oct. 18 (UPI)—A new surplus-producing crop of winter wheat may be in the making in the Great Plains.  
Reports reaching the agriculture department and the weather bureau state that in many parts of the Midwest and Southwest, prospects for fall-sown winter wheat, rye and oats—which will be harvested next spring—are the best in years. This was true particularly of Texas and parts of Oklahoma.  
This time a year ago, the southern Great Plains were still in the grip of a long drought. The wheat outlook was unfavorable. Many farmers had agreed to retire some of their wheat acreage under the soil bank program.  
As a consequence, this year's production of winter wheat fell about seven per cent below that of last year. The production of all wheat this year may turn out to be somewhat below market demands. This would permit movement of some of the surplus into markets.  
But the story may be quite different a year from now, farm officials said. Much less land will be retired from wheat under the soil bank than for this year's crop. This fact, coupled with the improved weather conditions could easily be reflected in a sharply larger crop next year—one that would add to surpluses rather than open warehouses to permit some of the extra supplies to move out.

ALGERIANS FIGHT

Damages Claimed  
For Nuclear Tests

TOKYO, Oct. 18 (UPI)—Japan will claim \$100,000 from Britain for damages suffered by Japanese fishermen as a result of British nuclear tests in the south Pacific this summer, informed sources said today.  
The sources said the claim was based on investigations conducted by the Japan fishing agency in cooperation with the Japan fishing association. The estimated damages were limited to those caused by debris and the shortened fishing period during the Christmas-latest tests, the sources said.

Object Reported  
Above Singapore

SINGAPORE, Oct. 18 (UPI)—Hundreds of persons reported today they had seen a brilliant object flash across the skies over Singapore today for as long as 35 minutes.  
Some witnesses said the object trailed sparks from its tail and that it moved in a southeasterly direction until it finally faded from view.  
The object did not correspond with the schedule of the Russian Sputnik and there was some speculation it may have been a rocket.

### Nancy Sisty and Eivind Resa Wed in Moscow Rites

MOSCOW, Oct. 18—Wedding vows were repeated by Nancy Jane Sisty, daughter of Mr. and Mrs. C. W. Sisty, Spokane, Wash., and Eivind Resa, son of Mr. and Mrs. Martin Resa, Twin Falls, in services Sept. 21 at the Methodist church here.

The Rev. Ellsworth Tilton officiated at the double ring ceremony before the altar decorated with white candles and arrangements of white gladioli, chrysanthemums and lilies.

Roger Williams, Lewiston, sang "Because" and "The Lord's Prayer." Given in marriage by her father, the bride wore a gown of lace and tulle over white satin. Her fingertip veil was held in place by a clip of lace. She carried a bouquet of white chrysanthemums and roses and a white stadioli, chrysanthemums and lilies.

Mrs. Dave Anderson, matron of honor, wore a dress of avocado green, chrysanthemum and carried a bouquet of white chrysanthemums. Either Ned dates and Ivy, Bridget, Patricia Resa, Kimberly, and Beverly Bolingbroke, Moscow, now are matching dresses of avocado green.

Carmie Lee Boyd, Clarkston, niece of the bridegroom, was flower girl. She wore a pink nylon frock and carried a basket of rose petals. Candelighers were Janette Taylor and Betty Carlson.

Richard Resa, Portland, attended his brother as best man. Dean and Mrs. Eivind Resa, Moscow, and Mrs. Eivind Resa, Moscow, attended.

After the ceremony a reception was held in the church parlors. The bride's table was covered with a white lace cloth and the decorated cake was topped with silver wedding bells.

Mrs. Jane Anderson, Montana, grandmother of the bride, and Mrs. Richard Boyd, Clarkston, sister of the bridegroom, assisted in serving the refreshments.

The couple will make their home in Spokane.

### Care of Your Children

By ANGELO PATRI

"I am writing to you because I am confused and perhaps you can help me to see straight. I am grand-sun to a fine boy of 18. He is a freshman in secondary school, a private school, and he has changed from a happy, light-hearted boy to a worried one."

"His father is a busy man and has little time for his boy and his mother believes that once she has set a rule for him the matter is settled once and for all and well settled. You know the attitude: 'Be honest, earnest, upright and expect every body else, including the boy, to be like her.'"

"Lately the boy has begun to drop in to see me about once a week on his way to or from school and his visits are sessions of release for him and worry for me. He is questioning everybody and everything. I don't about what to believe or whom. He goes to church but now he wonders if what he has been taught is correct and points to the state of the world. He says his father has no use for him except to find fault. His mother likes his younger brother better than she does him. He usually ends up with the statement that he is going to leave home. 'You can see my predicament. I am a fatherless child.'"

"At this stage of growth boys need good leaders who will help them to talk out their confusions, rather than assurance and self-reliance. This friend is usually an outsider like a teacher, a Scout leader, a relative. If they do their work well, guide the boy gently toward a mature outlook on life they are helpful indeed. Every boy should have one."

"It is a trying time for Mother when young men do such things as this. If your child is at the state, you will welcome the advice given in the 'Pat's' booklet 'P. A. The Father's Guide to a Boy's Life'—\$1.00. It is in the store, New York 18, N. Y."

**OBSERVES BIRTHDAY**

SHOSHONE, Oct. 18—Lorinda Dille, 4-year-old daughter of Mr. and Mrs. M. J. Dille, celebrated her birthday anniversary last week with a party at the home of her parents.

### Women Honored At Local Dinner Meet of AAUW

Mrs. Leon Lamet, Warsaw, Ill., member of the national education committee of AAUW, and Mrs. Donald Merbeck, Kellough, state president, were guests at dinner meeting of the American Association of University Women Thursday evening in the Turf club.

Mrs. Lamet spoke on the problems of education. She emphasized the problems of finances, particularly with reference to readjusting assessed valuations, education beyond high school—and the impending emergency of overcrowding in our colleges.

She pointed out "the citizen's committees are important because they laymen must become interested in problems of education. Teacher recruitment should start in high school. About 20 to 30 per cent of our population is school children."

She added all children should have equal opportunities. The present school children have to be trained for a new way of life because the next 30 years will show more rapid changes than ever before.

Mrs. Lamet has earned degrees from the University of Illinois and Columbia university and has been on the faculty of Columbia and Washington universities and University of St. Louis. She was a member of the White House conference committee for Illinois.

Mrs. Thomas Olmstead, local chapter president, was toastmaster for the evening.

# Use of Paper Big Game Tags Scored by Twin Falls Sportsman Organization

Paper big game tags, inaugurated for use this year by the state, were scored Thursday by members of the Southern Idaho Fish and Game club as impractical. Both the railroad material used with the tags was made and the general make-up was condemned by the group, which called for return to the metal tags used in previous years. In other words, the group heard explanation on the need for the general beaver trapping season.

# New Safeway, New Movement Maintains Residents of Drugstore Set Venus Are Ready to Pay Visit to Earth

By GEORGE CORNELL  
AP Religion Writer

People from the planet Venus are reported to be making a close study of the earth and its inhabitants. This is the contention of a new spiritualist movement, which holds that messengers from Venus are coming to earth regularly.

The plan to begin to contact Venus next month, said Robert Ewing, a Florida man who has made lengthy recordings he says are messages from Venusians.

Within organized spiritualism, a huge religious activity in this country with an estimated two million adherents, such claims are commonly met with skepticism.

Traditionally, spiritualists have confined their psychic efforts to communications with departed souls. However, the new Venusian movement is different.

In Portland, Me., where the movement is based, the National Venusian Church of Christ, Inc., is planning a series of lectures and demonstrations.

The interior of the store is decorated in a modern, clean style. The shelves are filled with a variety of goods, including fresh produce, meat, and dairy products.

A new self-service meat section is under the supervision of Jack Asher, meat department manager. He says the new section will provide a wider selection of meats than the old service counter.

The new Safeway store will employ 75 persons including Holman. Hours will be from 8 a. m. to 9 p. m.

**Driver Is Injured In Truck Mishap**  
Eugene P. Klans, Twin Falls, incurred minor injuries at 10:20 a. m. Friday when his Ford pickup truck was involved in a collision with a car on Highway 20 near the intersection of Highway 10.

State police said Klans drove his truck into the borrow pit to avoid a collision with a 1955 Chevrolet truck driven by Clifford Van Kimbrell. Van had pulled out to pass a hay wagon being towed by a tractor and driven by R. O. Zakey, Hansen.

At the same time Klans drove the truck into the left lane to pass the Van Kimbrell and the tractor. The three vehicles were being driven east.

The accident occurred approximately 80 feet in the borrow pit Klans apparently tried to drive back onto the highway and the pickup turned over on its top. The accident was investigated by State Police Lt. Clark Hand and Patrolman M. J. Bays, Jr.

## Minidoka Sets Stock Auction

RUPERT, Oct. 18.—The first public sale of stock at the Minidoka stock auction will be held at 1 p. m. Monday at the Valley livestock commission sale yard.

Forty-five animals will be offered according to County Agent Bill Priest. The auction is being held on the regular sale day to assure the presence of packing house representatives.

In past years the fall stock sale has been at the Burley stock sale. Through arrangements made by the county agent and John Trevino, secretary of the Minidoka stock sale, the auction is being held at the Valley livestock commission sale yard.

Animals to be sold include 27 calves, nine hogs and 27 sheep, Priest said.

## Member Accepted At Grange Parley

Mrs. Victoria Trendwell was given the obligation as a new member of Mountain Rock Grange Thursday at a parley held at the grange.

Mrs. Victor Nelson resigned as secretary and Mrs. Carroll Wiley as treasurer. Mrs. Trendwell was elected as secretary.

In other action, the Grange voted to have the executive committee purchase a new building for the Grange from the general fund to paint the exterior of the Orange hall.

# Nixon's Tour Of Europe Is Put Off Again

WASHINGTON, Oct. 18 (AP)—The White House announced yesterday that a projected European tour by Vice President Richard M. Nixon will be deferred until next year.

The White House said Nixon had planned to visit Europe, but the trip will be postponed, it said, until after the next session of Congress.

The White House explained that the Vice President could not make the trip this fall and still fulfill his commitments in Washington.

"The White President had planned to visit various countries in Europe in late October and November of this year, however, it was found that it would be necessary to have the Vice President return to the United States to meet commitments in the United States later in the year," the White House said.

"Accordingly, the Vice President is deferring his trip to Europe and plans to make a trip to the next session of Congress."
