

Khruushchev the equivalent of \$160 each for the overcosts and \$136 for the suit.

He said the suit will be mostly padding in the jacket.

Litico said Khruushchev has broad shoulders, so there won't be much padding in the jacket.

Employers have agreed to contribute 7 1/2 cents per hour he said, but are urging that health and welfare fund be administered locally.

Closing of Cain's Hotpoint 238 Main avenue north, Nov. 1 the moving of the stock to Riser-Cain Appliances, 150 Main avenue north, was announced Friday by Elvis Cain.

"The merger of the two businesses will force us to drop some of our lines," Cain said. A. L. Standley, manager of Cain's Hotpoint store for the past 3 years, will transfer to Riser-Cain.

Cain said the building housing Cain's Hotpoint is under lease to his firm and will be used as a warehouse and, the windows for display purposes. He pointed out that by dropping some lines of refrigerators, dinette sets, freezers and televisions would not reduce his stock.

Trade Exhibits Draw Interest at Florists' Convention

Delegates to the Idaho State Florist association's three-day convention in Twin Falls examine one of the many trade exhibits Friday. Mrs. Austin Glover, right, part-owner of the Blackfoot Greenhouses.

Dodge Plans Early Display of 1958 Cars

The 1958 Dodge passenger cars will make their debut in dealer showrooms Nov. 1 with changes described as advances in safety engineering, fuel economy and engine performance.

The headline standard on all models are designed to provide improved lighting for safer night driving. Total contact brakes, with dual wheel brake cylinders, are of fluting shoe design. All 1958 Dodge cars have independent emergency brake as well, providing two separate braking systems.

The compound curvature windshield wrap around at the top as well as at the sides and corners for better vision. They are standard on all hardtops and convertibles. Safety seat belts, anchored by steel cables are engineered for maximum strength. Installations for one to six passengers are available. A "sure-grip" differential, new on 1958 models, places the power on the wheel with the most traction. This is designed to allow drivers to pull easily out of any road situation.

Top gasoline economy is promised with higher compression ratios and "increased" engine efficiency. Shorter strokes reduce piston travel, adding to longer engine life and greater smoothness of operation.

A new line of engines, headed by the Ram Fire V-8, powers all 1958 Dodge cars. Combining light weight, compactness and quiet operation, the Ram Fire V-8 is standard on Custom Royal and station wagon models in the 350-cubic inch version. A 361-cubic inch version of the Ram Fire is available on all Dodge Eight with the D-500 engine package.

Ram Fire "350" uses a single four-barrel carburetor designed for high efficiency and low fuel consumption. Light in weight, it requires little space under the hood and is designed for easier servicing. Featuring a 10 to 1 compression ratio, it is a deep block design. The new off-center rubber mounting is planned to reduce engine noise and vibration.

The 1958 Dodge line consists of four separate series, Coronet, Royal, Custom Royal and station wagon.

Debaters Gather

POCATELLO, Oct. 25 (AP)—The annual two-day Great State Debate Jambores opened today with teams on hand from Montana State, Montana School of Mines, Eastern Montana College of Education, Air Force Academy, Brigham Young University, Arizona State at Tempe and Idaho State.

BLM Election Is Wednesday For District 2

BURLEY, Oct. 25 (AP)—An election will be held Wednesday at the bureau of land management office, 224 1/2 4th street, Burley, to fill vacancies in the district advisory board of Twin Falls grazing district No. 2.

Advisory board members elected will serve for terms of three years and fill the vacancies created by the expiration of the terms of Wesley B. Ward, Elgin, and Vern Eames, American Falls, sheep representatives; and Lewis Taylor, Asimo, cattle representative.

Other members of the board include DeVere "Dovey" Malm, sheep representative; Milton T. Jones, Malm, cattle representative; A. D. Pierce, Malm, cattle representative; Ray Lincoln, Twin Falls, sheep representative; Russell C. Larsen, Kimberly, cattle representative; and Ernest Kild, Burley, wildlife representative.

From 1 p.m. to 3 p.m. candidates will be nominated, judges selected and current matters of interest discussed. The polls open from 2 p.m. to 3 p.m., or until those present at 3 p.m. vote.

Nominations must be by a qualified licensee who is permitted in the same precinct with the same class of livestock as the member whose term is expiring. Voting is on a district-wide basis. Each qualified licensee will cast a ballot for a candidate from each precinct who represents the class of livestock in which the voter predominates.

The advisory board will meet Thursday at the BLM office, Burley, to reorganize, select delegates and alternates to the state advisory board, and consider transfers of grazing privileges, range improvement and range administration.

Parley Notes Fire Districts Need in Area

SHOSHONE, Oct. 25 (AP)—The feasibility of forming a rural fire protective district in the north Shoshone area was discussed at a special meeting at Wood River Center Grange Tuesday night.

A committee was appointed to contact land holders and persons who would come in the district. If those contacted are in favor of such a district, petitions will be circulated to set the project under way.

A certain percentage of the people within the area will need to sign the petitions, which will be taken to the county commissioners who will set an election. The people in the district will then vote on the proposed levy necessary to form the district.

The petitions will be circulated within the next 30 days. Attorney Jack M. Murphy, Shoshone, was speaker at the meeting Tuesday night, explaining the legal procedures necessary to form the district.

James Franks, Jr. is committee man in charge of the project. The only fire protective service available to the area at this time is the bureau of land management. If BLM work prohibits their going to a fire, there is no other means of battling a blaze.

The monetary unit in Liberia is the U. S. dollar.

Dietrich Visitors, Trips Are Listed

DIETRICH, Oct. 25 (AP)—Mrs. Franklin Orr and Susan Orr attended homecoming at 18C in Pocatello.

Mr. and Mrs. John Millard have returned from a two-week vacation trip to California, Oregon and Washington. They visited their two sons in Portland.

Lola Stuel, Santa Rosa, Calif., is a guest at the home of Mr. and Mrs. Delbert Melken.

PEACE PREDICTED
ST. LOUIS, Oct. 25 (AP)—Abba Eban, Israeli ambassador to the United States, said last night he does not think the dispute between Syria and Turkey "will erupt into violence."

Dogs in Stockholm, Sweden, are taxed at the rate of 40 kronor (about \$8) annually.

Cautious Broker Bilked on Stocks

NEW YORK, Oct. 25 (AP)—Walter Watson, who at 63 is the nation's oldest active stock broker, is the first to admit that no one is too old to learn.

In an interview with the United Press, Watson confessed rather sheepishly he recently was taken in by a (fast-talking Canadian stock promoter.

He said he bought stock in a fly-by-night company after listening to a glowing report by its "manager" on potential of land.

It turned out the property didn't have a drop of oil on it, Watson said. However, he added, he understands the hunting and fishing on the land are "first rate."

Sputnik Tracking Pact Is Canceled

MENLO PARK, Calif., Oct. 25 (AP)—The Stanford research institute will continue the work of tracking the Russian satellite sputnik on a voluntary basis only.

An institute spokesman announced the policy yesterday after saying the air force had canceled its contract with the institute for tracking the satellite because of lack of funds.

William Roper

PORTLAND, Me., Oct. 25 (AP)—If any freshman or sophomore high school girls in Portland lack charm they aren't admitting it. The city's plans for a weekly charm school collapsed.

Nobody showed up.

Workshop Starts
DOVER, Oct. 25 (AP)—The Northwest Workshop of the Vocational Education association convened here today with 50 officers on hand from seven states.

Lowell Burkett, national AVA secretary from Washington, D. C., was presiding over the two-day session.

Other Maglo Valley residents who previously have received the honor are Sen. Henry Dworshak, Burley, and Leon Friedman, Jolley. A resident of Burley since opening his first store in 1912, Roper has been an active Mason since 1917. Staff engraving.

Expert Lauds U. S. 'Farside' Rocket Tests

LOS ANGELES, Oct. 25 (UP)—One of the men primarily responsible for the mighty four-stage rocket that soared one to four thousand miles today over the Nevada desert said today the rocket and five others were "far more important scientifically than Sputnik."

Dr. Morton A. Papp, 33, director of advanced studies of the Air Force office of scientific research, said, "It was a serious scientific achievement done within budget limitations. I would say the effort cost us under a million dollars."

"I don't deny Russia's Sputnik satellite was a difficult feat and well done," he said. "But a great effort to it, but we scientists have the policy decision to others."

Dr. Papp said that in his opinion, we should launch our own satellites if we put maximum effort to it, but we scientists have the policy decision to others.

Plans Prepared for Food Caravan to Shrine Hospital

Dale Eberlein, left, and Earl Barnes, co-chairmen of the Shrine's annual food caravan to the Shrine's crippled children's hospital, Salt Lake City, discuss loading of trucks and meeting dates. The caravan is scheduled to leave Twin Falls at 10 a.m. Nov. 2. It will arrive in Salt Lake City Nov. 2 after joining other Shrine groups along the route. (Staff photo-engraving)

Shriners to Send Tons of Food for Children's Hospital at Salt Lake City

The annual Shrine food caravan to the Salt Lake City Gristled Children's Hospital is scheduled to leave Twin Falls at 10 a.m. Nov. 2 and arrive at the hospital the following day.

More than 10,000 pounds of food will be delivered by representatives of the Twin Falls, Burley, and Burley-Rupert Shrine clubs, Jerome, and the Burley-Rupert Shrine club.

The food caravan to the Shrine-maintained hospital is an annual event. Last year clubs from this area sent 7,000 pounds of food.

Gore says the hospital accepts any child, under 14 years old regardless of race, religion or creed.

Requests Are Denied in Car Mishap Injury

ORANGEVILLE, Oct. 25 (UP)—A district court jury last night denied damages in two \$100,000 suits filed against the estate of a driver who was killed in a crash near Higgins.

James D. Keeler of McCall and Mrs. Jay Dryer of Higgins both claimed in the accident, sought damages from the estate of 70-year-old C. Chamberlain, High Center, another passenger, was killed in the crash and Chamberlain later died of his injuries.

Keeler and Mrs. Dryer both testified that Chamberlain had been driving about 100 miles an hour on the winding road in the Little Salmon river canyon.

A defense witness, Spokane insurance investigator Darrel Smith, testified yesterday that Mrs. Dryer told him eight days after the accident that the car had been going no faster than 35 miles an hour and that the steering mechanism had a defect.

Other defense witnesses had testified to Keeler's reputation. Keeler had originally asked \$100,000 and Mrs. Dryer \$50,000. Their complaints were amended to conform with an Idaho law limiting damages to \$10,000 in the case of passengers suing the driver of an auto.

Harvest Crew Supply Short

Employment in Idaho was estimated to have increased by 1,000 workers during the period from mid-August to mid-September but in many Valley harvest labor was short, according to figures just released by the state Employment Security agency.

Gooding experienced the greatest shortage of farm labor. The demand for agricultural workers exceeded the supply considerably after schools reopened. According to the agency, good general farmhands are still in demand.

In Burley the demand for workers continued to increase. Apparently plenty of help is available for the potato harvest.

Superior reported employment in the potato and beet harvests and in potato and warehouse construction.

There appears to be more than the usual number of transient workers and crews in the Jerome area. Heavy demands for laborers developed around Oct. 10.

In Twin Falls increased agricultural activity, particularly the early harvest of potatoes and beans, resulted in a general increase in job openings throughout the area.

Richfield Visits, Trips Are Listed

RICHFIELD, Oct. 25—Mr. and Mrs. Norman C. Mills left Friday for their home in Colorado after looking after property interests here. They were guests of Mr. and Mrs. Harry Holt.

Mr. and Mrs. Odell Chatfield were delegates to State Orange at Boise. Other Richfield Orange members attending were Mr. and Mrs. G. O. Chatfield, Mr. and Mrs. Russell Powell and Dewey Wilson.

Mr. and Mrs. Bert Jensen are in Salt Lake City this week where Mrs. Jensen is receiving medical treatment. Mr. and Mrs. W. L. Jensen are staying at the ranch in Tropic during their absence.

Mr. and Mrs. Harry Holt have left to visit relatives in Colorado before going to Mexico for the winter.

Mr. and Mrs. Eugene Alexander have returned from Portland where they visited 10 days. His aunt, Mrs. E. L. Tracy, accompanied them home.

Drive for Higher Wage Is Planned

BOISE, Oct. 25 (UP)—Boise Postmaster James F. Hughes was mapping plans today to spearhead a move to raise the pay scale of postal supervisors to the same level as that of supervisors in other government agencies.

Hughes, president of the Idaho chapter of the National Association of Postmasters, will head a delegation of 20 Gem states to the association's national convention at Los Angeles Oct. 27-31.

While there, he plans to push for the wage increase.

No Durd

TAHLE, Oct. 25 (UP)—A Pomona scavenger for scrap metal yesterday picked up a shell near a firing range in north Pomona. He insisted it was a dud. To prove his point, he dashed it to the ground.

The shell exploded, killing him and three others and wounding 10 other persons.

Secret Police Remaining to Enforce Rule

BRATISLAVA, Oct. 25 (AP)—Secret police remained in power since the appearance of economic life in Hungary after the nation rose against communist oppression. The sum of observations by diplomats and Westerners returning recently from the Hungarian capital, Budapest, is that the secret police are now filled with food and shop windows are crowded with a variety of goods. Restaurants and bars have reopened and theaters and nightclubs are sold out practically every evening. The average Hungarian is no better off than before the revolution. Prices have outstripped wages. The average income is about 60 U. S. dollars a year.

Concentration of buildings damaged during the revolution has made considerable progress. But some of the damaged sections are not yet repaired. The secret police may be doing more than ever to keep the country in order. The secret police may be doing more than ever to keep the country in order. The secret police may be doing more than ever to keep the country in order.

Deputy Visits in Shoshone Area

SHOSHONE, Oct. 25.—Second Deputy U. S. Marshal Clarence Tanaka is visiting parents, Mr. and Mrs. Eddie Tanaka, in the Shoshone area.

Deco Tells Trips

SHOSHONE, Oct. 25.—Mr. and Mrs. Cliff Burton and their family, who have spent several months in Chicago, returned to their home in Declo Tuesday.

Ominous Move

Newspaper above illustrates recent Middle Eastern developments that culminated in the landing of Egyptian troops in Syria for "defense against aggression." The surprise move increased fears of an explosion in the under-box area. Israel and Jordan see it as a "distinct threat" to their countries.

Magic Valley Chambers Slate Meeting in Shoshone Nov. 12

SHOSHONE, Oct. 25.—The Magic Valley Chamber of Commerce meeting will be held at the Lincoln school here on Nov. 12, according to Frank Carothers, local chamber president.

Carothers said a special program stressing the tourist trade project of the valley-wide chamber will be held following a dinner at 7:30 p.m. Lloyd Smith was appointed to the board of directors for the dinner and Howard Adkins to handle program arrangements.

Guests at the Tuesday meeting were Ralph Hale, Twin Falls, executive, and Oscar Kerner, Shoshone, Lincoln county commissioner.

School Supt. Ralph Villers announced a "cheerleaders" workshop to be held in Shoshone in November.

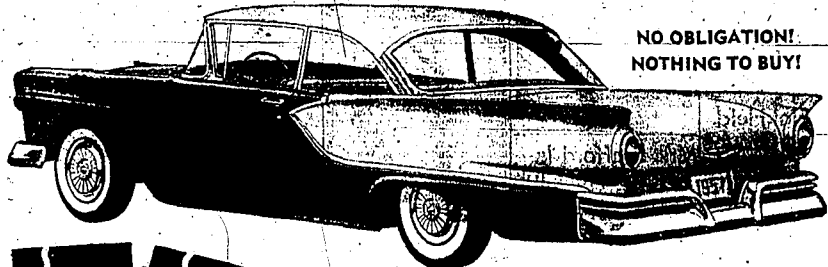

Students of the school will contact businessmen for prizes for the Halloween carnival scheduled for Oct. 31 at the school. The Chamber and previously voted to assist with prizes for the event and Superintendent Villers read the letter of solicitation prepared by the students. The letter was approved by the Chamber.

City Councilman Rupert Manning announced construction work on the new bridge on U.S. highway 93 over Little Wood River will begin on Nov. 1 by the highway department.

During the two-month construction period, traffic going north will be directed to one block east of the main highway 93, and traffic going south will be routed two blocks east of highway 93. Both will be one-way traffic during the time. Cooperation of the community will be sought during the period, Manning said. The traffic will go past the grade school and city and county police will be on duty to eliminate any accidents and traffic problems.

Last spring the need of a new bridge over the river was brought to the attention of the entire community.

Victims of Last Week-End's Upsets Ready to Redeem Selves in Saturday Play

By The Associated Press

Any football coach will say that one of his hardest tasks is keeping a team "up" for two big games in succession, especially if the first has brought a smashing success. Another tough one is facing a good team that is eager to get back after losing by an upset. These two situations present special problems for the master minds at a dozen or more major colleges this week-end.

NCAA Has 'Touched' 41 Colleges for Illegal Athlete Recruiting Methods

NEW YORK, Oct. 25 (AP)—The National Collegiate Athletic Association has announced that it has "touched" 41 colleges since it was organized in 1922, has sharply criticized the list of possible football bowl teams this season.

At least three possible candidates for the Orange Bowl, which could be played in Miami, Fla., on Jan. 1, are on the list. They are North Carolina State, Auburn and UCLA.

The NCAA has been on probation and has been barred from bowl games and postseason championship competition in all sports. And there may be a fine levied on the schools before Jan. 1 rolls around.

The NCAA still has 26 teams in the list of possible bowl teams, and some more big schools may be added.

North Carolina State, which could be in the Atlantic Coast conference championship if it gets past Duke Saturday, is the only school that has been barred from bowl games for a basketball recruiting violation last year. The Wolfpack, which is the best team in the ACC, is also barred from bowl games and similar activities are Florida, Southern California, Washington State and Oregon State, whose record indicates they wouldn't be considered for the bowl.

N. C. State not only was placed on probation for recruiting violations, which won't end until November, 1958, but was barred from NCAA basketball and football bowl games. It also was deprived of the privilege of appearing on the national television network for bowl games.

Similar-but-alleged-NCAA penalties were handed out to Auburn, unbeset co-leader of the Southwestern Athletic Association, and to Washington State, which became a strong contender in the Pacific Coast conference by defeating Oregon State last Saturday.

The SEC champion almost invariably gets a bowl bid, and it is not surprising that the school is invited. The Rose Bowl spot ordinarily goes to the Pac-8 champion.

Also banned from bowl games and similar activities are Florida, Southern California, Washington State and Oregon State, whose record indicates they wouldn't be considered for the bowl.

Title Could Have Top Year In Pro League

SAN FRANCISCO, Oct. 25 (AP)—Ten years in professional football and this could be the best one yet for San Francisco's strike-passing quarterback, Y. A. (Elberton) Abrams.

For this season the bald 30-year-old passer has a couple of ends who can get down the field in a hurry to snap his long throws and a line that's been giving him more time to throw.

As the 49ers have won three of their first four National Football League games to go into the unblemished position of co-leaders in the Western conference, Title has a good chance to win the league.

Known for years as preeminent passing team, one of the few pro outfits to bank so heavily on rushing, the 49ers this season have scored eight touchdowns on the pass.

Among the pros, "Title" has been one of the best. He can throw the high hard one, a lob or one down and out. He's been a real asset to the 49ers.

Getting down under them the other day, Title was being called the "second-year end" who came to the 49ers from college of the Pacific Northwest State, where he played football and R. C. Owens, the flanker back from College of Idaho, who was the end of the 1955 season. Title Wilson and Halbrook struck a power punch in the second year.

Boyd, Robinson Enter Charmed Circle of Lifetime .300 Hitters

NEW YORK, Oct. 25 (AP)—Frank Robinson of Cincinnati and Bob Boyd of Baltimore joined the select ranks of batters whose major league lifetime averages are .300 or better, as a result of their 1957 performances. Statistics compiled by the Associated Press disclosed Thursday that 18 active players boast a career average of .300 or over, two less than there were at the end of the 1955 season. Records are based on players who have participated in at least 300 games.

Robinson and Boyd became the only new additions. The Red Sox's outfielder hit .322 to boost his lifetime mark from .299 to .307. Boyd's career average went from .299 to .301. The Orioles' first baseman moved .318 last season.

Both National League players owned at least a .300 average with Stan Musial heading the parade. Stan, who hit .343 in 1957, maintained his 250 percentage average.

Three National League players dropped out of the elite category and Jackie Robinson retired from baseball prior to the 1957 campaign. Robinson's lifetime average was .311.

San Francisco's Don Mueller (302 to 299), Cincinnati's Johnny Pate (301 to 299) and Pittsburgh's Bill Virdon (301 to 299) were the only players to drop out of the elite category.

Run for Roses Could End in PCC Saturday

By The Associated Press

The Rose Bowl pitchmen this year will be a real test for the Pacific Coast Conference, with Oregon and Washington State still dominating the Rose Bowl. The Rose Bowl is the only game in the Pacific Coast Conference that is not a rivalry game.

Oregon strengthened its position in the race by edging Washington State last week but is still edged with the Golden Bears of California.

California got its first taste of victory over the University of Southern California and the reaction might make the Bearcats ready to go to the Rose Bowl.

Washington State, with a 1-1 record, needs a win badly over USC to stay in the Rose Bowl running. The Cougars following the 14-12 setback last week.

Stanford, with a 1-1 record, and its bowl prospects dim, takes on the 49ers in a game that is a real test for the Pacific Coast Conference.

Clifford, UCLA can't play any sense in the Rose Bowl game and the Bruins can sink Stanford's title aspirations if they aren't already well on their way to the Rose Bowl.

Oregon State, ineligible for the Rose Bowl, is still a contender to go to Seattle to play the winless Washington Huskies. Idaho and Fresno State meet at 3:30 p.m. Saturday.

Aerial-minded Washington State has the best passing record in the conference, but it is still a long way from the Rose Bowl.

Oregon State, ineligible for the Rose Bowl, is still a contender to go to Seattle to play the winless Washington Huskies. Idaho and Fresno State meet at 3:30 p.m. Saturday.

Vandals Stress Offense in Drills

MOSCOW, Oct. 25 (AP)—The Russians stressed the offense in their football drills Thursday but Coach Leonid Bruchanov stressed the defense in the squad's conditioning drills.

Quarterbacks Howard Willis and Gary Kewitich were the main players in the offense drills.

The Russians are expected to enter the 1958 World Cup tournament in Sweden.

The Russians are expected to enter the 1958 World Cup tournament in Sweden.

Bulldogs Ready For Idaho Game

FRESNO, Calif., Oct. 25 (AP)—The Fresno State football squad, termed by the best physical condition in the West, was poised to take off Friday for the Idaho game.

Coch Coach Van Gelder said the squad was in "full attack" condition.

The Bulldogs, crippled by injuries and a lack of practice, have been able to win only one game in five starts.

Quarterback Jim Kuhn will be switched over to full back and Mike Pratt will start as a signal caller, Van Gelder said.

Motivation of Purchasers Is Given Studies

CROTON-ON-HUDSON, N. Y., Oct. 23 (AP)—Housewives have some uninvited guests along on shopping trips these days.

Their uninvited companions may be called "hidden persuaders," motivational researchers or "mood motivators." Call it what you will, it boils down to Dr. Ernest Ditcher, a 30-year-old Virginia-born psychologist who operates the Institute for Motivational Research here in a hilltop house 100 feet above the Hudson river.

A short, stocky man with a copy-bookish fringe of hair bordering his eyes, Ditcher does his work in a 60-room field-station mansion. From this dominant position, he hurls down thunder-bolts in the form of reports aimed at influencing a nation's spending patterns.

His institute is in the controversial business of invading consumer privacy by finding out just what things as they buy on toothpaste instead of another or one auto instead of another.

He thrives because his clients and their customers don't know the "whys" themselves.

It takes a trained team of psychologists, sociologists and anthropologists to find out. And why bother to find out the "whys"? Well, competing products are so similar in quality and price today that in order to succeed, the maker finds it necessary to appeal to the consumer's innermost feelings. That's where Ditcher and firms like his come in.

Even critics who call Ditcher's work "trivial exercise" concede that in our economy, geared as it is to moving merchandise off the shelves, it is not only a means to an end but a means to keep on selling. As one psychologist put it, "You can't condemn motivational research without condemning our economy."

Unlike the traditional market researcher, Ditcher brushes off "nose counting." He says it's better to learn a buyer's attitude by asking a question than by asking a hundred people thousands of questions than by asking thousands of people a hundred questions.

The chief tool in Ditcher's operation is the "depth interview," a free-wheeling session that lasts from one to three hours. The interviewer records the respondent's answers verbatim and sends them to Ditcher for analysis in the best Freudian tradition. After learning the consumer's "images" of the product, Ditcher advises his clients on how to improve it.

His clients, incidentally, include some of our biggest firms, including the "Three Generals," Motors, Foods and Electric.

Samples of Ditcher's advice (bolded down): "Put the housewife away from making the cake herself when she buys a quick cake mix. Cater to her creative desire."

"Don't tell a do-it-yourselfer a five-year-old can build that bookcase. You'll destroy his confidence and feeling of superiority."

Eden Travelers Return to Home

EDEN, Oct. 23—Mrs. Ray Henry has returned after spending five days at the home of her daughter, Mrs. Lloyd Peacock, and her grandsons, Ed and John, in Salt Lake City.

Ray Henry returned from Portland where he visited his brother, Raymond, and his wife, Mrs. Ray Henry, who arrived from his home at Virginia Beach, Va., for a 30-day leave.

Mr. and Mrs. Gordon Newby have returned after spending last week at the home of their son-in-law and daughter, Mr. and Mrs. Glen Newby, in Montpelier, Vt.

The "Eden" village hall and fire house are being repaired and painted this week.

REMEMBER WHEN?

BY BOB REESE

Most of us like to go back sometimes . . . back to the big moments, the great events of our time that stick in the memory. There was the excitement of the Roaring Twenties . . . the days of the speakeasy and the Charleston . . . the day of Bobby Jones winning every golf title in sight . . . of the terrible JACK Dempsey striking a victim across the ring . . . of Babe Ruth hitting No. 50.

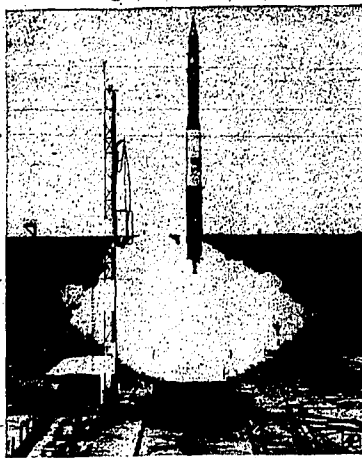

There were many other memorable moments . . . like the delirious excitement of Armistice Day in 1918 . . . an hysterical joy that was repeated in 1945. And there were times of tragedy, too . . . the bitter fall down stairs of the late '30's . . . the sudden death of Roosevelt on the eve of victory in Europe.

Remember those years?

We're going to bring back some of those moments of recent history in these columns. Look in on us . . . and see if you can remember the year before we began.

Most of us would like to go back to those days when a good new car cost \$600 . . . but those were also the days when a man with a weekly salary check of \$20 was often doing well. We can't take you back that far . . . but we can bring you real savings on a brand-new Dodge, Plymouth or Gremlin V-8. We can offer you a top trade and the best terms available, at BOB REESE MOTOR CO., 2008 Second south, Dial 2-7622.

Vanguard Launched

The navy's Vanguard rocket, being developed to launch a satellite, roars upward from its launching platform in a test of the first stage engine. The rocket gives off a white-hot stream of fire and billows smoke as it reaches for the upper spaces. During the flight the Vanguard reached a peak velocity of 4,250 miles per hour. The test firing took place at Cape Canaveral, Fla. (U. S. navy photo via AF wirephoto)

'Cobwebs' Float Through Air in Nature Mystery

PORTLAND, N. M., Oct. 23 (AP)—Cobweb-like strands up to 50 feet long are falling from the sky around this eastern New Mexico City, featuring telephone lines and becoming a nuisance in broom corn and cotton harvesting.

Explanations of the nature of the strands have ranged from the Russian satellite to giant cobwebs. They are apparently falling from a great height.

An engineer at Sandia said in Albuquerque said he had heard of similar phenomena in California valleys around Fresno and Bakersfield which were attributed to dust.

Dust particles in the atmosphere rub together creating a static charge which causes the particles to cling together.

Bull Sale Set

POCATELLO, Oct. 23 (AP)—One hundred head of registered Hereford bulls have been consigned for sale at the Idaho Cattlemen's Association bull sale here Nov. 1.

Jack Pierce of Malia, sale manager, said bulls had been consigned by breeders in Idaho, Utah and Wyoming. This will be the association's 10th annual range bull sale.

STRIKERS KILLED

PARIS, Oct. 23 (AP)—Two shipyard strikers were killed and 200 injured in a destructive clash with authorities at St. Nazaire yesterday on the eve of a nationwide 24-hour walkout by many unions. They are protesting high living costs.

Hunter Is Found In Aerial Search

BOISE, Oct. 23 (AP)—Joseph Reynolds, 22, was back in Boise today after being lost for two days in the wilderness east of Idaho City. Reynolds, who had become separated from his hunting party Tuesday, was spotted late yesterday from a plane piloted by Boise county Sheriff Jack Williams. Williams then directed ground searchers to the lost hunter with his air-to-ground radio.

State police said that Reynolds was in good shape and walked out with the search party. He was started from the air just before dark.

Scuttled

ASHLAND, Wis., Oct. 23 (AP)—From his small, light-twin-engine, 60-year-old fisherman Nick Rollins heaved a large, heavy anchor into Lake Superior.

He was rescued by another fisherman.

Grange Sets Party

BELLEVILLE, Oct. 23 (AP)—A Halloween costume party for members of the Blue Grange and their families will be held at the Grange hall on Tuesday.

Mr. and Mrs. Frank Stevens and Mrs. Harold Butler will be in charge of the games and the refreshments will be potluck.

May Resign

NAMPA, Oct. 23 (AP)—Nampa Police Chief N. D. Collier said today he may be forced to resign from his job because of ill health.

Collier wrote Mayor Thomas Leupp requesting a two-month leave of absence. The chief said that if his health did not improve in that time, he would resign as head of the force.
