

## "Meteors" Fired by U. S. Air Force Tests at Speed Of 40,000 Miles Per Hour

BIANCONI AIR FORCE BASE, Mass., Nov. 22 (UPI) — The air force announced today that it launched artificial meteors last month. New models at 55,000 feet and at a speed of 40,000 miles per hour. The experiment was performed Oct. 15 by the supply and research directorate of the air force (Cambridge, Mass.) research center. The meteors were fired from an Aerobee rocket emitting a light 5,000 times brighter than the Soviet sputnik. The air force speculated that the meteors, an undisclosed number of aluminum pellets, may have "gone into inter-planetary space." The announcement explained that the velocity required to shoot materials into space and escape the gravity of the earth is 25,000 miles an hour. 15,000 miles an hour slower than the speed of

"An excellent photograph of the event was obtained by means of the Baker Super-Schmidt meteor cameras at Sacramento peak observatory in New Mexico," the announce-

"It shows an artificial meteor traveling at a speed greater than 40,000 miles per hour with a brightness of minus two magnitude (about as bright as Venus)," the air force added.

"When the rocket reached an altitude of 33 miles above the desert, its tip, which contained the shaped charges of aluminum pellets and explosives was automatically separated from the rocket," the air force said.

"Thus when the explosion occurred at 34 miles altitude, the remaining instrumentation in the rocket was not damaged."

The "shaped charges" directed the explosive forces at tremendous speed. The experiment was suggested by Prof. P. Zwicky of Cal-

There were other attempts, but the air force said this was the first successful experiment to launch

Honored Thursday night by a special banquet and presentation ceremonies at the American Legion hall were two brothers, Herbie Meunier, left, and Leo Meunier, who were selected as Grassmen of the Year for Twin Falls county. The banquet was sponsored by the Agricultural division of the Twin Falls Chamber of Commerce. Harvey Quisenberry, chairman of the Agricultural division's grassman committee, awarded "A special award" to the winners. (The photograph shows the winners, Herbie Meunier, left, and Leo Meunier, right, standing with Harvey Quisenberry, chairman of the Agricultural division's grassman committee, and a representative of the Agricultural Research Institute. The rocket installation was constructed by I. Kniff of the air force research center and E. Karpiak and J. Tucker of Wentworth Institute, Boston.)

**Curtis Eaton Will Describe Chamber Unit**

Curtis Eaton, general chairman of the Agricultural Division, Twin Falls Chapter No. 10, will describe a program outlining the purpose and function of the division at its first business meeting tomorrow afternoon at 7 o'clock in Boise Monday.

Several other members of the Twin Falls Chapter will also speak, according to Mitchell Watt, chamber secretary-manager.

At the banquet which followed the presentation of the Twin Falls Chamber of Commerce award to the agricultural division, presentations were made by Hugh Lough, assistant chairman of the state grassman committee.

Guest speaker at the banquet was R. F. (Rube) Johnson, superintendent of the University of Idaho branch experiment station at Caldwell, who outlined what has been done experimentally at the school with grass.

Johnson pointed out that grass is a primary form of food and if there were no grass or similar crop failures would result throughout the world.

Mastor of ceremonies was Kenneth Monaghan, Twin Falls, who is president of the National Grassman Committee.

The guest speaker was the chairman of the Agricultural Division of the Chamber of Commerce. Also present were his brother-in-law, brothers Sam Paul Nash, Boise, secretary of the state grassman committee.

Over the years the depth of soil on some of the fields has been increased.

**Press Rapped As 'Unfair' to Labor in U. S.**

NEW ORLEANS, Nov. 22 (U.P.)—George M. Harrison, vice president of the American Federation of Labor, called the press "unfair to labor" in their coverage of the McClellan campaign.

"I say that the newspapers have failed to point out that the dishonesty and racketeering revealed in the McClellan campaign is a national disgrace," he said.

"Mr. and Mrs. Ron Baylson, who are KOPELCO's young sons, aged 16 and 17, had \$10,000 from Maynard Hedges of the Washington college newspaper department for a year's stint paid to them by the Baylsons also disposed of his interest."

Evertt, who is settling his station KART in Jerome to come here, will be president of the new corporation, KOPELCO, which will have to be vice president and Gene B. Conklin, Pendenon, Ore., secretary.

Under independent dayline station, Evertt has been in the radio business in Oregon since 1928, and has owned the station KIRKL in Moscow, Idaho.

KIRKL is subject to final approval of Federal communications commission.

Baylson said and his wife will be in charge of the station.

S. Toffelmire, representing the Twin Falls Chamber of Commerce, voiced the chamber's full approval of the grassman of the year contest and of activities which bring farmers and businessmen together for mutual benefit.

# Need to Air U. S. Problems Is Vital

## Need to Air U. S. Problems Is Vital

...to be improved." If not corrected, this lack of understanding is certain to lead to public attitudes toward business and industry were enough to put a brake on our economic, scientific, scientific, and military progress.

ers to be improved." If not corrected, this lack of understanding of the public mind could lead to a slide toward business and industry that would be enough to bring us out of the "dark ages" and into a "brighter age," says Spjut.

"And of all problems in our country, this is the one to put on brackets," he says. "We are up against a question in which we can certainly do nothing less than our best."

Spjut says he is not alone in his doubts that the public understands the operation of the economic principles that underlie our social, cultural and religious structures. "Cope-land," he says, "is not alone in his doubts."

"People do not know what conditions our industrial machine must do for us. Then it is impossible to expect them to do anything less than their best," says Spjut.

Spjut has made it clear, he said, that the nation must do its

stiffly under attack.

And even large companies were as easily and alive as their critics say they are, we should still have to have them for we cannot survive without them.

The size of a company is dictated, basically, by the magnitude of the job to be done.

Spjut has made it clear, he said, that the nation must do its

black and white pictures, from the 1920s to the 1950s.

## Financial Aid In Schools to Be Discussed

BOISE, Nov. 22 (U.P.)—Drafting of a financial aid bill for Idaho public schools in the next session may be undertaken at a meeting here today. The United Educationists' association will meet on Nov. 22 and 23. The association will discuss the financial aid bill which is expected to be introduced in the legislature.

The 1957 legislature appropriated \$2 million dollars for the state's financial aid program. The program is for the two-year period which began last July 1. That represented an increase from \$1.5 million dollars in the preceding biennium.

But the Idaho Educationists' association had recommended an appropriation of \$2 million dollars for the current two-year period and Dr. J. M. Booth, executive secretary, said today that objective has not been reached.

He said the association will "continue the emphasis on the necessity of providing dramatically increased support, not only for the public schools but at the higher institution level."

At its delegate assembly last spring, the IEA authorized a campaign for an initiative law which would set the state's share of the basic school program at 40 per cent of the total operating cost.

Dr. Booth declined comment on whether such a campaign is being prepared.

The IEA is one of three groups represented on the United Educationists' association. The others are the Idaho Congress of Parents and Teachers, and the Idaho School Teachers Association. Neither organization has endorsed the proposition although both have urged expanded state school aid.

Dr. Booth attended a meeting of the National Association of Secretaries of State Teachers Association.

One of the state questions discussed at the meeting was the launching of the state's initiative law which would set the state's share of the basic school program at 40 per cent of the total operating cost.

Dr. Booth declined comment on whether such a campaign is being prepared.

## Magic Valley College Seeks Funds

Trainers of the Magic Valley Christian college slated to open at Albion in the fall of 1958 met Tuesday to plan operations for their \$600,000 capital funds campaign. From left are Dallas Harris, chairman of the board, Boise; Harvey Evans, Boise; Leonard Evans, treasurer, Boise, and R. L. Dalglish, Albion. (Staff engraving)

## 40 Attend Meeting to Discuss Plans to Open Albion College

ALBION, Nov. 22—More than 40 persons from a four-state area met in Albion Tuesday in one of a series of campaigns to open Magic Valley Christian college.

The 41-acre campus, abandoned since 1951 when Southern Idaho College of Education closed its doors is scheduled to re-open next fall.

Trustees of the new college reported on a capital funds campaign for \$600,000 has moved into high gear. During the initial luncheon meeting, plans were outlined for the operation of the campaign office in the administration building on the college campus in Albion.

To show residents of Magic Valley, the extensive facilities available on the MVCC campus, a program for visitors' day will be announced shortly.

This week's meeting included interested persons from Oregon, Utah, Montana and California. Snowball in eastern Idaho, attendance, but representatives from Boise, Rupert, Weiser, Twin Falls, Buhl, Eden and Nampa met with campaign officials to plan the program for the college in coming months.

Directors of the college attending the conference were Dallas Harris, Boise, chairman of the board; Harvey Evans, Boise; Leonard Evans, Boise, treasurer; Herschel Johnson, Boise, secretary; Ivan Harris, Boise; R. Lyle Dalglish, Albion; T. J. Linder, Weiser, and Bruce Hofmann, Alice, Ore.

Other representatives from the area included Walter Skelton and Clyde Linder, Weiser; Mr. and Mrs. Don Wilson, Rupert; Luther Rogers and M. E. Waldrum, Twin Falls; Mr. and Mrs. W. T. Brown, Buhl; Mr. and Mrs. J. H. Johnson, Eden; Mr. and Mrs. Paul Fulton, Nampa; and Mr. and Mrs. York, Fern, and William, Alice, all Idaho. The college facilities have been

## Moose Slate Gift Baskets

GLENN'S HARRY, Nov. 22—Operation Santa Claus was organized by Local Order of Moose members Tuesday.

William Cain and Martin Woolton were named to lead needy families of the community.

Governor Leven-Thompson presided. Reports were given on the Idaho state convention which ended Saturday in Glens Ferry.

A committee was named to dispose of the wooden chairs at the Moose home.

Joe Davis, Wallace Bulwary and Roy Sharp were appointed to arrange the New Year's dance.

Organization of a drill team was discussed with Elder Thompson named as head.

Following the business session, members adjourned to meet with the women for reports from Deputy Supreme Governor John Milton.

Women's Chairman Dorothy Dole, Senior Regent Mrs. Ed Gibbs, Governor Thompson and Chairman Floyd McKee and Steve Doty.

The meeting was adjourned following the music.

**Two Attend Meet**  
HAGERMAN, Nov. 22—The school leaders, Kay Jensen and Joan Jolley, attended a workshop at Shoshone on Wednesday afternoon.

Well leaders of the College of Idaho, Caldwell, Verne Smith and Felicia Jolley, both Hagerman, demonstrated for the group. Organization of Pen clubs was also discussed.

A banquet was held at 6 p.m. where discussions on what cheer leaders meet to coaches and the duties of visiting and host cheerleaders were held.

## Flu Outbreak Is Blamed for 1,000 Deaths

CHICAGO, Nov. 22 (U.P.)—The nation's count of flu-related deaths has reached 1,000 today with the report of a new surge of fatalities in Pennsylvania.

The Pennsylvania health department listed 148 deaths directly attributable to flu and 534 to pneumonia during October, the deadliest month since 1947.

The report of new deaths included 607 deaths in which flu and pneumonia were listed as contributing causes, but the Keystone state is first place in the nationwide count that began when the Asian flu virus hit last summer.

A United Press count showed that Asian flu, other types of influenza or complications, have taken 222 lives so far.

Following Pennsylvania, New York was next with 154 deaths, Georgia 124 and Ohio 83.

Dr. William Schrack, Jr., director of Pennsylvania's communicable disease control division, gave a partial interpretation of 807 deaths, saying it is safe to assume that about 500 can be attributed to the current epidemic of Asian flu.

**DELEGATE NAMED**

## Savants Held By Russia for Missile Work

PHILADELPHIA, Nov. 22 (AP)—Russia kidnapped more than 20 German scientists at the end of the war and put them to work on missile and satellite projects, former Soviet army officer testified yesterday.

Valentin Shadrin, 23, lieutenant in the red army, told a Senate subcommittee hearing here that Soviet scientists in the past 10 years enjoyed Russia to get a scientific jump on the rest of the world.

Shadrin testified after subpoenaed counsel Robert Morris disclosed that two top imprisoned Soviet scientists told him that Russia had captured "without sweat and tears" U.S. secrets on earth satellites, anti-missile weapons and atom-powered planes from executed scientist Julius and Ethel Rosenberg and other spies.

Morris said the information came from interviews earlier in the day at Leavenworth, Kan., federal prison with David Greenglass, brother-in-law of Rosenberg, and Harry Gold, Greenglass is serving 15 years in prison and Gold 20 years for their part in the Rosenberg spy ring.

Greenglass, an American, was captured in New York City, said the important of the abducted scientists was Scientific Consultant, a former designer of the Hinkley aviation plant in Germany.

Morris said Greenglass at first offered an interview to the U.S. occupation forces but was not accepted because he "didn't look like an engineer." He said the designer returned to the Soviet zone of Germany to see his family and was kidnapped by the Russians within 48 hours.

Divorce Is Asked  
In District Court

A divorce complaint was filed Thursday in Twin Falls district court by Mrs. Norma Jean Jepson against Raymond Leon Jepson on grounds of mental and physical cruelty.

They were married at Twin Falls April 12, 1954. They have two children of whom Mrs. Jepson seeks custody. She also requests the court award her at least \$100 monthly support for the children.

For asks for the family's household furniture and agrees to allow her husband to have equity in a 1948 Studebaker.

She is represented by Rayborn and Rayborn, Twin Falls attorneys.

Arkansas Delays  
Hearing Decision

Ray Gordon Haley, 41, Marble, Ark., elected to take his statutory time Thursday before deciding whether to require a preliminary hearing in Twin Falls justice court on a charge of forgery.

Haley is charged with forging the name of Ralph Smith, 334 Birch street, to a \$11.75 check given the Oak Food store. The check was drawn on the Twin Falls Bank and Trust company.

A \$50 cash bond or \$1,000 property bond was set by Judge J. O. Humphrey.

## Inspect Plane Wreckage

Leon Uddelback, left, and Earl Mitchell, civil aeronautics board inspectors, look over part of the 300 pounds of twisted and charred fragments recovered from the Pacific ocean where the Pan American Stratojet "Romance of the Skies" crashed Nov. 8, with 41 persons aboard. The wreckage from airliner was flown in Pan American's freighter in San Francisco. "I'm forbidden to give out any conclusions or findings we've made from this remains," Uddelback said. "That information must come from Washington." (AP wirephoto)

## Retirement Plans Weighed by Board

HERMONE, Nov. 22—Relative merits of two retirement plans were weighed by directors of the North Idaho Canal company Wednesday morning.

J. H. Silbaugh, president, conducted the meeting which was attended by all nine members of the board.

T. M. Robertson of Parry, Robertson and Dales, Twin Falls attorneys, also attended.

The canal company employs about 60 persons and expects to put a retirement plan in effect in the near future.

## Two Draw Fines

HERMONE, Nov. 22—Thad Hollibush, Hermone, appeared before Police Judge Roberta Kehrer, pleading guilty to parking on a cityway and was fined \$3 Thursday.

Russell G. Simpson, Hermone, was fined \$30 and costs Thursday for driving an overloaded truck on the highway.

SNOWS BLOCK ROADS

ST. ANTHONY, Nov. 22 (AP)—Gordon L. Waite, forestry national forest supervisor, said yesterday recent snows have blocked roads in Christmas tree areas in the forest.

## Christmas Party Slated for Lions

WENDELL, Nov. 22—The human Christmas party for children was planned for the Monday evening meeting of Wendell Lions club.

Appointed to the committee on arrangements are H. F. Robinson, Alvin Peterson, Douglas Schrank and Richard Williams.

Clude Peterson will be in charge of transportation for the next ladies night when the club will travel to Wendell for the evening night banquet.

Douglas Schrank reported on the progress of the light bulb sale project.

Dr. Richard Peterson will serve as chairman for a duck dinner being planned by the club.

A 7-course dinner was served by women of the Wendell lodge preceding the business session.

CAR IS DAMAGED

HERMONE, Nov. 22—In backing his 1956 Chevrolet pickup truck into a driveway to deliver coal, Albert third candidate to be nominated state senator, was damaged by a parked 1954 Buick owned by H. R. McDonald. Only slight dents and scratches were made.

## Call of Wild

TULSA, Okla., Nov. 22 (AP)—Colony Jane is a small female wild who has an uncanny knack of getting into complicated situations.

Her latest exploit came yesterday when she liberally devoured a \$100 imported goose. Colony's owner, Mrs. Betty Backlund, called the doc pound. Two officers saw a race-trap and nabbed the fowl and wild.

"She's a scamp," said Mrs. Backlund of her little pet. "But she doesn't harm for children on a picnic. Some air picture to kill her game."

Accepts Position

HERNAND, Nov. 22 (AP)—Alfred L. Palmira has accepted the nomination as presidential candidate of the Socialist party for the Feb. 23 election, it was announced yesterday.

The 37-year-old politician to the his 1956 Chevrolet pickup truck into a driveway to deliver coal, Albert third candidate to be nominated state senator, was damaged by a parked 1954 Buick owned by H. R. McDonald. Only slight dents and scratches were made.

Christian Democrats are the other

## Parking Fines

A total of \$15 in bonds was posted Thursday with Twin Falls police for parking violations.

A \$100 bond for parking violations was posted by E. Faulkner, Kenneth Pollock, J. A. Aubach, Mrs. M. G. Paul, Elmer Weichell, Robert C. Paul, Philip Meadlin, W. A. Summers, Dale Hays, G. Stevenson and J. D. Hays.

Reel and Rean Cultivator, 3-point hookup

Itzlar leading boom, 3-point hookup

Omaha side rake, 3-point hookup

Ergonom 2-bottom plow

Ground breaker or chisel with hookup

Spud-cultivator, with all the tools, with hookup

Scraper blade with swivel adjustment and hookup

3-Bottom, 16-in. John Deere plow, 3-point hookup

#### Combine & Truck

1936 model 45 self-propelled John Deere combine, complete with pea harrower, reel and pickup which mounts on No. 45 or 55 model

1937 1-ton, 2-speed, short wheelbase Chevrolet truck

#### Potato Equipment

1935 Lockwood pull type spud combine in A-1 shape

1955 Lockwood spud whipper

Lockwood spud plier, with motor and mounted on wheel—like new

Iron Age 2-row, steel box spud planter

Lockwood bulk spud beds for trucks—one 14-ft. and one 15-ft. Both good on wheels

Unloading motor for spud bulk beds

2-Flat, 48-bushel capacity spud cutting table

#### Hog Feeding Equipment

3-ton capacity grain self feed

Automatic heated hog feeder

Steel automatic hog feeder, 25-bushel capacity

Steel Hog Troughs—one the only 5-bn. capacity

40 bushel portable grain box

Various hog pans from 8 to 12 ft. long

#### Buildings & Misc.

18 x 46 Quaker building, wood construction, like new

12 x 18 shingled roof chicken-hou, real good

(Both are wired for electricity and have lots of windows)

2 Small 1 x 12 constructed sheds

Automatic cattle waterer

15 Rolls of woven wire

Round stock tank

Overhead gas tanks, 300 gallon capacity

Overhead gas tank, 200 gallon capacity

2 Lengths 8 ft. by 8 in. gated pipe

Portable Dumbbar are welder; mounts on Ford tractor

Former electric welder, complete throughout

Iron welding table; Electric grinder; Post drill and a Truck

Load of miscellaneous items too numerous to mention

Size of dimension lumber 6 ft. to 12 ft. in length

#### TERMS CASH

Except on large items. Terms available on approved credit. 48% dm. at date of sale, the balance in two annual payments.

### Official Asks U. S. to Stop Mass X-Rays

WASHINGTON, Nov. 22 (AP)—U. S. Surgeon General, C. E. Burrows, called yesterday for an end to community-wide mass X-ray programs for spotting tuberculosis cases.

The government's chief health officer said such surveys should be restricted to the "deserving" groups because of potential radiation hazards. He mentioned hospitalized persons, low-income groups, migrant workers and persons known to have been exposed to the disease.

Burrows urged communities to use the tuberculosis skin test at the first in discovering tuberculosis. Chest X-rays, he added, should be limited to those showing a positive reaction to the skin test.

He sent the recommendations to state and local health officers. He explained they were based on the findings of a group of medical experts summoned here recently to consider the problem of X-ray radiation and the changing tuberculosis picture.

A public health spokesman said the group agreed chest X-ray programs should be on a selective basis rather than a "census" community basis. He indicated the chief of mass adult X-rays was over because "there is little yield of new cases."

### Wing Selected For "Voodoo" Speed Flights

SHAW AIR FORCE BASE, S. C., Nov. 22 (AP)—The 360th tactical reconnaissance wing has been chosen to fly NP-101 "Voodoo" in an attempt to break three cross-country speed records.

Brig. Gen. Stephen B. Meek, wing commander, announced.

Meek said within the next few weeks a team of Shaw pilots will man four Voodoos in a flight the air force has designated "Operation Sun Run."

Photograph Broad Strip

Six cameras capable of operating simultaneously will be mounted on each aircraft to photograph the route between the coasts. If the test proves successful, a 16-mile wide strip across the United States will be photographed in less than three hours.

Taking off from Los Angeles, all four aircraft will try to break the existing Los Angeles to New York record. Two of them will return non-stop to Los Angeles in an attempt to break the round-trip coast to coast record.

Emphasis Versatility

Gen. Thomas D. White, air force chief of staff, emphasized the primary purpose of the mission will be to demonstrate the versatility of the "omni-use" aircraft.

The Shaw-based aircraft will fly in flight by Boeing KC-119 stratojets.

### Profits Are Seen For U-S Farmer

WASHINGTON, Nov. 22 (AP)—The agriculture department said yesterday the chances are good that farmers will make a "real" money profit from feeding of slaughter cattle next year.

In fact, the agency said, there is a possibility that profits may exceed present expectations.

Officials explained at a farm outlook conference attended by state extension workers and educators that a new cattle "boom" is in the making. By this, they mean that the demand for beef is strong enough to encourage farmers to produce more beef.

### Governor Names Kootenai Woman

BOISE, Nov. 22 (AP)—Mrs. Sadie Johnson, Warley, was named as the new state representative from Kootenai county in North Idaho yesterday by Gov. Robert E. Smylie.

Mrs. Johnson, long active in Republican politics in North Idaho, was appointed to fill the vacancy caused by the resignation of Rep. William Webster. He resigned to comply with a ruling of the attorney general that the holder of a liquor license could not at the same time hold public office. Webster is a Democrat.

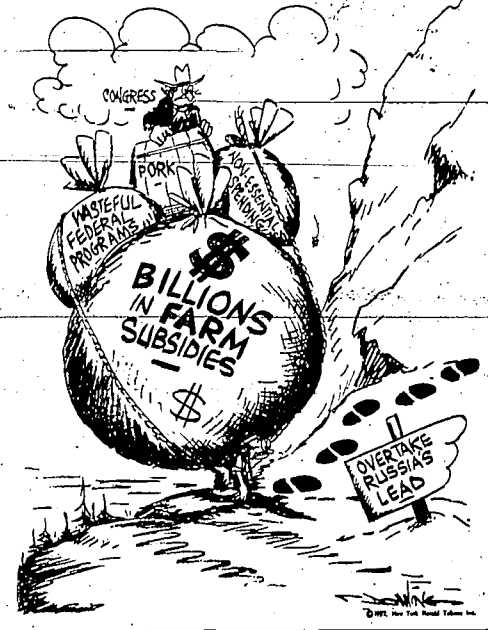

### Routes Thugs

PITTSBURGH, Nov. 22 (AP)—Patrolman J. McNamara, a Roman Catholic priest, has a light cut on his right hand Thursday—but a couple of thugs may have some bruises.

Patrolman McNamara said the thugs tried to rob him while he was walking along a dark street Wednesday night. The priest came up with fists swinging and the thugs beat a hasty retreat.

The good father told police he still had his wallet.

### All This and Missiles, too

### Washington Sources Report Benson's Enemies Have Farm Chieftain on Run

WASHINGTON, Nov. 22 (AP)—The word around town is that his enemies at last have bracketed Ezra Taft Benson with their gun fire.

If this be true, there will be a new secretary of agriculture shortly. True or false, Benson probably will not survive in the cabinet if the farm belt rejects the Republican party again in next year's congressional elections.

Only President Eisenhower's affection for and loyalty to his agriculture secretary have kept Benson in office so long.

The secretary has been in political trouble since Feb. 11, 1953. The second month of the first Eisenhower administration. It was on that day that Benson spoke to St. Paul, Minn., suggesting that the government should subsidize farm prices only as "disaster insurance." Price supports should not, Benson said, encourage uneconomic production, heavy surpluses and subsidies.

"Demands for Benson's resignation became urgent and numerous by the autumn of 1953. The President has been defending his farm man against a "real" money profit from feeding of slaughter cattle next year.

Benson's departure would not importantly change administration farm policy. Pressure of politics, perhaps, will compel Eisenhower to bench Benson, but no such pressure will change Eisenhower's approach to the spending of tax revenues to cope with agricultural surpluses.

A political pro added up Benson's political plight like this:

"The farmers don't like him."

A great many farmers obviously do dislike Benson as much or more than they dislike the price support policies he represents. This political fact of dislike of the man is expected to be an effective argument with Eisenhower that political expediency may require Benson's resignation.

The real argument for Benson's departure is based on the belief of a great many Republican politicians that the party would win more congressional seats next year without him than with him. The opposition to Benson within the Republican party enjoys the weight of numbers. It will be difficult for the President to resist.

### Credit Buying Invades Cash, Carry Dealers

NEW YORK, Nov. 22 (AP)—Changing home budget habits are pushing charge account and installment buying into old strongholds of cash and carry.

Early next year J. C. Penney will test credit sales in a few of his 120 stores which have been strictly cash and carry since its founding in 1910.

Idea Trailing

W. T. Grant is pushing an installment plan into his 80 new stores this year, bringing its entire chain of 529 into the plan. It tested the idea on a pilot basis in Atlanta, Ga. in 1946, and gradually extended it to other cities and regions.

Versatility of installment paying for merchandise also has been spreading among many department stores.

Credit buying has increased ever since the war. Young persons in particular budget their income to fit installment payments fitting prices and merchandise upgrading have put many purchases out of the reach of the old cash and carry customer. The trend to larger families also snags use of credit for mass outfitting and for buying the ticket items.

Competition Increases

So the cash and carry chains appealing to the lower budget group have found the department store charge account systems an increasing competition.

Officials of Grant's say their credit plan has been used by more than a million customers. Last year \$3.3 million dollars worth of merchandise, or 38 per cent of total sales, were charged.

Penney's hasn't decided yet which type of credit plan to use or where the tests will be made.

### King Hill Notes Visitors, Travels

KING HILL, Nov. 22 (AP)—Mrs. E. Sprance accompanied Mrs. and Mrs. Thomas Robertson, Spokane, to Bruneau Monday where they attended a wedding reception honoring Mr. and Mrs. Robertson at the home of Mr. and Mrs. William Ratcliff.

Mr. and Mrs. Robertson, who have been visiting at the C. E. Sprance home, left Tuesday for their home.

Mr. and Mrs. William O. Johnson, one of the guests of the evening, are a brother-in-law and sister, Mr. and Mrs. Roy Holland.

Vernon Graham has left for Lackland air force base, San Antonio, Tex., for 12 weeks of training with the air national guard.

Mr. and Mrs. Arch Wible, Roswell, and their son and daughter-in-law, Mr. and Mrs. Bud Wible and family, Adrian, are guests of Mr. and Mrs. W. C. Smith.

### Cub Scouts Work On Den Projects

KING HILL, Nov. 22—Cub Scouts of den 1 and 2 held their individual meetings Tuesday afternoon with Mrs. Clyde Cox, den 1; and Mrs. Nina Ullman, den 2.

A puppet show was presented den 1 by Gary Arbough, Gene Youree, den chief, and the club will have an outdoor tumbling act. Roger Hlopkins served refreshments.

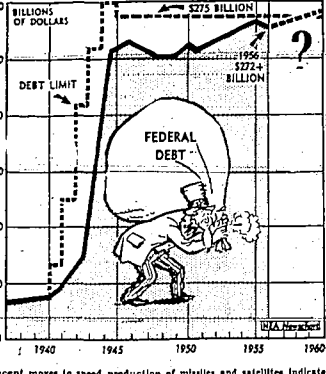

Den 2 Cub Scouts worked on their Christmas gift project. Steve Anderson served refreshments.

### EDEN VISITOR LEAVES

EDEN, Nov. 22 — Everett Fitzpatrick left Wednesday for Salt Lake City where he will visit his brother and sister-in-law, Mr. and Mrs. Leola Fitzpatrick, before returning to the naval base at San Diego.

Fitzpatrick spent most of his 30-day furlough with his brother-in-law and sister, Mr. and Mrs. Melvin Rife.

### Nudging Ceiling

Recent moves in speed production of missiles and satellites indicate that President Eisenhower is preparing to ask congress to lift the 275 billion-dollar-debt ceiling. Newsweek staff shows history of national debt since 1940 and graphically illustrates effect of World War II, Korean war and cold war on federal spending.

### Smylie Requests Talk in Highway

BOISE, Nov. 22 (AP)—Idaho's governor says he wants to appear in person to tell a U. S. Senate subcommittee of the need for completion of a few miles of Lewis-Clark highway across north Idaho.

Gov. Robert E. Smylie wrote for time to appear at a subcommittee hearing of the public works committee scheduled Dec. 13 at Lewiston, Ida.

Smylie has made repeated public statements in favor of early completion of about 15 miles of the highway across the Bitterroot mountains. He pointed to the economic value of the route to the Northwest.

### Good Year Seen

SAN FRANCISCO, Nov. 22 (AP)—President A. B. Layton of Crown Zellerbach corporation said yesterday his firm looks forward to the third best year in its history despite a strike in British Columbia.

Layton sized up the prospects for Crown Zellerbach in a speech to the Security Analysts of San Francisco Sales for October set an all-time high, Layton said, and incoming orders for November continue strong.

### Pineau-Dulles Parley Listed As Successful

WASHINGTON, Nov. 22 (AP)—U. S. officials yesterday pronounced the Pineau-Dulles talks a definite success in smoothing over the rift in Franco-American relations.

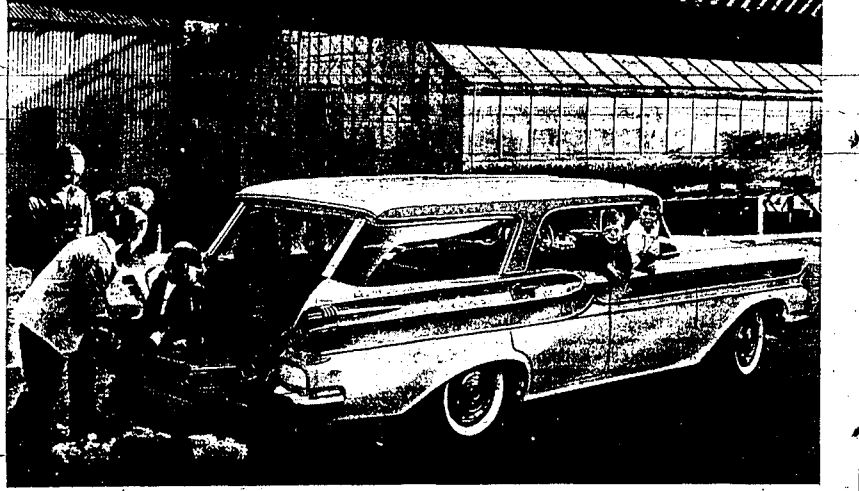

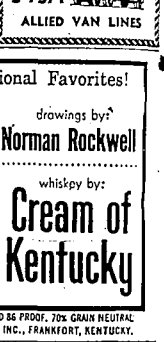

They said French Foreign Minister Christian Pineau and Secretary of State John Edgar Hoover cleared the air and reached a good "international climate" when the two North Atlantic Treaty Organization (NATO) partners worked together again to strengthen Atlantic unity.

They emphasized, however, that much work remains to be done before an acceptable plan of defense can be achieved.

Meanwhile the U. S. secret stated to British officials with disclosure that top British officials were coming here to seek closer cooperation in defense and a new program of scientific general staff work to speed defense development.

# U. S. Concern Predicted Red Sputnik Plans

WASHINGTON, Nov. 22 (AP)—A research firm today advised the air force last June 21 Russia would launch a satellite satellite probably on Sept. 17.

Russia launched satellite Nov. 17 days later on Oct. 4.

A copy of the report to the air force was by the Rand corporation of Santa Monica, Calif., was made available to the United Press. The concern is an independent non-profit organization doing secret research and development including contact with the air force and atomic energy commission.

The 2-page report summarized recent Soviet publications which the Rand corporation study said indicated the Russians were about to launch a satellite into orbit around the earth.

The report, given to the air force June 21, contained a sketch of a diagram for a satellite in the Soviet astronomical calendar is Sept. 27, 1957, the date of the 10th anniversary of the birth of K. E. Tolstolovsky, the founder of the Soviet space program.

Rep. John E. Moss, D., Calif., chairman of a house information subcommittee, sharply criticized the air force for failing to act on the warning and for following a "pull-the-damn" information policy in not alerting the American people.

Moss referred to the report in a speech in New Orleans Wednesday.

# Mishap Is Basis For Damage Suit

Charles L. Fisher filed a \$250,000 damage suit Thursday in justice court against Les Peterson and Don Daniels for damages to a 1952 Ford pickup truck, the result of an automobile accident.

Fisher claims Peterson was owner of a 1950 Chevrolet sedan, driven by Daniels, which collided with Fisher's truck.

The accident occurred April 23, Fisher claims. He is represented by Fred A. Schwartz, Twin Falls attorney.

# Britons Ask Okay To Hike Mountain

LONDON, Nov. 22 (AP)—A group of British military officers asked Pakistan's permission to climb 25,000-foot Dhaulagiri, one of the world's highest unclimbed mountains, it was announced today.

The royal navy, marine and air force officers hope to reach the summit May and carry out a scientific survey in the Himalayan area. It was reported that British officers involved were not disclosed.

# KNOWLAND TO HOLD JOB IN CENTRAL CALIF.

BOULDER, Calif., Nov. 22 (AP)—Rep. Don Knowland said he will keep the job of senior member of the House of Representatives in charge of the central California gubernatorial campaign.

# Labor's School Has Magnetic Appeal for Union-Electricians

SOUTHAMPTON, N. Y., Nov. 22 (AP)—A school designed to repair portable electric circuits in thinking process has developed a magnetic appeal for electricians.

Local 3 of the International Brotherhood of Electrical Workers, the largest building trades local in the nation with 32,000 members, conducts a special "how to think" course for its class craftsmen.

Each week 30 electricians from the New York area arrive at Bayberry Landing, near New York City, and spend their brain cells amid the splendor of a 312-acre estate.

Since the opening semester last June, 300 electricians have taken the one-week course. They pay nothing for tuition, room or board. In fact, the Joint Board of the New York Electrical Industry pays the pupils a week's wages, \$140, while they are out of their learning how to think.

# Marriage Broker

TOKYO, Nov. 22 (AP)—The Japanese prefectural government and the federation of housewife organizations appealed to the national government for help Thursday.

They want \$50 "marriage" bride for bachelor soldiers in Hainan, Japan's northernmost island.

# Royal Couple Is Crowned at Ball

WENDELL, Nov. 22—Jerry Wallace and Sheryl Stevenson were crowned king and queen of the high school dance and band ball held this week at the high school auditorium.

Barry Brown and Leona Smith were crowned prince and princess. Louis Mechem, band president, was master of ceremonies and with his partner led the grand march at 10 p.m.

The music was furnished by the Pioneer high school dance band, directed by Joseph A. Willis.

Over the rainbows was the theme of the ball. The entire band served for the decorations committee.

# U. S. Missile Speedup, Pineau Trip Feature News of World

By United Press  
The week's good and bad news on the international battlefront: Plans to speed American development of nuclear weapons were put on what appeared to approach a crash-program this week.

Reports of projects for ballistics missiles, and ballistic missiles, an earth satellite and an atom-powered plane came in a steady stream from Washington.

Linked up with this program were plans to strengthen the defenses of the North Atlantic Treaty Organization and to tighten the unity of its 12 member nations.

Secretary of State John Foster Dulles announced that the United States will seek to establish nuclear missile bases in those countries in western Europe which want them.

Responding to an invitation by President Eisenhower, Adlai E. Stevenson, his Democratic opponent in the 1952-1956 presidential campaign, set up an office in the state department to aid Dulles in promoting NATO unity.

French Foreign Minister Christian Pineau came to the White House to confer with Dulles on the near-crisis in relations which resulted from the ending of American and British weapons to Algeria.

In Washington and New York, Pineau also sought the support of the United States and other countries in the debate which the United Nations assembly is to hold next week on Algeria.

President Habib Bourguiba of Tunisia flew to Morocco to confer with King Mohammed V on a possible plan to end the long revolt of the Algerian nationalists against France by compromise.

Mohammed is due in the United States Monday on the visit. Elements in Washington and to address the U.N. assembly in New York.

Keynote speaker of the thinking process is "How to Develop Your Thinking Ability" by Kenneth B. Keyes.

Does this make them better electricians?

Local 3 of the International Brotherhood of Electrical Workers, the largest building trades local in the nation with 32,000 members, conducts a special "how to think" course for its class craftsmen.

Each week 30 electricians from the New York area arrive at Bayberry Landing, near New York City, and spend their brain cells amid the splendor of a 312-acre estate.

Since the opening semester last June, 300 electricians have taken the one-week course. They pay nothing for tuition, room or board. In fact, the Joint Board of the New York Electrical Industry pays the pupils a week's wages, \$140, while they are out of their learning how to think.

The school campus was once the summer home of Dwight D. Davis, tennis and a former secretary of war in the Coolidge administration. The clubhouse's colorful architecture is a sight to behold. The main building is no larger than 14 bedrooms—with fireplaces. It's a setting that would make our wealthiest couples envy.

# Congress Will Soon Face Question of Supporting 2 Water Dearth Programs

WASHINGTON, Nov. 22 (Special)—Congress will soon face the question of supporting two vigorous programs designed to relieve the pinch of water shortages for both towns and farms.

Both are important not only to the nation's food supply but also to U. S. policy in such drought-plagued areas as the Middle East.

Most critical is the federal support of research for an economical means of desalinating brackish water. Appropriations for the office of salinity water, set up by congress five years ago, were doubled to \$150,000 from \$60,000 of the last fiscal year.

The OSW funds are expected to run at the million dollar mark for the next five years.

Most of the money goes to research on what appears to be the most promising project for ballistics missiles, and ballistic missiles, an earth satellite and an atom-powered plane came in a steady stream from Washington.

Linked up with this program were plans to strengthen the defenses of the North Atlantic Treaty Organization and to tighten the unity of its 12 member nations.

Secretary of State John Foster Dulles announced that the United States will seek to establish nuclear missile bases in those countries in western Europe which want them.

Responding to an invitation by President Eisenhower, Adlai E. Stevenson, his Democratic opponent in the 1952-1956 presidential campaign, set up an office in the state department to aid Dulles in promoting NATO unity.

French Foreign Minister Christian Pineau came to the White House to confer with Dulles on the near-crisis in relations which resulted from the ending of American and British weapons to Algeria.

In Washington and New York, Pineau also sought the support of the United States and other countries in the debate which the United Nations assembly is to hold next week on Algeria.

President Habib Bourguiba of Tunisia flew to Morocco to confer with King Mohammed V on a possible plan to end the long revolt of the Algerian nationalists against France by compromise.

Mohammed is due in the United States Monday on the visit. Elements in Washington and to address the U.N. assembly in New York.

Keynote speaker of the thinking process is "How to Develop Your Thinking Ability" by Kenneth B. Keyes.

Does this make them better electricians?

Local 3 of the International Brotherhood of Electrical Workers, the largest building trades local in the nation with 32,000 members, conducts a special "how to think" course for its class craftsmen.

Each week 30 electricians from the New York area arrive at Bayberry Landing, near New York City, and spend their brain cells amid the splendor of a 312-acre estate.

Since the opening semester last June, 300 electricians have taken the one-week course. They pay nothing for tuition, room or board. In fact, the Joint Board of the New York Electrical Industry pays the pupils a week's wages, \$140, while they are out of their learning how to think.

The school campus was once the summer home of Dwight D. Davis, tennis and a former secretary of war in the Coolidge administration. The clubhouse's colorful architecture is a sight to behold. The main building is no larger than 14 bedrooms—with fireplaces. It's a setting that would make our wealthiest couples envy.

WASHINGTON, Nov. 22 (Special)—Congress will soon face the question of supporting two vigorous programs designed to relieve the pinch of water shortages for both towns and farms.

Both are important not only to the nation's food supply but also to U. S. policy in such drought-plagued areas as the Middle East.

# Fish and Game Official Urges Hunter Cooperation for Regulating Big Game

Importance of hunter cooperation with the state fish and game department for control of big game herds was cited by Levi Mohler, big game director, at the Twin Falls chapter of the Idaho Quail association meeting Thursday night. Mohler told the group that his report on quail was instrumental in setting big game seasons and limits on number of head killed. Mohler noted his game management division has three major perpetual programs.

These are gathering basic information on animals and birds; annual and seasonal surveys; and information on hunting seasons according to the effect of hunter and natural harvest and food availability.

He added hunter cooperation with the department on sending in check cards has been excellent thus far. The cards have been arriving at the rate of 1000 per day and 30,000 have been received.

Again "random" questionnaires will be mailed to about five per cent of the total number of permittees in the state. This post season check, coupled with the knowledge gained at checking stations are invaluable for selecting future seasons dates.

On hawks already completed. Mohler said the moose season was down from 60 per cent in previous years to 25 per cent. The 200 permittees for the season were reported 24 killed while 70 Rocky Mountain sheep were killed.

Idaho's big game herds continue to attract non-state hunters in large numbers. Mohler said out-of-state hunters draw one of every six permits offered in special hunts.

Turning to miscellaneous hunting, Mohler said Idaho's Snake river trout are excellent for providing "local" fish. He said it was especially true for autumn Idaho game, which use the Idaho lands exclusively for hunting area. This fact coupled with the periodic big game herds and the river provides better hunting, especially in the Lake Lowell area.

In other action, the group voted to have the Idaho Quail association meet at the second Thursday, Emmet Annis reported the state convention will be held at Shore Lodge at McCall, Jan. 10 through 12.

A film was shown by Dale Eberlin, during the latest physical culture extravaganza at Madison Square garden. The good doctor, Dr. Jerry Graham, had to wait a while before he could get his come-uppance, any now, so it was okay. And you can bet that it was a real treat to the doctor about how not to go around villainously belting clean-living, decent, honest and heroic.

He called all of us rascals' fans who believe that clean-living, decent, honest, heroic rascals ought to win every time anyhow. The first thing you know, we were throwing bottles and chairs and a few angry punches here and there and it was great fun until the grand finale, even rascals who aren't clean-living, decent, honest and heroic go a little to some protection.

By this time, fortunately, the doctor had got his come-uppance, any now, so it was okay. And you can bet that it was a real treat to the doctor about how not to go around villainously belting clean-living, decent, honest and heroic.

So this here now Doctor Graham brought it all on himself the other night at the garden when he stepped out of line and began to bust our past. Antonio with villainy win and vigor, Rocco stood it just about as long as any clean-living, decent, honest, heroic rascal could. Then he takes the doctor and bunks his head up against the ring post real good, as any clean-living, decent, honest, heroic rascal would have.

The doctor's type B started to run down his villainy kisser and it was a real treat to the doctor about how not to go around villainously belting clean-living, decent, honest and heroic.

# Lane Begins Swap Talks With 'Firm Bid' for Kuenn

NEW YORK, Nov. 22 (AP)—Frank Lane, Cleveland's indefatigable new general manager, thrust himself suddenly into the Detroit trading picture by making the Tigers "a firm offer" for shortstop Harvey Kuenn. Lane was on his way to St. Louis from Havana last night when he contacted Detroit general manager Johnny McHale, who had just completed a 13-player deal with Kansas City.

"How about Kuenn?" Lane opened the conversation.

"Make me an offer," replied McHale. "I don't say I'll take it, but I guarantee you I'll consider it."

Lane told the Detroit Press by telephone from St. Louis that he had made an offer to McHale, and that the Detroit general manager promptly had answered within a few days.

While Lane did not reveal which players he offered the Tigers, it is known they would like to have back first baseman Vic Wertz, who played for them from 1947 until 1952.

"I don't think the Tigers could win the pennant next year if they got themselves another good left-handed pitcher and a power hitter at first base," Lane said.

Then, turning back to Kuenn, he continued:

"I'd love to have Kuenn at Cleveland. We'd play him at third base. And if Al Rosen came back, Kuenn would play shortstop. What about Chico Carrasquel? Well, I say that this all depends on Carrasquel."

Lane disclosed he is scheduled to confer with Rosen this Saturday and there is a growing feeling that Rosen might decide to return to the Indians next season after a year's absence.

If Lane is unable to obtain Kuenn from the Tigers, he is quite likely to turn to the Indians.

Three regulars on Michigan State's football team come from Massachusetts. They are Tony Koleski of Florence, Wail Kowalczyk of Westfield and Pat Burke from the Tigers. He is quite likely of Lawrence.

# TRAP SHOOT for Turkeys--Hams--Bacon SUNDAY, Nov. 24

# Huskies Use Films To Scout Cousins

SEATTLE, Nov. 22 (AP)—The University of Washington football team went to the movies Thursday, reviewing past mistakes and watching its next opponent, Washington State, in action.

It was coach Jim Owens' final pregame preparation of the season, pointing to the tradition-laden battle with the Huskies, which neither team is a great favorite.

So this here now Doctor Graham brought it all on himself the other night at the garden when he stepped out of line and began to bust our past. Antonio with villainy win and vigor, Rocco stood it just about as long as any clean-living, decent, honest, heroic rascal could. Then he takes the doctor and bunks his head up against the ring post real good, as any clean-living, decent, honest, heroic rascal would have.

The doctor's type B started to run down his villainy kisser and it was a real treat to the doctor about how not to go around villainously belting clean-living, decent, honest and heroic.

## Young French Designer Aims At Dior's Post

PARIS, Nov. 22 (AP)—A 21-year-old Frenchman "raved his career today in a secret North African hideaway where he is trying to fill the shoes of the late Christian Dior, father of the 1947 "new look" and the 1957 "sack look."

Eve Mathieu Saint Laurent, appointed a week ago as top designer of the Christian Dior fashion empire, left for an unknown place in his native Algeria this week.

He has just one month to produce, all alone, about 400 sketches which will be the basis for the 1958 spring fashion showings in January. Only then will the world know whether the death of the 35-year-old master, Dior, last Oct. 21 in Italy marked the end of an empire or a dramatic succession.

The stakes are high—the fate of 100-dollar annual business.

Saint Laurent has plenty of backing. French textile tycoon Marcel Boussac, who bankrolled Dior and still owns the firm lock, stock and bundle, is sticking with him.

"I will not depart from the traditions of the Dior school although the spring fashions will certainly follow a new trend," Saint Laurent said before he left Paris.

Saint Laurent was born in Oran, Algeria, in 1936 of a well-off family with a tradition of service at the bench and bat.

At 17—only four years ago—he came to Paris, met Michel De Brunhoff of "Vogue" magazine and, while showing him some dress sketches.

Brunhoff was startled by the quality and immediately took them for his magazine. He encouraged the youngster to keep on. The same year Saint-Laurent entered the international wool drawing contest and easily won first prize.

Brunhoff arranged a meeting with Dior, who was so amazed by the boy's sketches that he immediately hired him.

## Senior Vote Ends in Tie

UNIVERSITY OF IDAHO, Moscow, Nov. 22—University of Idaho seniors will have to wait a few more days to learn who will lead them this year.

Two candidates for senior class presidents have finished the election in a dead heat, which calls for another round of balloting to decide the winner.

Michael Patton, Payette, and Gary McCall, Kimberly, polled an identical 111 votes from the senior class. Fifteen other class officers were picked by the student body. Senior class officers are John McManamin, Presque Isle, Maine, vice president; Terrance Laughton, Twin Falls, secretary; and Patricia Rees, Kimberly, treasurer.

Junior class leaders are Neal Newhouse, Boise, president; Richard Kerber, Rupert, vice president; Carson Edwards, Boise, secretary; and Marjorie Erstad, Boise, treasurer.

Sophomore class officers are Madison Anderson, Rupert, president; Robert Bernard Hamilton, vice president; Nan Alvord, Pocatello, secretary; and Nancy Campbell, Wendell, treasurer.

## Rocket Slated In U. S. Trips

By United Press  
The rocket of Sputnik I, the Soviet Union's first earth satellite, will make several visible passages over the United States next week.

According to a timetable computed by scientists at the Smithsonian Astrophysical Observatory at Cambridge, Mass., the rocket "X" be visible Monday at 6:40 p.m. EST, entering the United States over Chicago and exiting from view over Atlanta.

Other cities which may catch glimpses of the rocket are Butte, Mont.; Denver, Colo.; and San Antonio. It will be visible in other portions of the nation Tuesday and Wednesday.

The rocket, now flying at an approximate height of 250 miles, is steadily peering the earth's atmosphere where it will burn up because of friction. Scientists have predicted that this will result in a blazing display about Dec. 11.

Moore Radio said Sputnik I had circled the earth 726 times at 10 p.m. EST Thursday and Sputnik II had made the trip 254 times.

## Death Reported

SAN FRANCISCO, Nov. 22 (AP)—Friends learned yesterday of the death in Cuba, Spain, of Capt. Antonio Martin, a long-time resident of San Francisco.

Martin died in a hospital Friday after a stroke. He left on a visit to his native country in June, 1956, and had planned to return here sometime next year, his wife said.

A former Spanish army officer, Martin came to San Francisco during the 1920's. In recent years, he made his home at the Fairmont hotel.

## Hoover Offers Plan to Speed Science Study

NEW YORK, Nov. 22 (AP)—Former President Herbert Hoover proposed today that some of the nation's high schools be converted into college preparatory institutions as a means toward increasing the output of scientists and engineers.

"The harsh fact," Hoover said, "is that the high schools are not preparing youngsters for the entrance requirements which must be maintained by our institutions training scientists and engineers."

The former president told the United Engineering Societies that inadequate college preparation in the high schools was largely to blame for Russia's outstripping the United States in scientific and engineering manpower. The United States, Hoover said, is turning out less than half as many scientists and engineers annually than it did several years ago.

At the same time, he said, Russia is graduating twice, and possibly three times, as many scientists and engineers as this country.

Hoover said there was "a fundamental weakness from the too prevalent high school system of allowing a 13 or 14 year old kid to choose out of his studies."

One remedy Hoover said would be to consolidate some high schools into institutions designed to equip students to meet the entrance requirements of universities and technical institutions.

As a second remedy, he proposed that school authorities ask engineers and scientists to volunteer two or three evenings a week in schools close by their homes.

"If this nation is not to degenerate intellectually and to lose its strength for daily life and defense against our enemies, the school boards, taxpayers and parent teachers' associations had better wake up."

## Hits Interference

DALLAS, Nov. 22 (AP)—School Rust W. C. White saw the biggest threat to public school education is interference by the federal government.

Dallas schools are under court order to integrate after midyear. White said those who ask the federal government for aid "are handing over to outside power the rights and responsibilities that ought to be handled at the local level."

"I had rather have less money, not as good equipment, school houses less well built... as long as we keep it at the local level," he said.
